

Features that are significant for each variate (treatment=ARV-825_1uM)
170 of 534 features are significant for none of these 4 variates

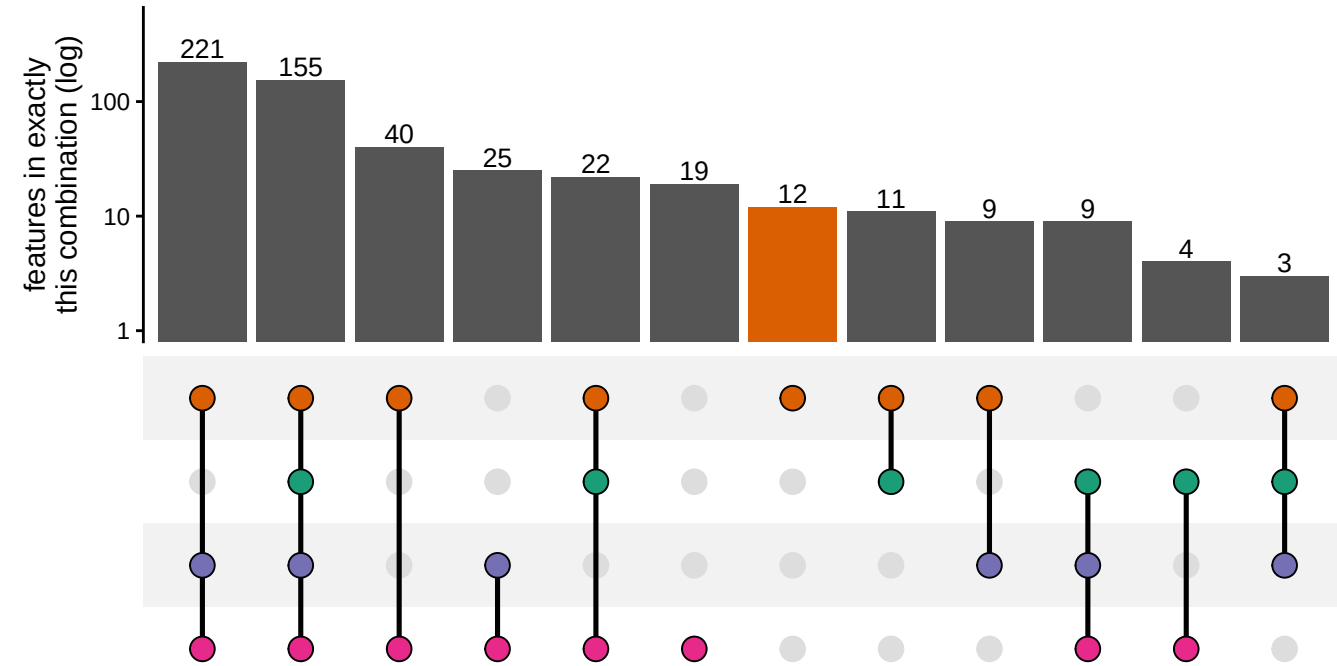

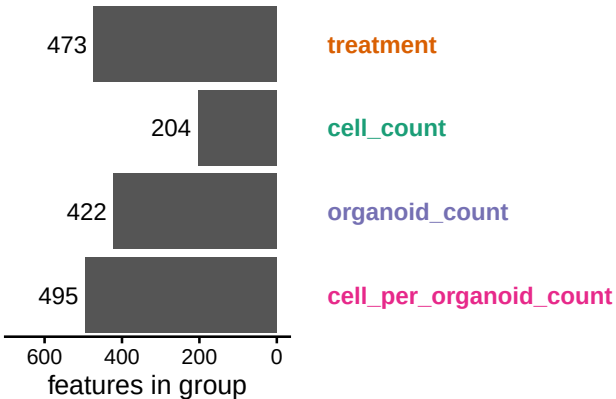

Feature membership across variate groups, treatment=ARV-825_1uM (orange = treatment only)

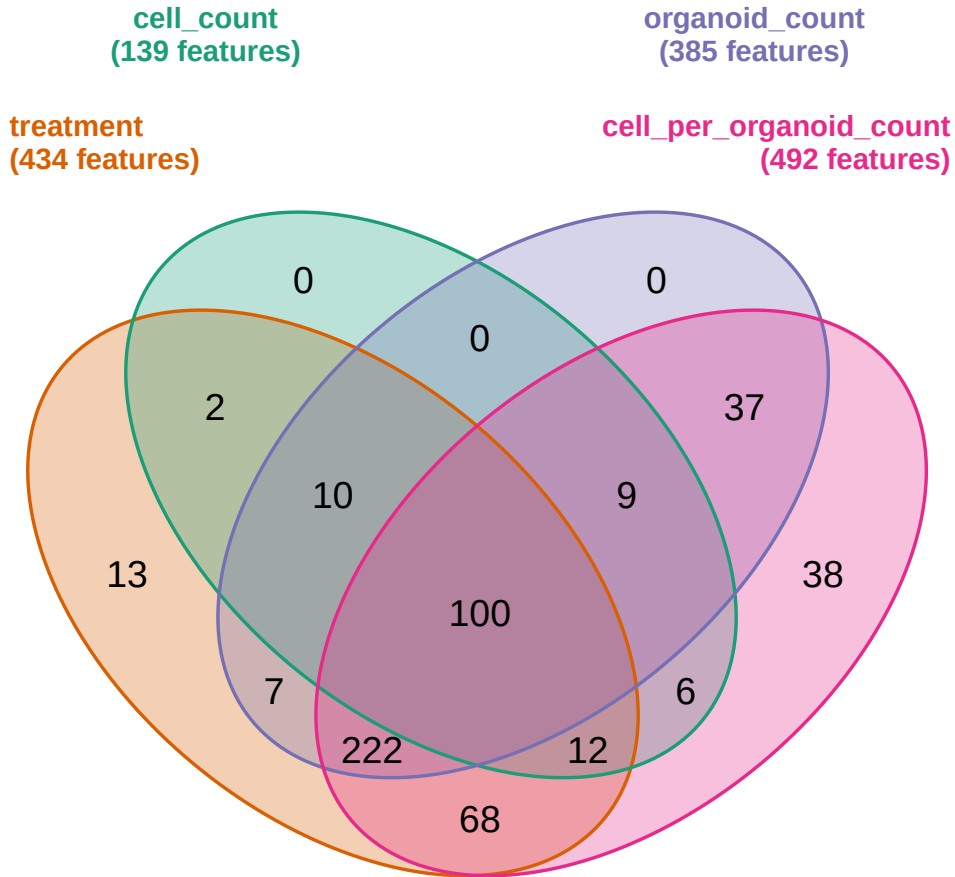

Features that are significant for each variate (treatment=Binimetinib_10uM)
4 of 534 features are significant for none of these 4 variates

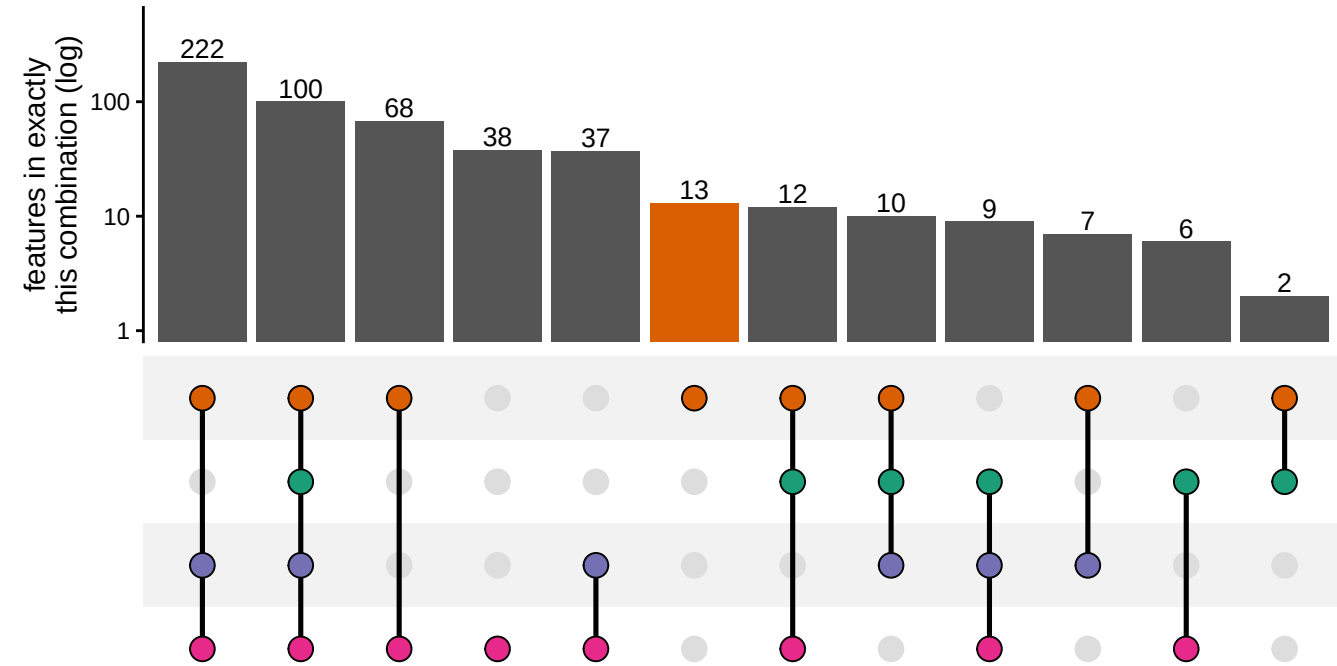

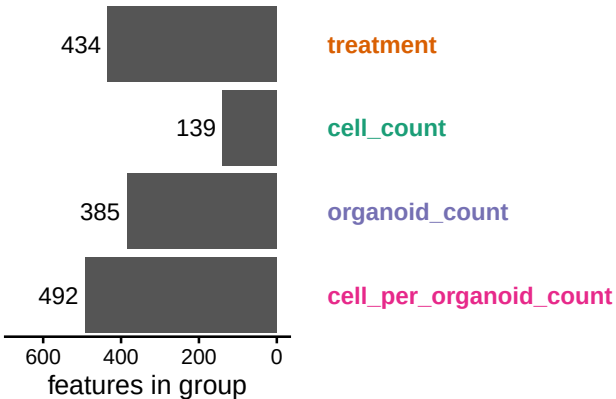

Feature membership across variate groups, treatment=Binimetinib_10uM (orange = treatment only)

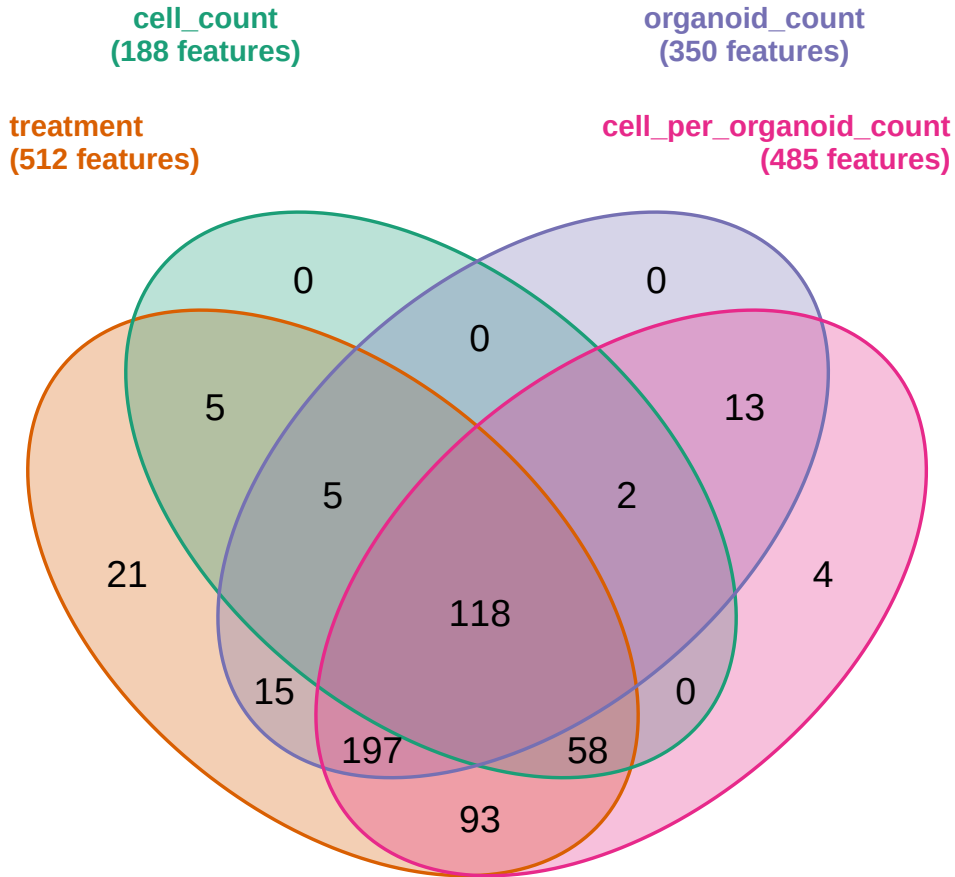

Features that are significant for each variate (treatment=Binimetinib_1uM)
10 of 534 features are significant for none of these 4 variates

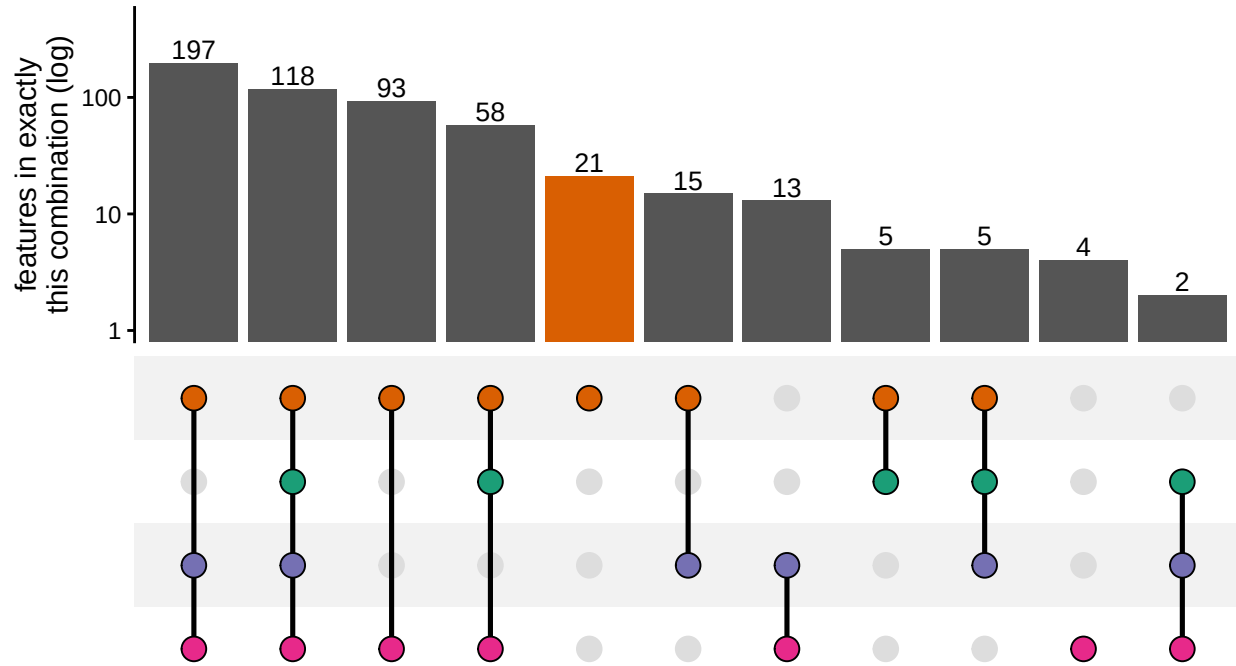

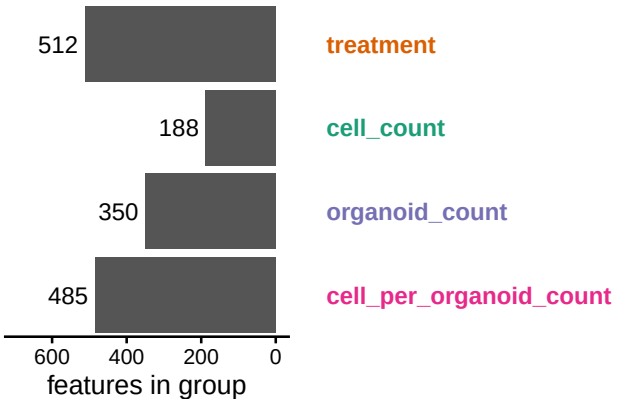

Feature membership across variate groups, treatment=Binimetinib_1uM (orange = treatment only)

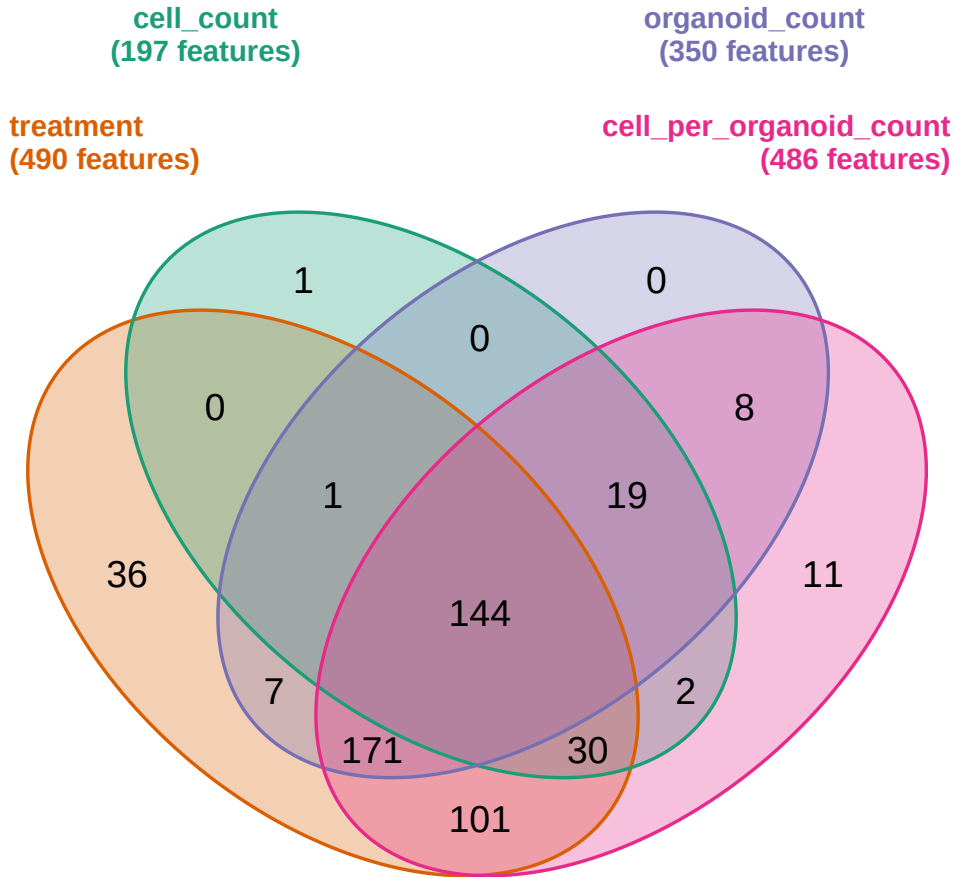

Features that are significant for each variate (treatment=Cabozantinib_1uM)
3 of 534 features are significant for none of these 4 variates

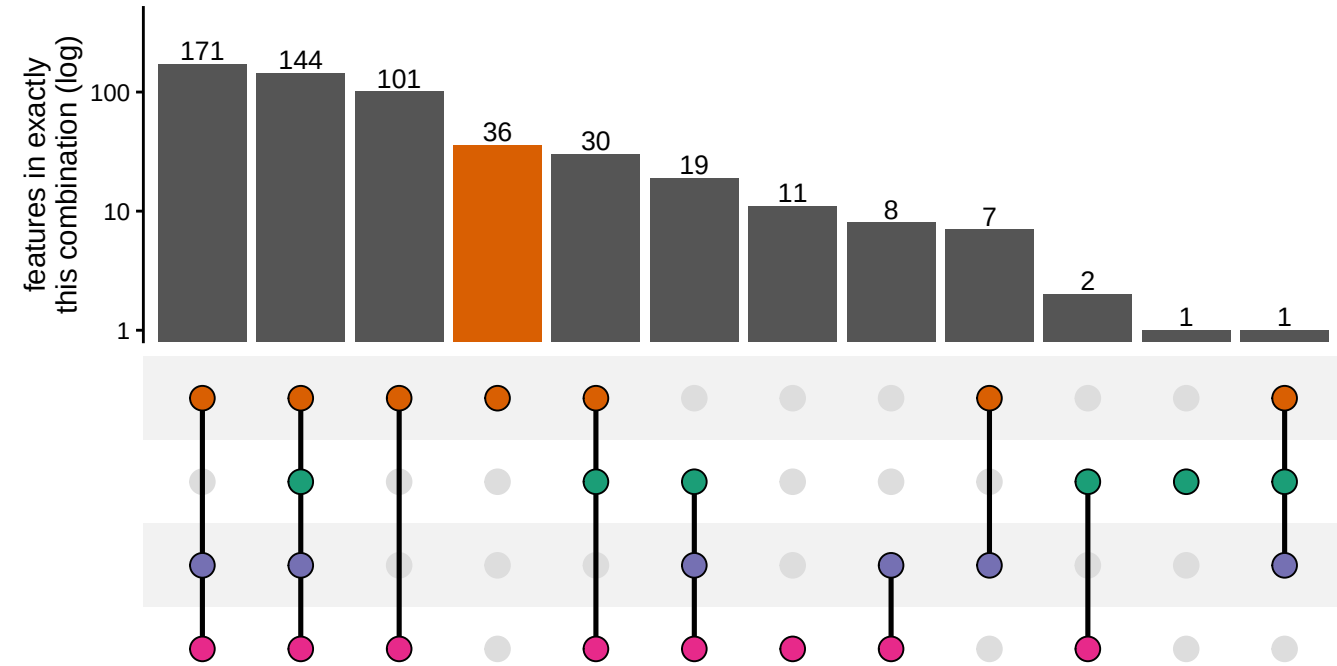

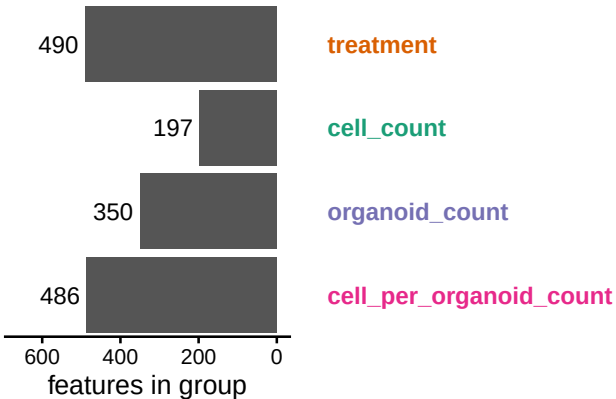

Feature membership across variate groups, treatment=Cabozantinib_1uM (orange = treatment only)

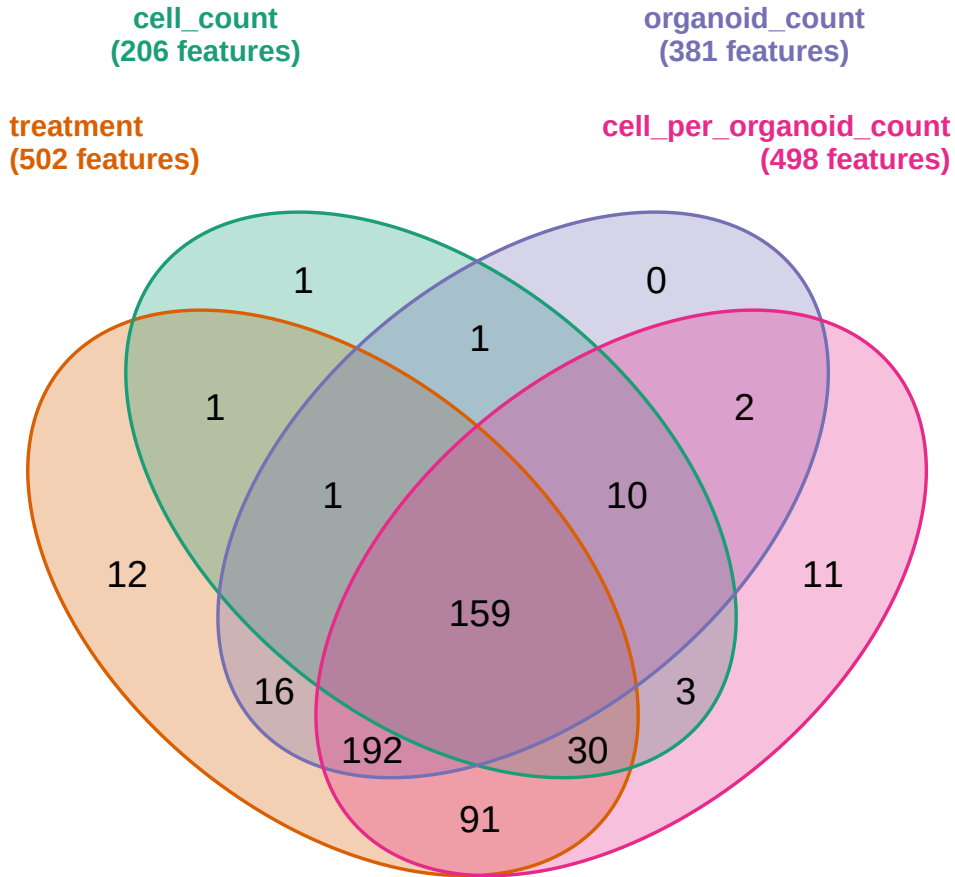

Features that are significant for each variate (treatment=Copanlisib_1uM)
3 of 534 features are significant for none of these 4 variates

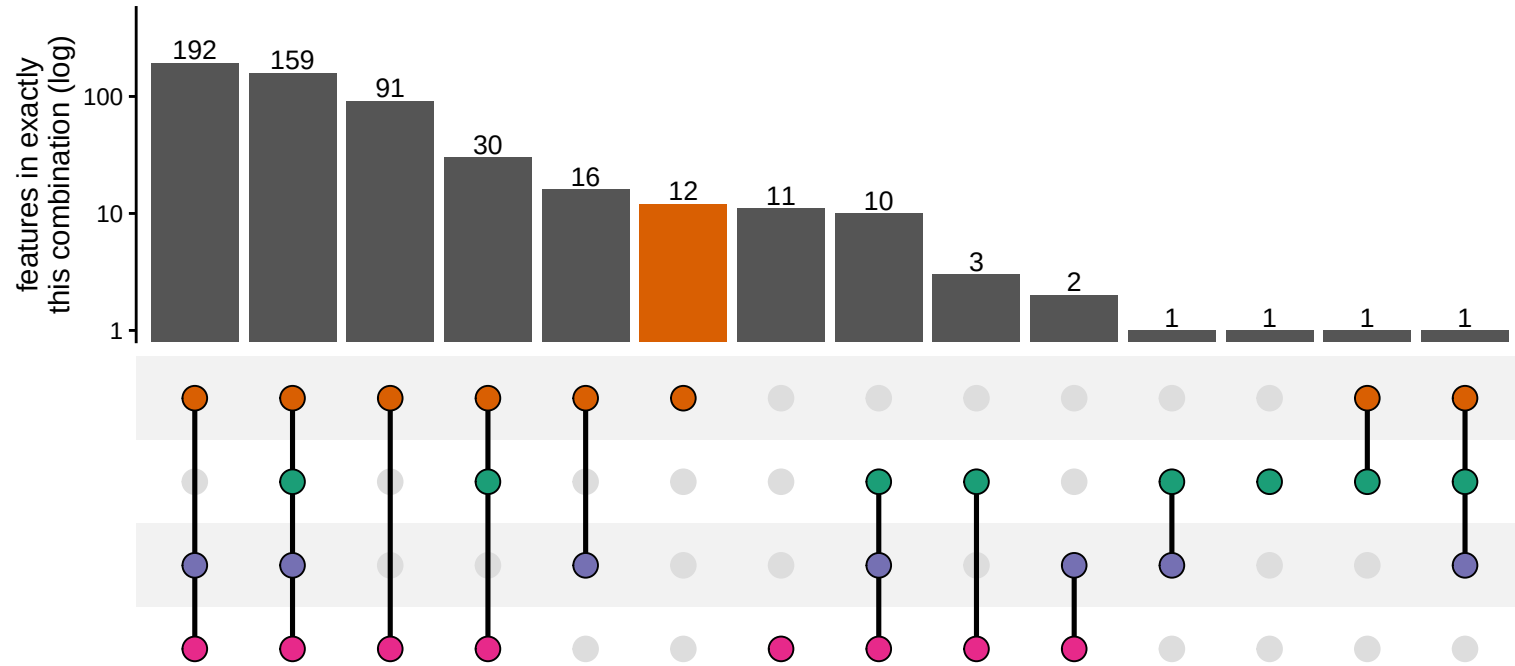

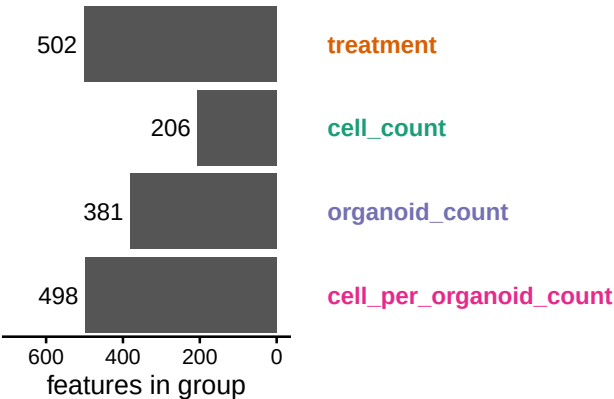

Feature membership across variate groups, treatment=Copanlisib_1uM (orange = treatment only)

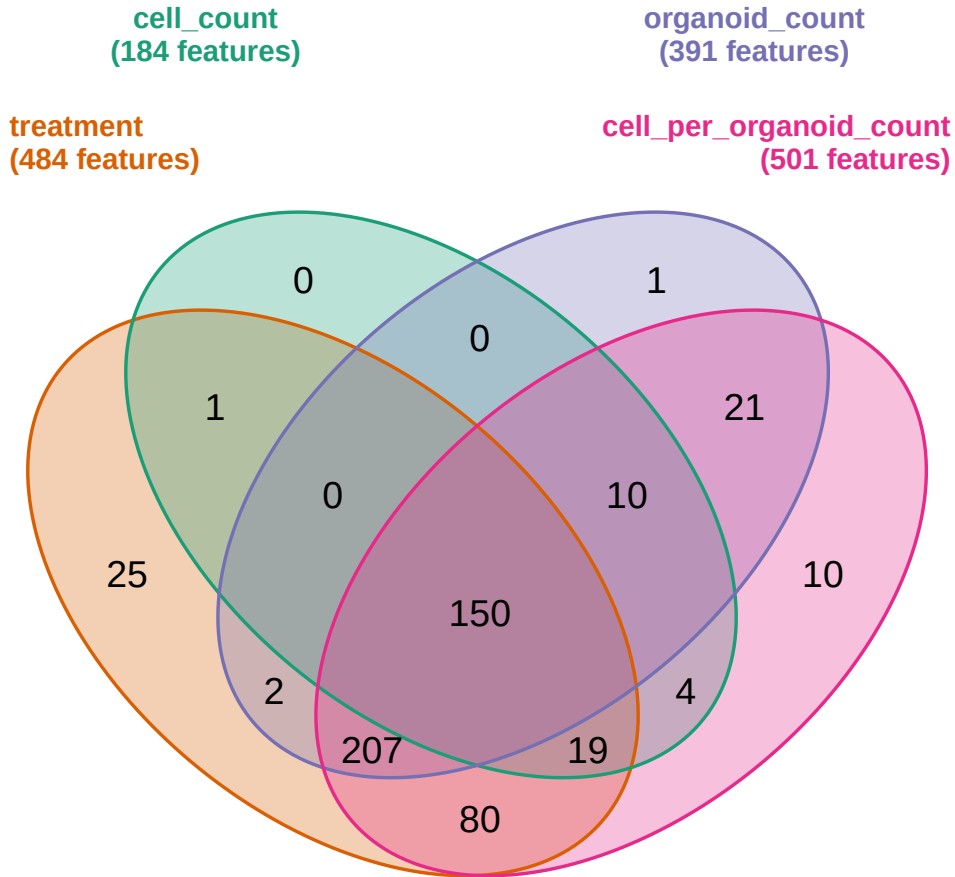

Features that are significant for each variate (treatment=Digoxin_1uM)
4 of 534 features are significant for none of these 4 variates

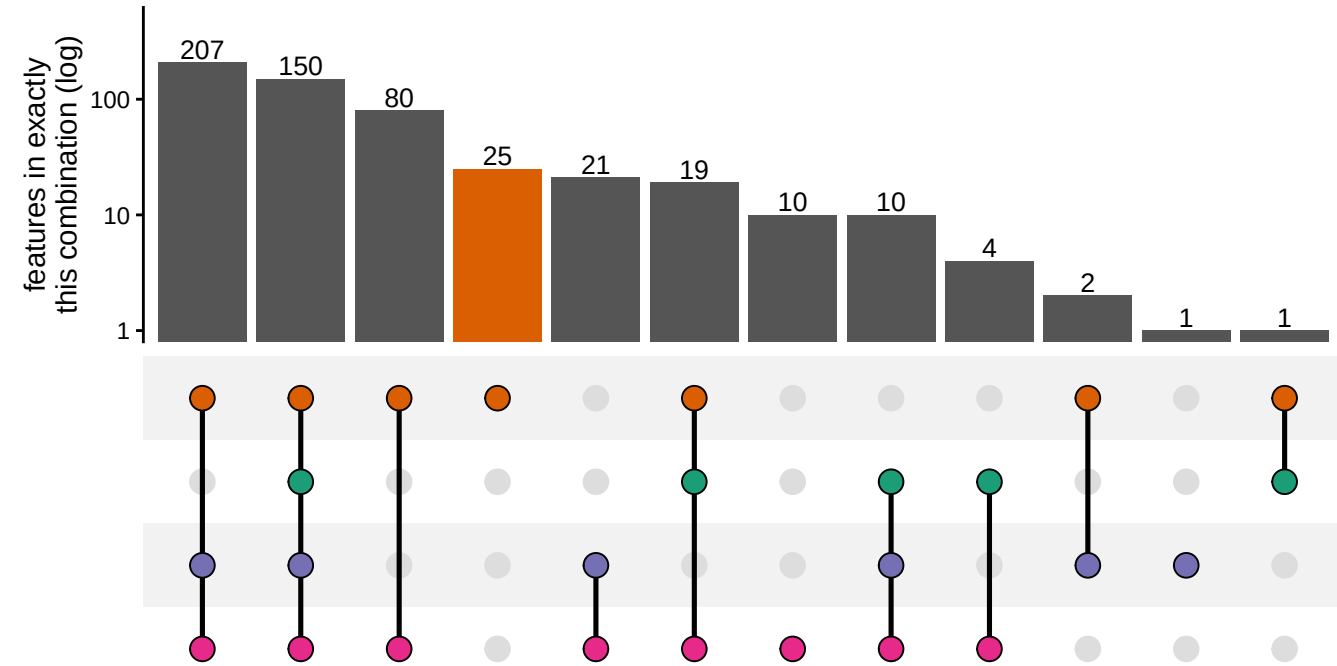

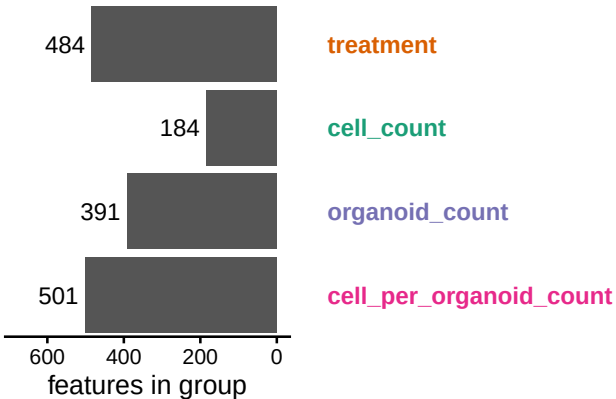

Feature membership across variate groups, treatment=Digoxin_1uM (orange = treatment only)

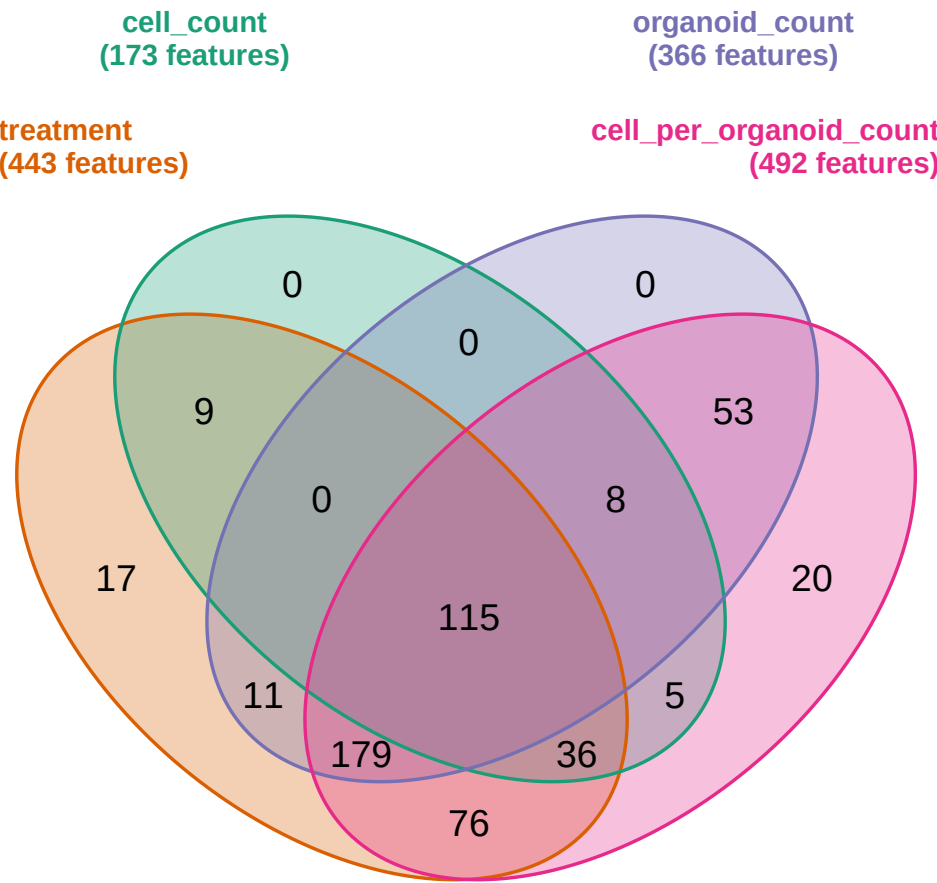

Features that are significant for each variate (treatment=Everolimus_1uM)
4 of 534 features are significant for none of these 4 variates

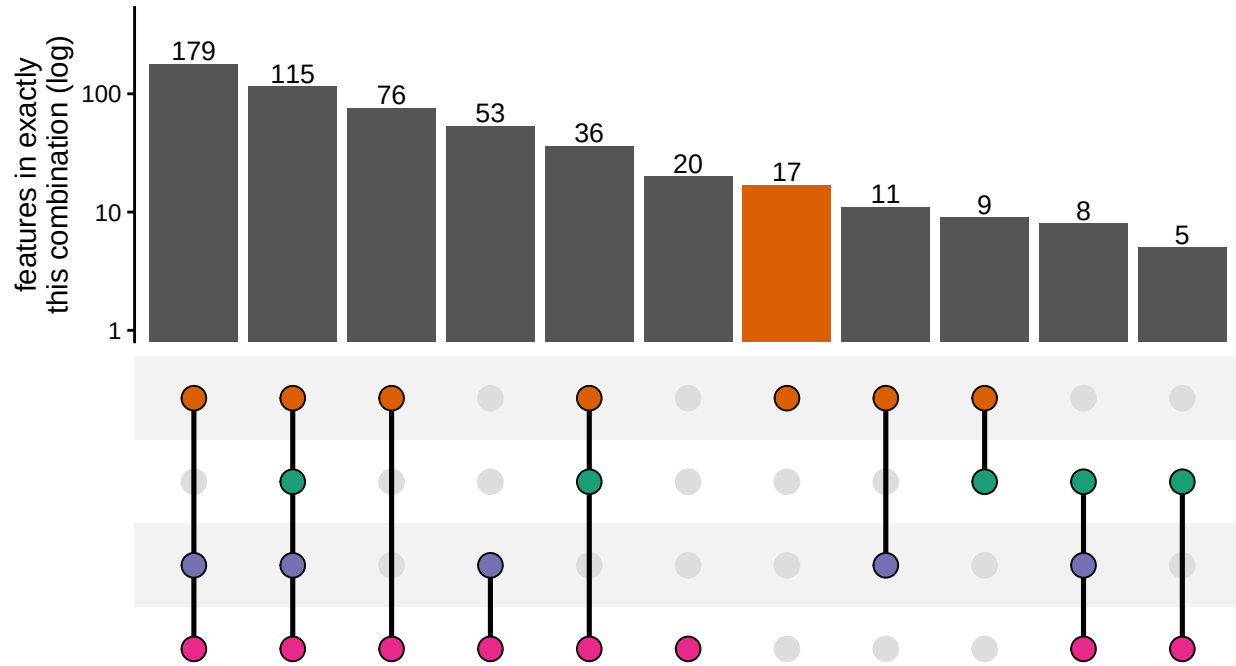

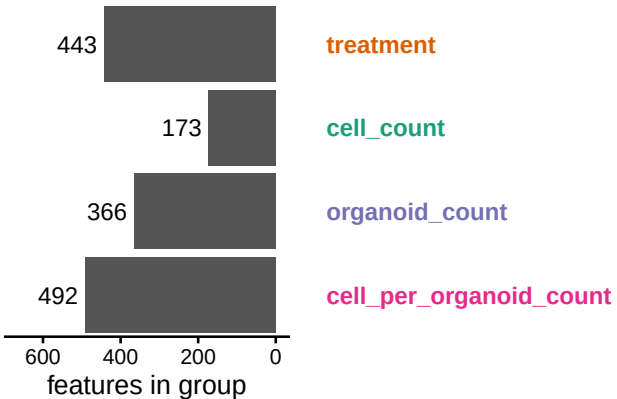

Feature membership across variate groups, treatment=Everolimus_1uM (orange = treatment only)

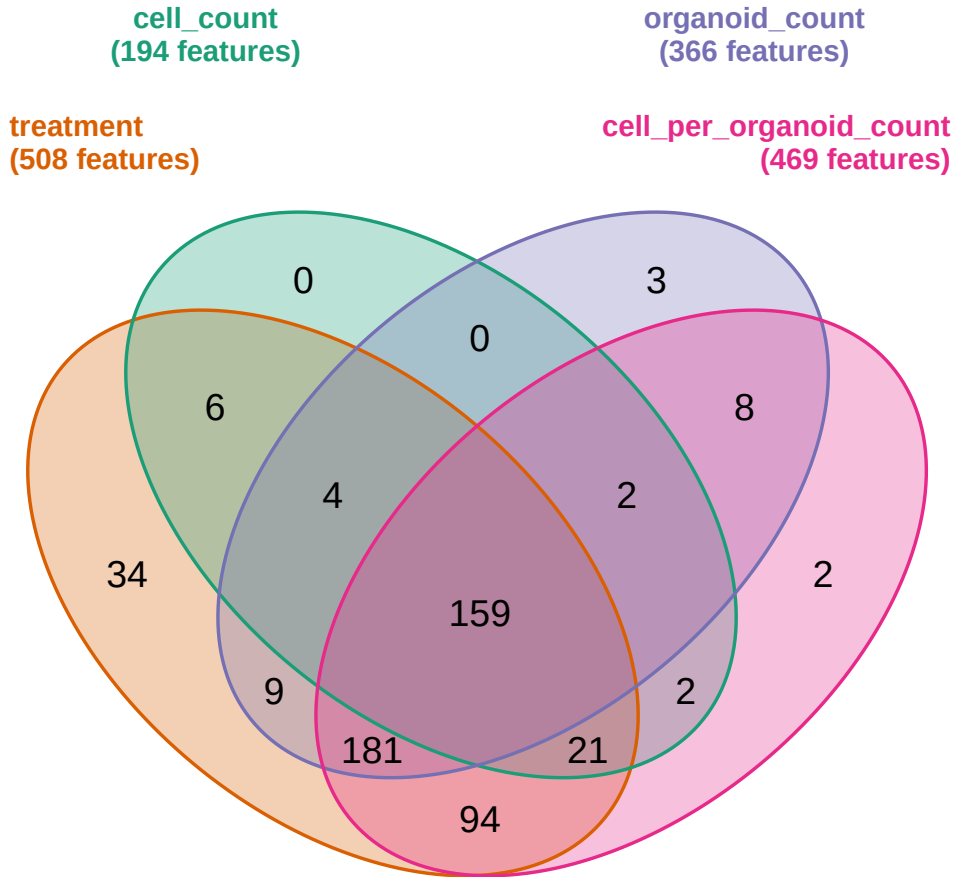

Features that are significant for each variate (treatment=Fimepinostat_1uM)
5 of 534 features are significant for none of these 4 variates

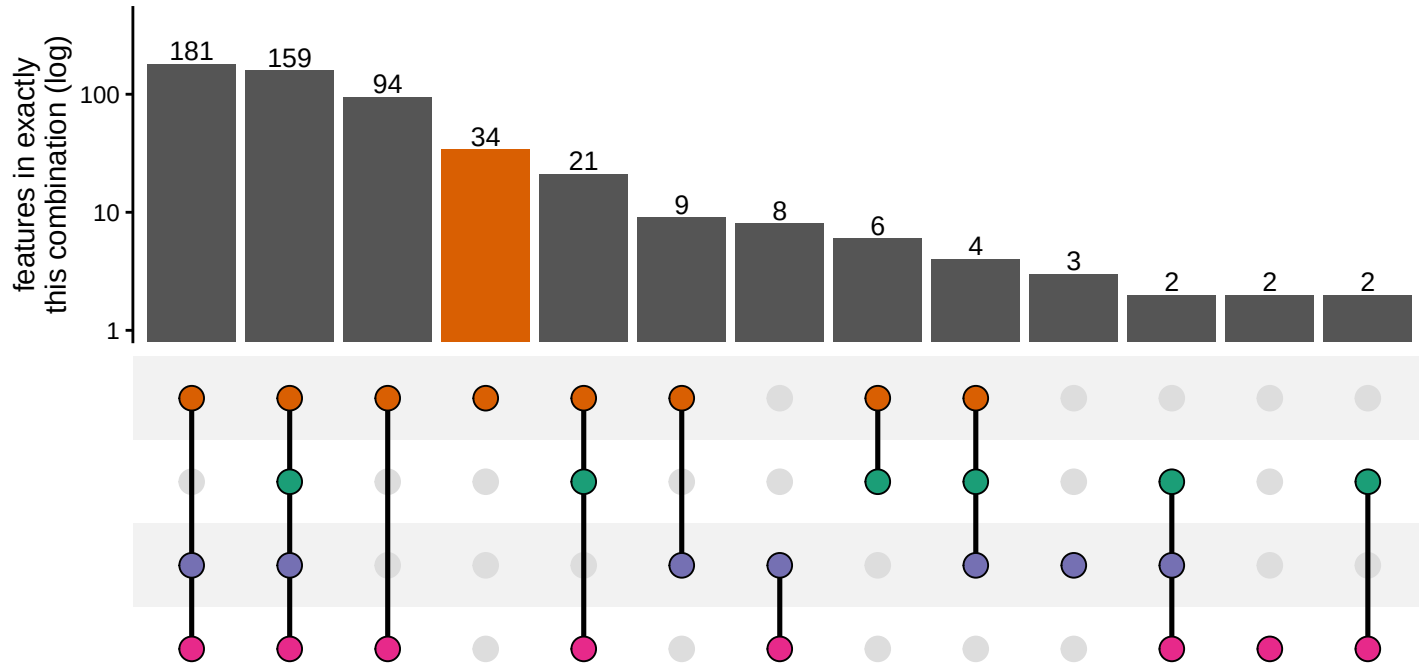

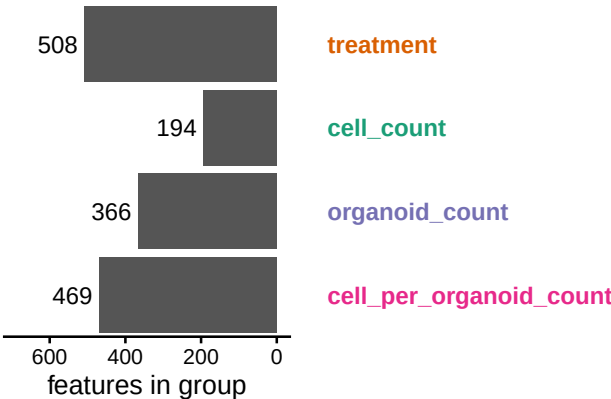

Feature membership across variate groups, treatment=Fimepinostat_1uM (orange = treatment only)

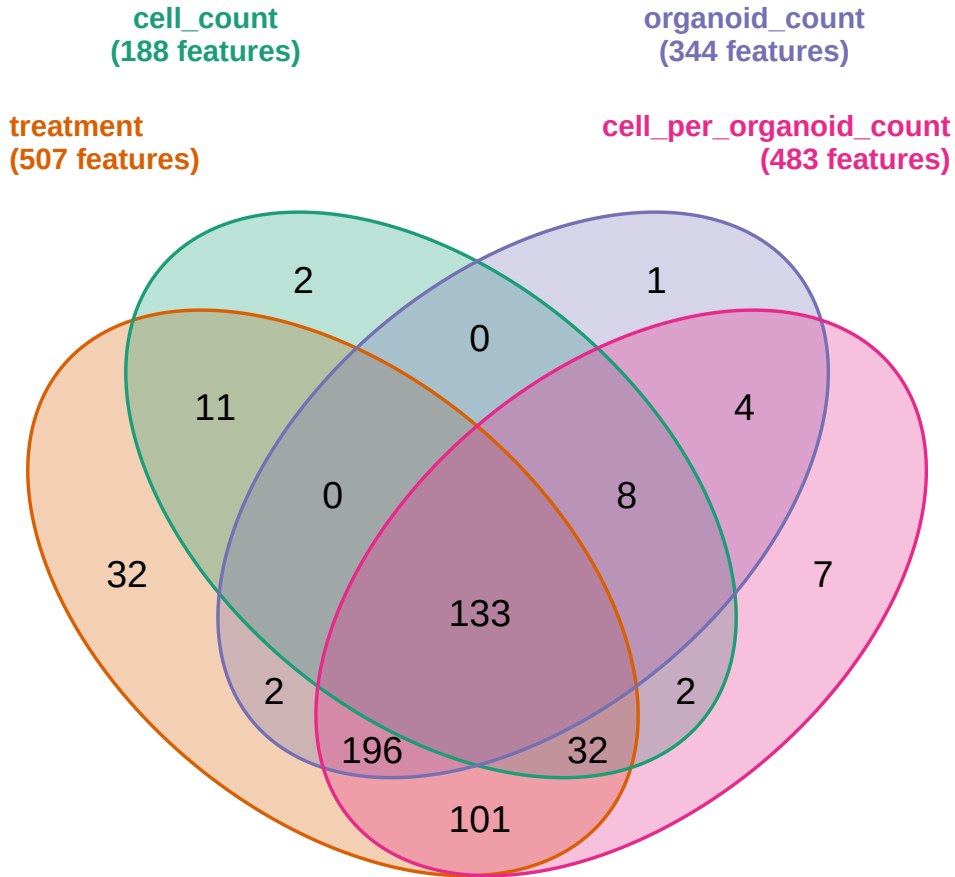

Features that are significant for each variate (treatment=Imatinib_1uM)
9 of 534 features are significant for none of these 4 variates

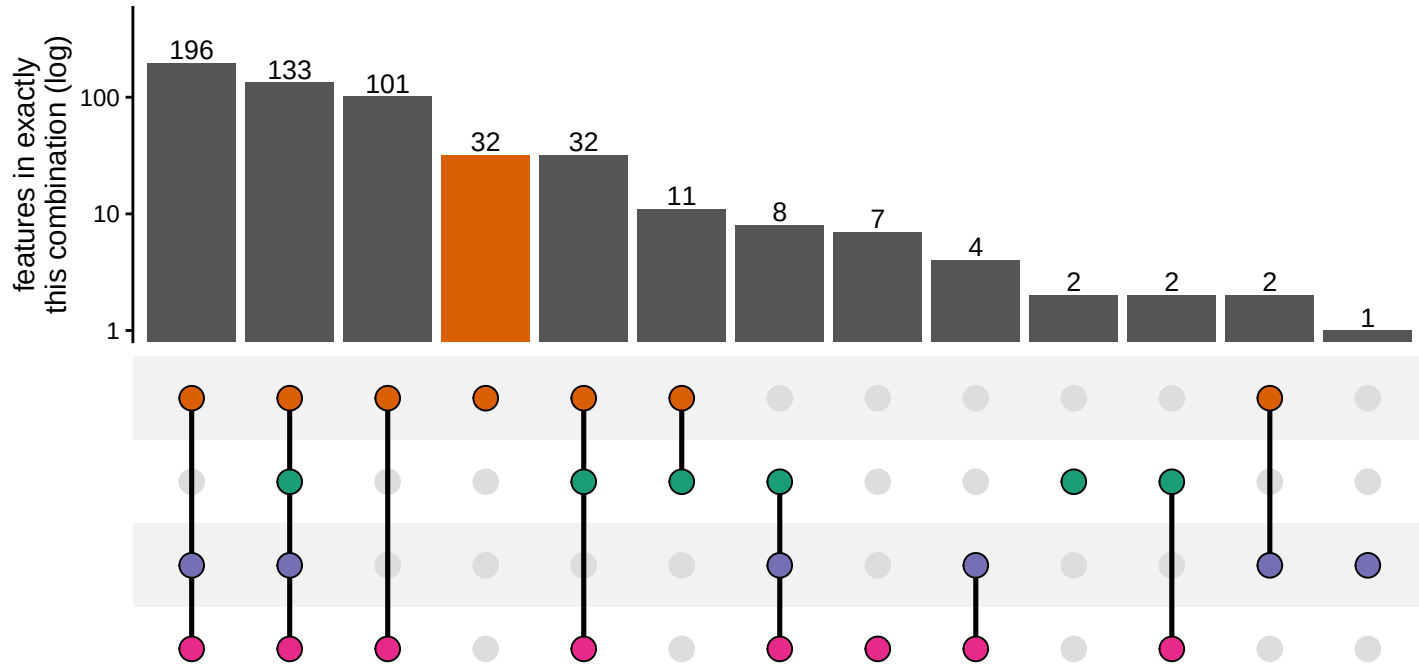

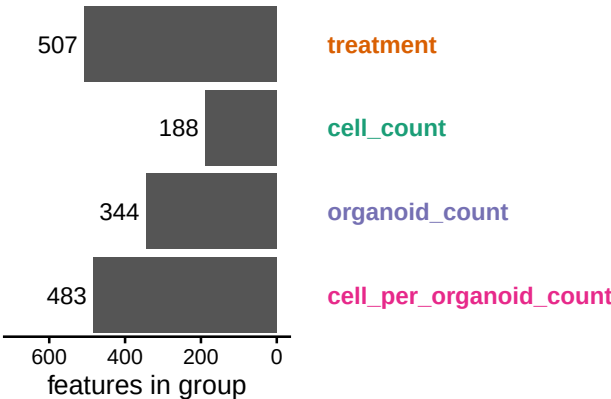

Feature membership across variate groups, treatment=Imatinib_1uM (orange = treatment only)

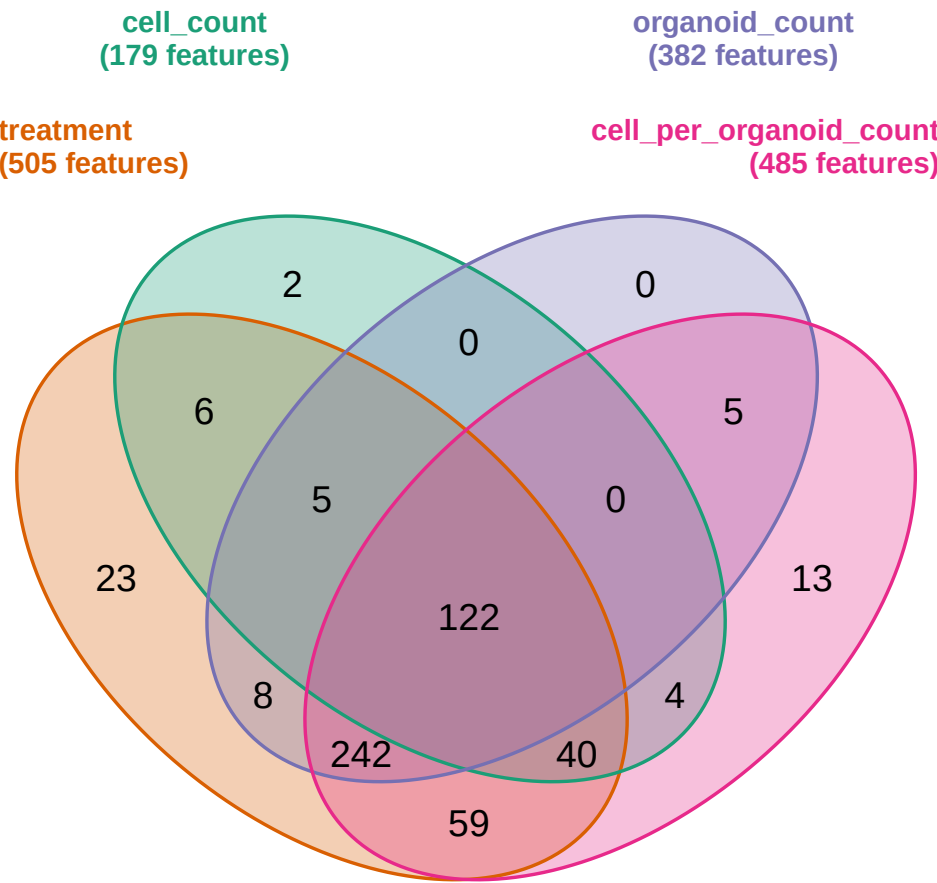

Features that are significant for each variate (treatment=Ketotifen_1uM)
3 of 534 features are significant for none of these 4 variates

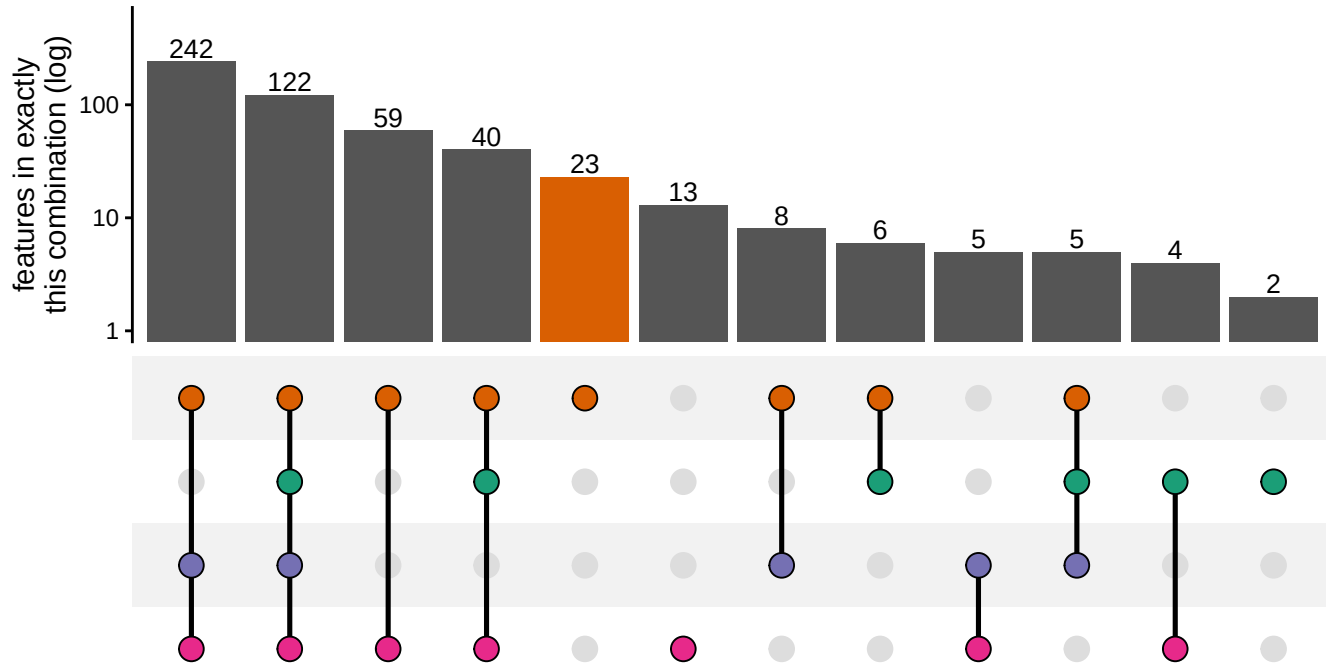

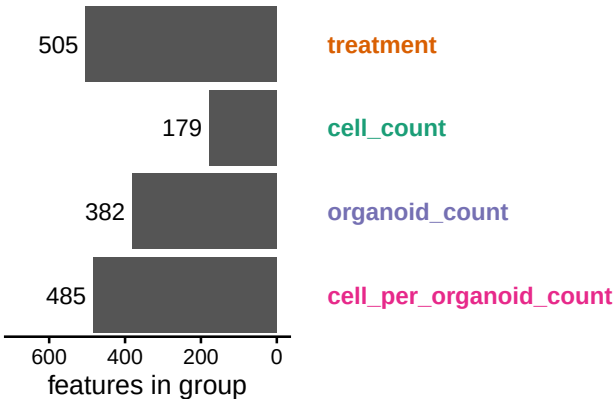

Feature membership across variate groups, treatment=Ketotifen_1uM (orange = treatment only)

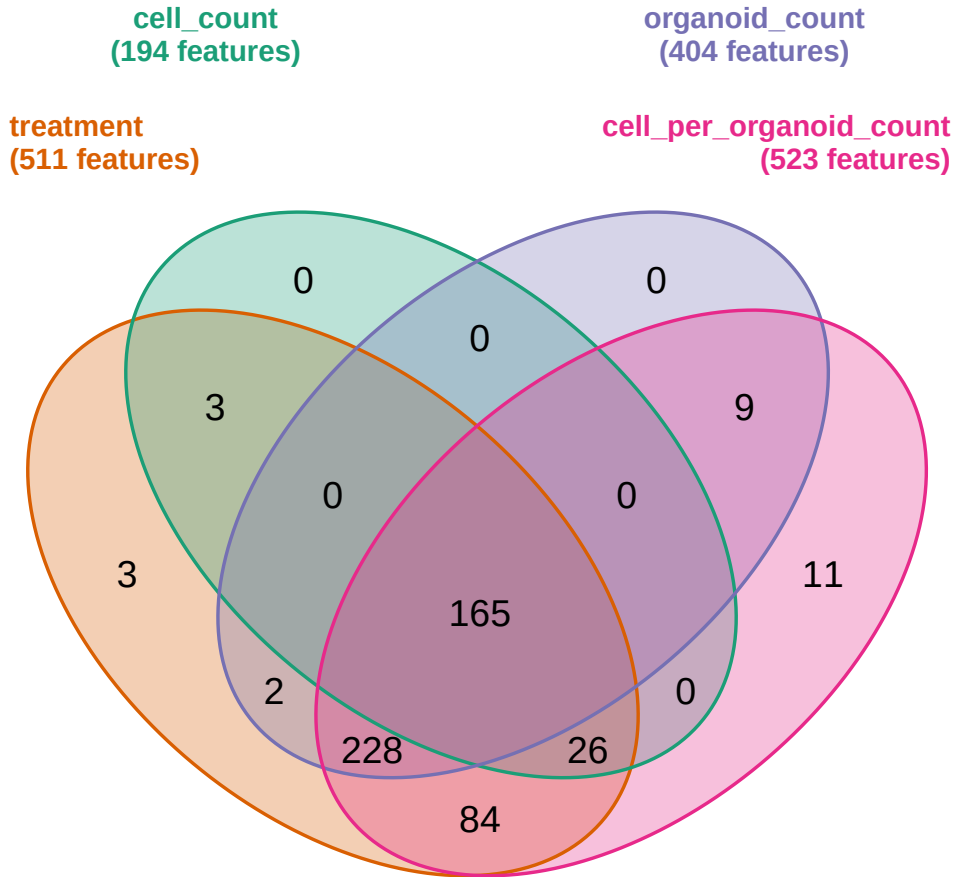

Features that are significant for each variate (treatment=Linsitinib_1uM)
5 of 534 features are significant for none of these 4 variates

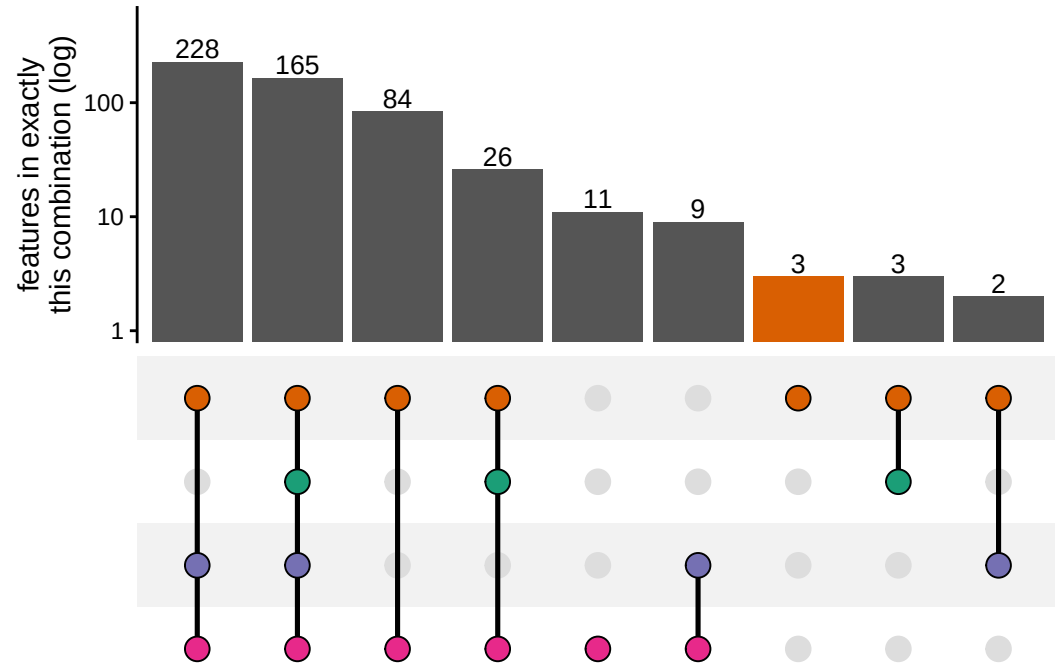

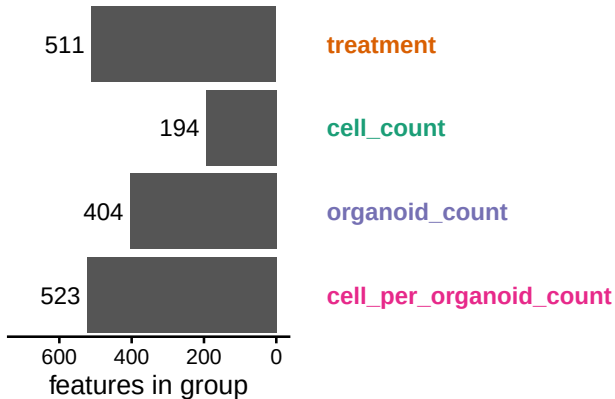

Feature membership across variate groups, treatment=Linsitinib_1uM (orange = treatment only)

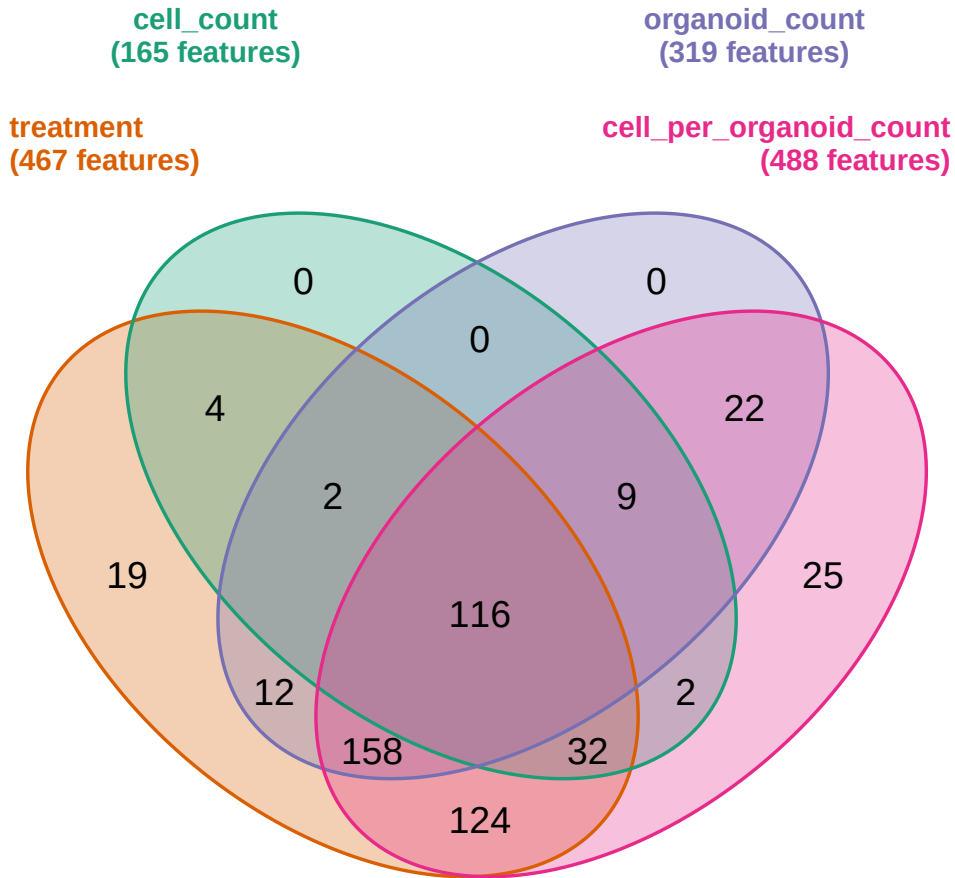

Features that are significant for each variate (treatment=Mirdametinib_10uM)
3 of 534 features are significant for none of these 4 variates

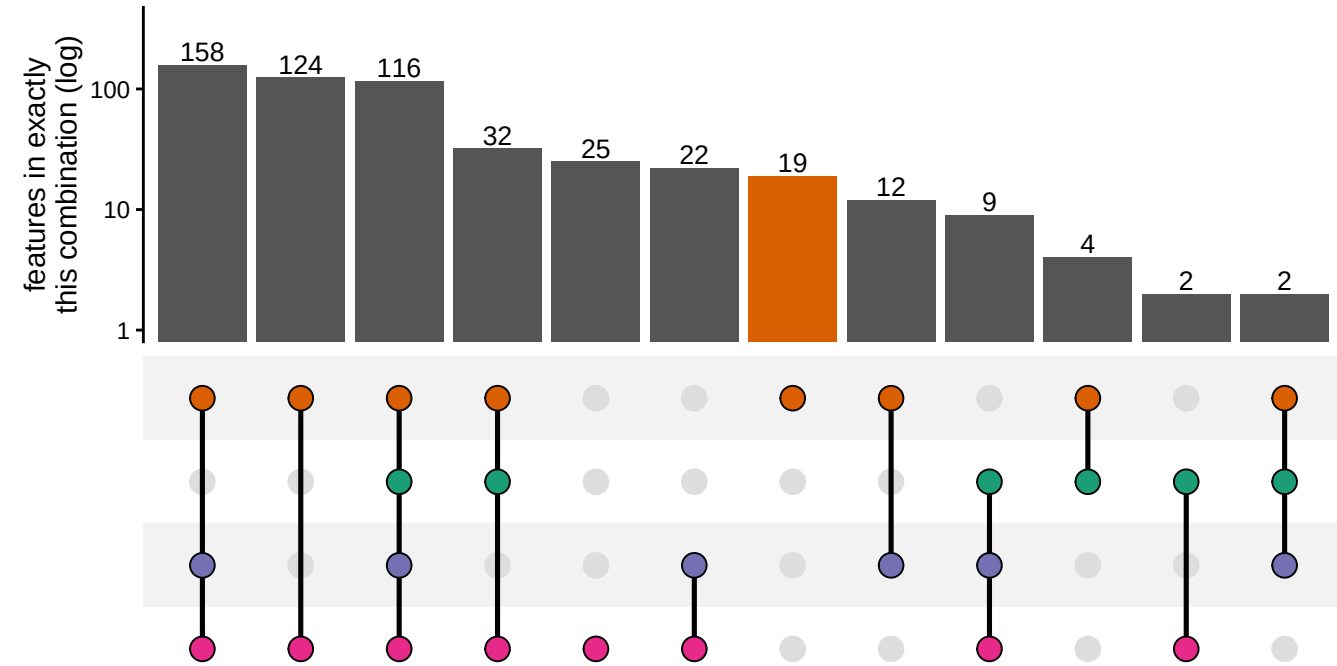

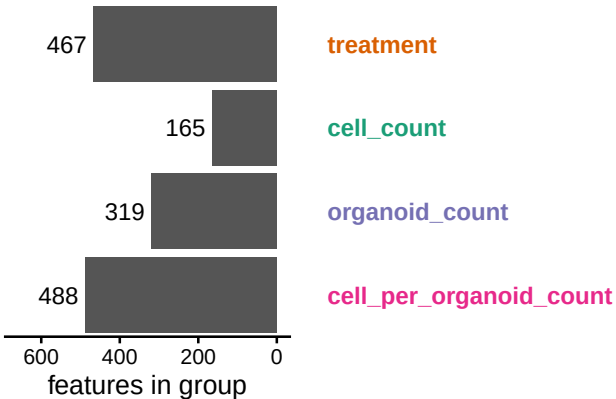

Feature membership across variate groups, treatment=Mirdametinib_10uM (orange = treatment only)

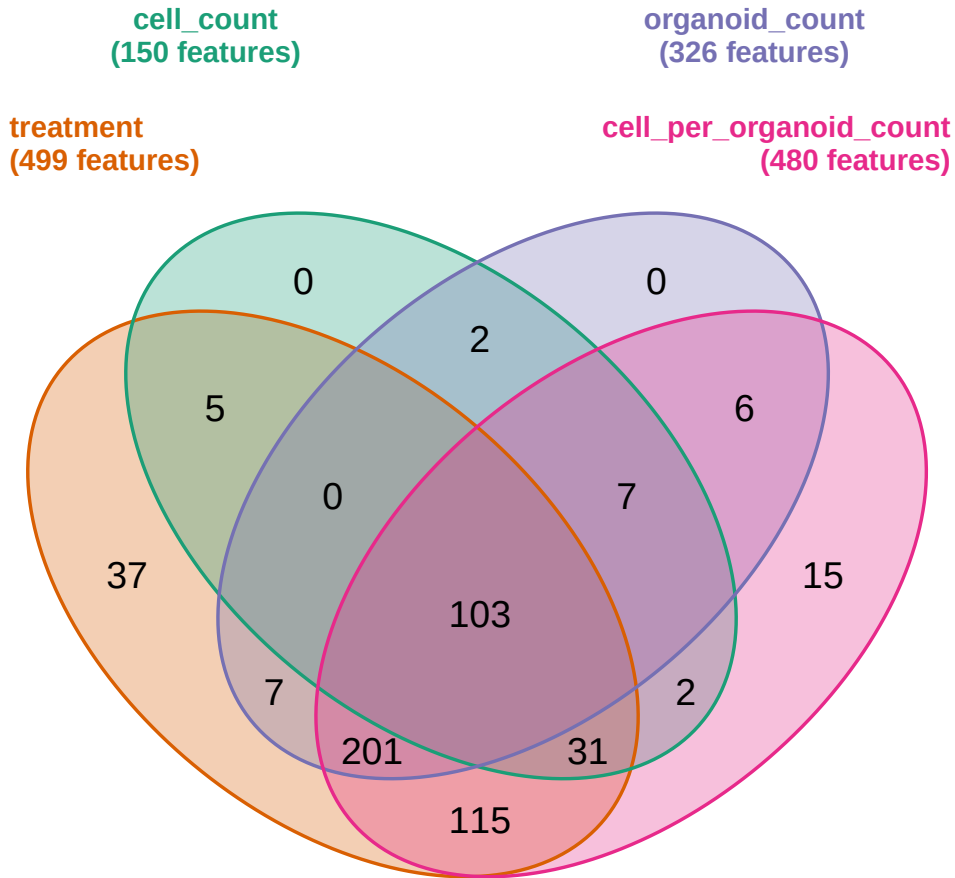

Features that are significant for each variate (treatment=Mirdametinib_1uM)
9 of 534 features are significant for none of these 4 variates

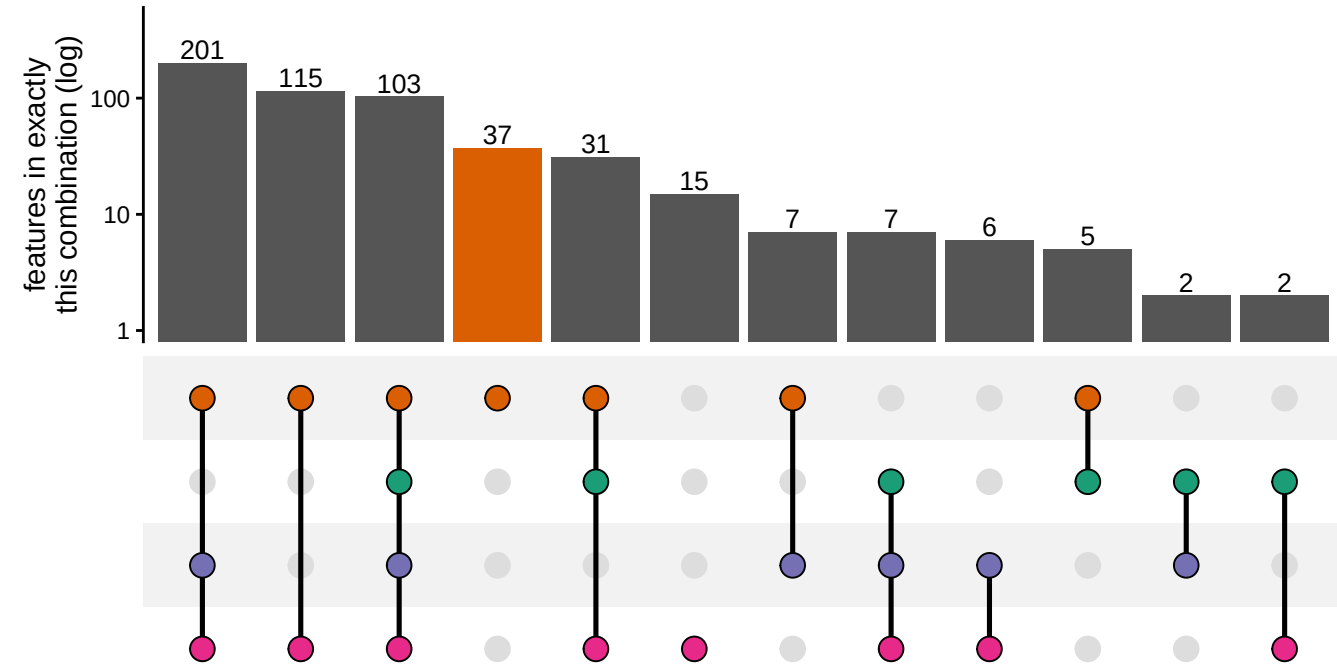

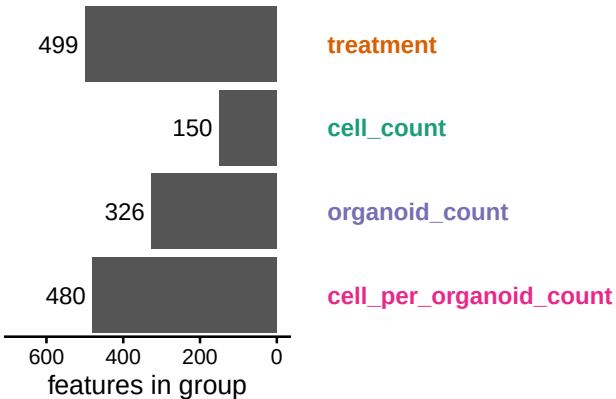

Feature membership across variate groups, treatment=Mirdametinib_1uM (orange = treatment only)

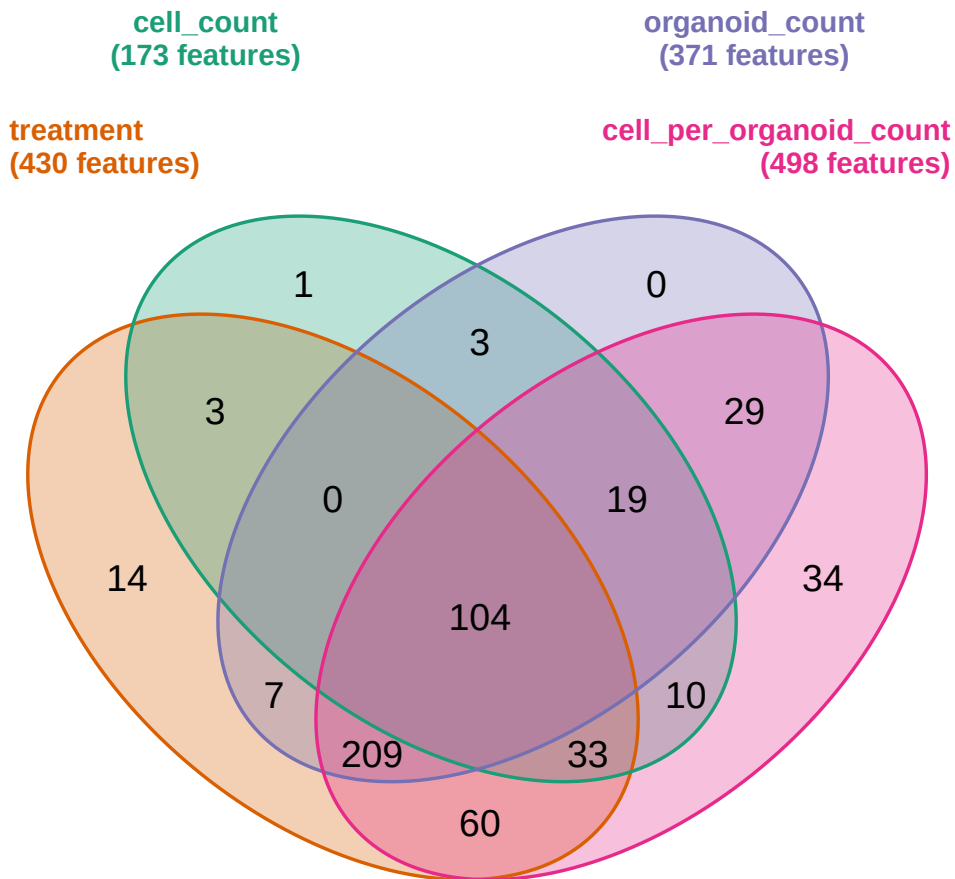

Features that are significant for each variate (treatment=Nilotinib_1uM)
3 of 534 features are significant for none of these 4 variates

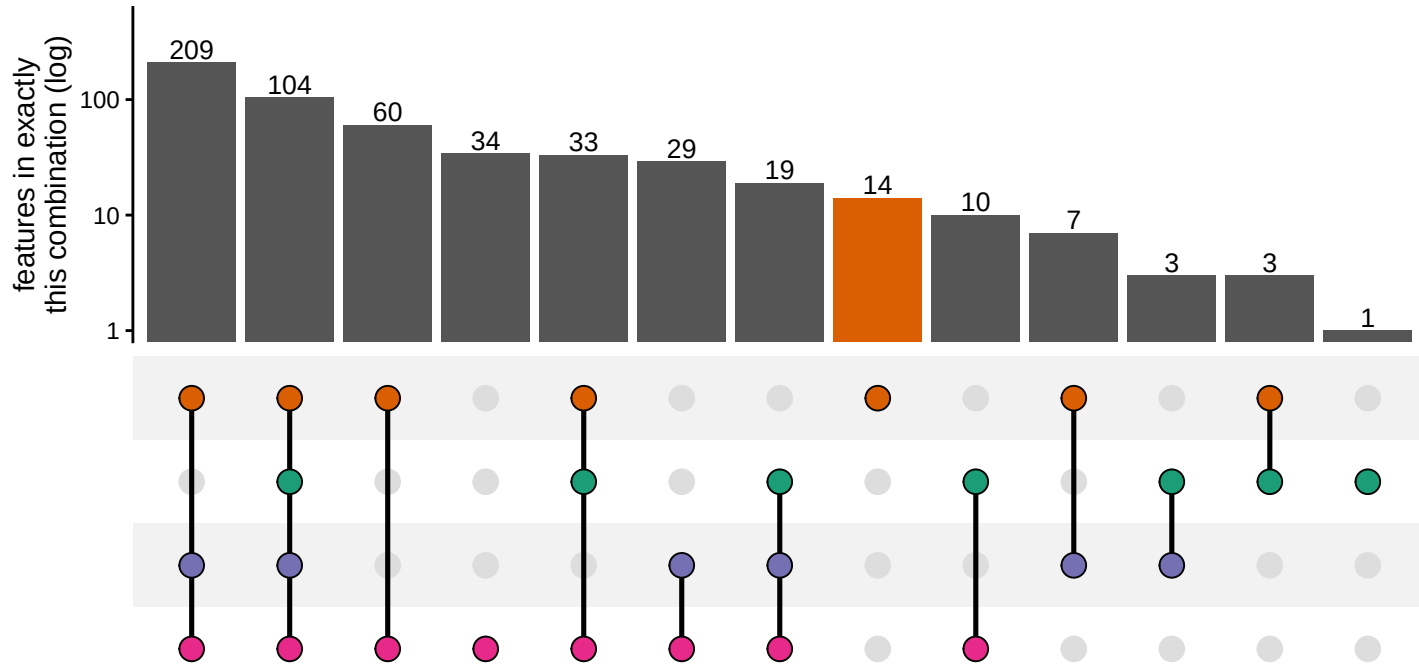

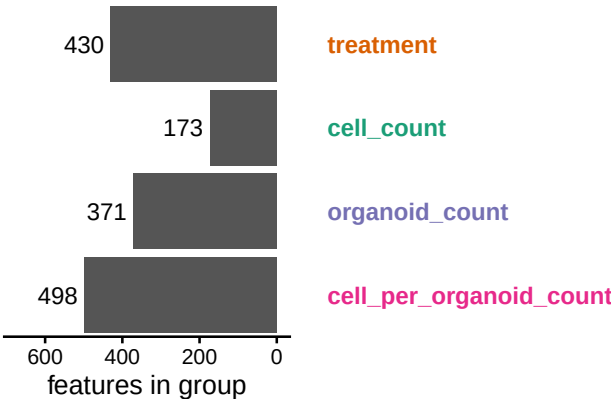

Feature membership across variate groups, treatment=Nilotinib_1uM (orange = treatment only)

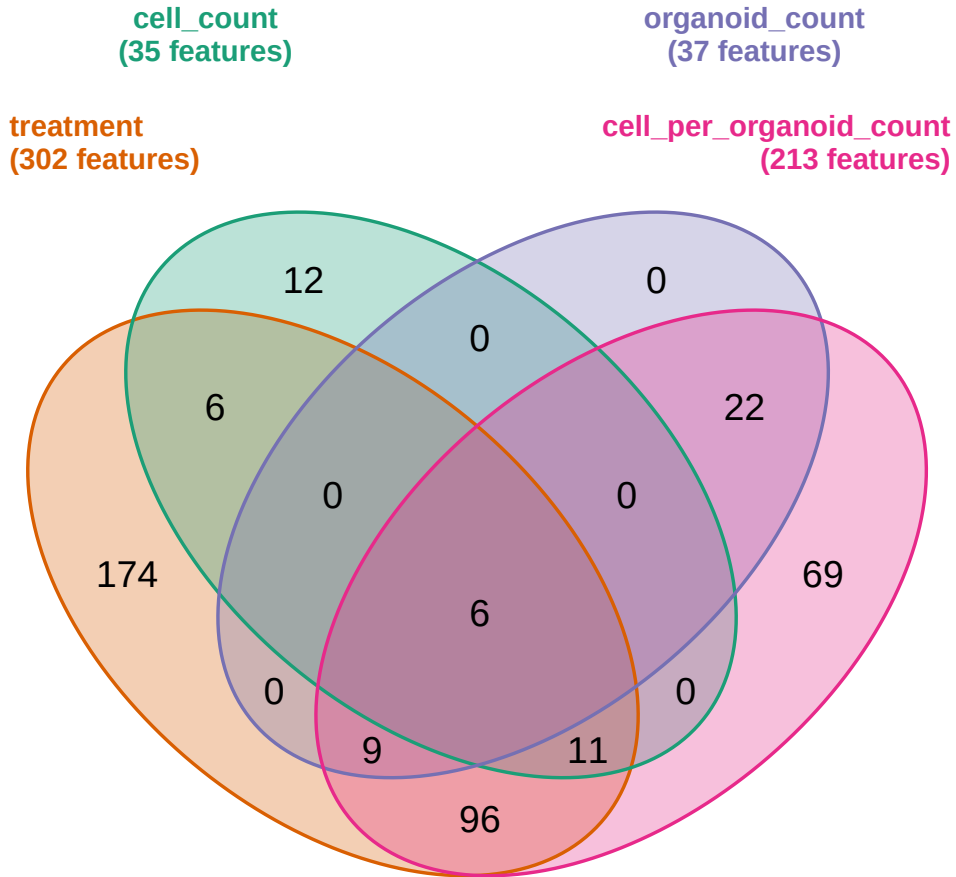

Features that are significant for each variate (treatment=Onalespib_1uM)
8 of 534 features are significant for none of these 4 variates

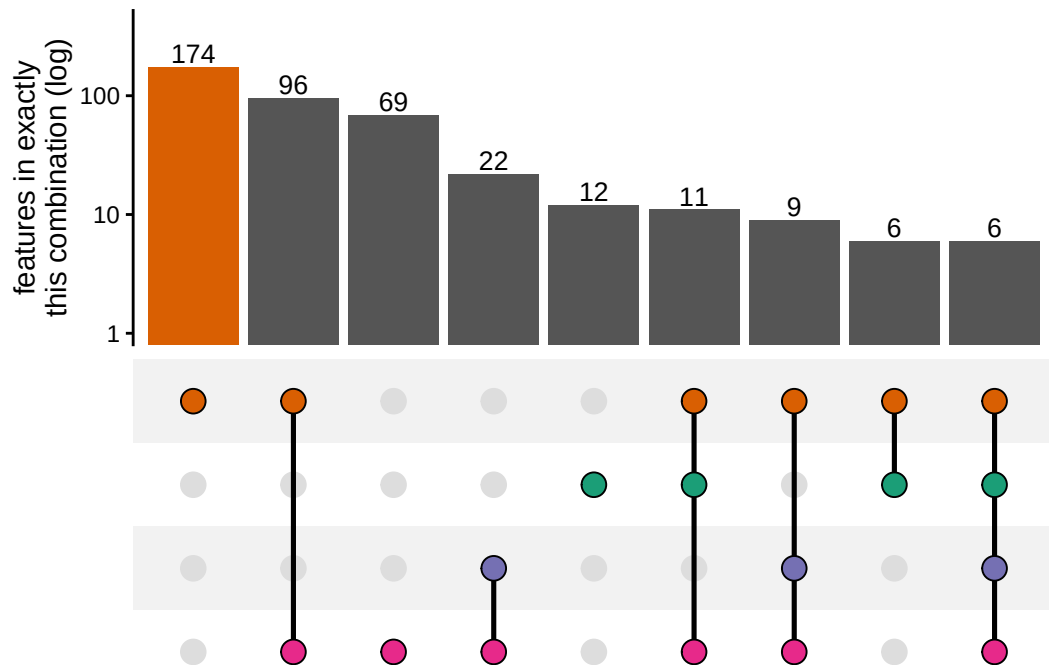

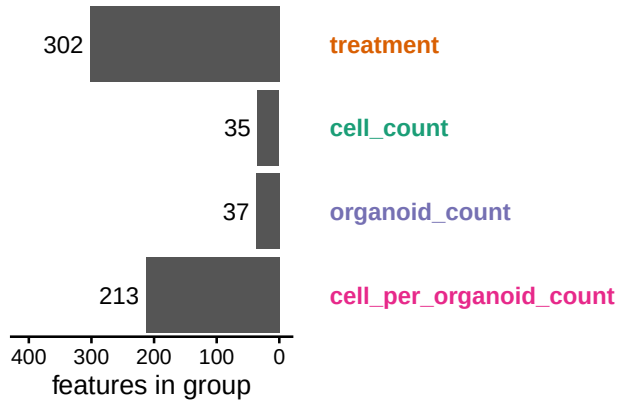

Feature membership across variate groups, treatment=Onalespib_1uM (orange = treatment only)

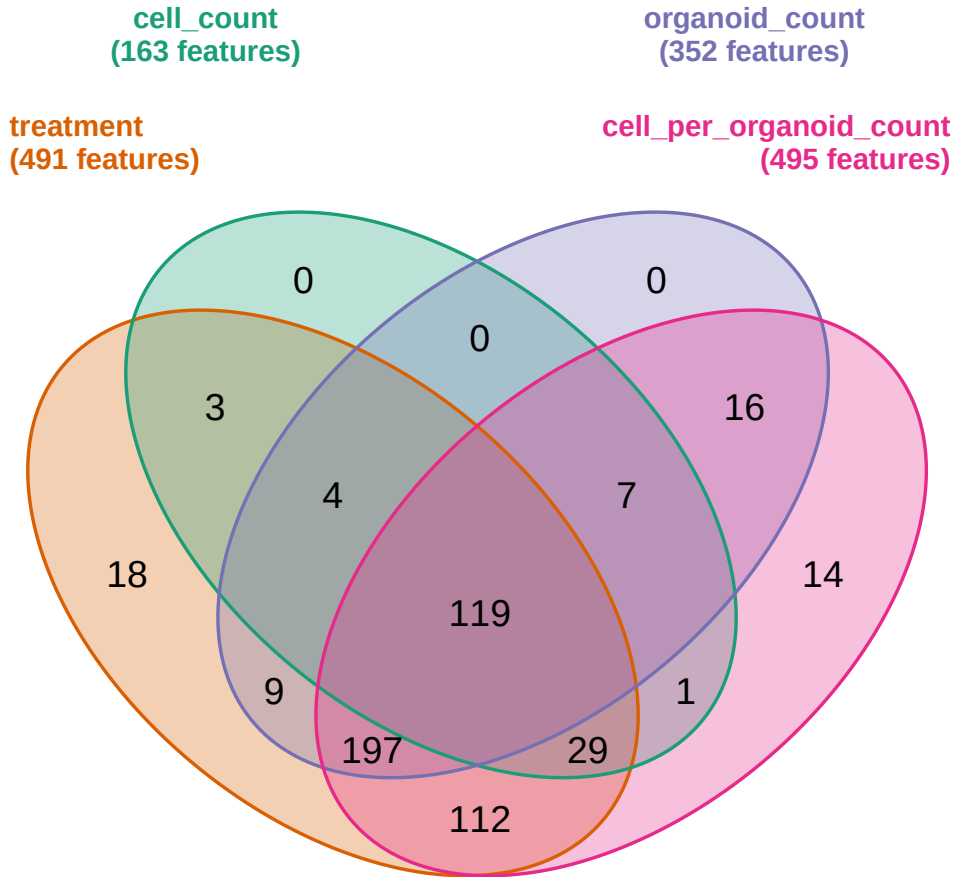

Features that are significant for each variate (treatment=Panobinostat_1uM)
129 of 534 features are significant for none of these 4 variates

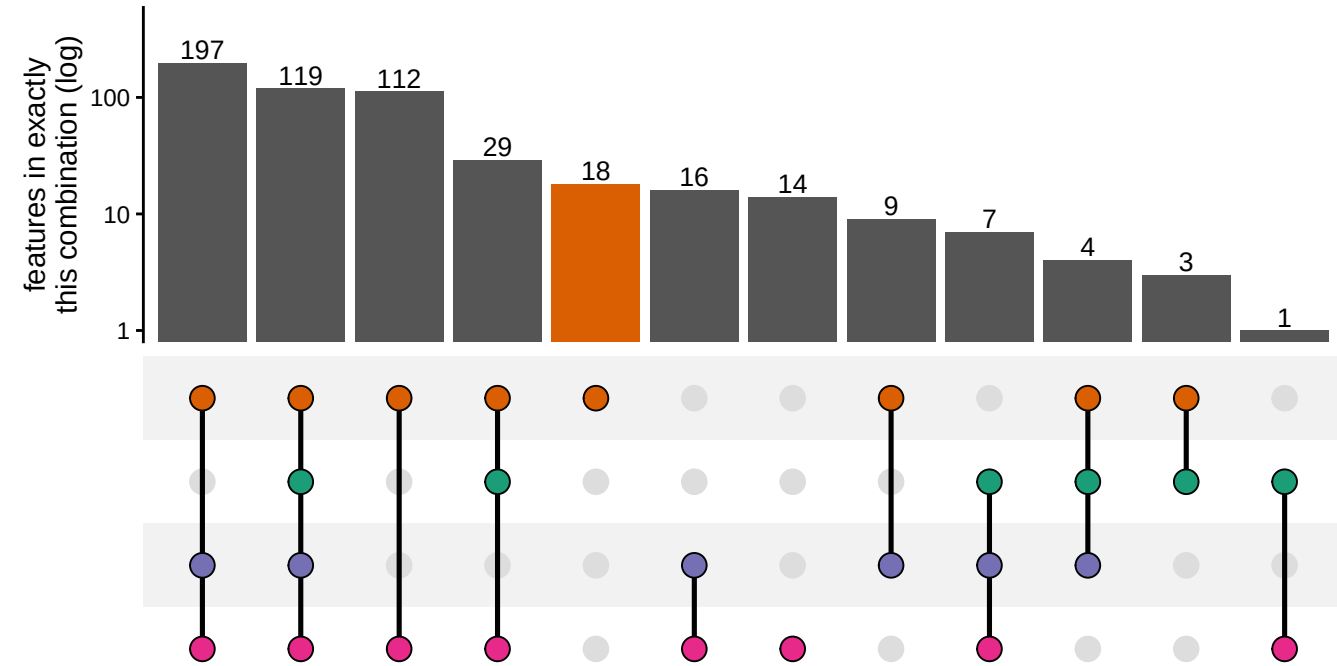

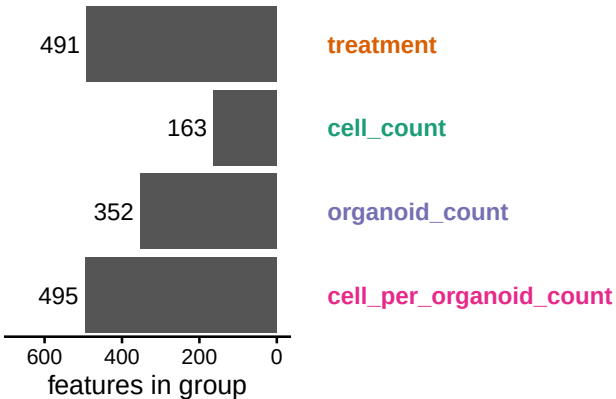

Feature membership across variate groups, treatment=Panobinostat_1uM (orange = treatment only)

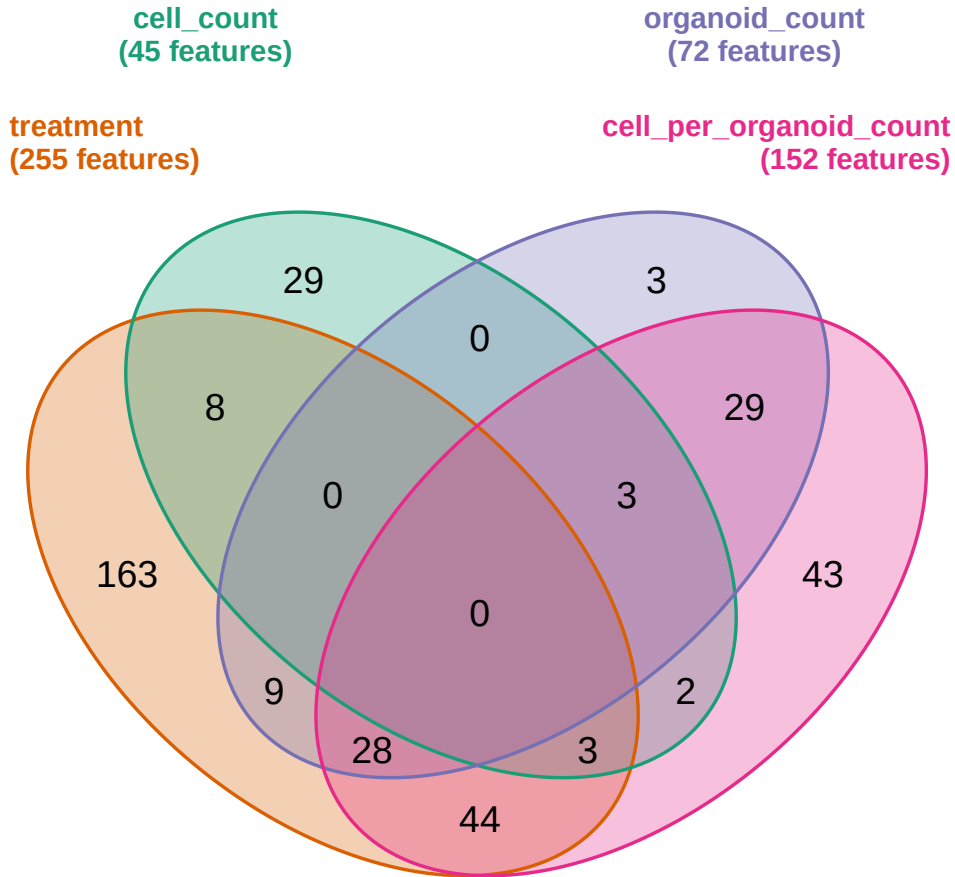

Features that are significant for each variate (treatment=Rapamycin_1uM)
5 of 534 features are significant for none of these 4 variates

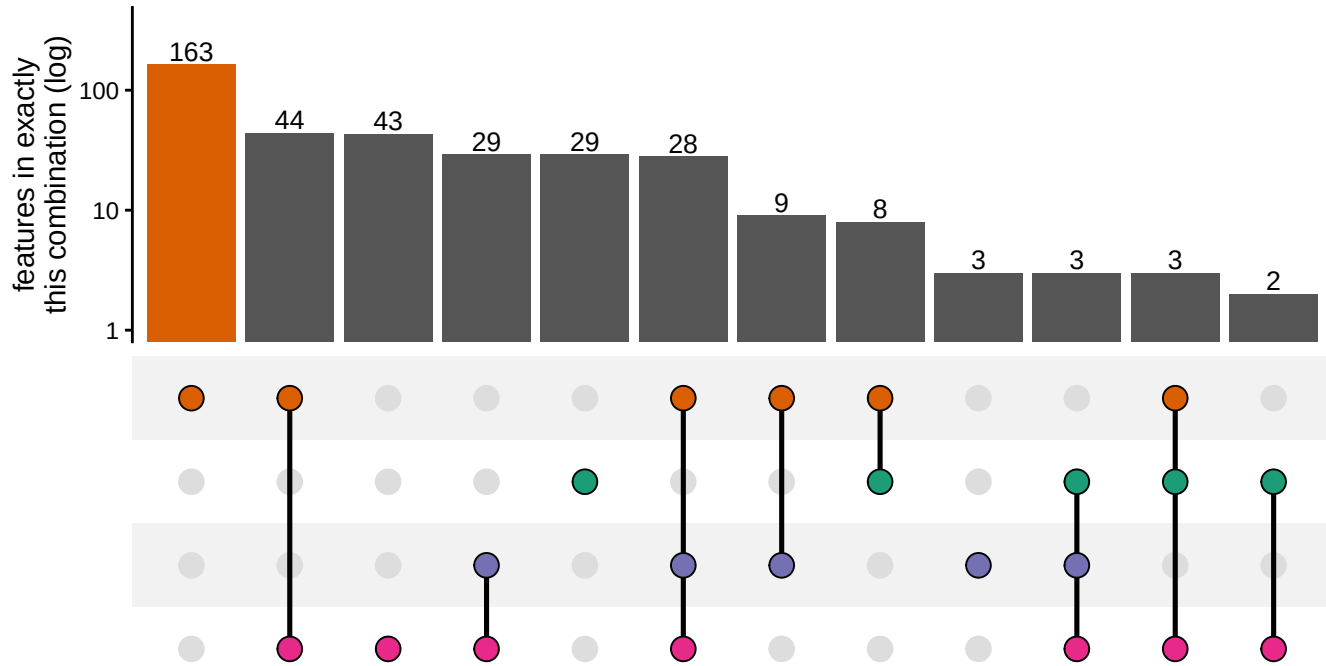

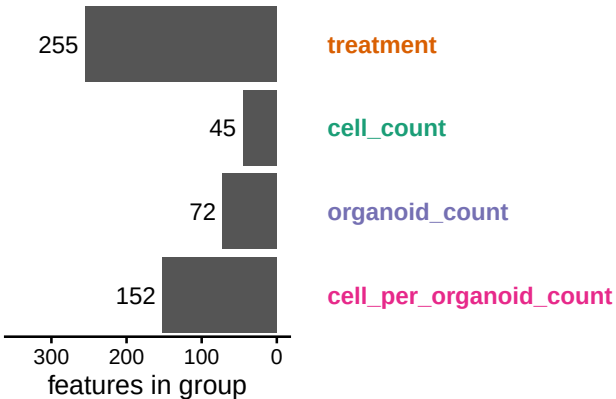

Feature membership across variate groups, treatment=Rapamycin_1uM (orange = treatment only)

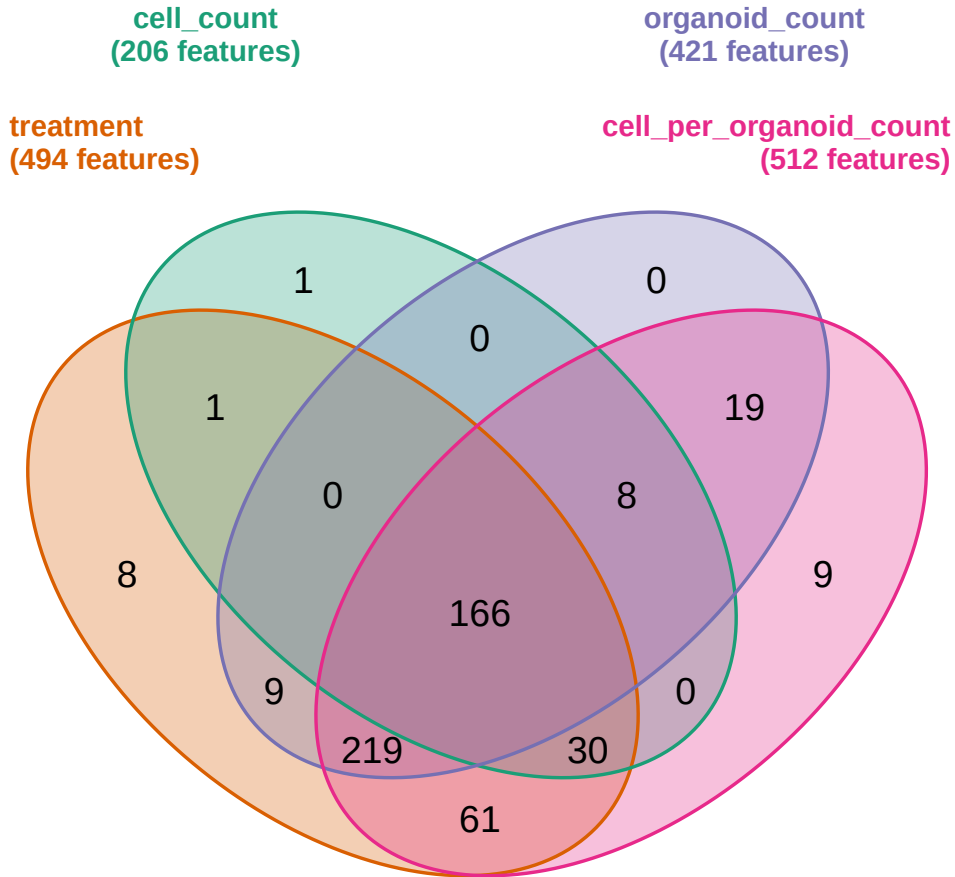

Features that are significant for each variate (treatment=Sapanisertib_1uM)
170 of 534 features are significant for none of these 4 variates

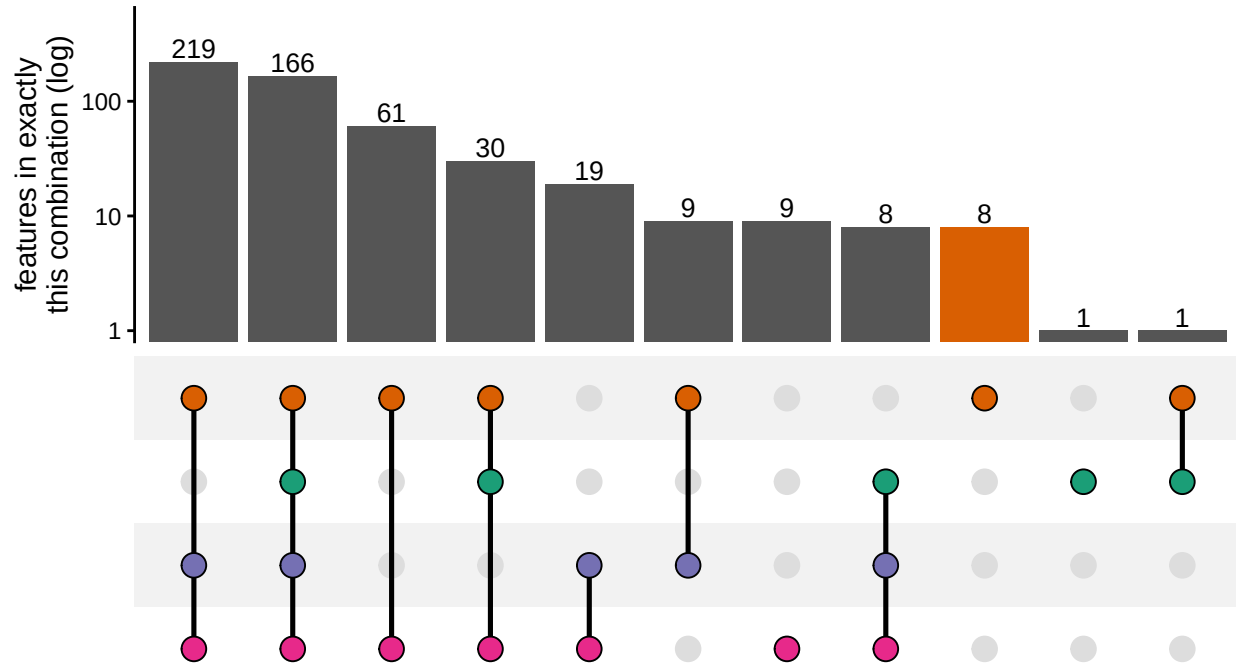

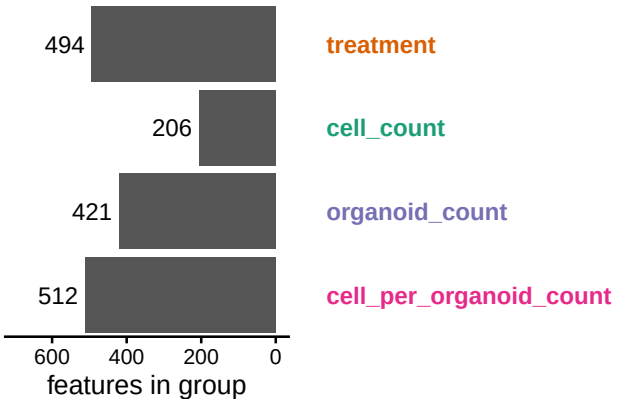

Feature membership across variate groups, treatment=Sapanisertib_1uM (orange = treatment only)

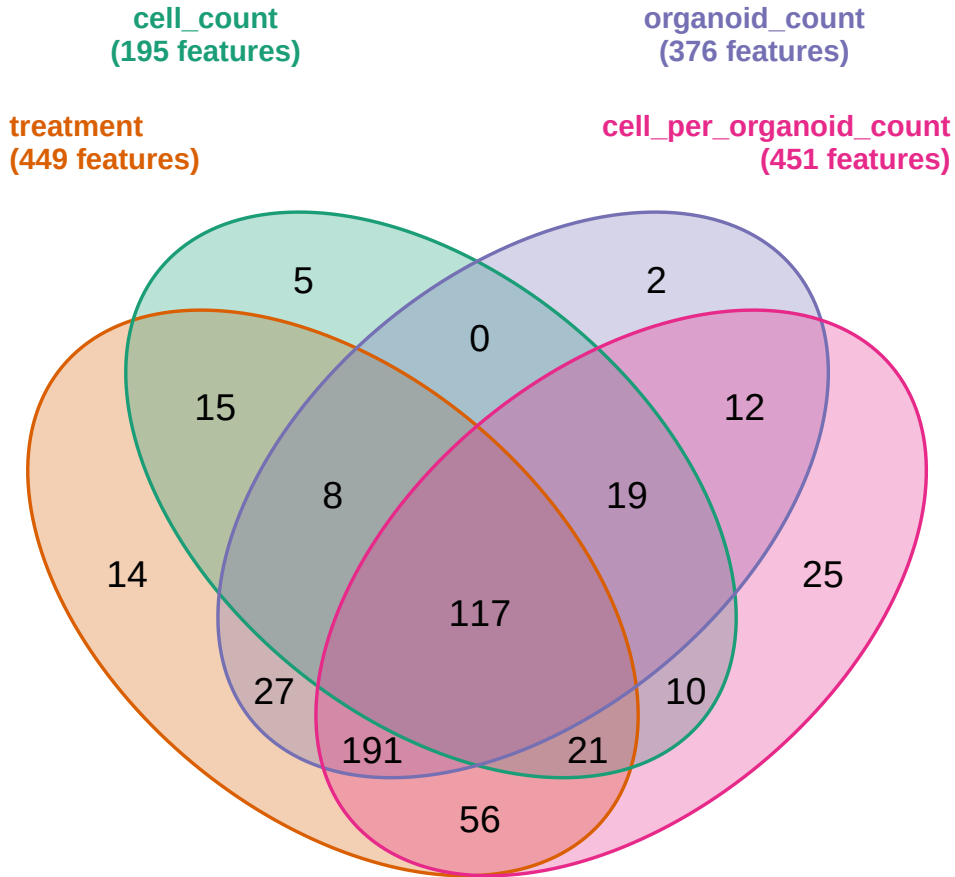

Features that are significant for each variate (treatment=Selumetinib_10uM)
3 of 534 features are significant for none of these 4 variates

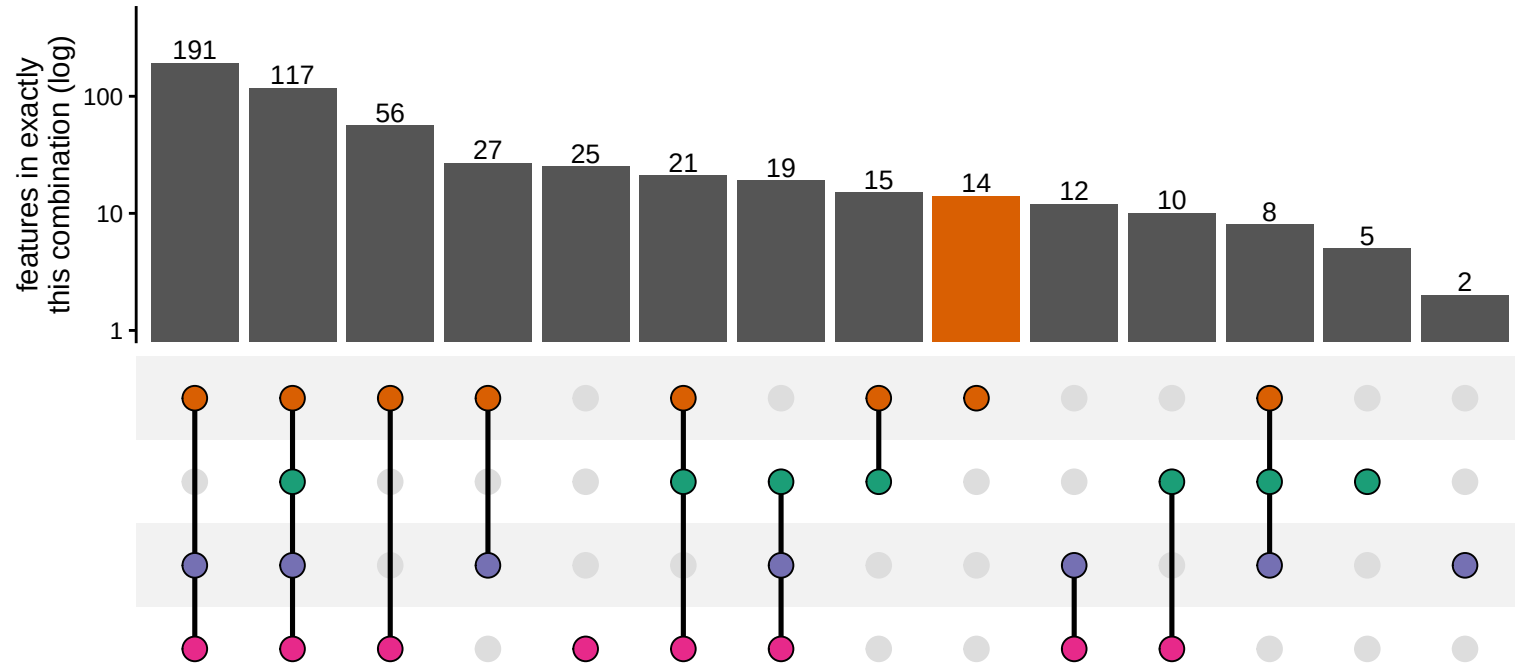

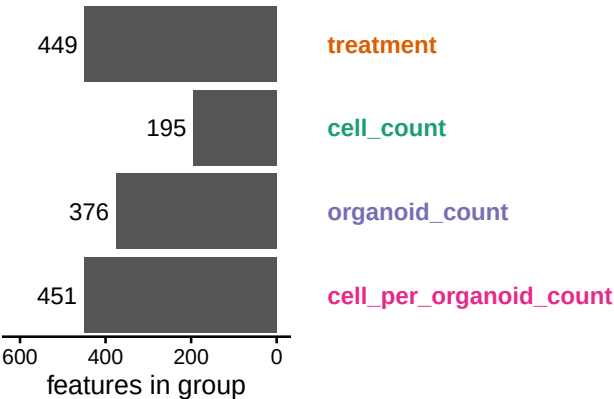

Feature membership across variate groups, treatment=Selumetinib_10uM (orange = treatment only)

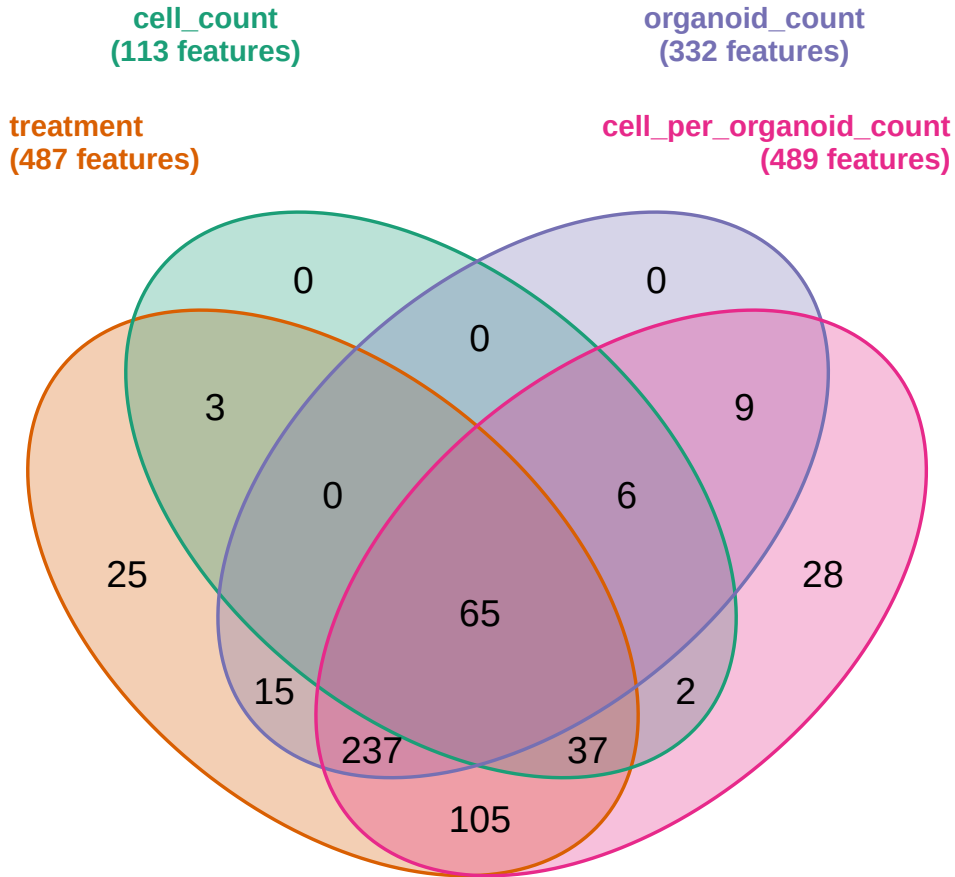

Features that are significant for each variate (treatment=Selumetinib_1uM)
12 of 534 features are significant for none of these 4 variates

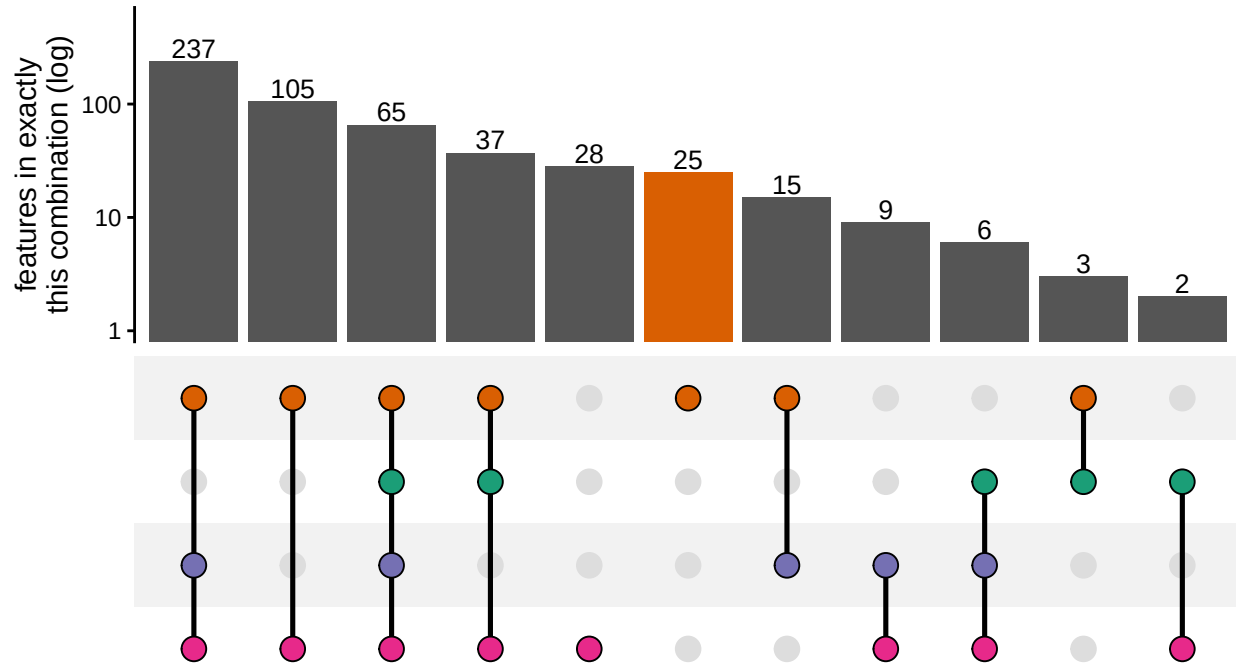

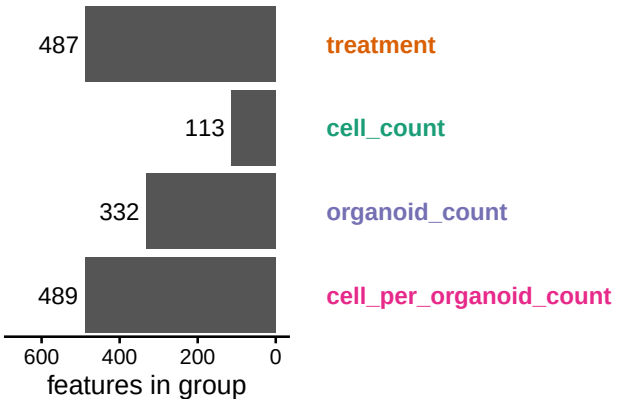

Feature membership across variate groups, treatment=Selumetinib_1uM (orange = treatment only)

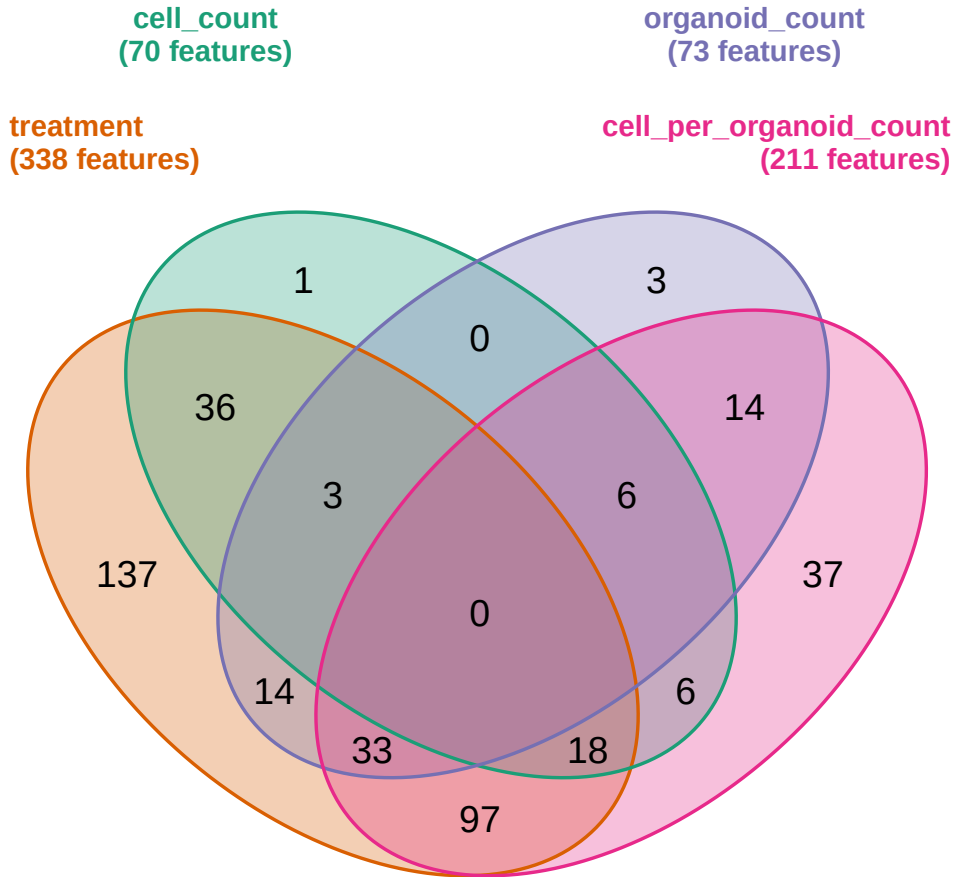

Features that are significant for each variate (treatment=Staurosporine_10nM)
2 of 534 features are significant for none of these 4 variates

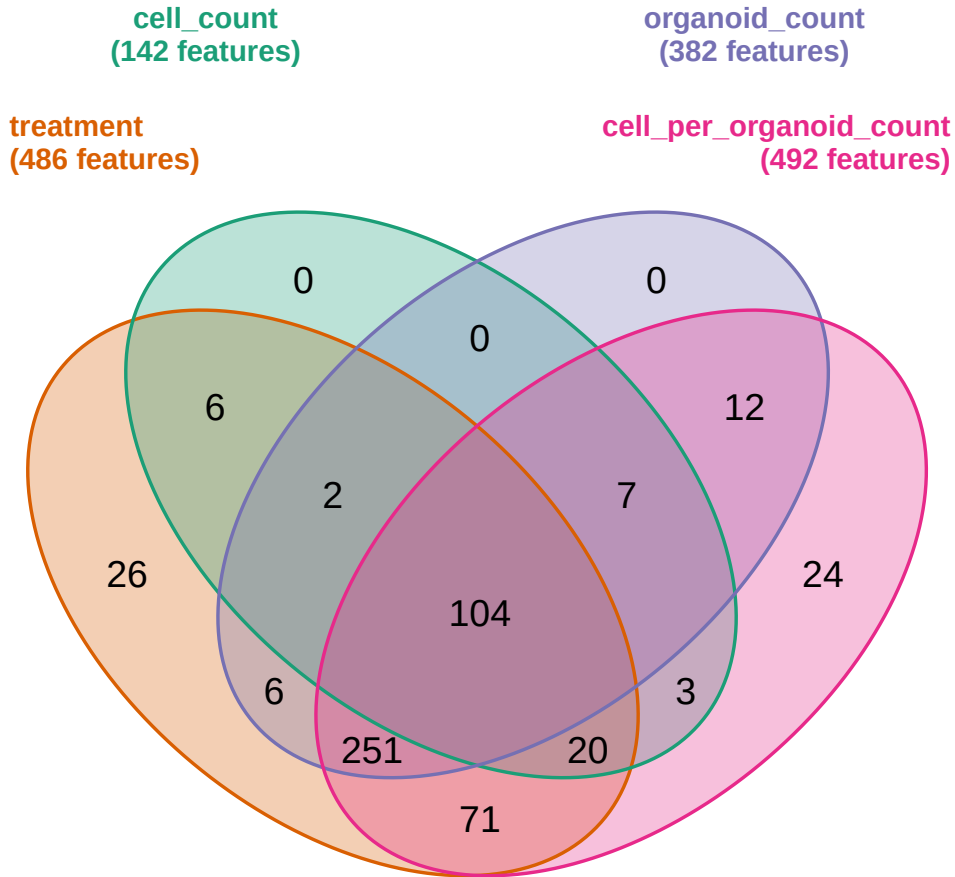

Feature membership across variate groups, treatment=Staurosporine_10nM (orange = treatment only)

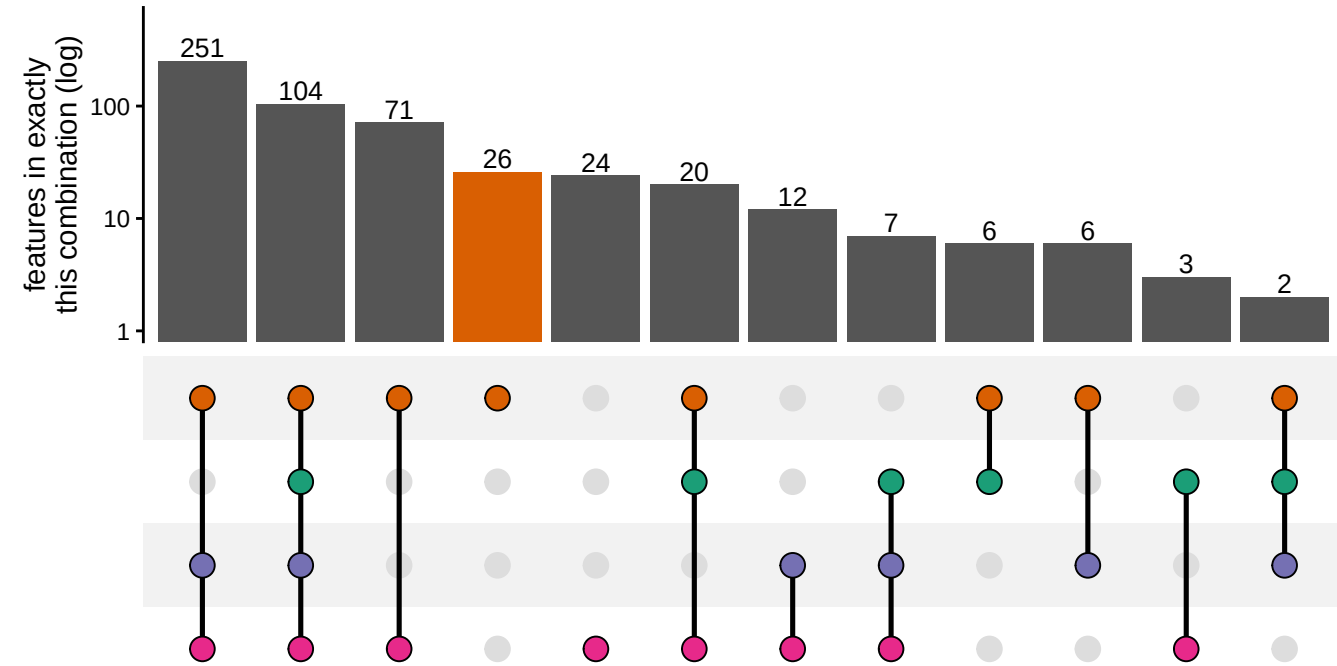

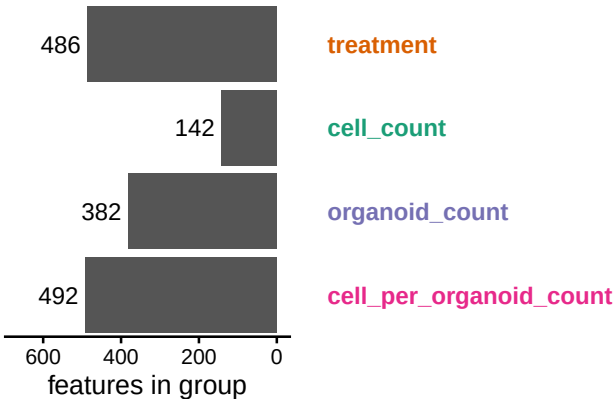

Features that are significant for each variate (treatment=Trabectedin_1uM)
129 of 534 features are significant for none of these 4 variates

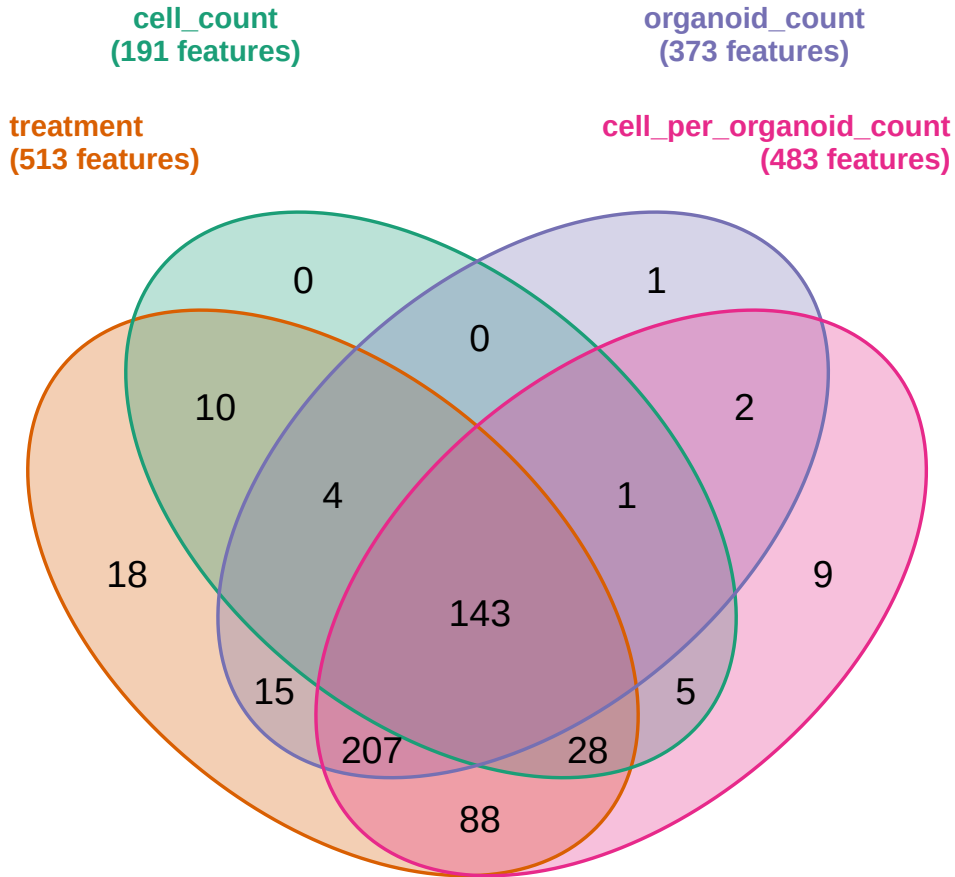

Features that are significant for each variate (treatment=Trametinib_10uM)
2 of 534 features are significant for none of these 4 variates

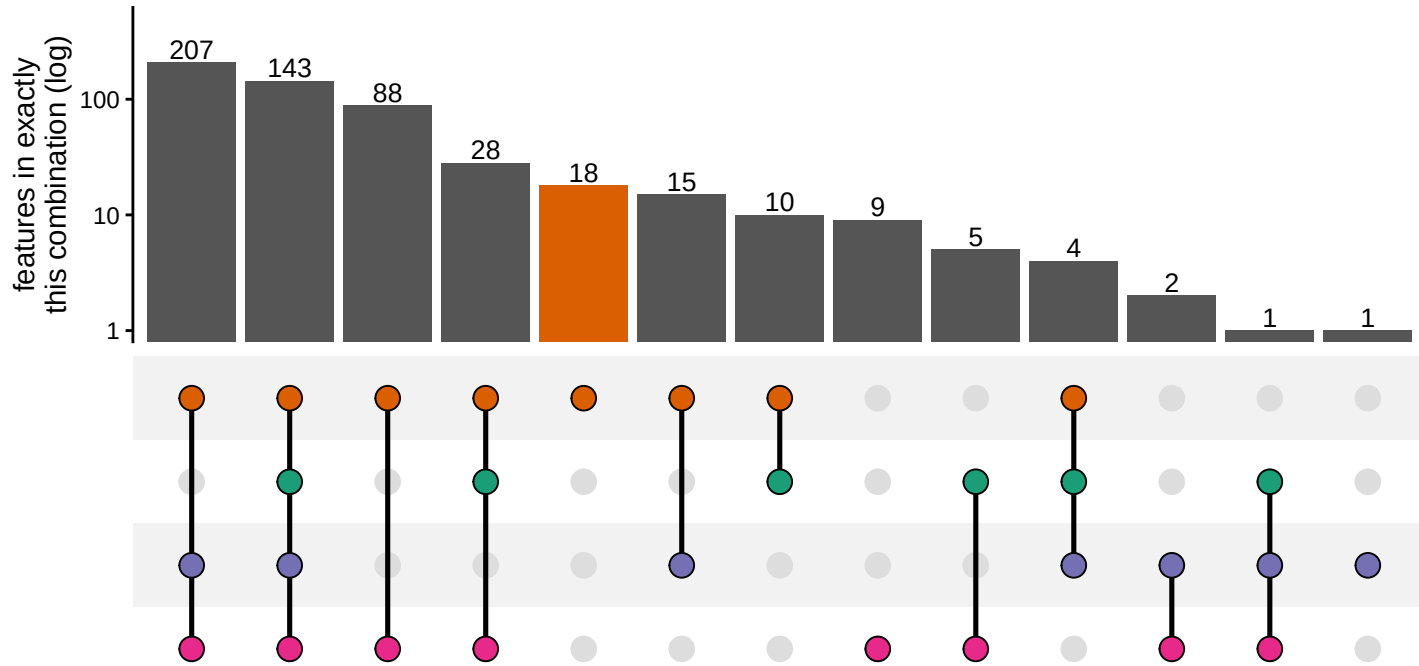

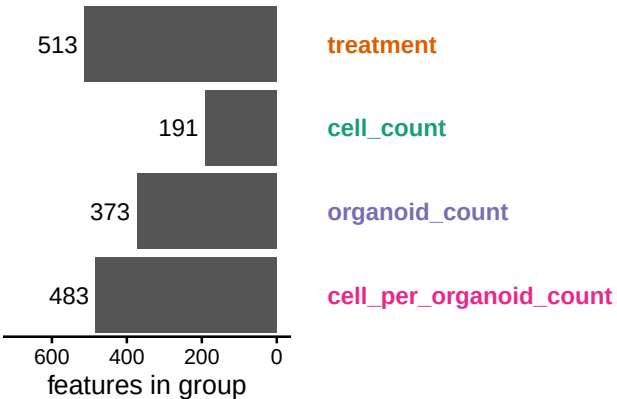

Feature membership across variate groups, treatment=Trametinib_10uM (orange = treatment only)

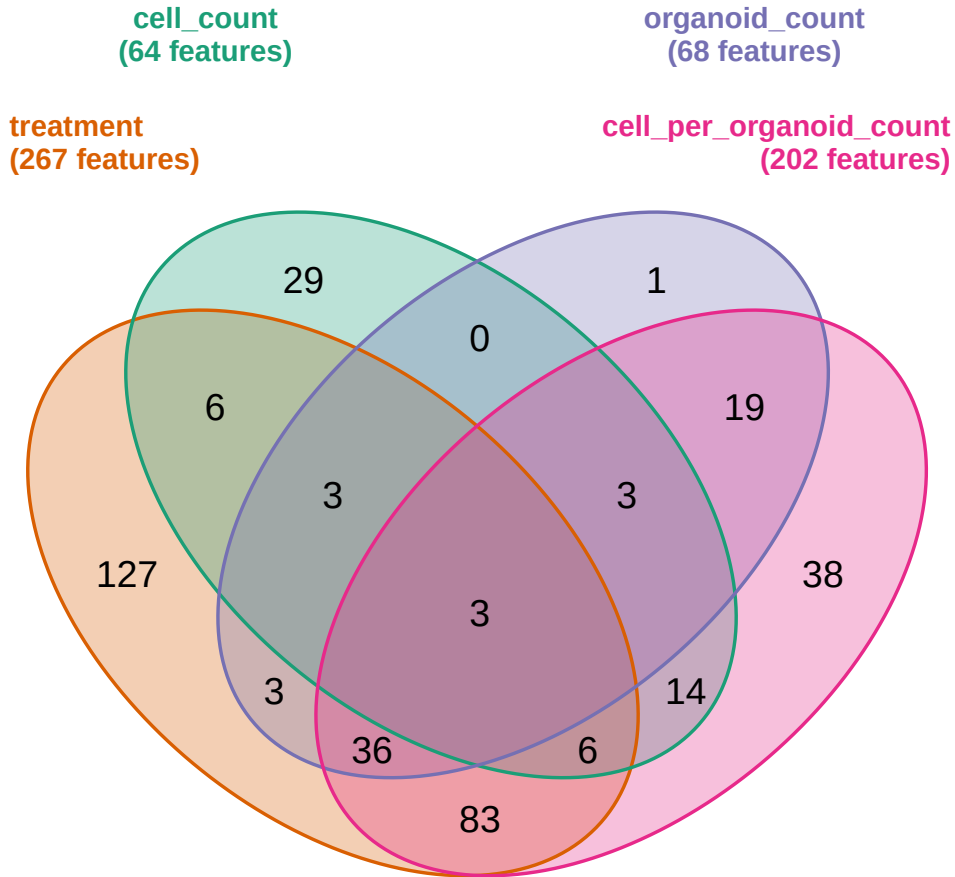

Features that are significant for each variate (treatment=Trametinib_1uM)
3 of 534 features are significant for none of these 4 variates

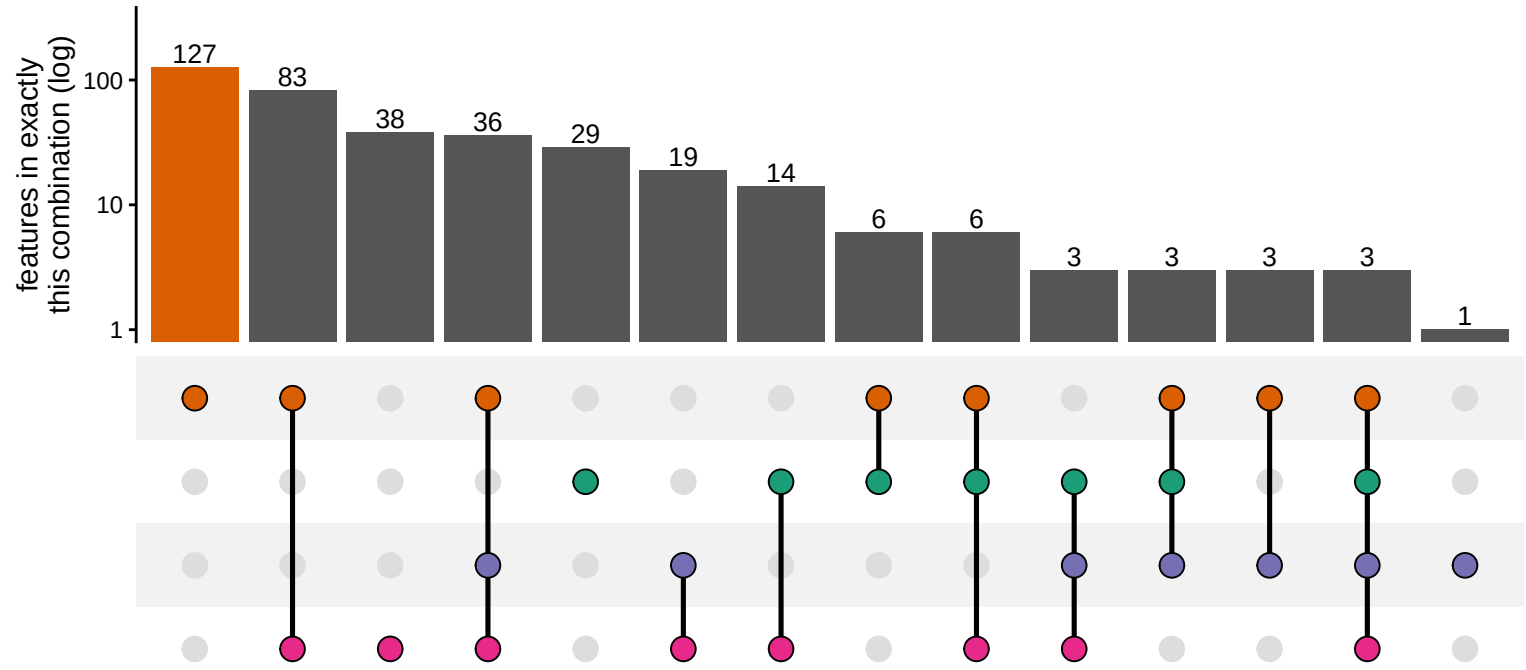

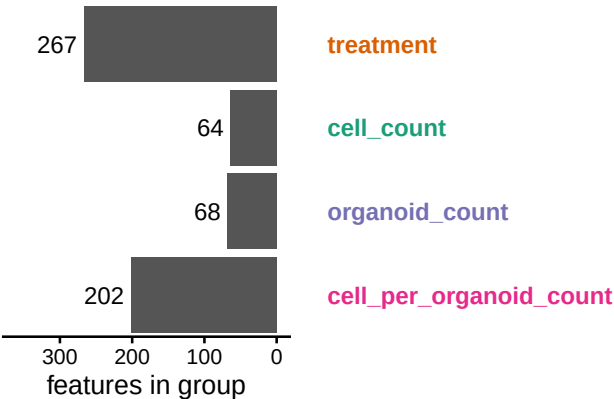

Feature membership across variate groups, treatment=Trametinib_1uM (orange = treatment only)

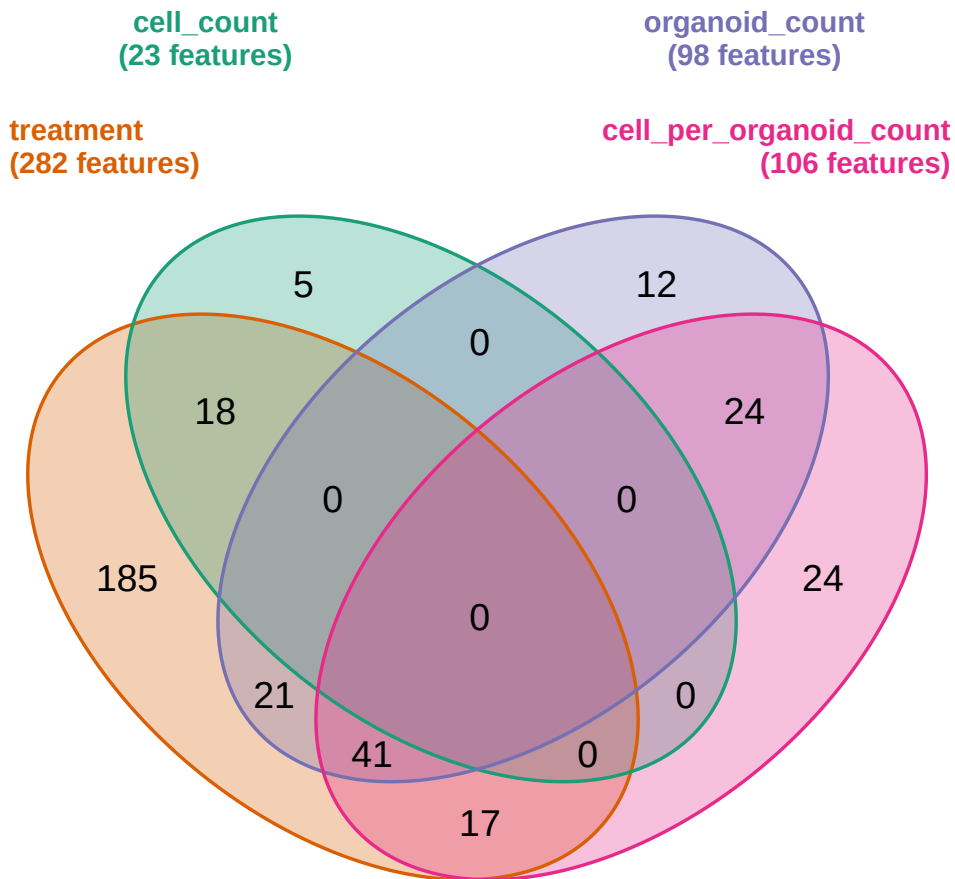

Features that are significant for each variate (treatment=Vistusertib_1uM)
163 of 534 features are significant for none of these 4 variates

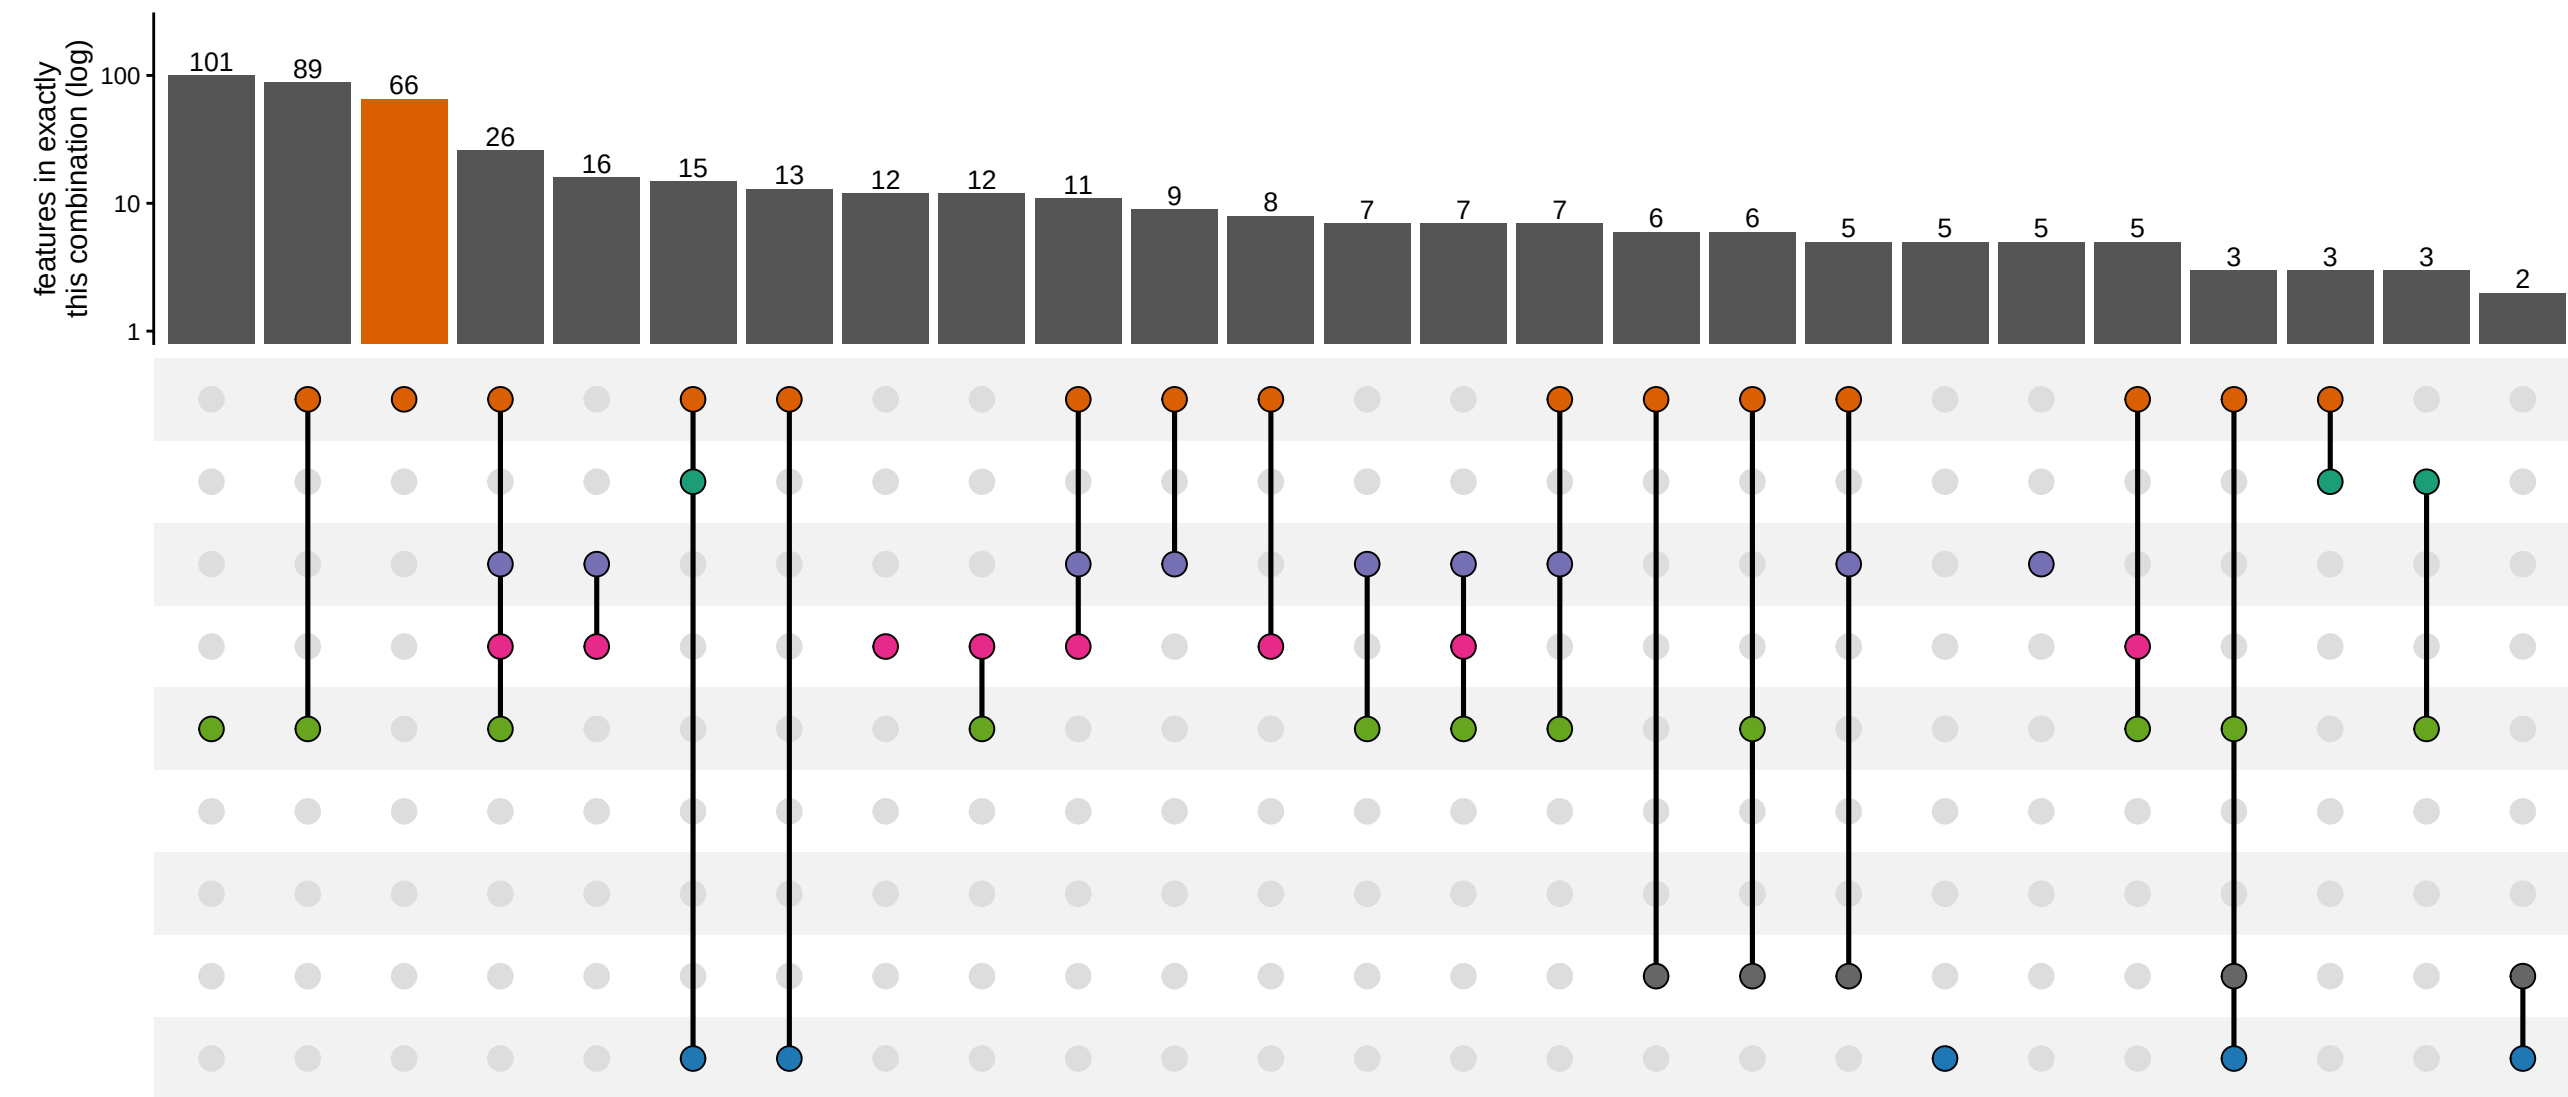

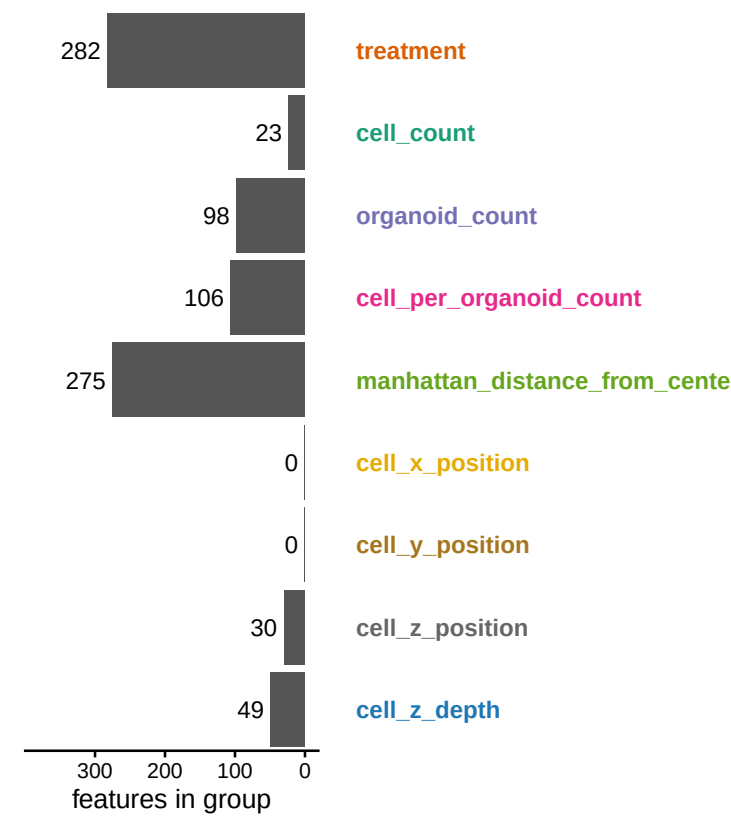

Feature membership across variate groups, treatment=Vistusertib_1uM (orange = treatment only)

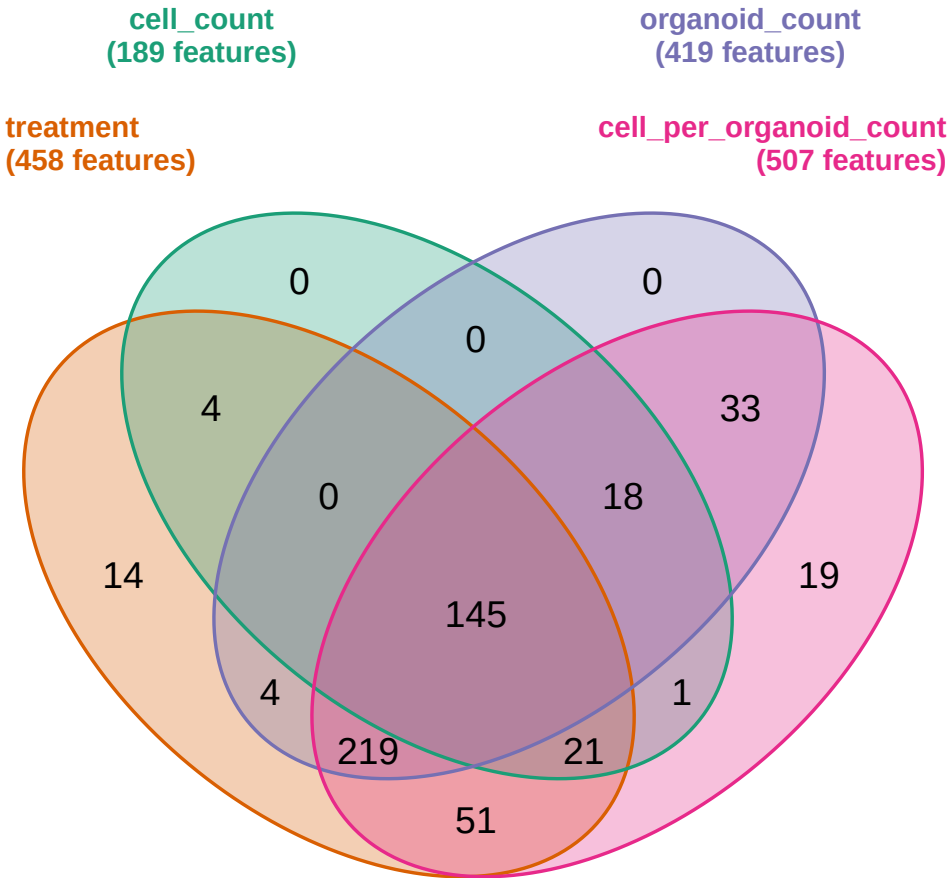

Features that are significant for each variate (treatment=ARV-825_1uM)
187 of 534 features are significant for none of these 4 variates

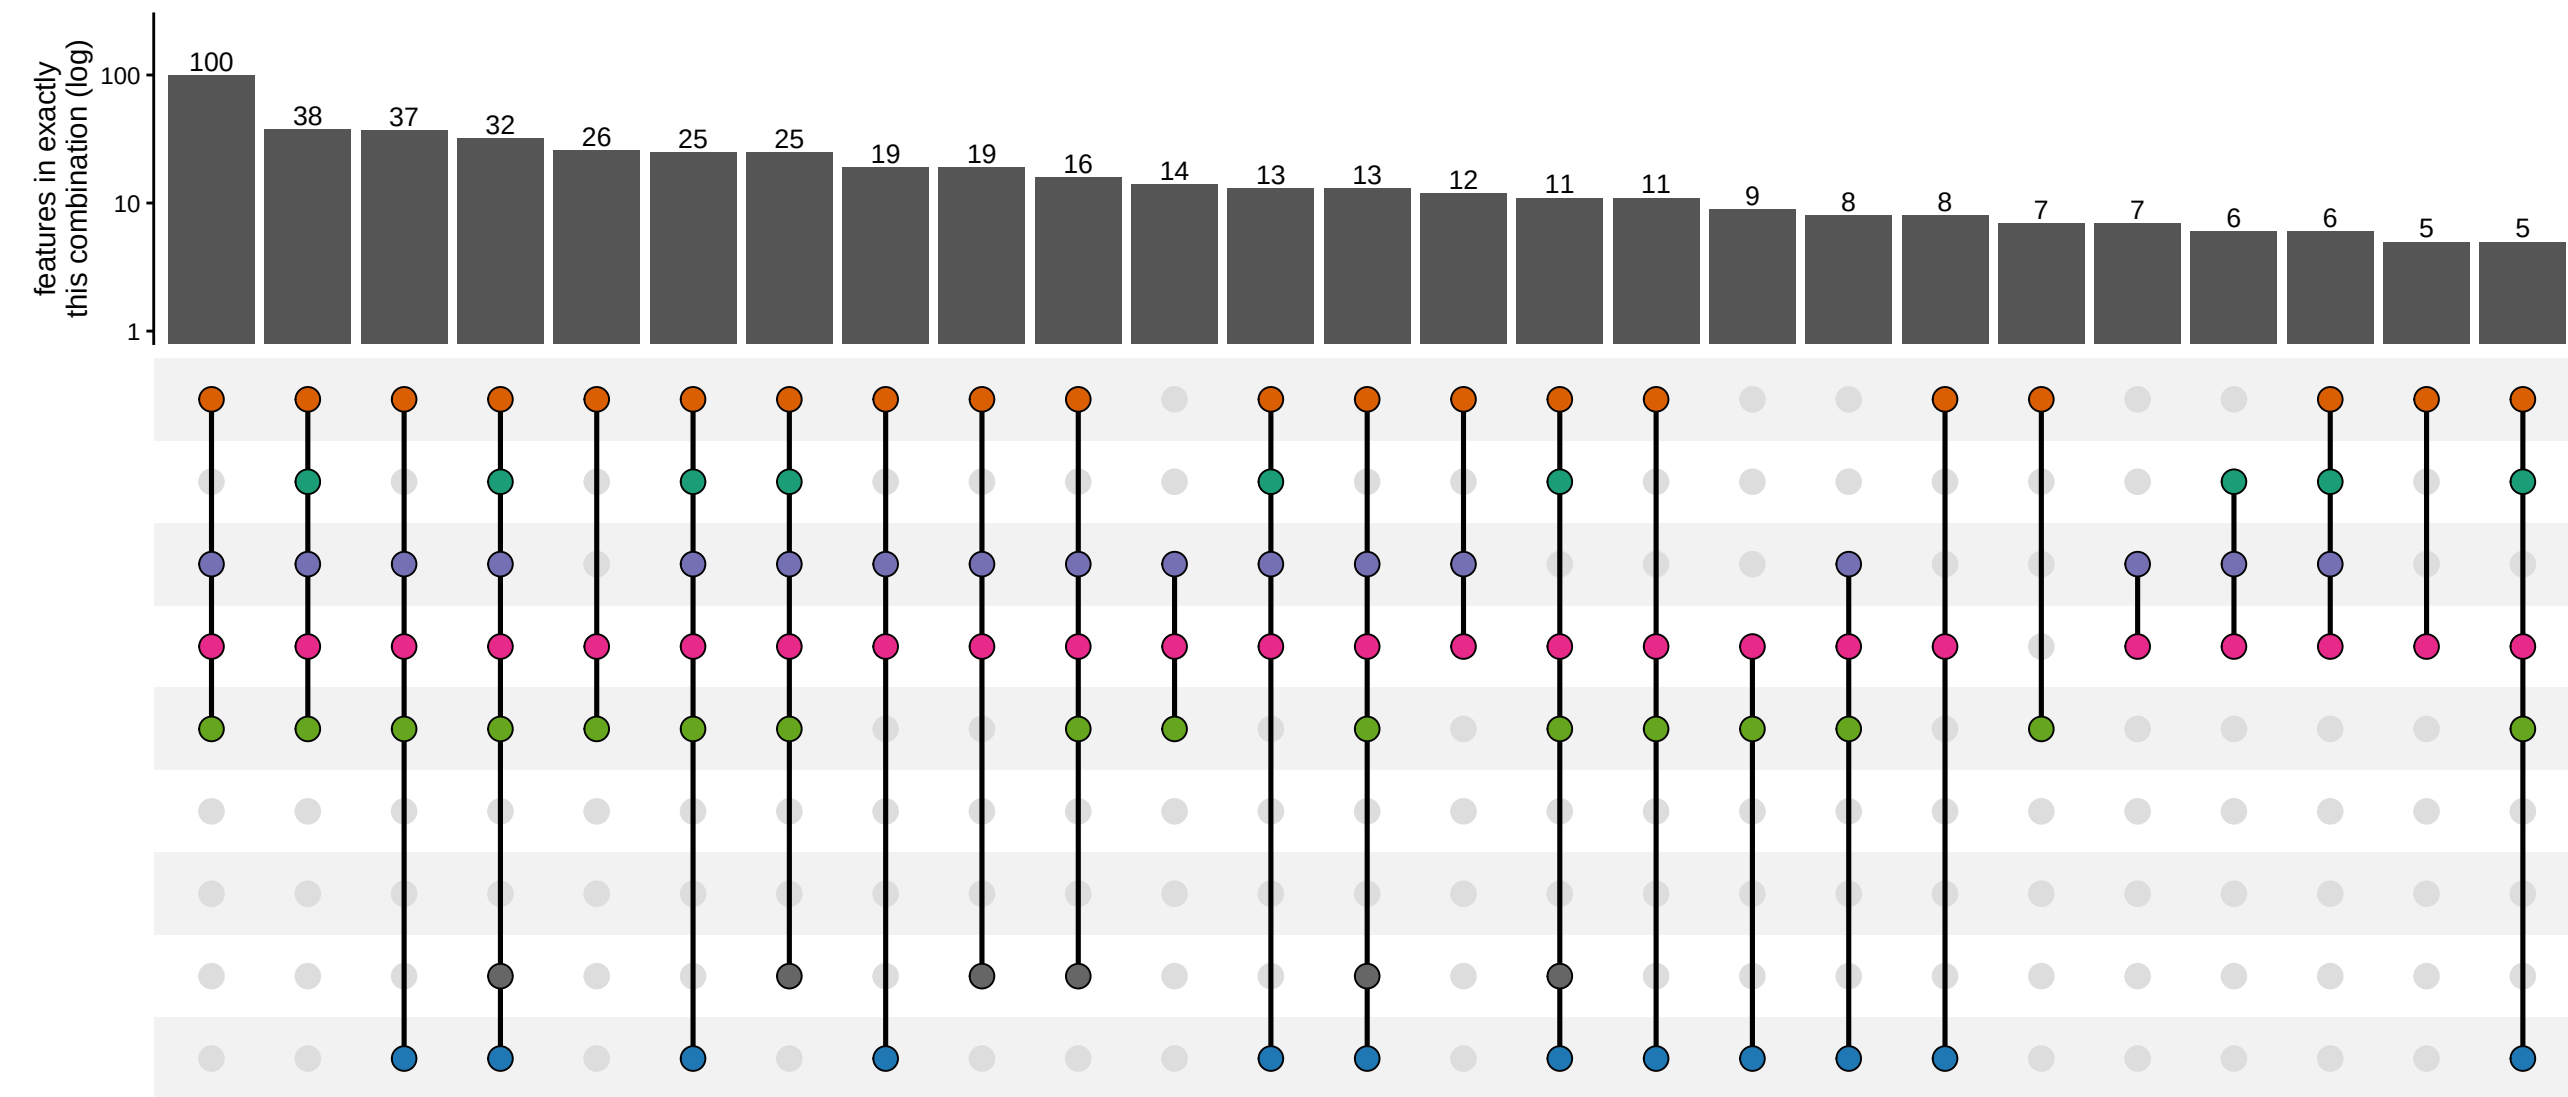

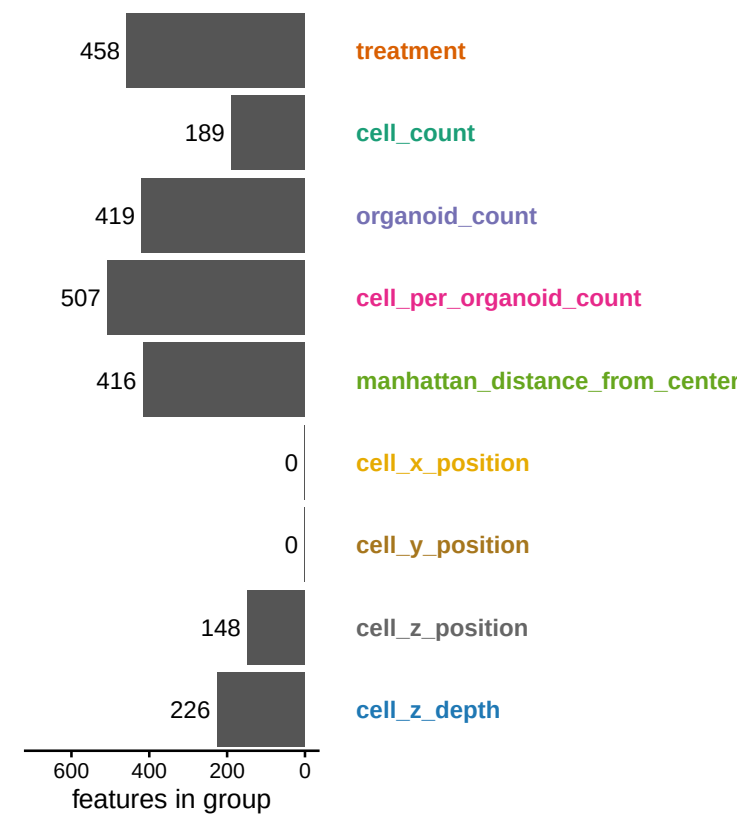

Feature membership across variate groups, treatment=ARV-825_1uM (top 25 of 35 combinations; orange = treatment only)

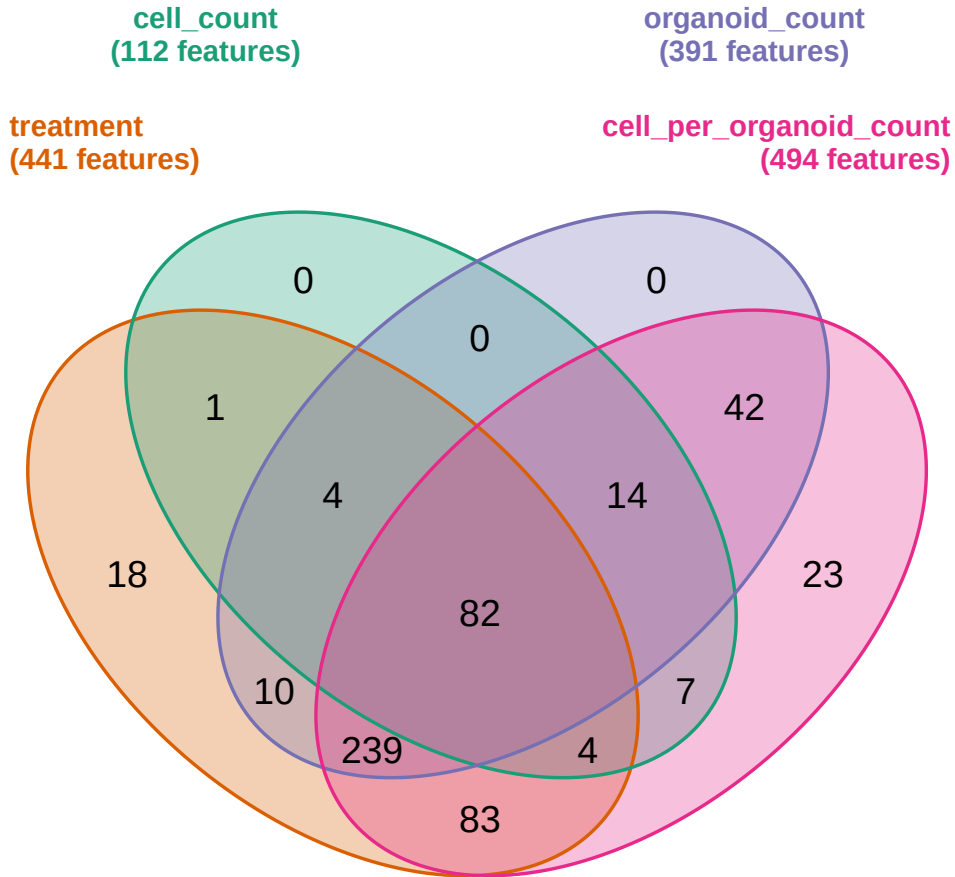

Features that are significant for each variate (treatment=Binimetinib_10uM)
5 of 534 features are significant for none of these 4 variates

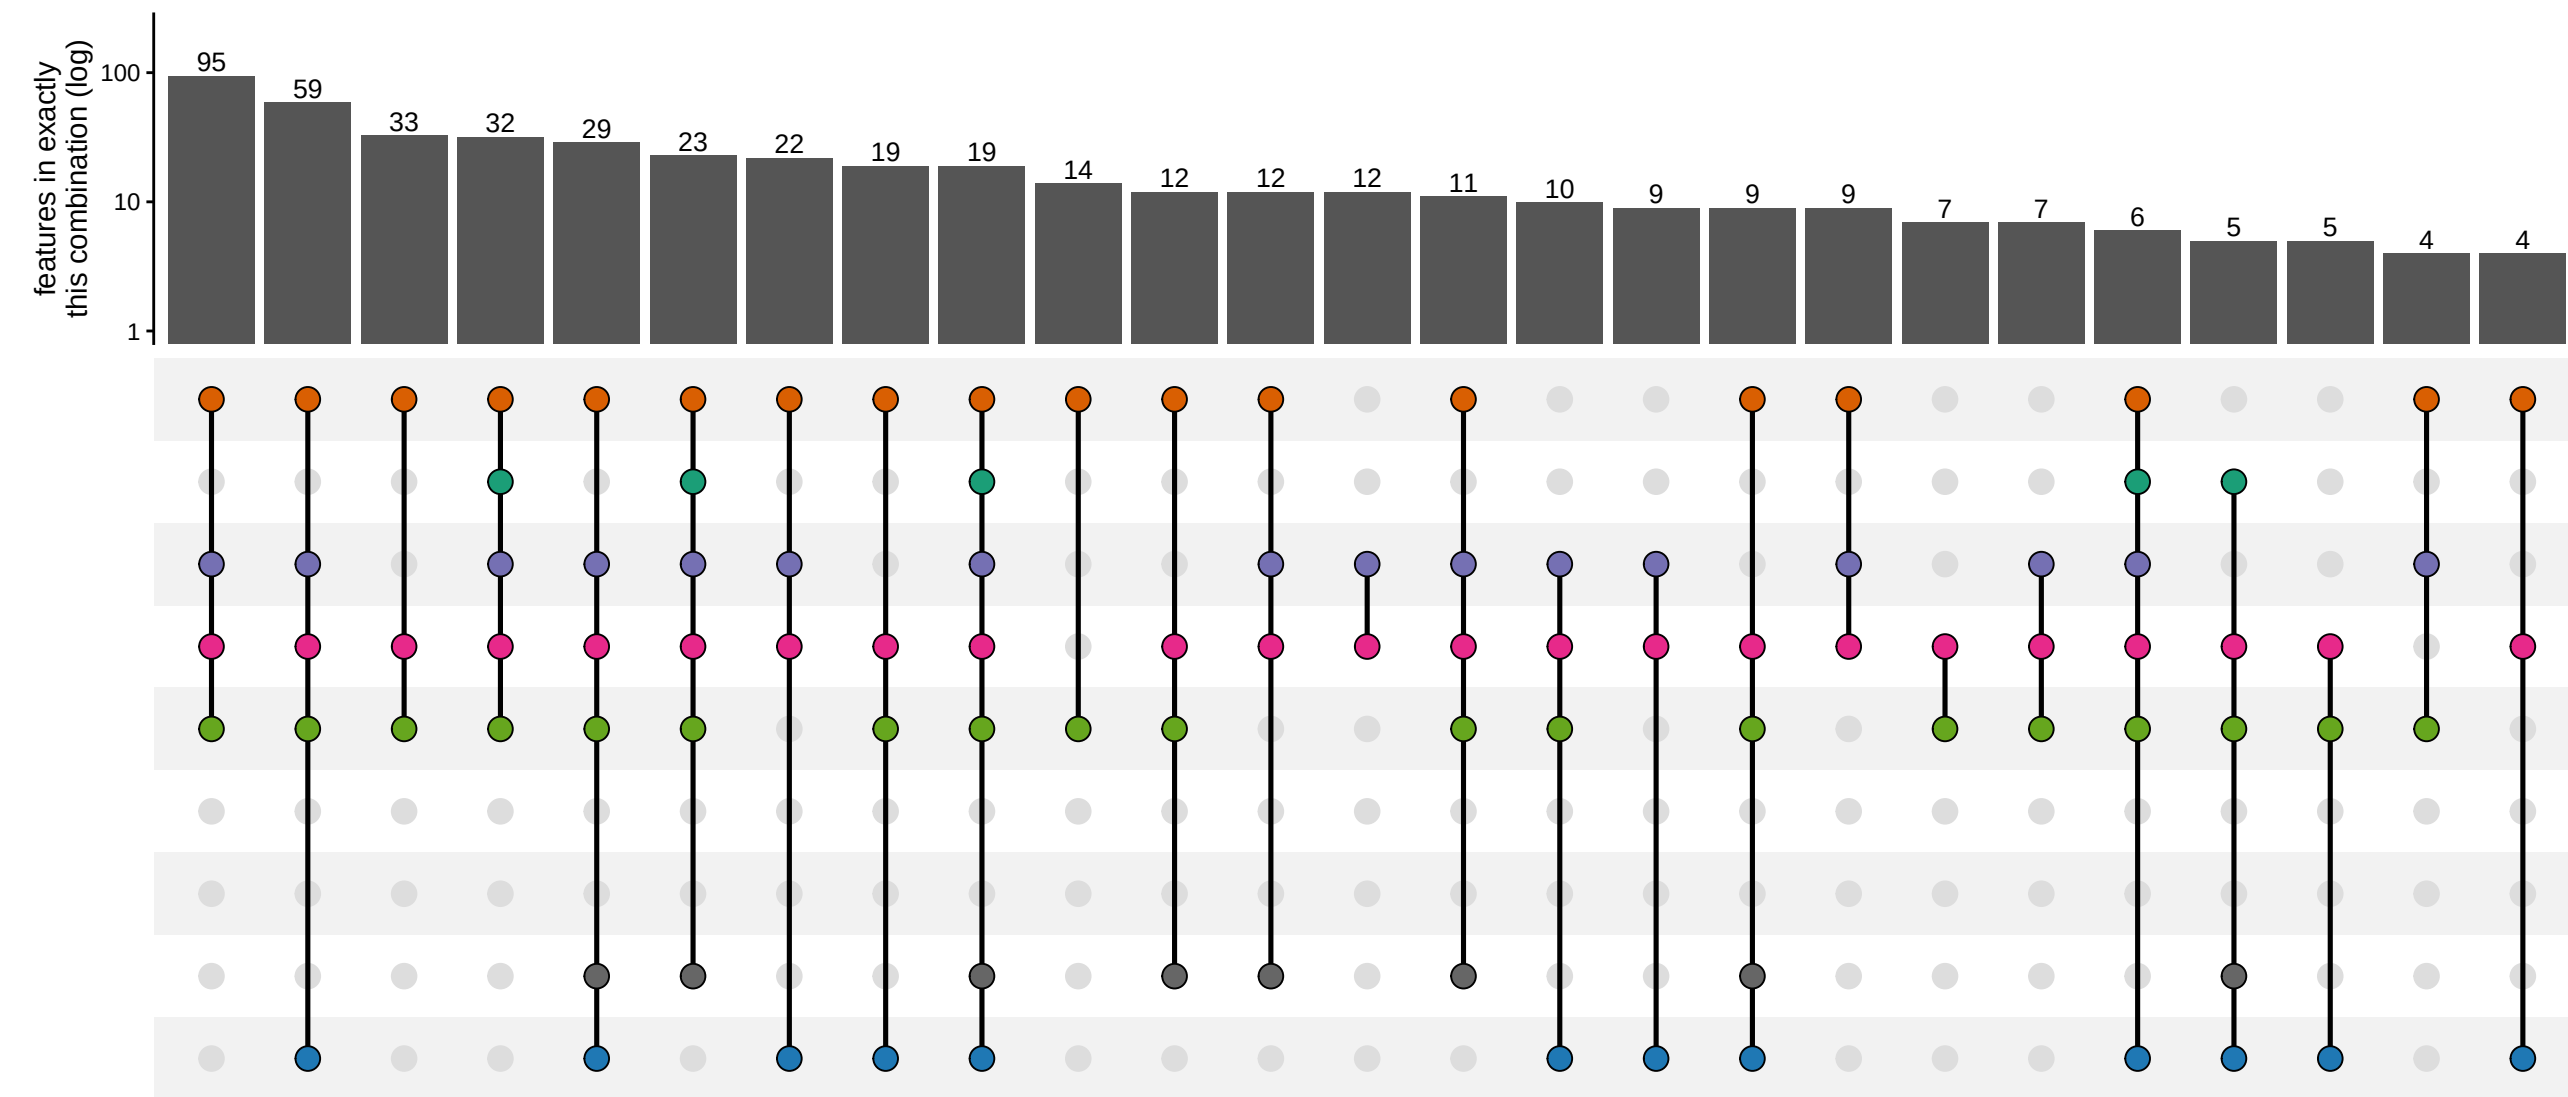

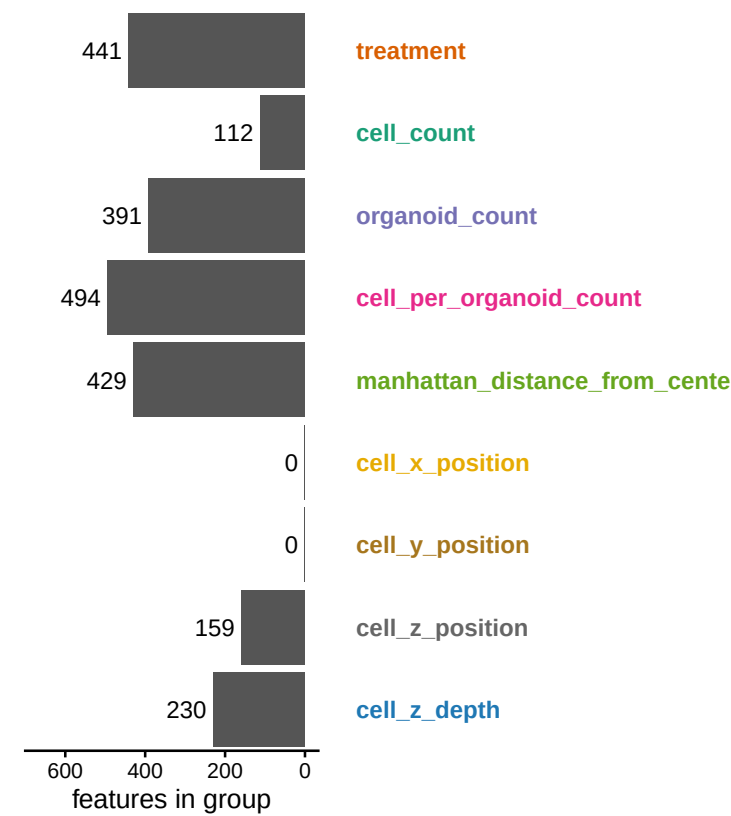

Feature membership across variate groups, treatment=Binimetinib_10uM (top 25 of 49 combinations; orange = treatment only)

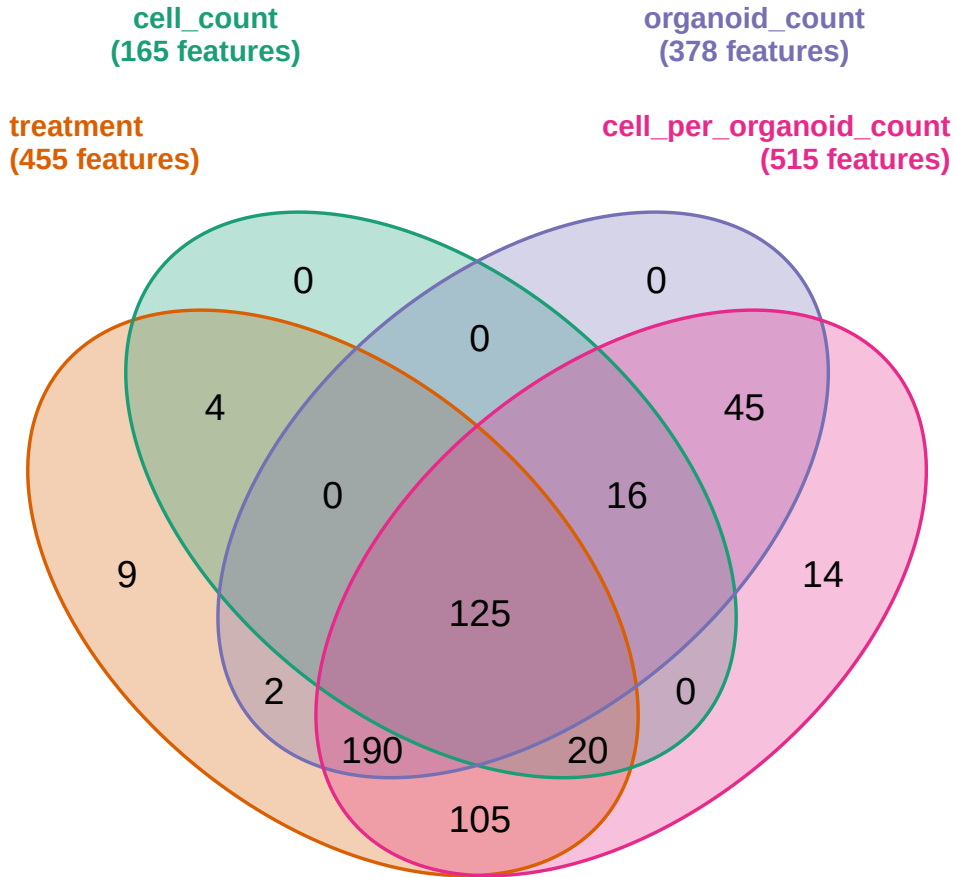

Features that are significant for each variate (treatment=Binimetinib_1uM)
7 of 534 features are significant for none of these 4 variates

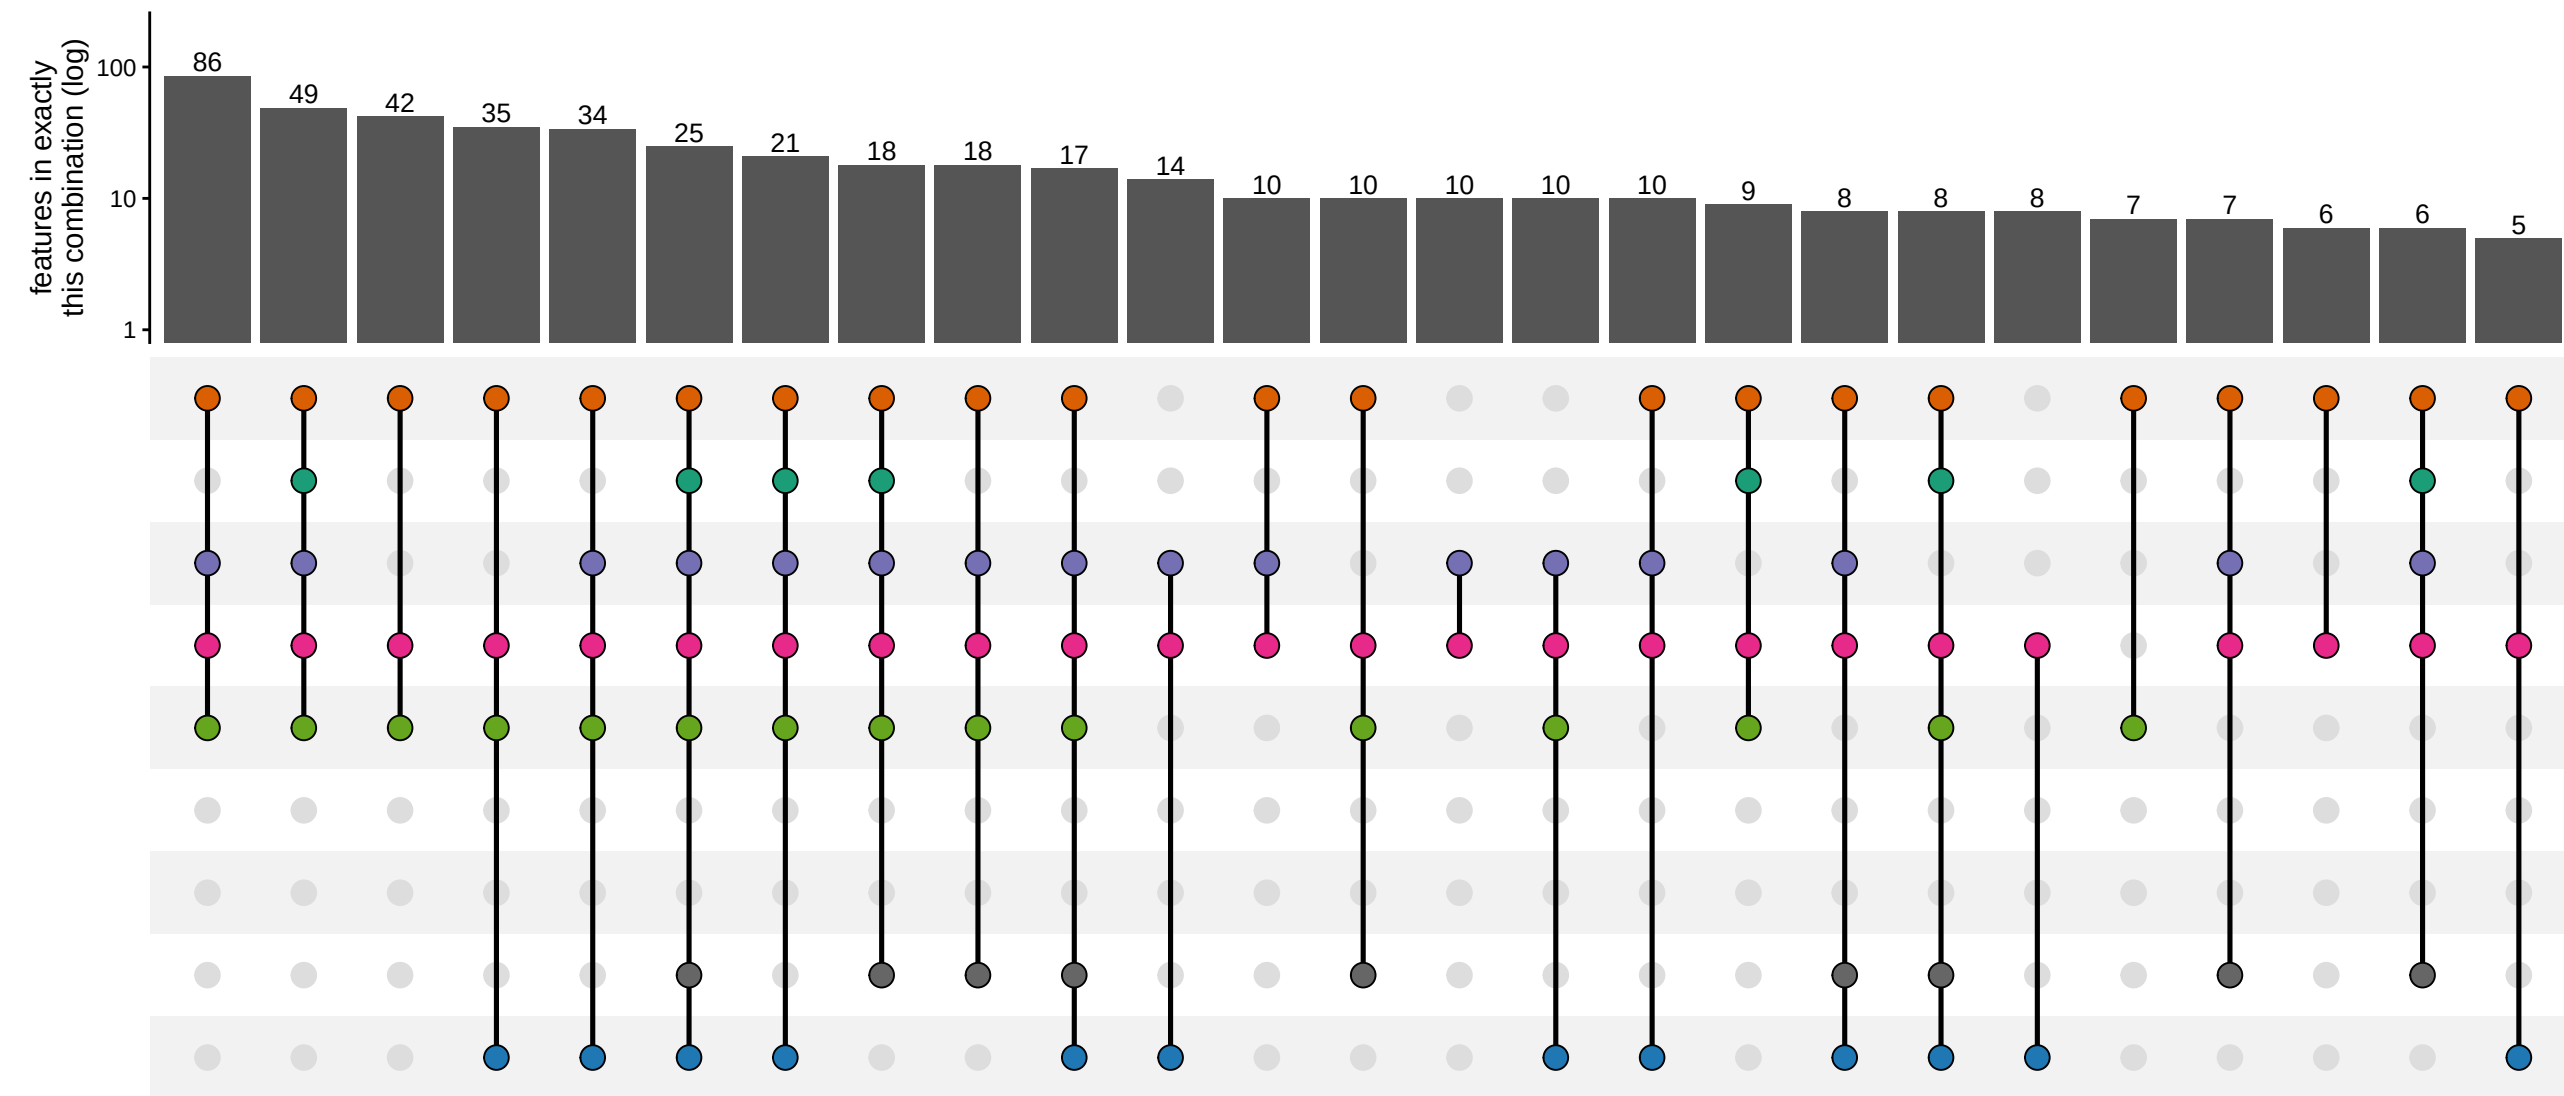

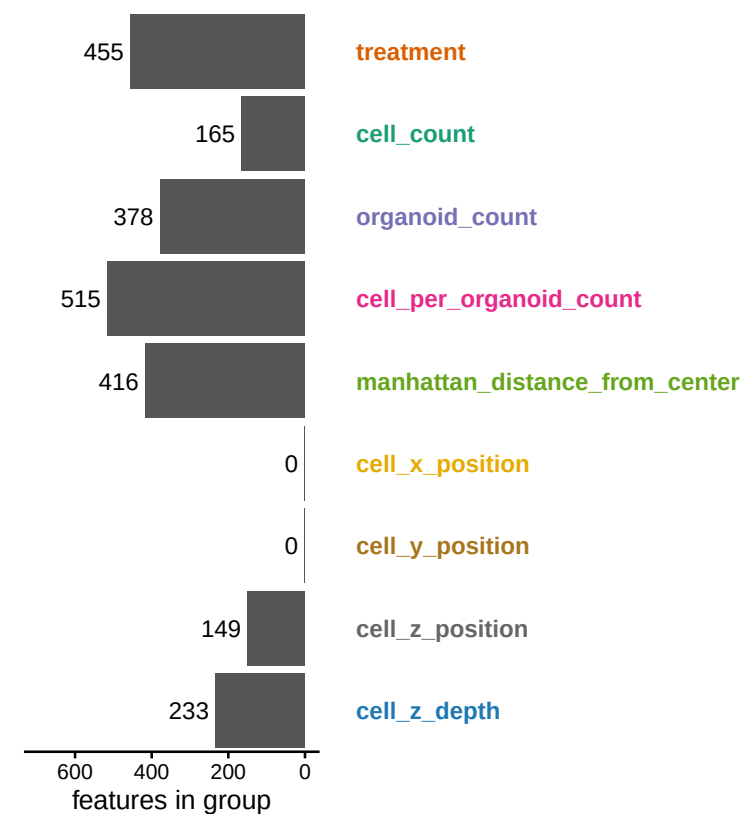

Feature membership across variate groups, treatment=Binimetinib_1uM (top 25 of 62 combinations; orange = treatment only)

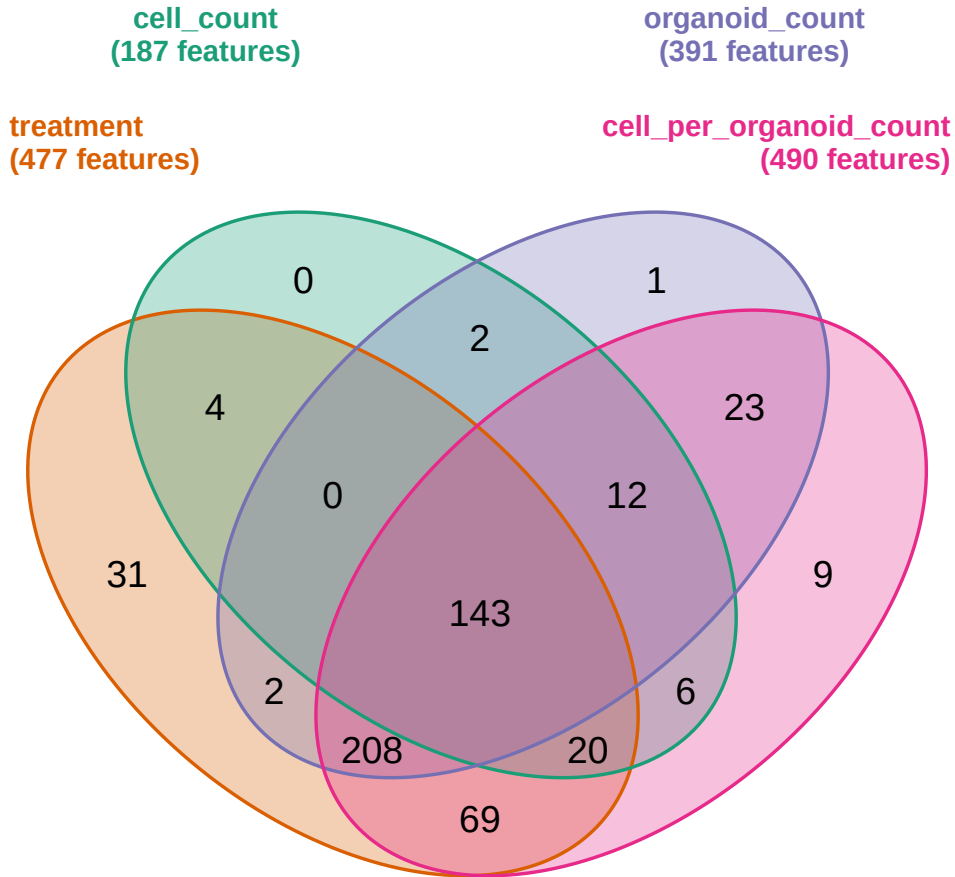

Features that are significant for each variate (treatment=Cabozantinib_1uM)
4 of 534 features are significant for none of these 4 variates

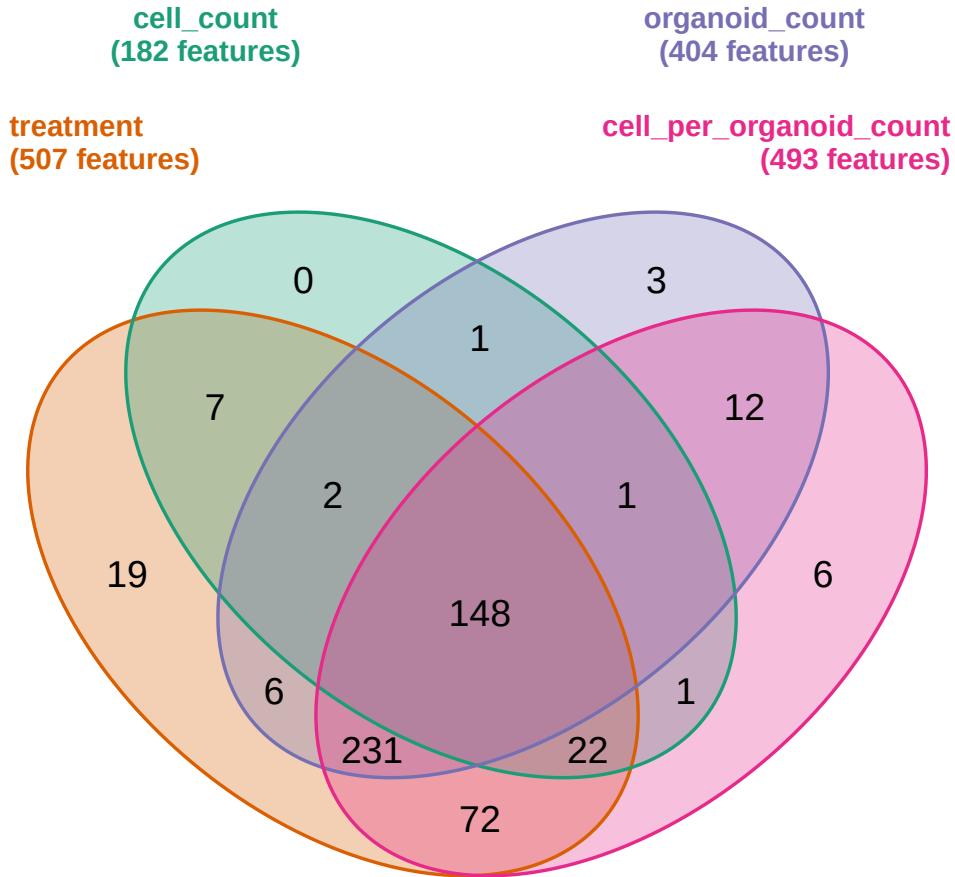

Feature membership across variate groups, treatment=Cabozantinib_1uM (top 25 of 52 combinations; orange = treatment only)

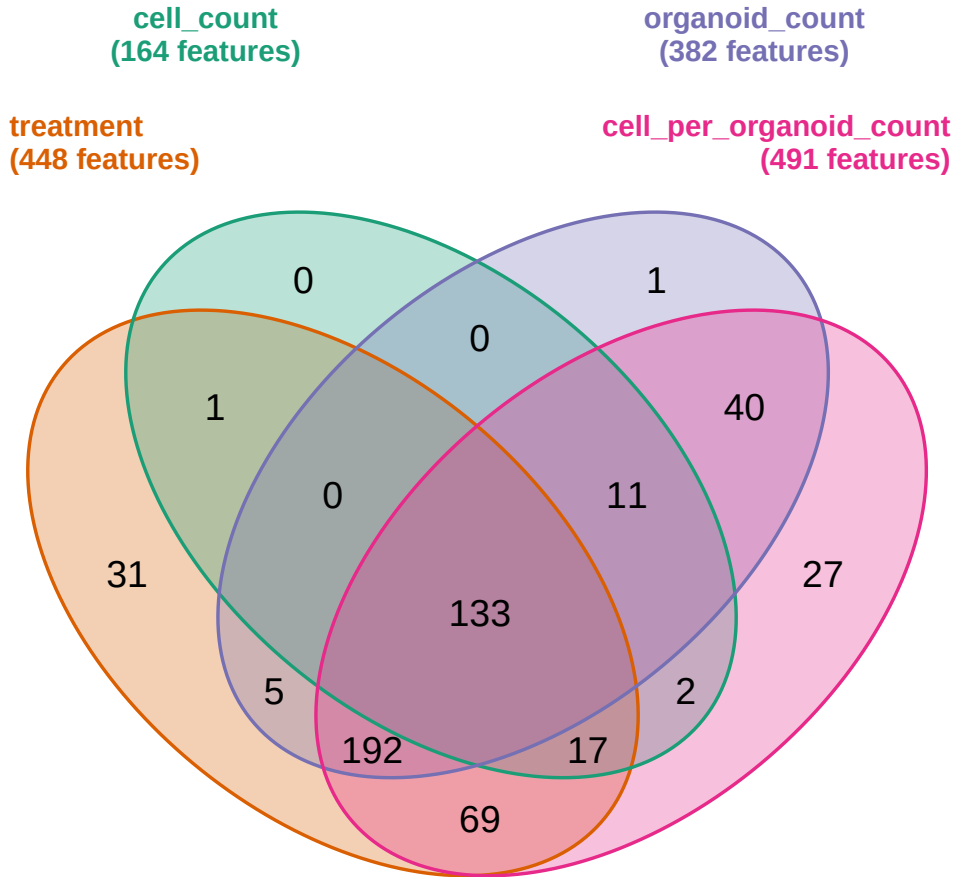

Features that are significant for each variate (treatment=Copanlisib_1uM)
4 of 534 features are significant for none of these 4 variates

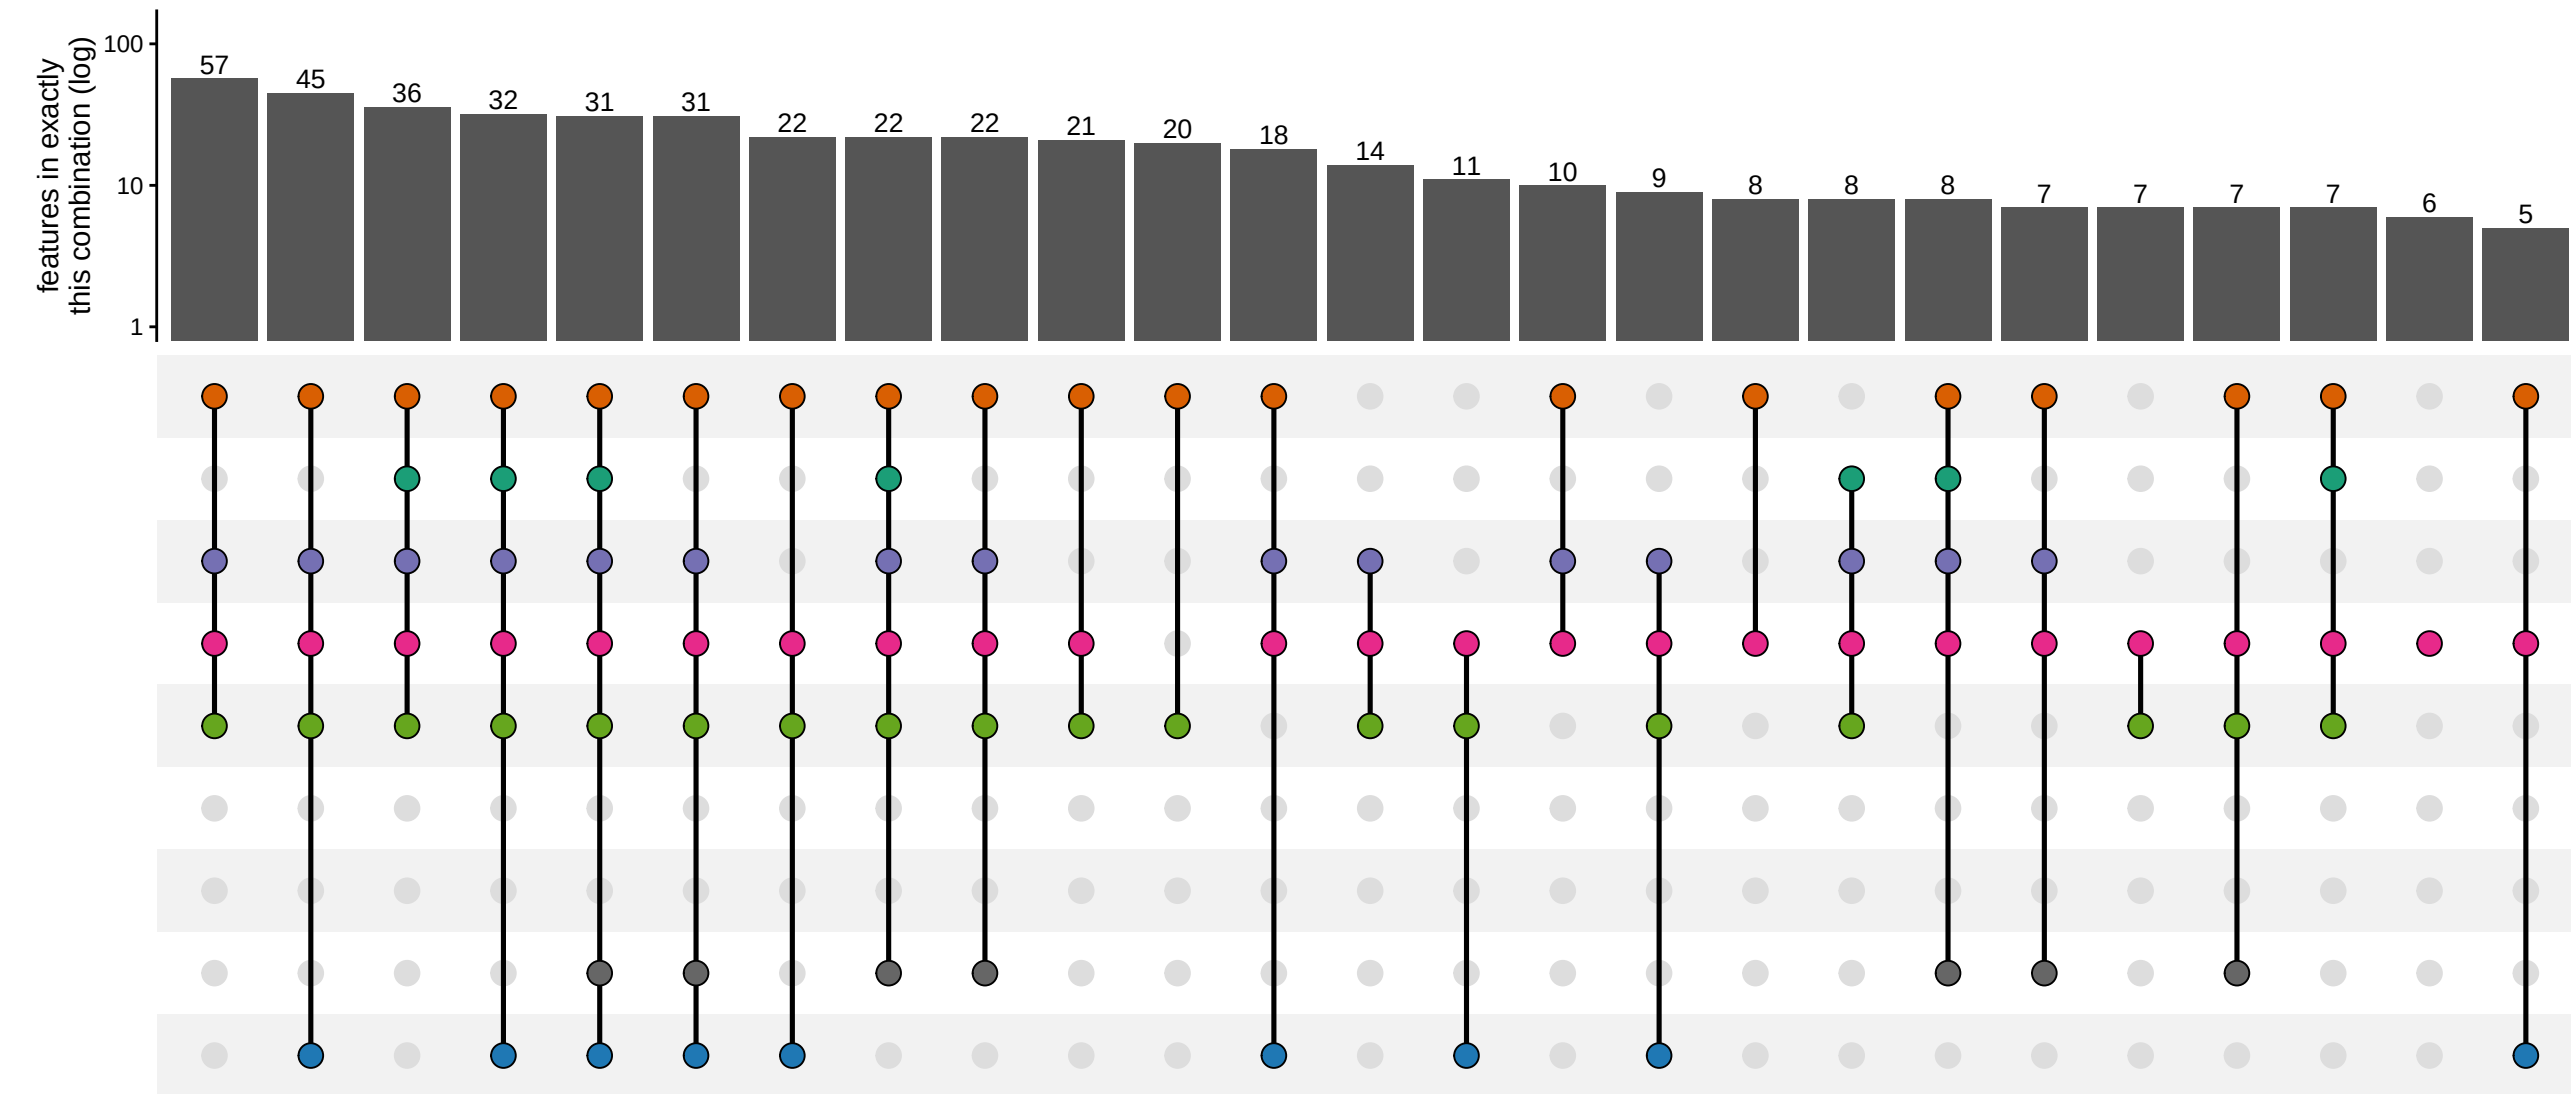

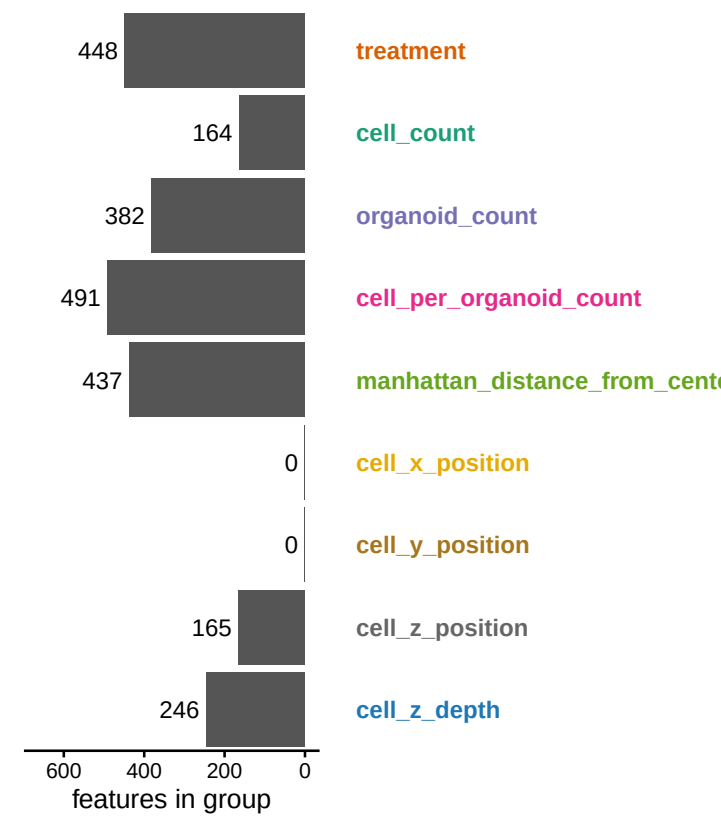

Features that are significant for each variate (treatment=Digoxin_1uM)
3 of 534 features are significant for none of these 4 variates

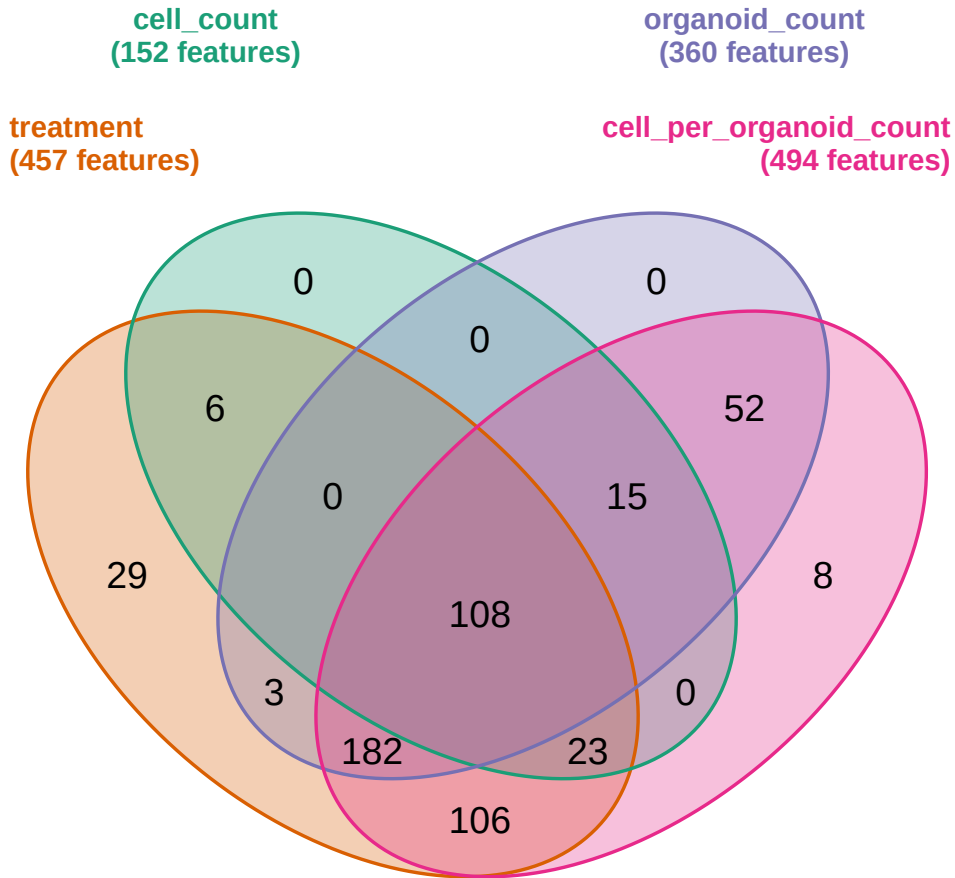

Features that are significant for each variate (treatment=Everolimus_1uM)
5 of 534 features are significant for none of these 4 variates

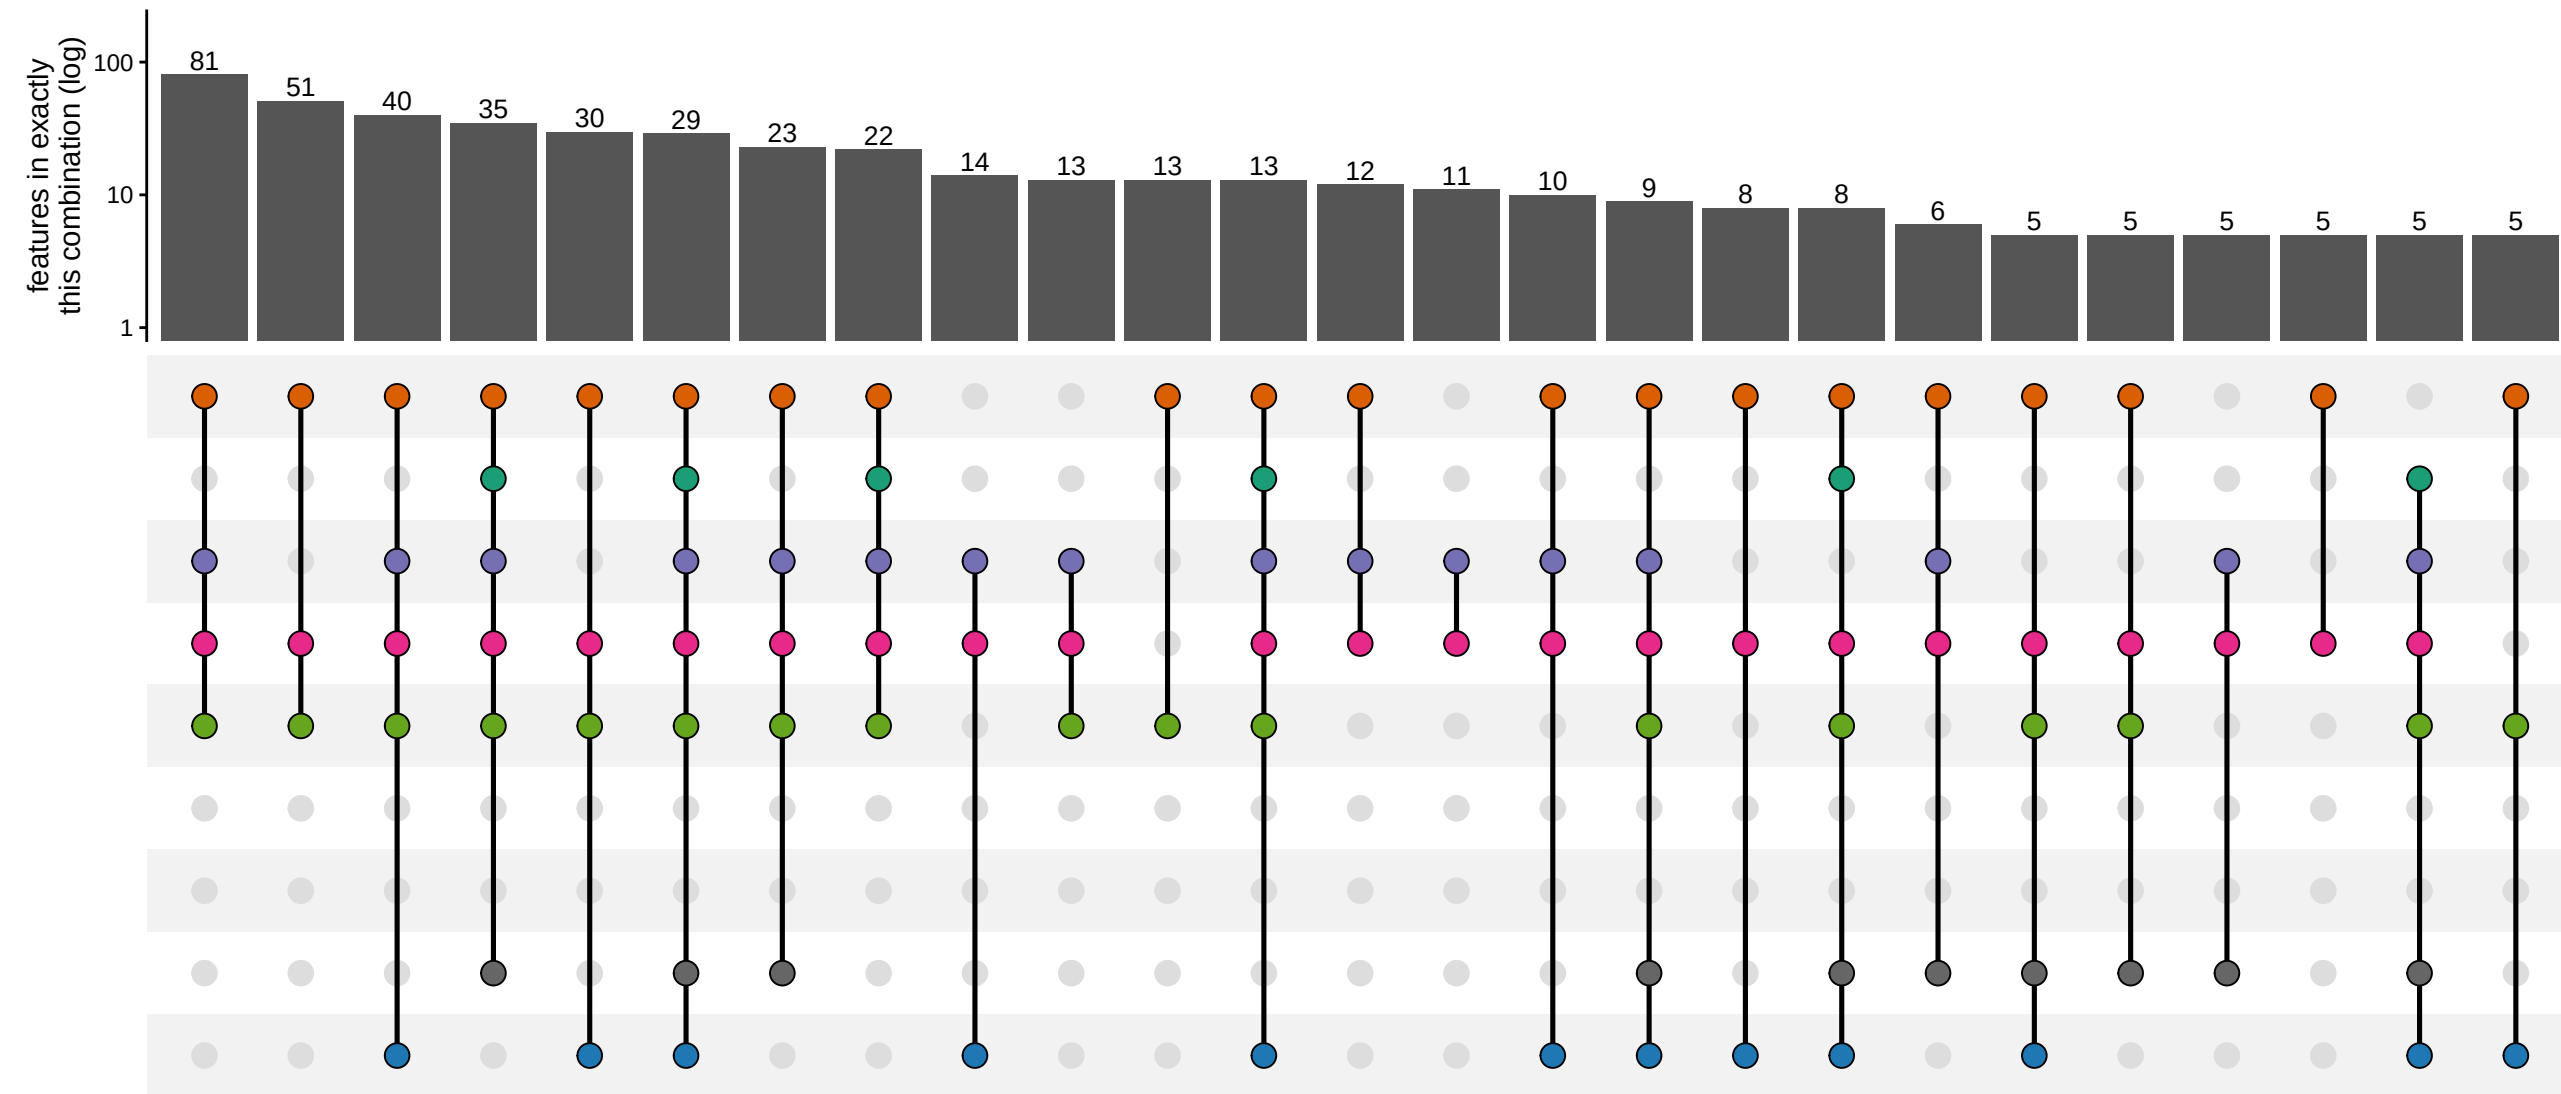

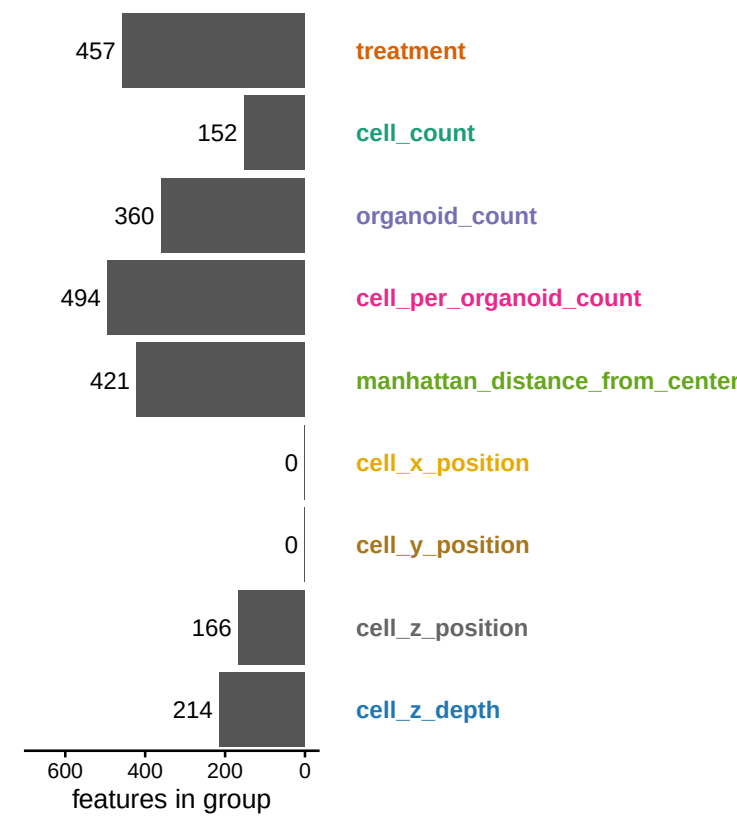

Feature membership across variate groups, treatment=Everolimus_1uM (top 25 of 53 combinations; orange = treatment only)

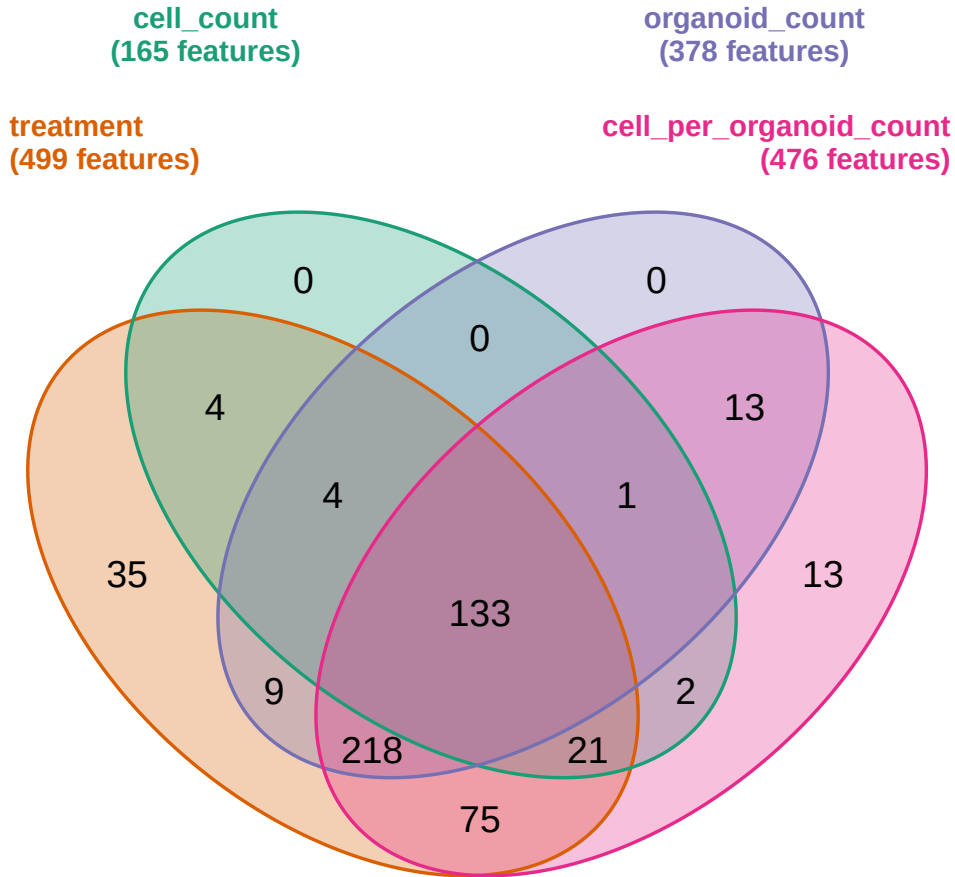

Features that are significant for each variate (treatment=Fimepinostat_1uM)
2 of 534 features are significant for none of these 4 variates

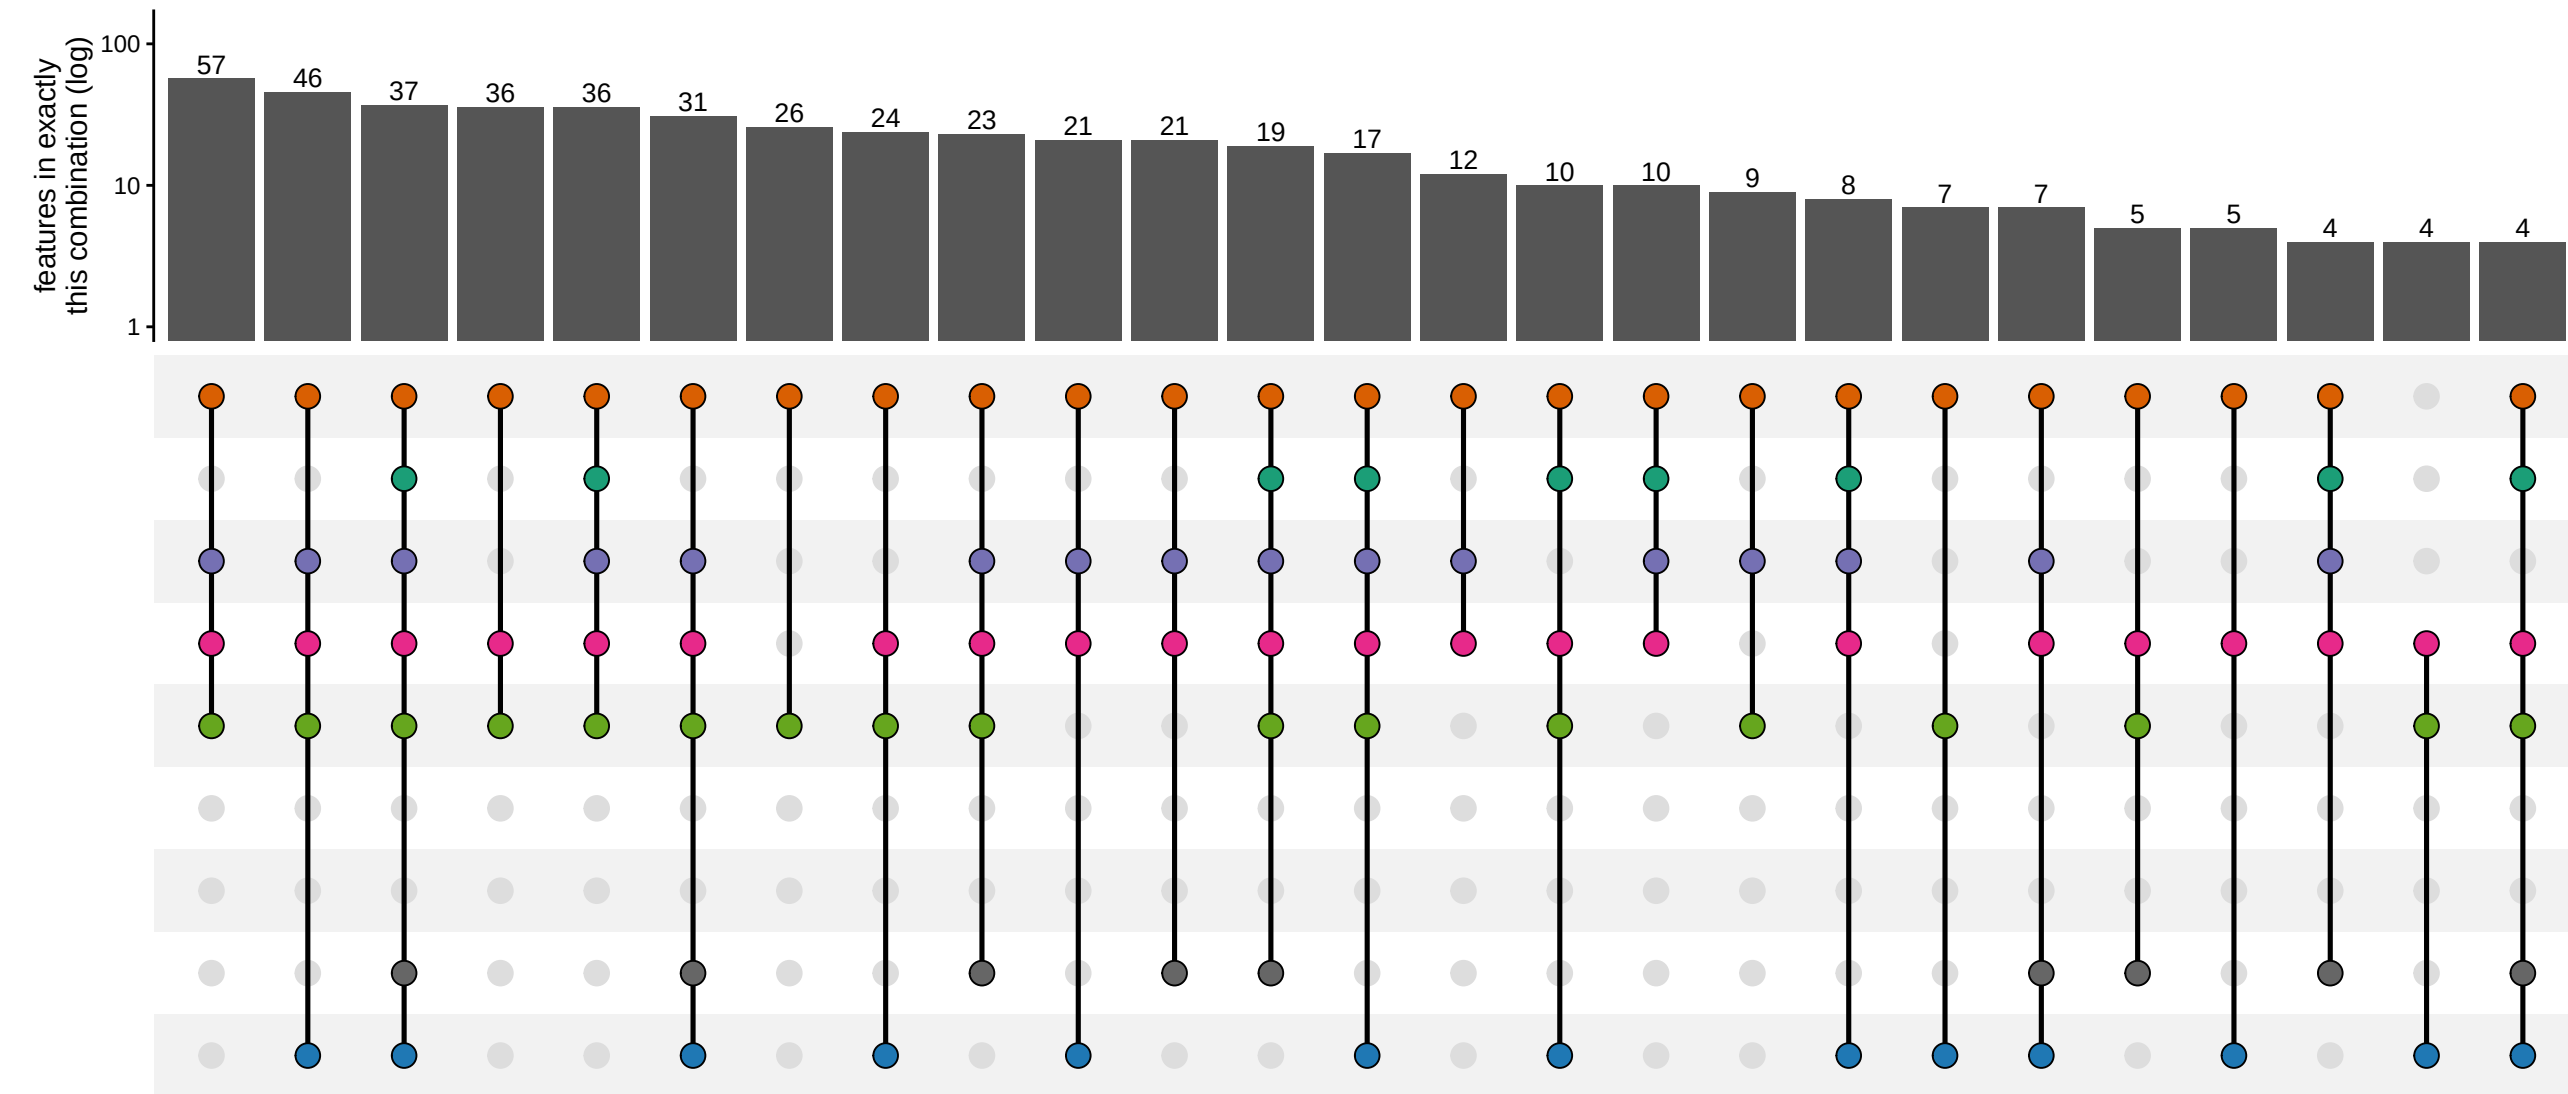

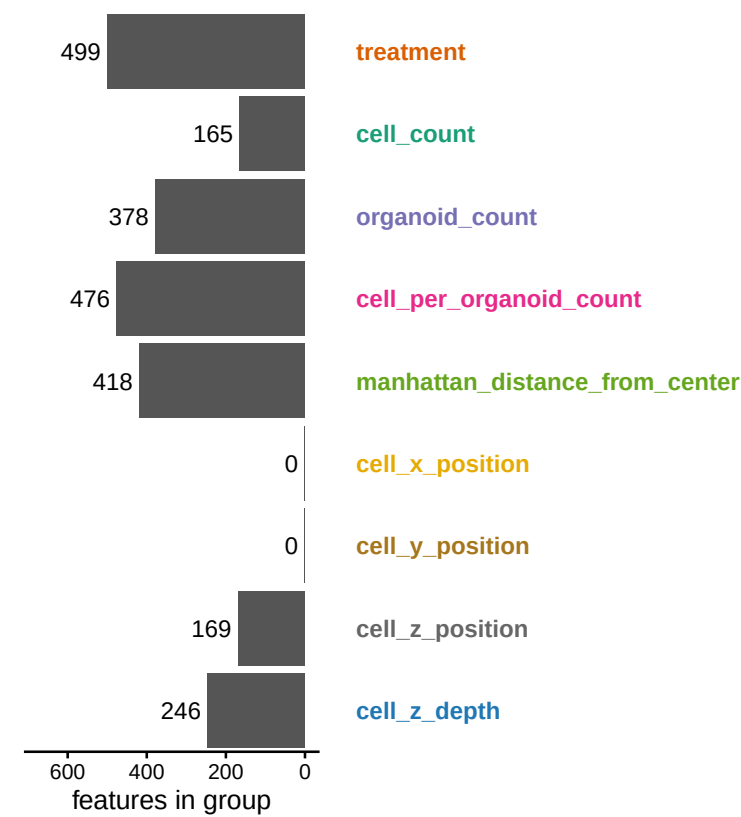

Feature membership across variate groups, treatment=Fimepinostat_1uM (top 25 of 58 combinations; orange = treatment only)

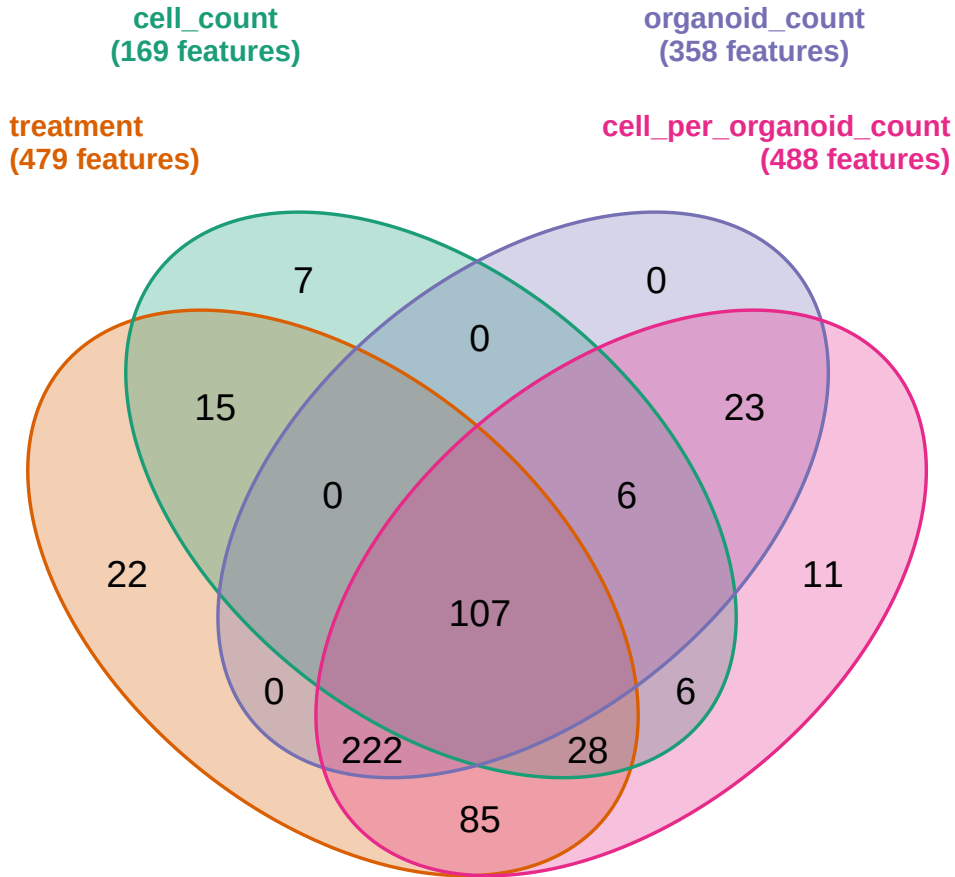

Features that are significant for each variate (treatment=Imatinib_1uM)
6 of 534 features are significant for none of these 4 variates

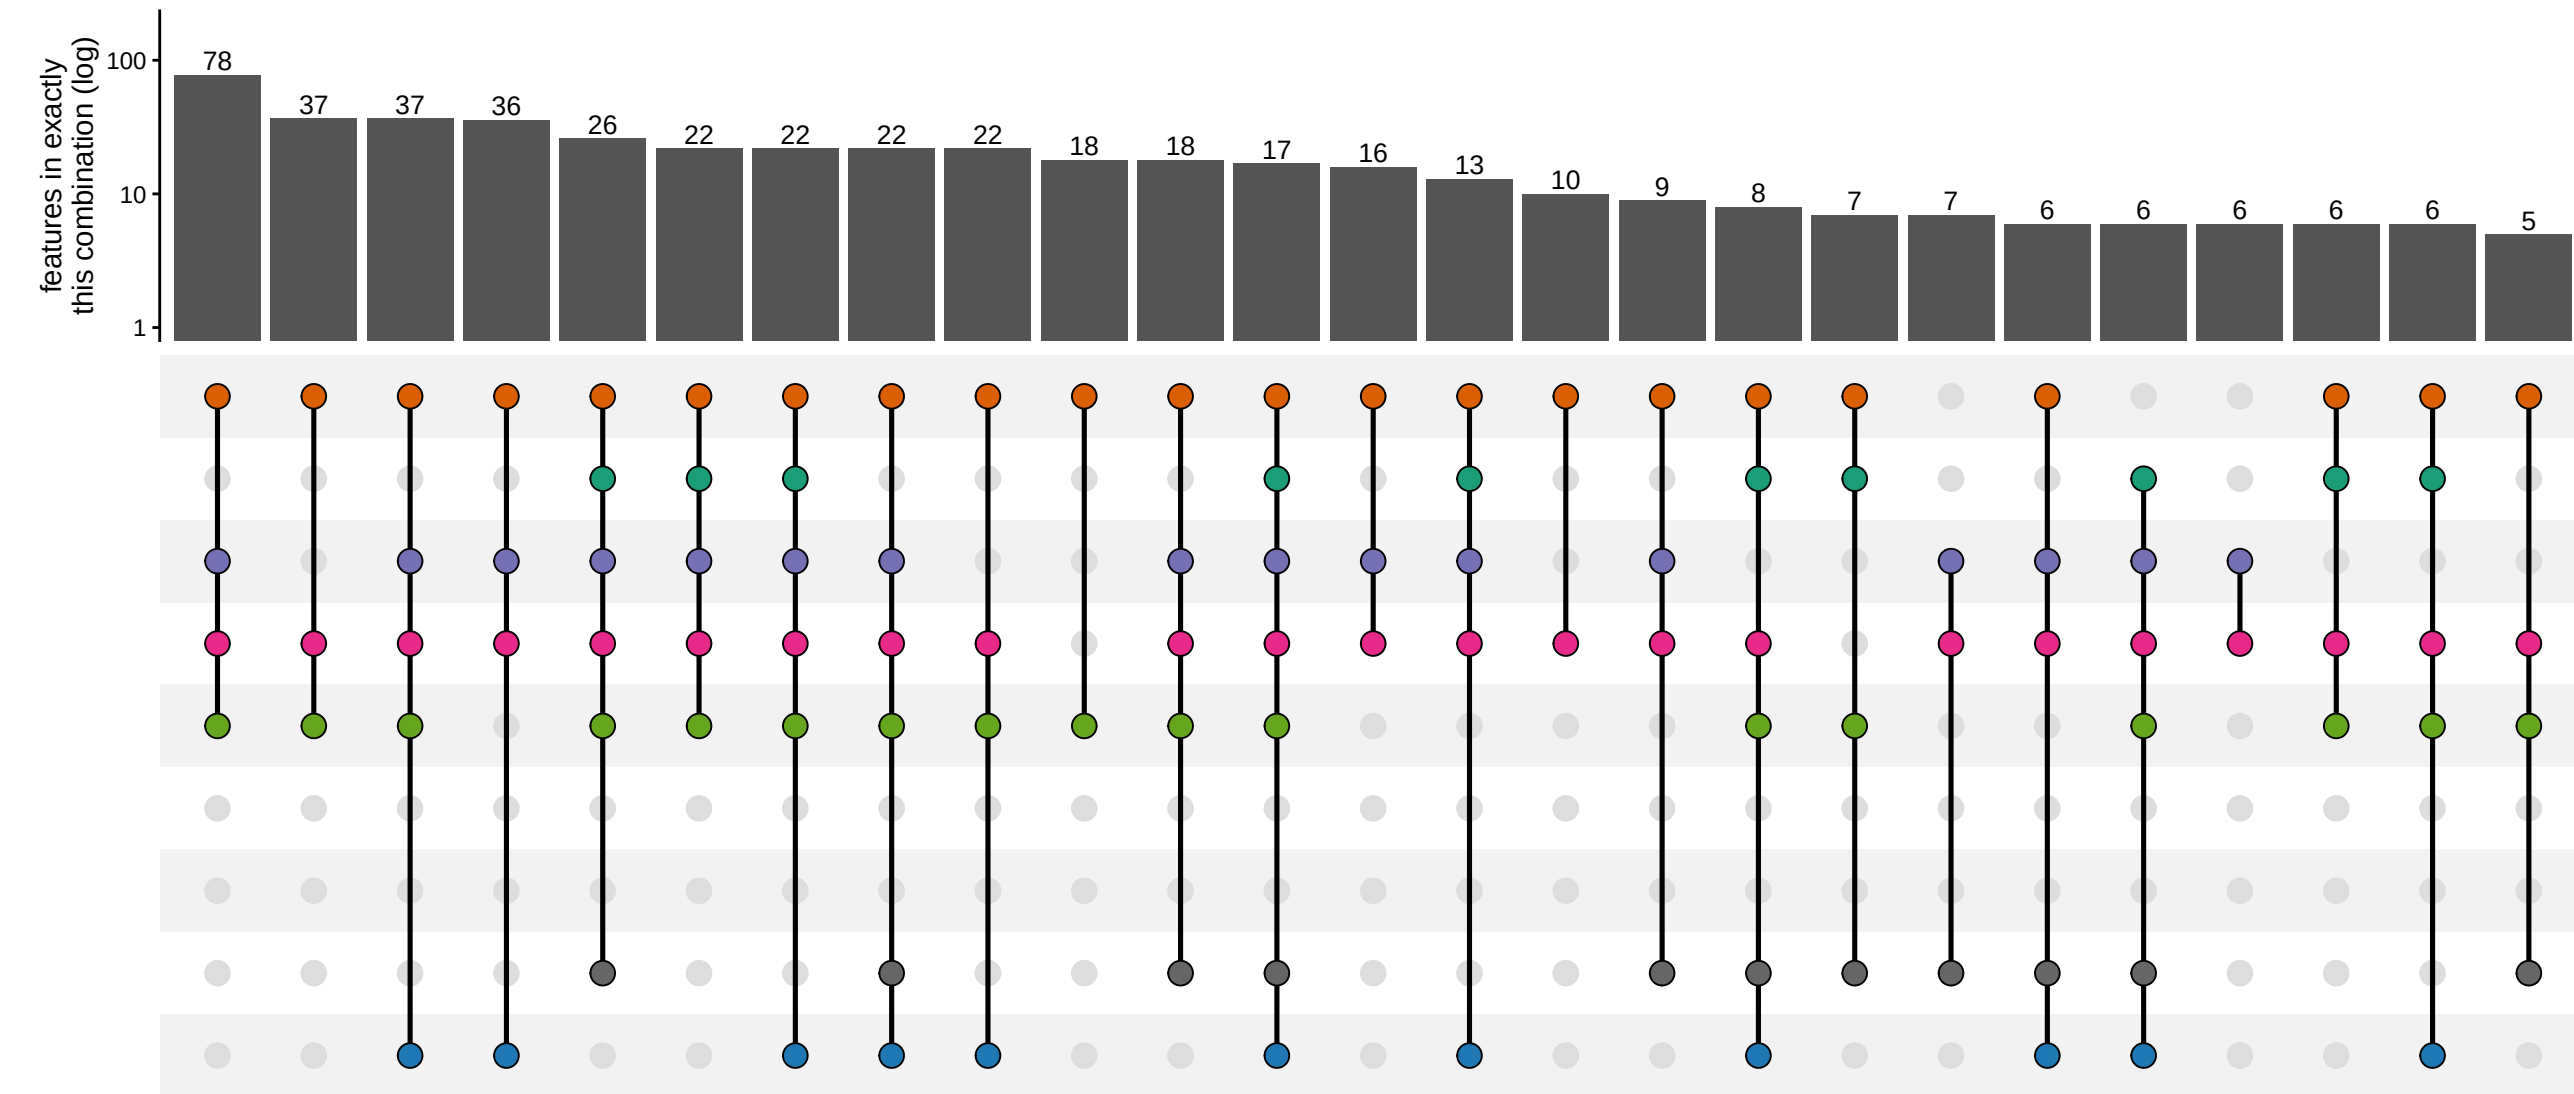

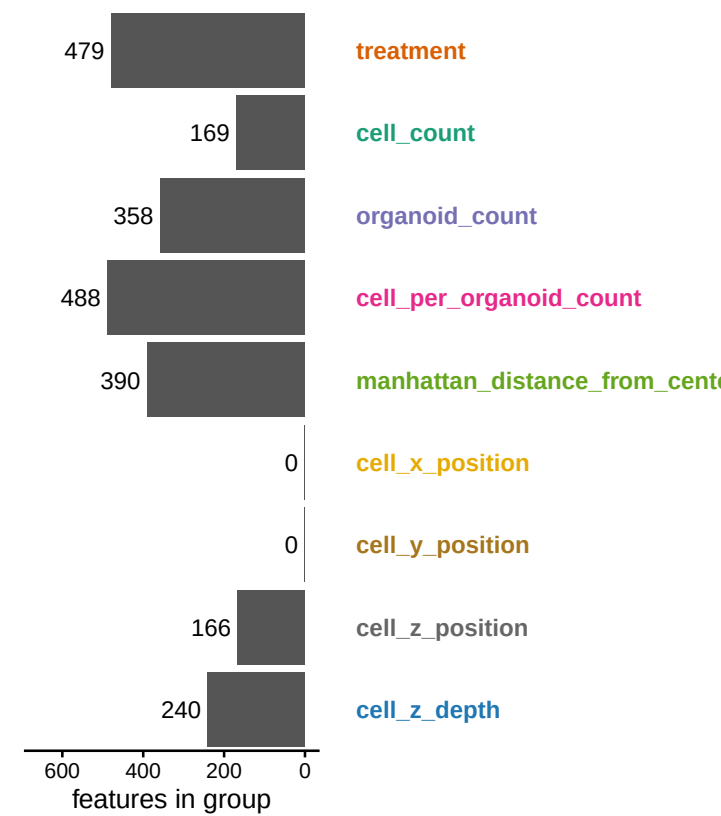

Feature membership across variate groups, treatment=Imatinib_1uM (top 25 of 53 combinations; orange = treatment only)

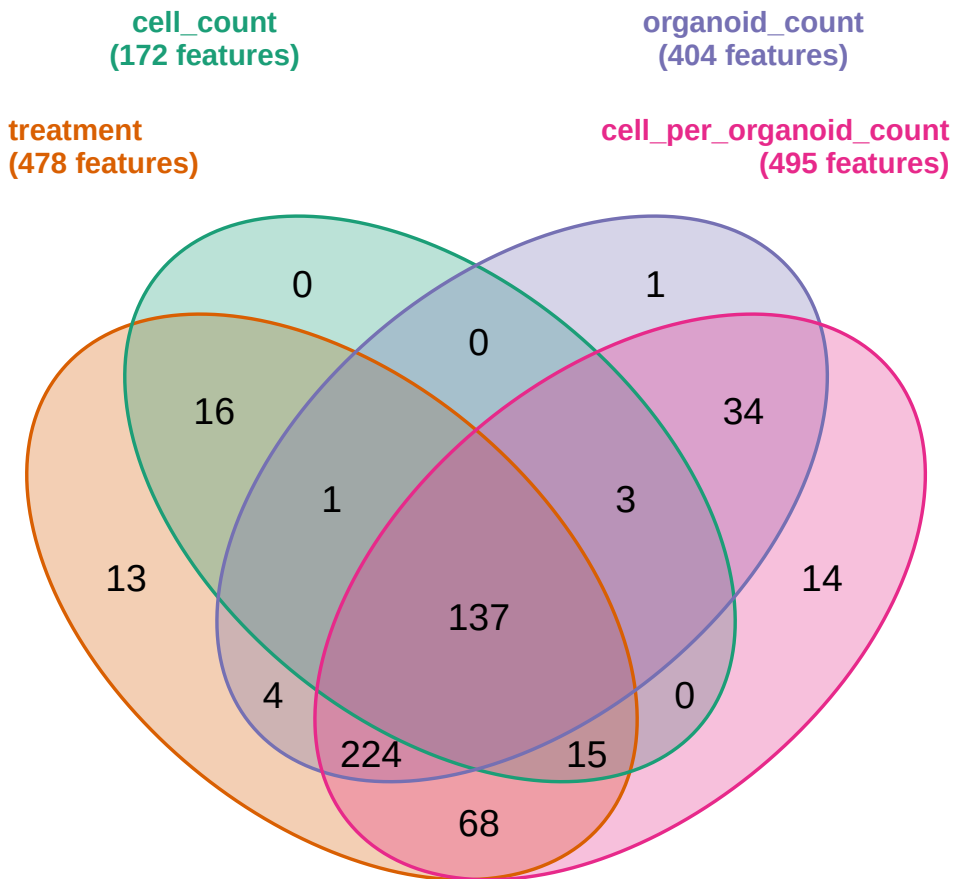

Features that are significant for each variate (treatment=Ketotifen_1uM)
2 of 534 features are significant for none of these 4 variates

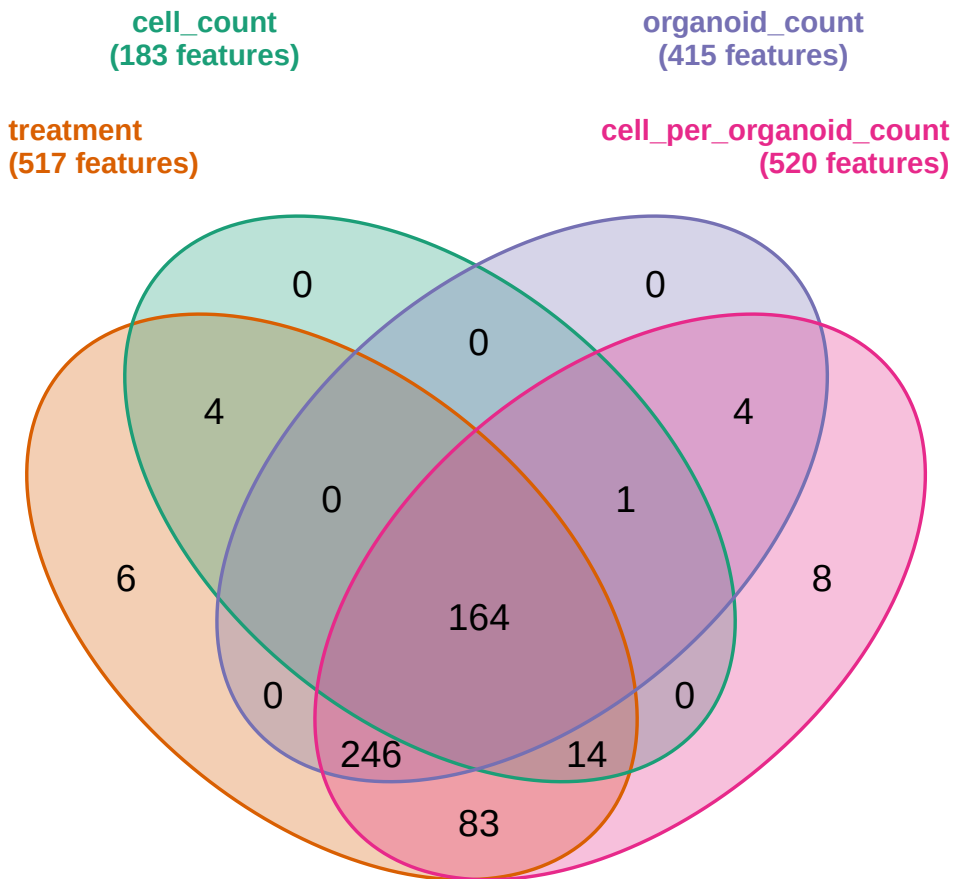

Feature membership across variate groups, treatment=Ketotifen_1uM (top 25 of 60 combinations; orange = treatment only)

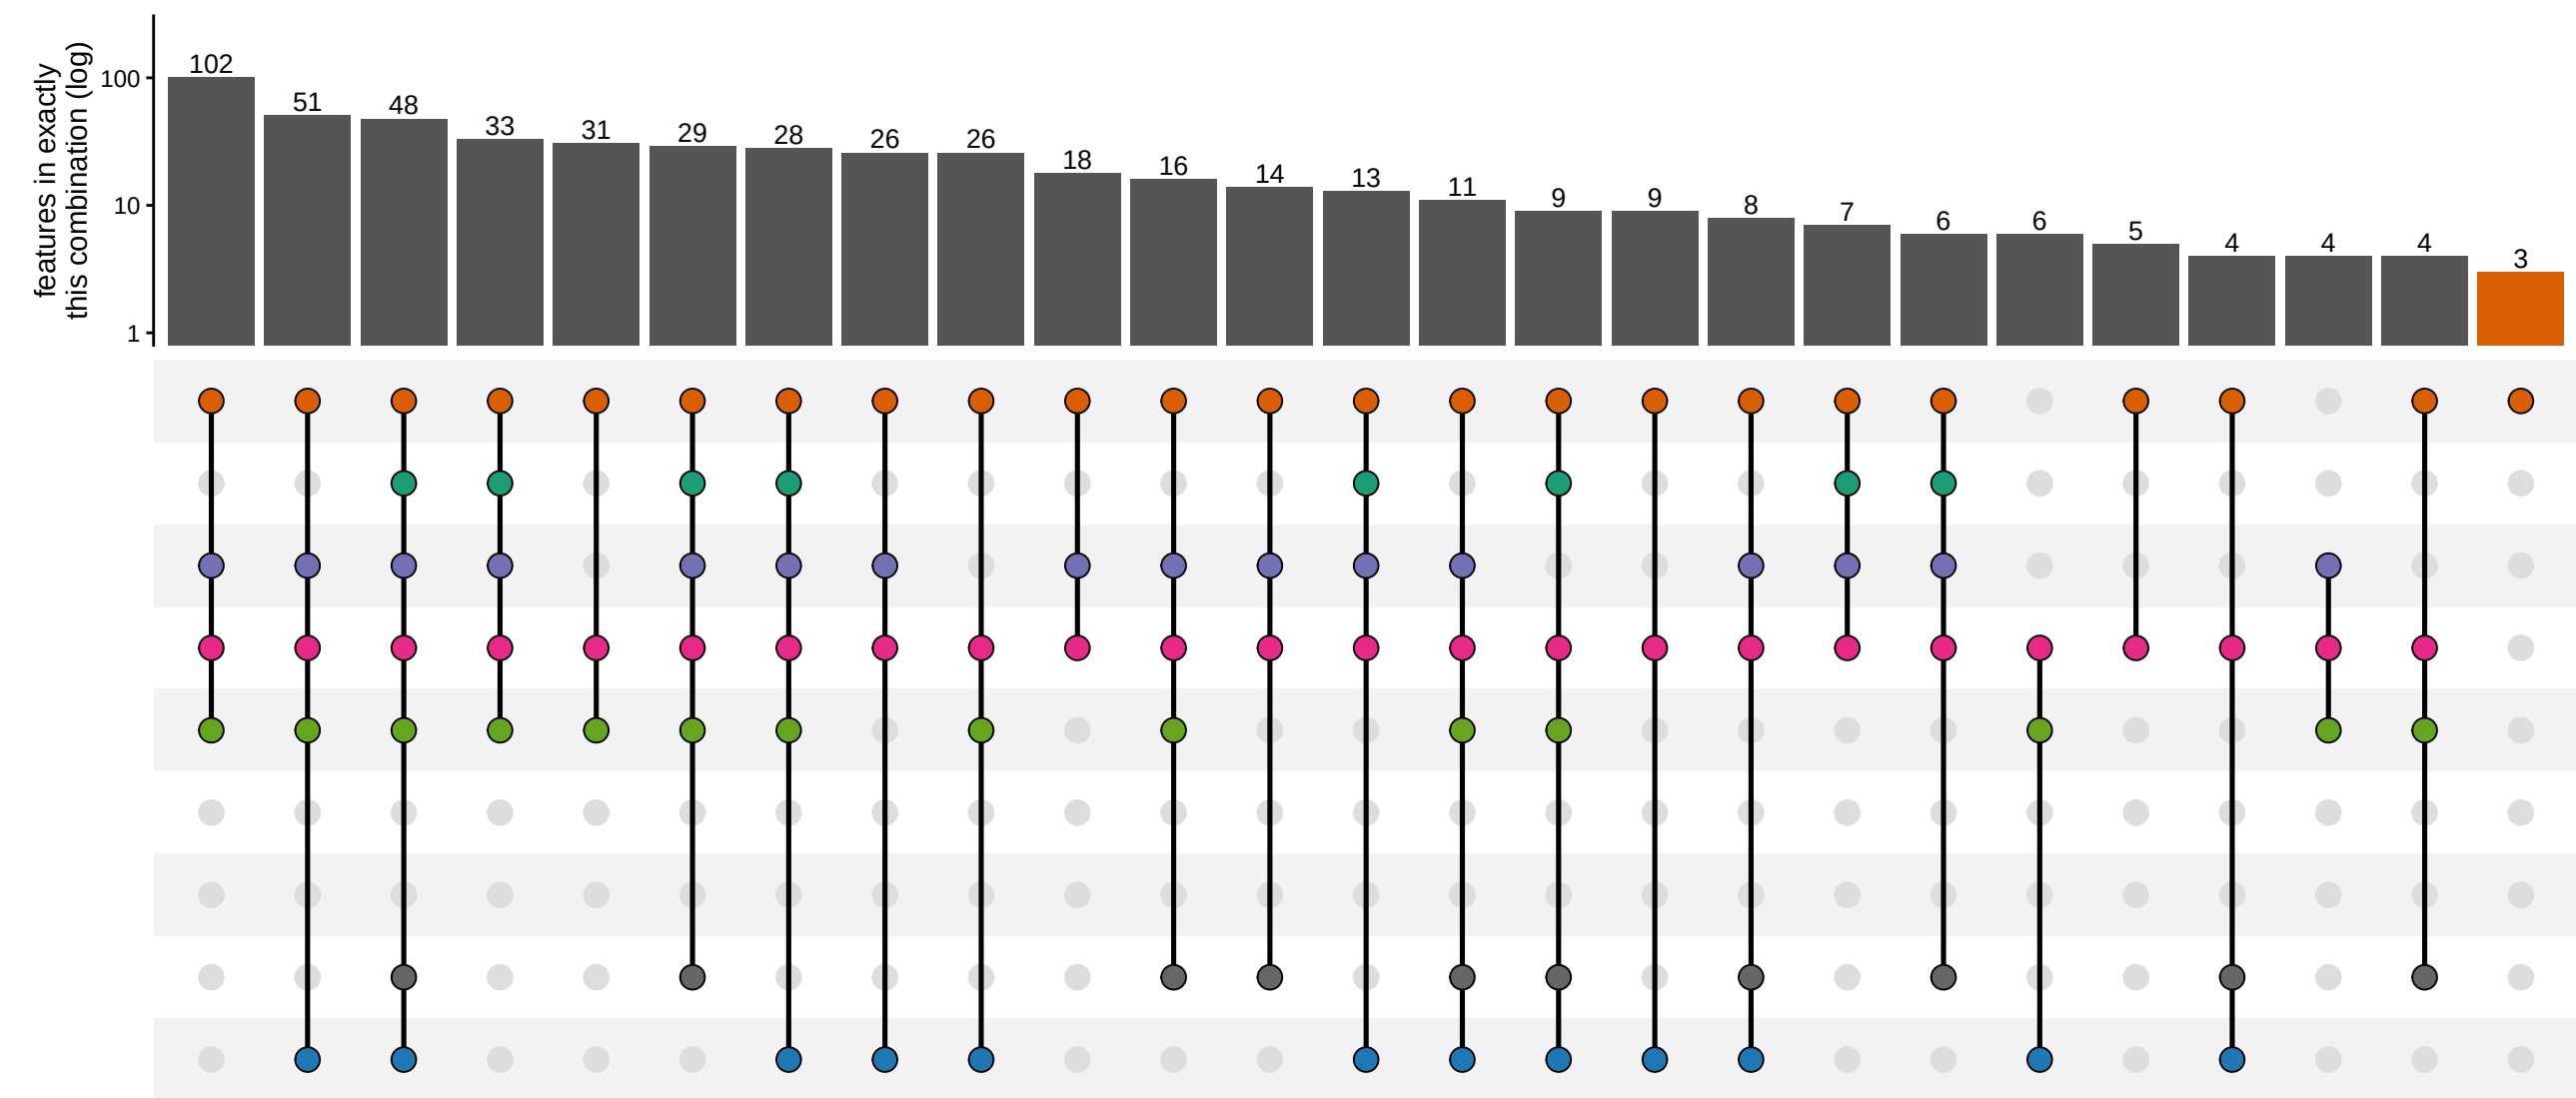

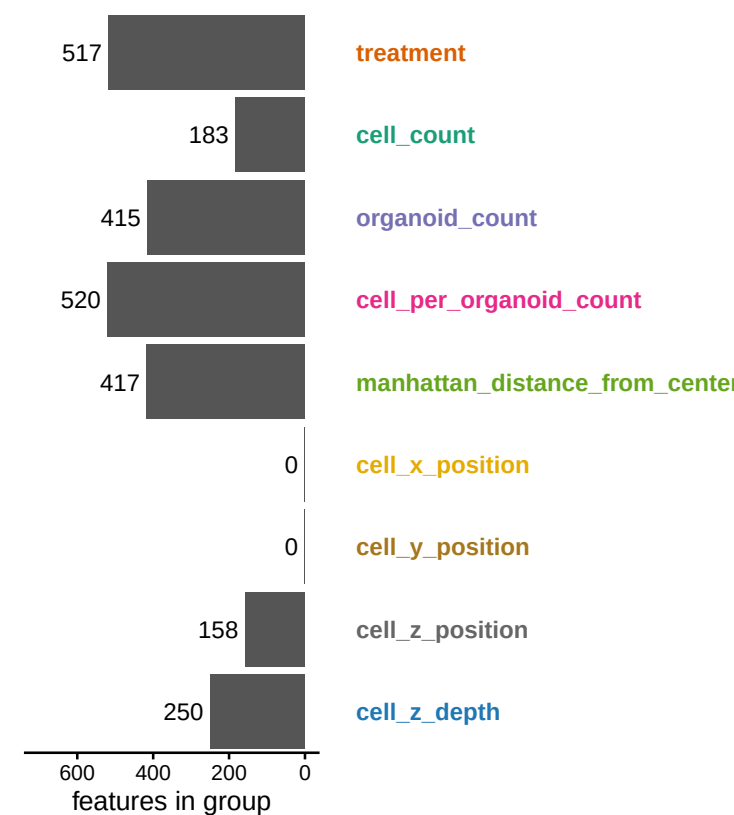

Features that are significant for each variate (treatment=Linsitinib_1uM)
4 of 534 features are significant for none of these 4 variates

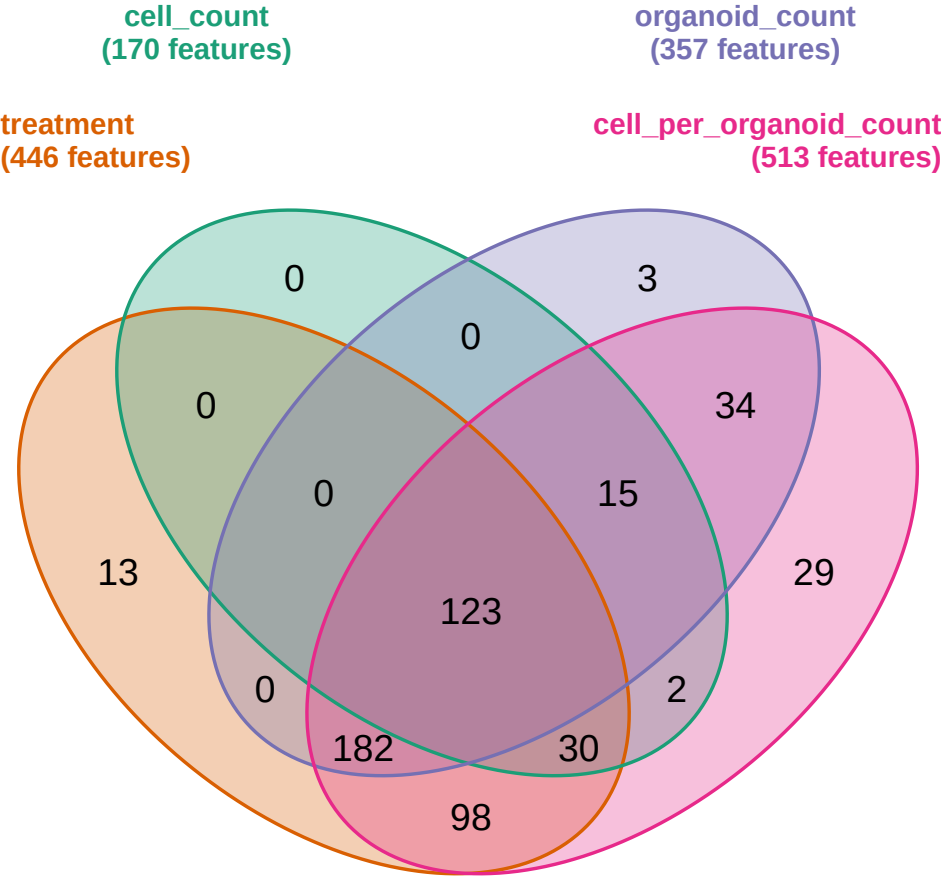

Features that are significant for each variate (treatment=Mirdametinib_10uM)
4 of 534 features are significant for none of these 4 variates

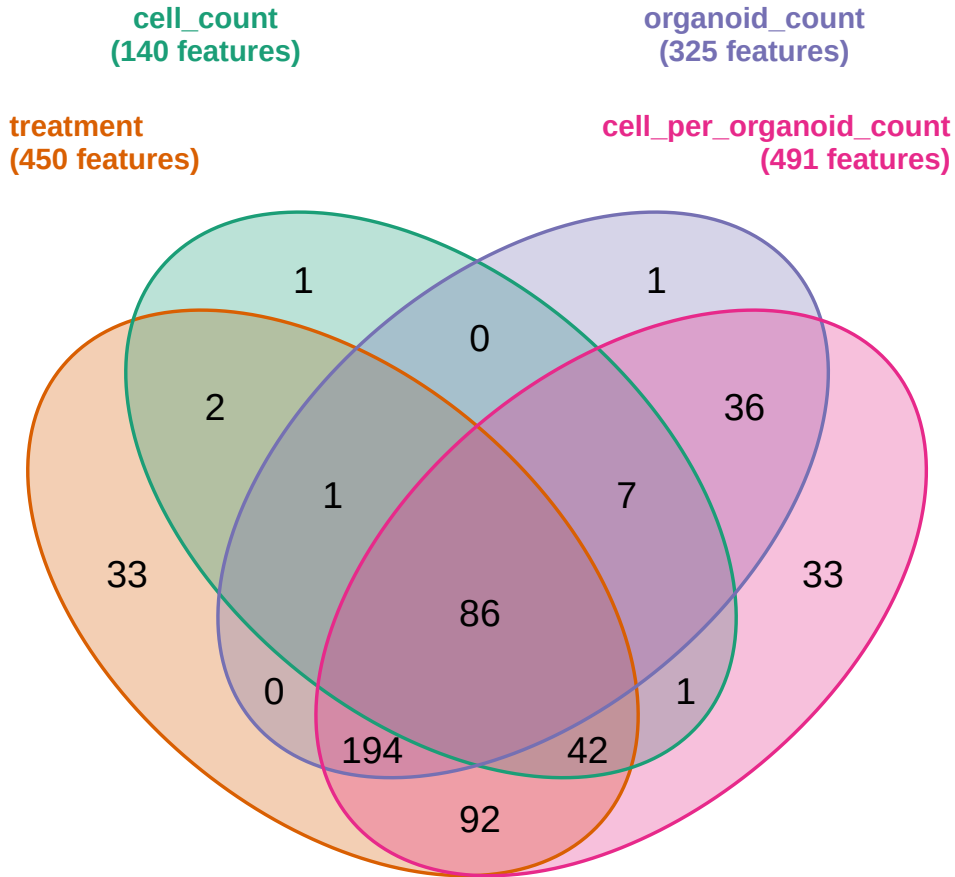

Feature membership across variate groups, treatment=Mirdametinib_10uM (top 25 of 39 combinations; orange = treatment only)

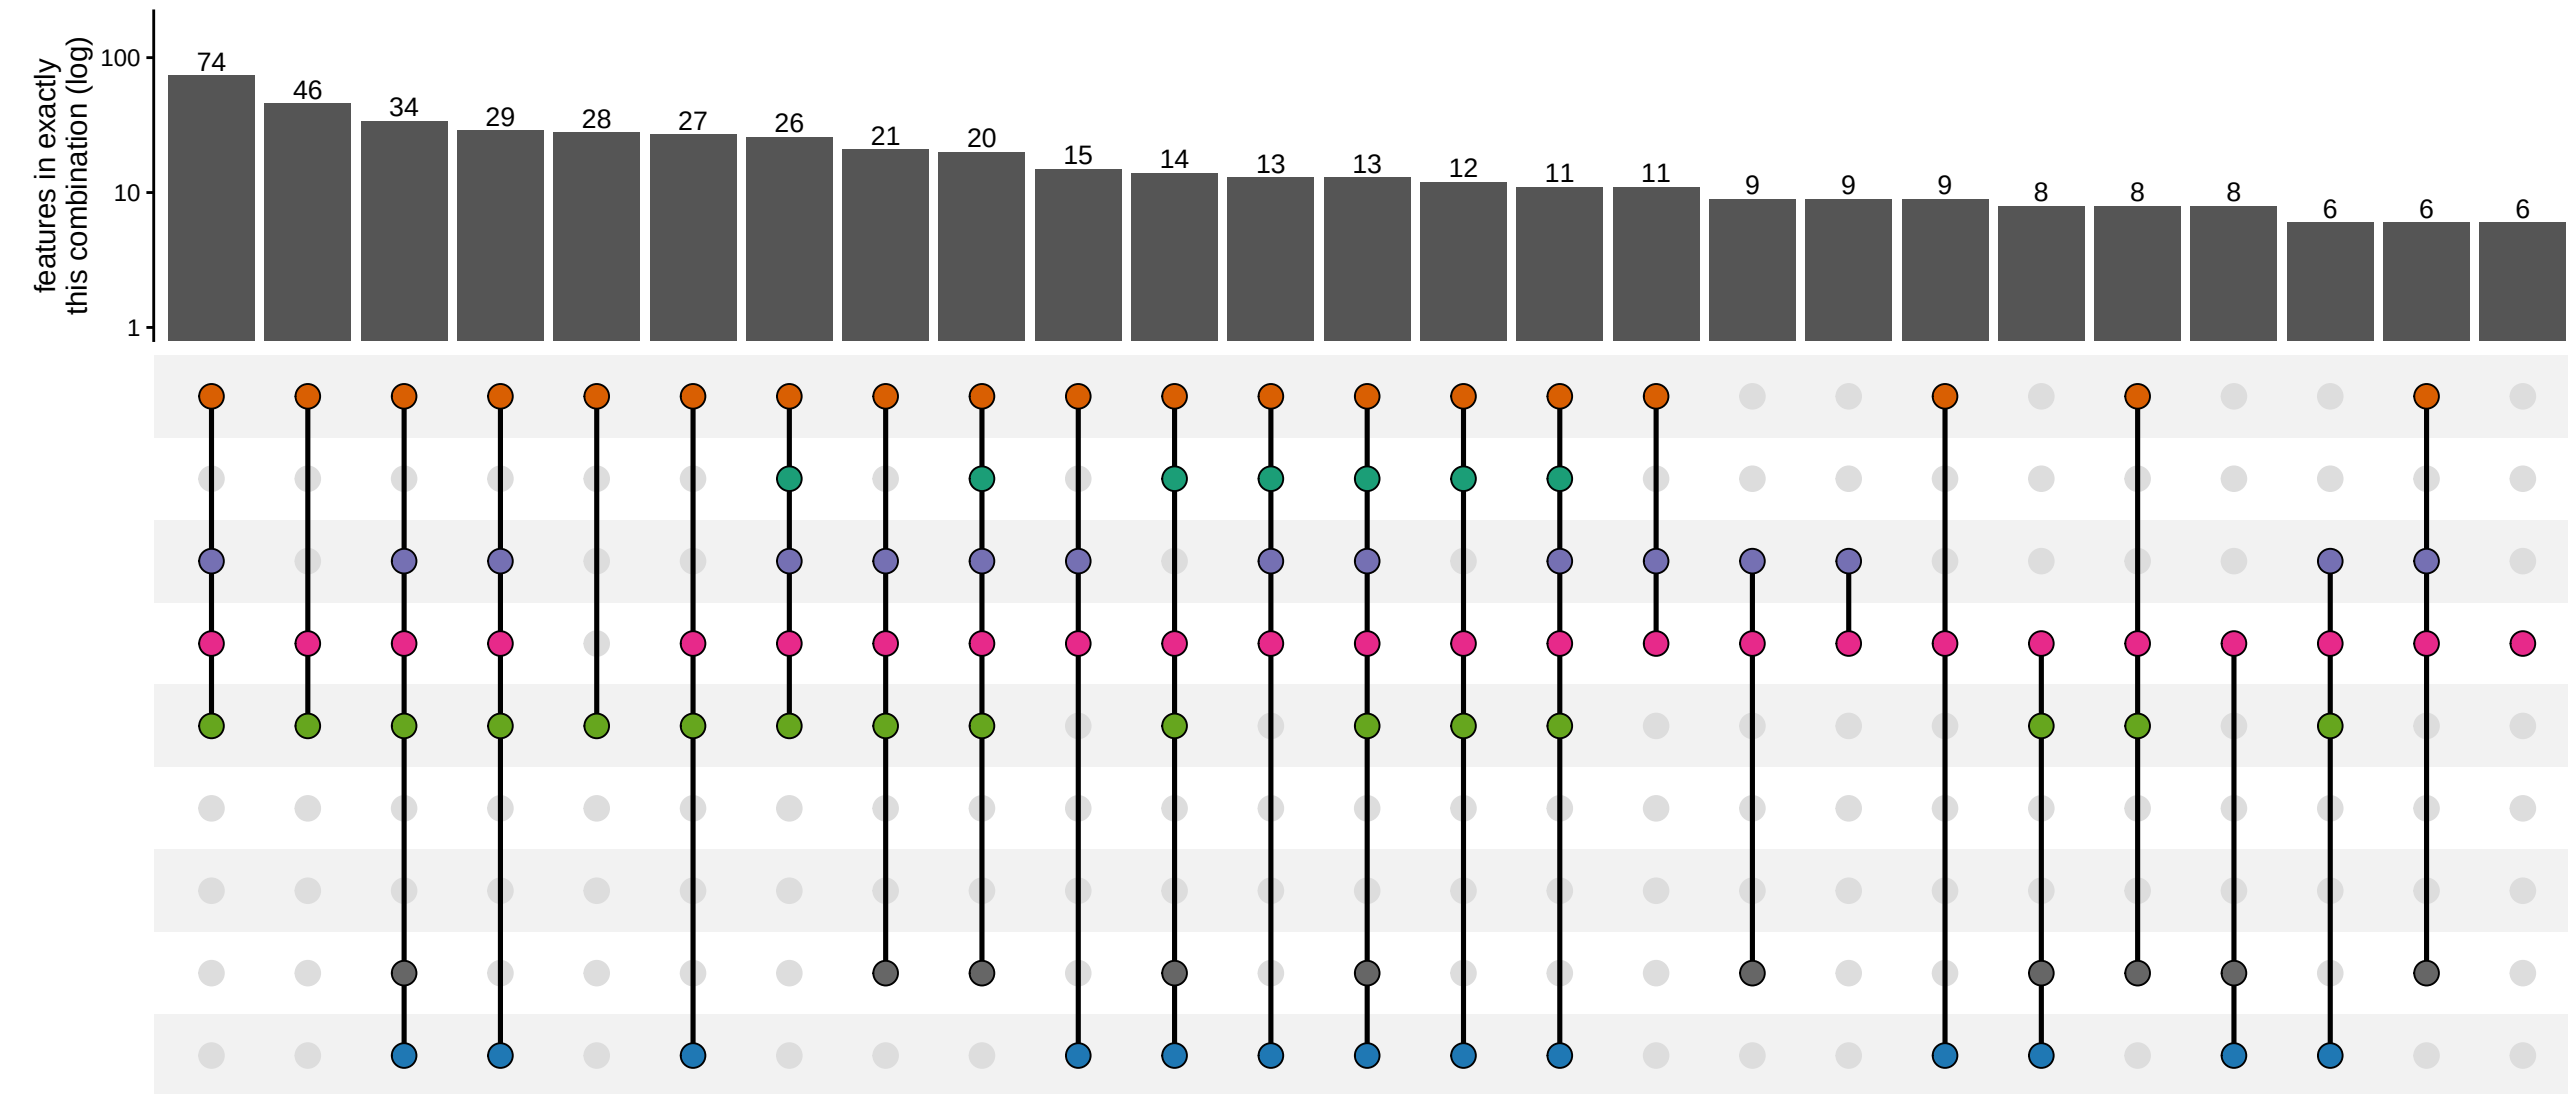

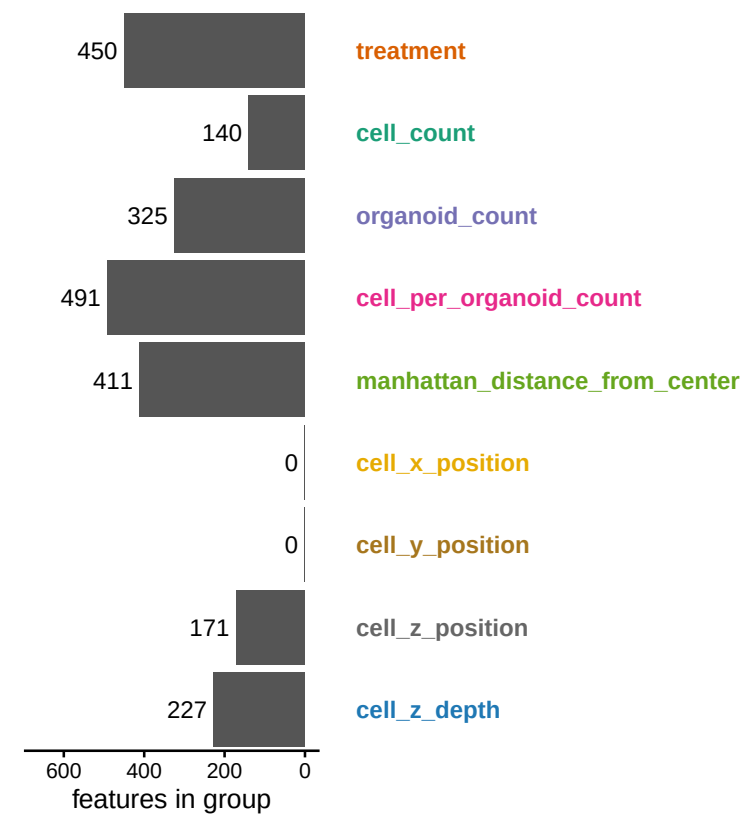

Features that are significant for each variate (treatment=Mirdametinib_1uM)
5 of 534 features are significant for none of these 4 variates

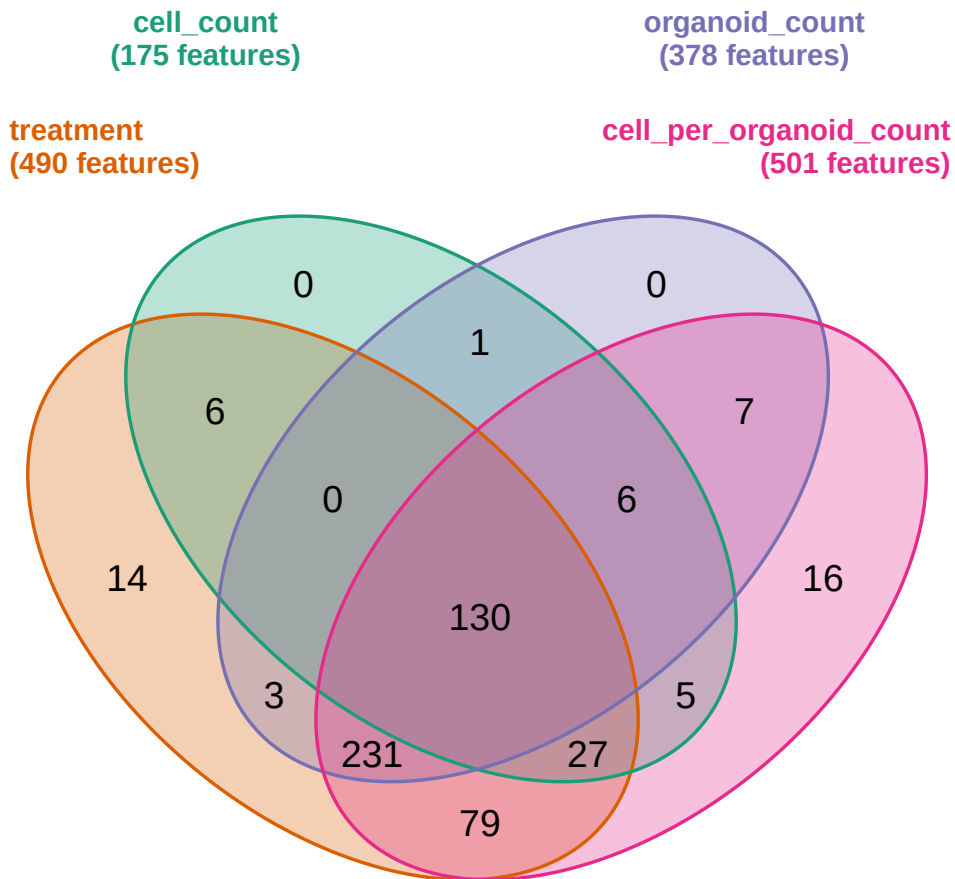

Features that are significant for each variate (treatment=Nilotinib_1uM)
5 of 534 features are significant for none of these 4 variates

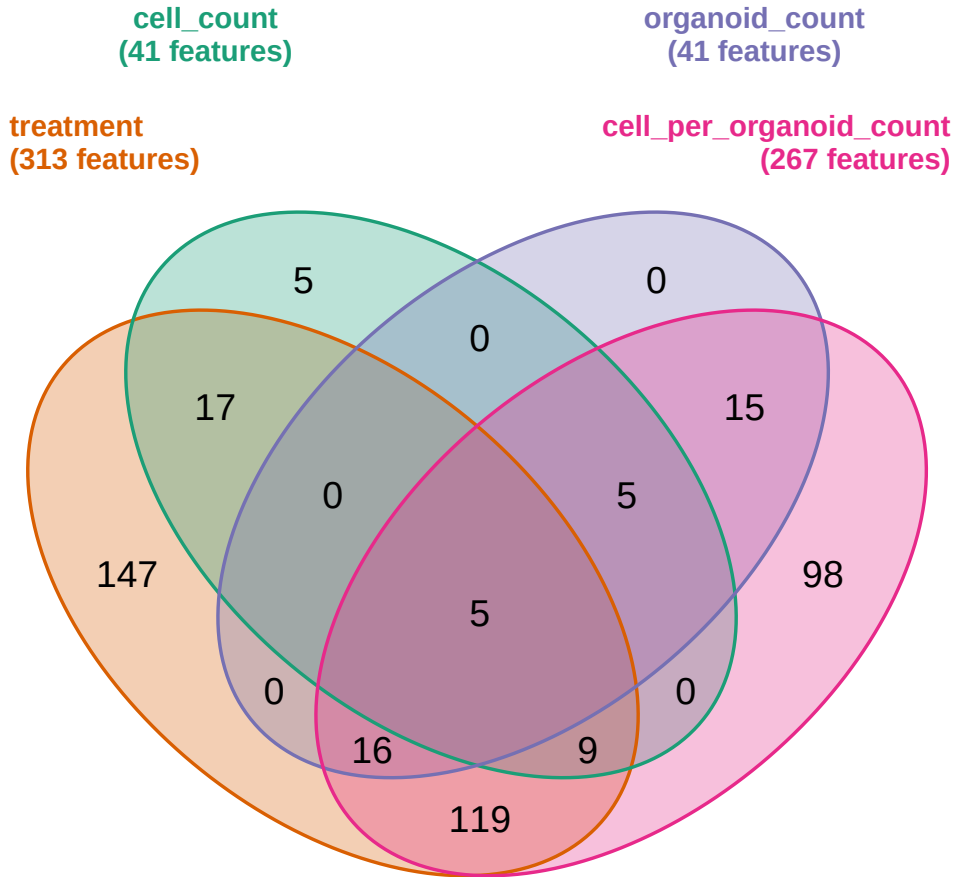

Feature membership across variate groups, treatment=Nilotinib_1uM (top 25 of 58 combinations; orange = treatment only)

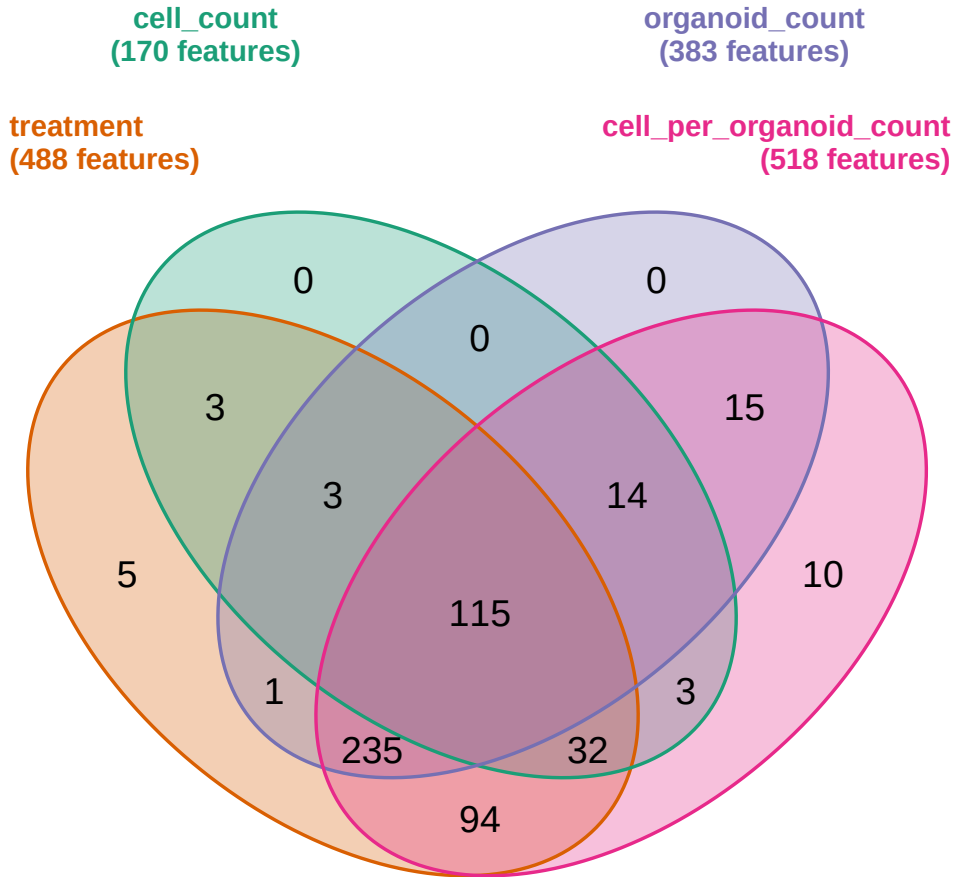

Features that are significant for each variate (treatment=Onalespib_1uM)
9 of 534 features are significant for none of these 4 variates

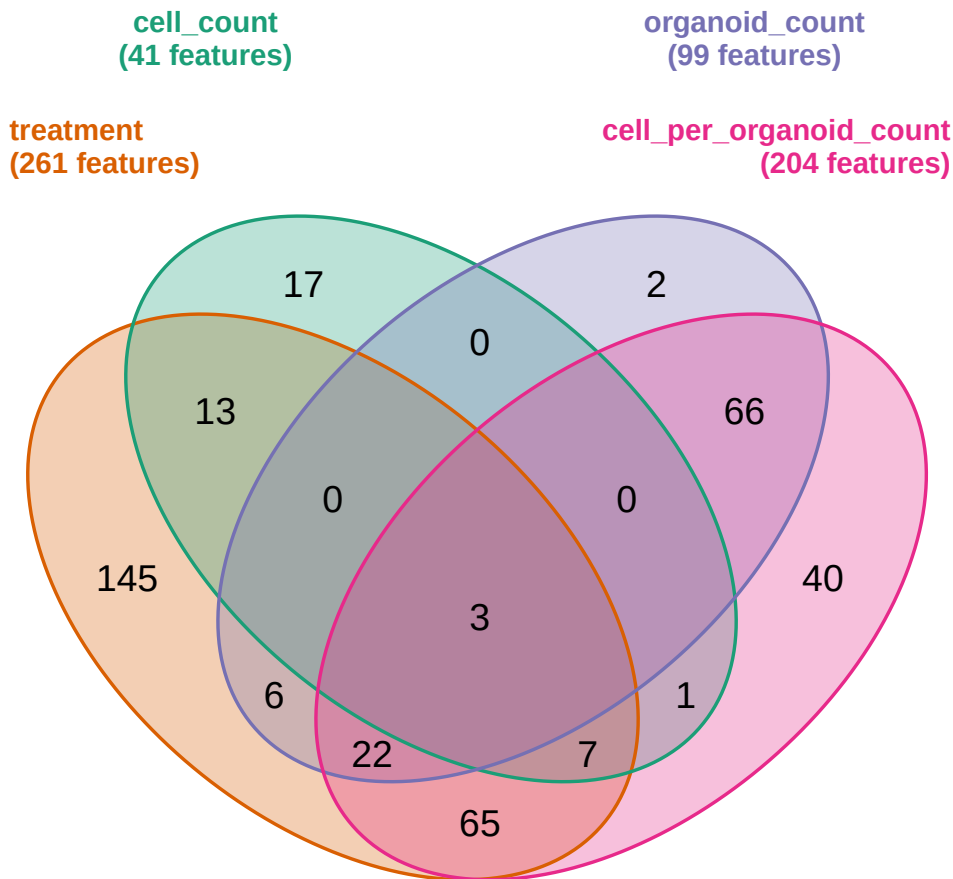

Features that are significant for each variate (treatment=Panobinostat_1uM)
98 of 534 features are significant for none of these 4 variates

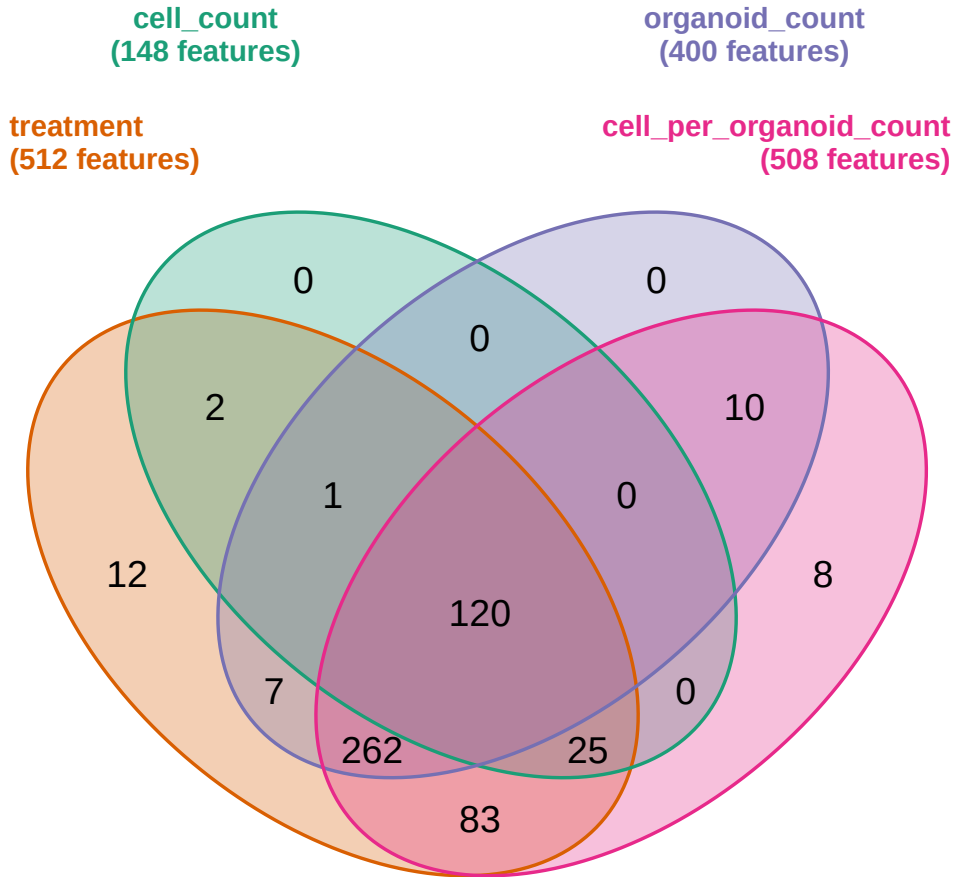

Features that are significant for each variate (treatment=Rapamycin_1uM)
4 of 534 features are significant for none of these 4 variates

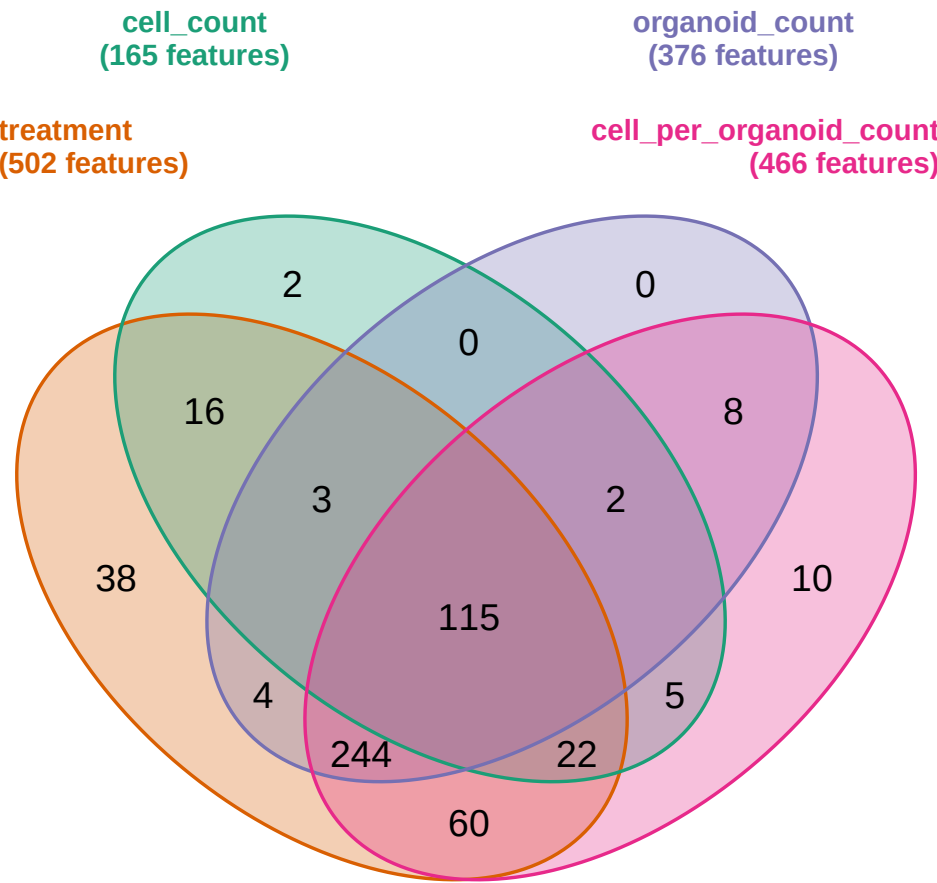

Features that are significant for each variate (treatment=Sapanisertib_1uM)
147 of 534 features are significant for none of these 4 variates

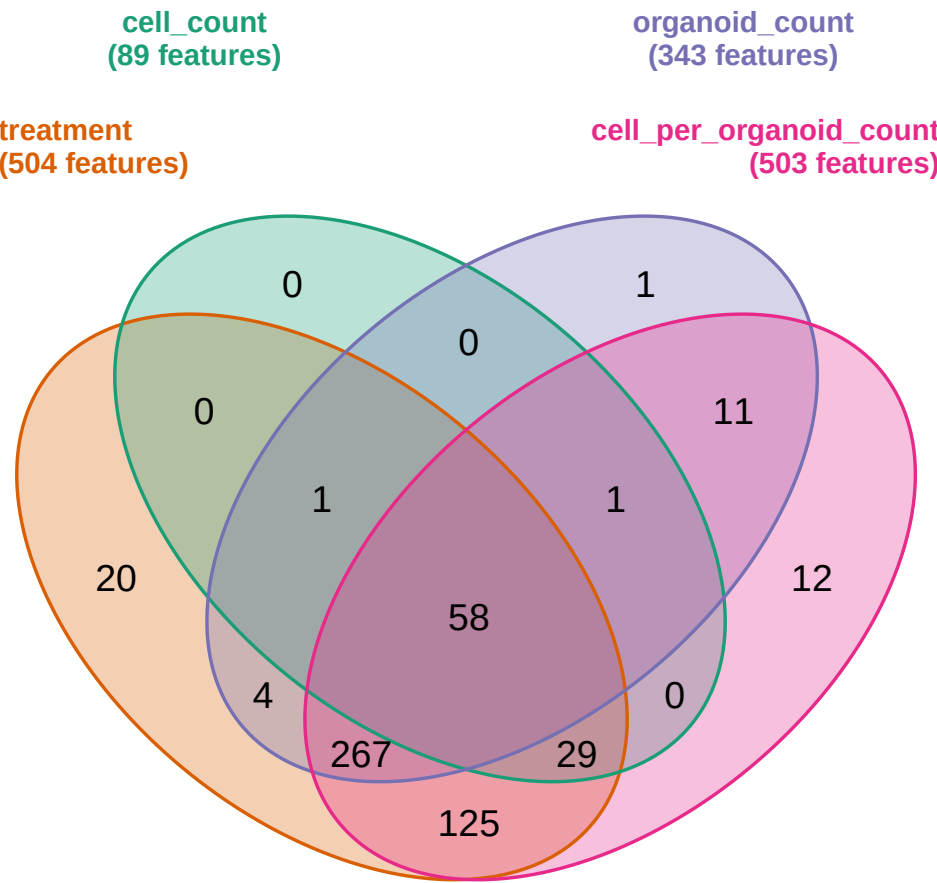

Features that are significant for each variate (treatment=Selumetinib_10uM)
4 of 534 features are significant for none of these 4 variates

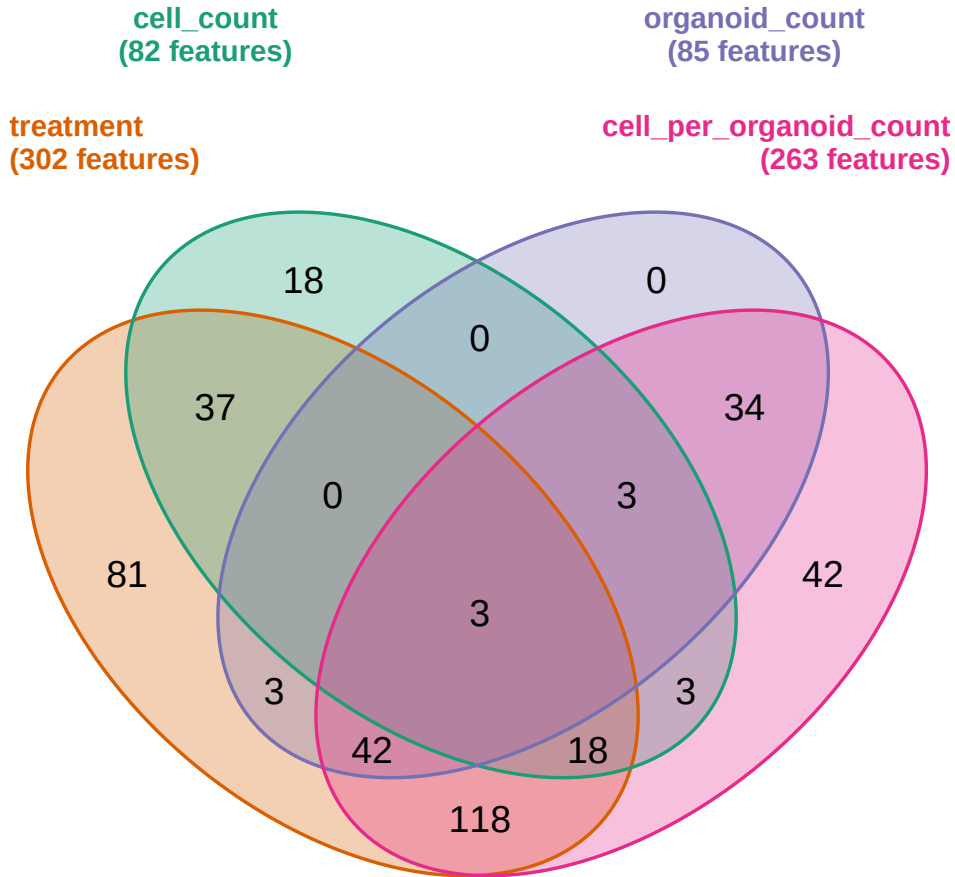

Features that are significant for each variate (treatment=Selumetinib_1uM)
5 of 534 features are significant for none of these 4 variates

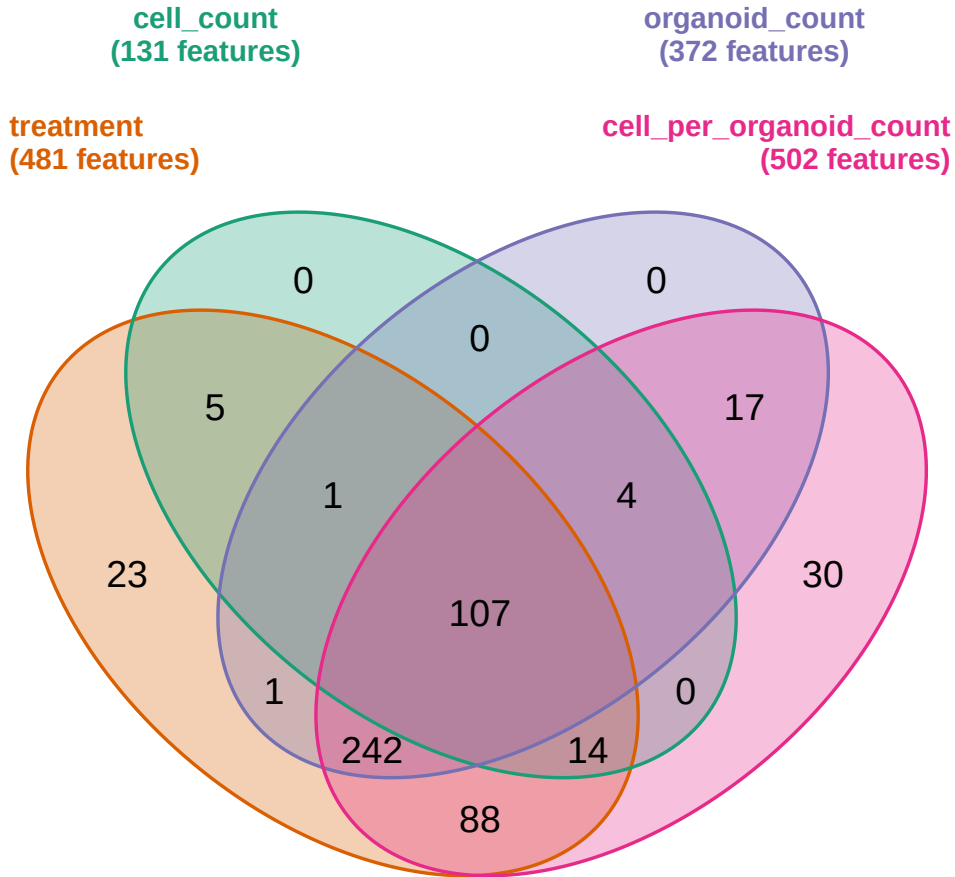

Features that are significant for each variate (treatment=Staurosporine_10nM)
5 of 534 features are significant for none of these 4 variates

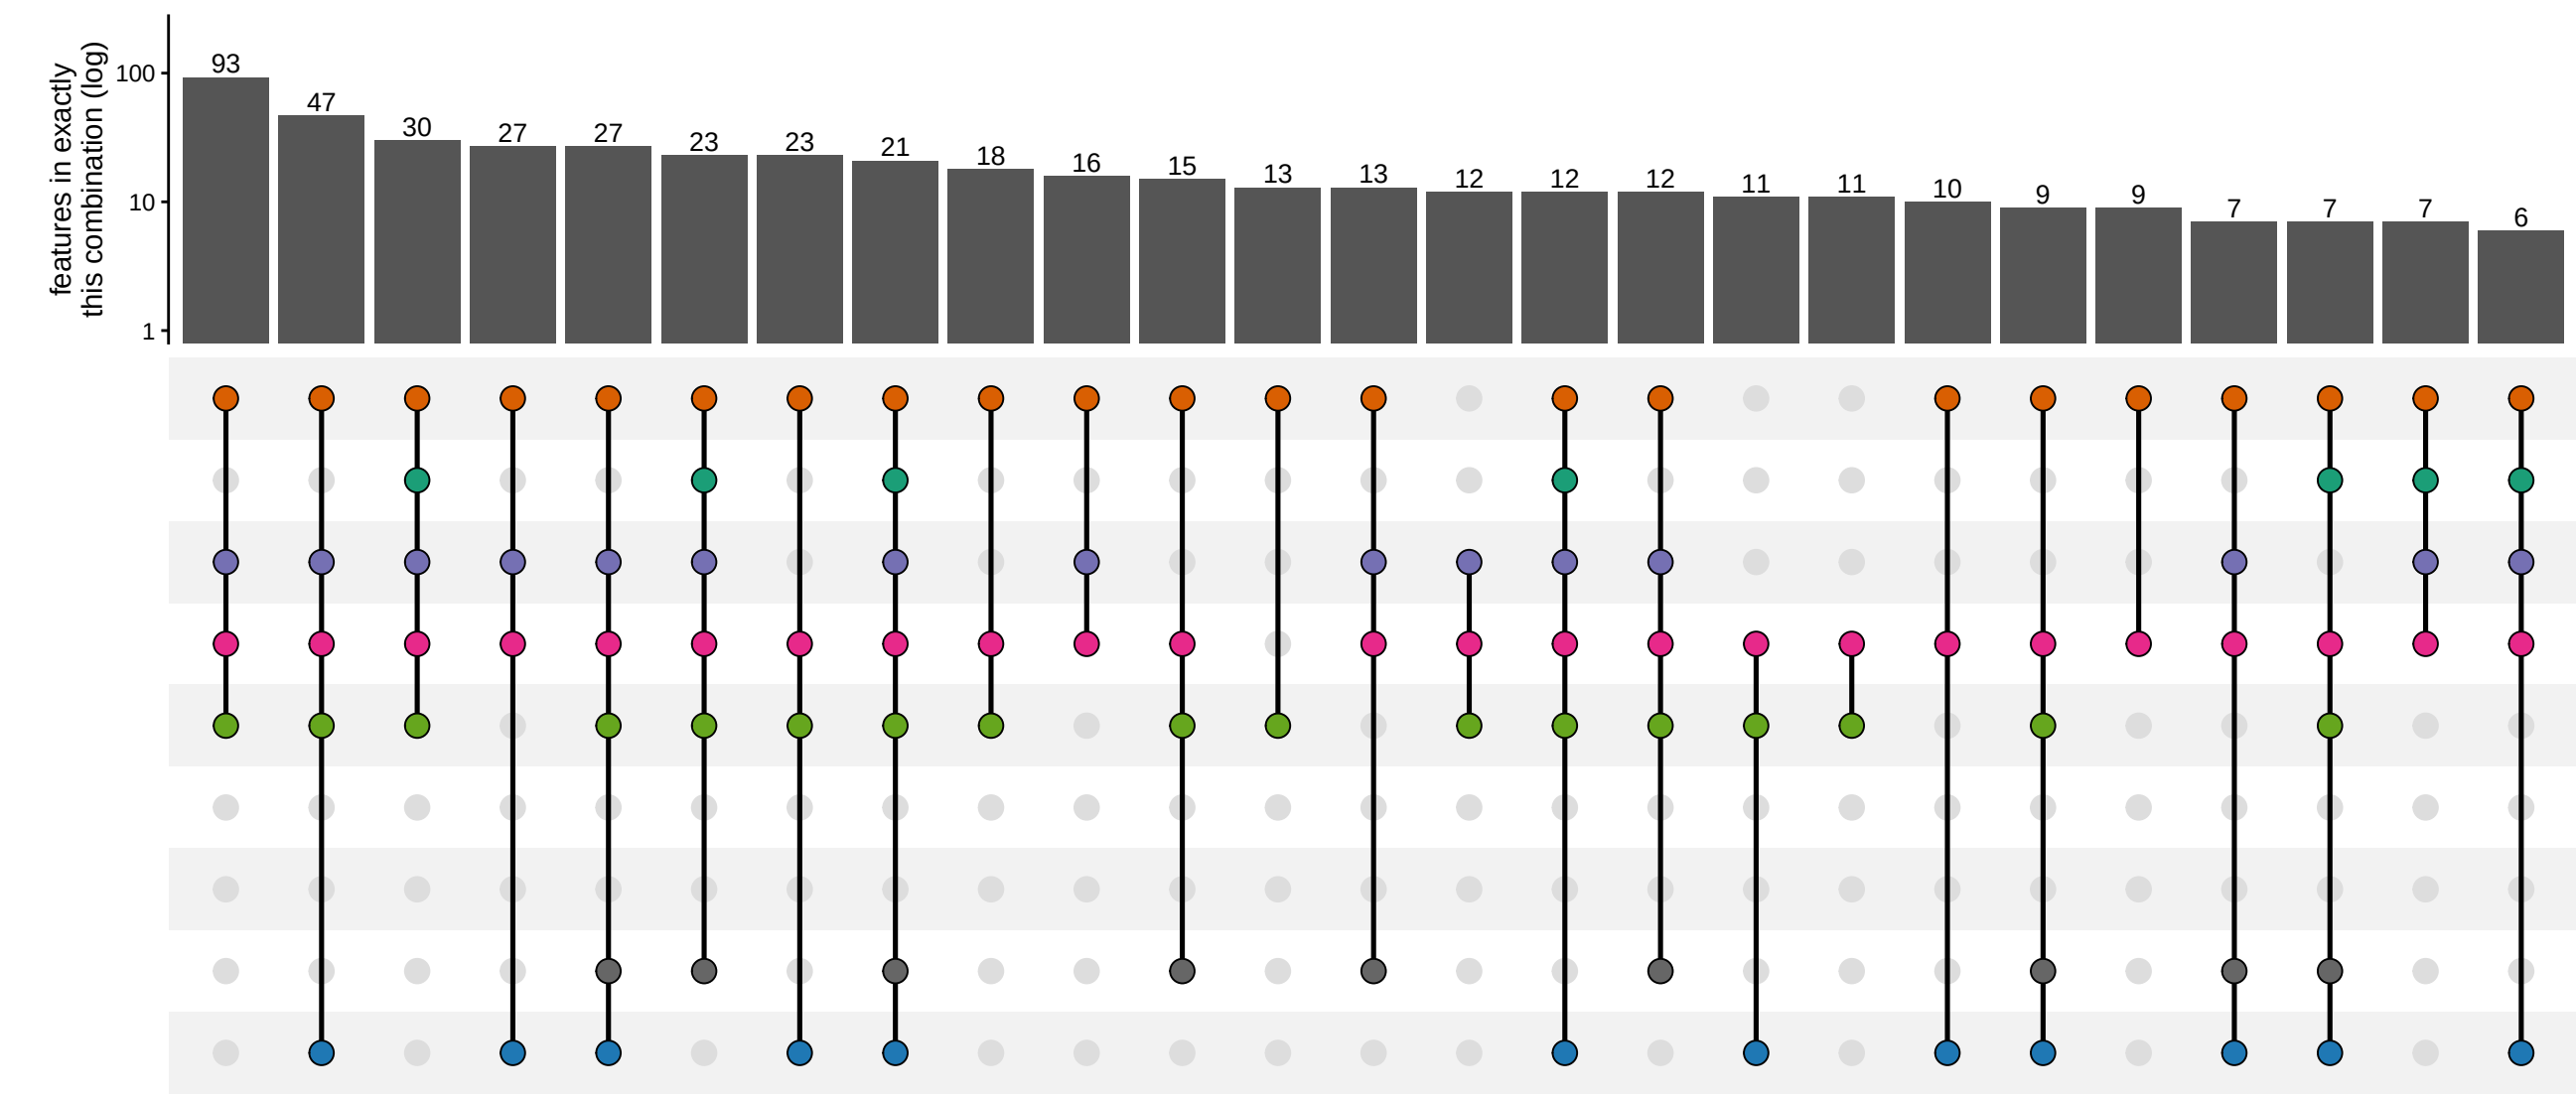

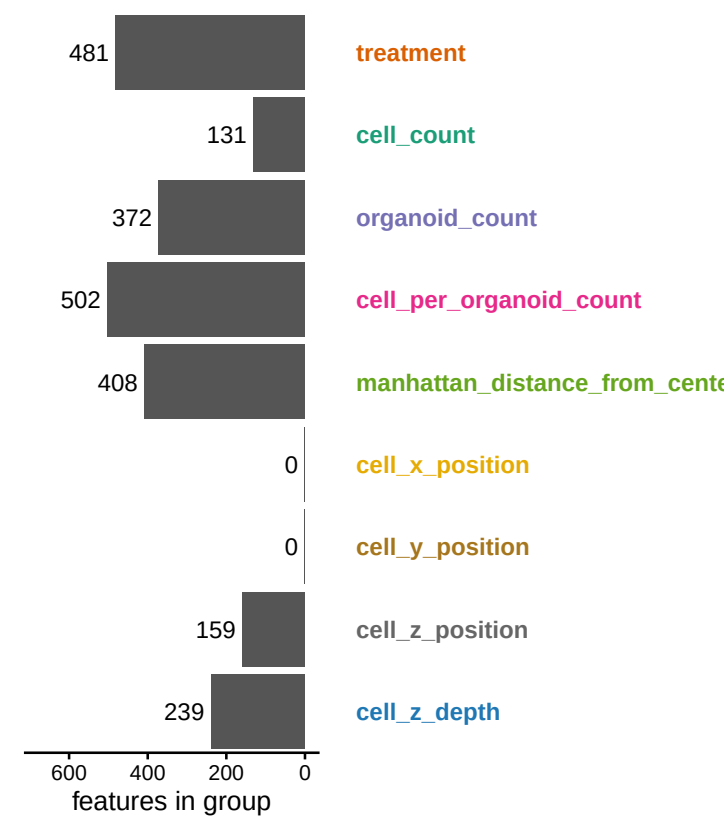

Features that are significant for each variate (treatment=Trabectedin_1uM)
132 of 534 features are significant for none of these 4 variates

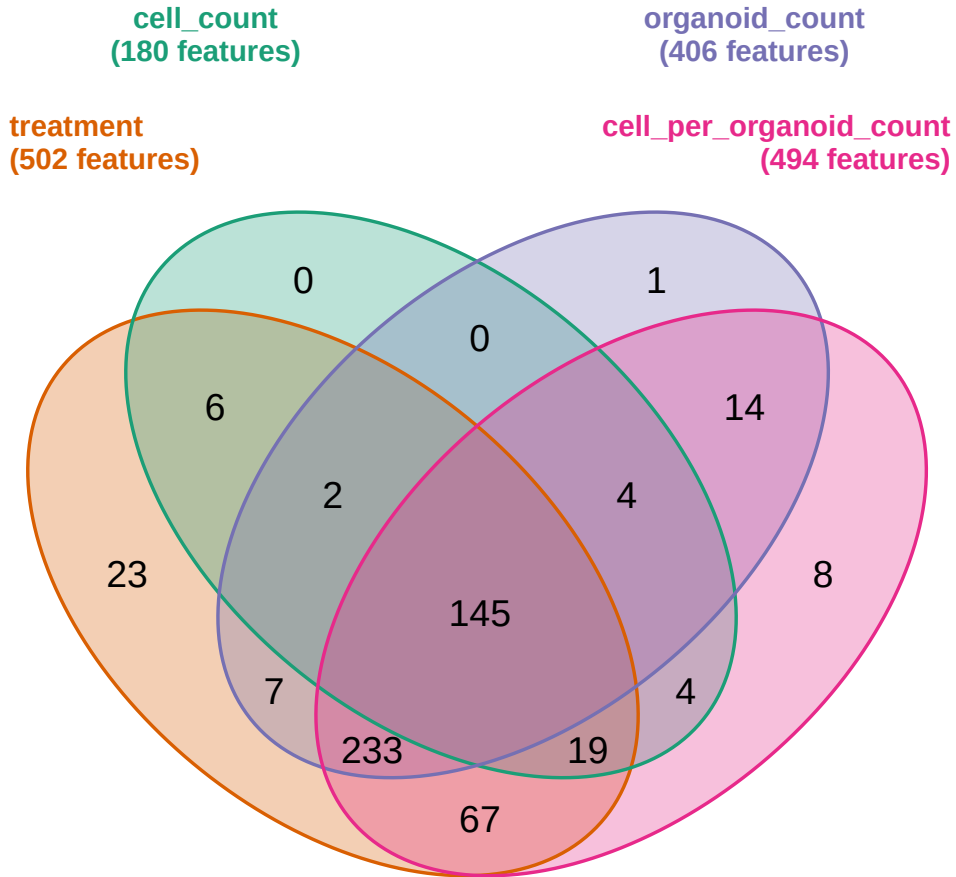

Features that are significant for each variate (treatment=Trametinib_10uM)
2 of 534 features are significant for none of these 4 variates

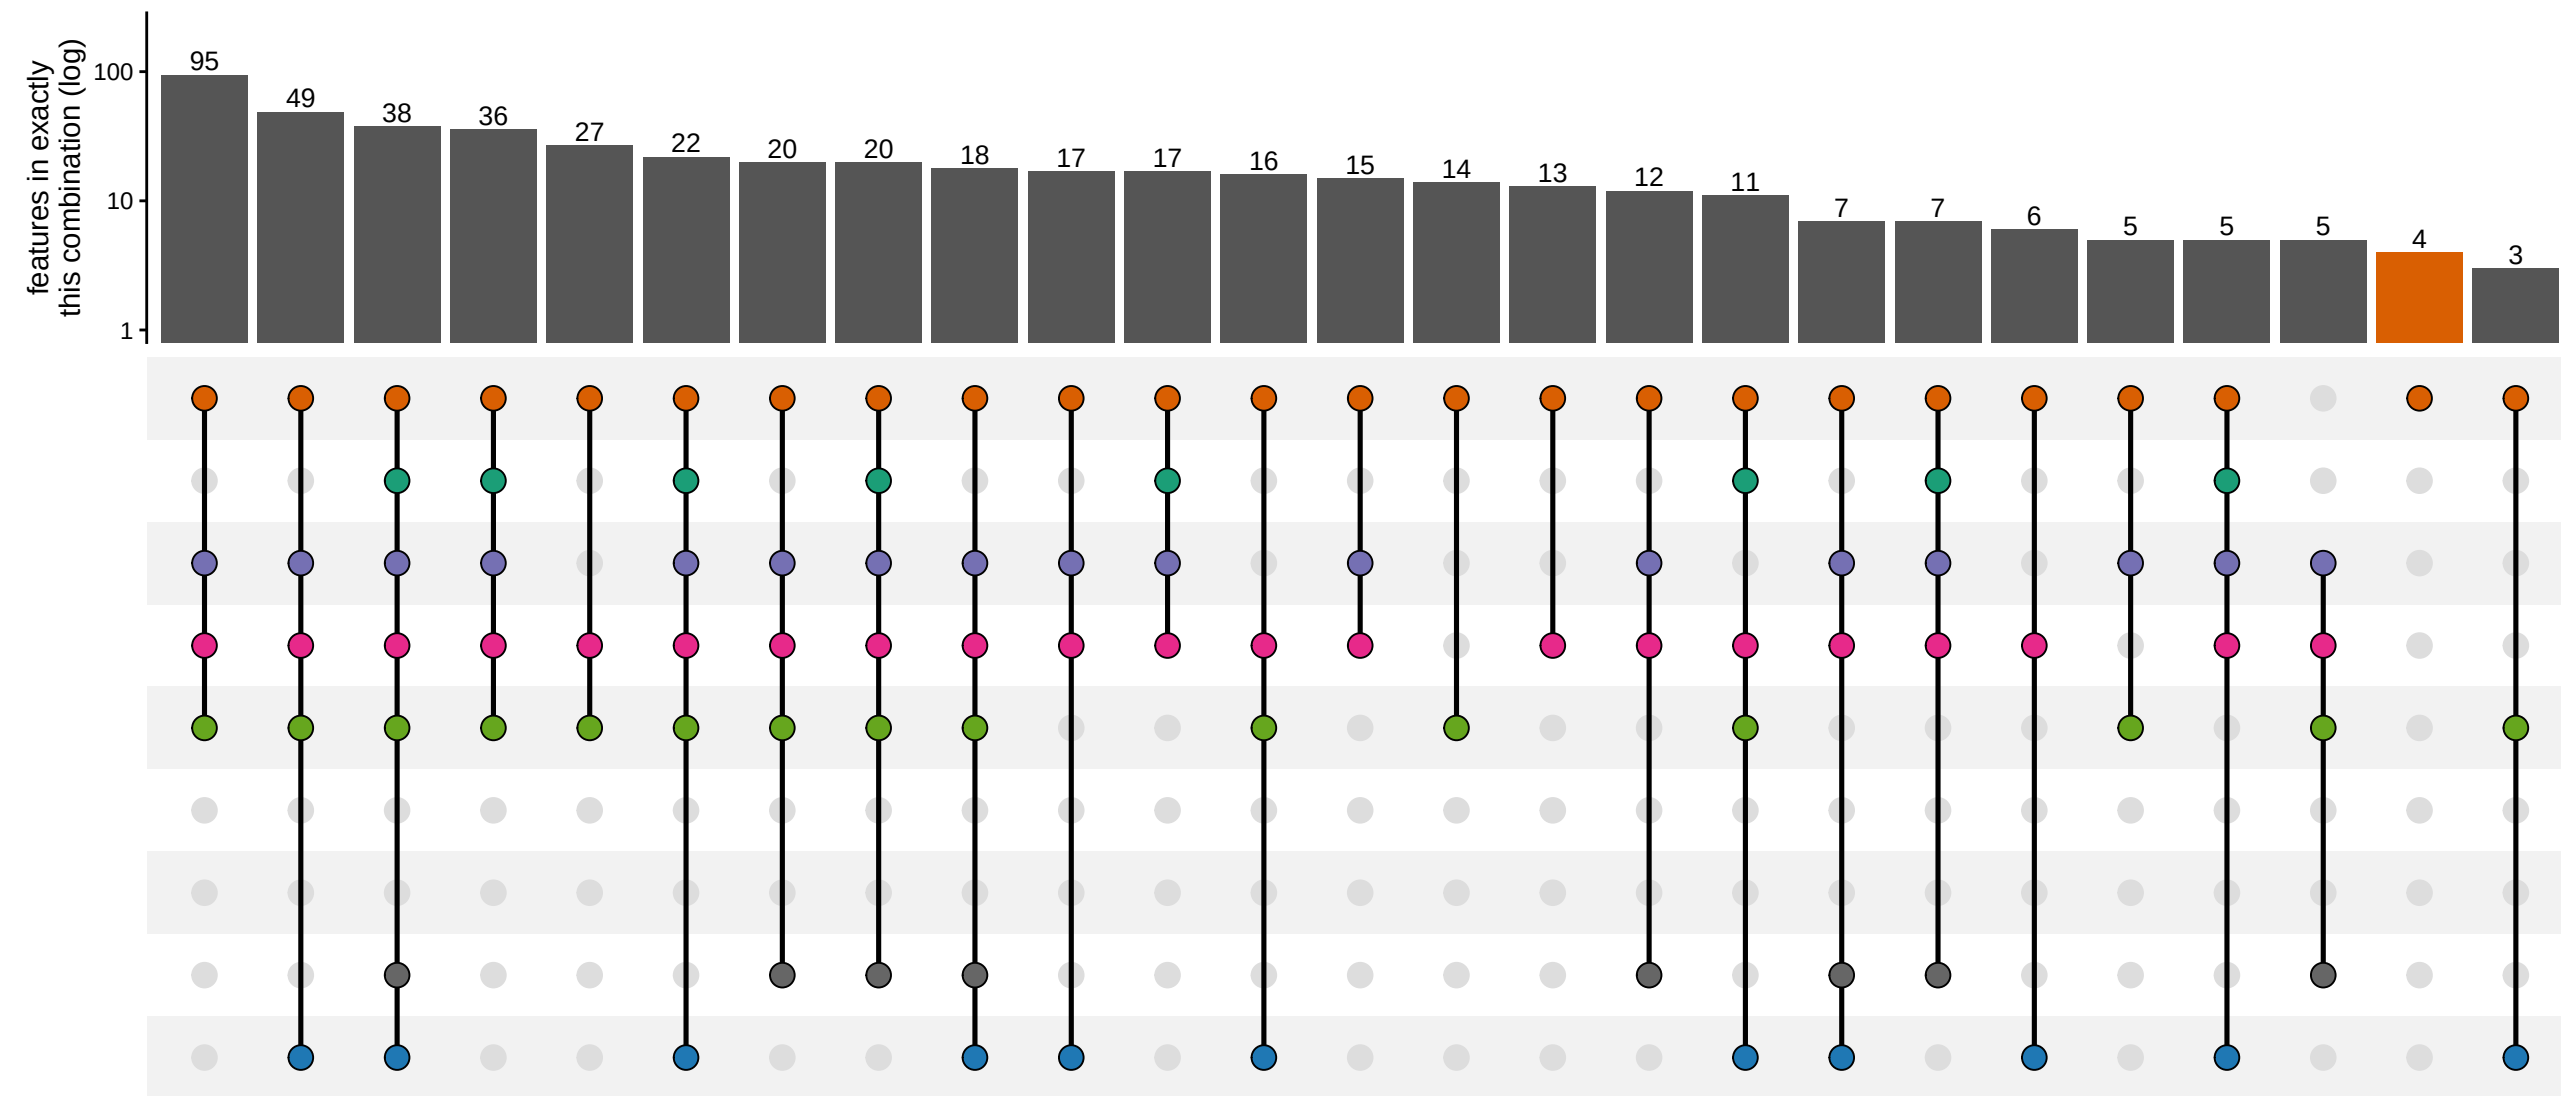

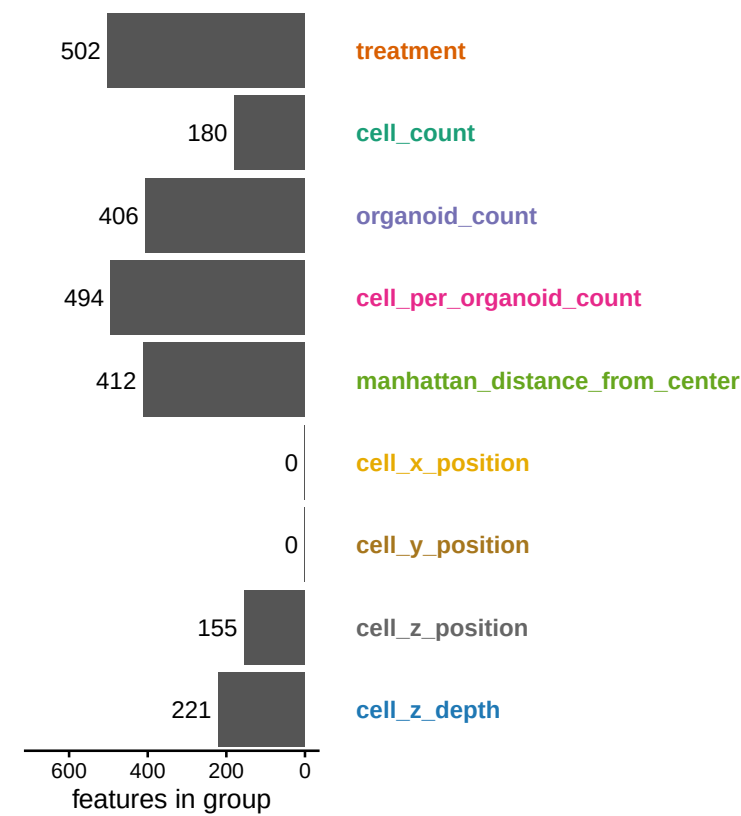

Feature membership across variate groups, treatment=Trametinib_10uM (top 25 of 48 combinations; orange = treatment only)

Features that are significant for each variate (treatment=Trametinib_1uM)
1 of 534 features are significant for none of these 4 variates

Feature membership across variate groups, treatment=Trametinib_1uM (top 25 of 56 combinations; orange = treatment only)

Features that are significant for each variate (treatment=Vistusertib_1uM)
144 of 534 features are significant for none of these 4 variates
