179 of 534 features are significant for none of these 4 variates

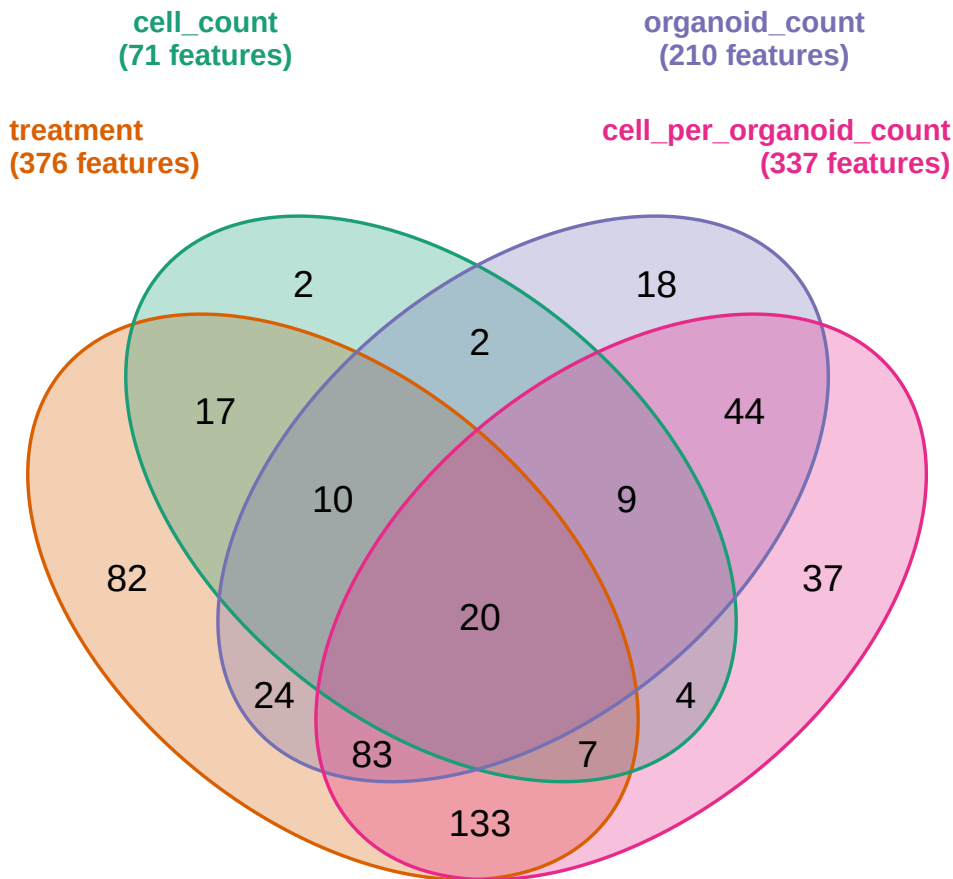

Features that are significant for each variate (treatment=Cabozantinib_1uM, tumor_type=MPNST)
150 of 534 features are significant for none of these 4 variates

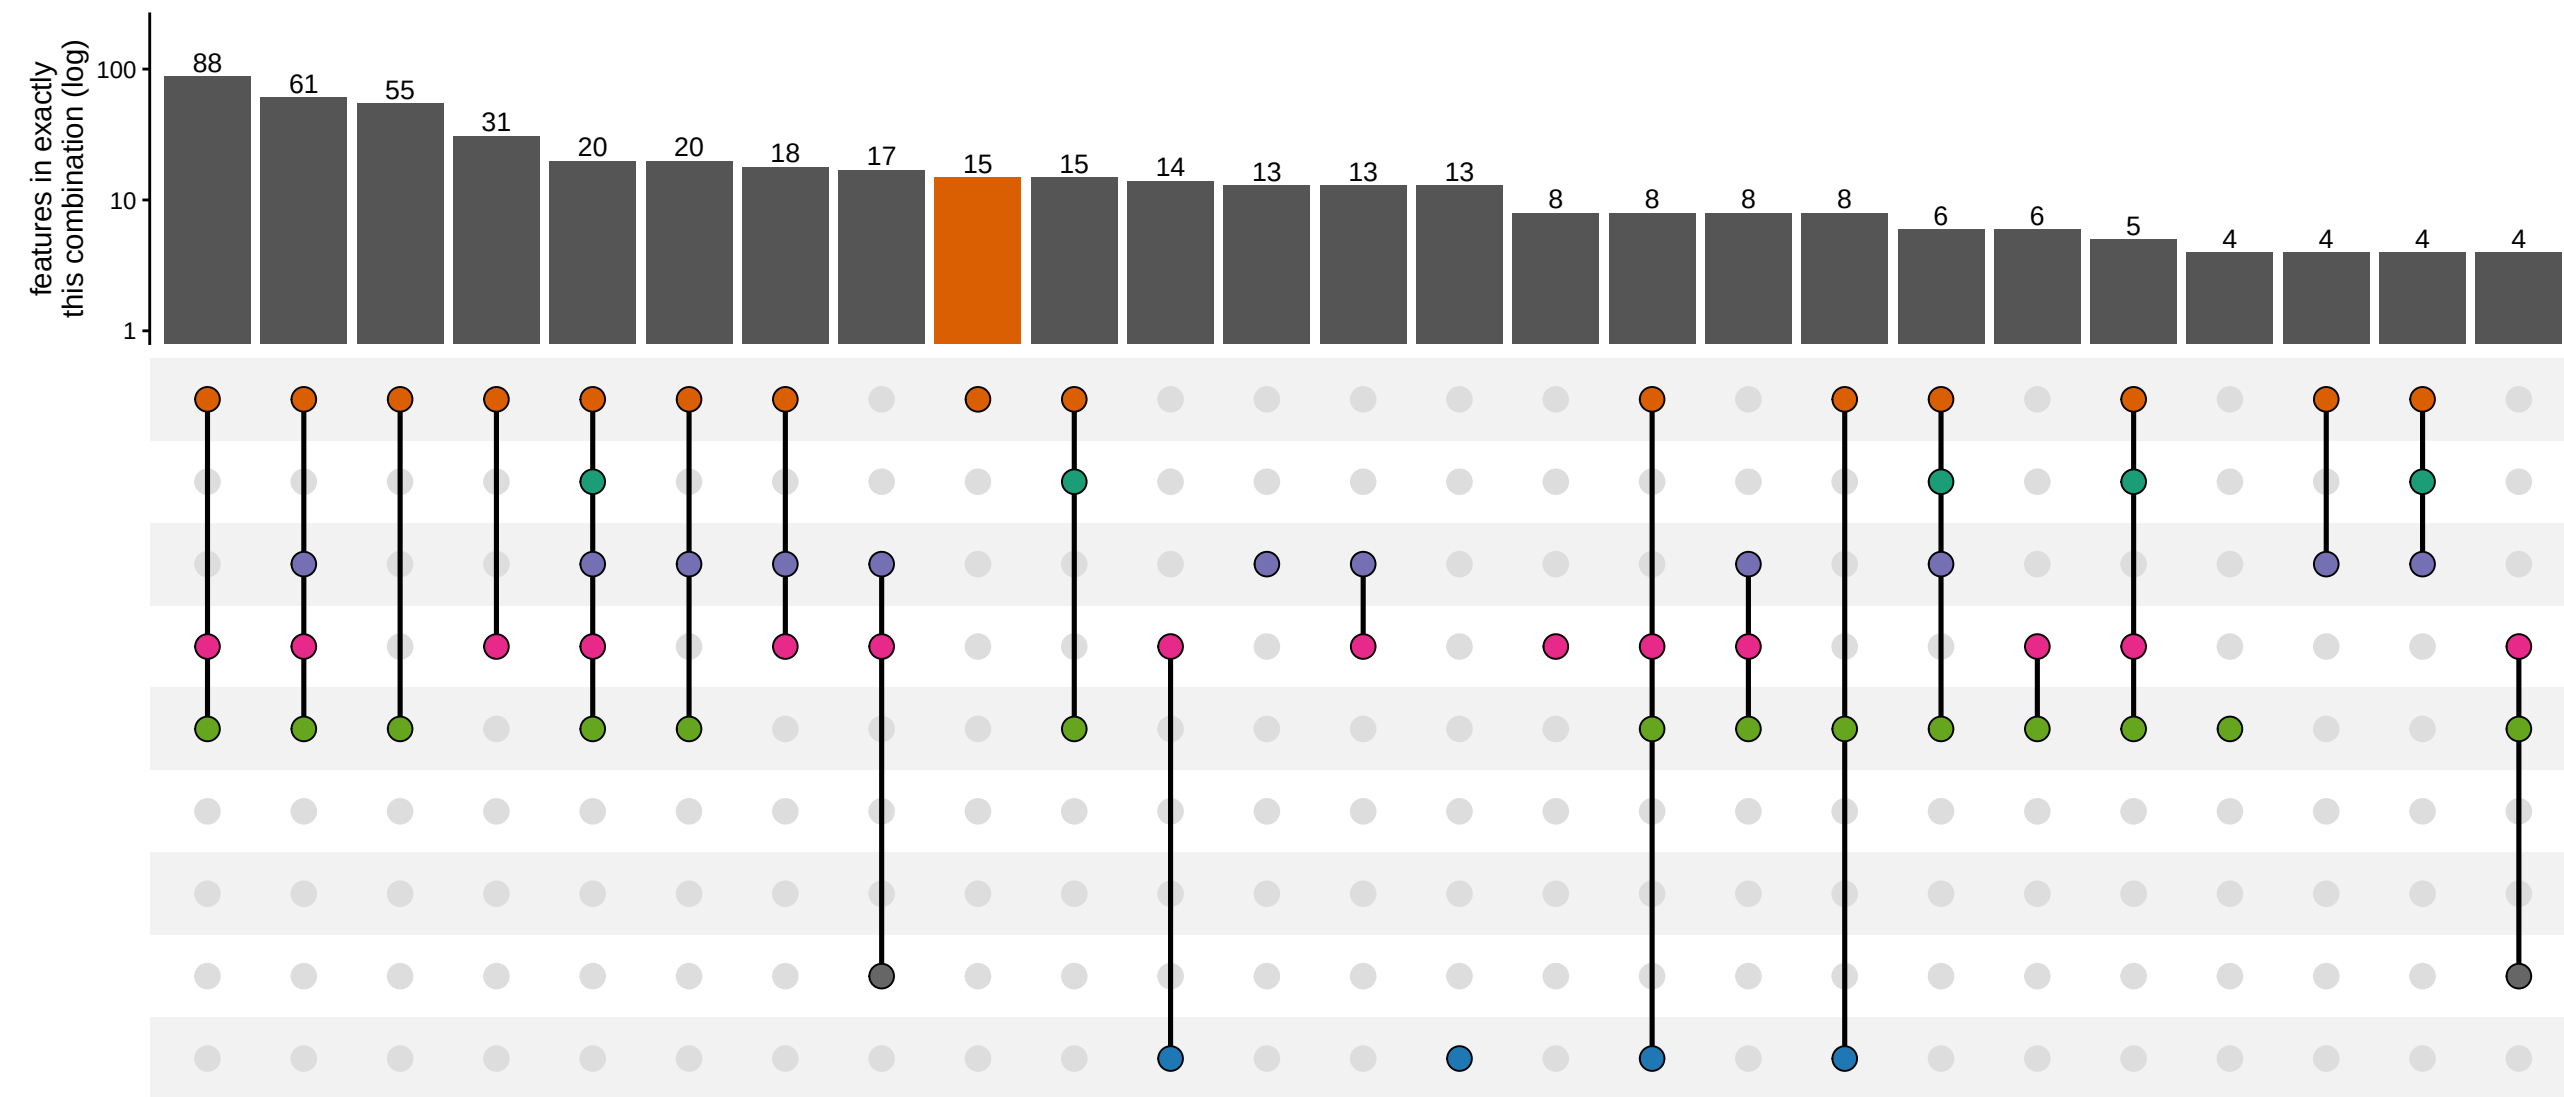

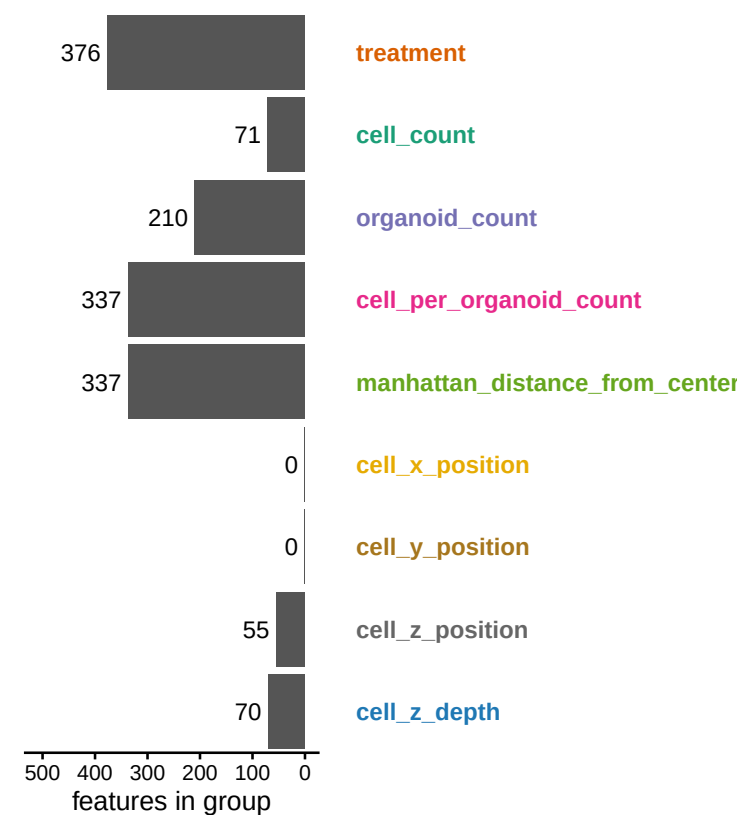

Features that are significant for each variate (treatment=Cabozantinib_1uM, tumor_type=Other)
223 of 534 features are significant for none of these 4 variates

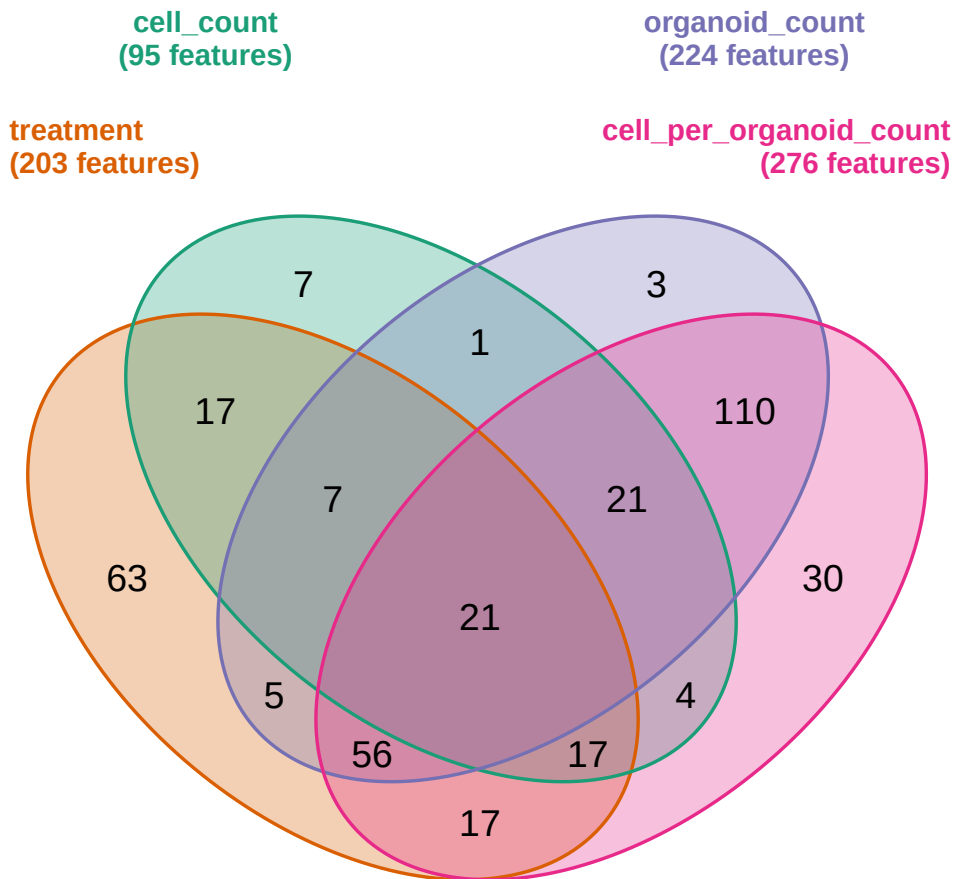

Features that are significant for each variate (treatment=Cabozantinib_1uM, tumor_type=cNF)
42 of 534 features are significant for none of these 4 variates

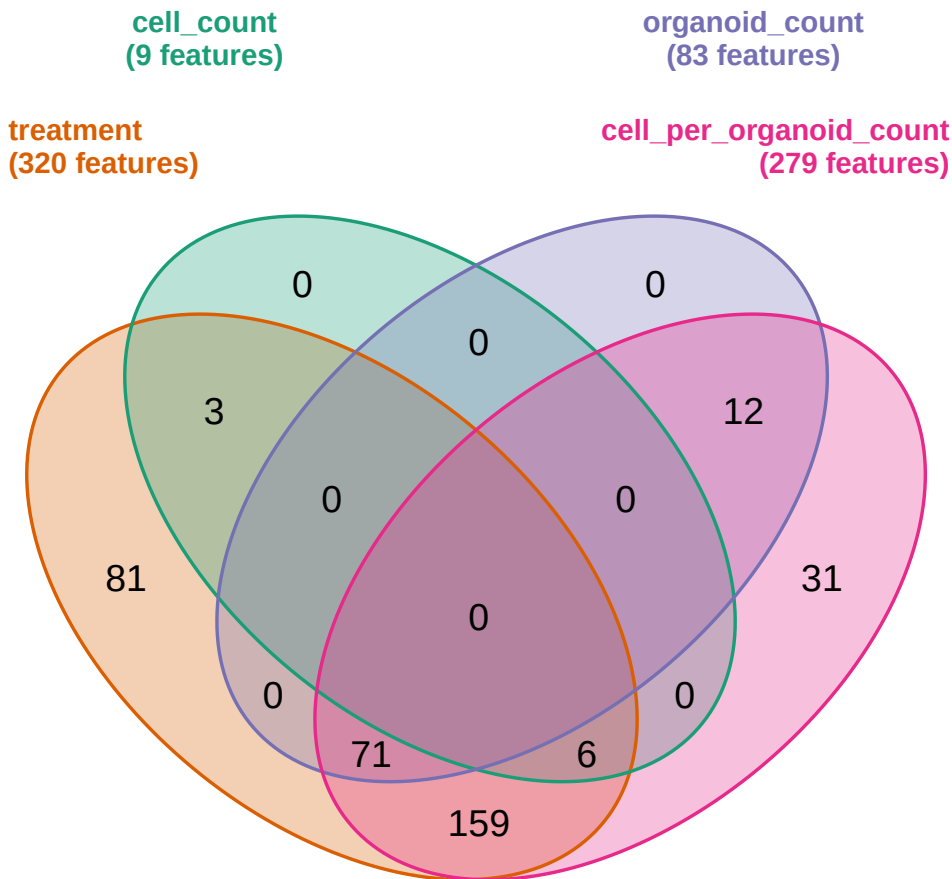

Feature membership across variate groups, treatment=Cabozantinib_1uM, tumor_type=cNF (top 25 of 53 combinations; orange = treatment only)

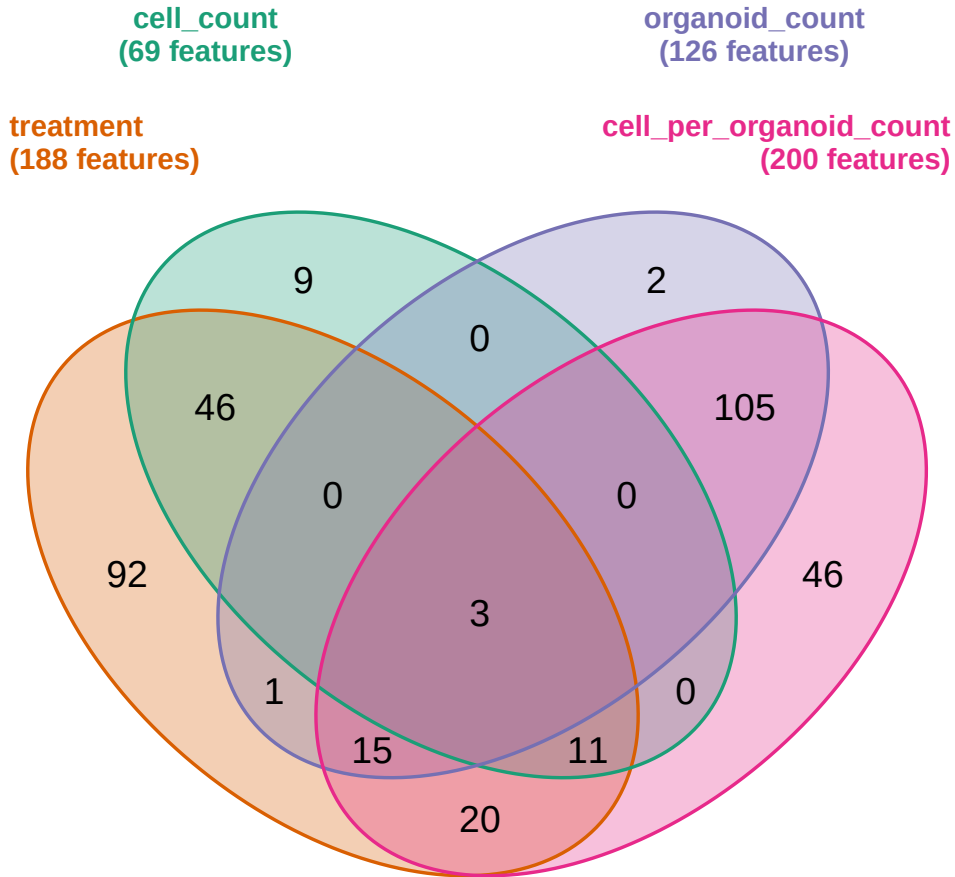

Features that are significant for each variate (treatment=Cabozantinib_1uM, tumor_type=pNF)
155 of 534 features are significant for none of these 4 variates

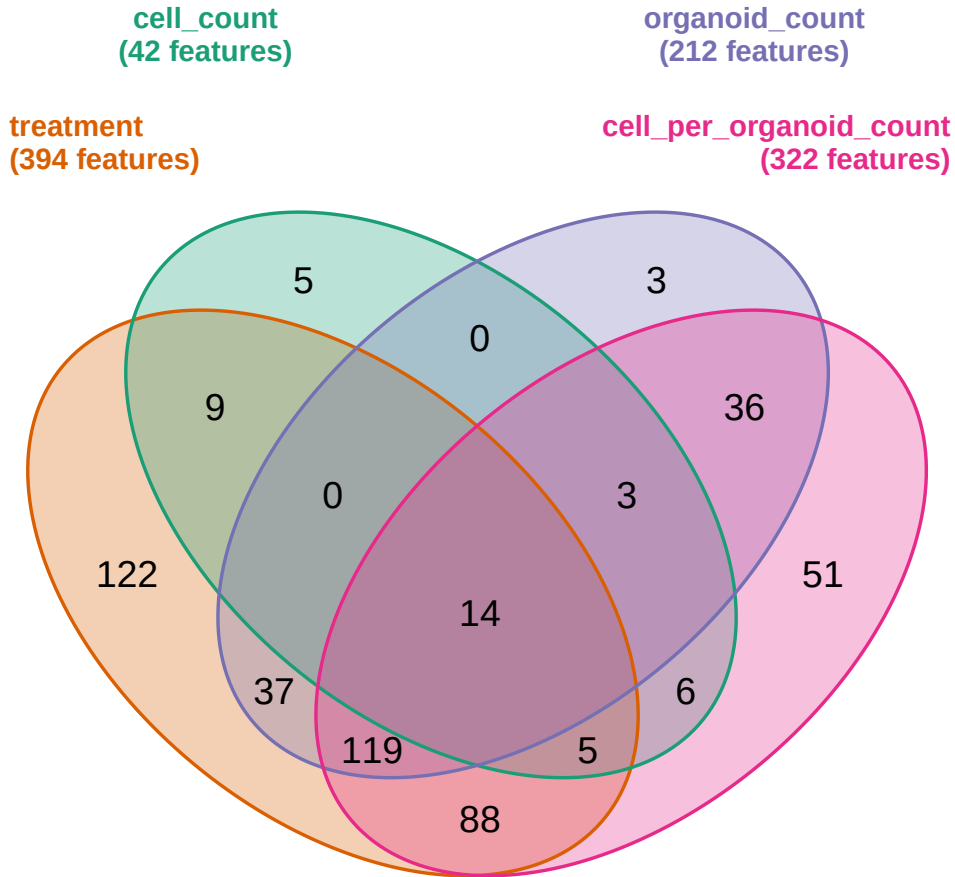

Features that are significant for each variate (treatment=Copanlisib_1uM, tumor_type=MPNST)
171 of 534 features are significant for none of these 4 variates

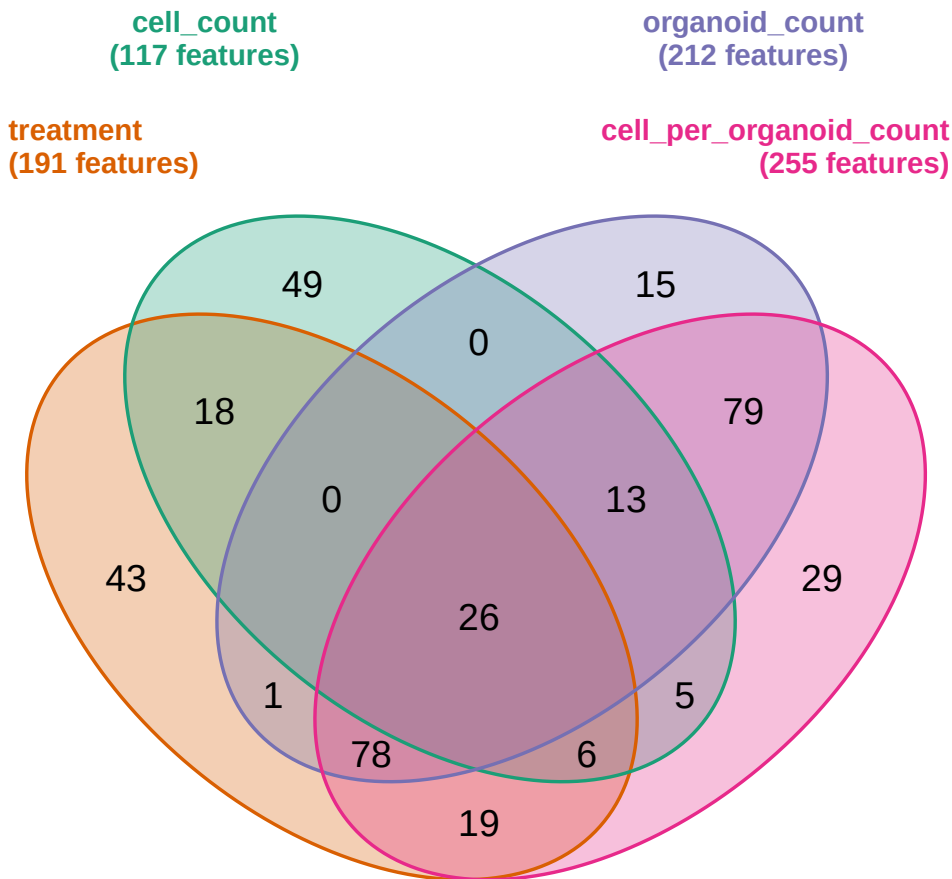

Features that are significant for each variate (treatment=Copanlisib_1uM, tumor_type=Other)
184 of 534 features are significant for none of these 4 variates

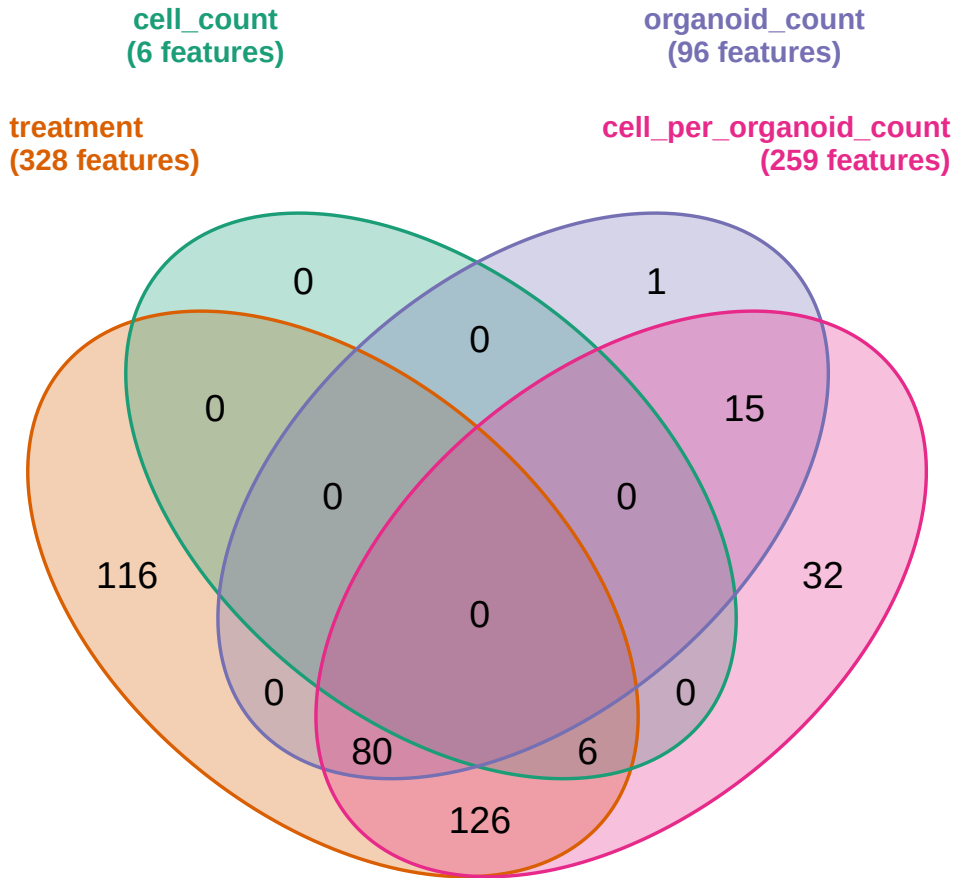

Features that are significant for each variate (treatment=Copanlisib_1uM, tumor_type=cNF)
36 of 534 features are significant for none of these 4 variates

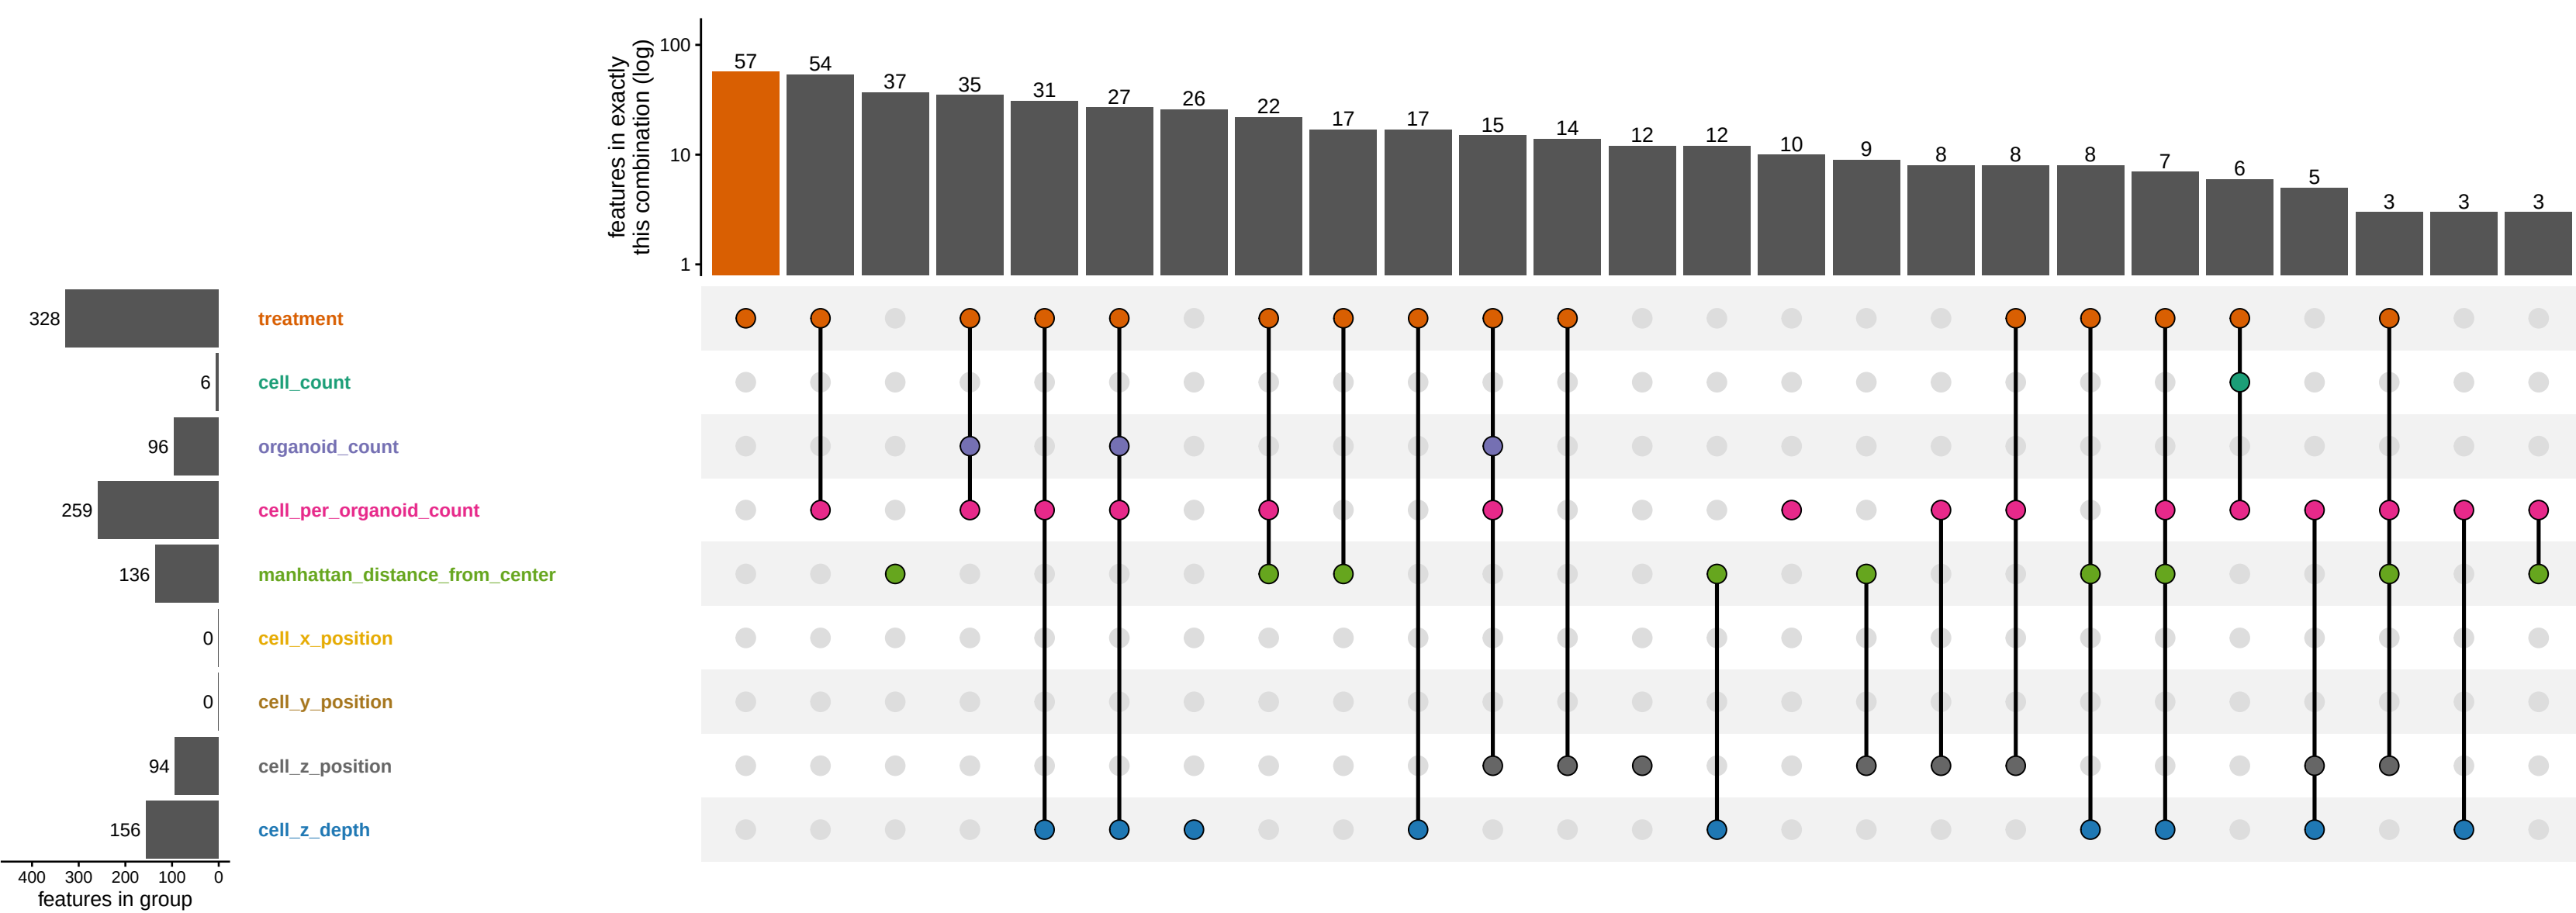

Features that are significant for each variate (treatment=Copanlisib_1uM, tumor_type=pNF)
153 of 534 features are significant for none of these 4 variates

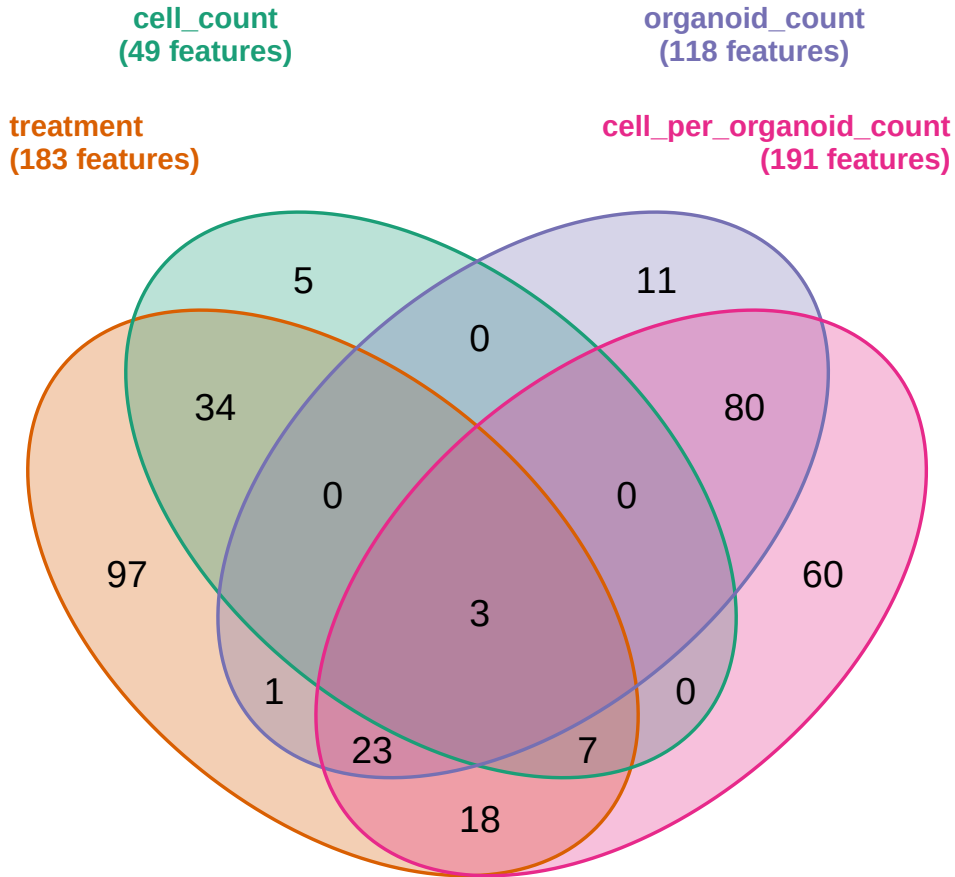

Features that are significant for each variate (treatment=Digoxin_1uM, tumor_type=MPNST)
158 of 534 features are significant for none of these 4 variates

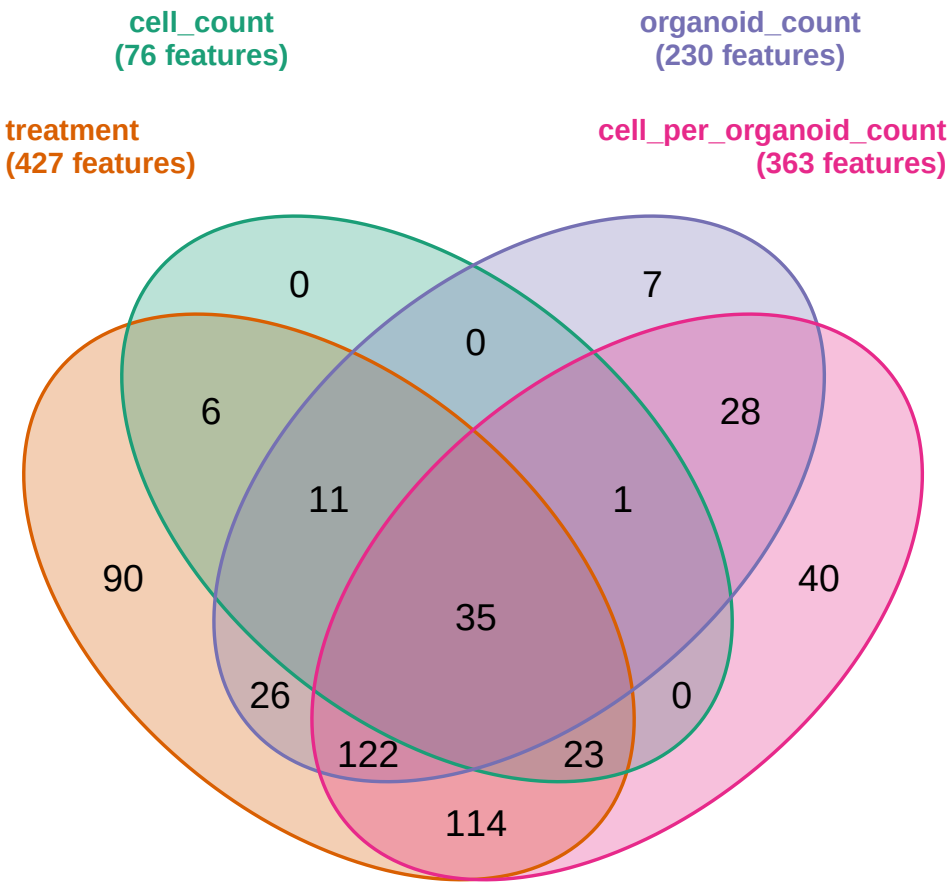

Feature membership across variate groups, treatment=Digoxin_1uM, tumor_type=MPNST (top 25 of 37 combinations; orange = treatment only)

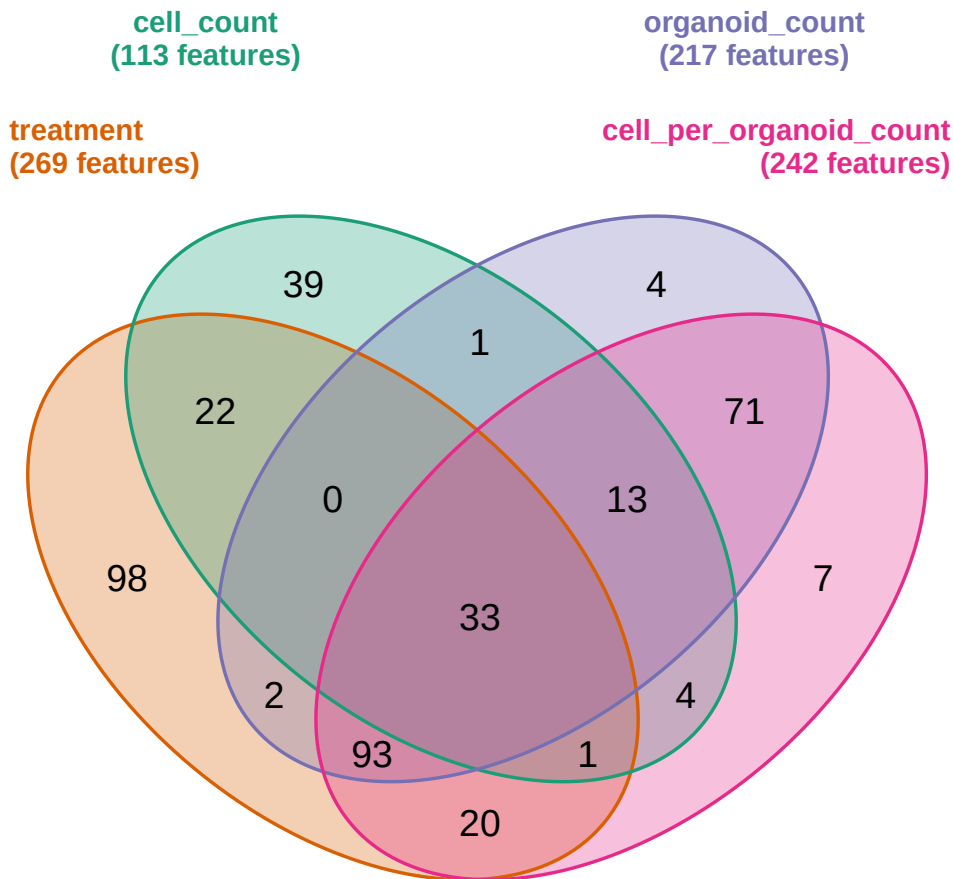

Features that are significant for each variate (treatment=Digoxin_1uM, tumor_type=Other)
195 of 534 features are significant for none of these 4 variates

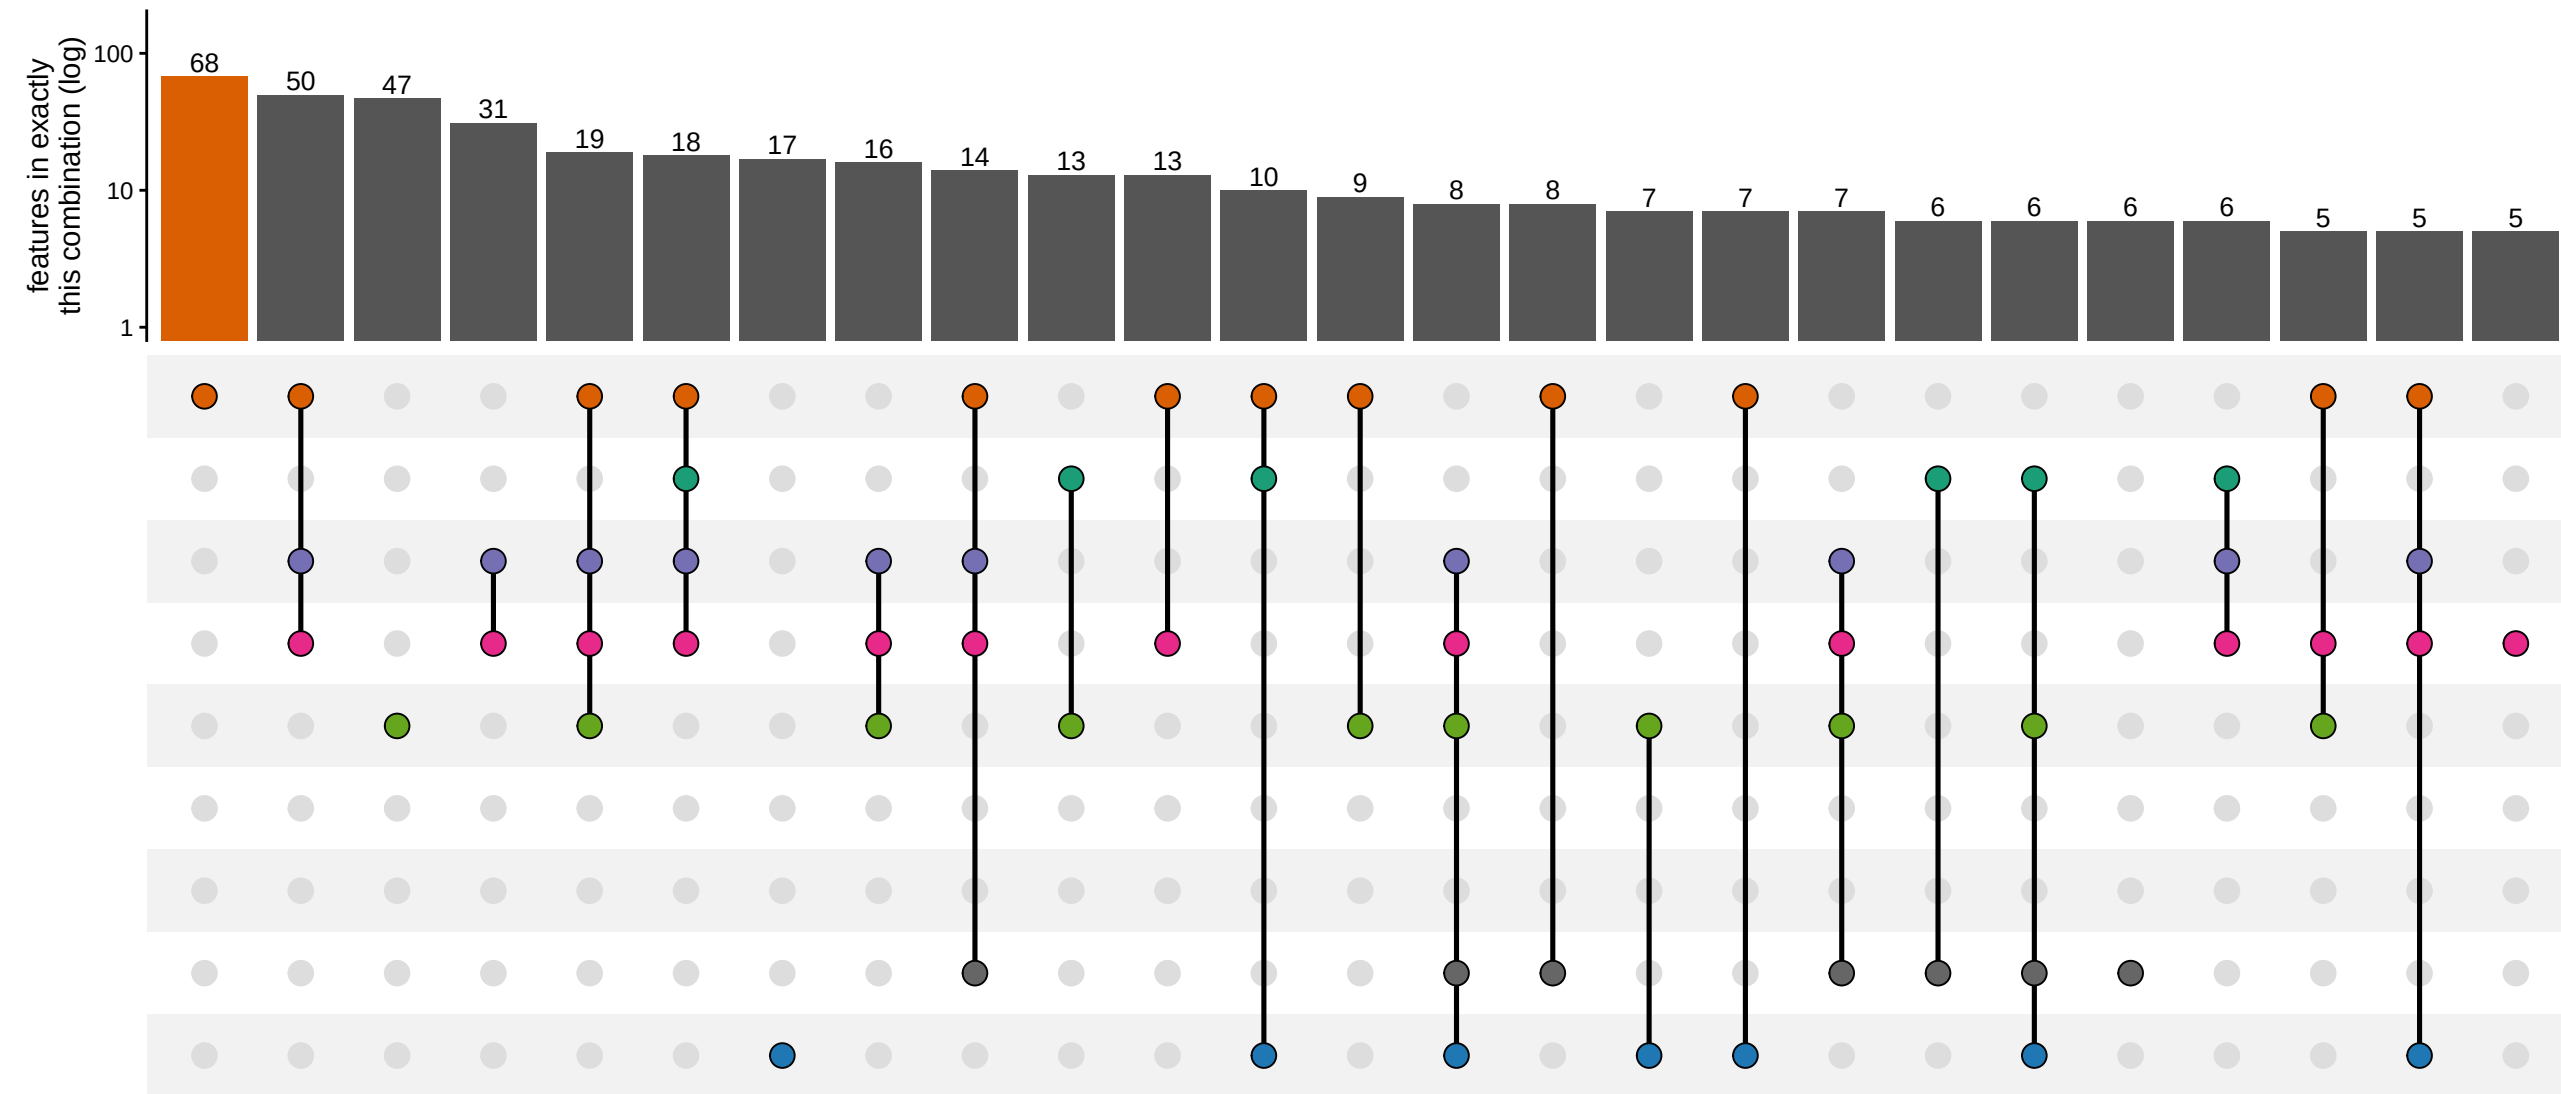

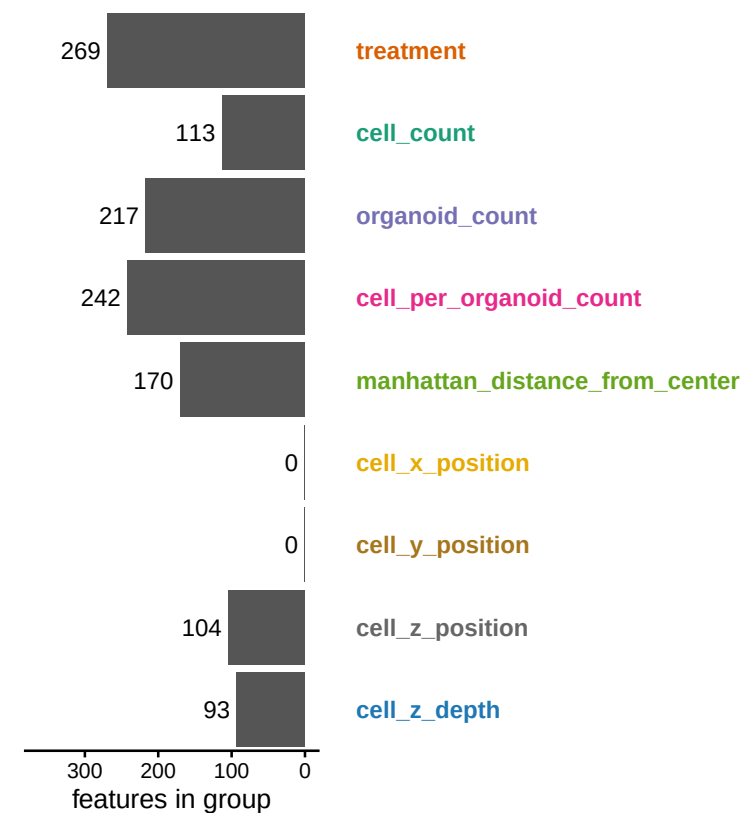

Features that are significant for each variate (treatment=Digoxin_1uM, tumor_type=cNF)
31 of 534 features are significant for none of these 4 variates

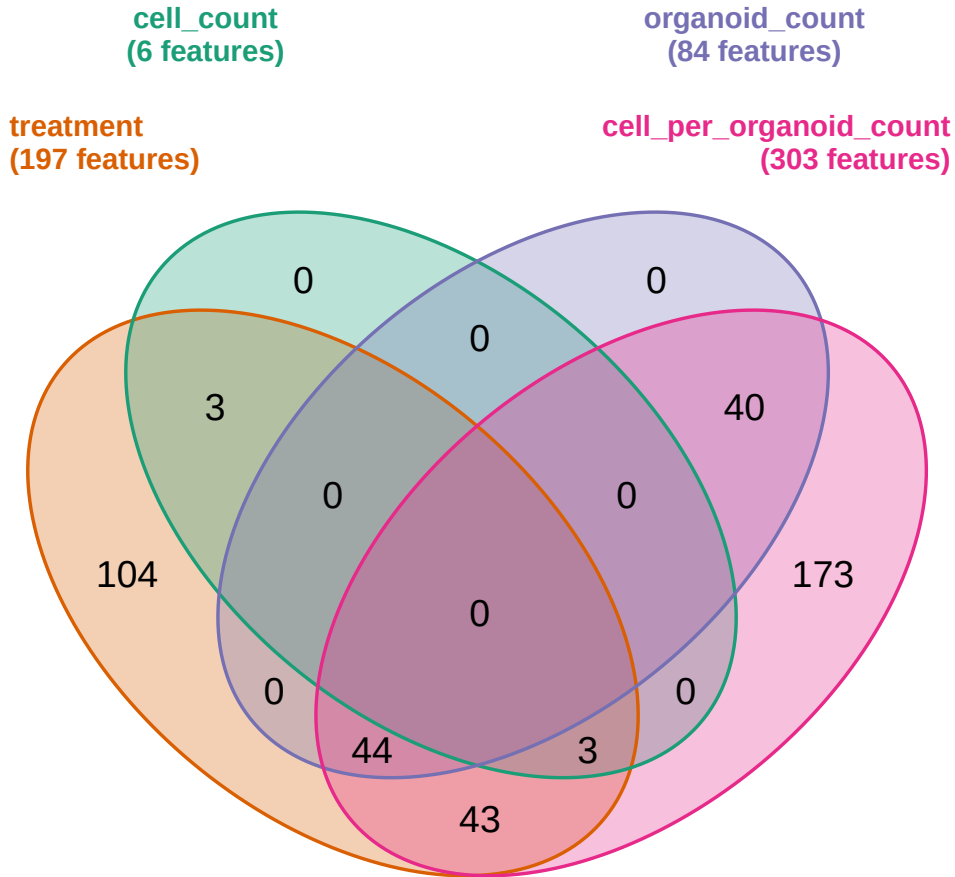

Features that are significant for each variate (treatment=Digoxin_1uM, tumor_type=pNF)
126 of 534 features are significant for none of these 4 variates

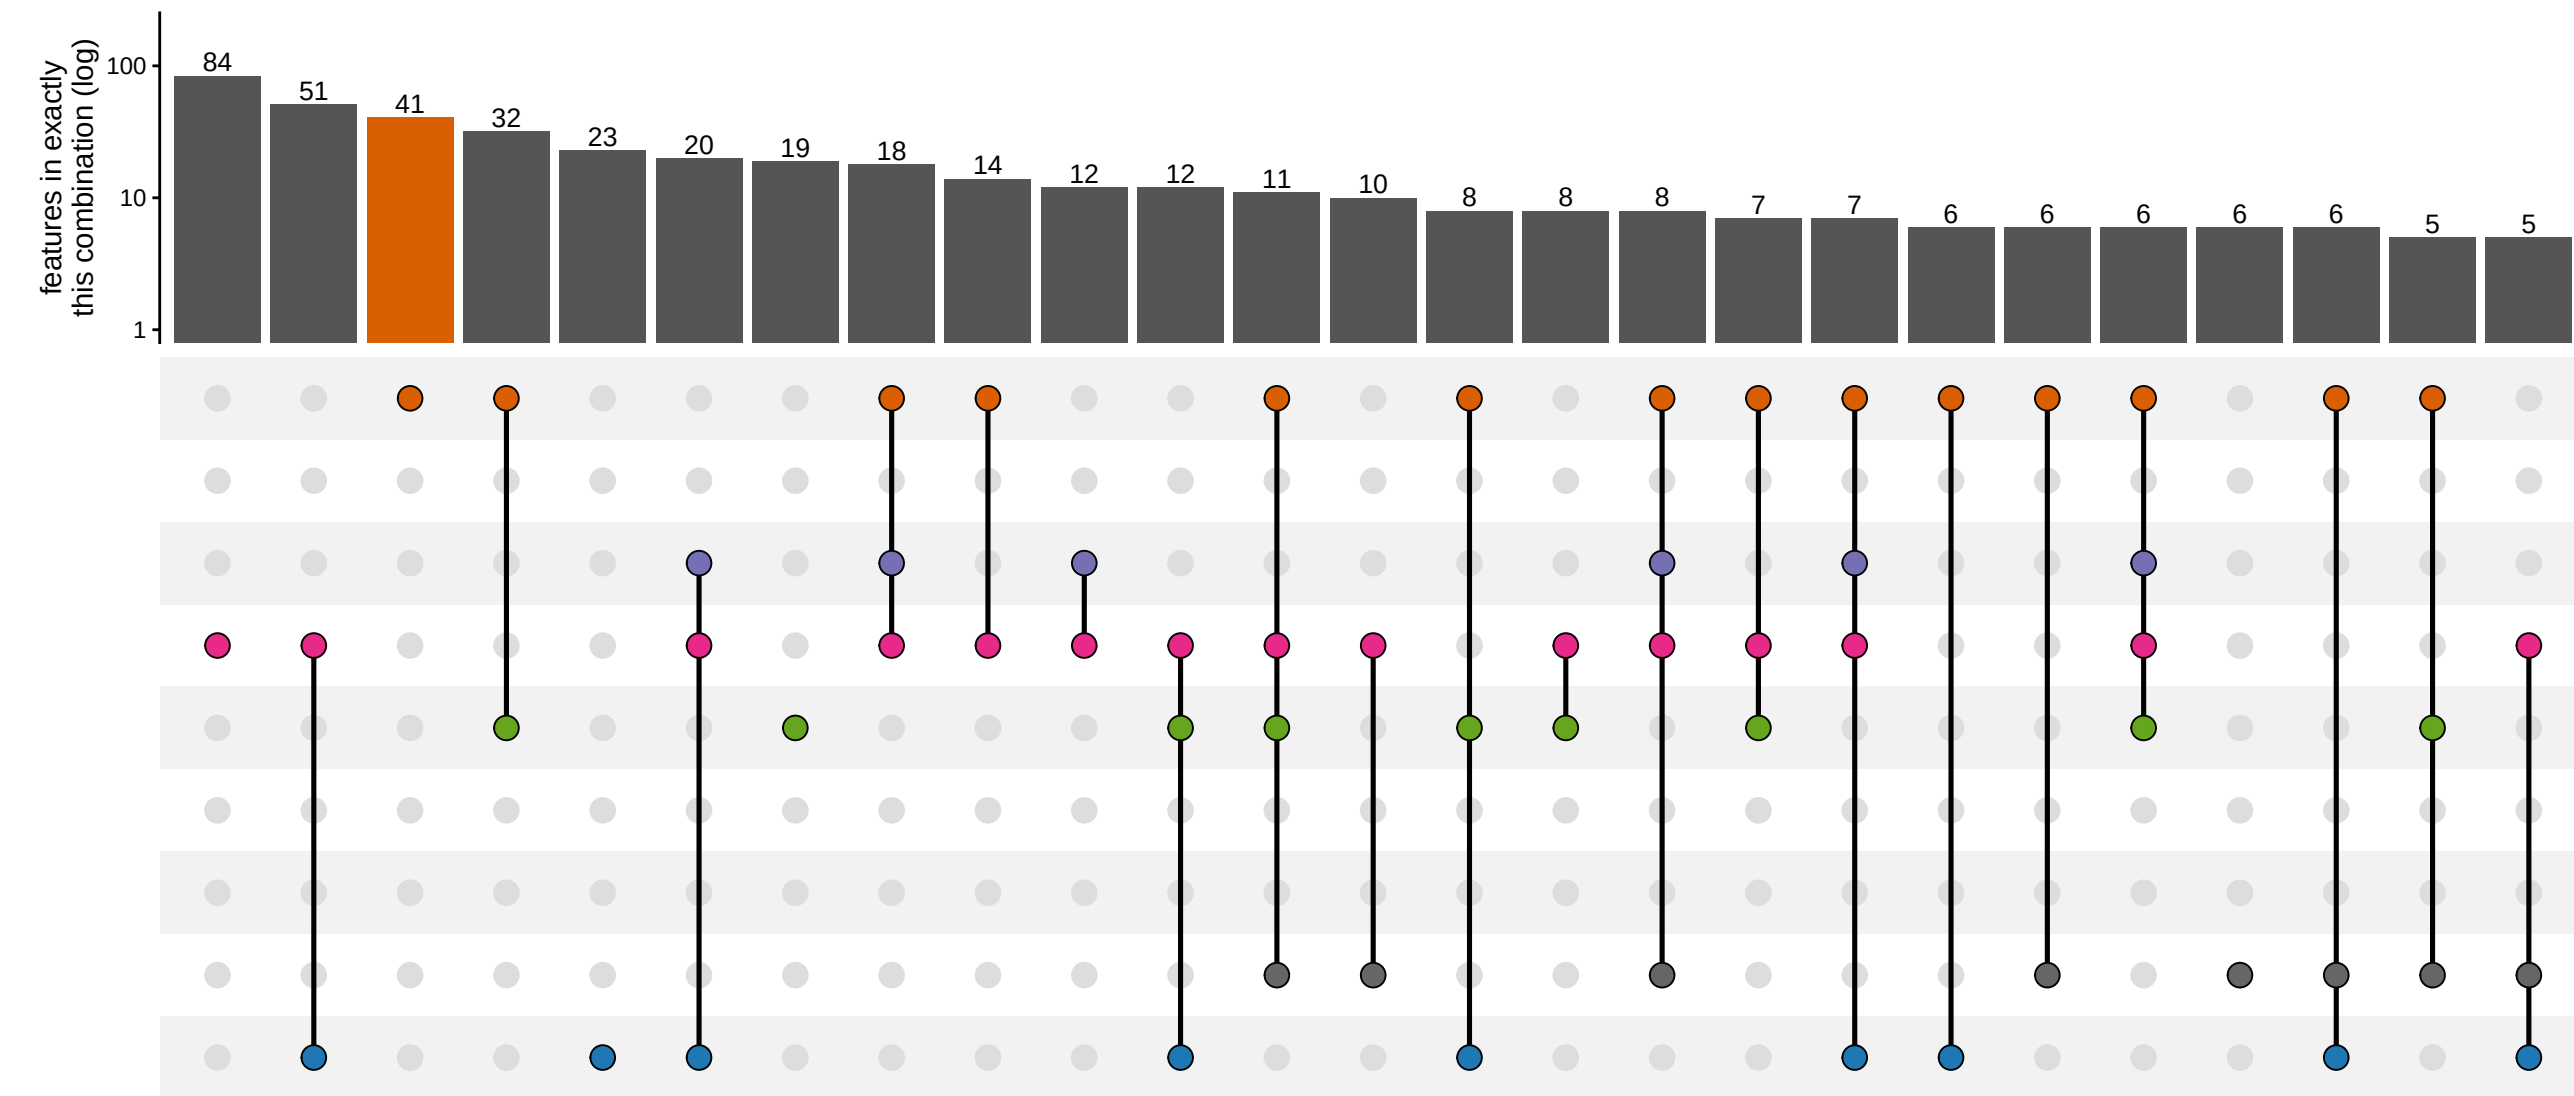

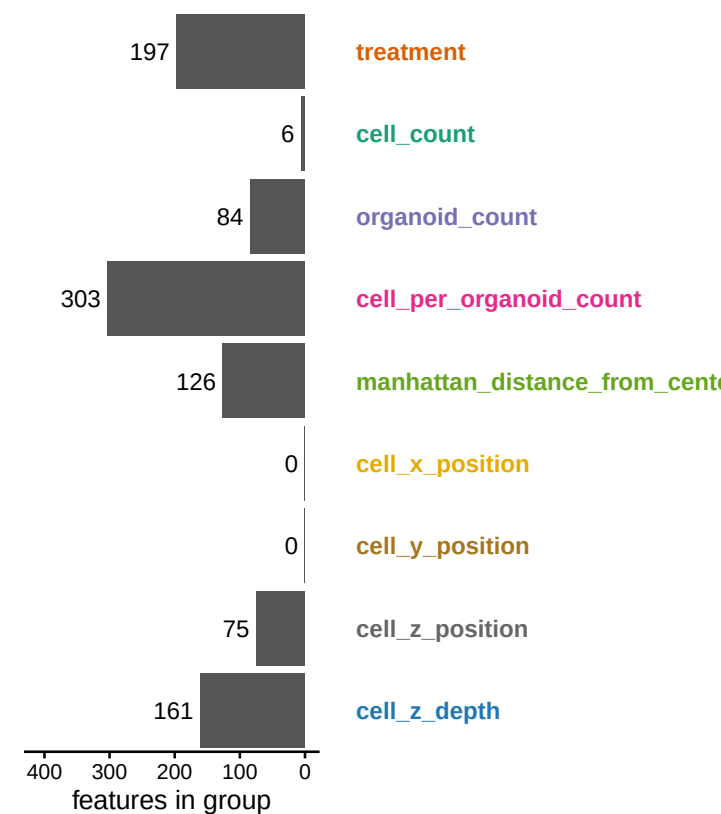

Feature membership across variate groups, treatment=Digoxin_1uM, tumor_type=pNF (top 25 of 64 combinations; orange = treatment only)

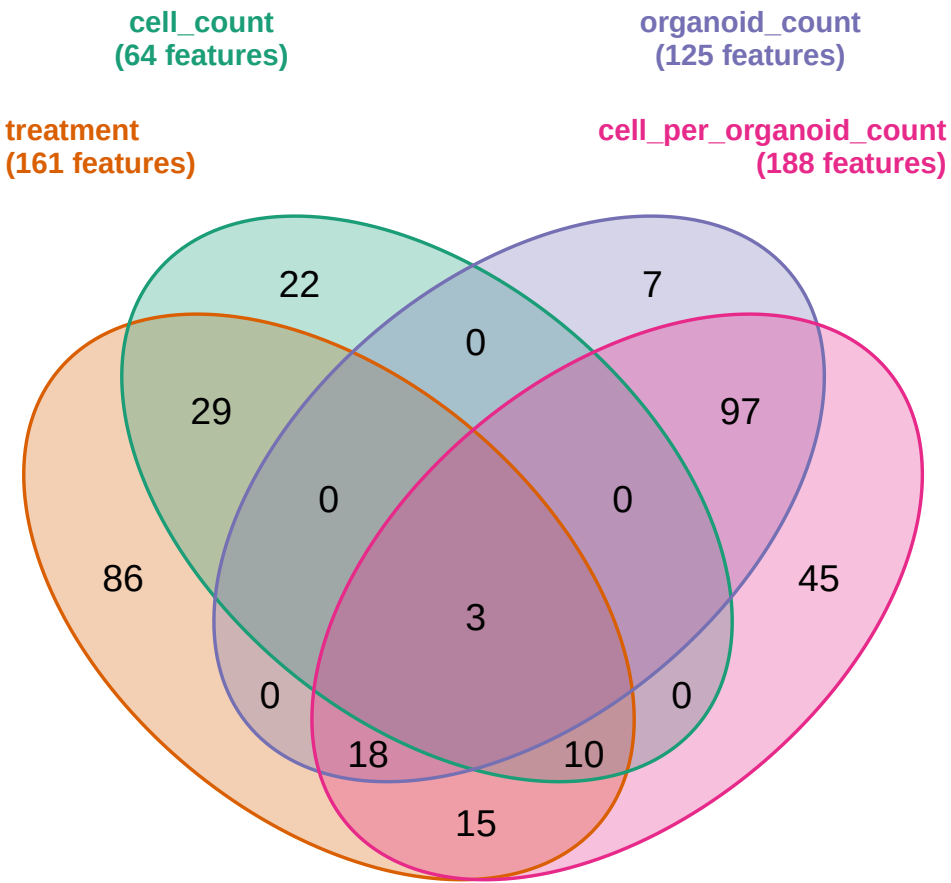

Features that are significant for each variate (treatment=Everolimus_1uM, tumor_type=MPNST)
124 of 534 features are significant for none of these 4 variates

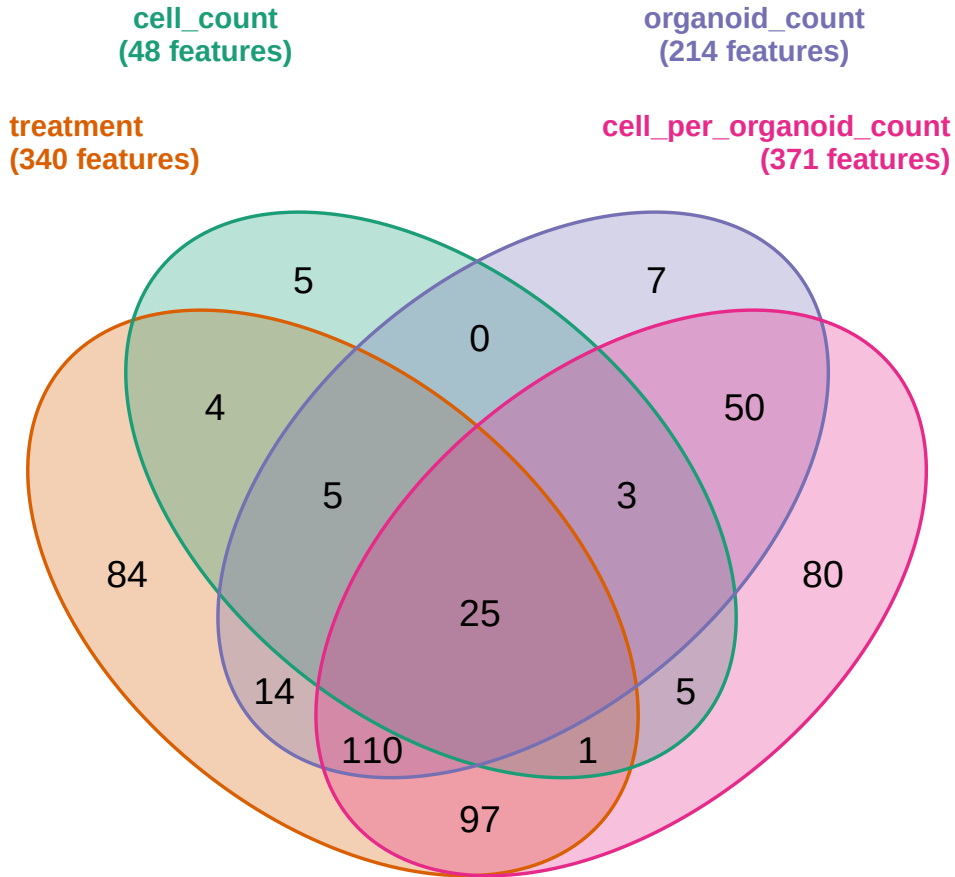

Feature membership across variate groups, treatment=Everolimus_1uM, tumor_type=MPNST (top 25 of 42 combinations; orange = treatment only)

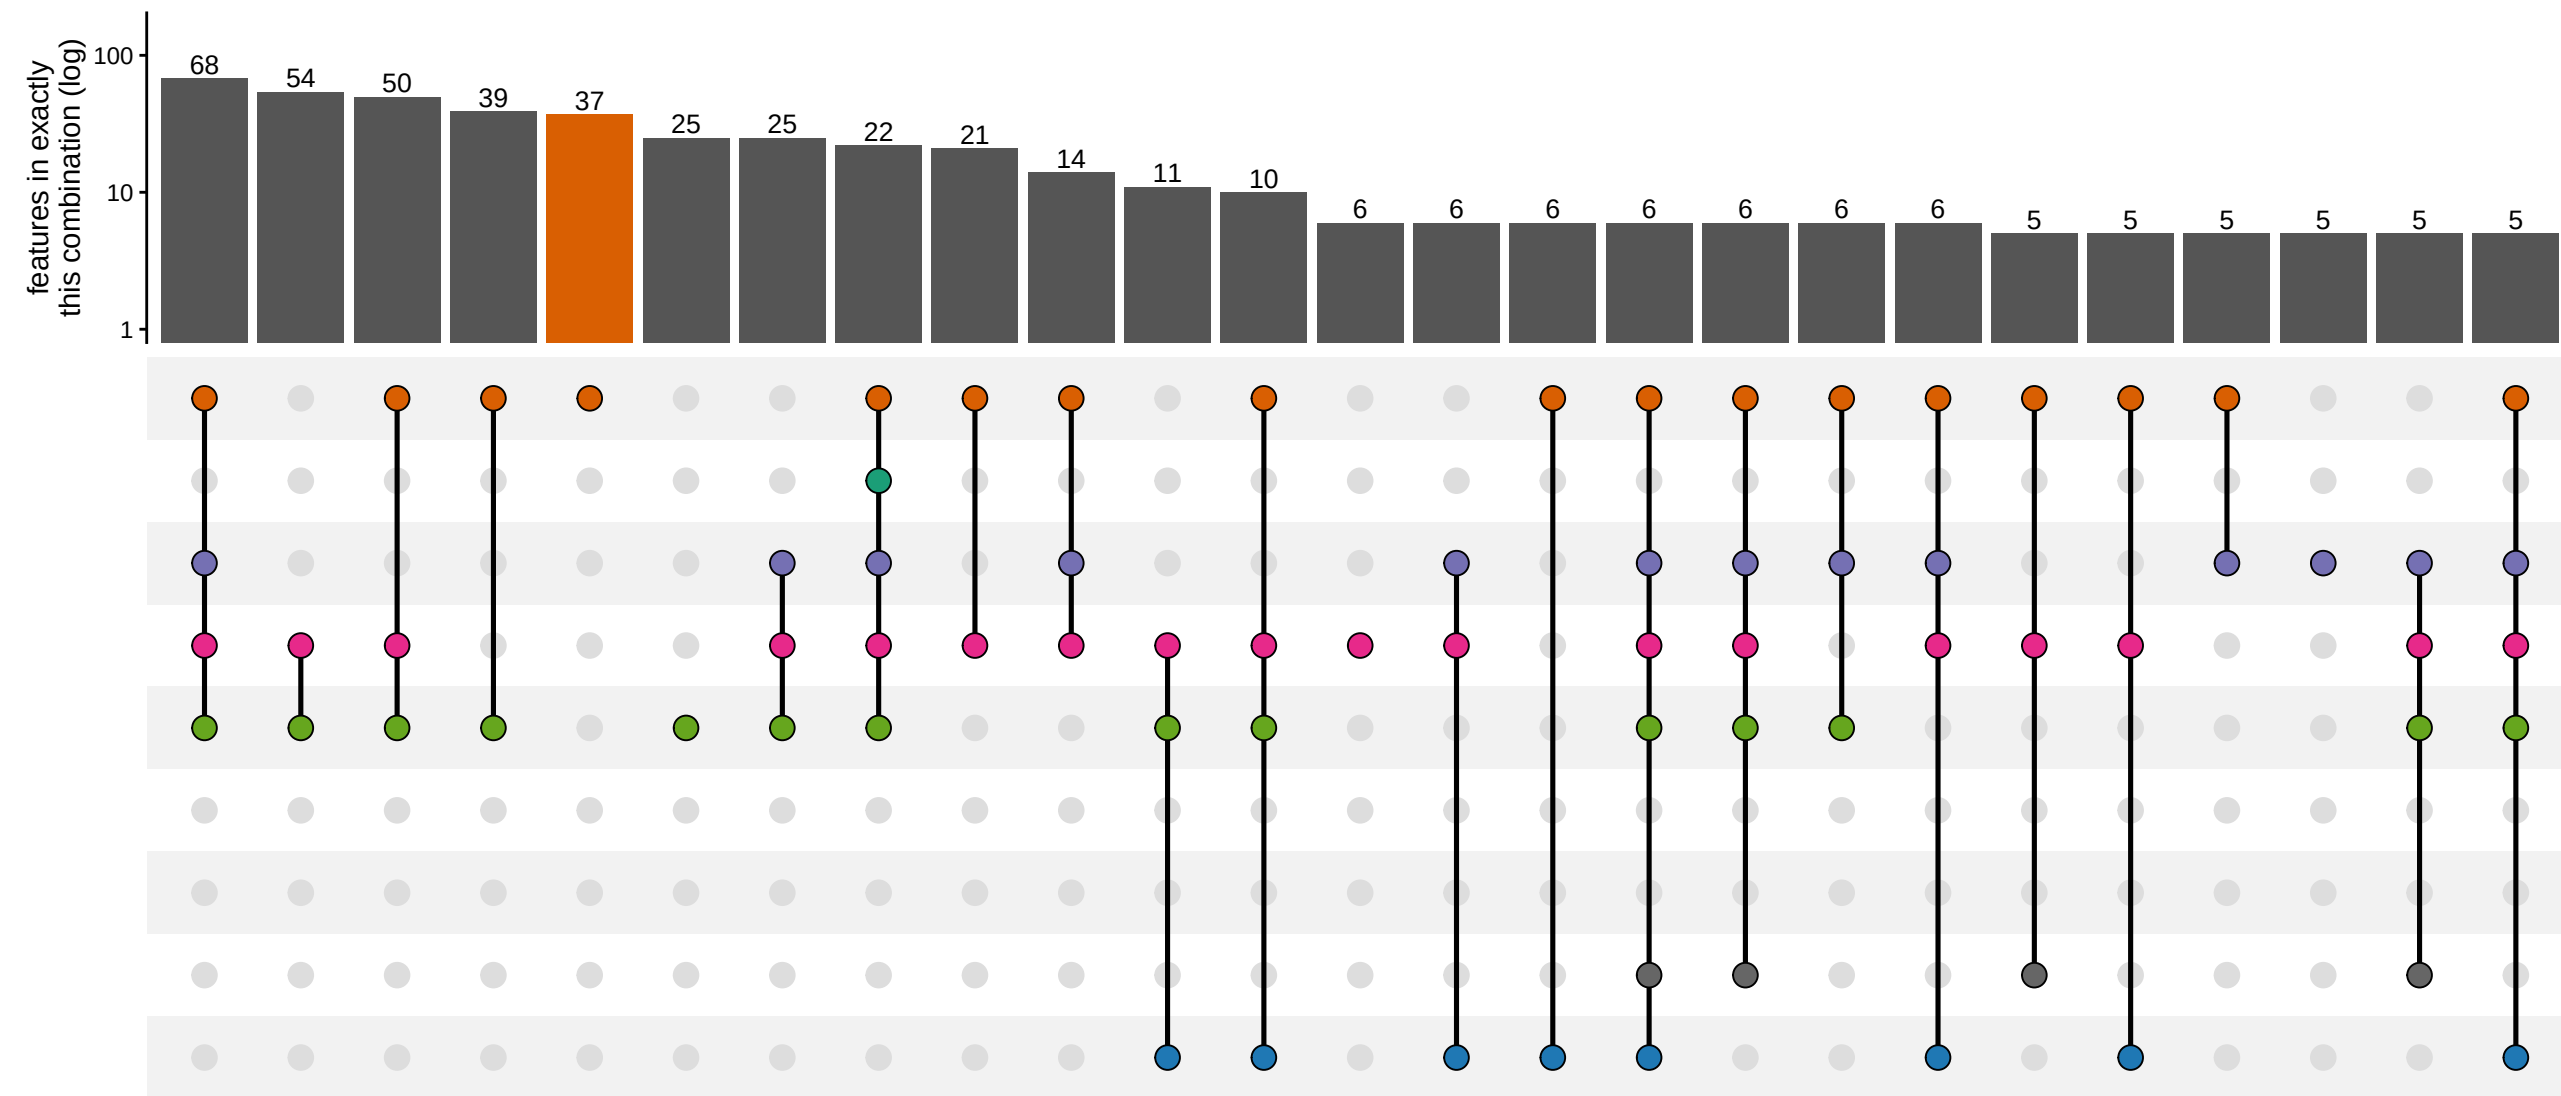

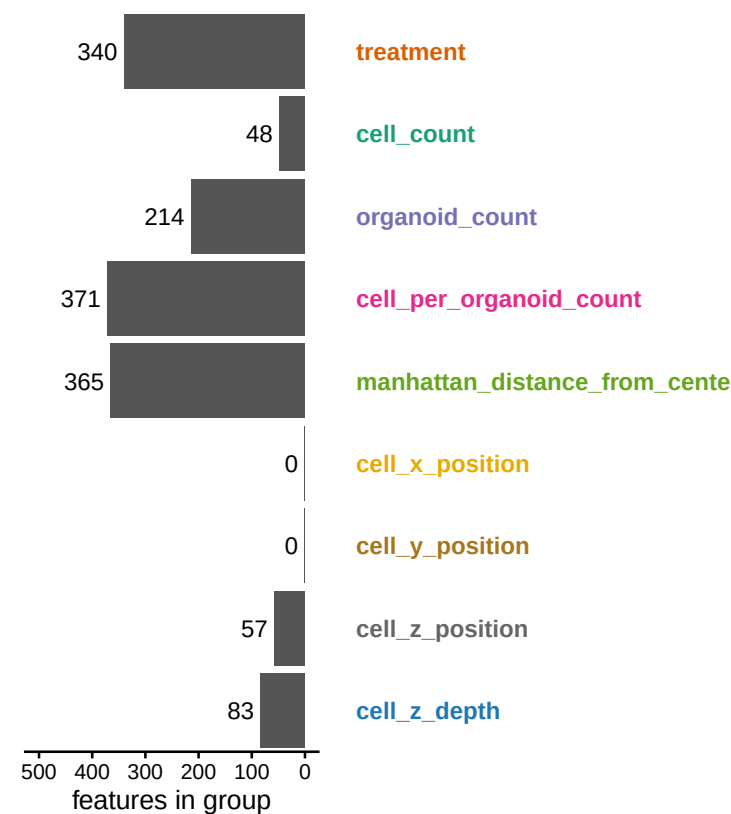

Features that are significant for each variate (treatment=Everolimus_1uM, tumor_type=Other)
202 of 534 features are significant for none of these 4 variates

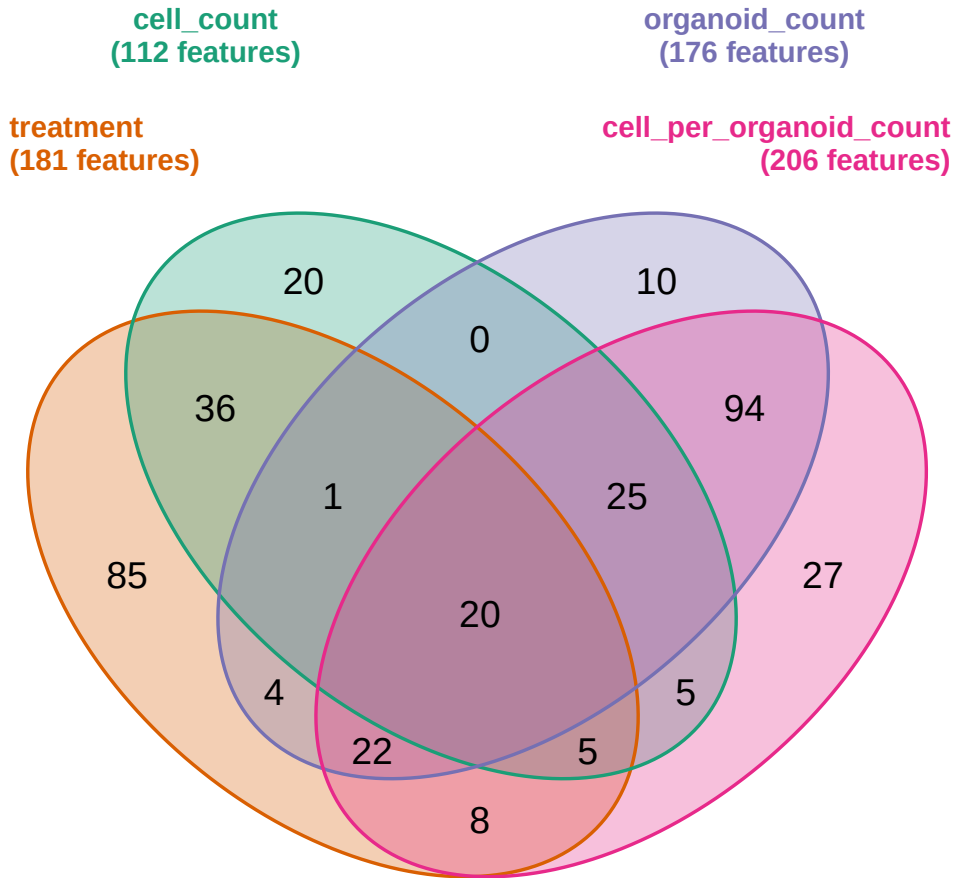

Features that are significant for each variate (treatment=Everolimus_1uM, tumor_type=cNF)
44 of 534 features are significant for none of these 4 variates

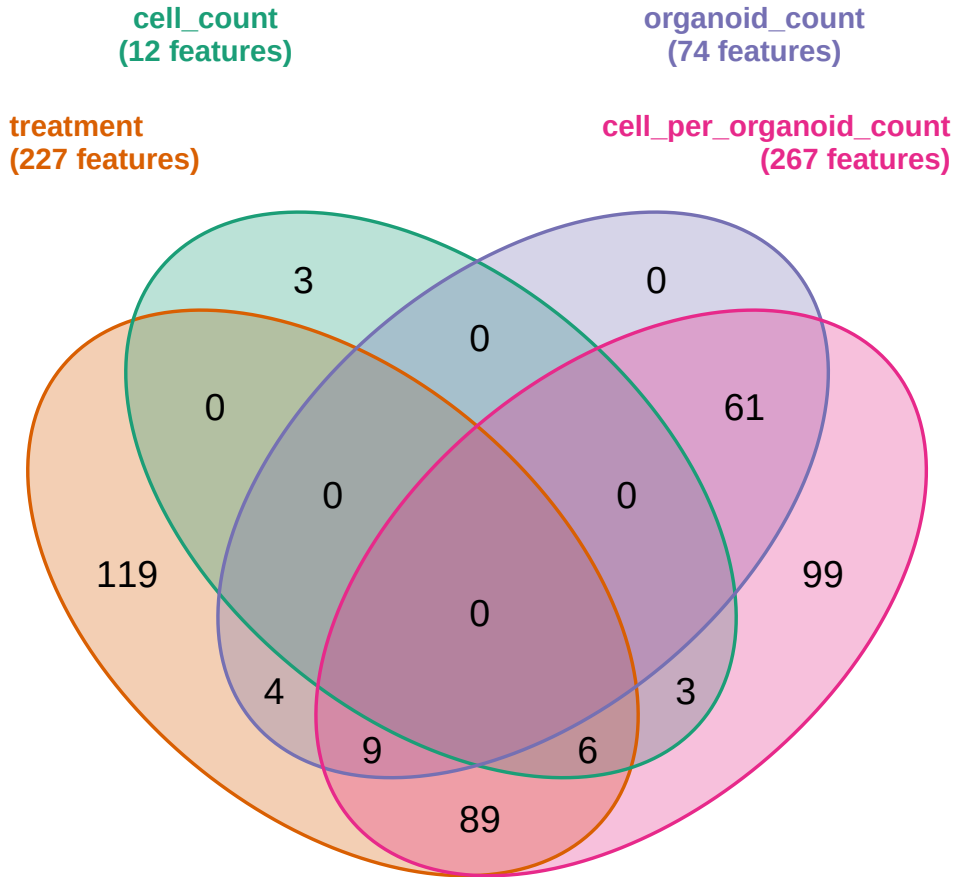

Feature membership across variate groups, treatment=Everolimus_1uM, tumor_type=cNF (top 25 of 59 combinations; orange = treatment only)

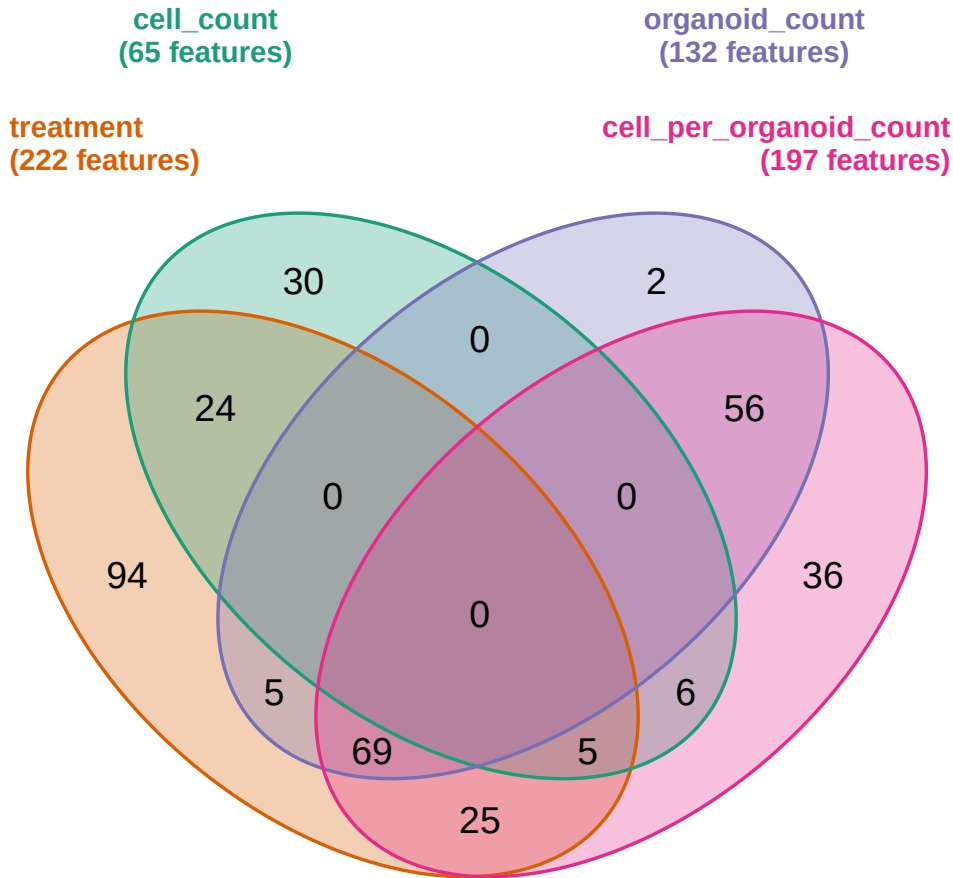

Features that are significant for each variate (treatment=Everolimus_1uM, tumor_type=pNF)
172 of 534 features are significant for none of these 4 variates

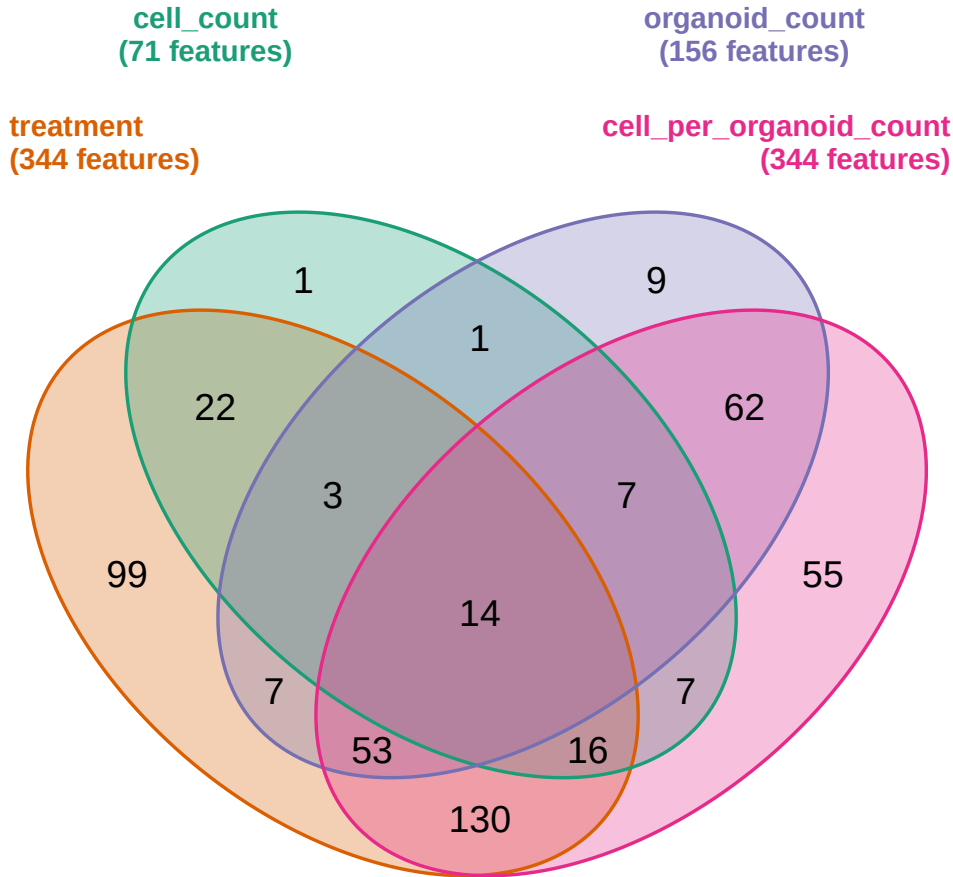

Features that are significant for each variate (treatment=Fimepinostat_1uM, tumor_type=MPNST)
141 of 534 features are significant for none of these 4 variates

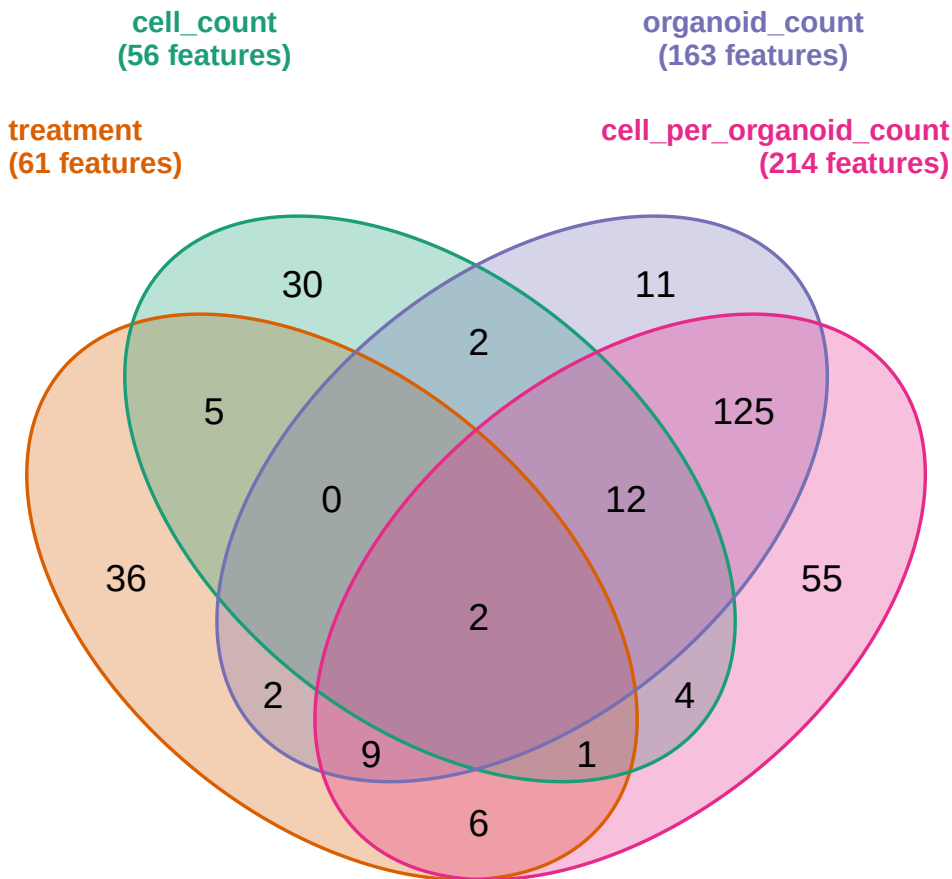

Features that are significant for each variate (treatment=Fimepinostat_1uM, tumor_type=Other)
182 of 534 features are significant for none of these 4 variates

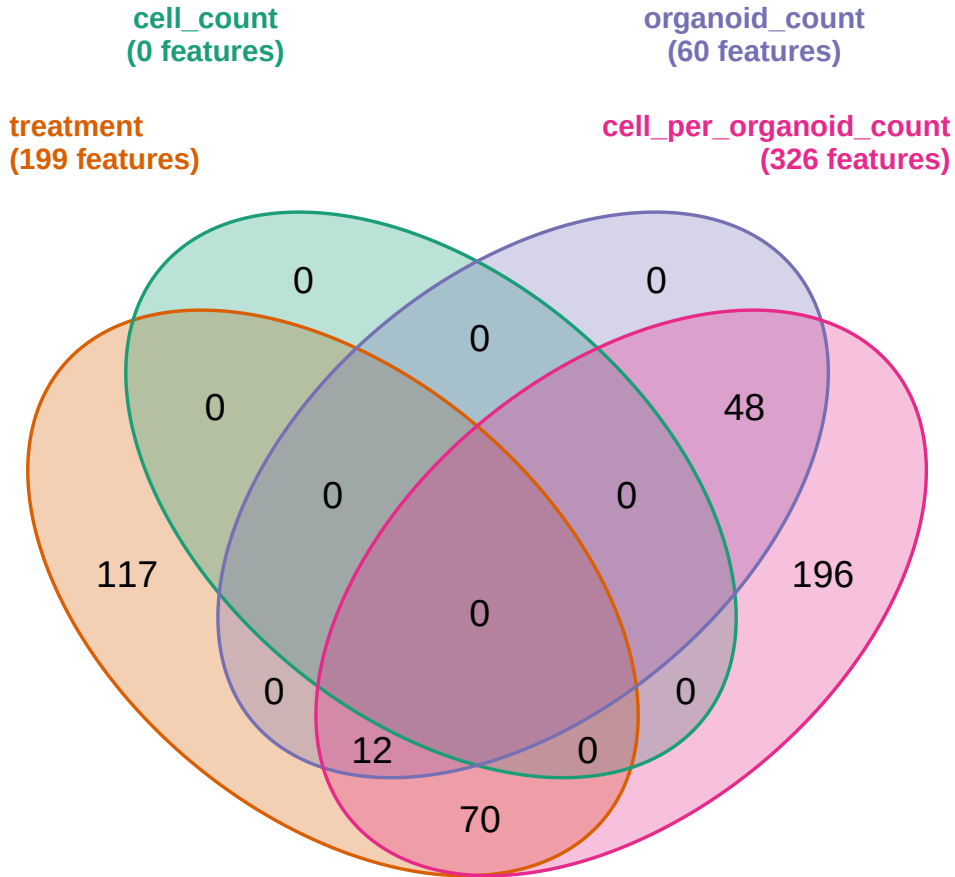

Features that are significant for each variate (treatment=Fimepinostat_1uM, tumor_type=cNF)
48 of 534 features are significant for none of these 4 variates

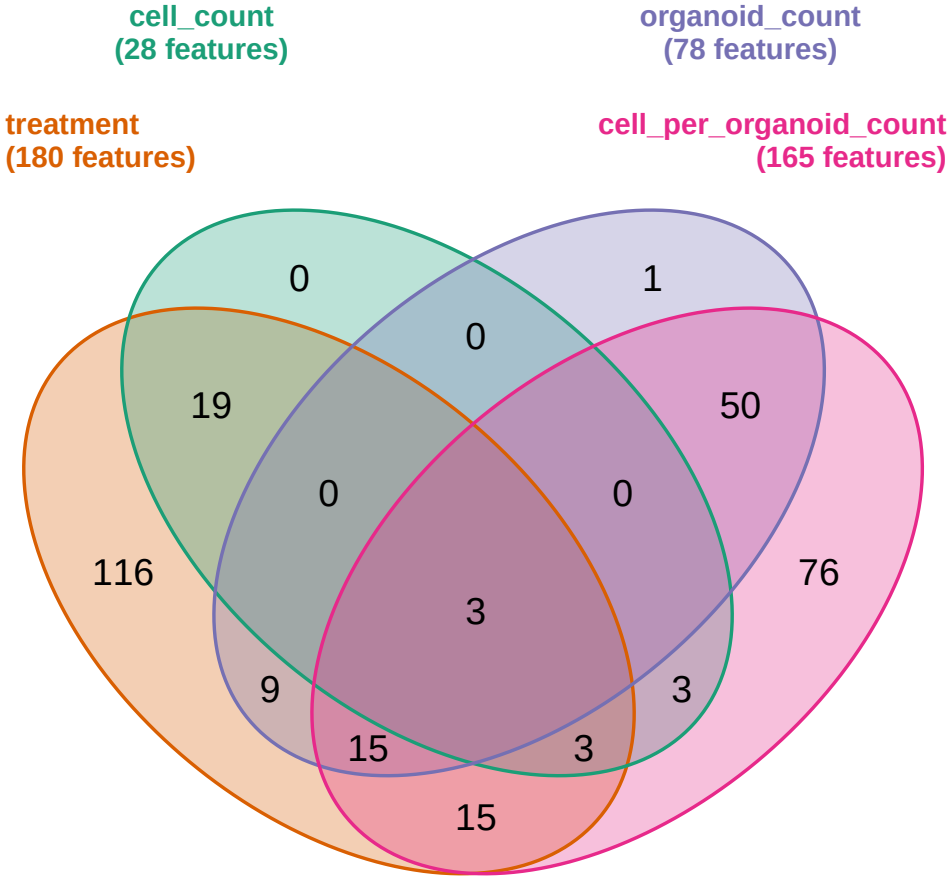

Features that are significant for each variate (treatment=Fimepinostat_1uM, tumor_type=pNF)
234 of 534 features are significant for none of these 4 variates

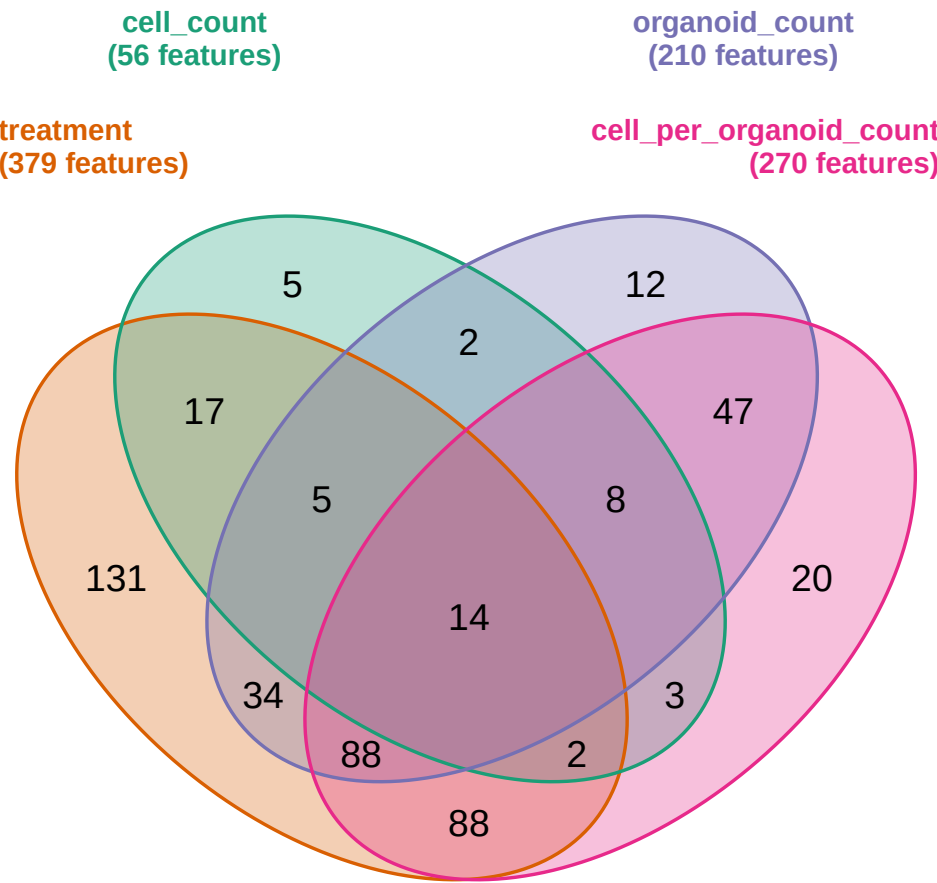

Features that are significant for each variate (treatment=Imatinib_1uM, tumor_type=MPNST)
91 of 534 features are significant for none of these 4 variates

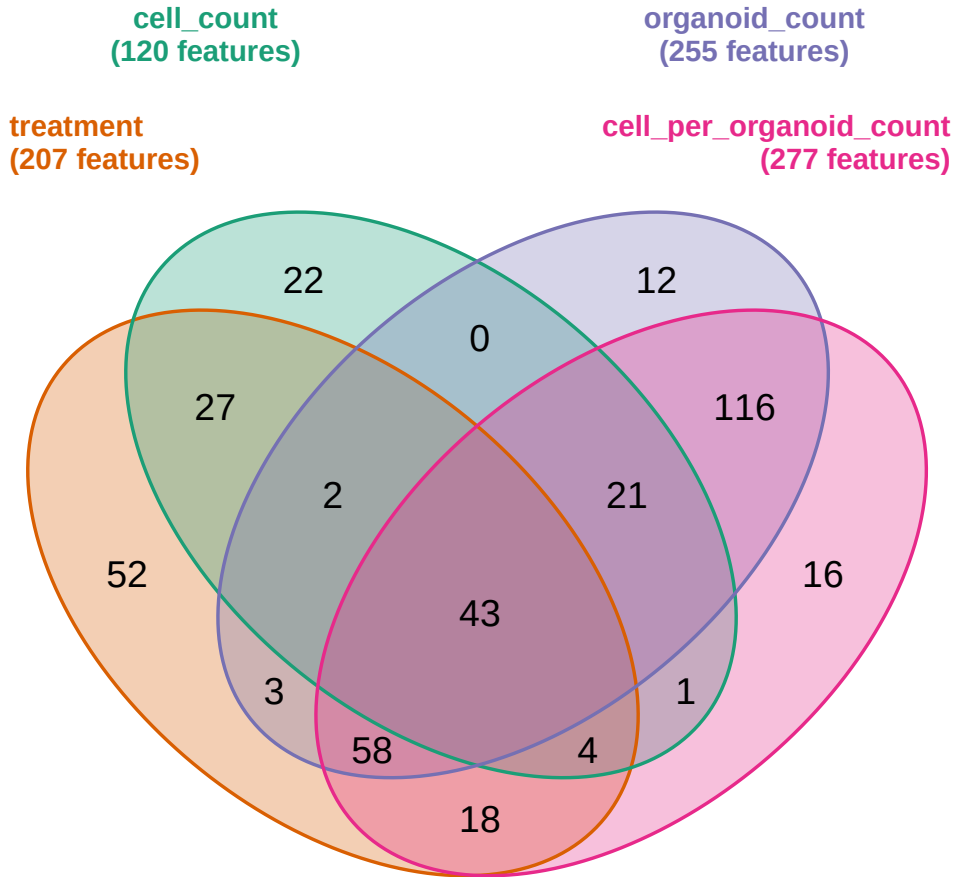

Features that are significant for each variate (treatment=Imatinib_1uM, tumor_type=Other)
224 of 534 features are significant for none of these 4 variates

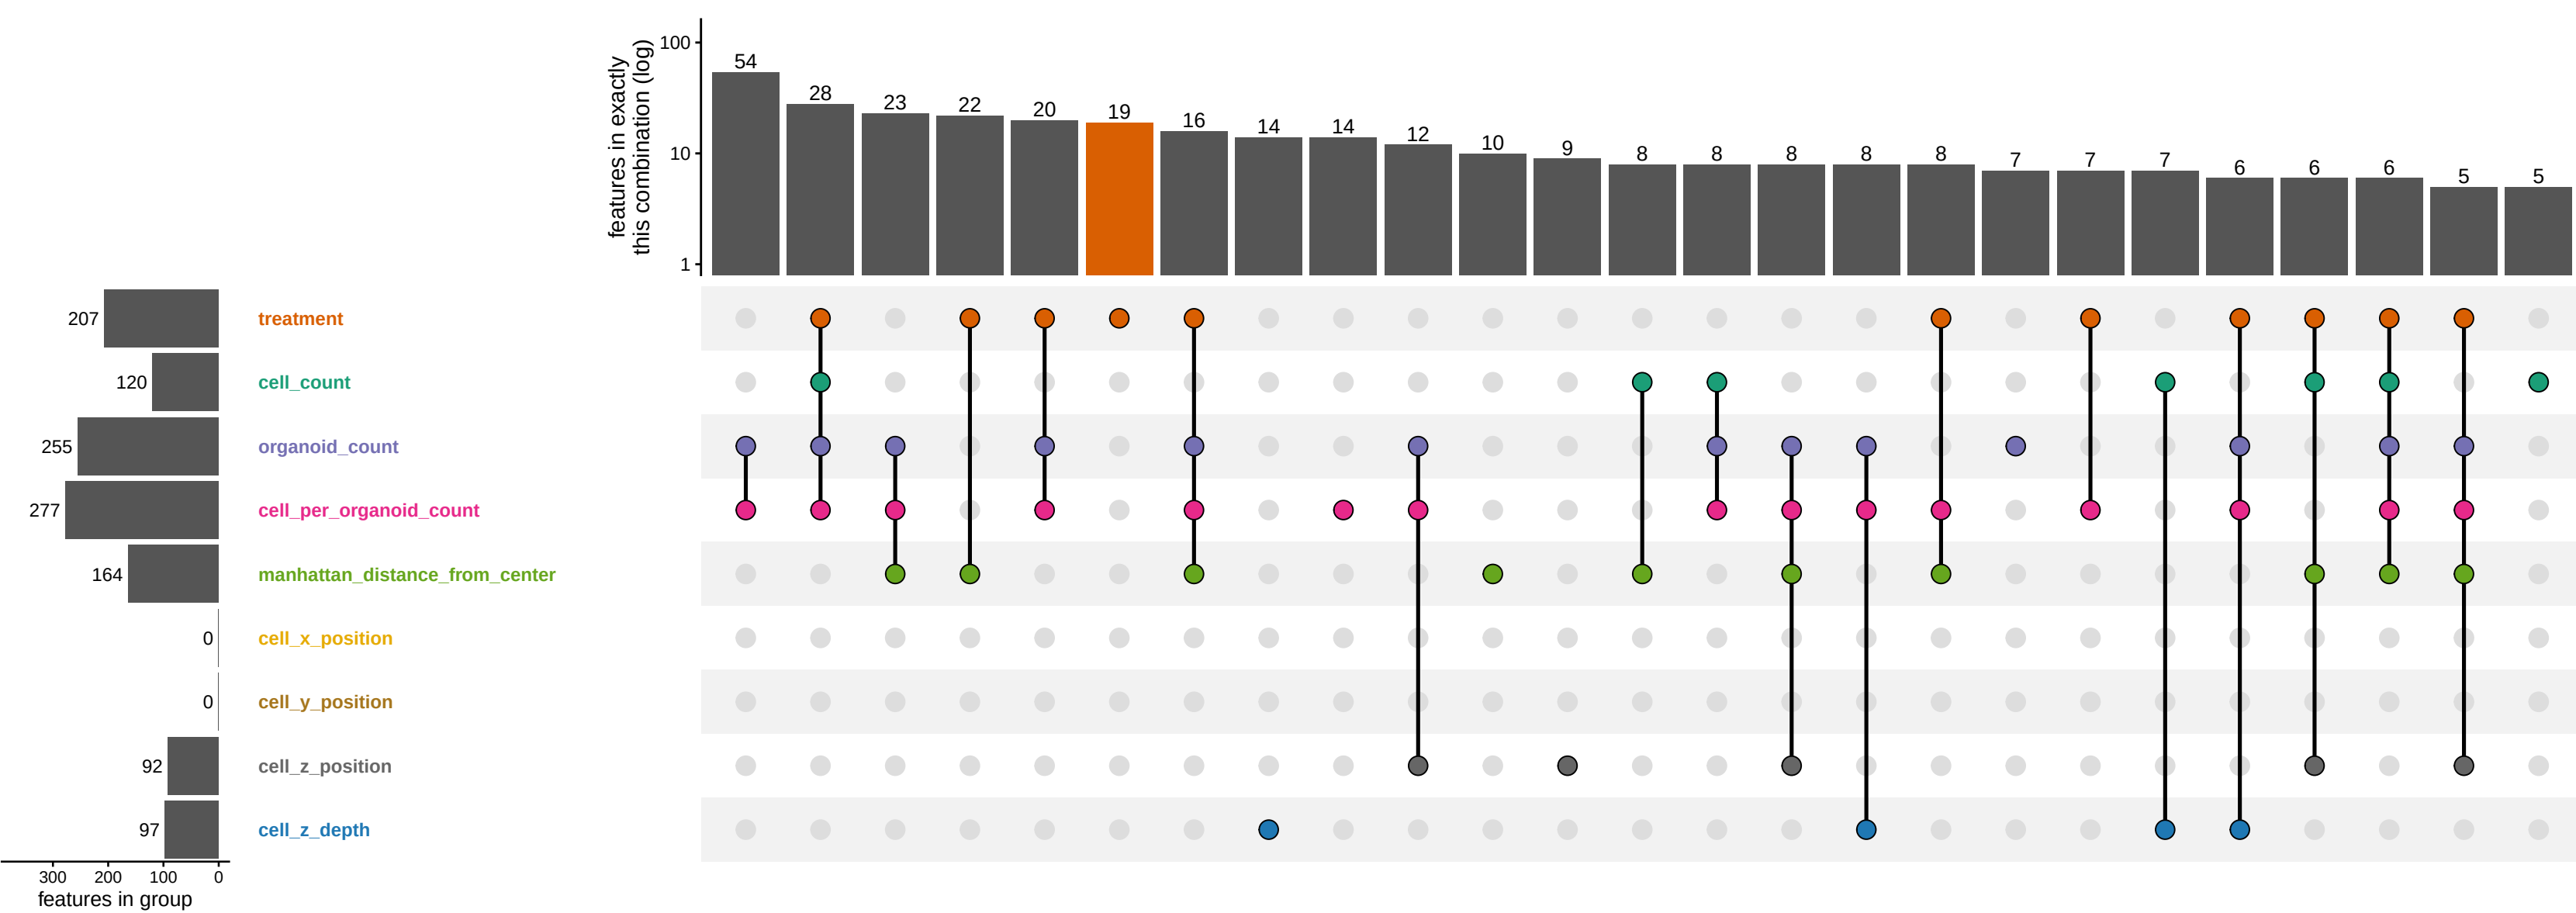

Features that are significant for each variate (treatment=Imatinib_1uM, tumor_type=cNF)
58 of 534 features are significant for none of these 4 variates

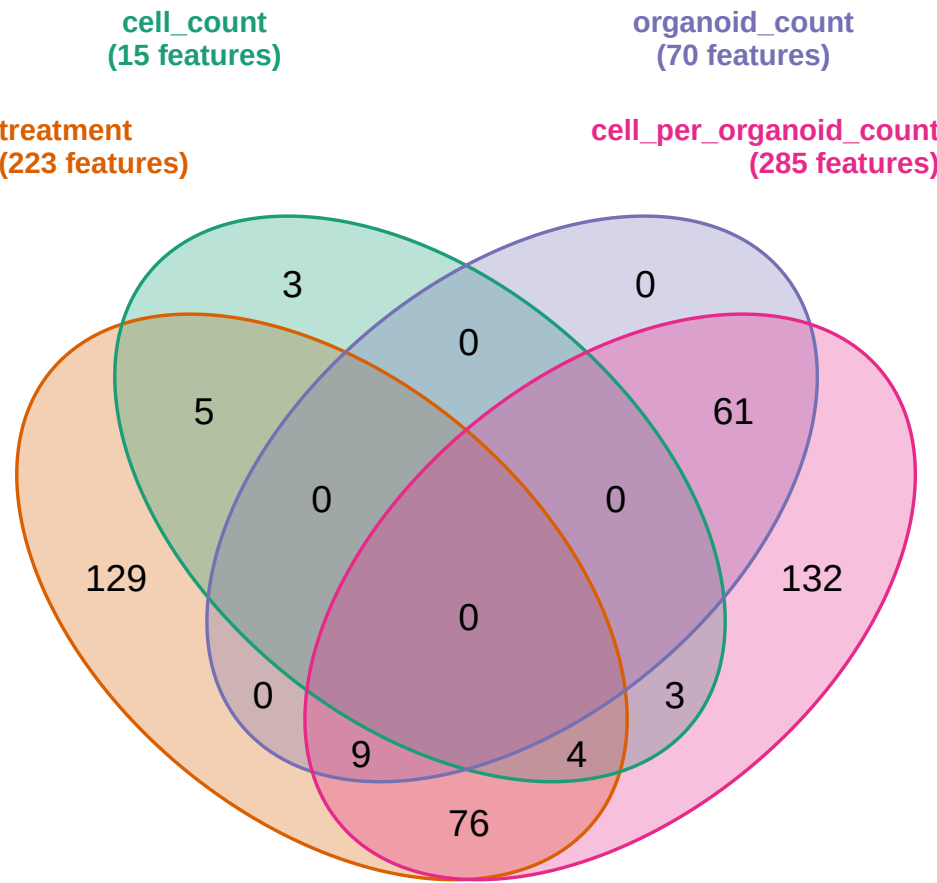

Features that are significant for each variate (treatment=Imatinib_1uM, tumor_type=pNF)
139 of 534 features are significant for none of these 4 variates

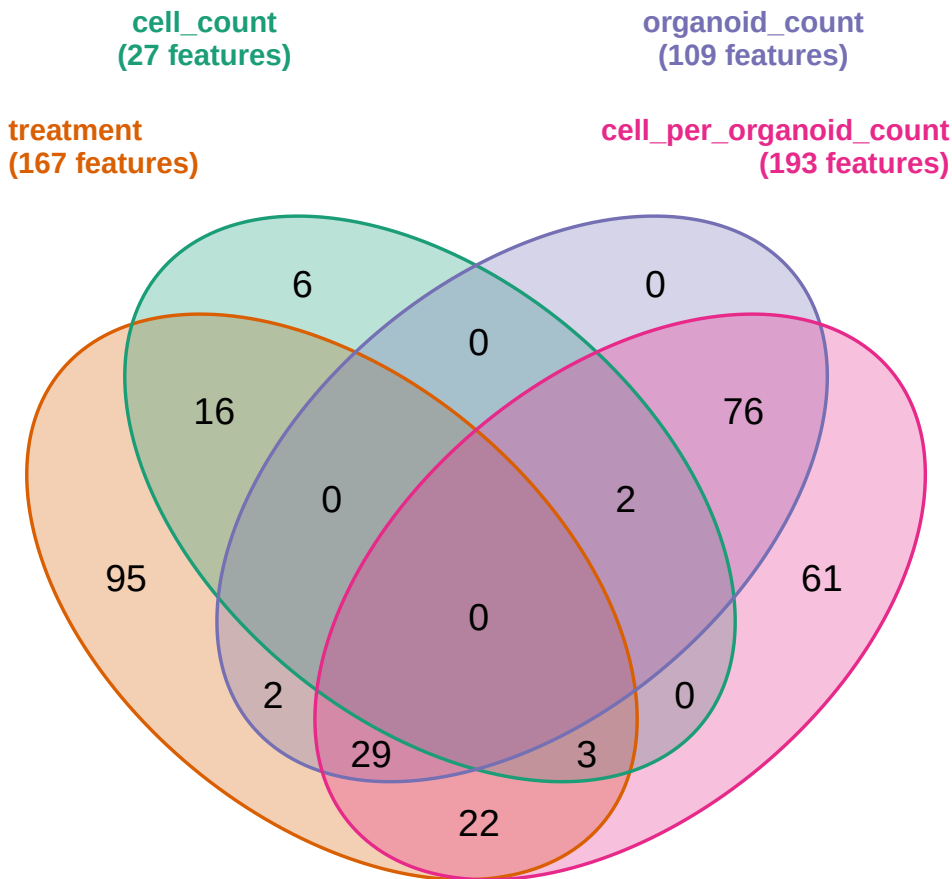

Feature membership across variate groups, treatment=Imatinib_1uM, tumor_type=pNF (top 25 of 64 combinations; orange = treatment only)

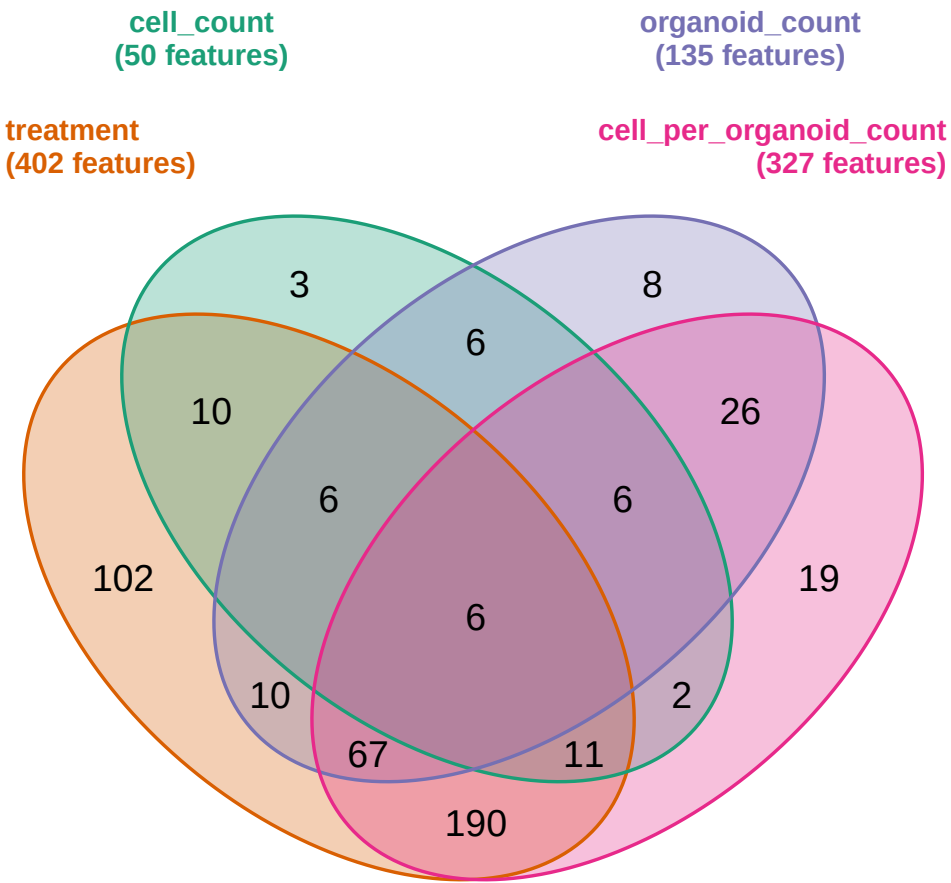

Features that are significant for each variate (treatment=Ketotifen_1uM, tumor_type=MPNST)
112 of 534 features are significant for none of these 4 variates

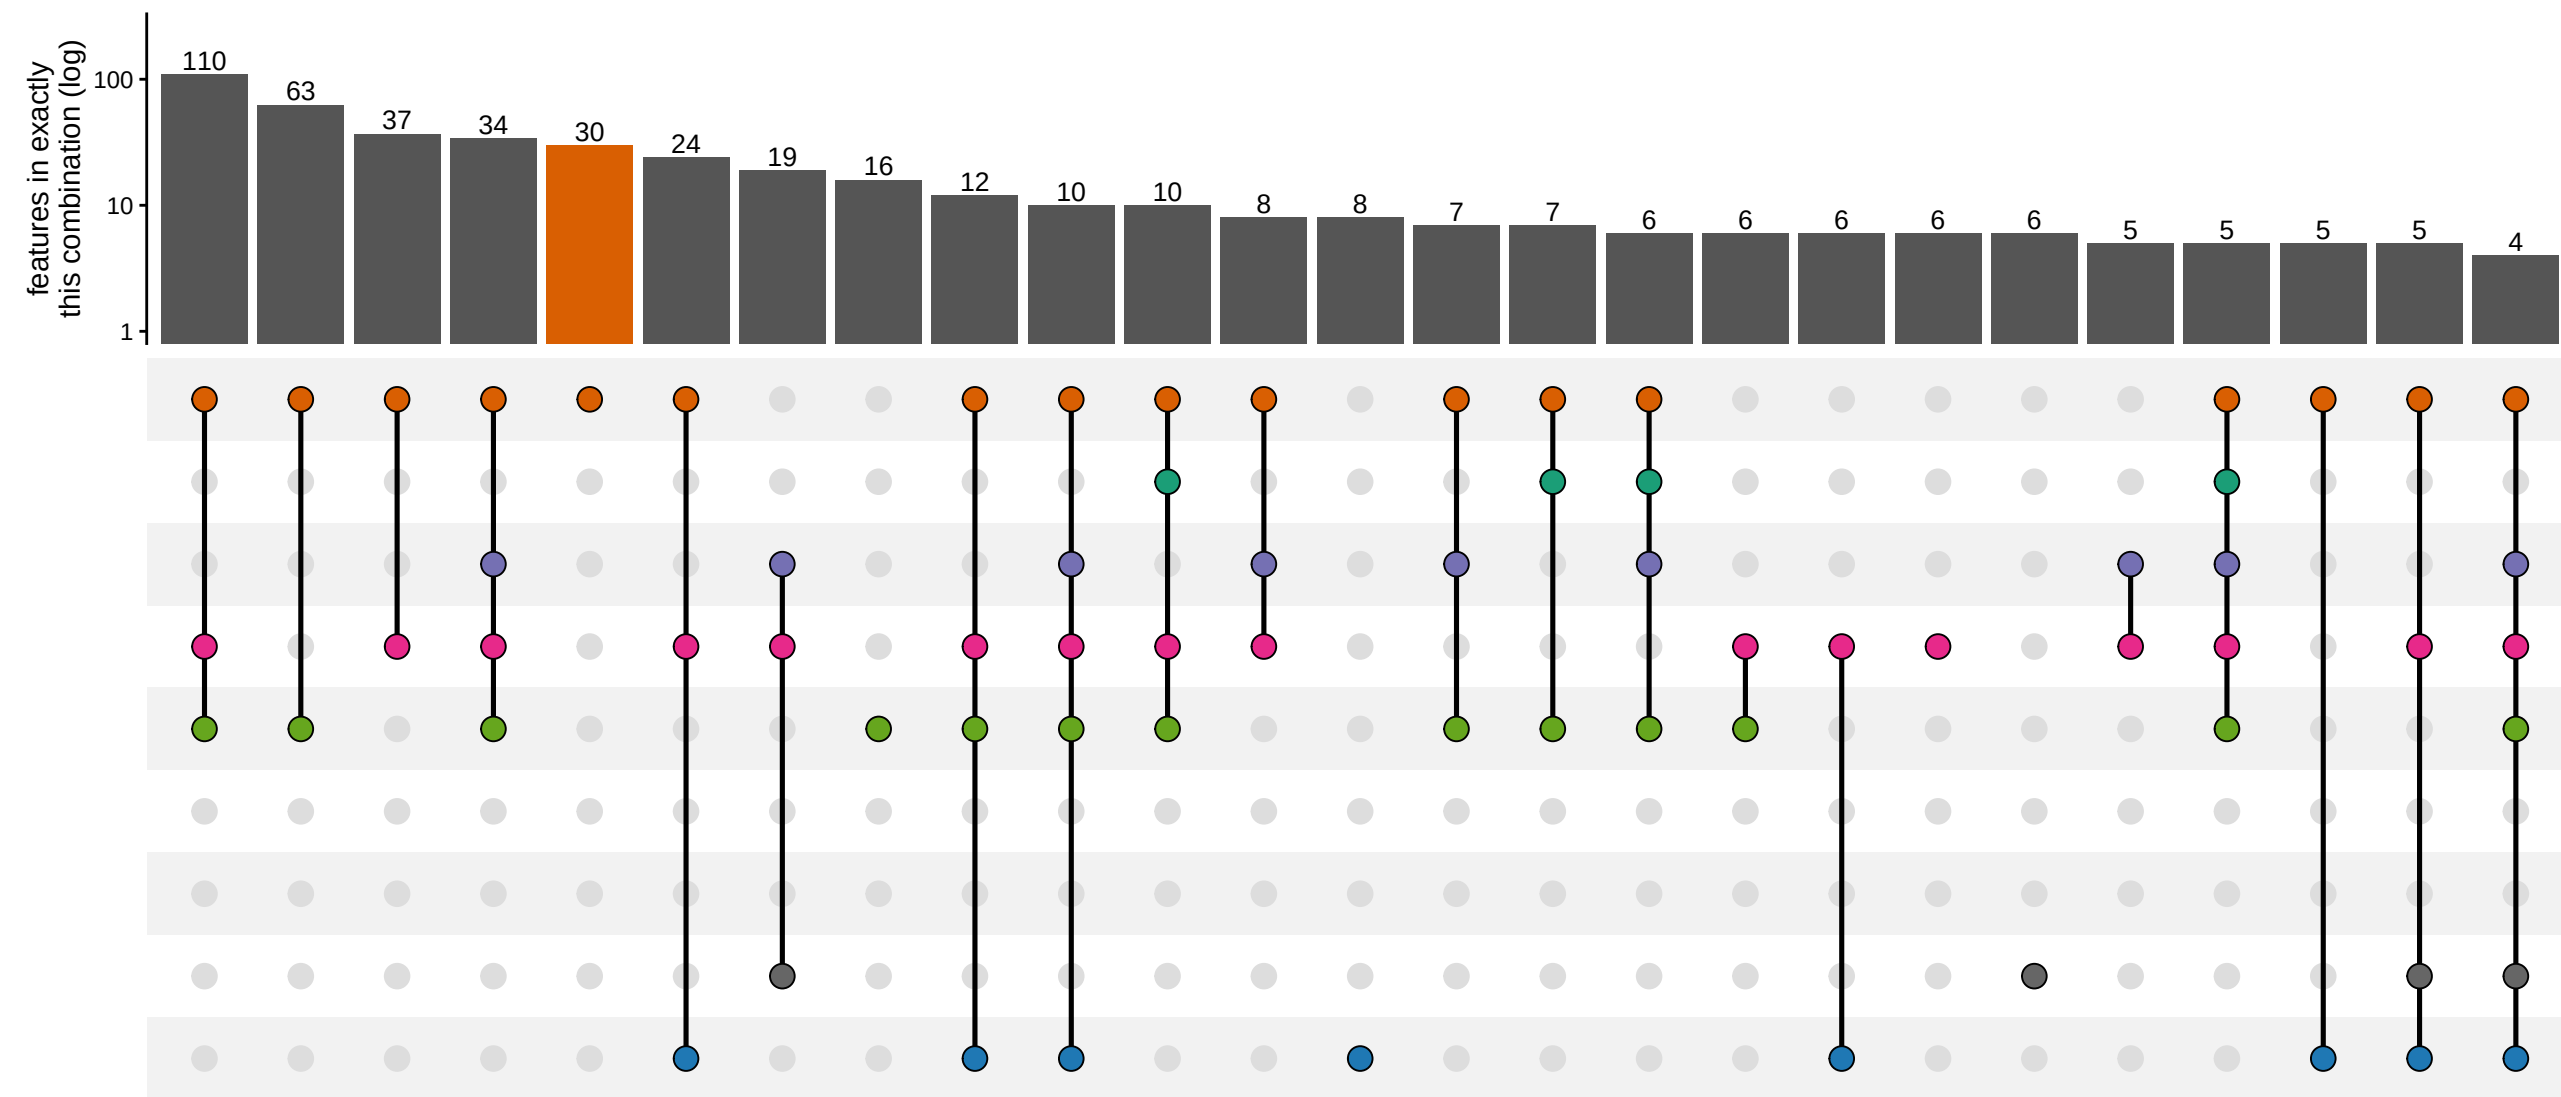

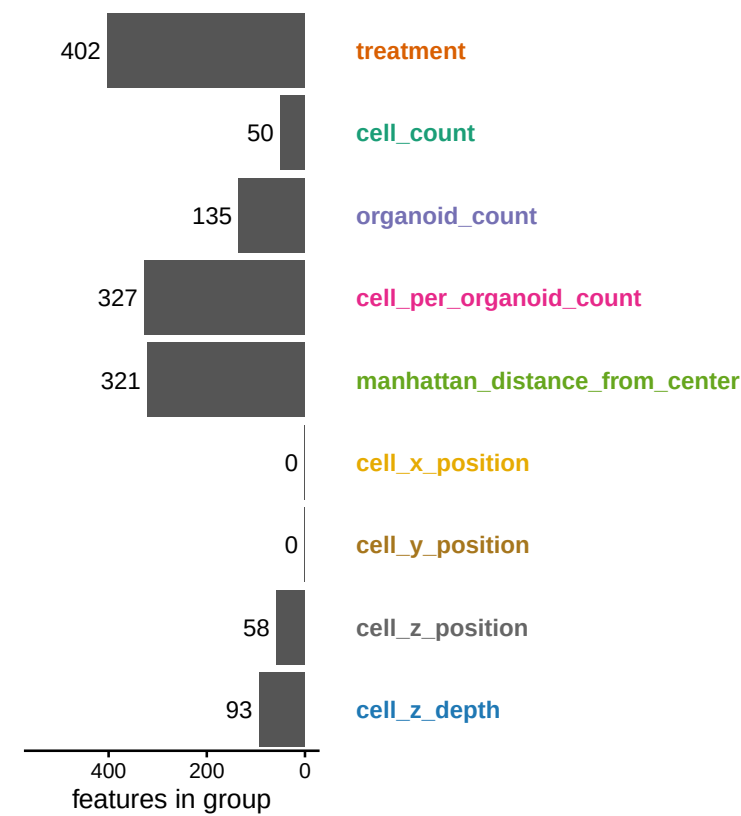

Features that are significant for each variate (treatment=Ketotifen_1uM, tumor_type=Other)
222 of 534 features are significant for none of these 4 variates

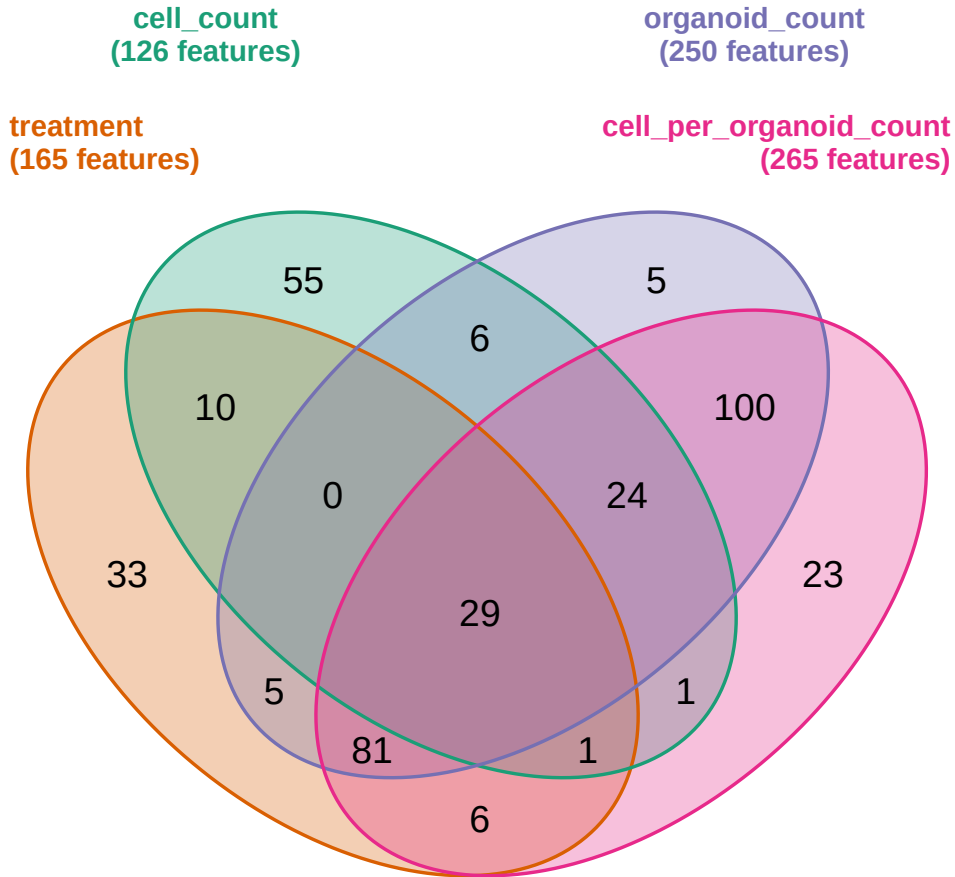

Features that are significant for each variate (treatment=Ketotifen_1uM, tumor_type=cNF)
62 of 534 features are significant for none of these 4 variates

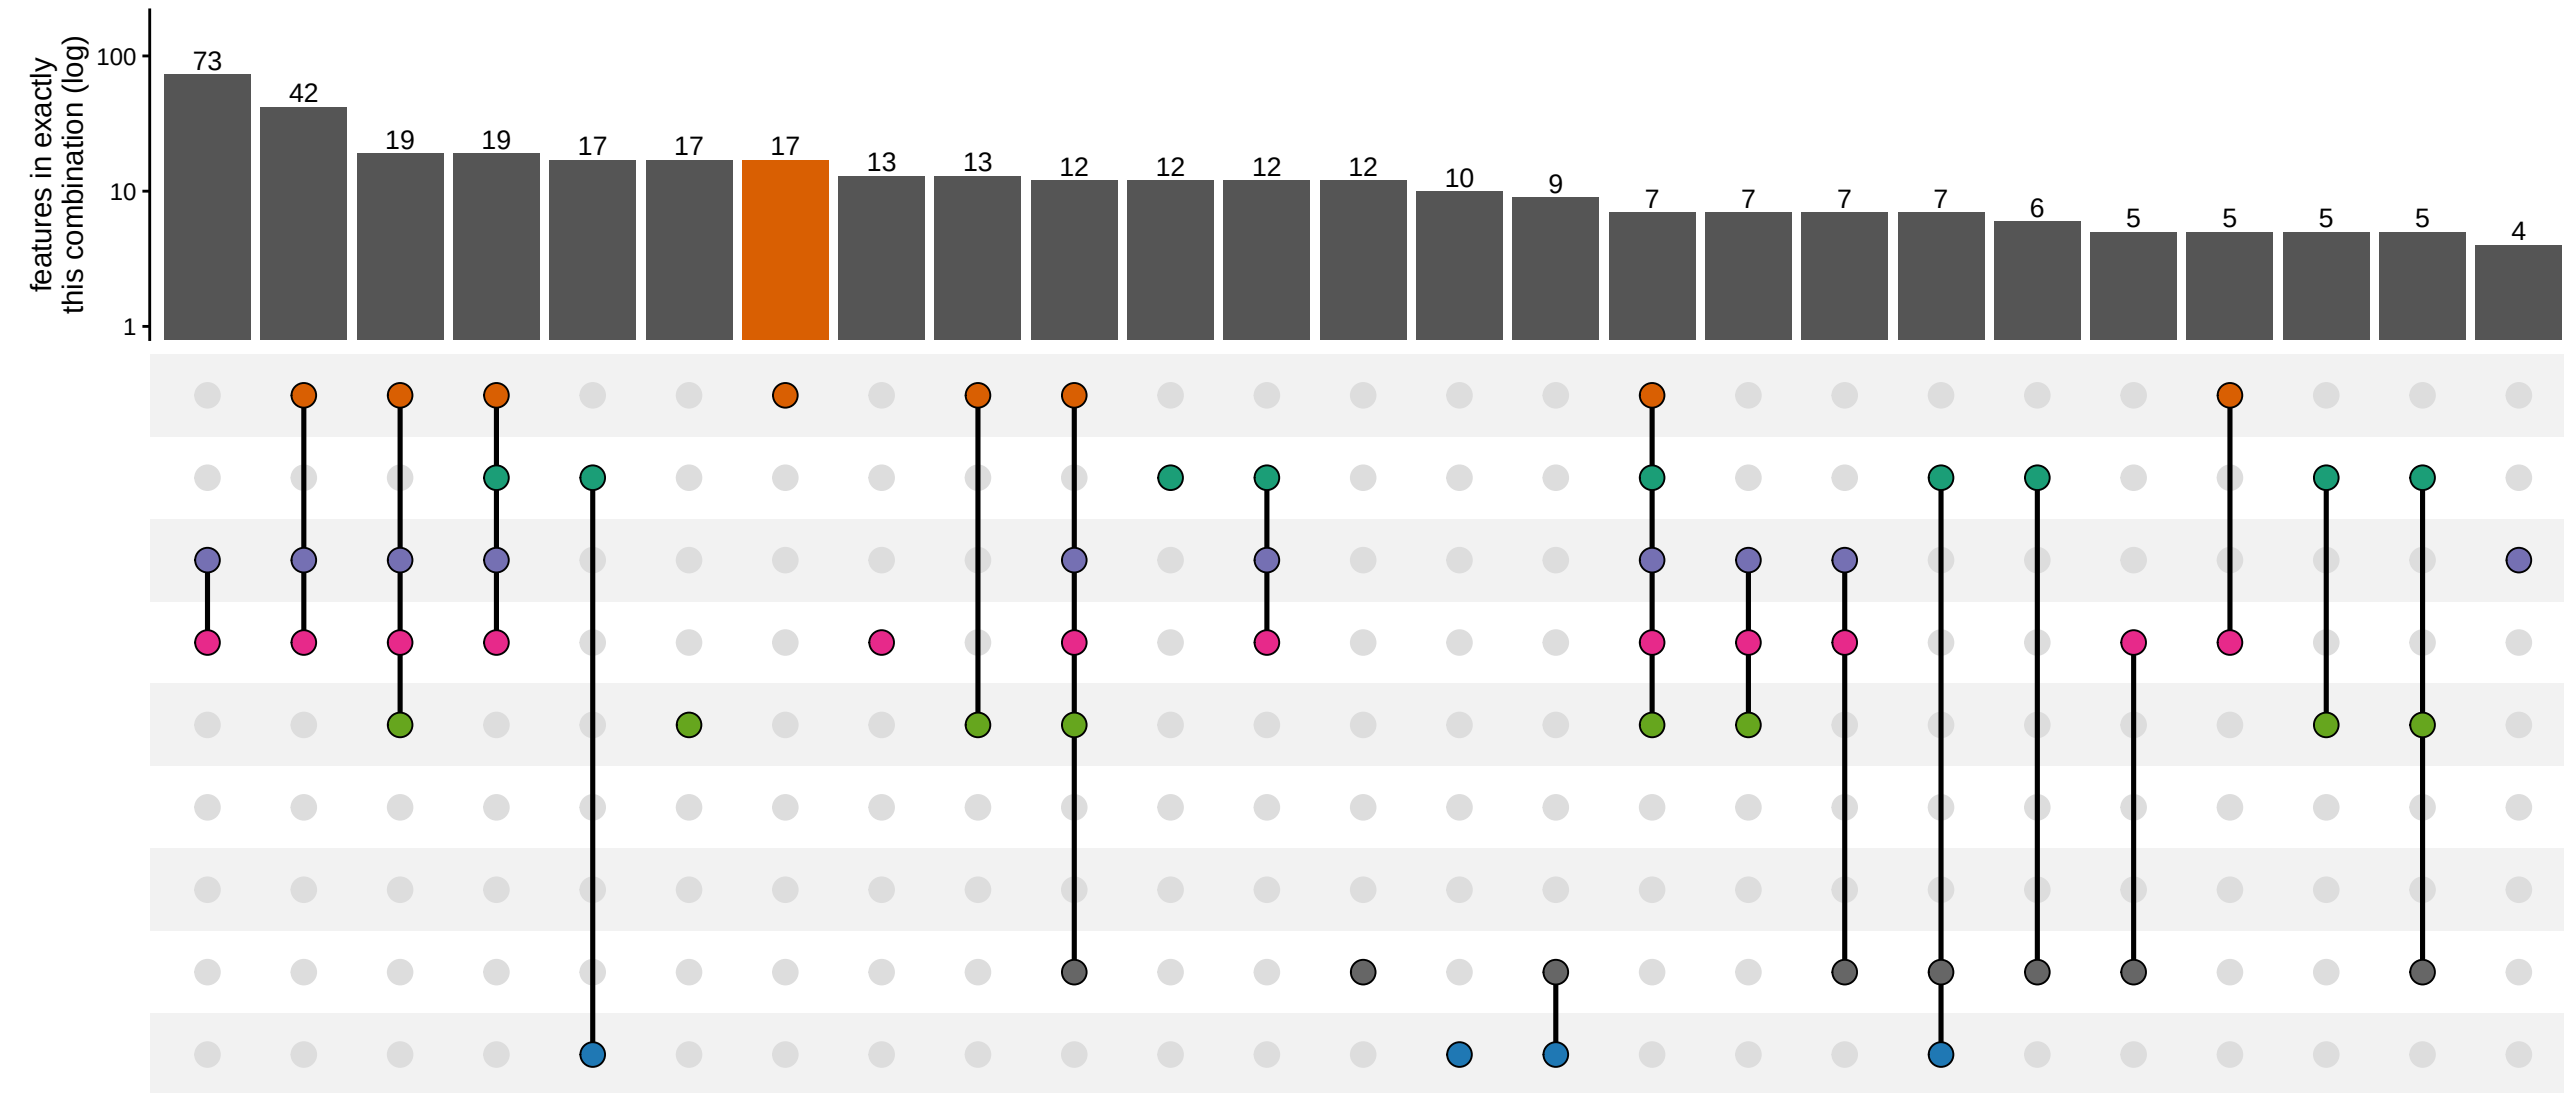

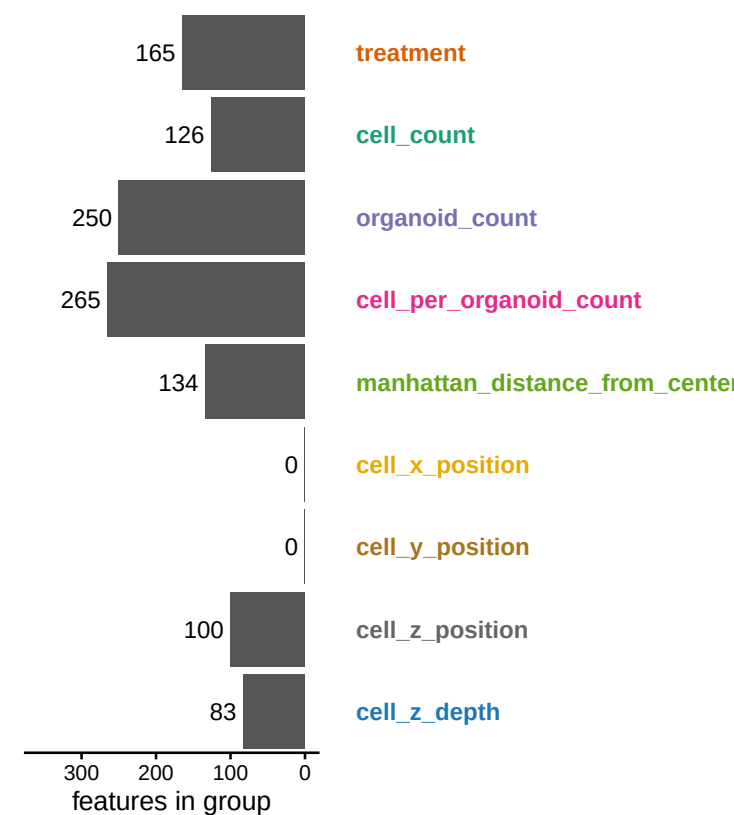

Feature membership across variate groups, treatment=Ketotifen_1uM, tumor_type=cNF (top 25 of 52 combinations; orange = treatment only)

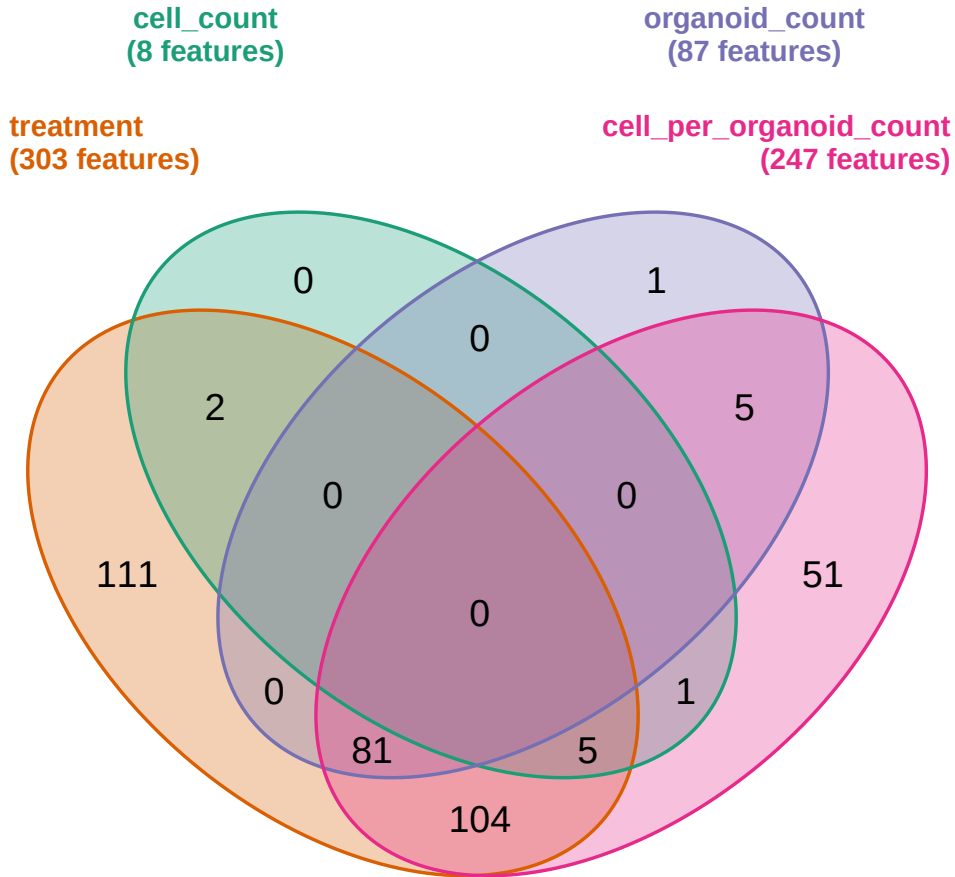

Features that are significant for each variate (treatment=Ketotifen_1uM, tumor_type=pNF)
155 of 534 features are significant for none of these 4 variates

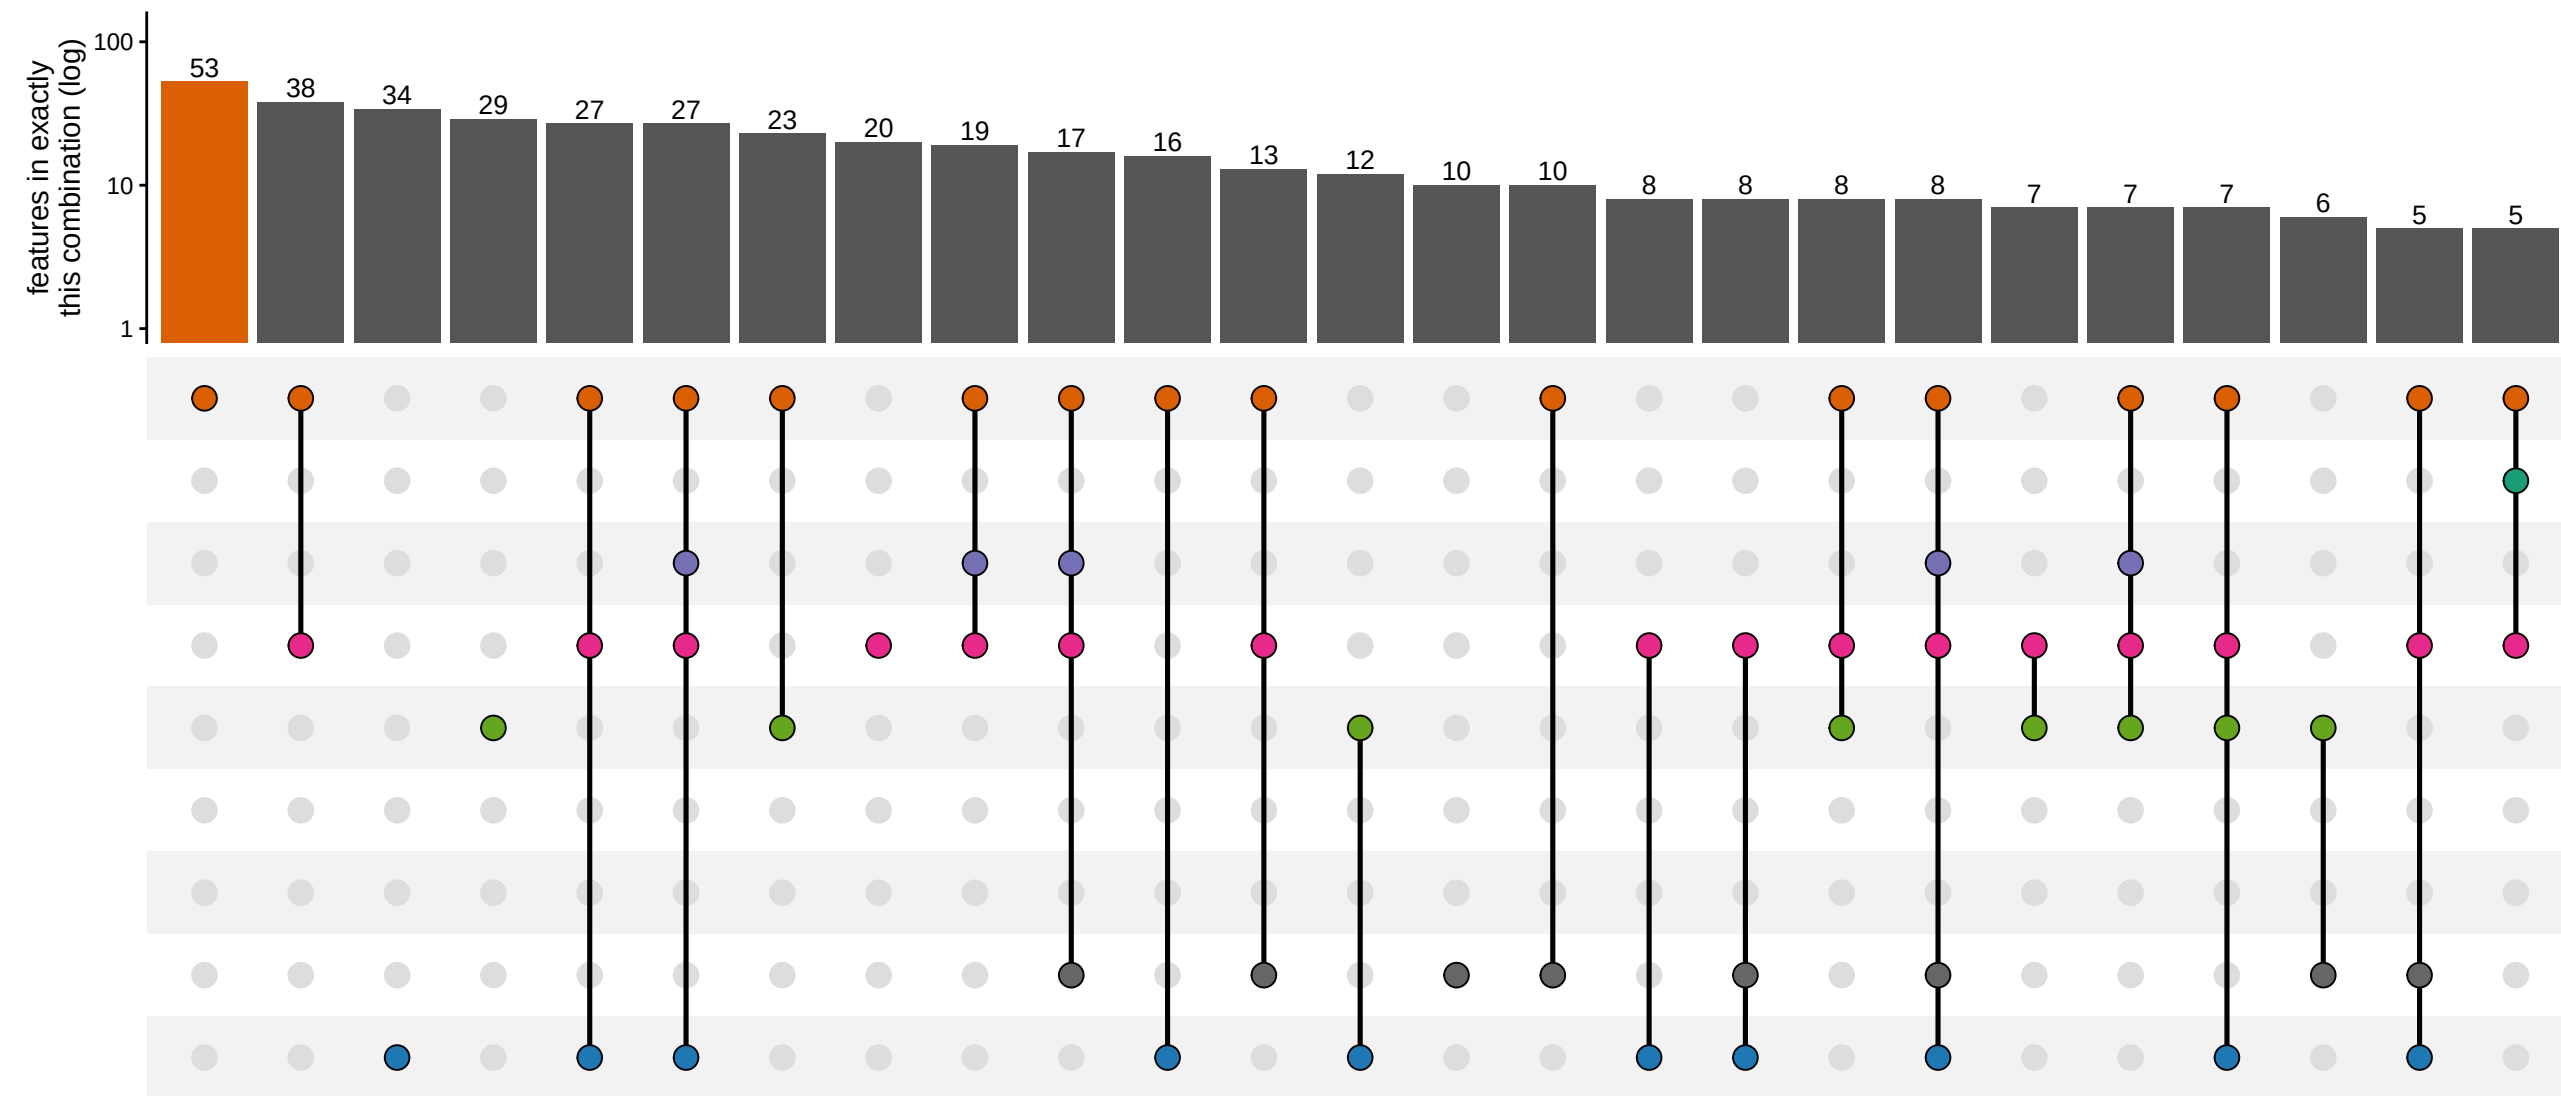

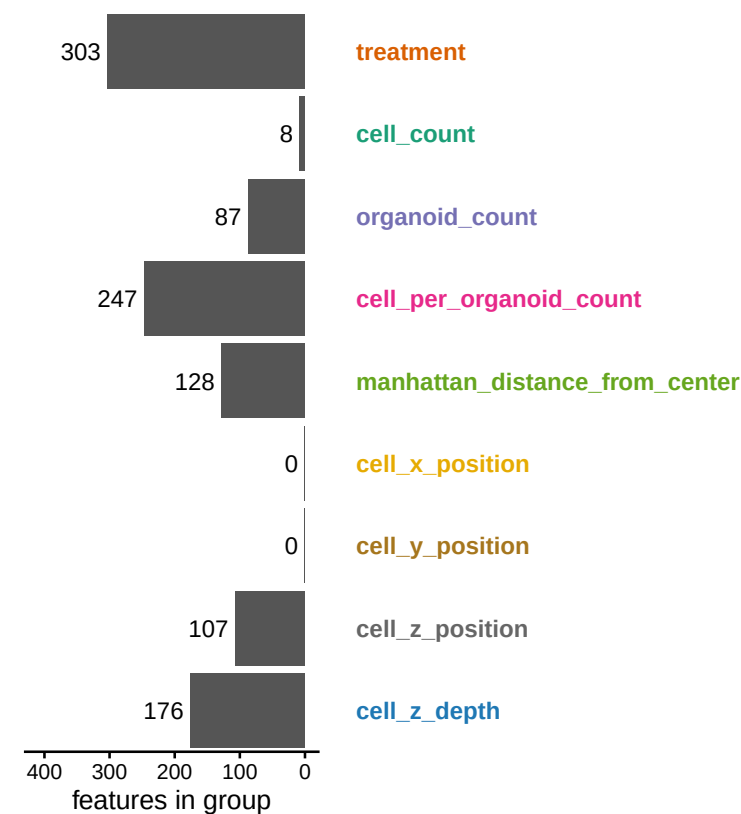

Feature membership across variate groups, treatment=Ketotifen_1uM, tumor_type=pNF (top 25 of 62 combinations; orange = treatment only)

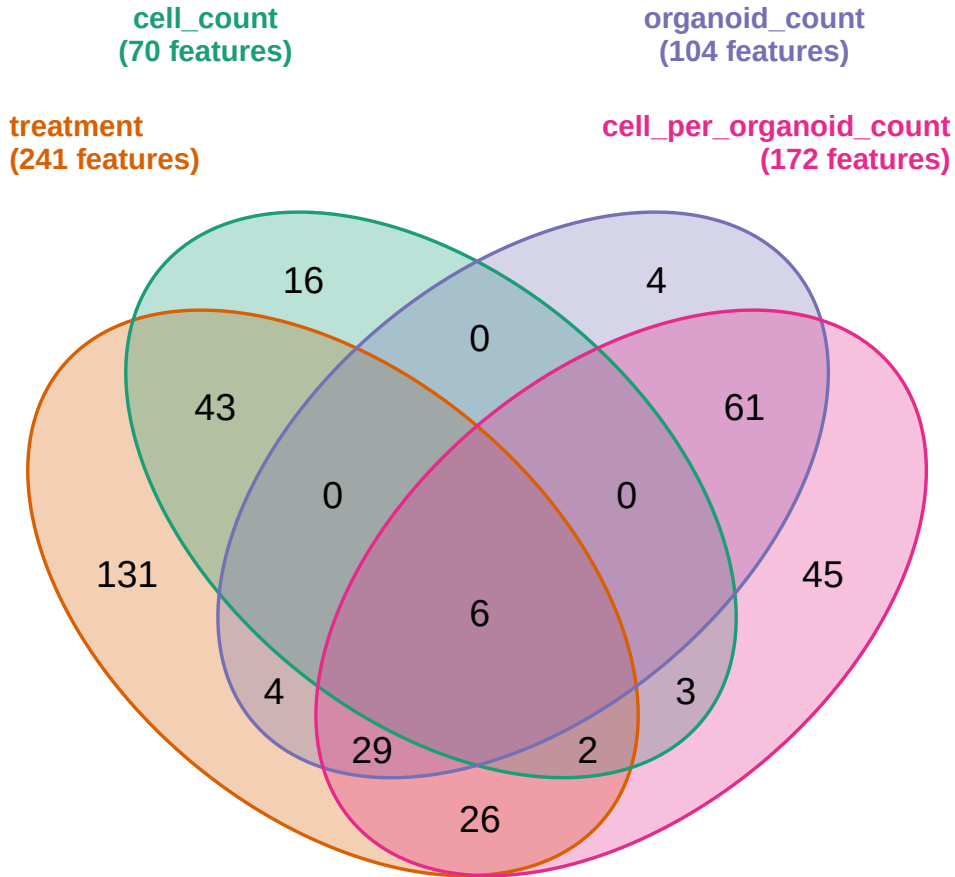

Features that are significant for each variate (treatment=Linsitinib_1uM, tumor_type=MPNST)
173 of 534 features are significant for none of these 4 variates

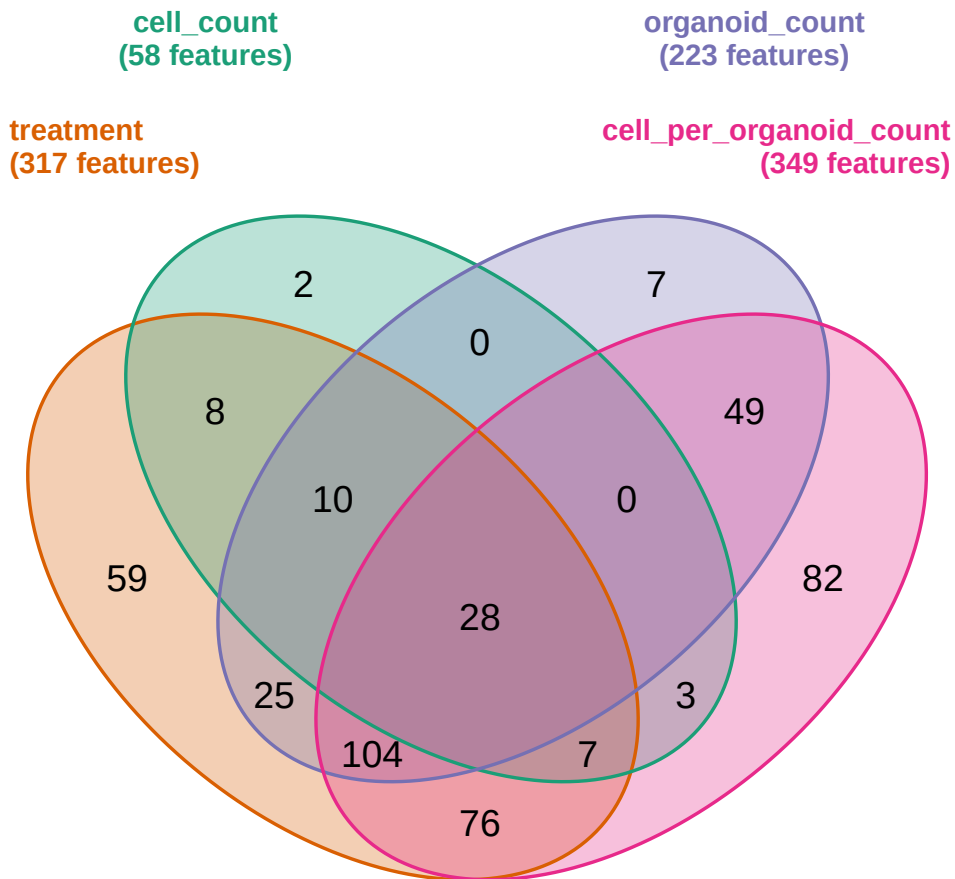

Feature membership across variate groups, treatment=Linsitinib_1uM, tumor_type=MPNST (top 25 of 43 combinations; orange = treatment only)

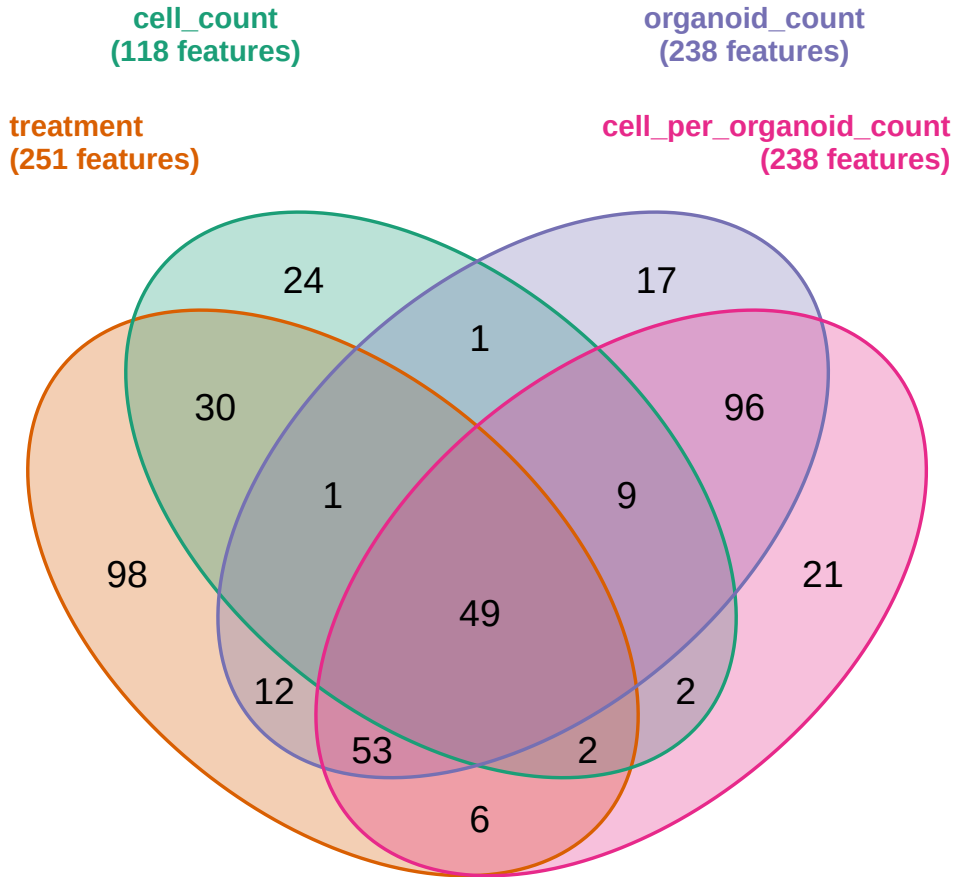

Features that are significant for each variate (treatment=Linsitinib_1uM, tumor_type=Other)
164 of 534 features are significant for none of these 4 variates

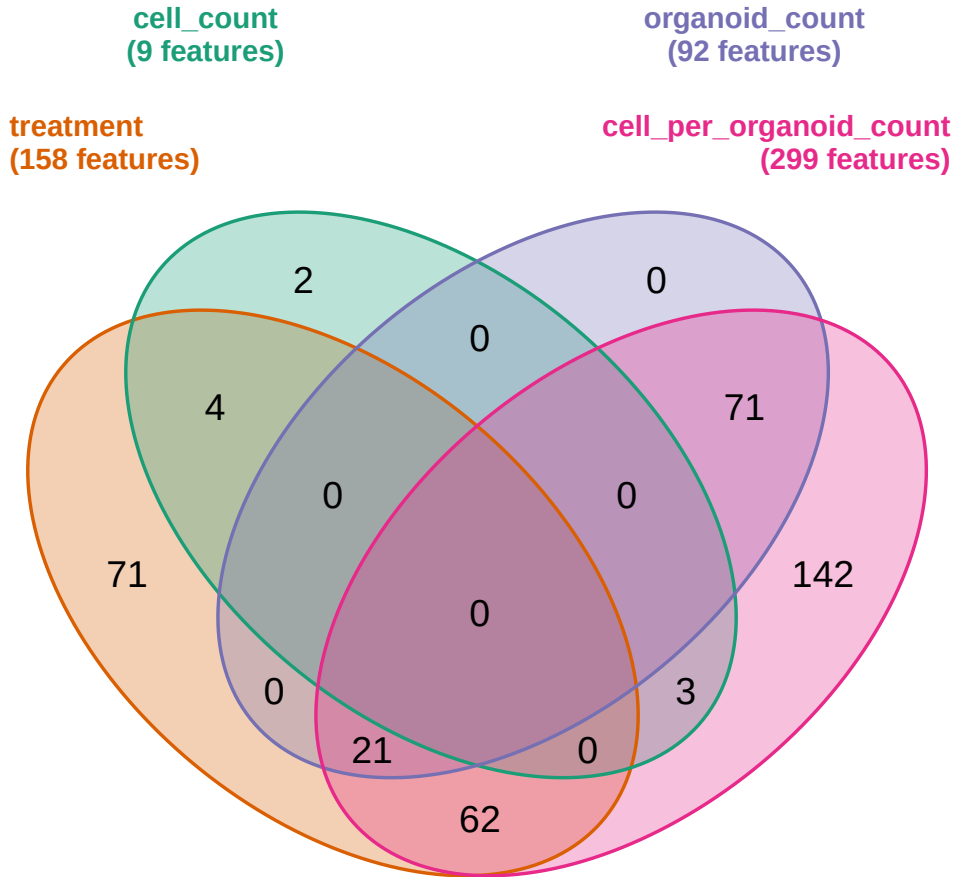

Features that are significant for each variate (treatment=Linsitinib_1uM, tumor_type=cNF)
74 of 534 features are significant for none of these 4 variates

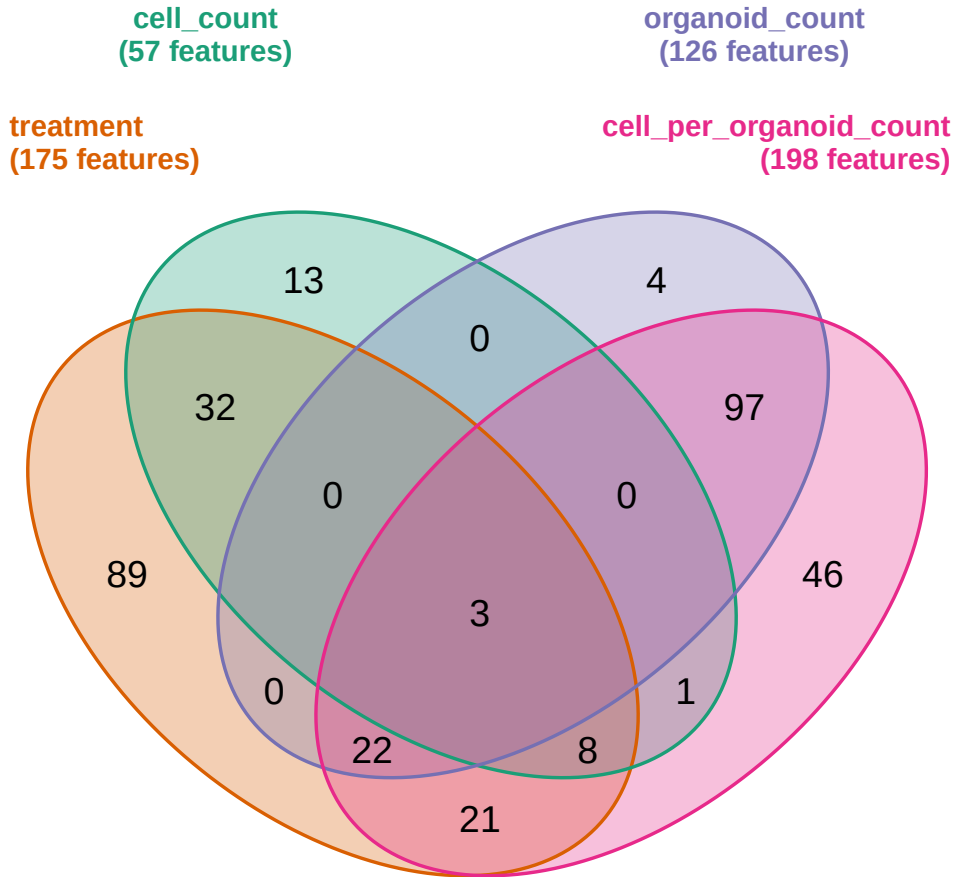

Features that are significant for each variate (treatment=Linsitinib_1uM, tumor_type=pNF)
113 of 534 features are significant for none of these 4 variates

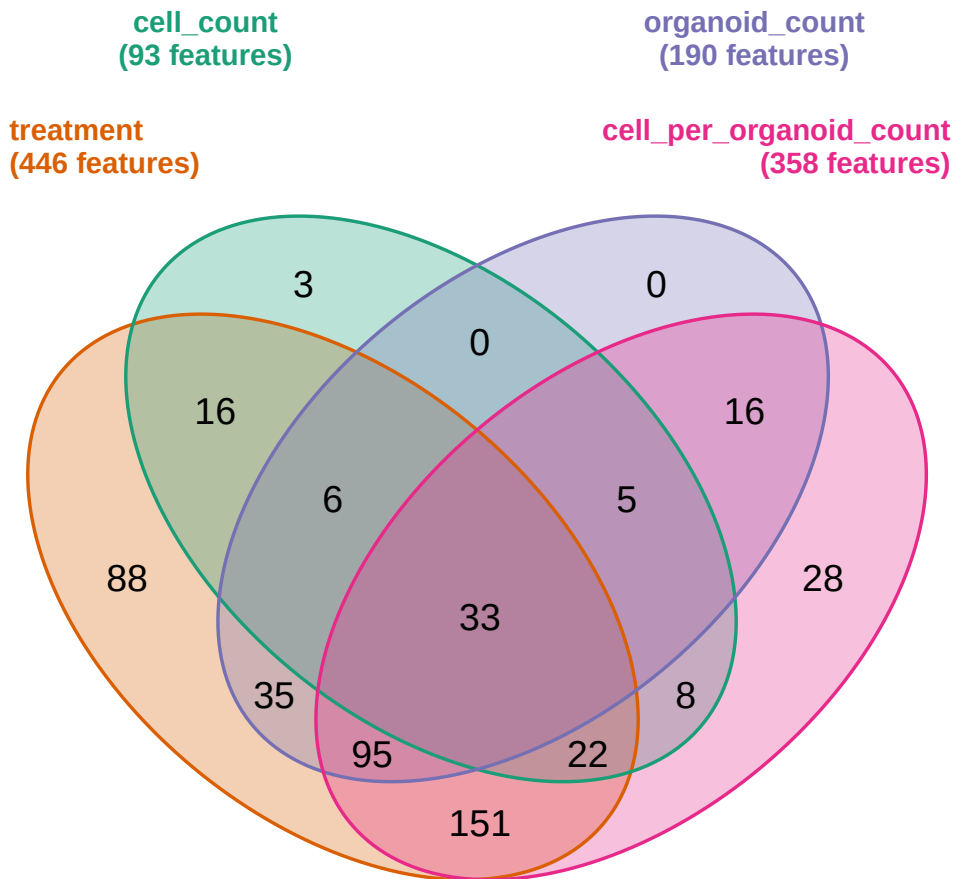

Features that are significant for each variate (treatment=Mirdametinib_10uM, tumor_type=MPNS)
158 of 534 features are significant for none of these 4 variates

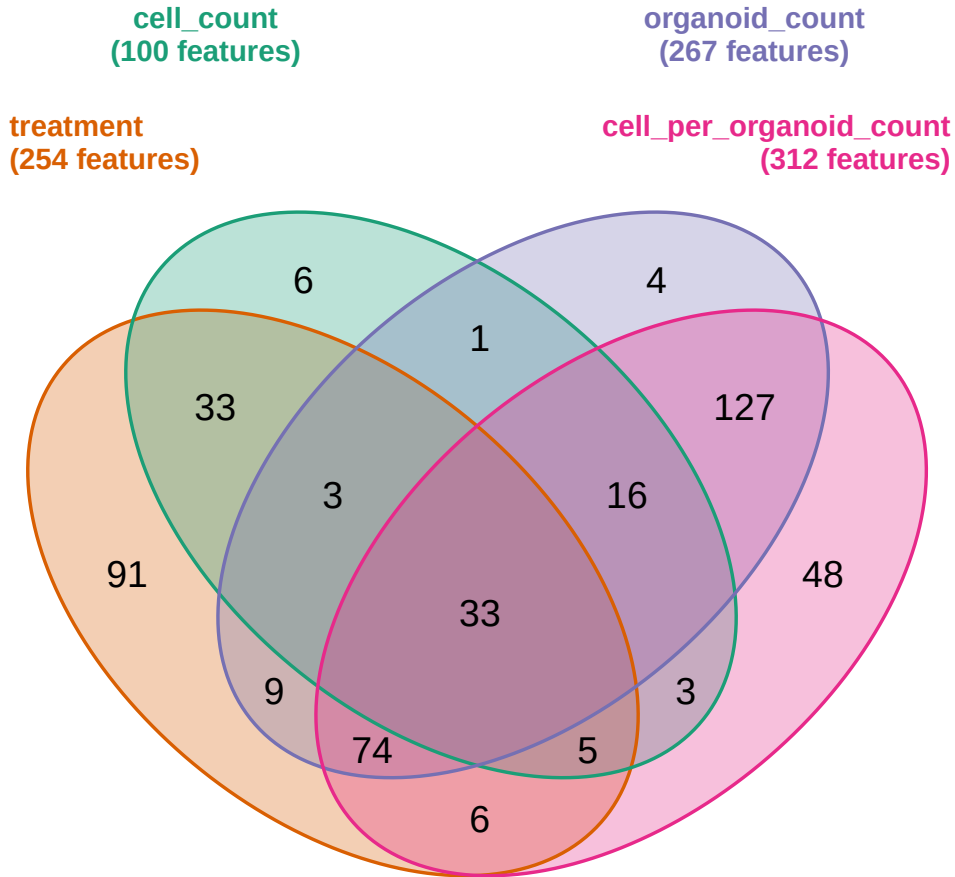

Features that are significant for each variate (treatment=Mirdametinib_10uM, tumor_type=Other)
198 of 534 features are significant for none of these 4 variates

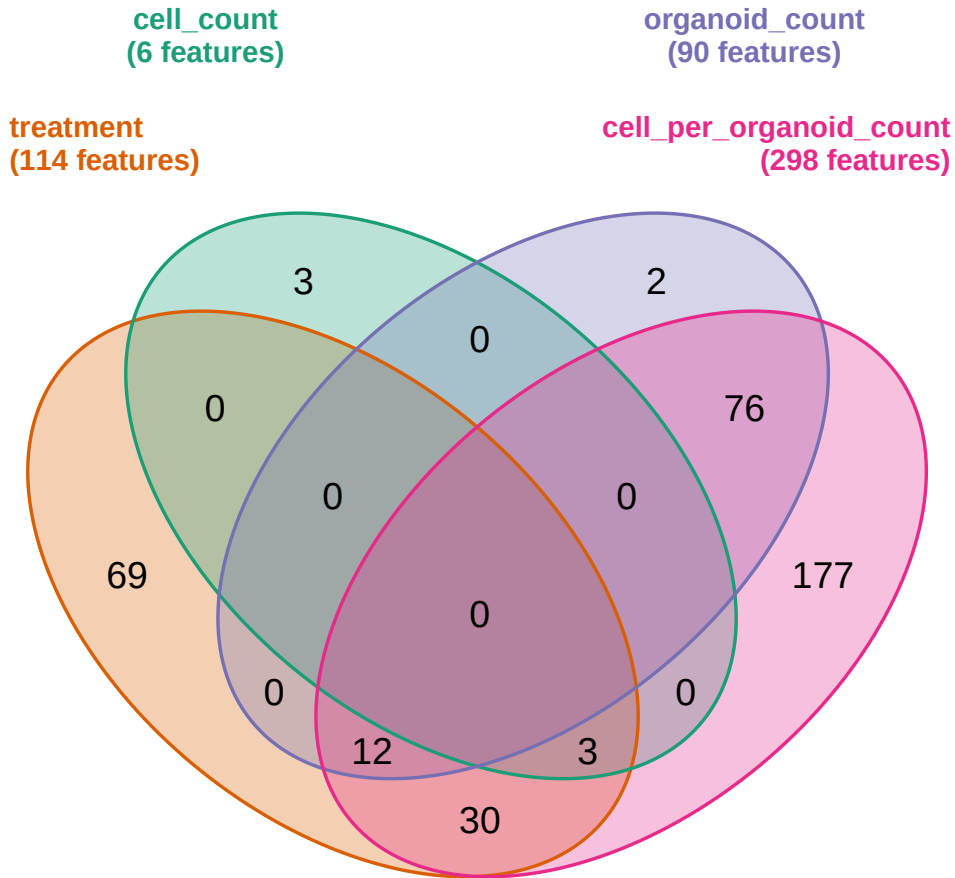

Features that are significant for each variate (treatment=Mirdametinib_10uM, tumor_type=cNF)
28 of 534 features are significant for none of these 4 variates

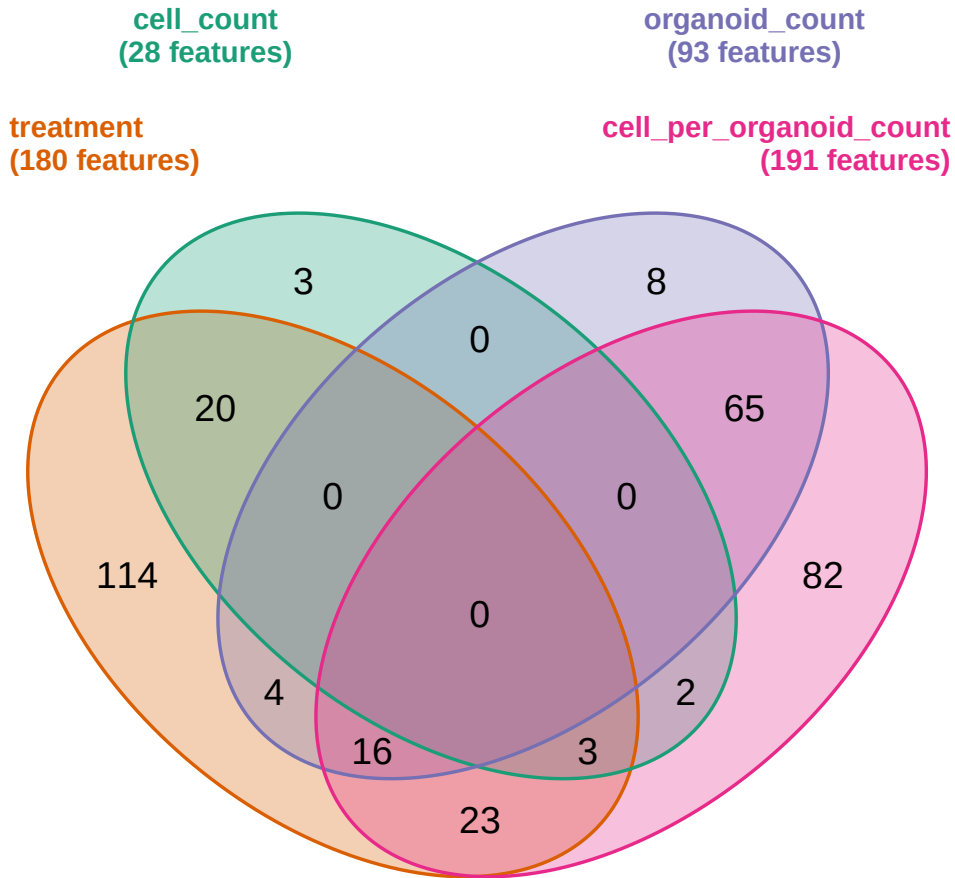

Features that are significant for each variate (treatment=Mirdametinib_10uM, tumor_type=pNF)
75 of 534 features are significant for none of these 4 variates

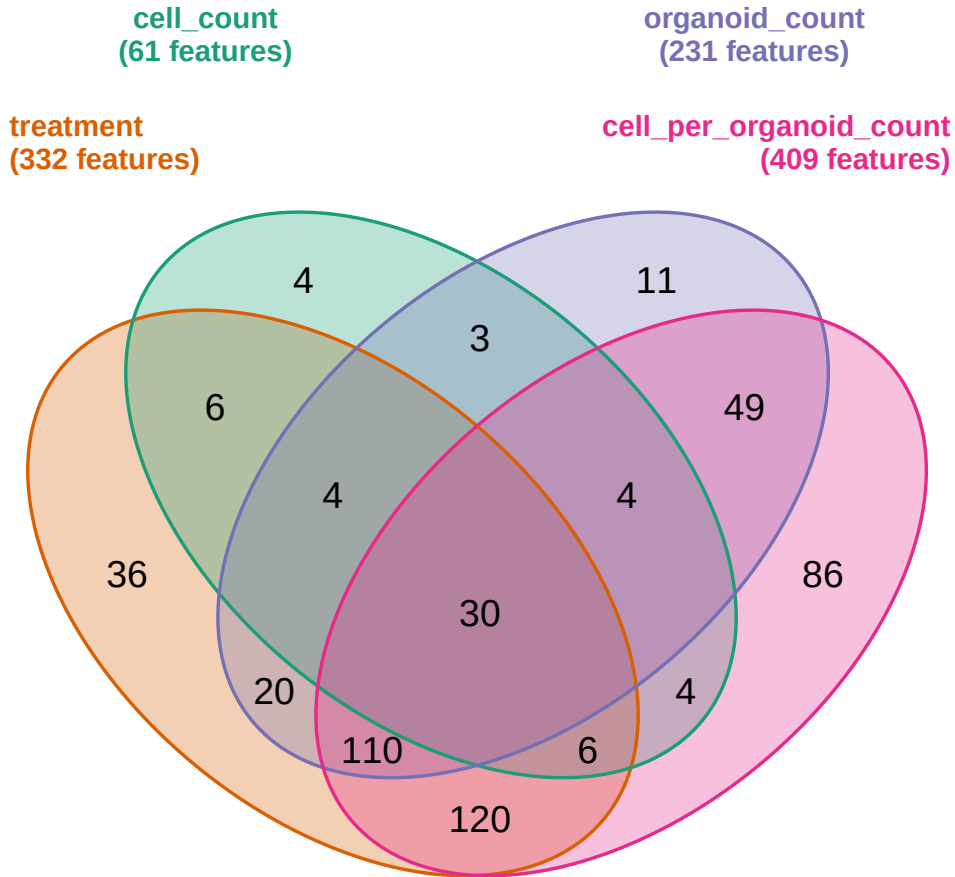

Features that are significant for each variate (treatment=Mirdametinib_1uM, tumor_type=MPNST)
162 of 534 features are significant for none of these 4 variates

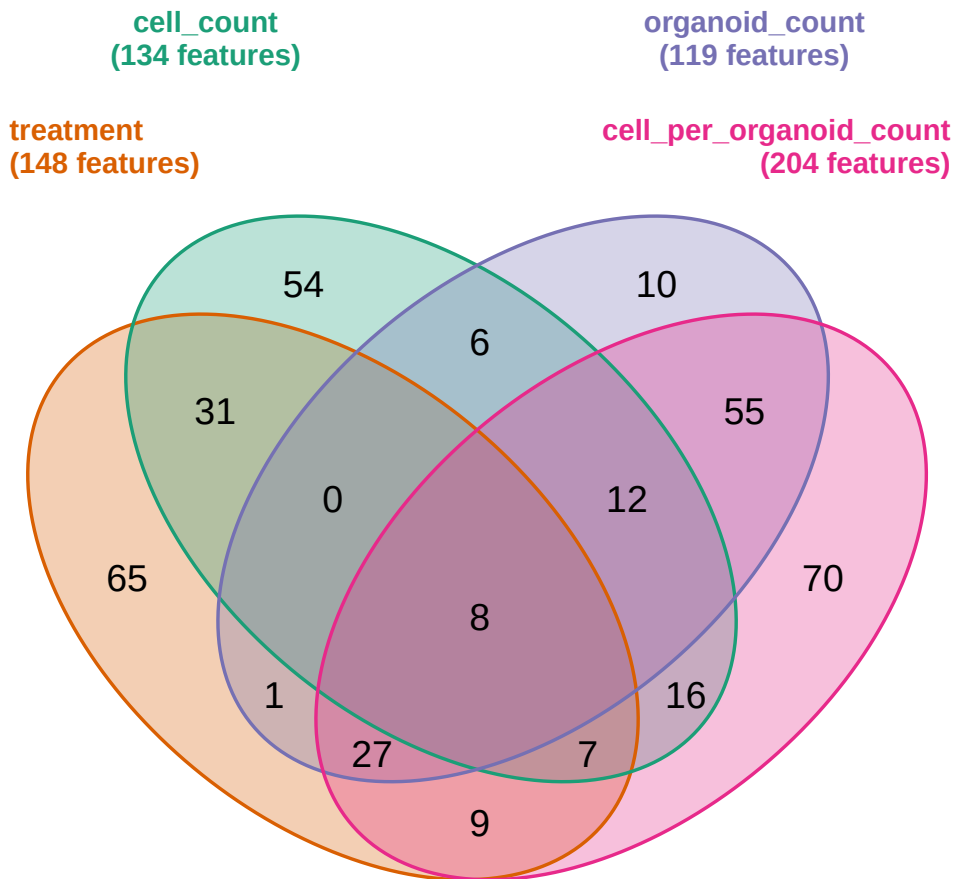

Features that are significant for each variate (treatment=Mirdametinib_1uM, tumor_type=Other)
194 of 534 features are significant for none of these 4 variates

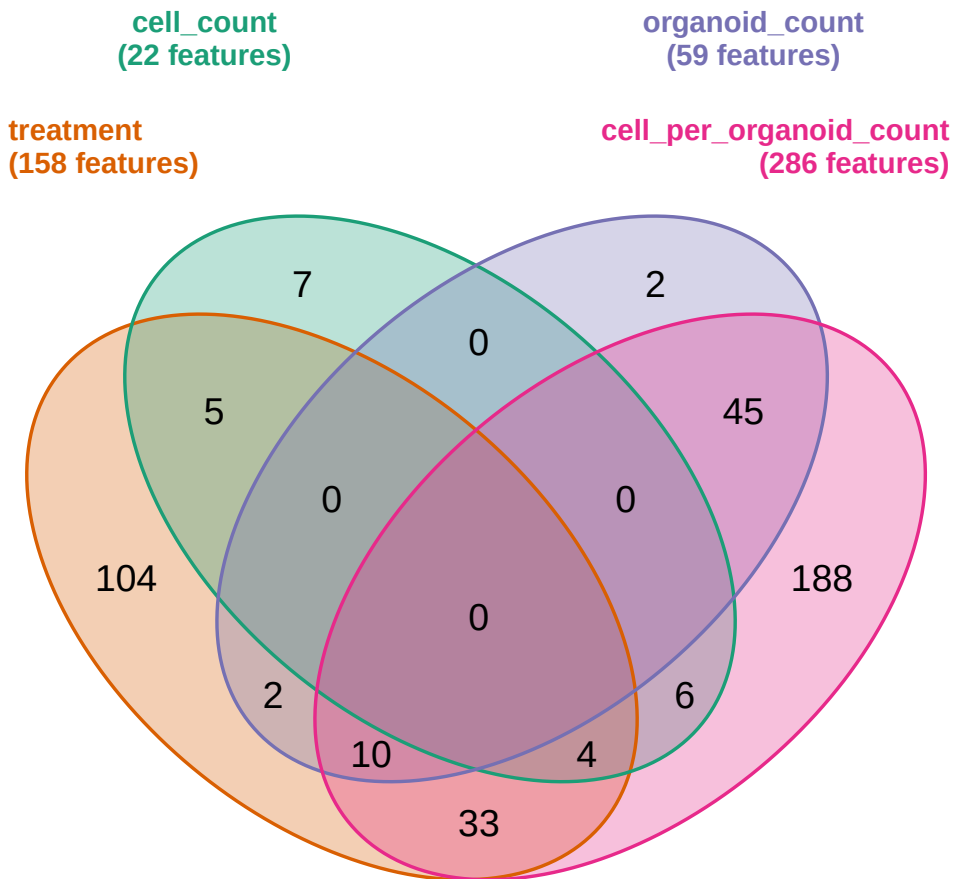

Features that are significant for each variate (treatment=Mirdametinib_1uM, tumor_type=cNF)
41 of 534 features are significant for none of these 4 variates

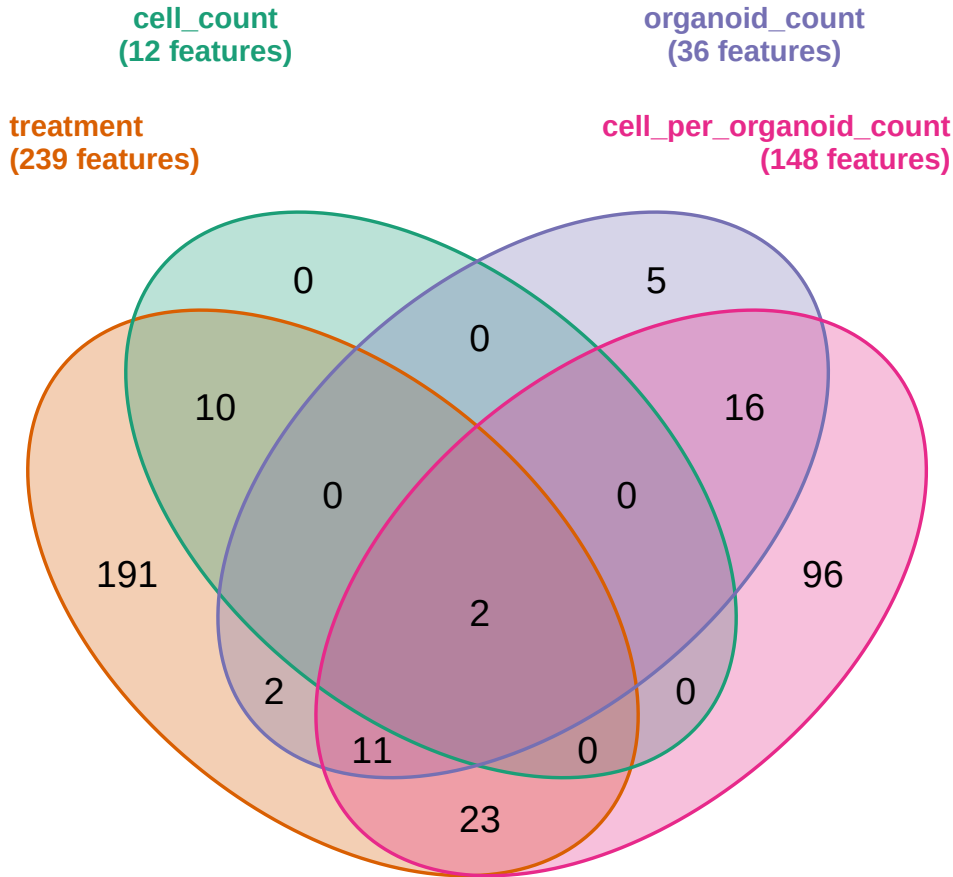

Features that are significant for each variate (treatment=Mirdametinib_1uM, tumor_type=pNF)
163 of 534 features are significant for none of these 4 variates

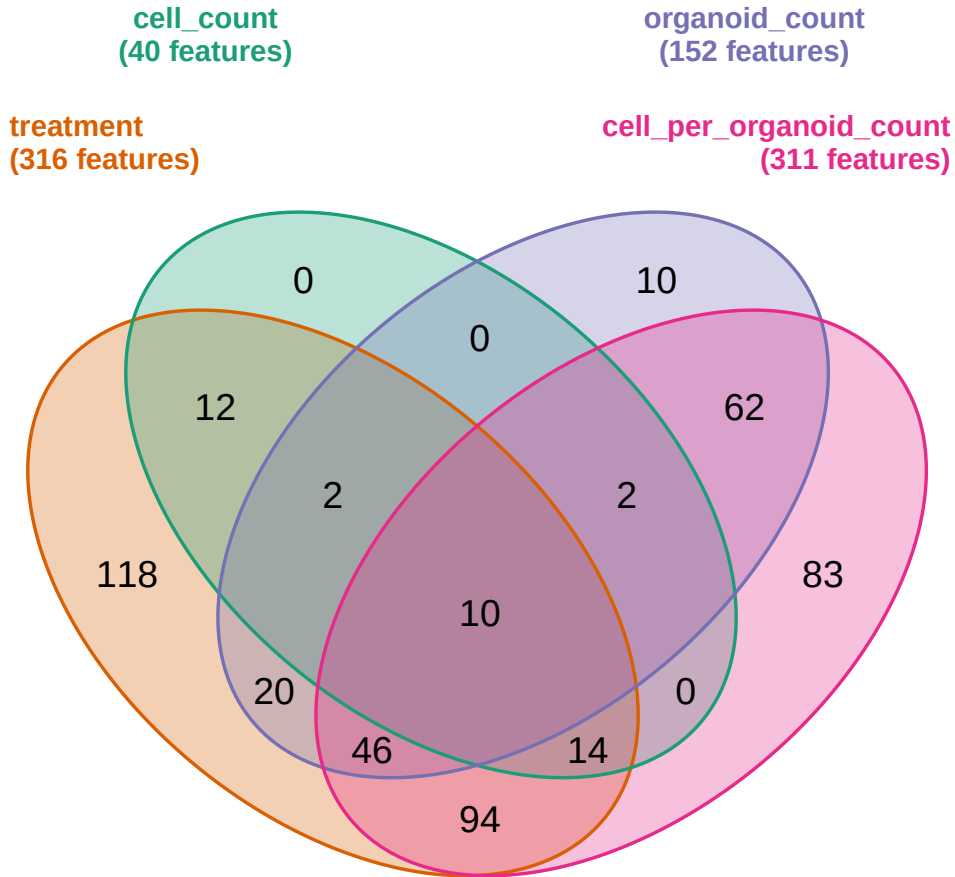

Features that are significant for each variate (treatment=Nilotinib_1uM, tumor_type=MPNST)
128 of 534 features are significant for none of these 4 variates

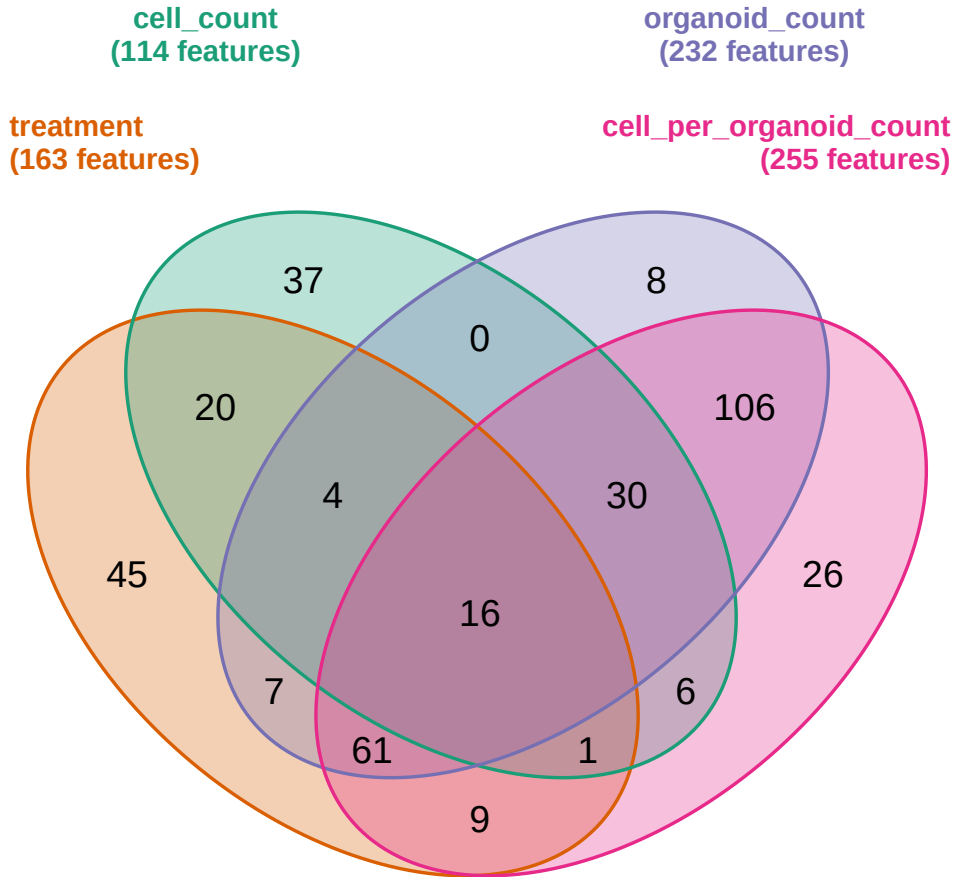

Features that are significant for each variate (treatment=Nilotinib_1uM, tumor_type=Other)
178 of 534 features are significant for none of these 4 variates

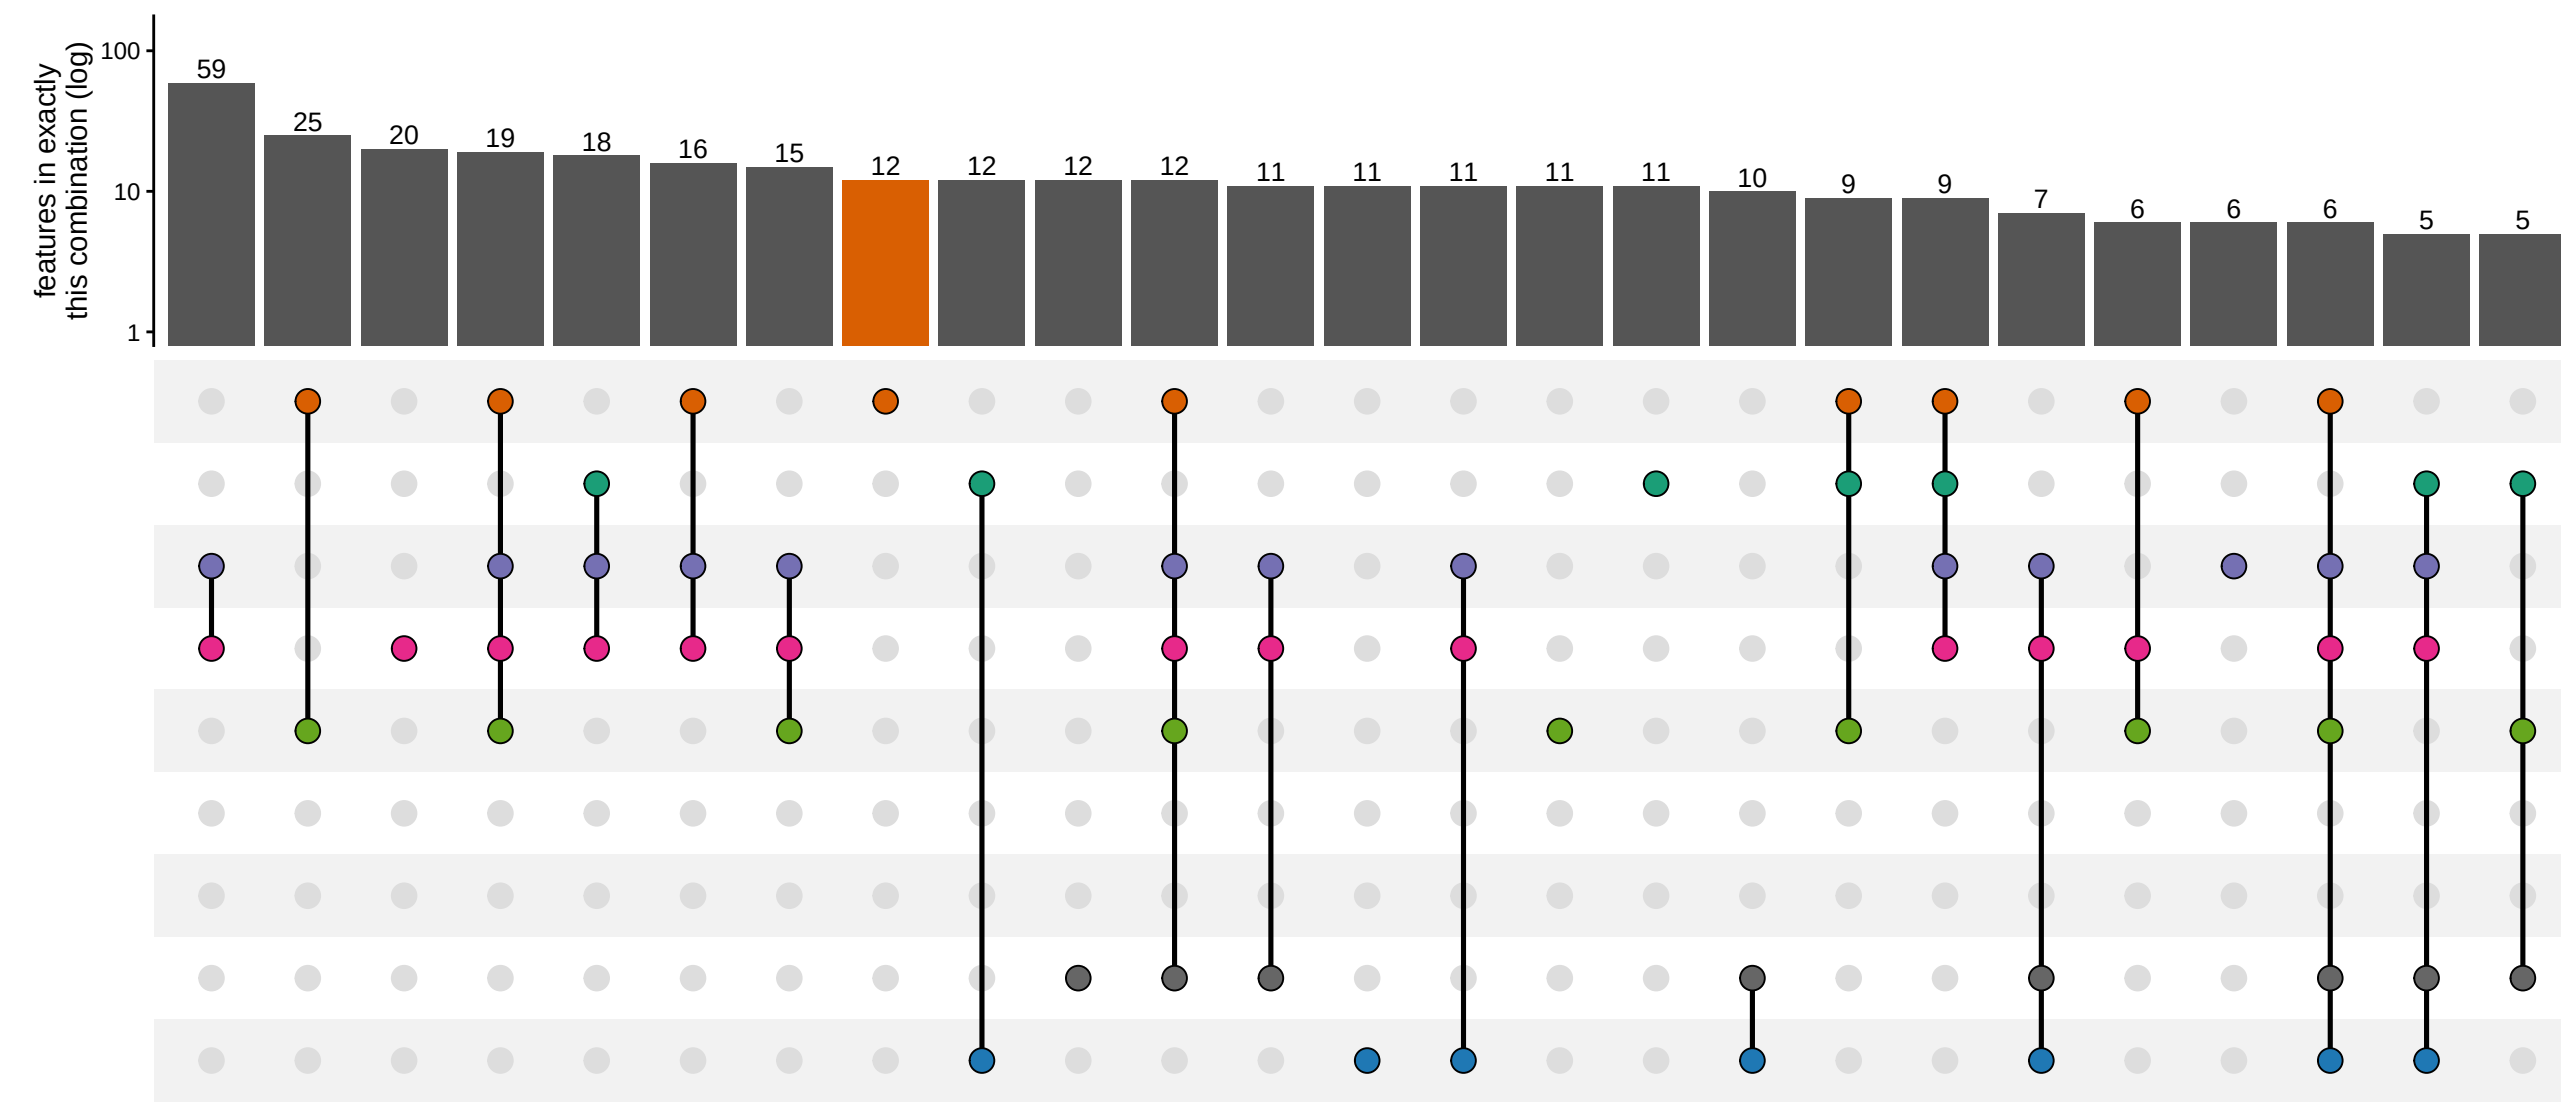

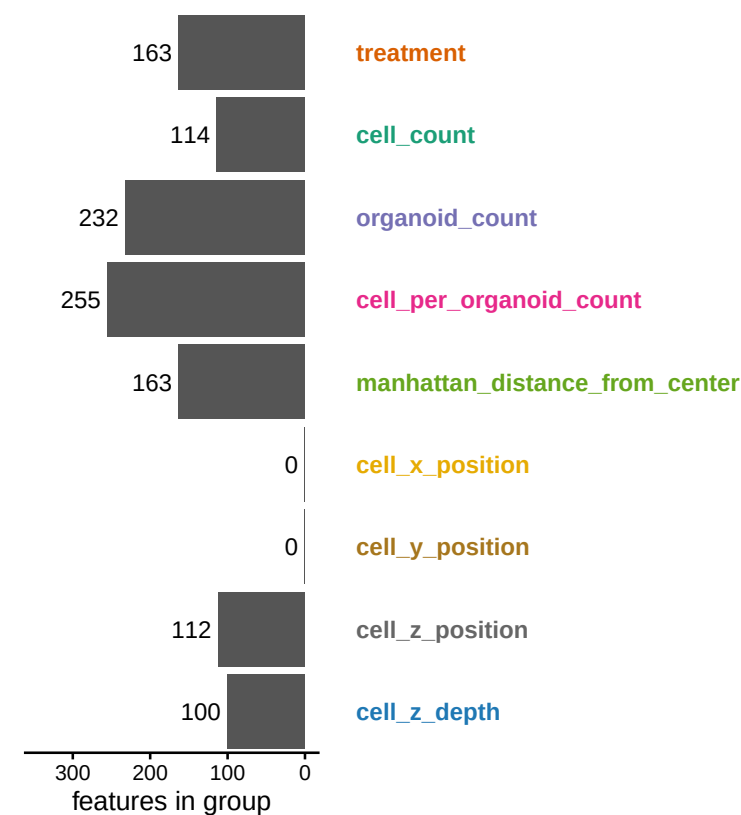

Features that are significant for each variate (treatment=Nilotinib_1uM, tumor_type=cNF)
61 of 534 features are significant for none of these 4 variates

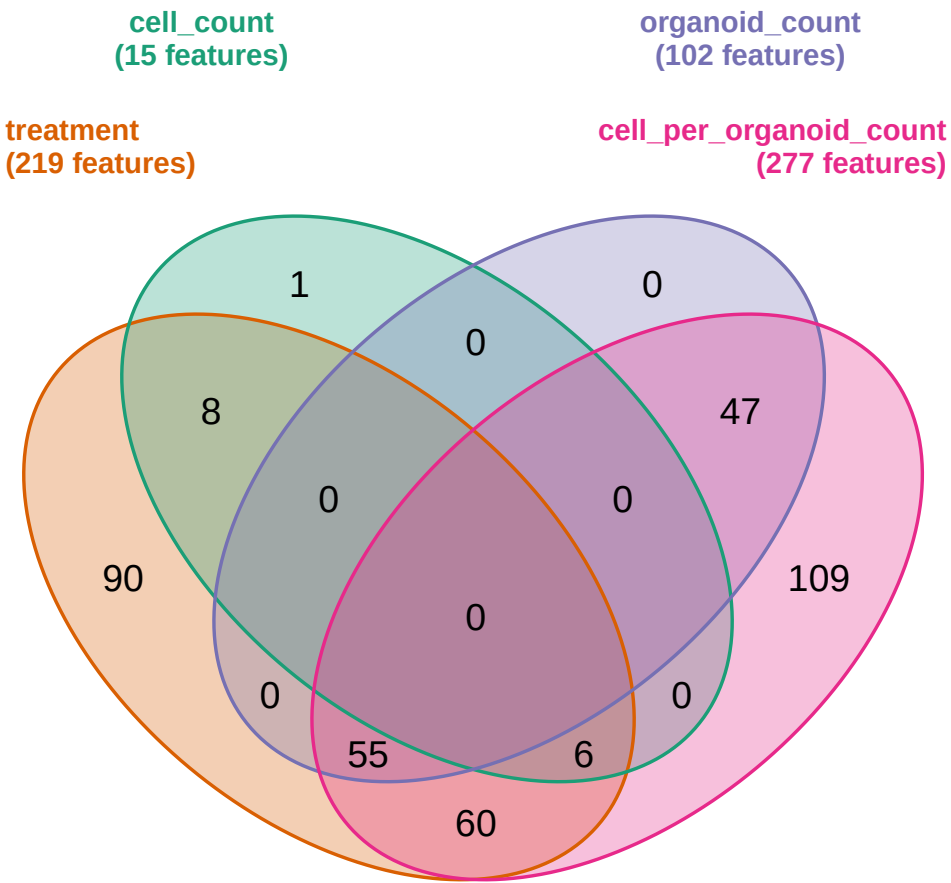

Features that are significant for each variate (treatment=Nilotinib_1uM, tumor_type=pNF)
158 of 534 features are significant for none of these 4 variates

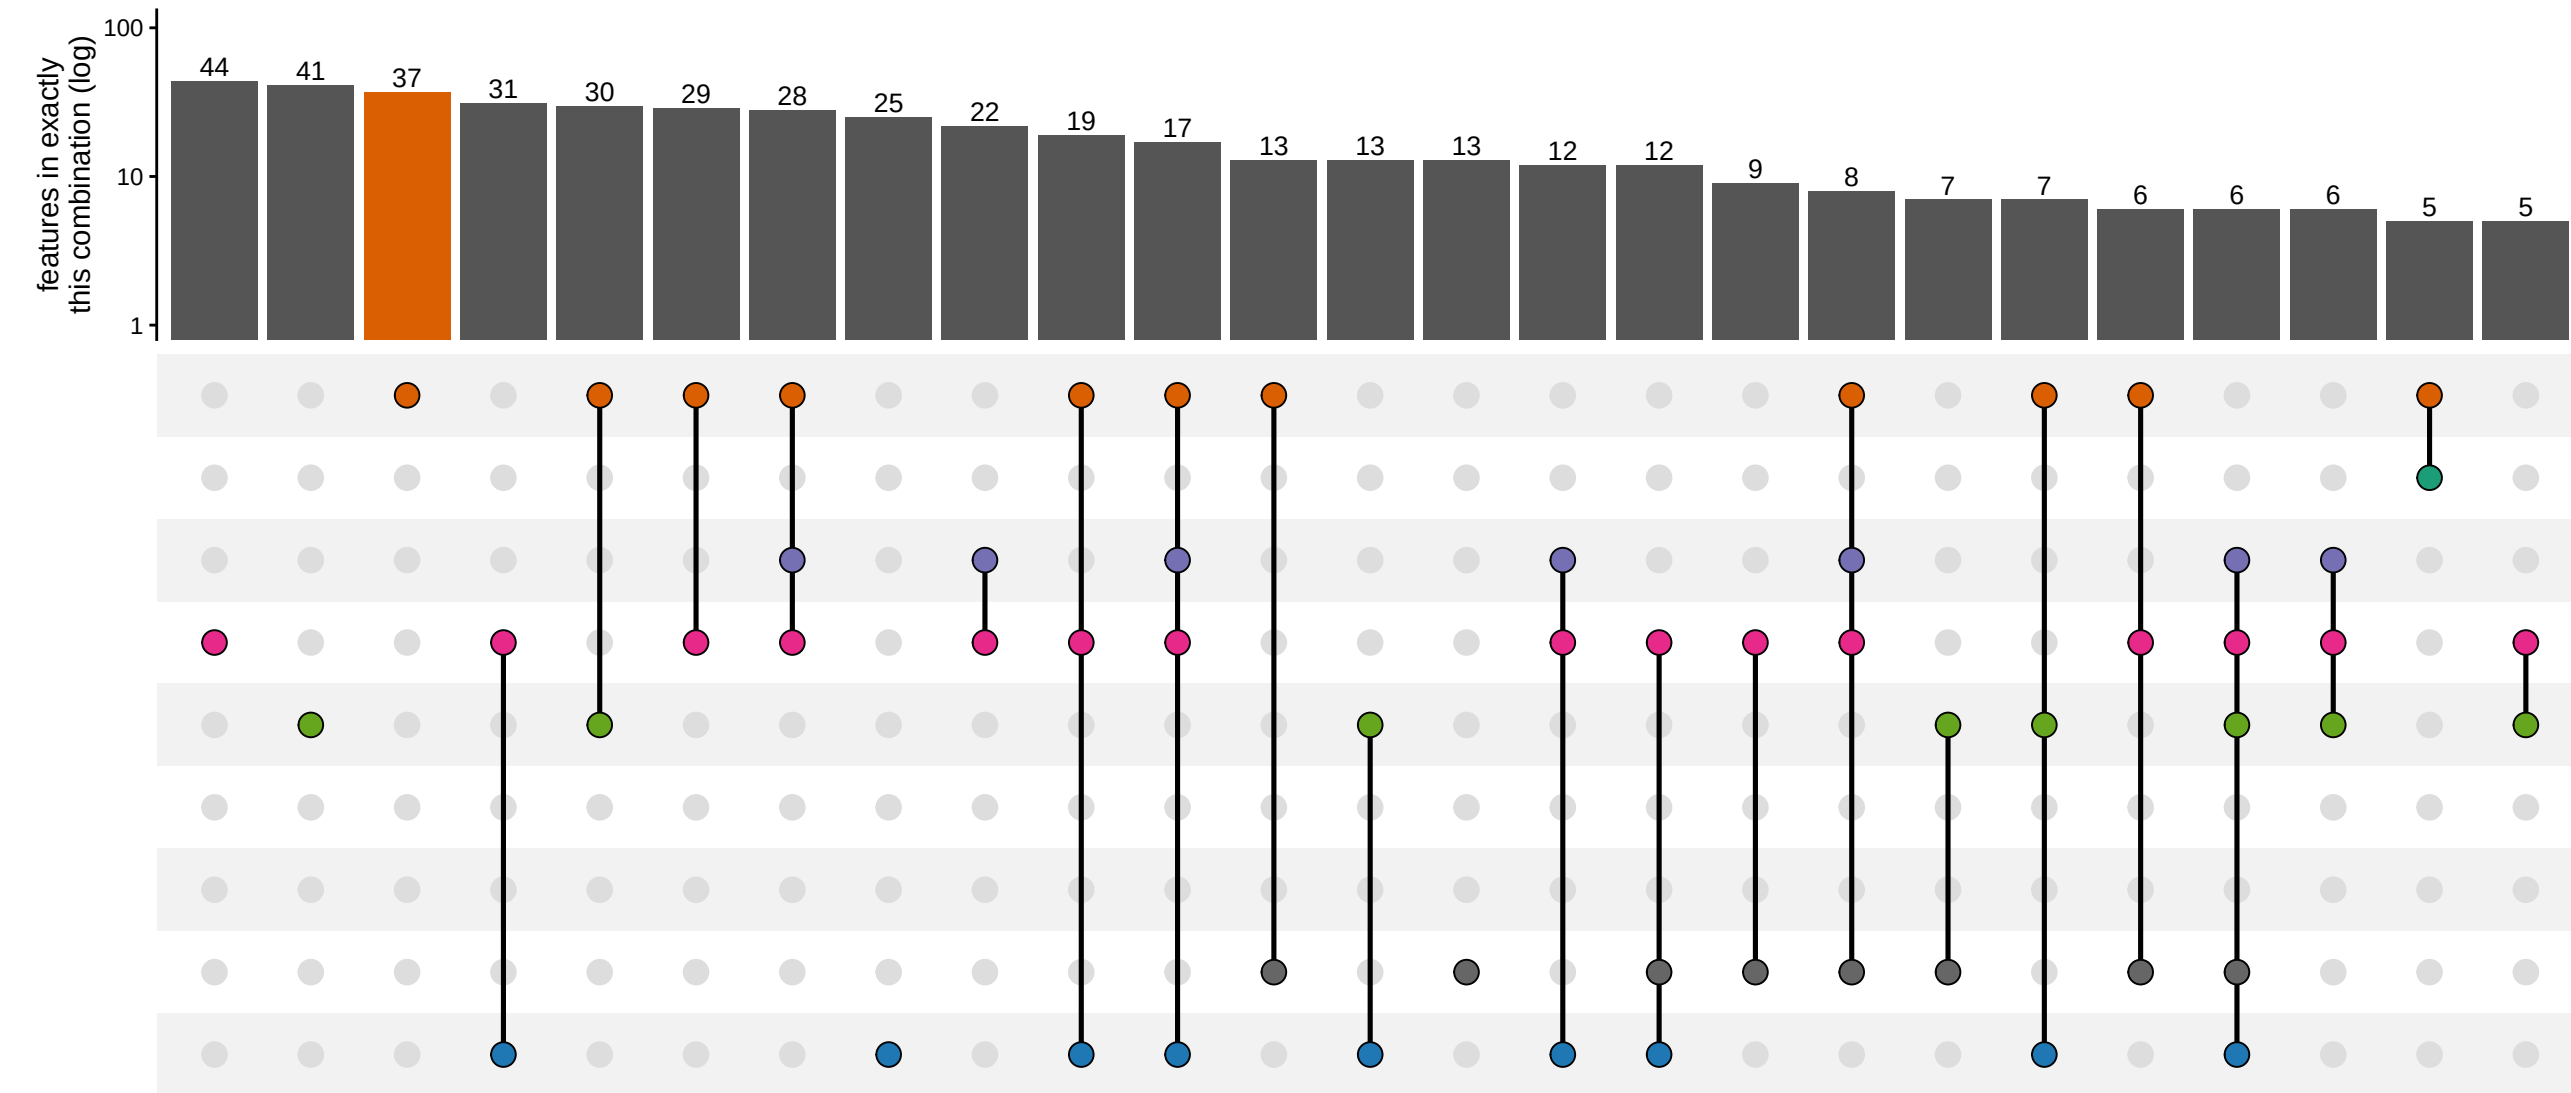

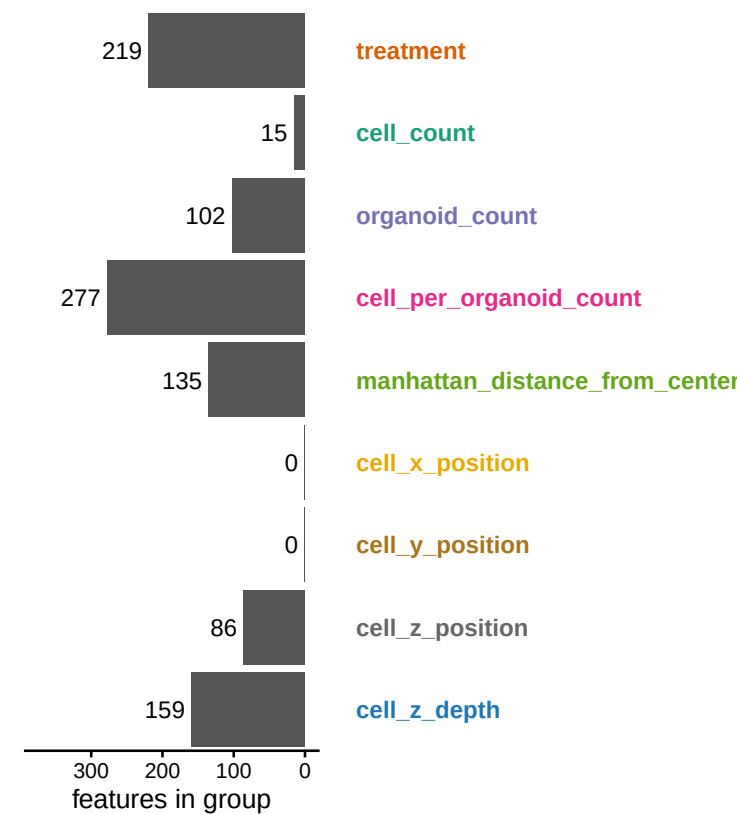

Feature membership across variate groups, treatment=Nilotinib_1uM, tumor_type=pNF (top 25 of 63 combinations; orange = treatment only)

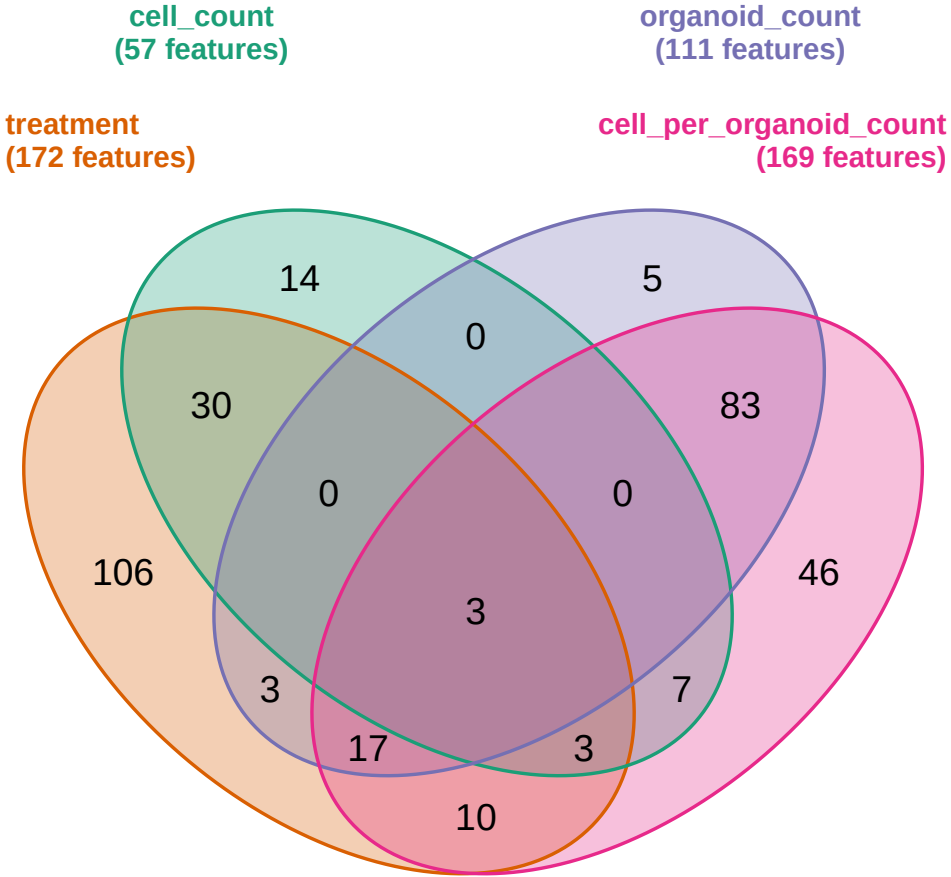

Features that are significant for each variate (treatment=Onalespib_1uM, tumor_type=MPNST)
158 of 534 features are significant for none of these 4 variates

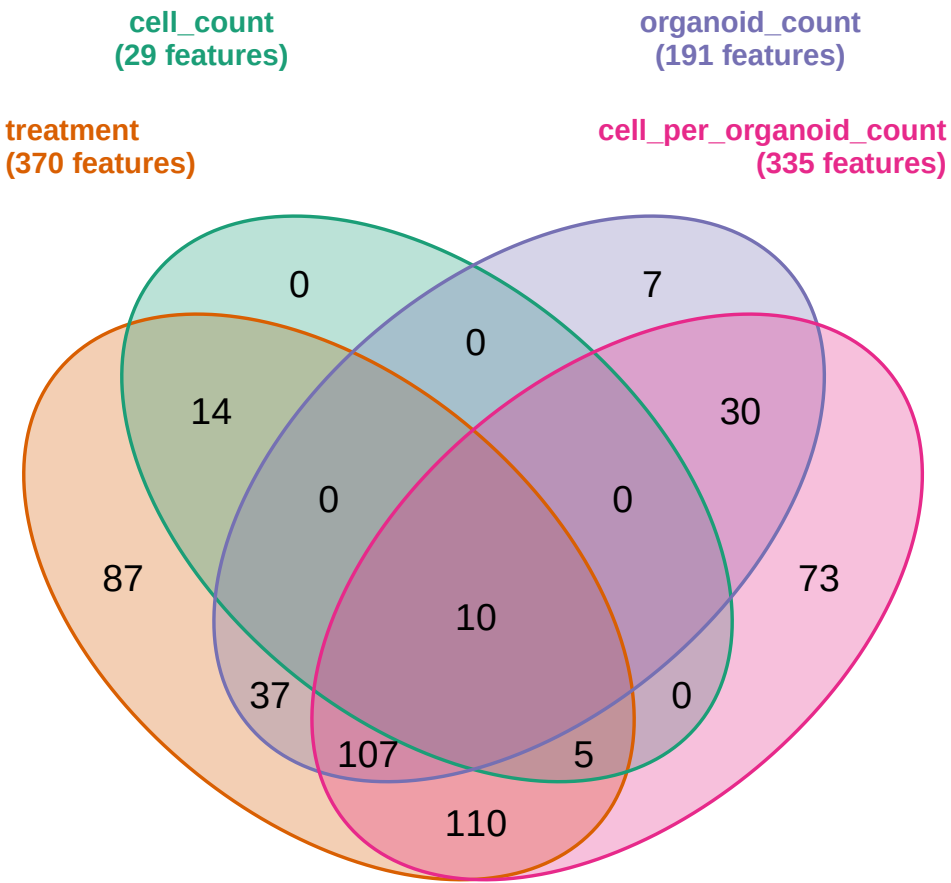

Feature membership across variate groups, treatment=Onalespib_1uM, tumor_type=MPNST (top 25 of 39 combinations; orange = treatment only)

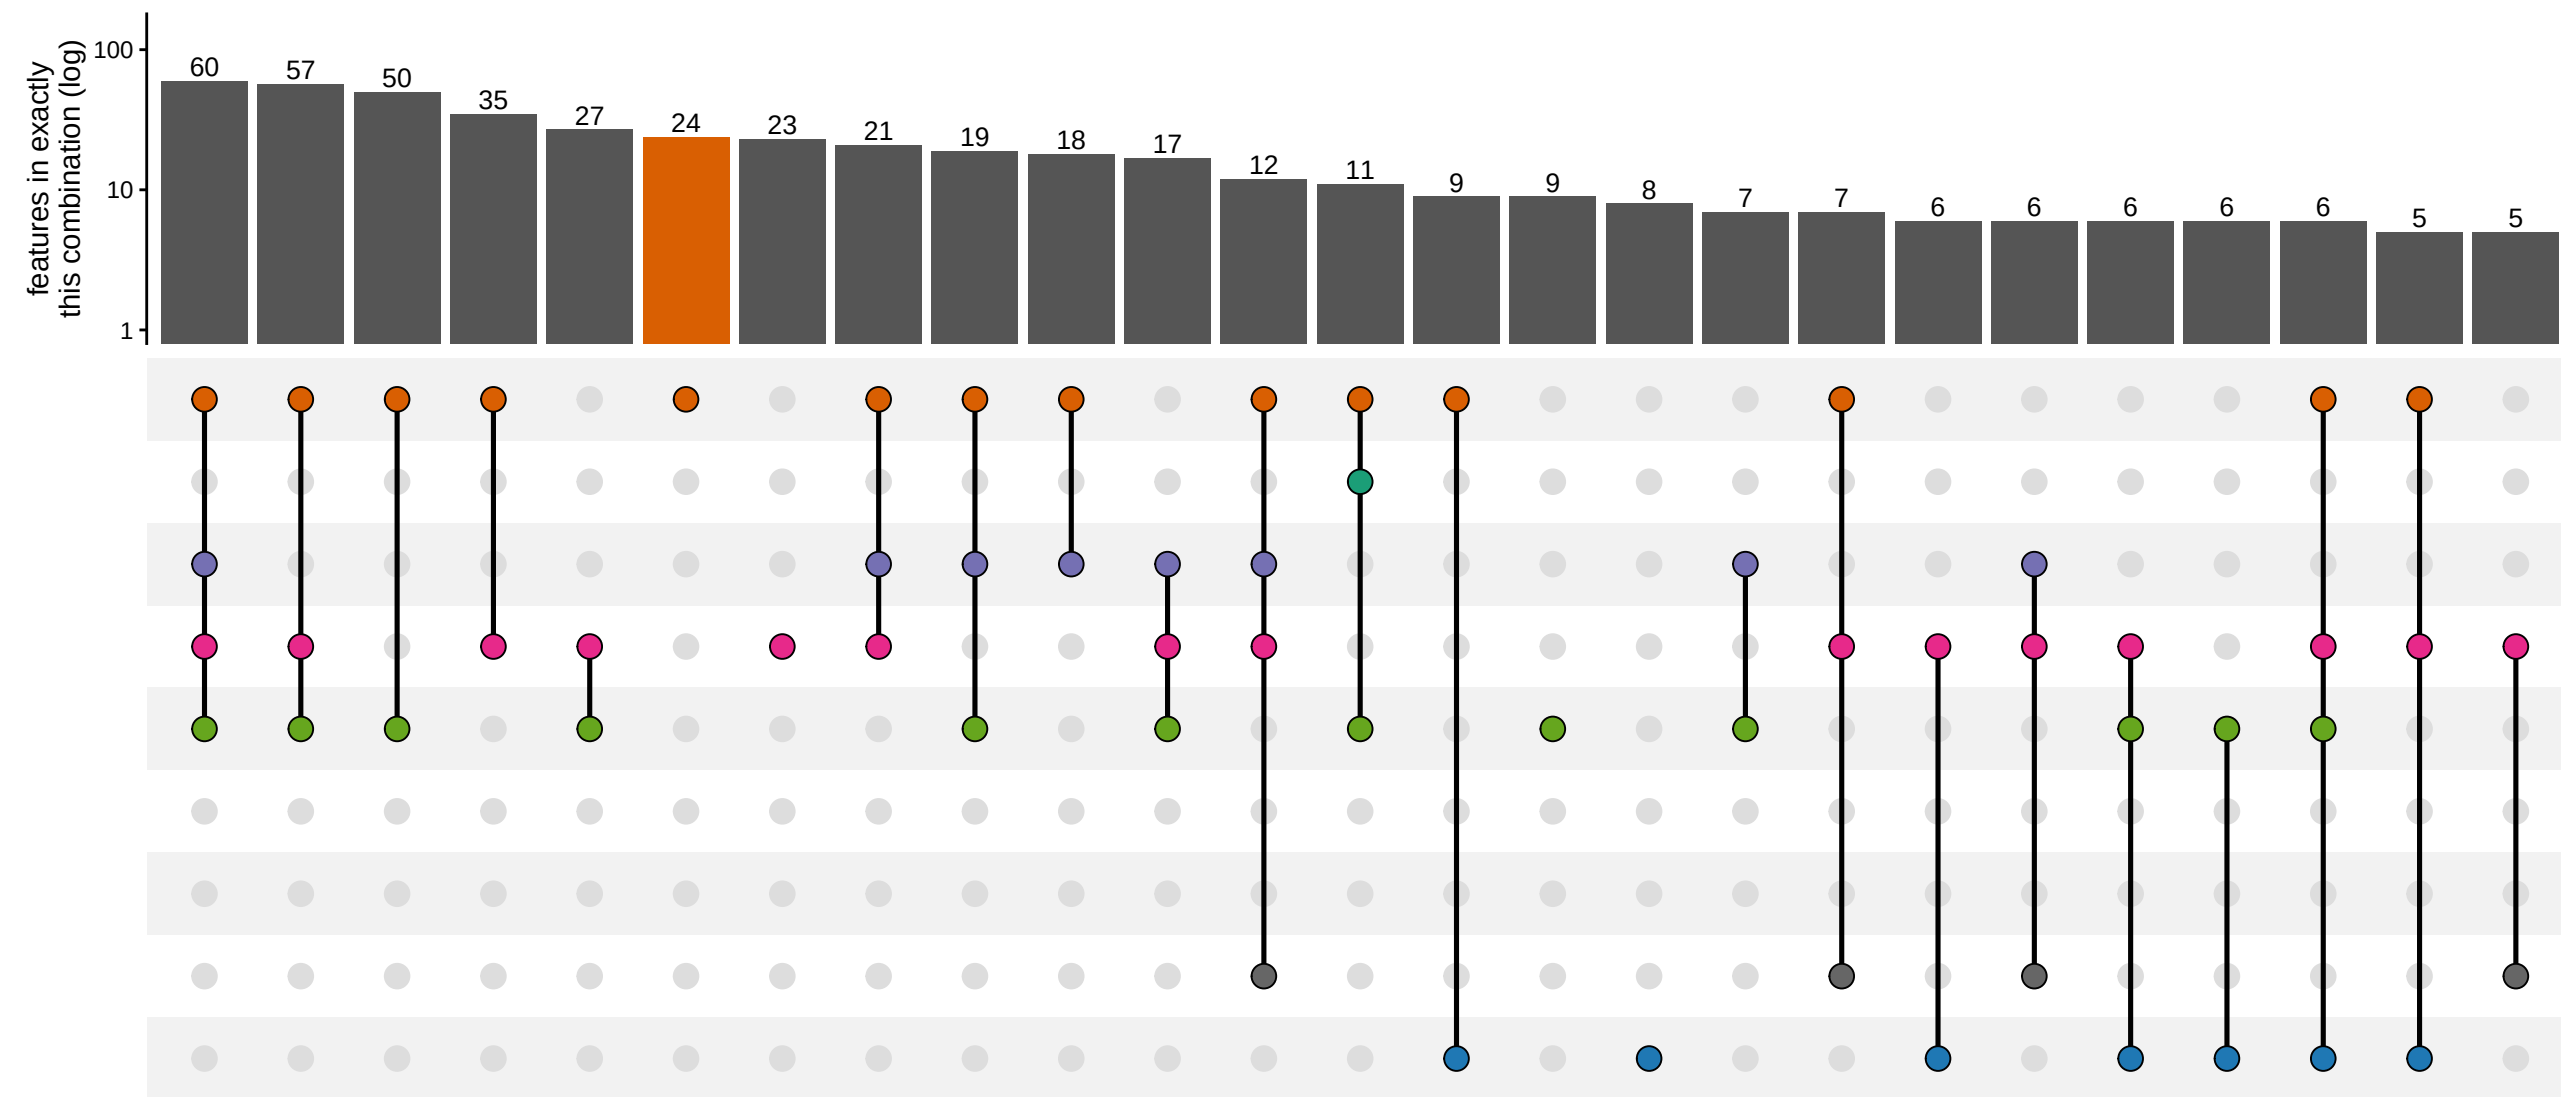

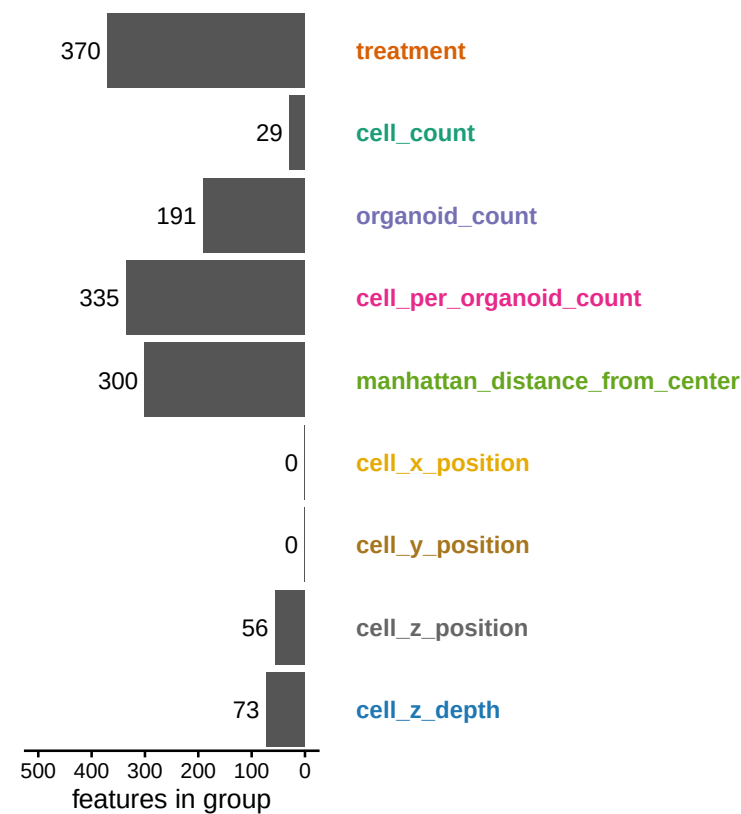

Features that are significant for each variate (treatment=Onalespib_1uM, tumor_type=Other)
207 of 534 features are significant for none of these 4 variates

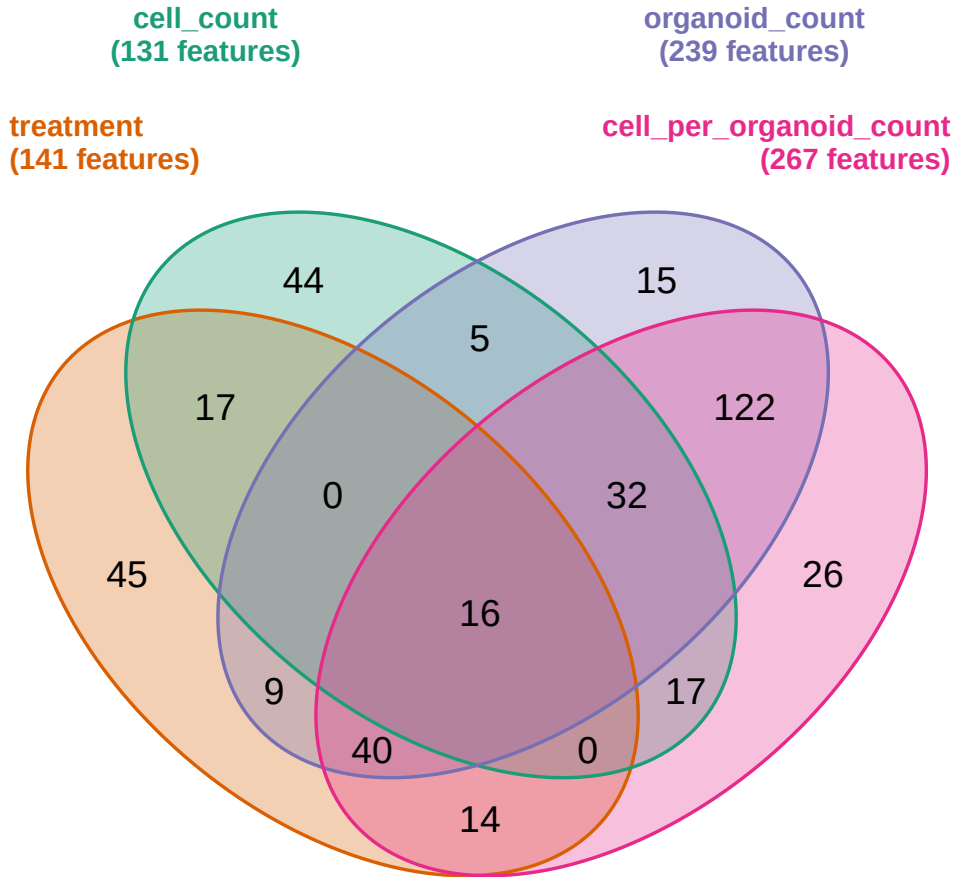

Features that are significant for each variate (treatment=Onalespib_1uM, tumor_type=cNF)
54 of 534 features are significant for none of these 4 variates

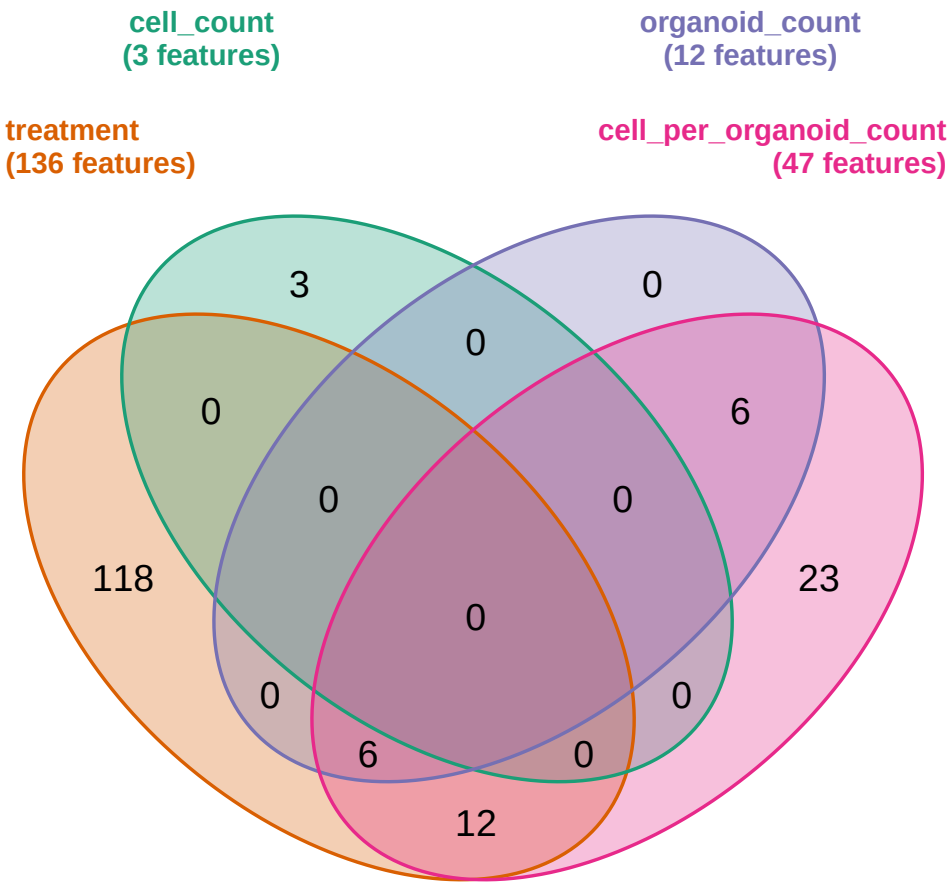

Feature membership across variate groups, treatment=Onalespib_1uM, tumor_type=cNF (top 25 of 49 combinations; orange = treatment only)

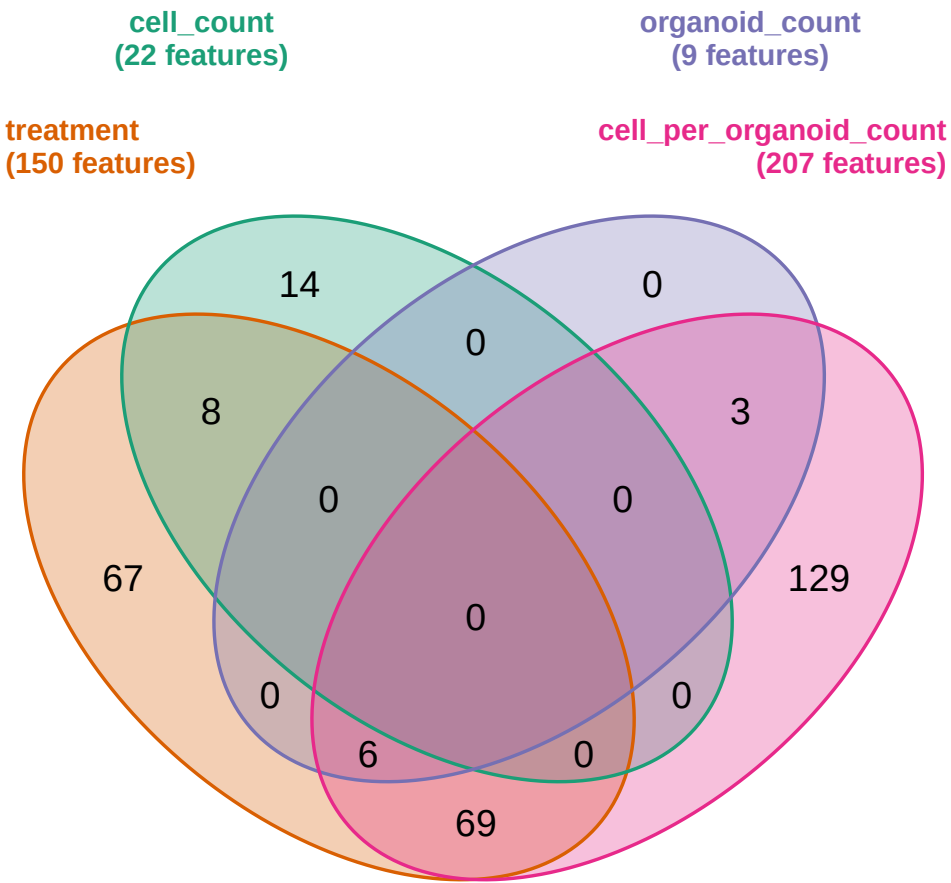

Features that are significant for each variate (treatment=Onalespib_1uM, tumor_type=pNF)
132 of 534 features are significant for none of these 4 variates

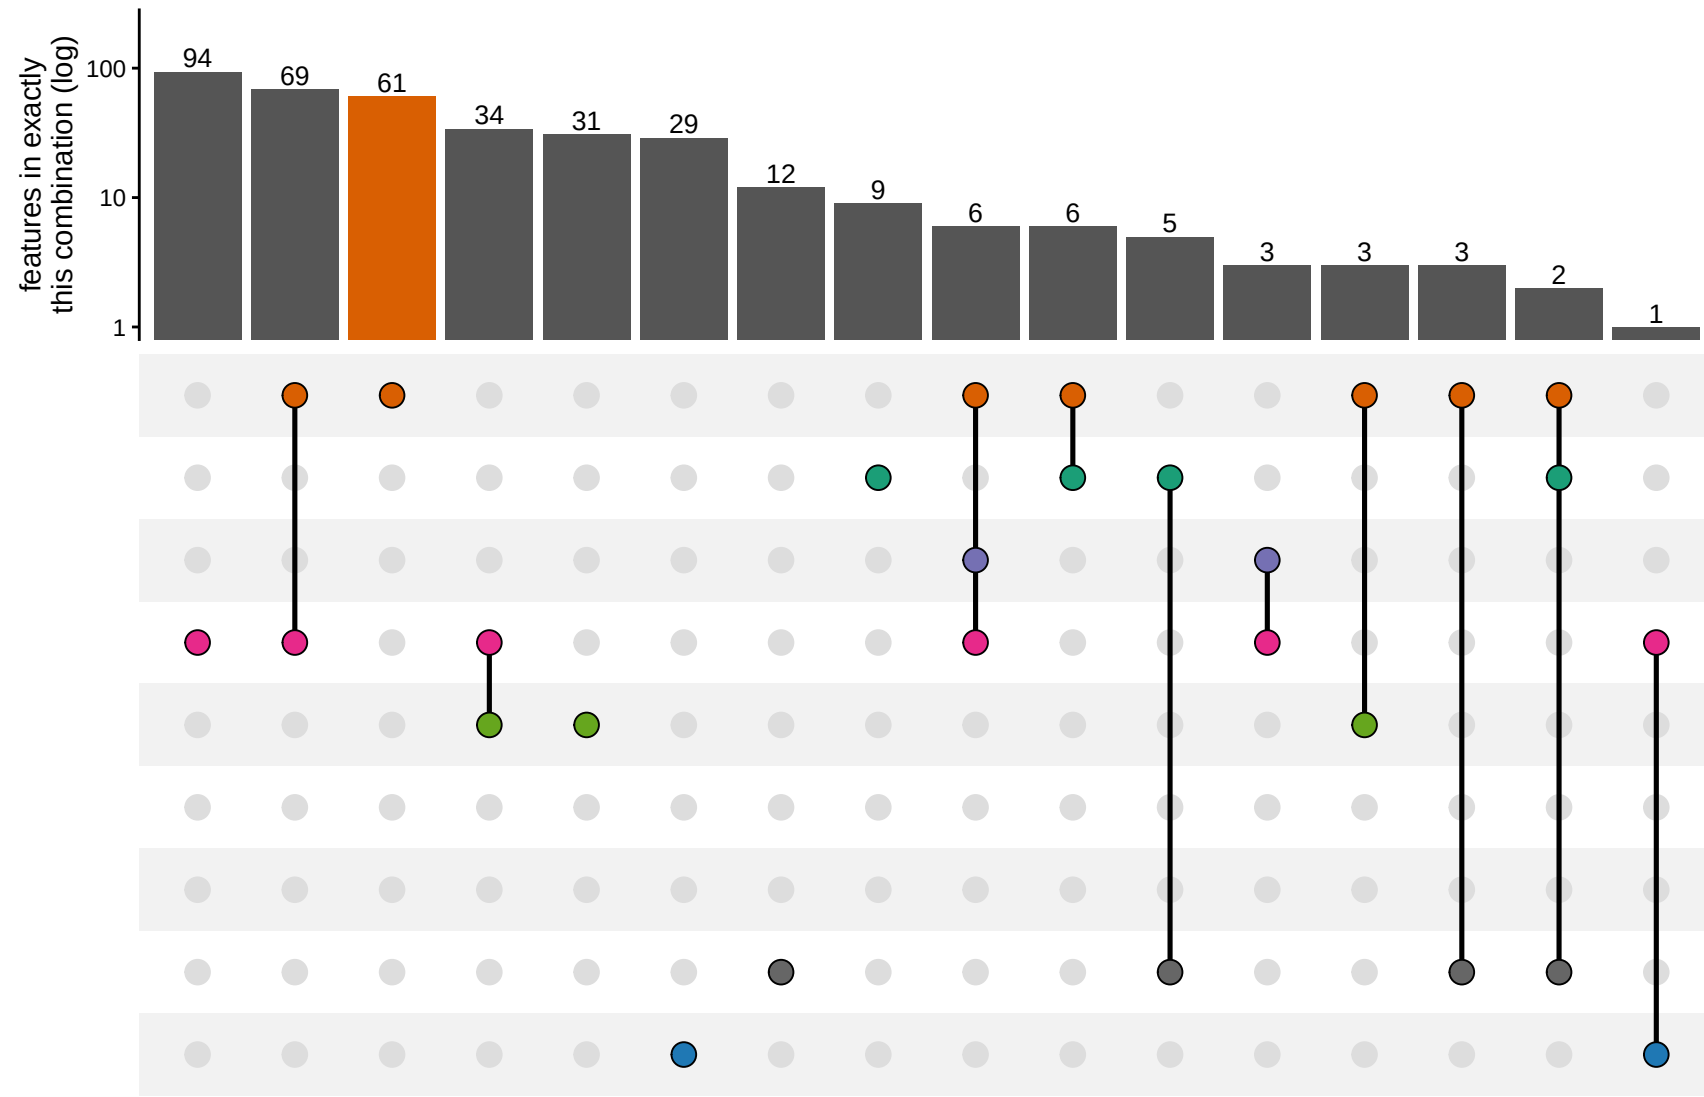

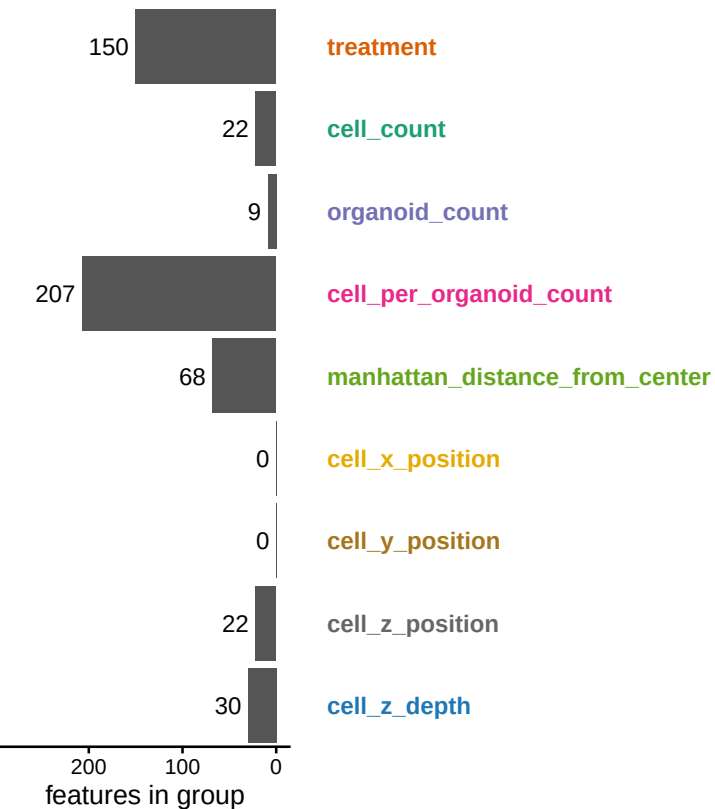

Features that are significant for each variate (treatment=Panobinostat_1uM, tumor_type=Other)
366 of 534 features are significant for none of these 4 variates

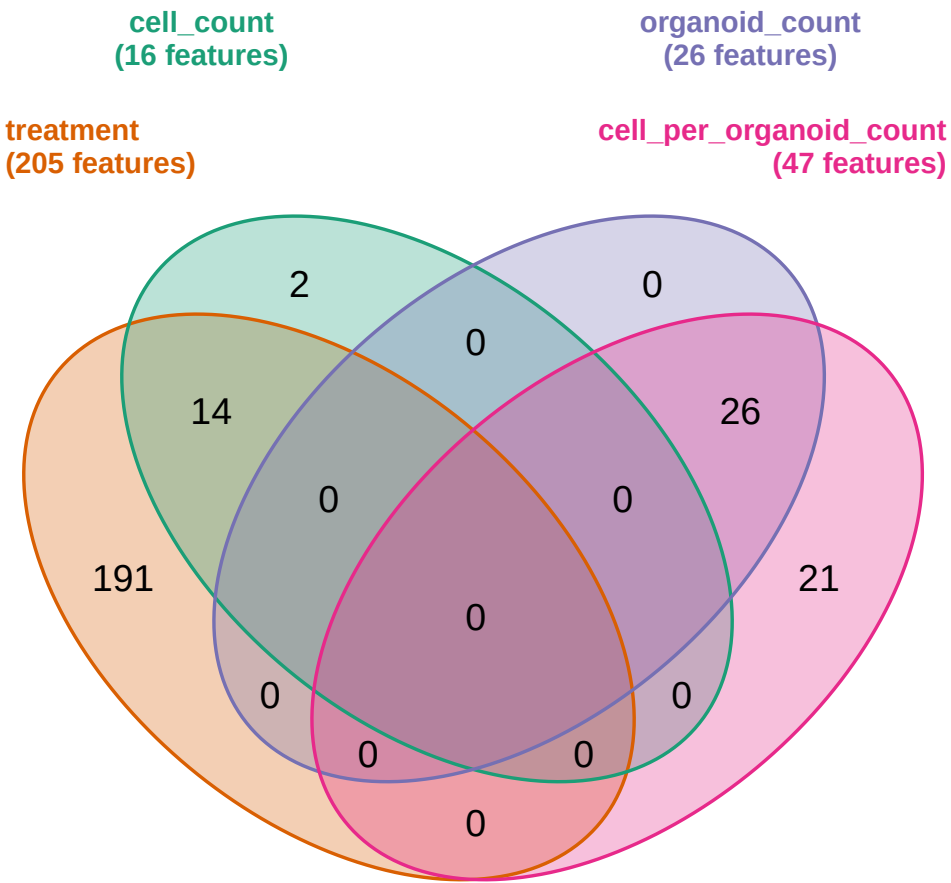

Features that are significant for each variate (treatment=Panobinostat_1uM, tumor_type=cNF)
238 of 534 features are significant for none of these 4 variates

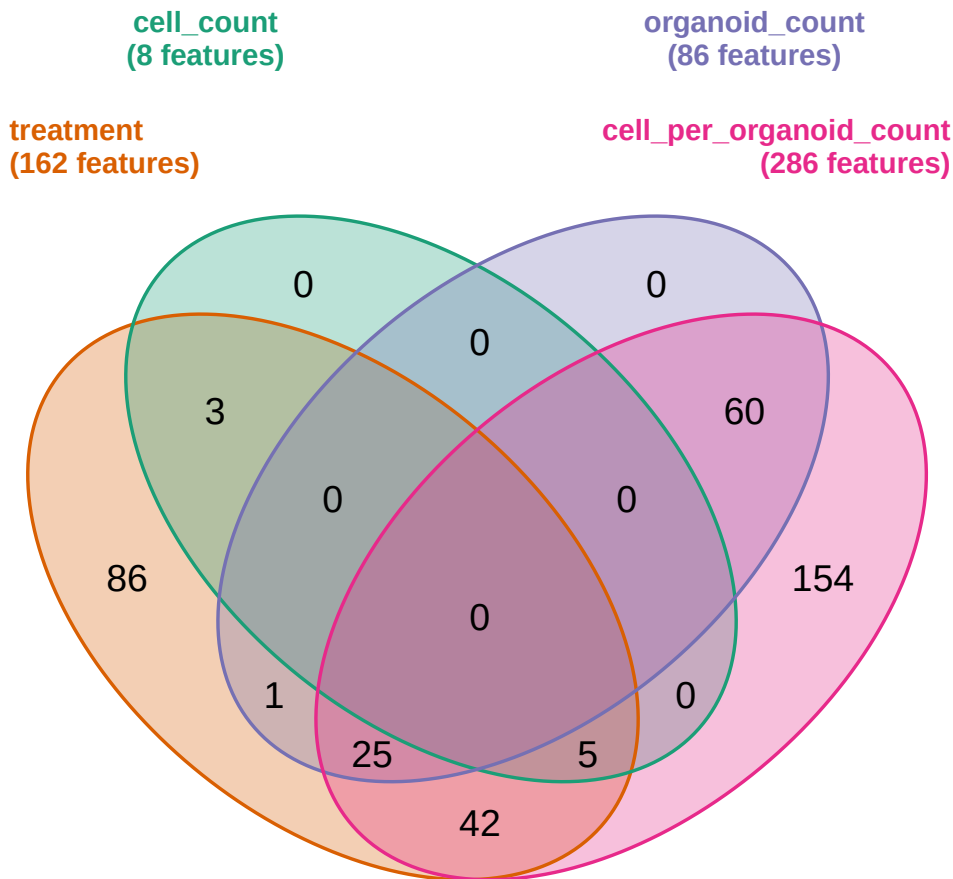

Feature membership across variate groups, treatment=Panobinostat_1uM, tumor_type=cNF (orange = treatment only)

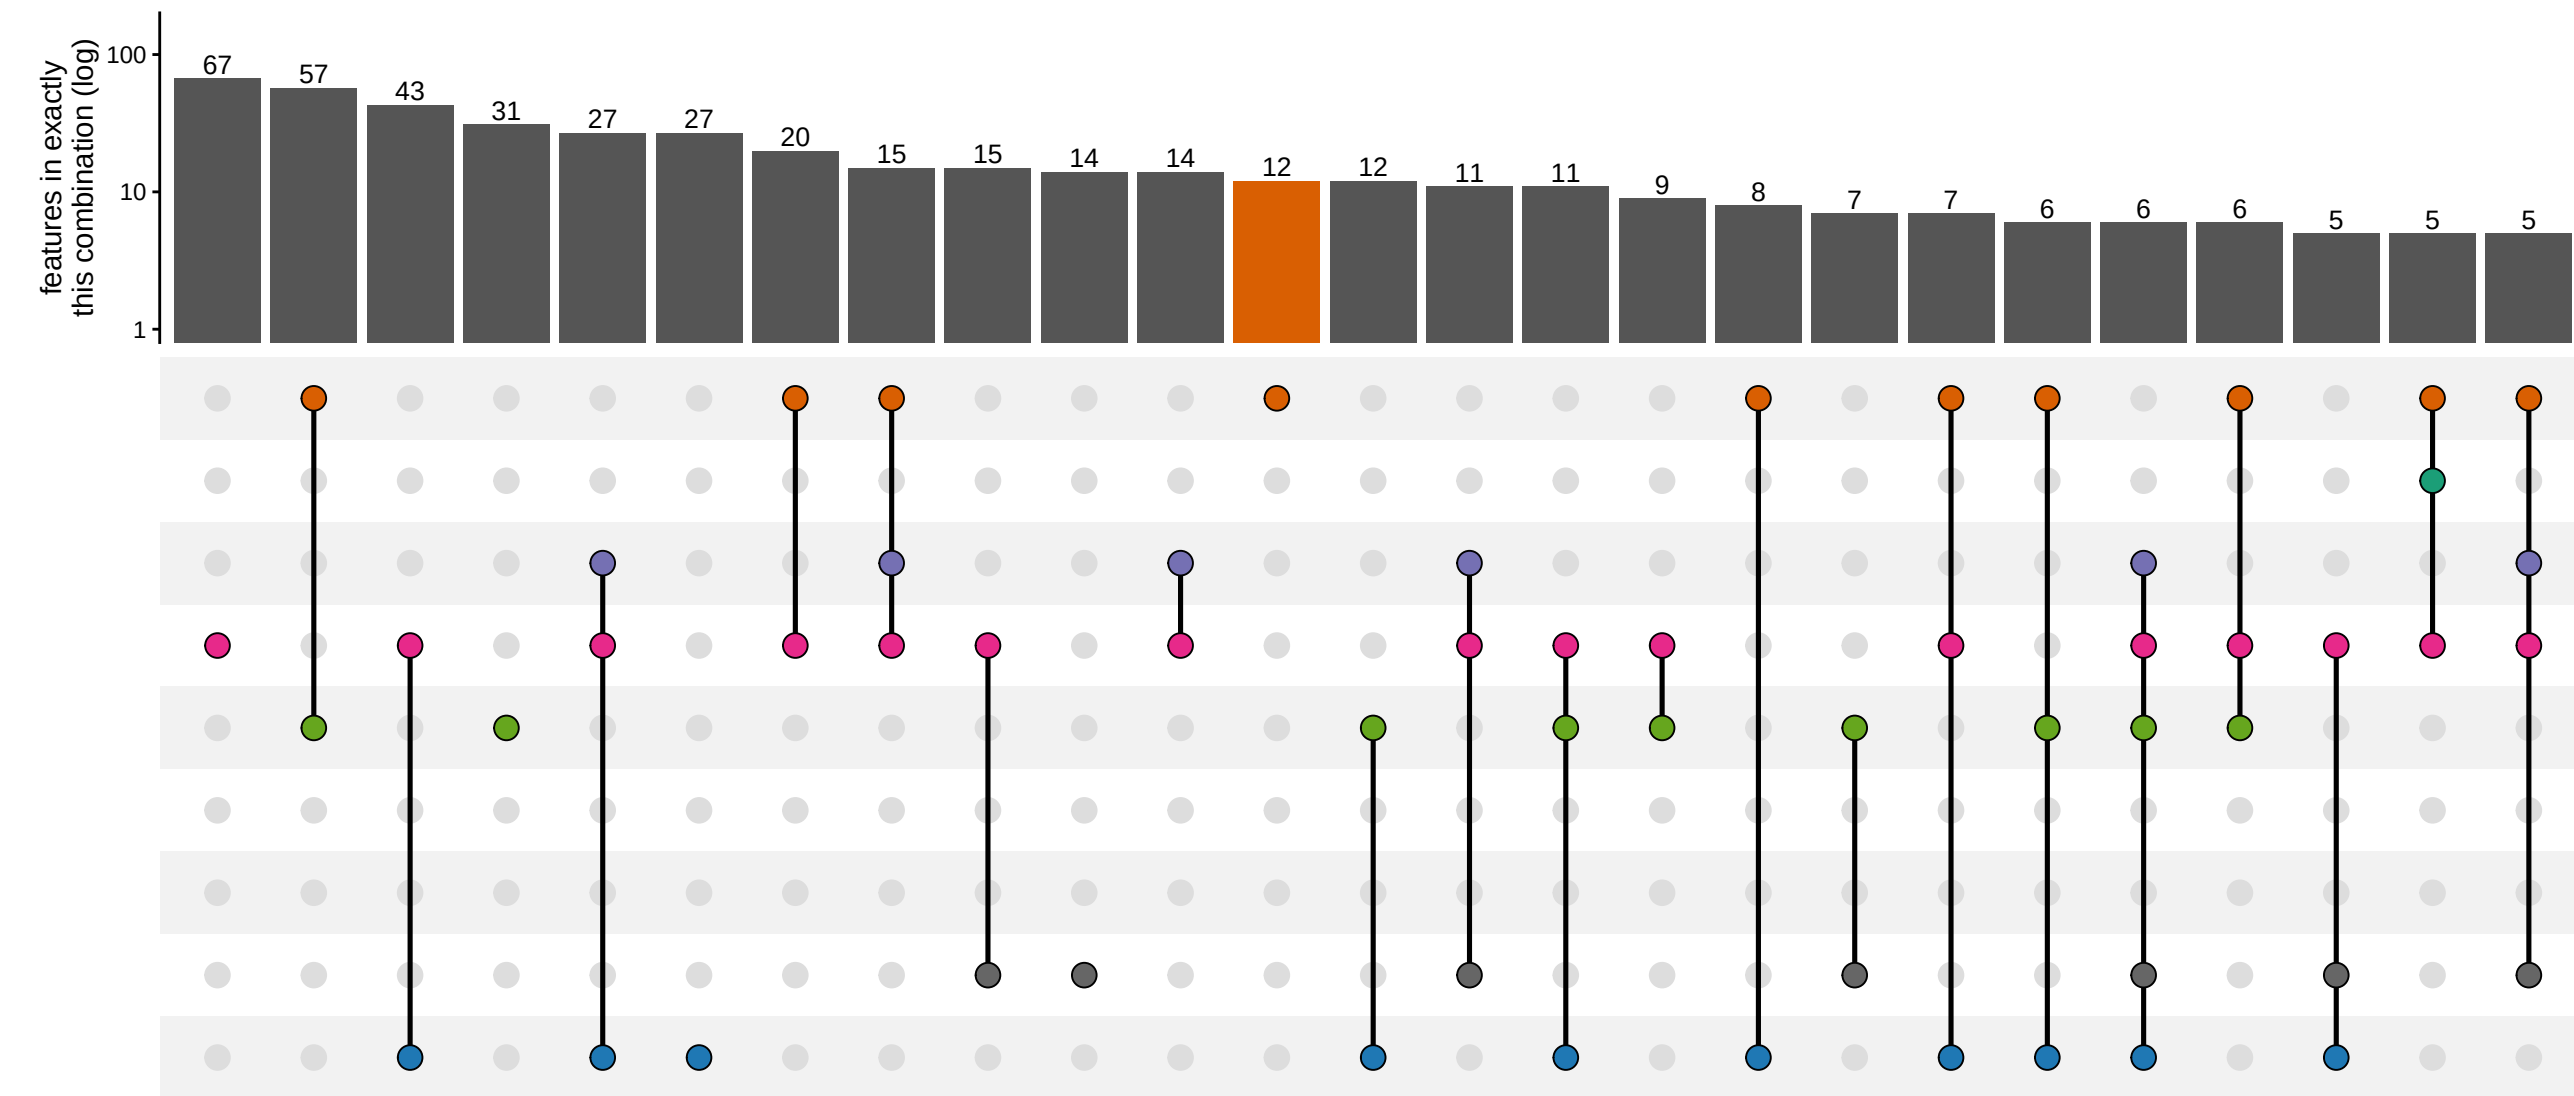

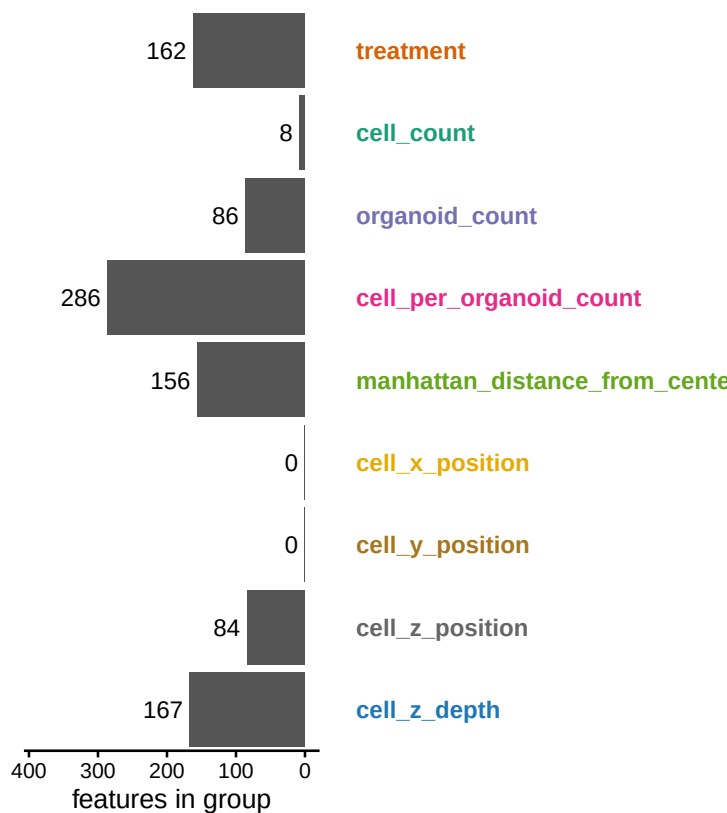

Features that are significant for each variate (treatment=Panobinostat_1uM, tumor_type=pNF)
280 of 534 features are significant for none of these 4 variates

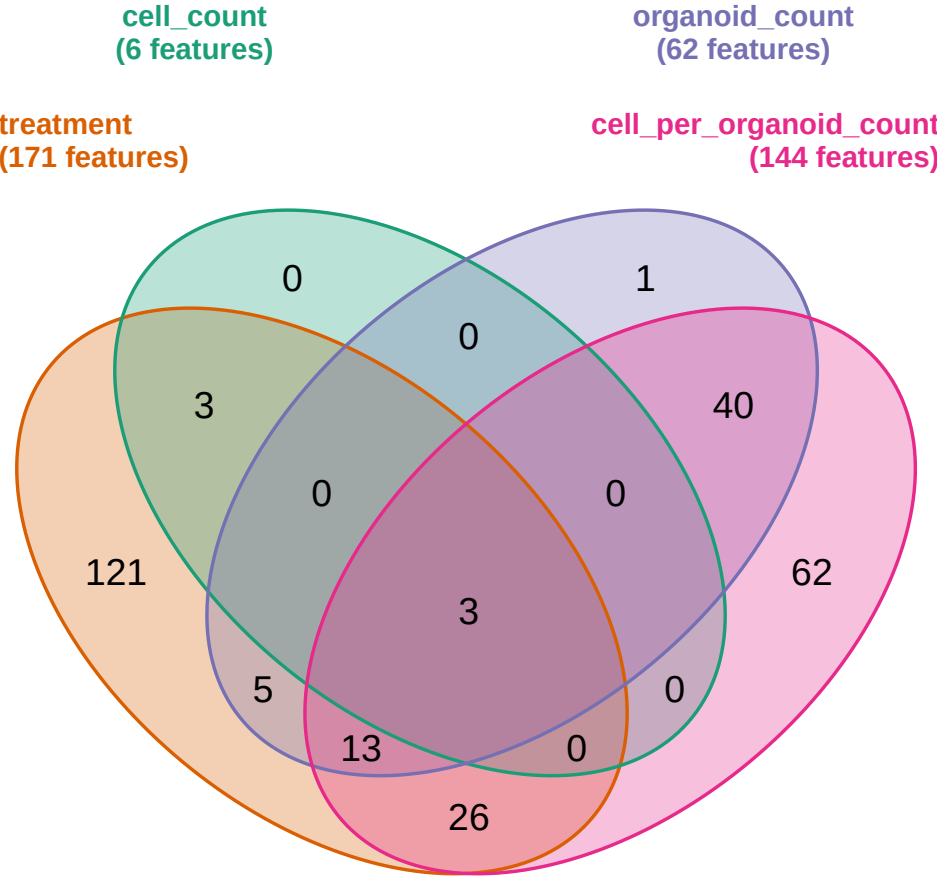

Features that are significant for each variate (treatment=Rapamycin_1uM, tumor_type=MPNST)
158 of 534 features are significant for none of these 4 variates

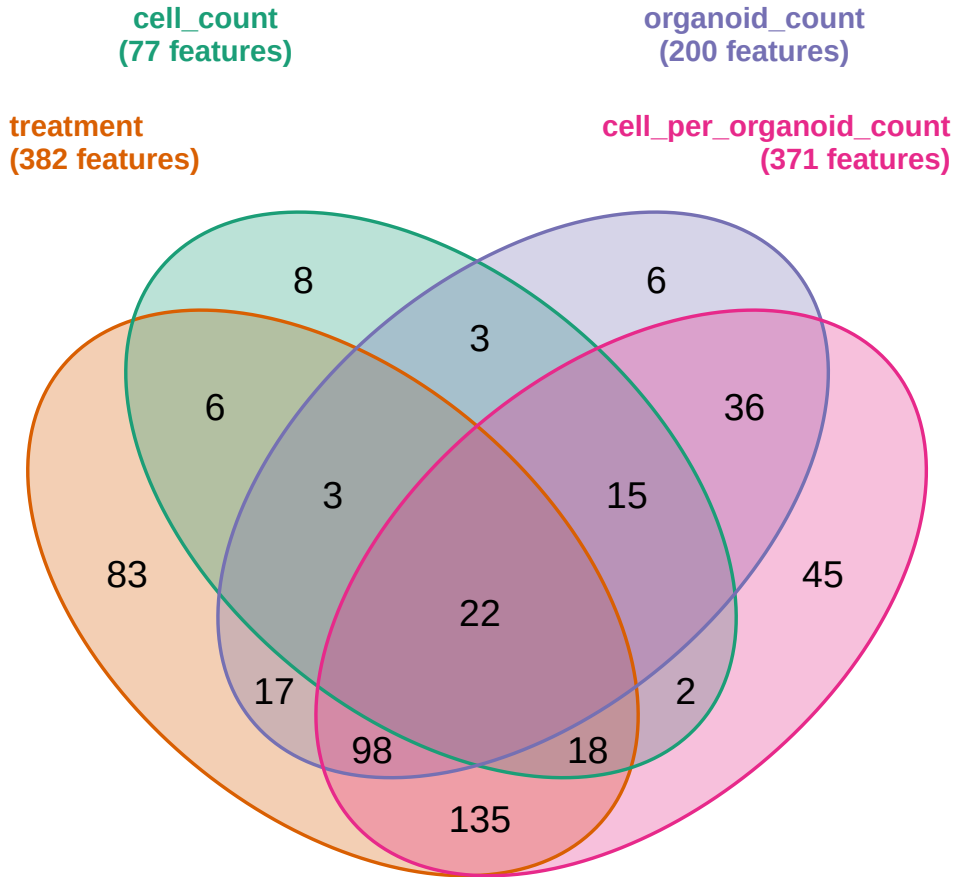

Feature membership across variate groups, treatment=Rapamycin_1uM, tumor_type=MPNST (top 25 of 38 combinations; orange = treatment only)

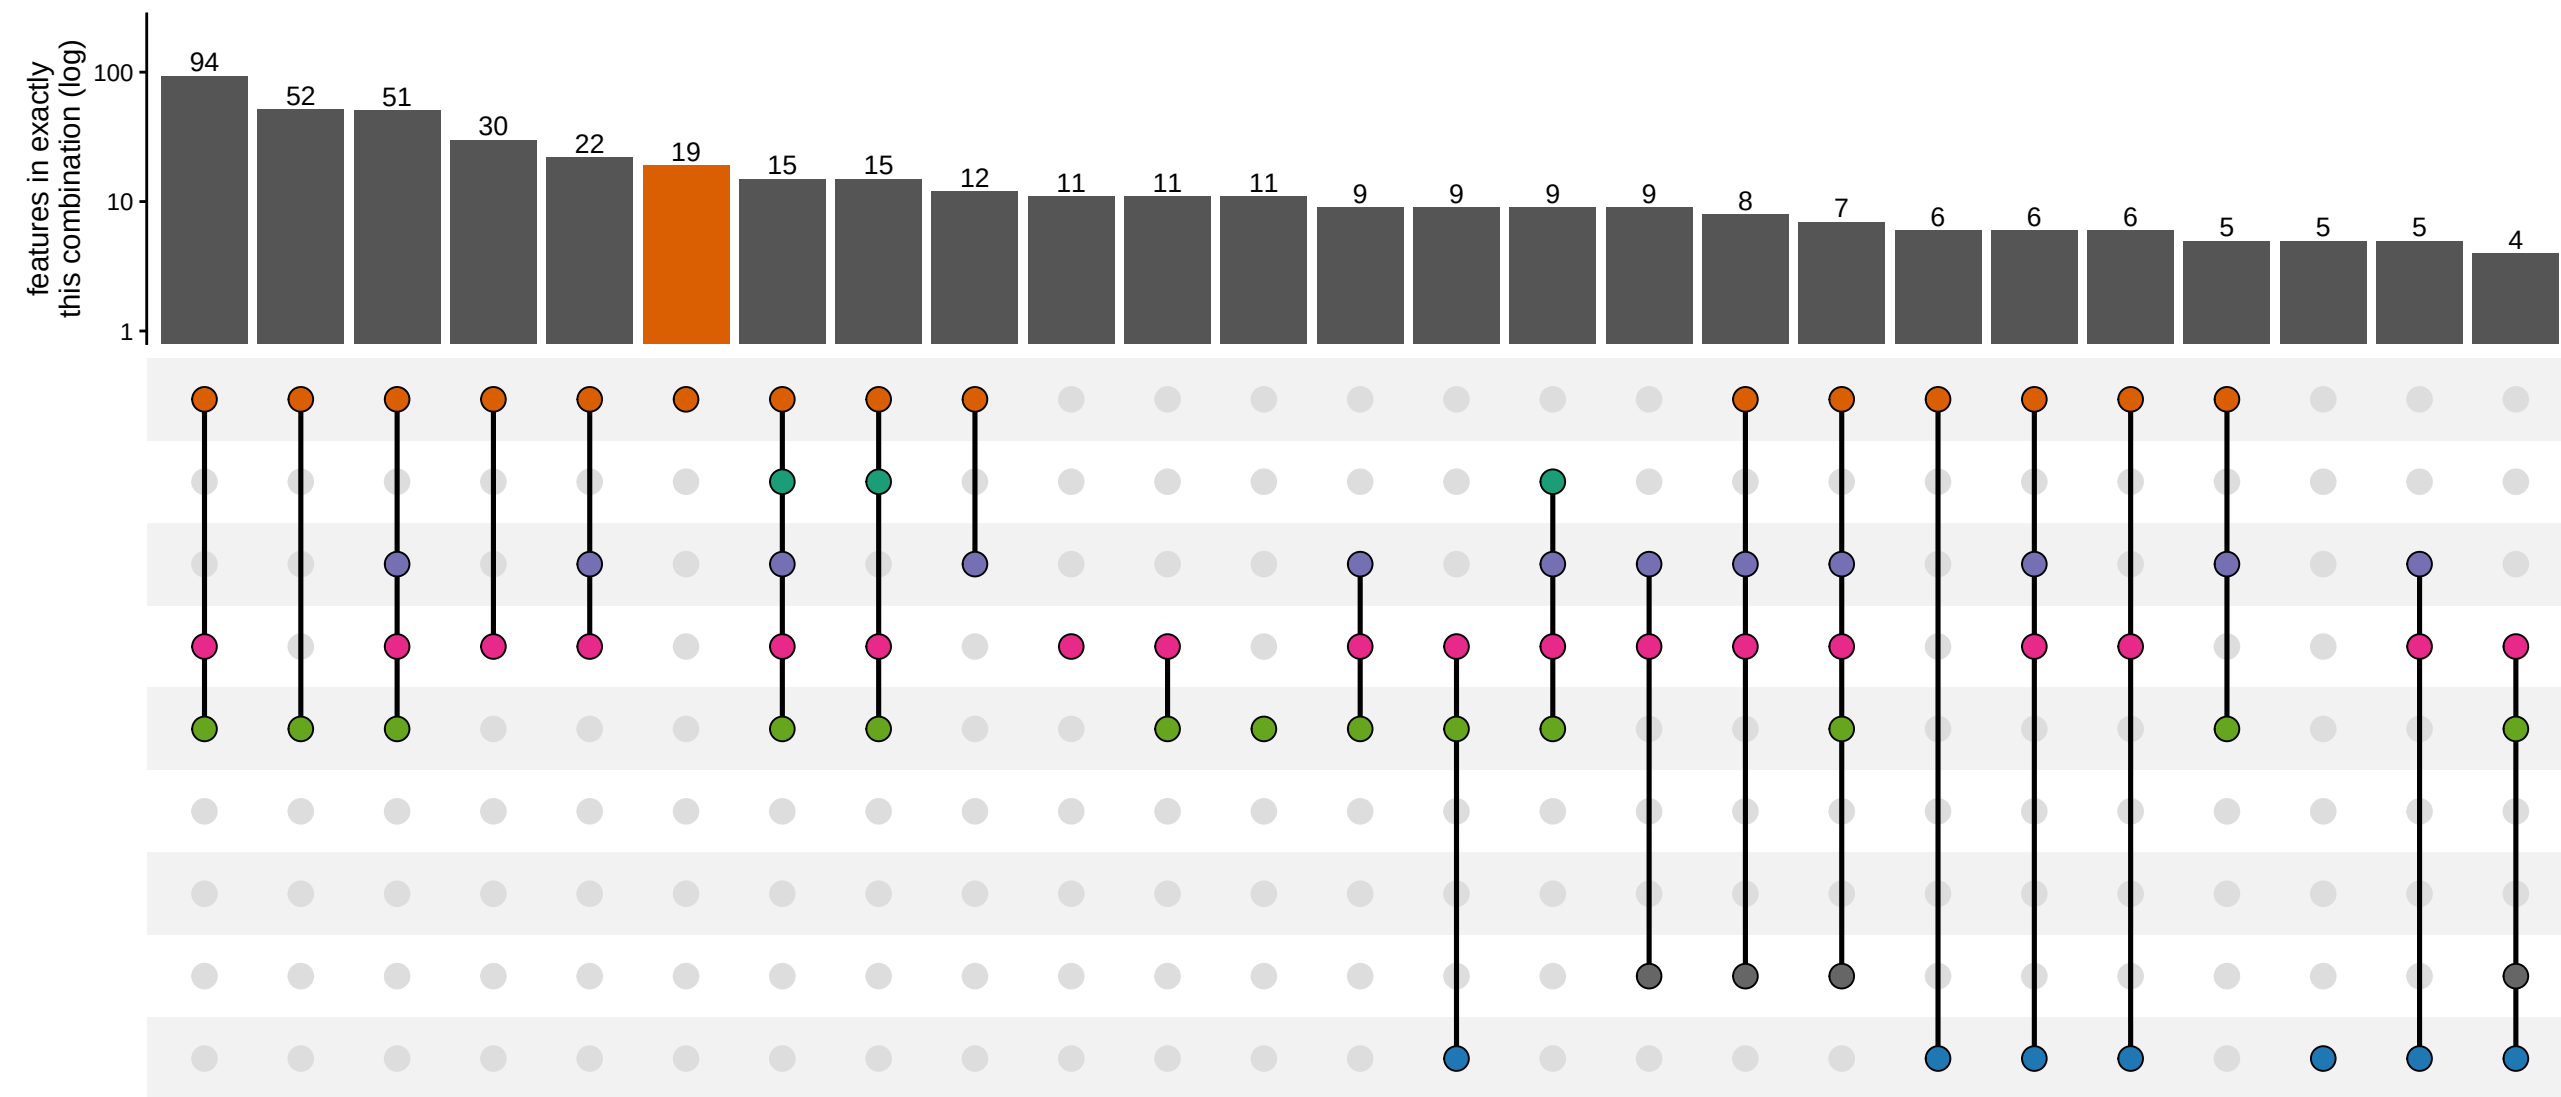

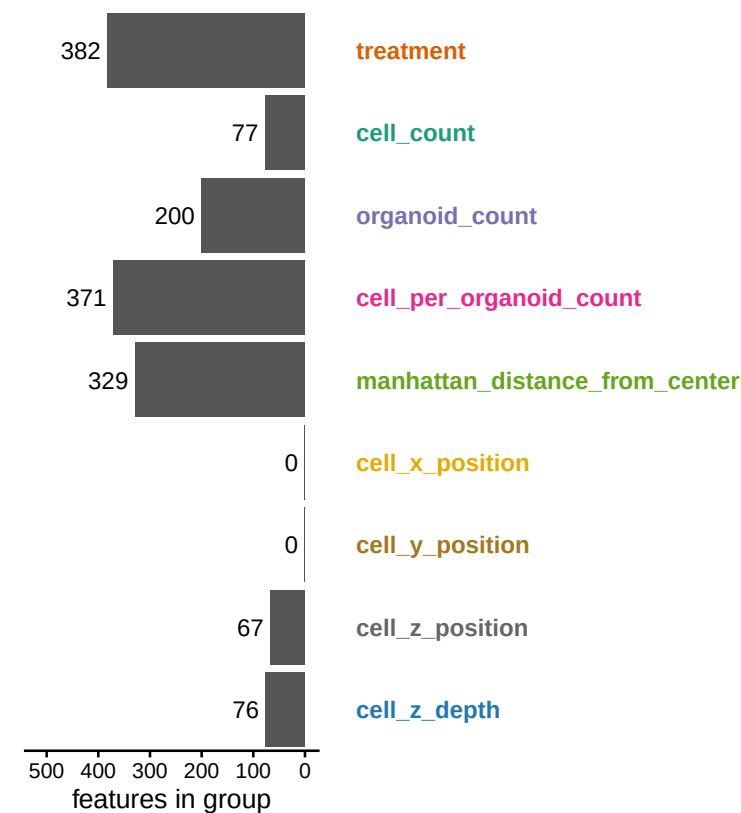

Features that are significant for each variate (treatment=Rapamycin_1uM, tumor_type=Other)
260 of 534 features are significant for none of these 4 variates

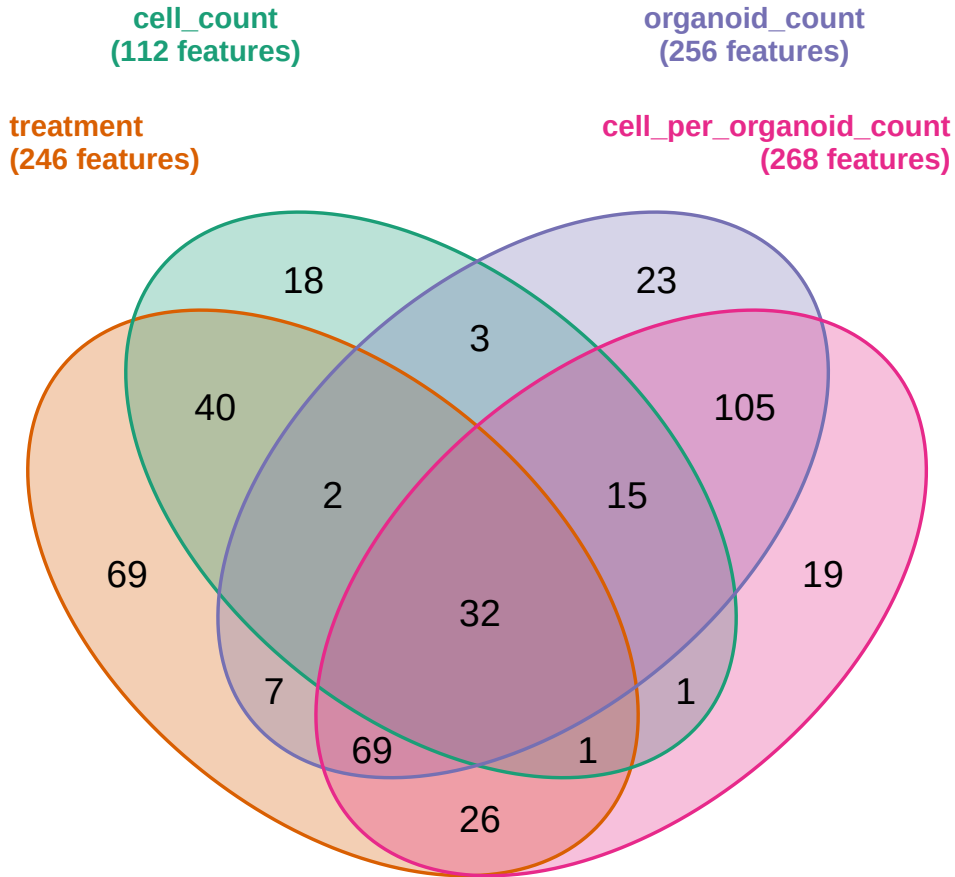

Features that are significant for each variate (treatment=Rapamycin_1uM, tumor_type=cNF)
37 of 534 features are significant for none of these 4 variates

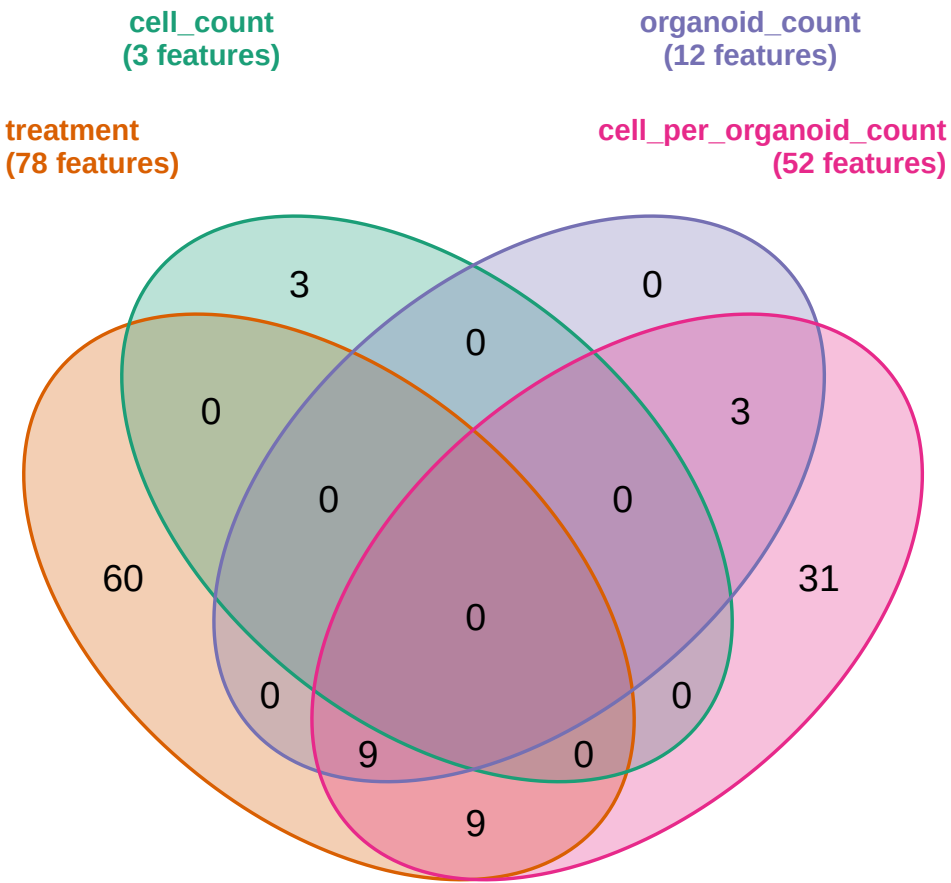

Feature membership across variate groups, treatment=Rapamycin_1uM, tumor_type=cNF (top 25 of 62 combinations; orange = treatment only)

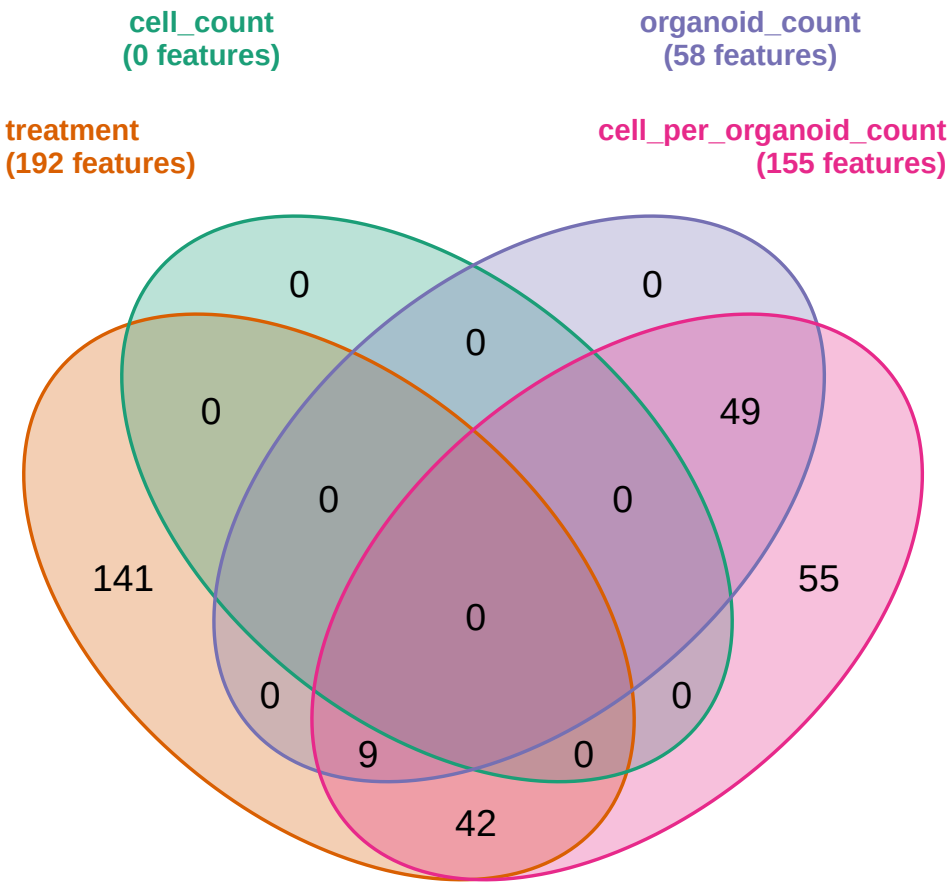

Features that are significant for each variate (treatment=Rapamycin_1uM, tumor_type=pNF)
104 of 534 features are significant for none of these 4 variates

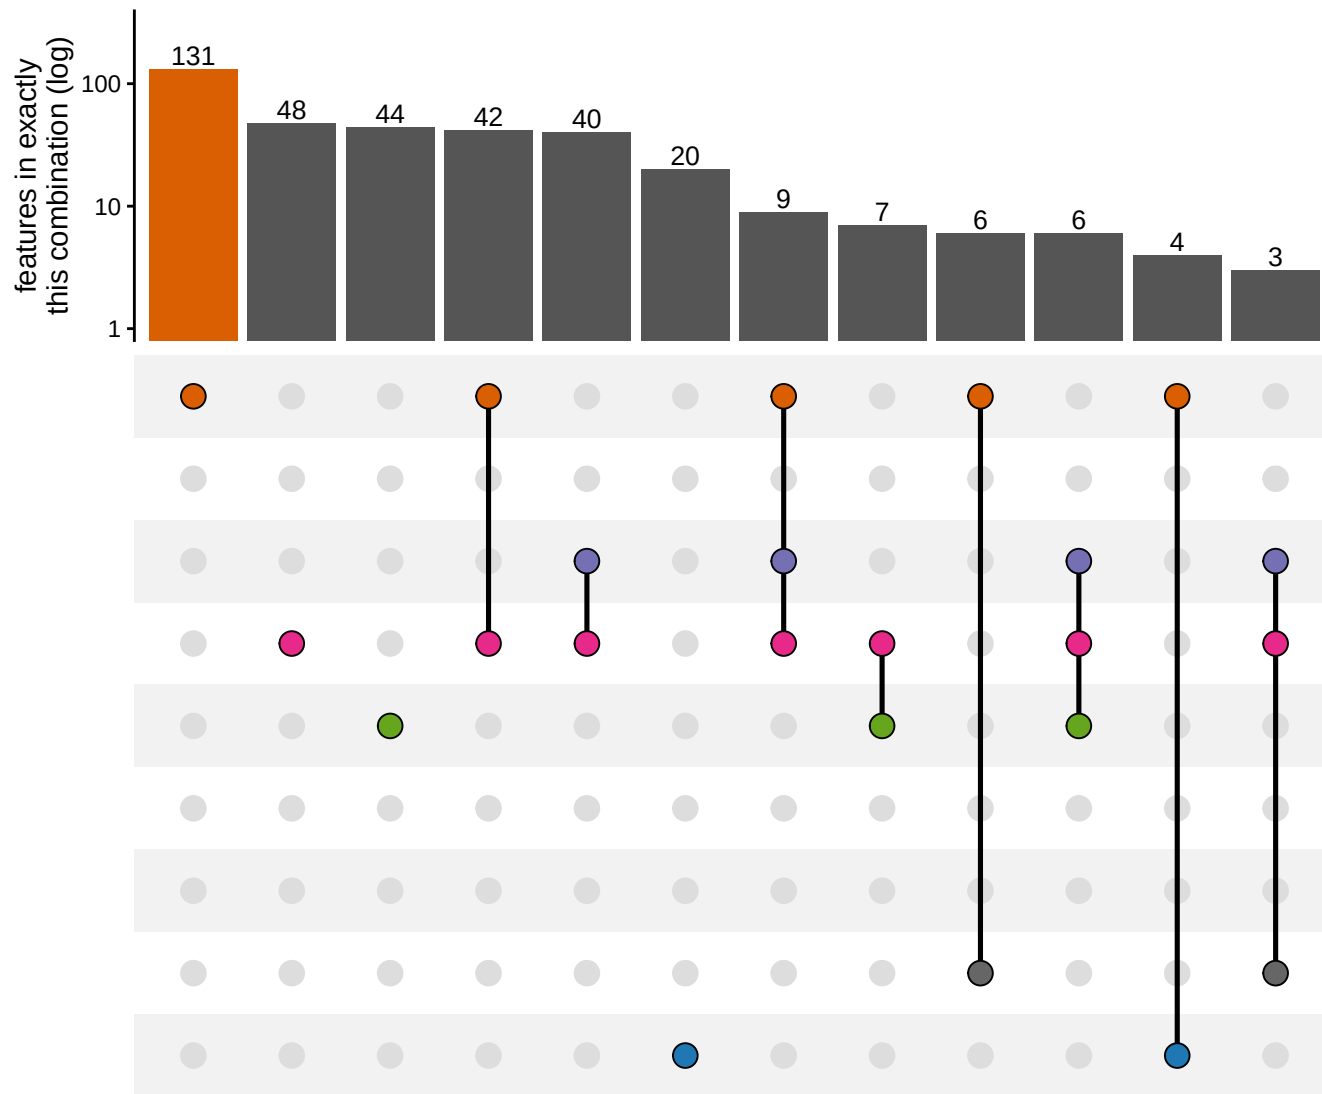

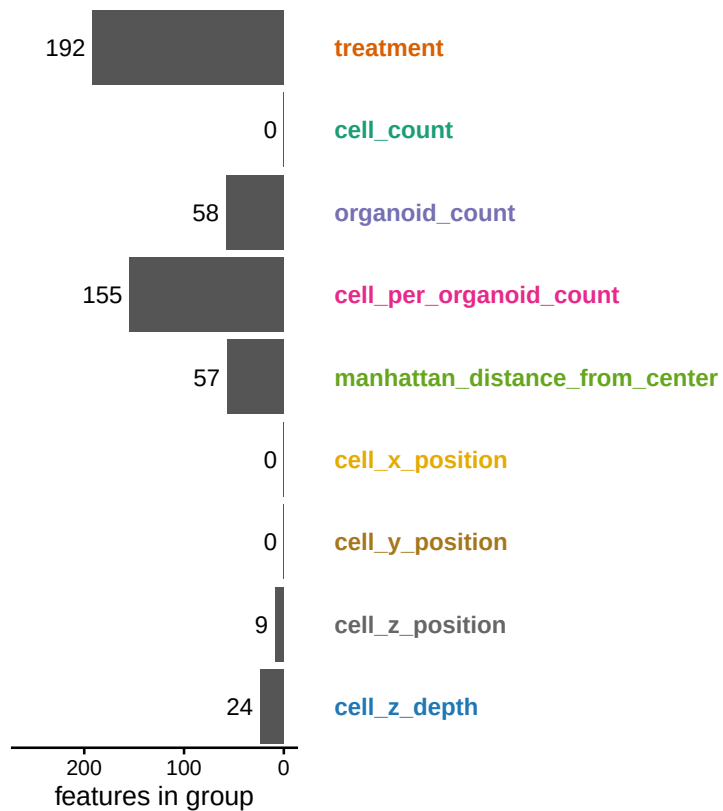

Features that are significant for each variate (treatment=Sapanisertib_1uM, tumor_type=Other)
419 of 534 features are significant for none of these 4 variates

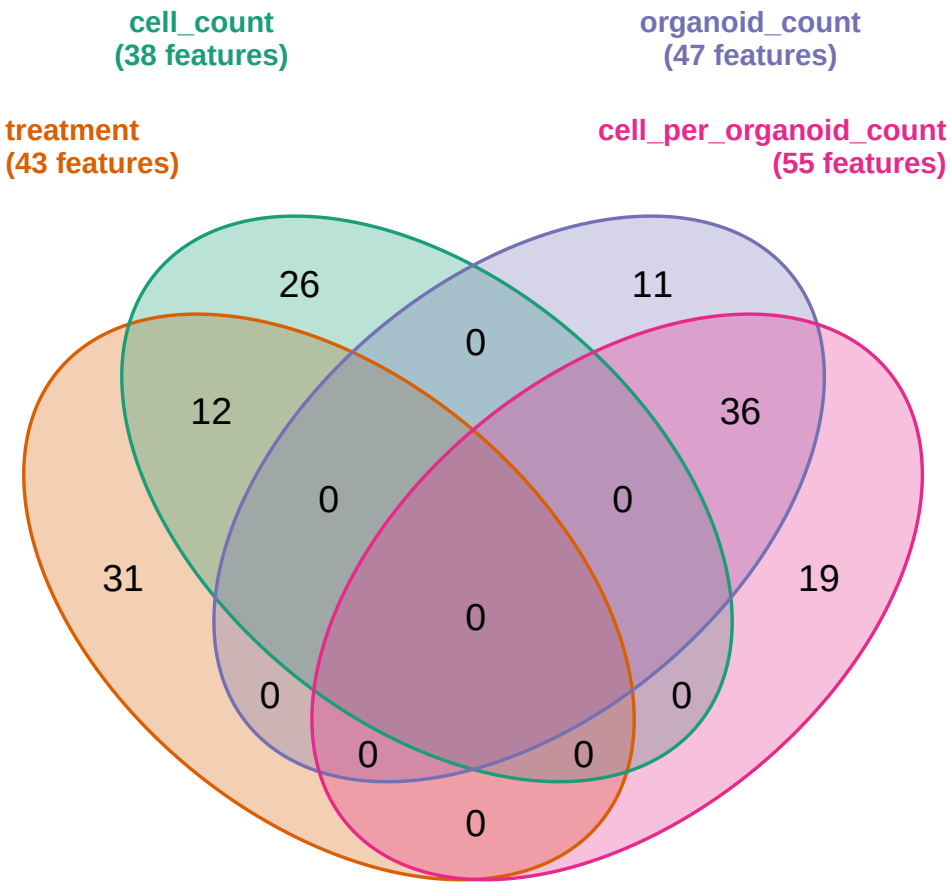

Features that are significant for each variate (treatment=Sapanisertib_1uM, tumor_type=cNF)
238 of 534 features are significant for none of these 4 variates

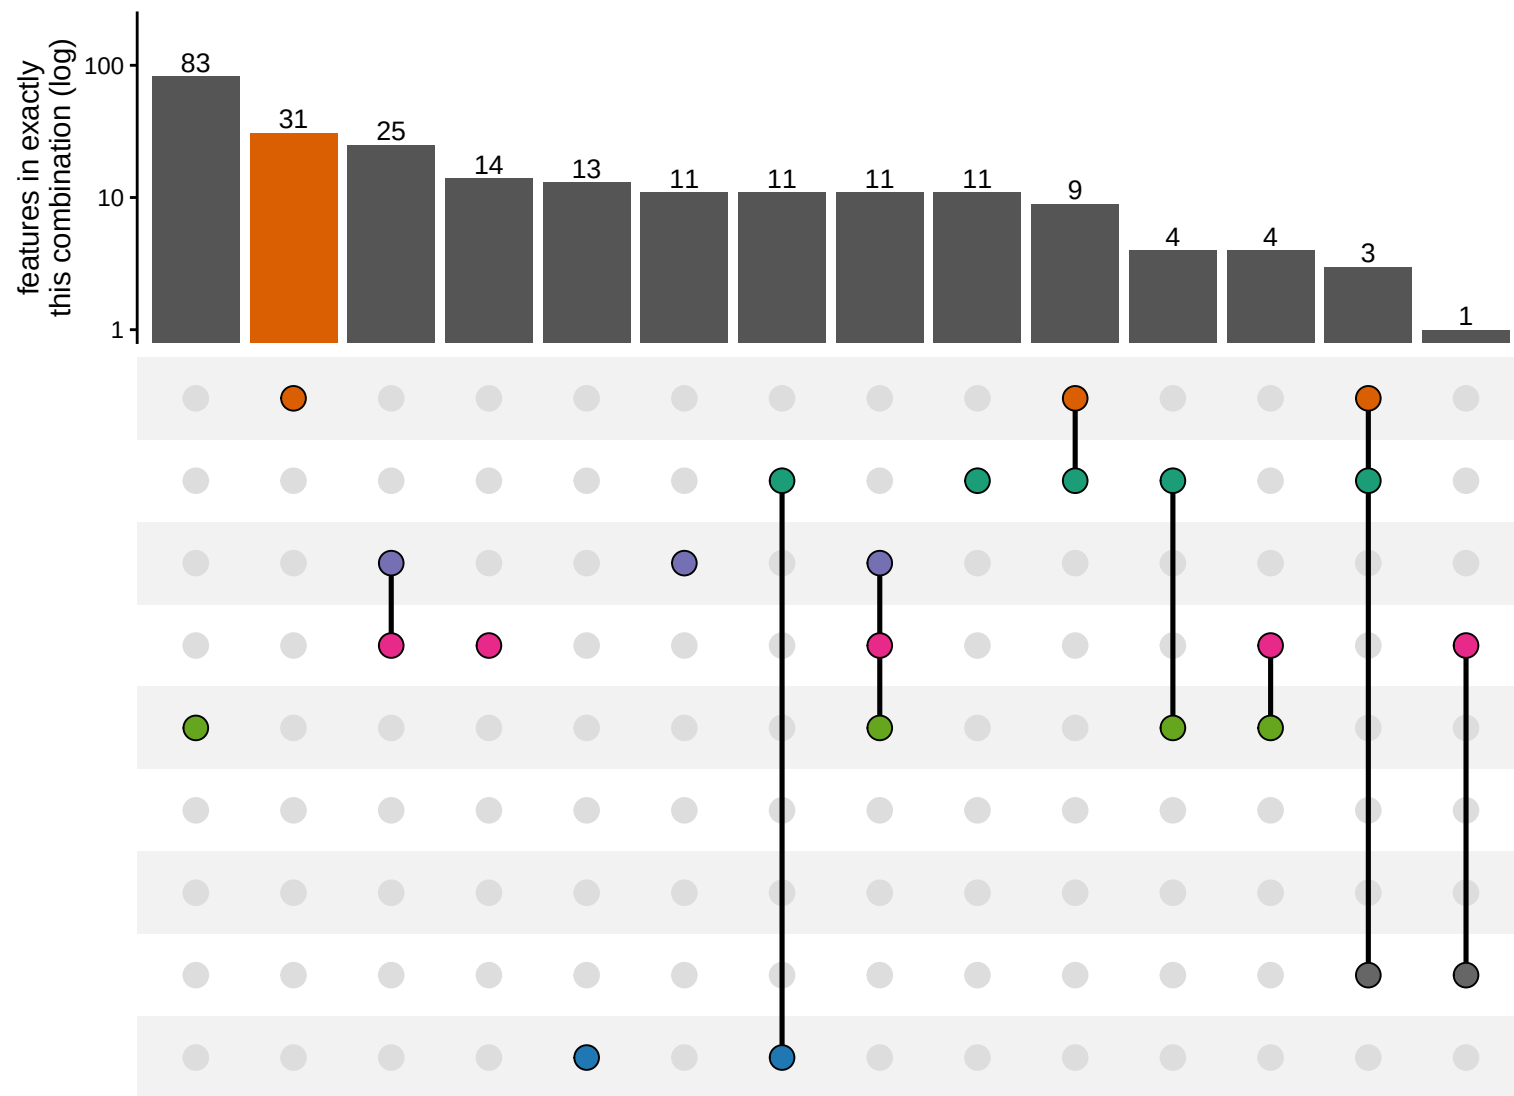

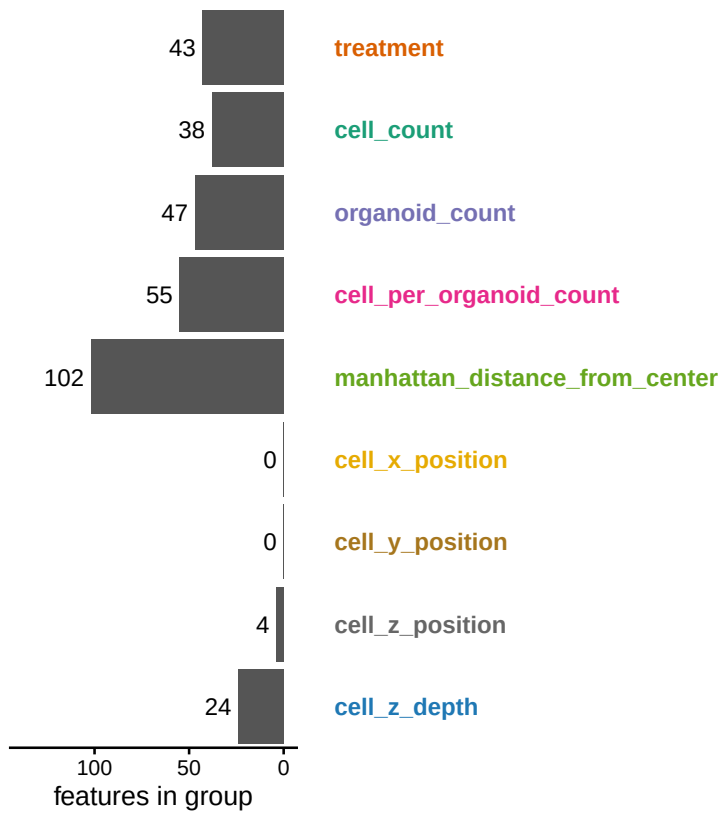

Feature membership across variate groups, treatment=Sapanisertib_1uM, tumor_type=cNF (orange = treatment only)

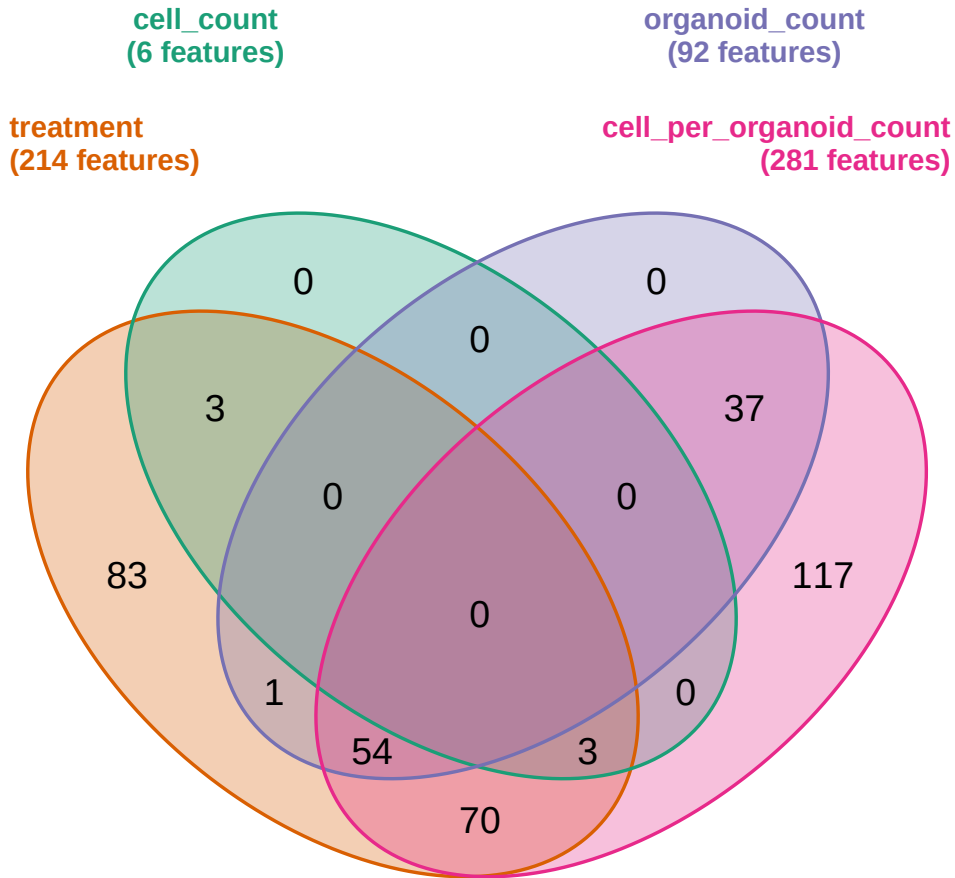

Features that are significant for each variate (treatment=Sapanisertib_1uM, tumor_type=pNF)
399 of 534 features are significant for none of these 4 variates

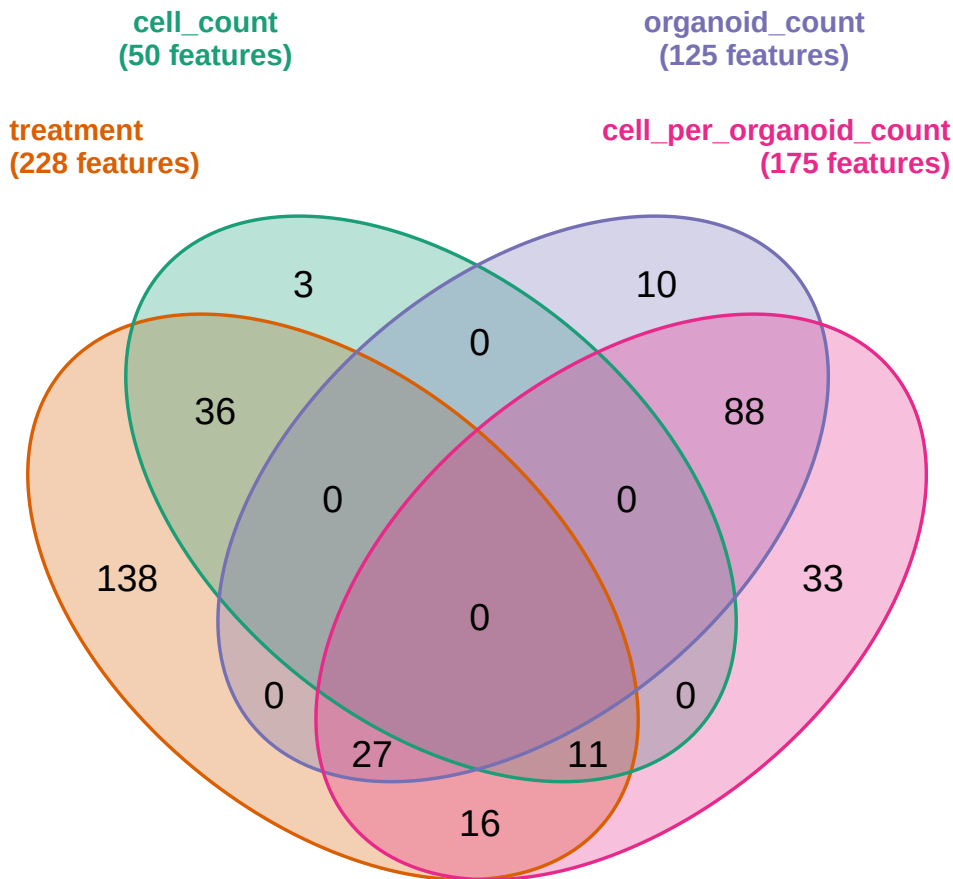

Feature membership across variate groups, treatment=Sapanisertib_1uM, tumor_type=pNF (orange = treatment only)

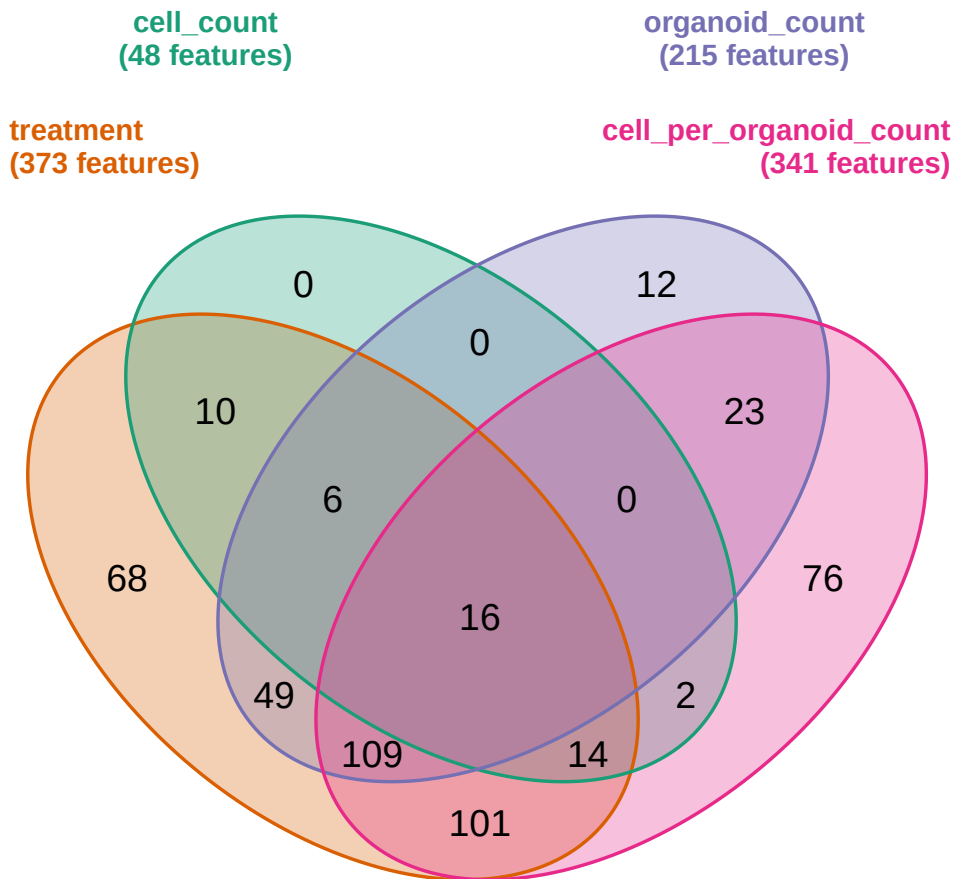

Features that are significant for each variate (treatment=Selumetinib_10uM, tumor_type=MPNST)
166 of 534 features are significant for none of these 4 variates

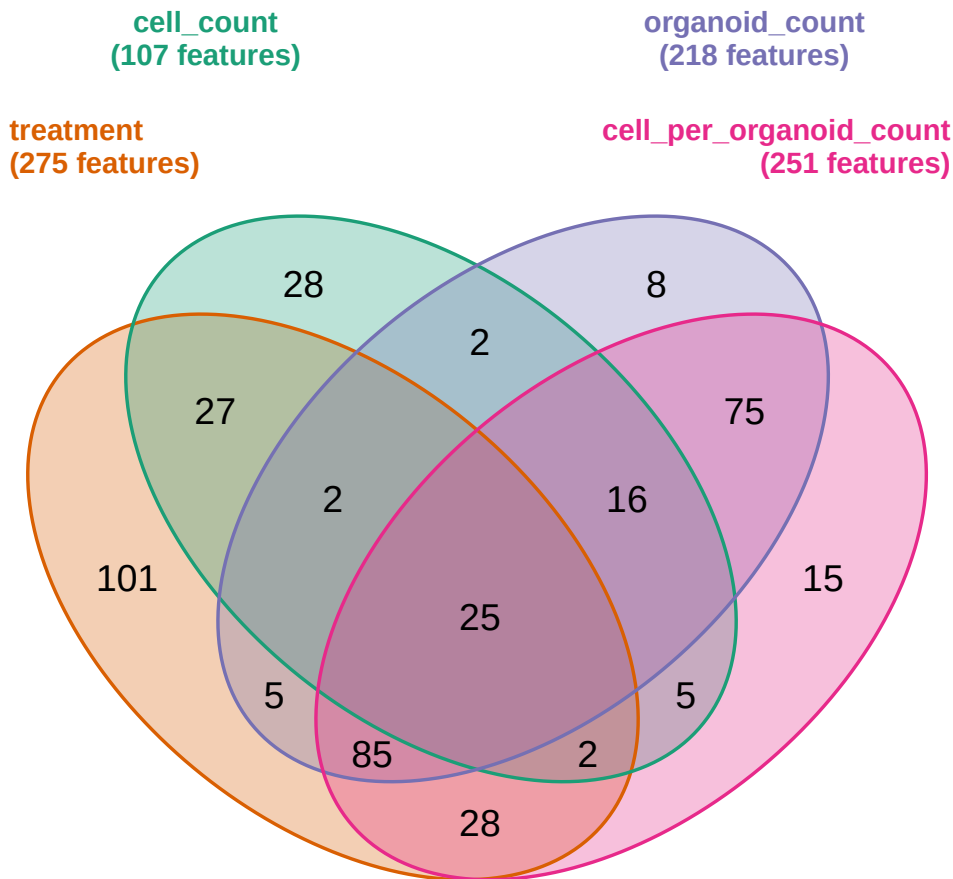

Features that are significant for each variate (treatment=Selumetinib_10uM, tumor_type=Other)
172 of 534 features are significant for none of these 4 variates

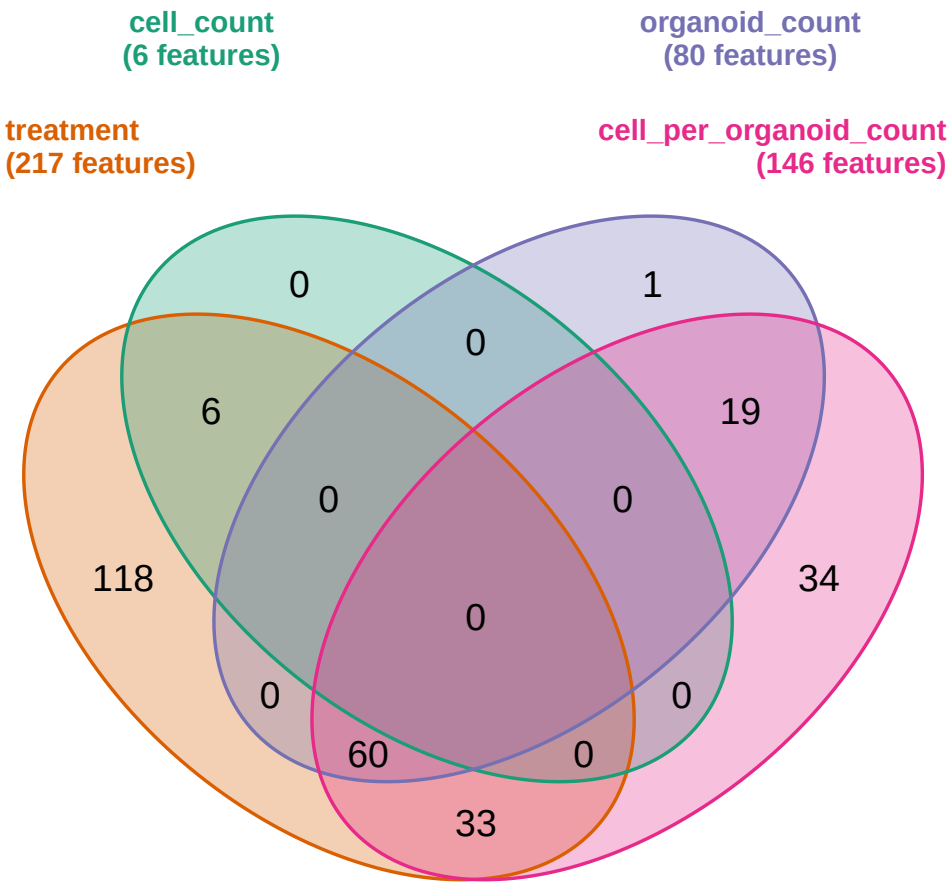

Features that are significant for each variate (treatment=Selumetinib_10uM, tumor_type=cNF)
48 of 534 features are significant for none of these 4 variates

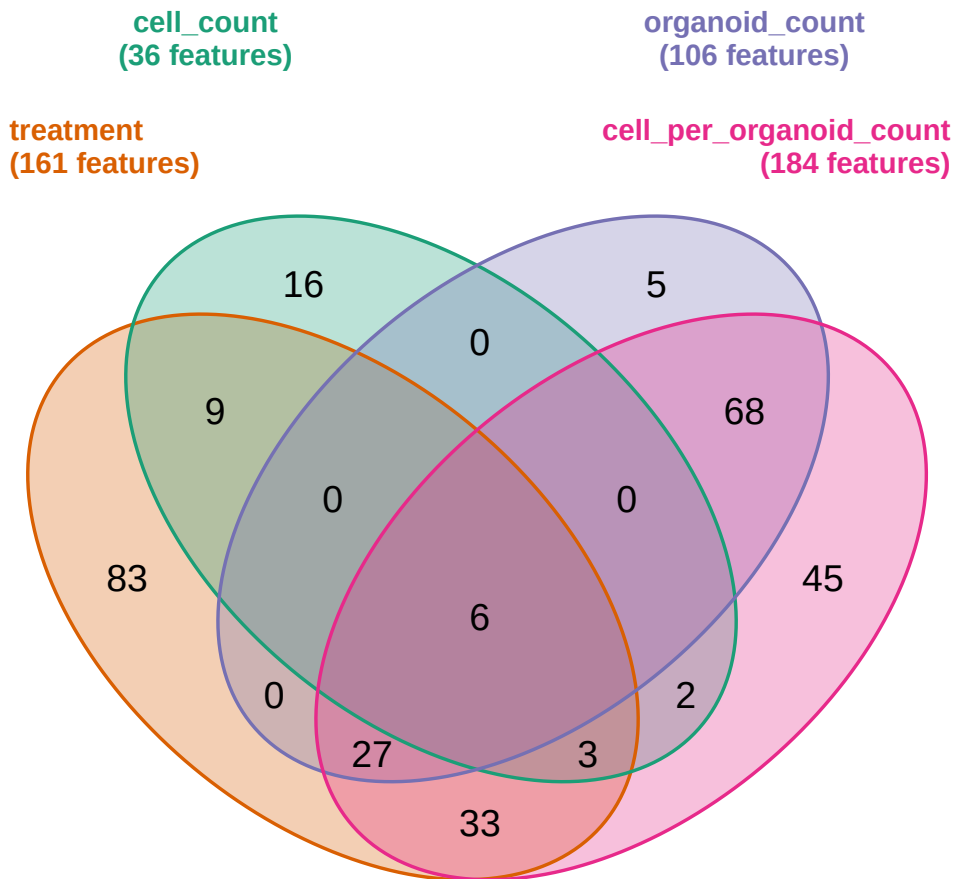

Features that are significant for each variate (treatment=Selumetinib_10uM, tumor_type=pNF)
110 of 534 features are significant for none of these 4 variates

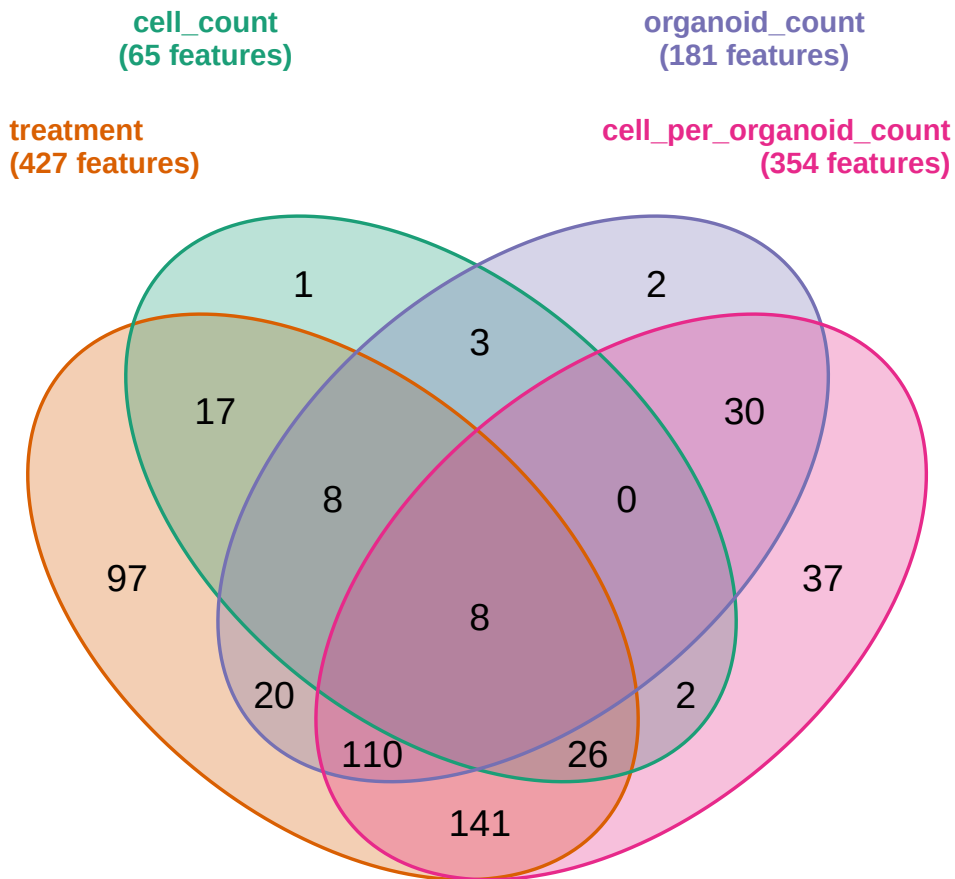

Features that are significant for each variate (treatment=Selumetinib_1uM, tumor_type=MPNST)
263 of 534 features are significant for none of these 4 variates

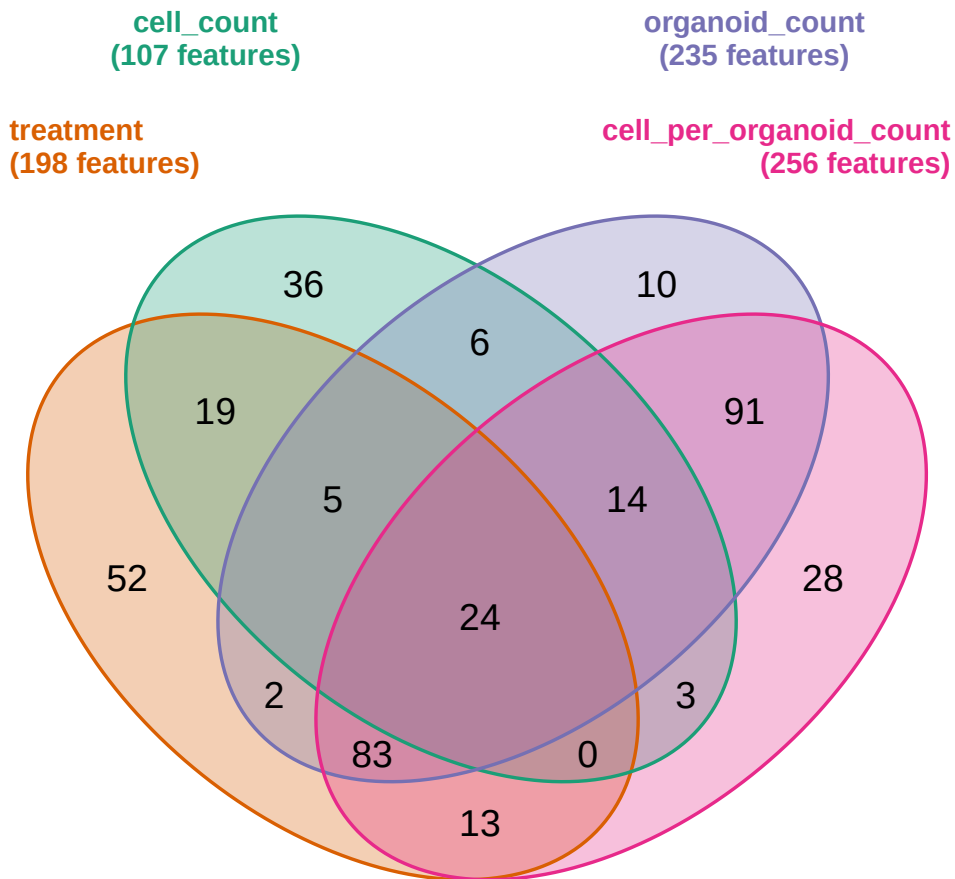

Features that are significant for each variate (treatment=Selumetinib_1uM, tumor_type=Other)
237 of 534 features are significant for none of these 4 variates

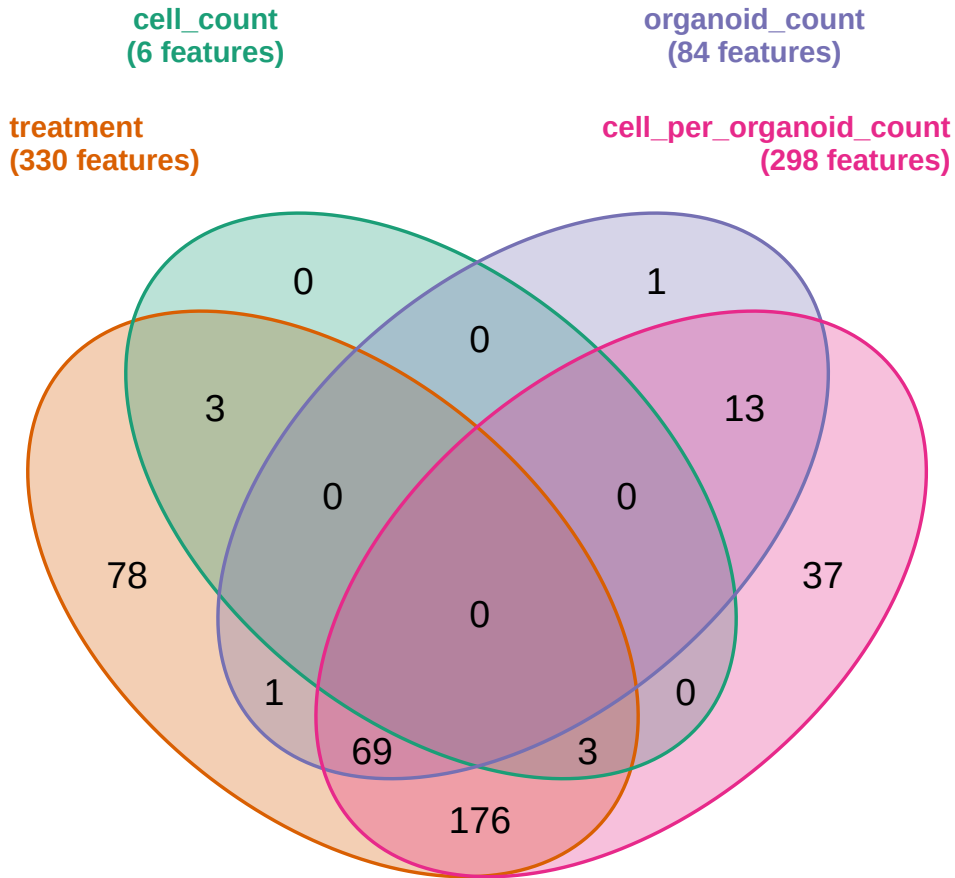

Features that are significant for each variate (treatment=Selumetinib_1uM, tumor_type=cNF)
32 of 534 features are significant for none of these 4 variates

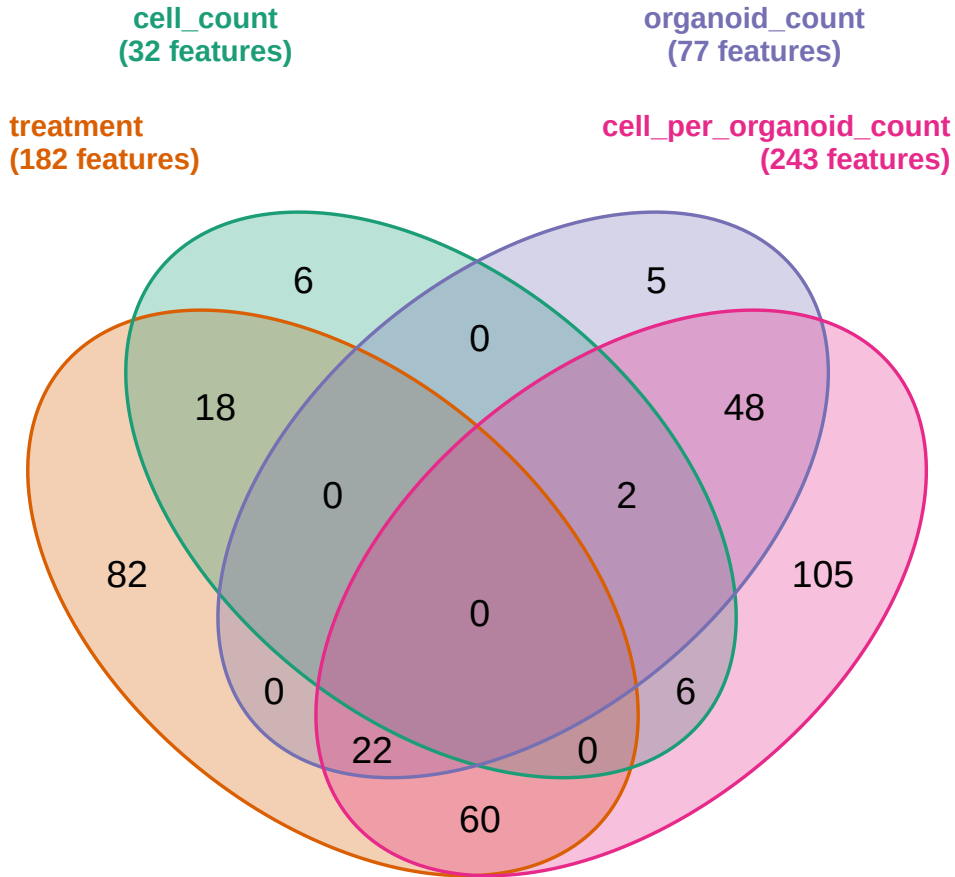

Features that are significant for each variate (treatment=Selumetinib_1uM, tumor_type=pNF)
148 of 534 features are significant for none of these 4 variates

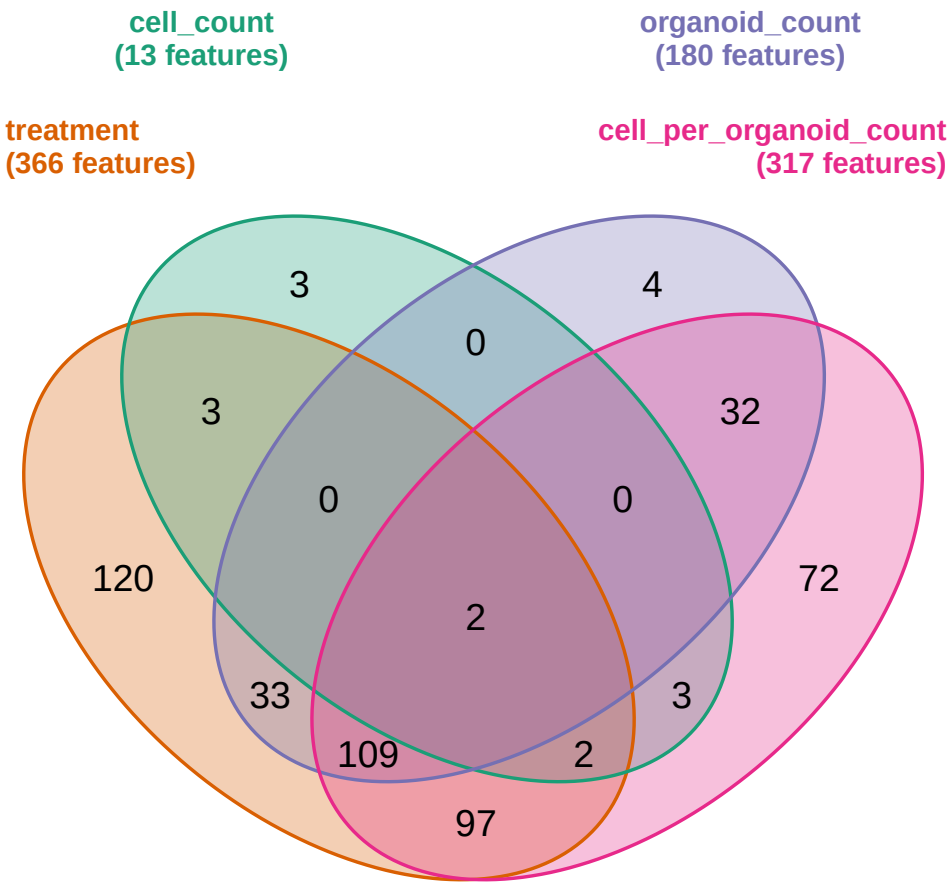

Features that are significant for each variate (treatment=Staurosporine_10nM, tumor_type=MPNS)
153 of 534 features are significant for none of these 4 variates

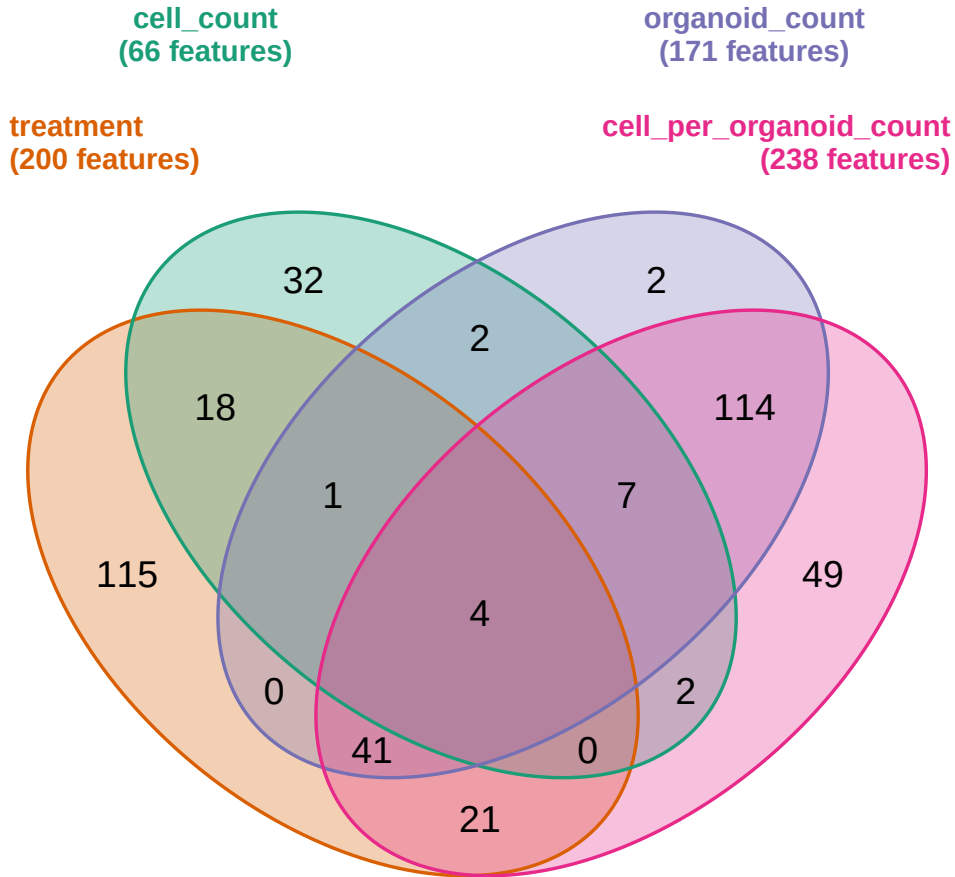

Features that are significant for each variate (treatment=Staurosporine_10nM, tumor_type=Other),
180 of 534 features are significant for none of these 4 variates

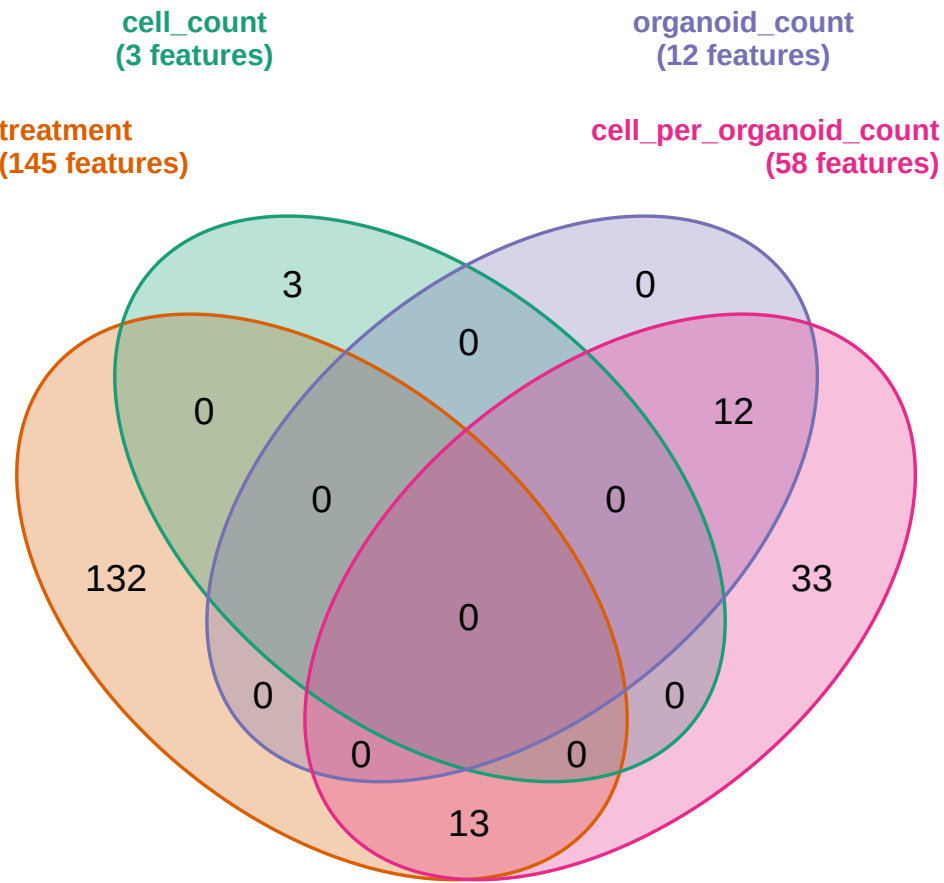

Features that are significant for each variate (treatment=Staurosporine_10nM, tumor_type=cNF)
54 of 534 features are significant for none of these 4 variates

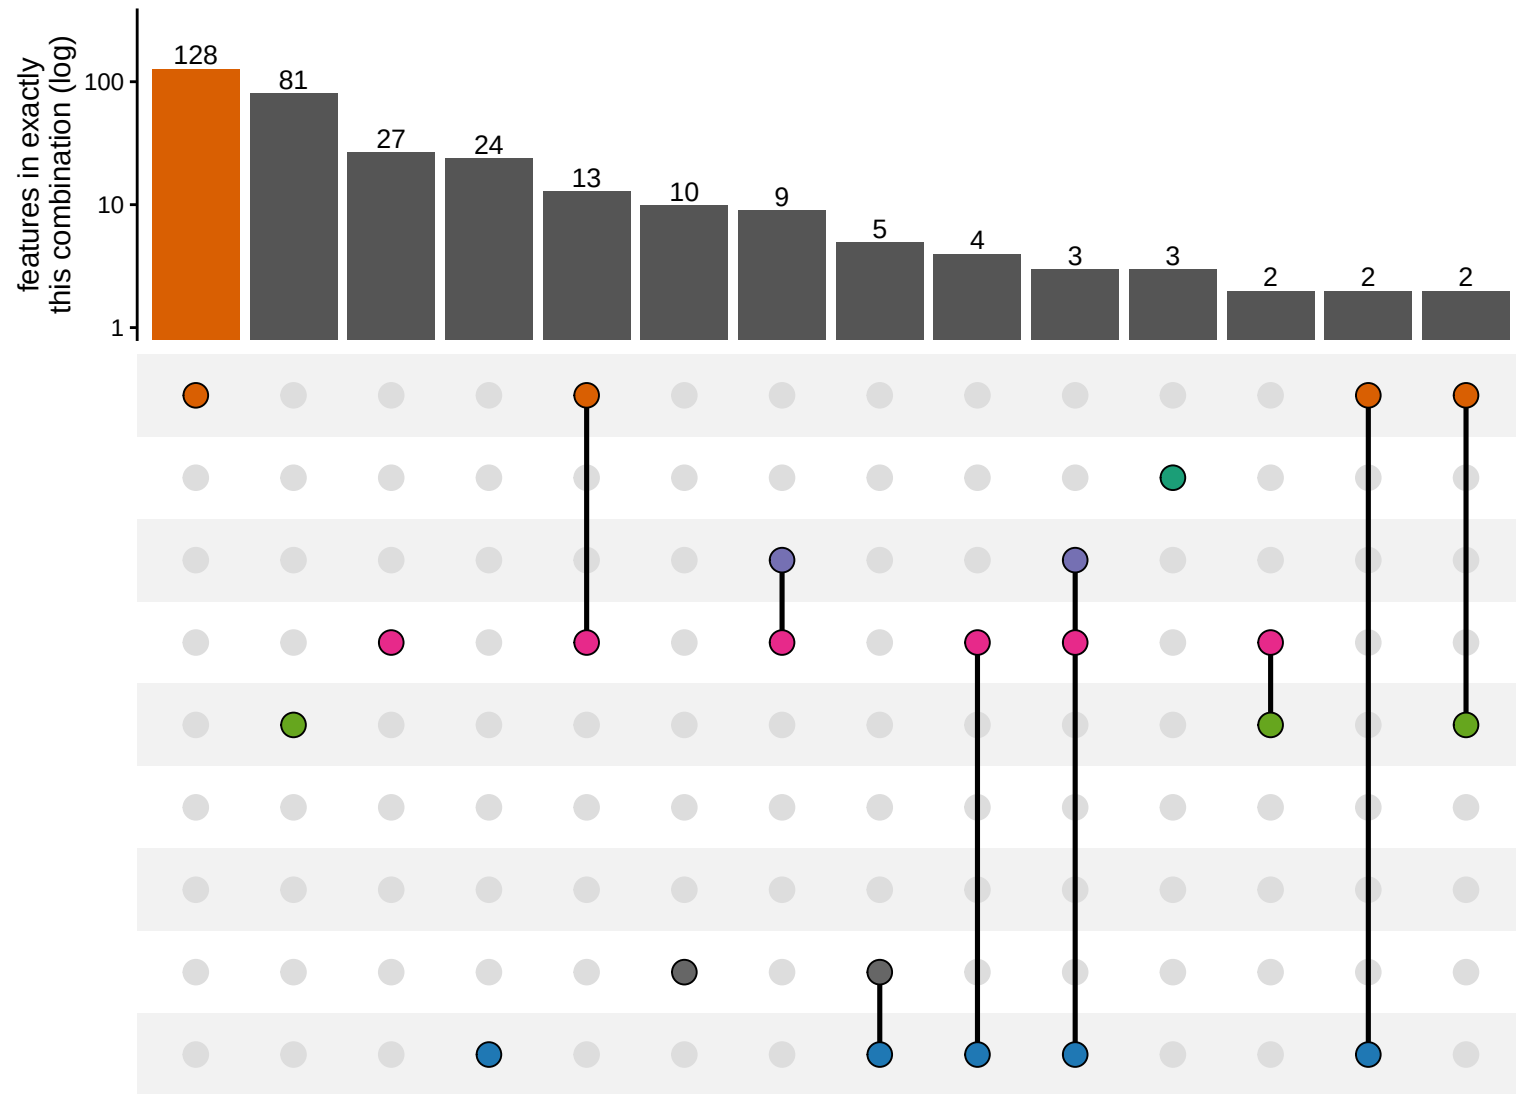

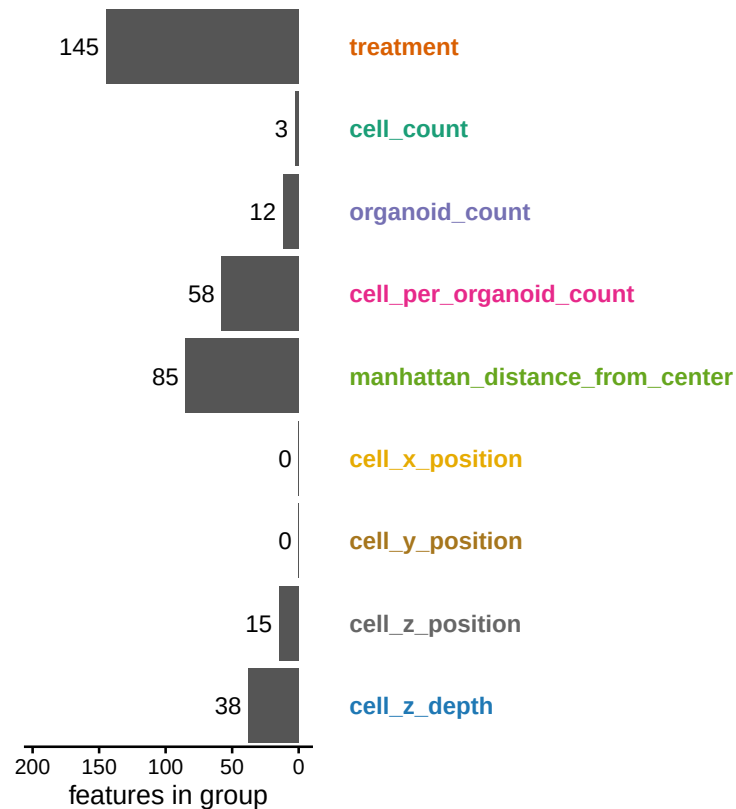

Features that are significant for each variate (treatment=Staurosporine_10nM, tumor_type=pNF)
126 of 534 features are significant for none of these 4 variates

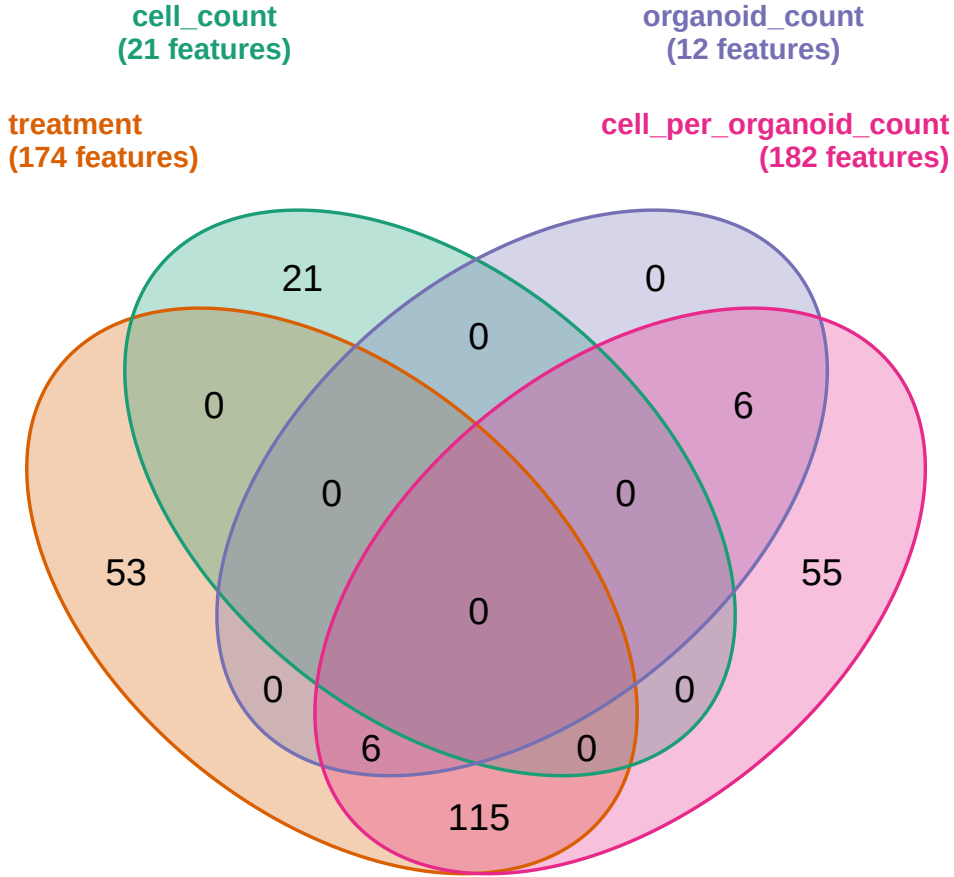

Features that are significant for each variate (treatment=Trabectedin_1uM, tumor_type=Other)
341 of 534 features are significant for none of these 4 variates

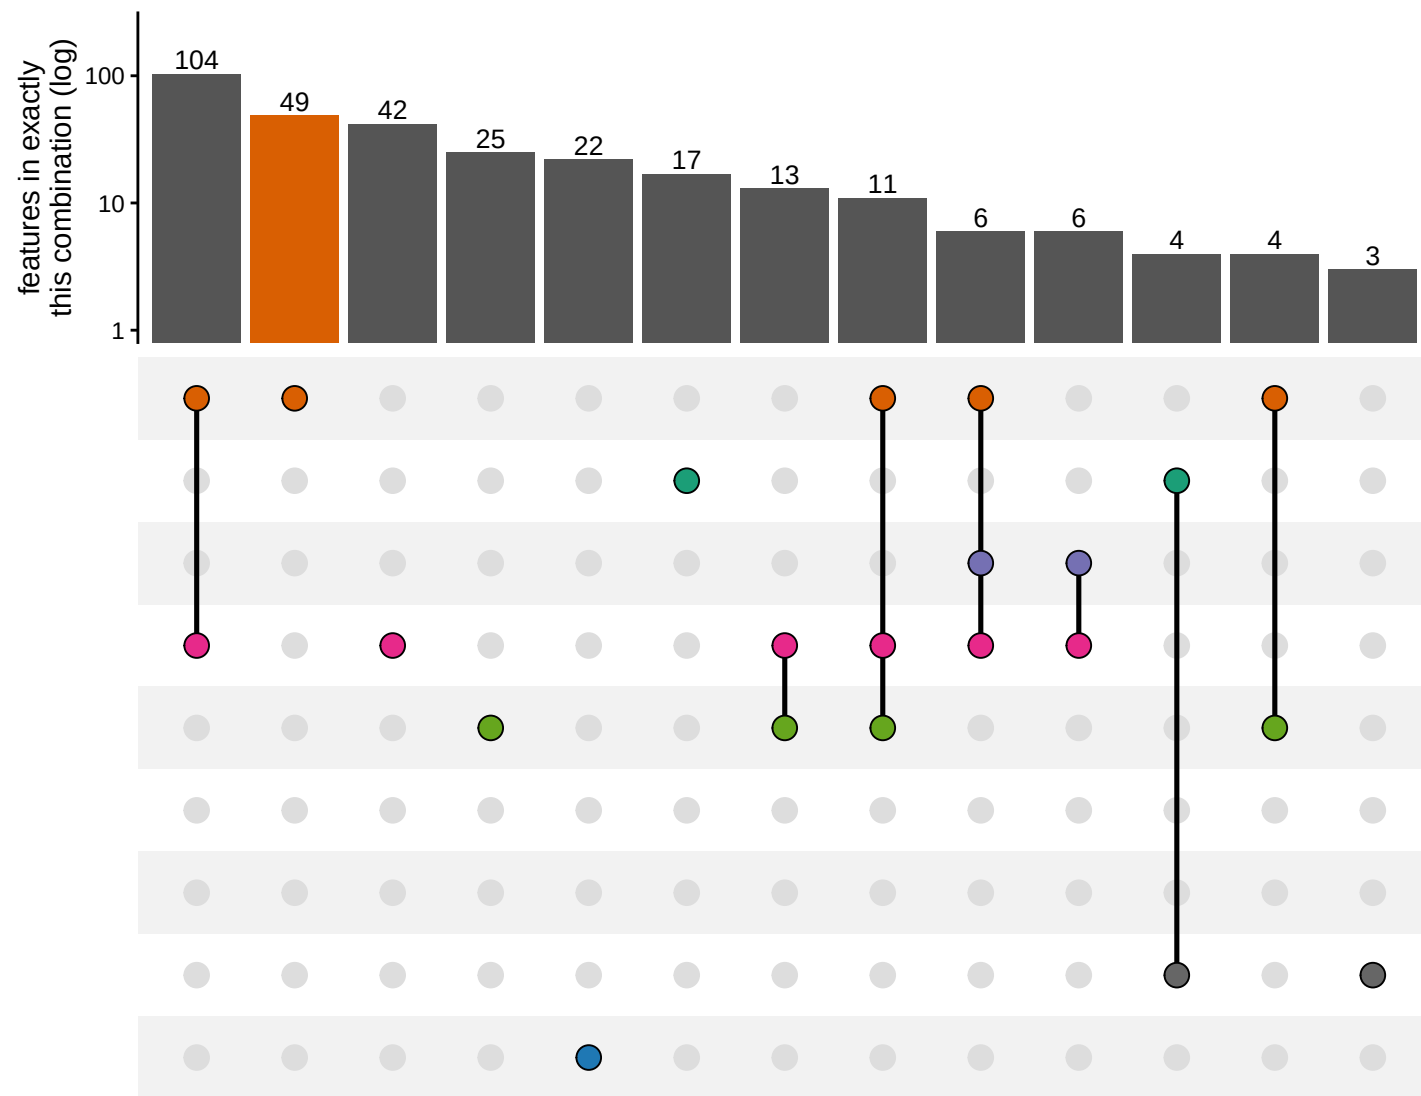

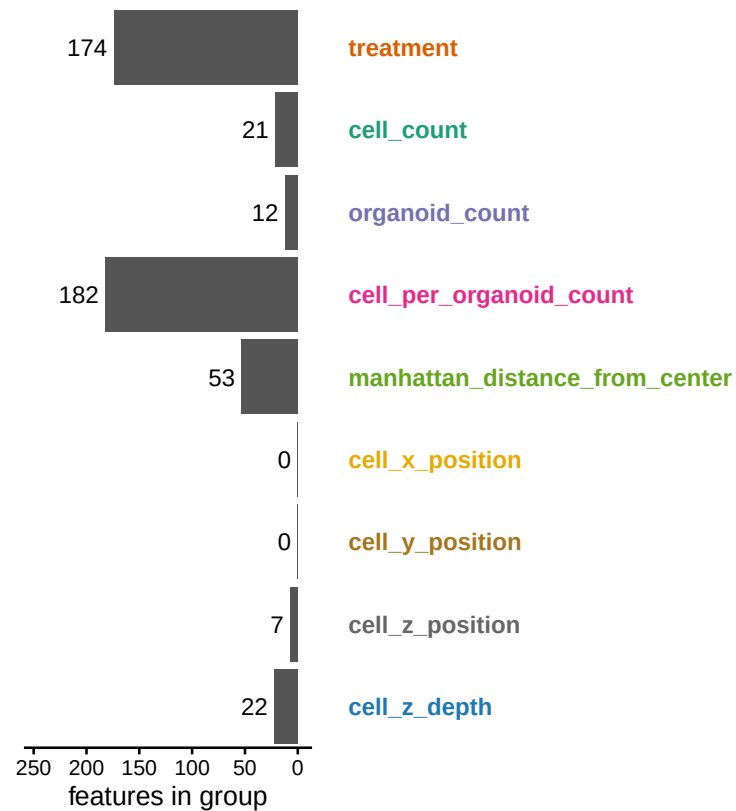

Feature membership across variate groups, treatment=Trabectedin_1uM, tumor_type=Other (orange = treatment only)

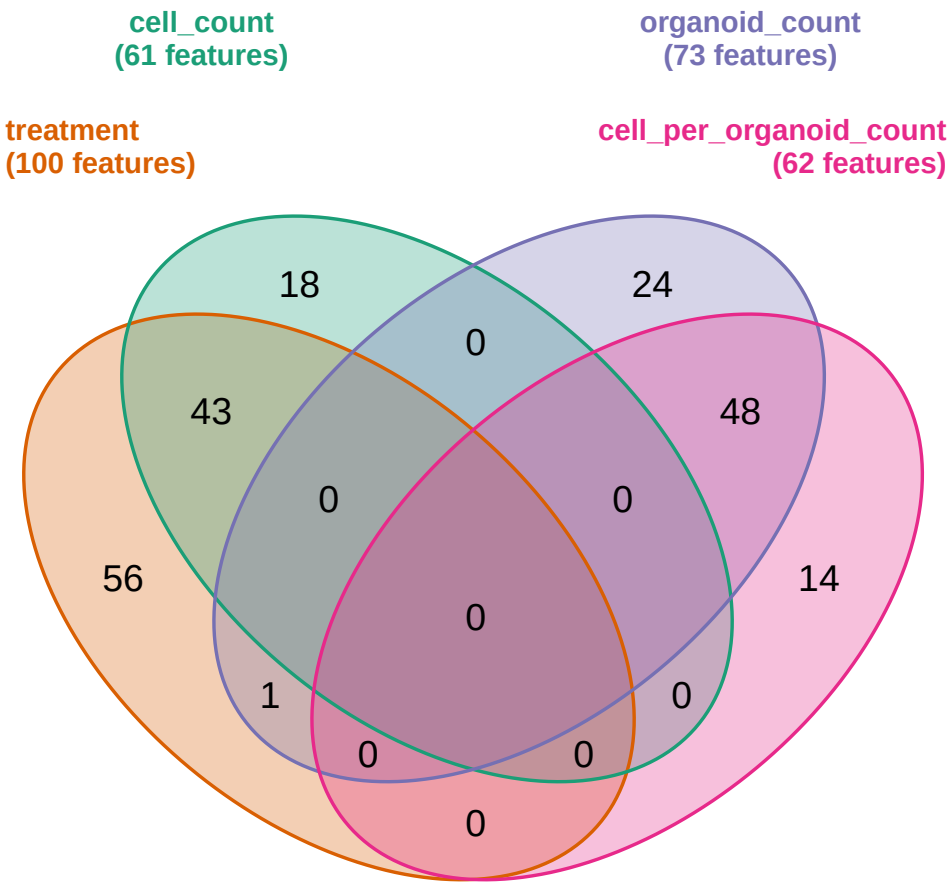

Features that are significant for each variate (treatment=Trabectedin_1uM, tumor_type=cNF)
278 of 534 features are significant for none of these 4 variates

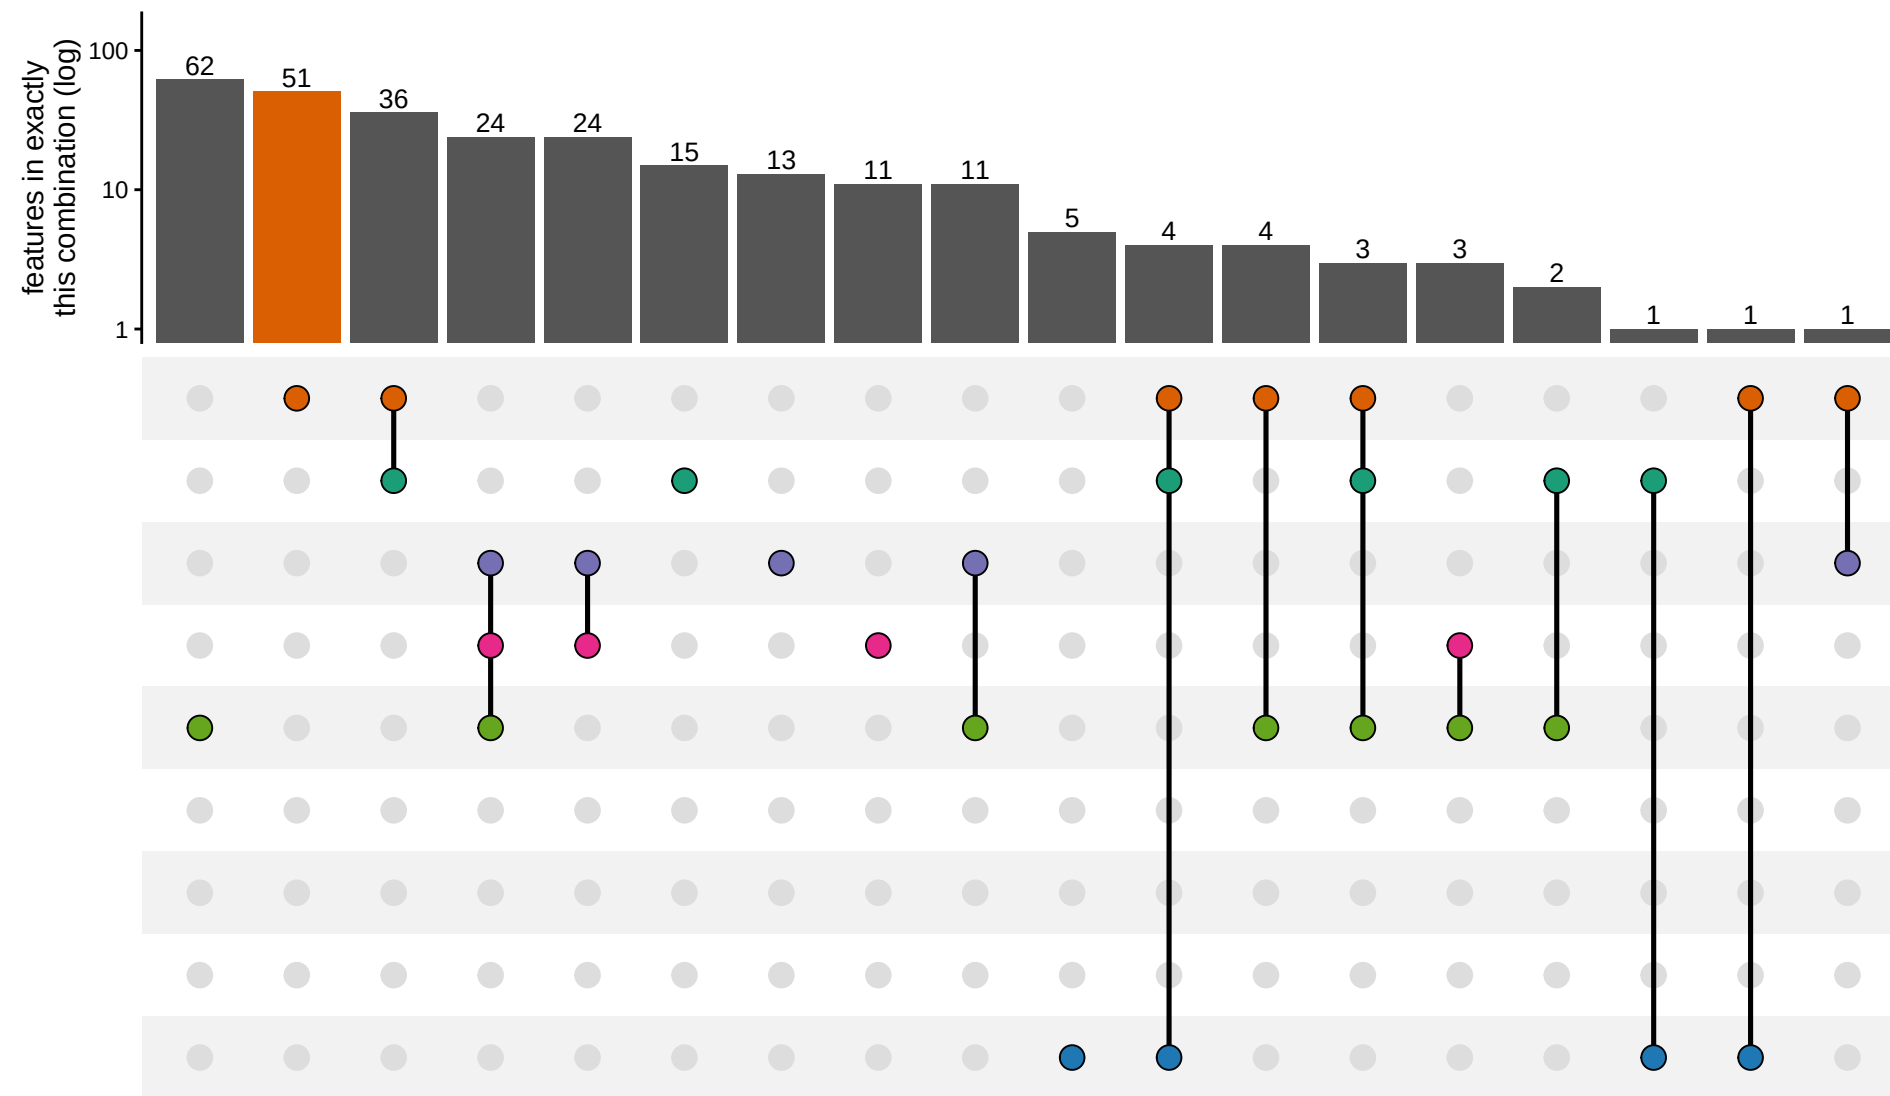

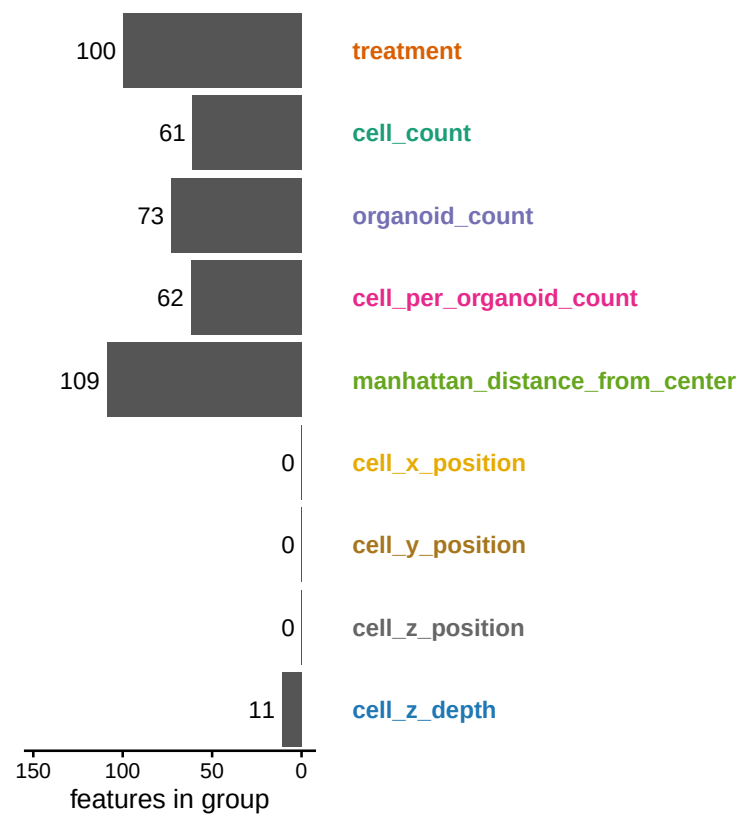

Feature membership across variate groups, treatment=Trabectedin_1uM, tumor_type=cNF (orange = treatment only)

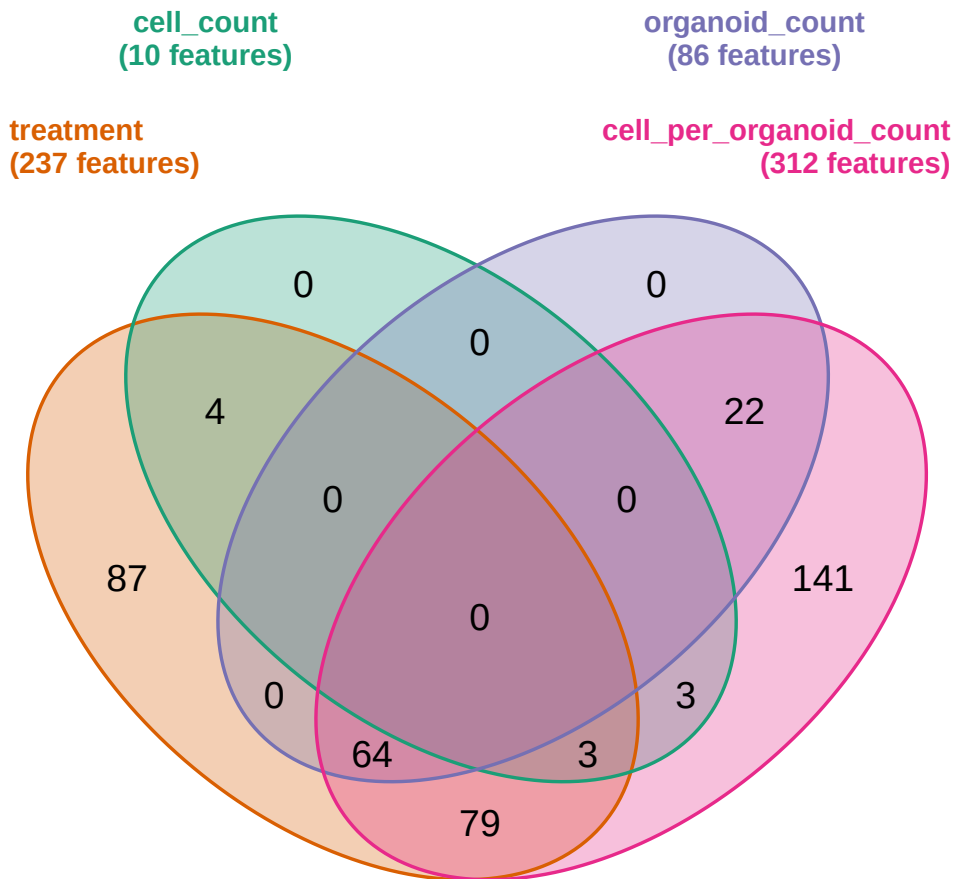

Features that are significant for each variate (treatment=Trabectedin_1uM, tumor_type=pNF)
330 of 534 features are significant for none of these 4 variates

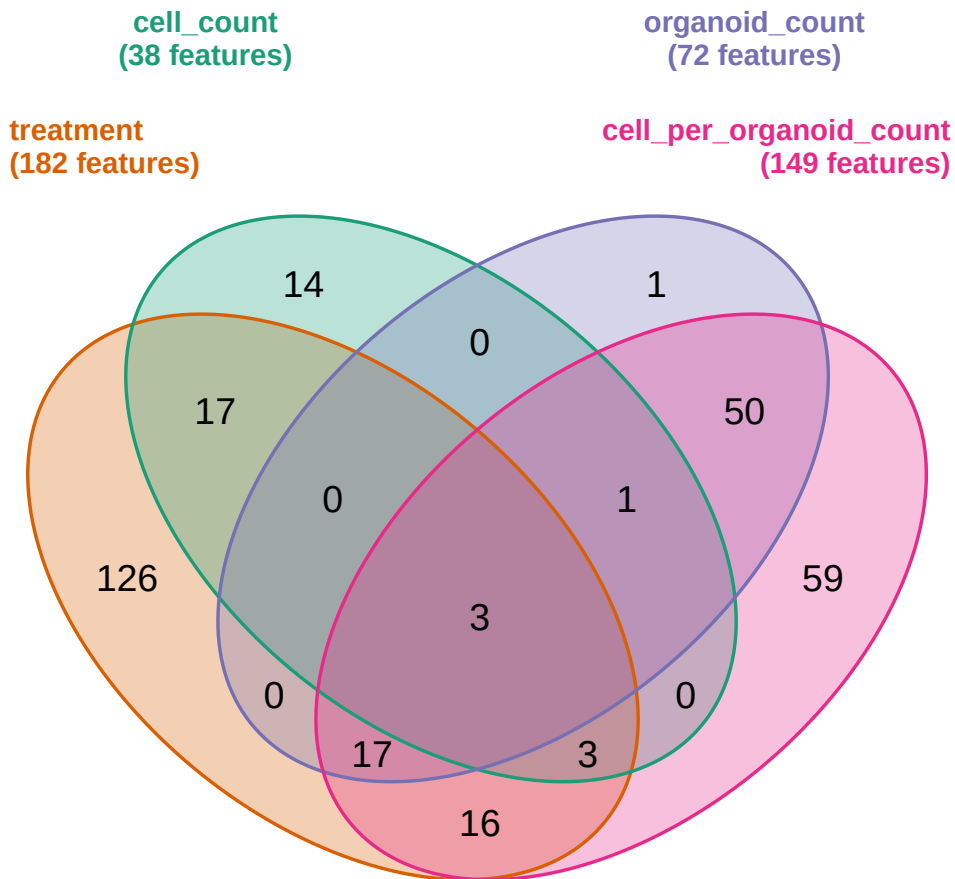

Feature membership across variate groups, treatment=Trabectedin_1uM, tumor_type=pNF (orange = treatment only)

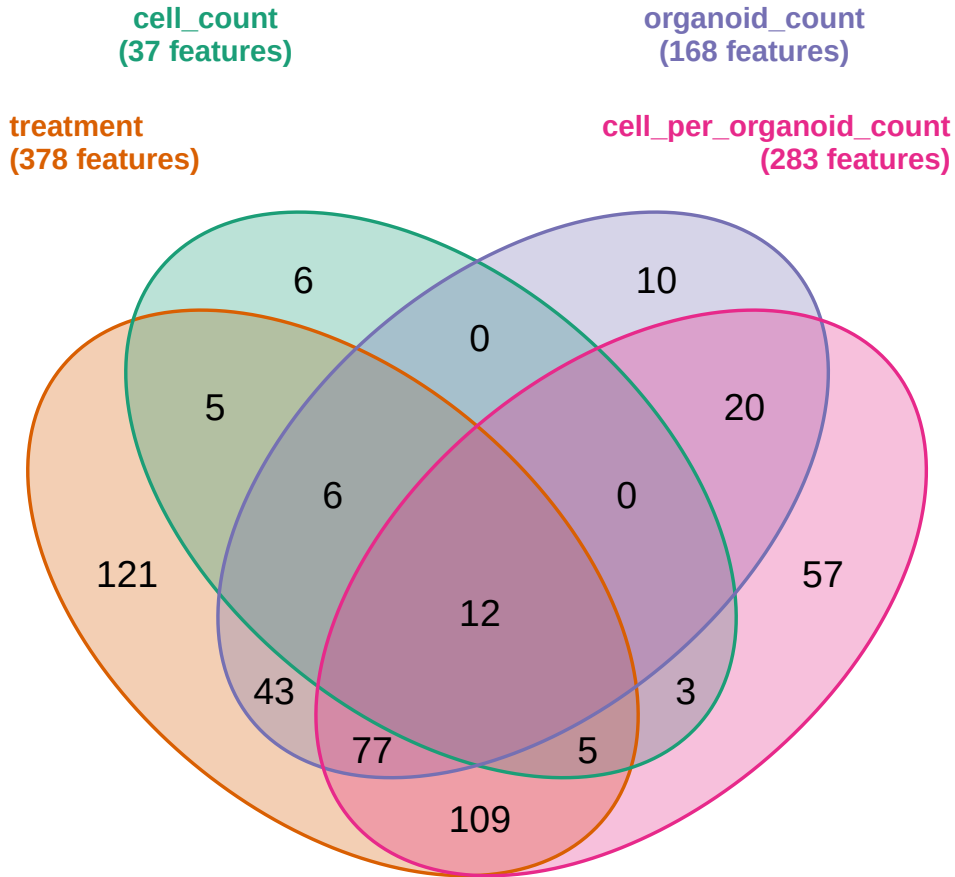

Features that are significant for each variate (treatment=Trametinib_10uM, tumor_type=MPNST)
131 of 534 features are significant for none of these 4 variates

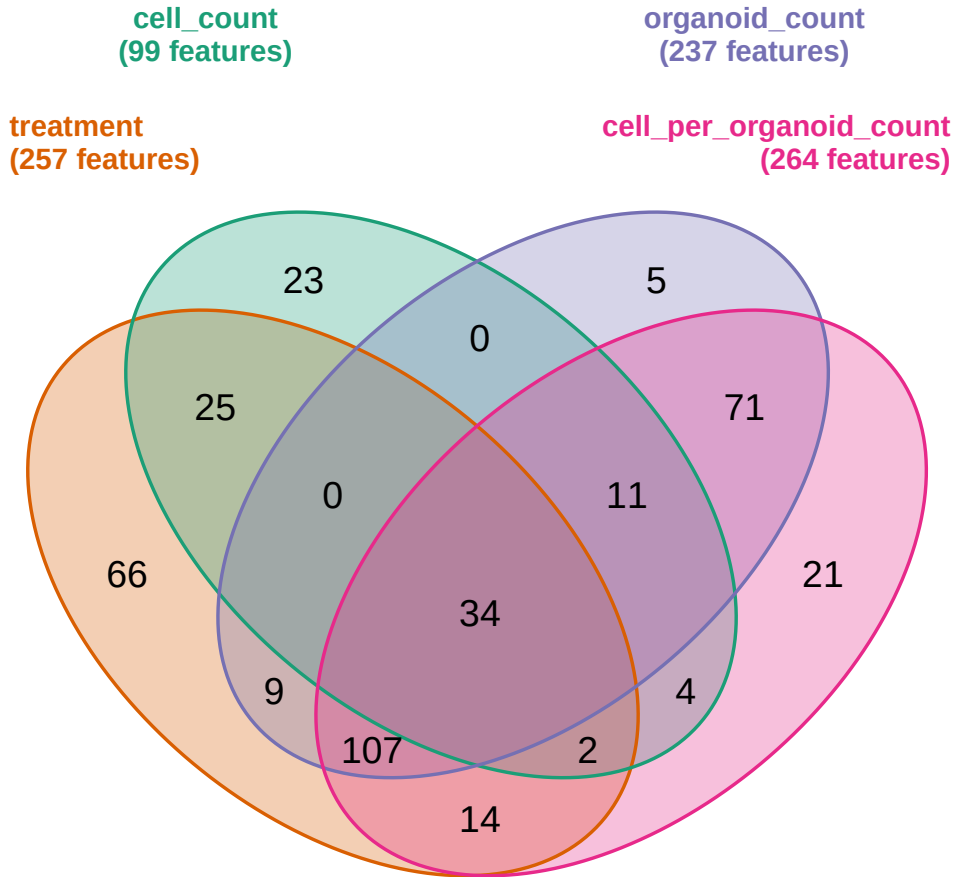

Features that are significant for each variate (treatment=Trametinib_10uM, tumor_type=Other)
227 of 534 features are significant for none of these 4 variates

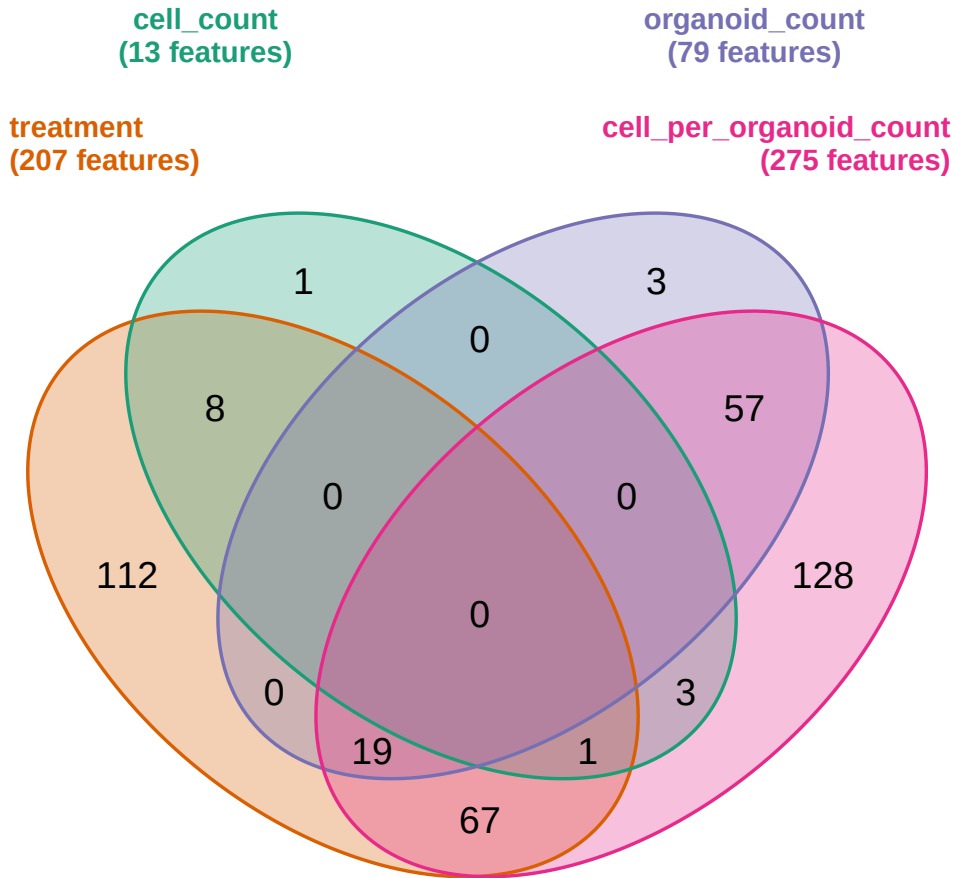

Features that are significant for each variate (treatment=Trametinib_10uM, tumor_type=cNF)
60 of 534 features are significant for none of these 4 variates

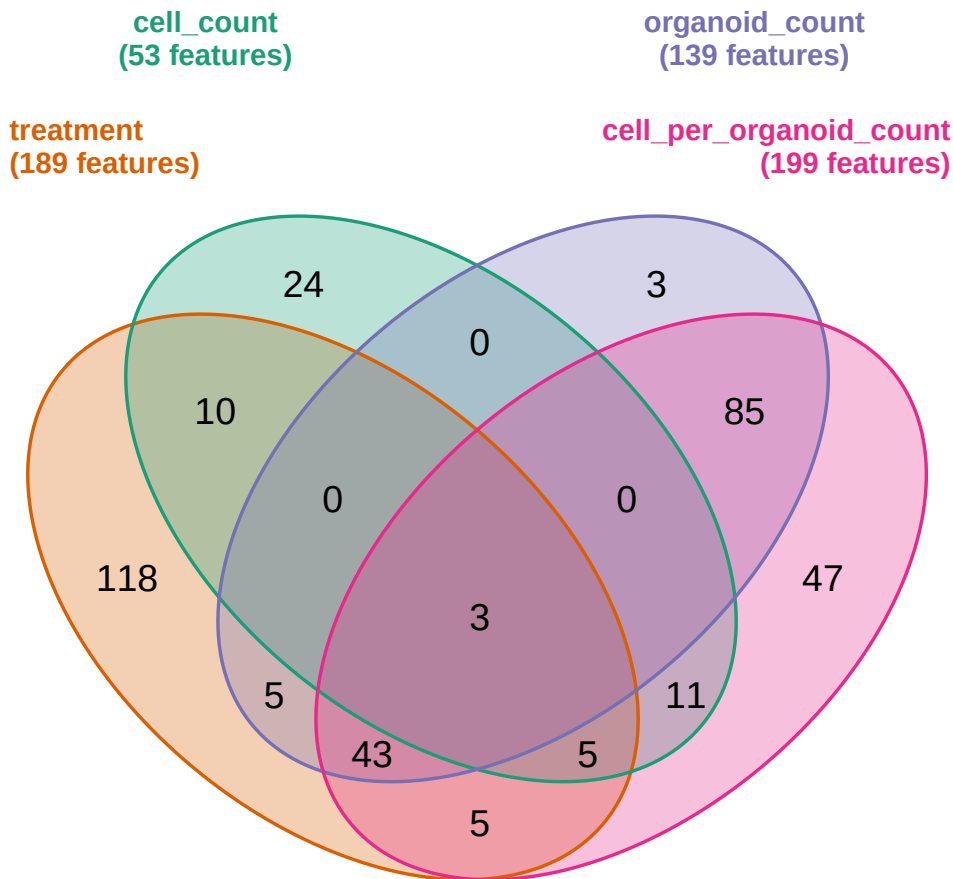

Features that are significant for each variate (treatment=Trametinib_10uM, tumor_type=pNF)
142 of 534 features are significant for none of these 4 variates

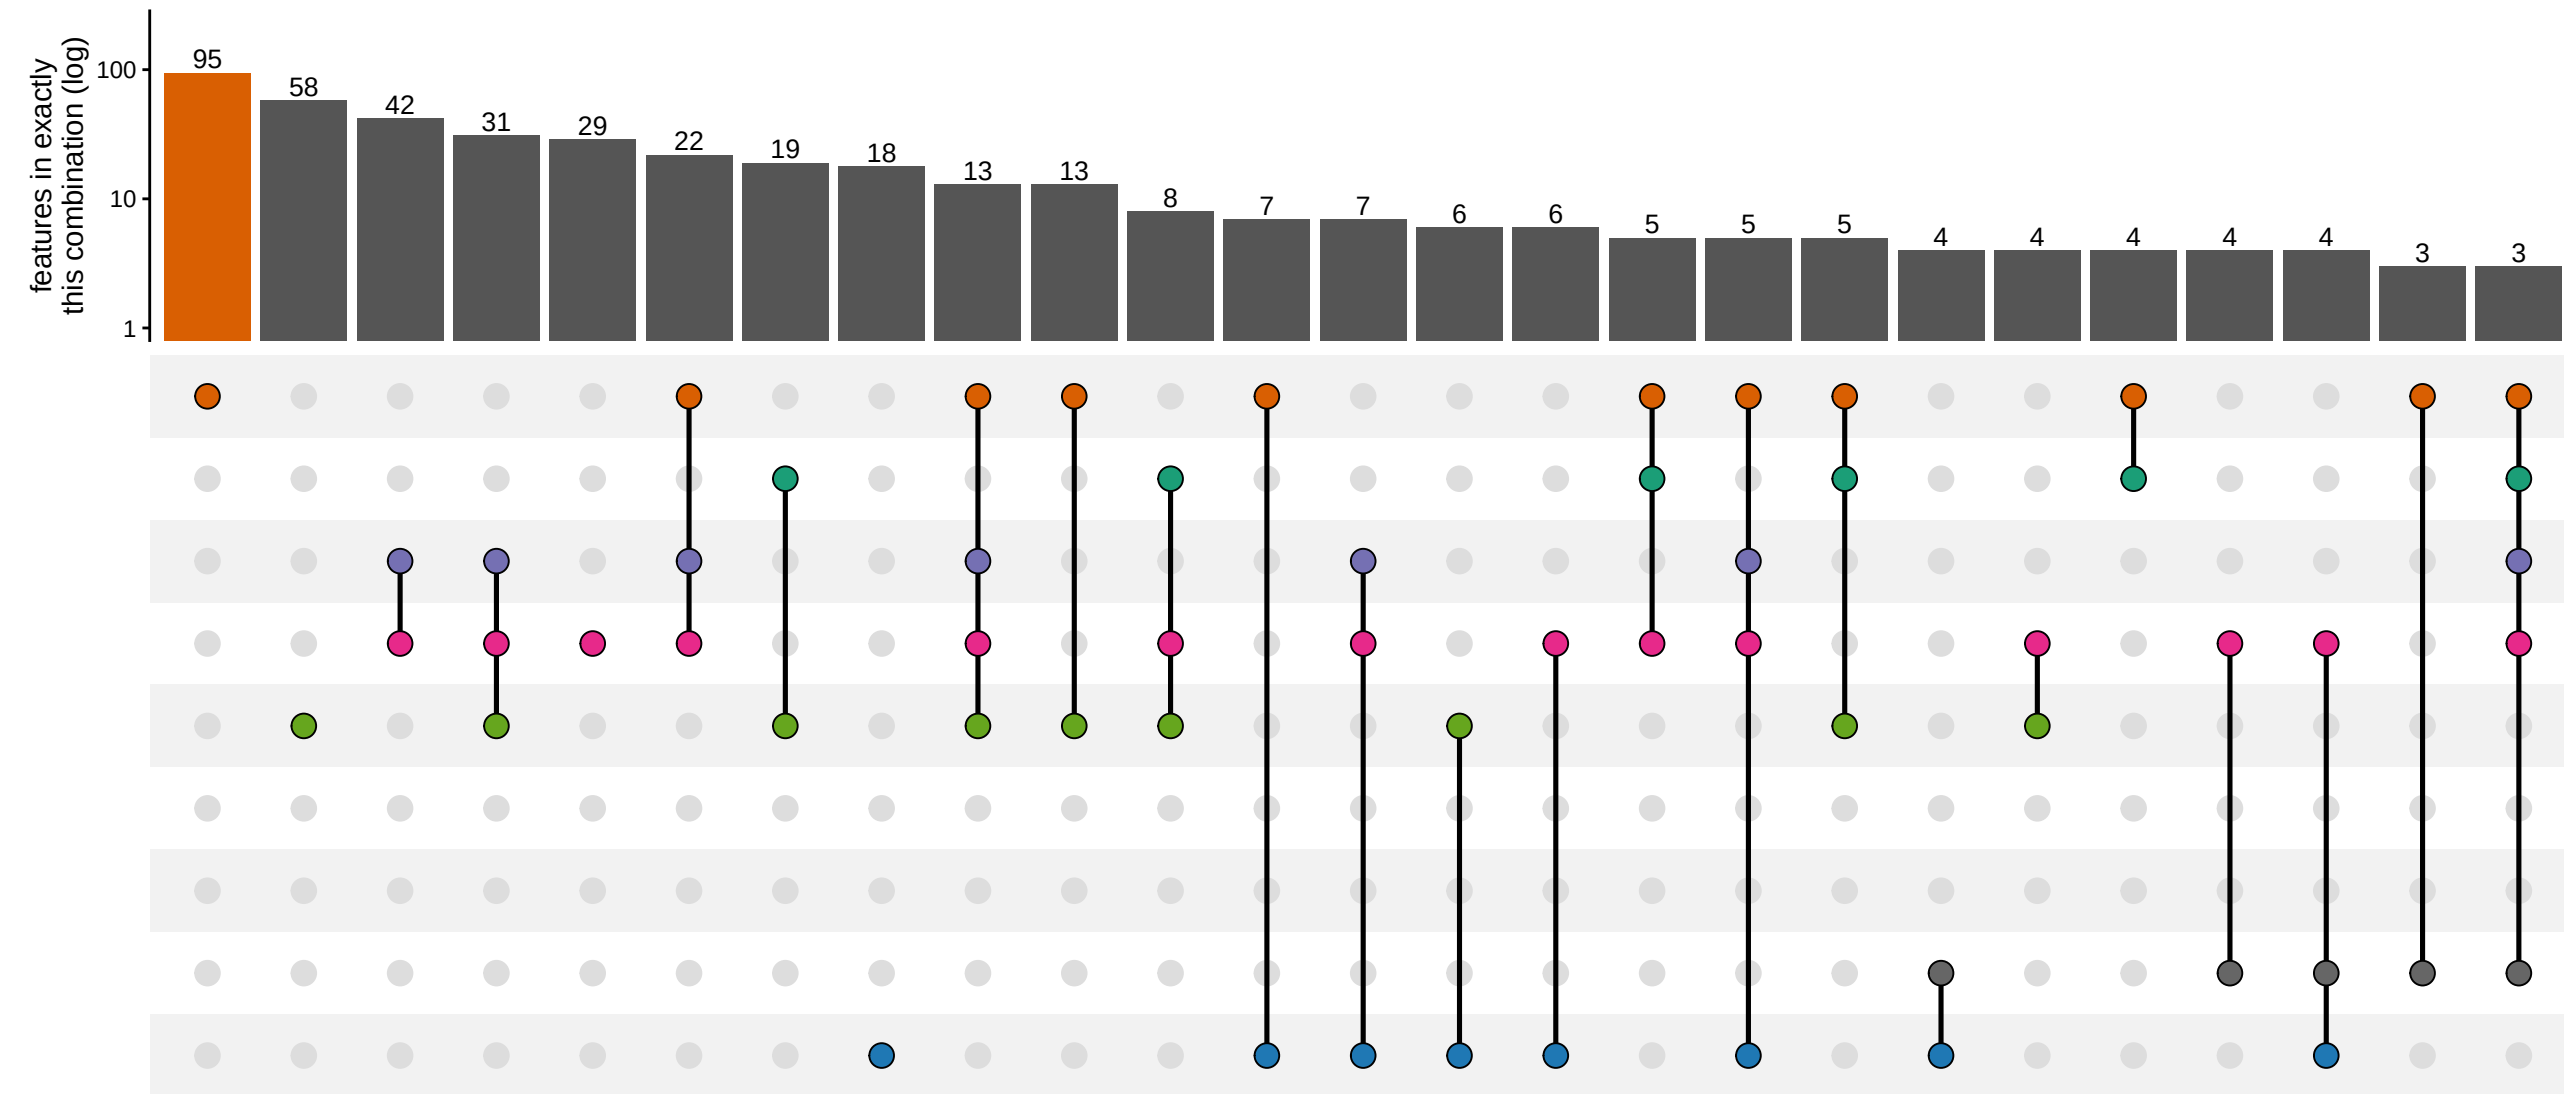

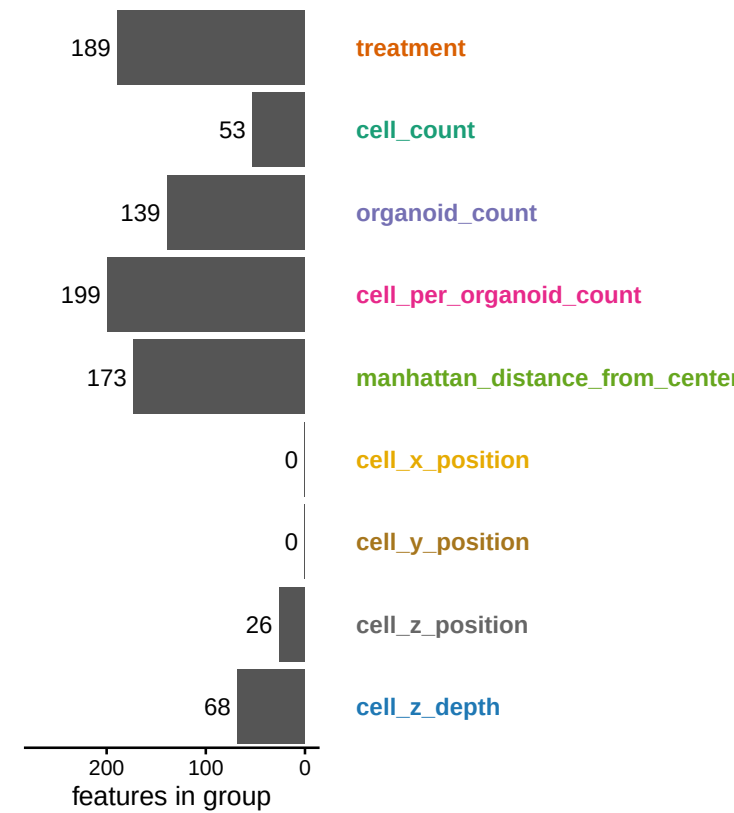

Features that are significant for each variate (treatment=Trametinib_1uM, tumor_type=MPNST)
135 of 534 features are significant for none of these 4 variates

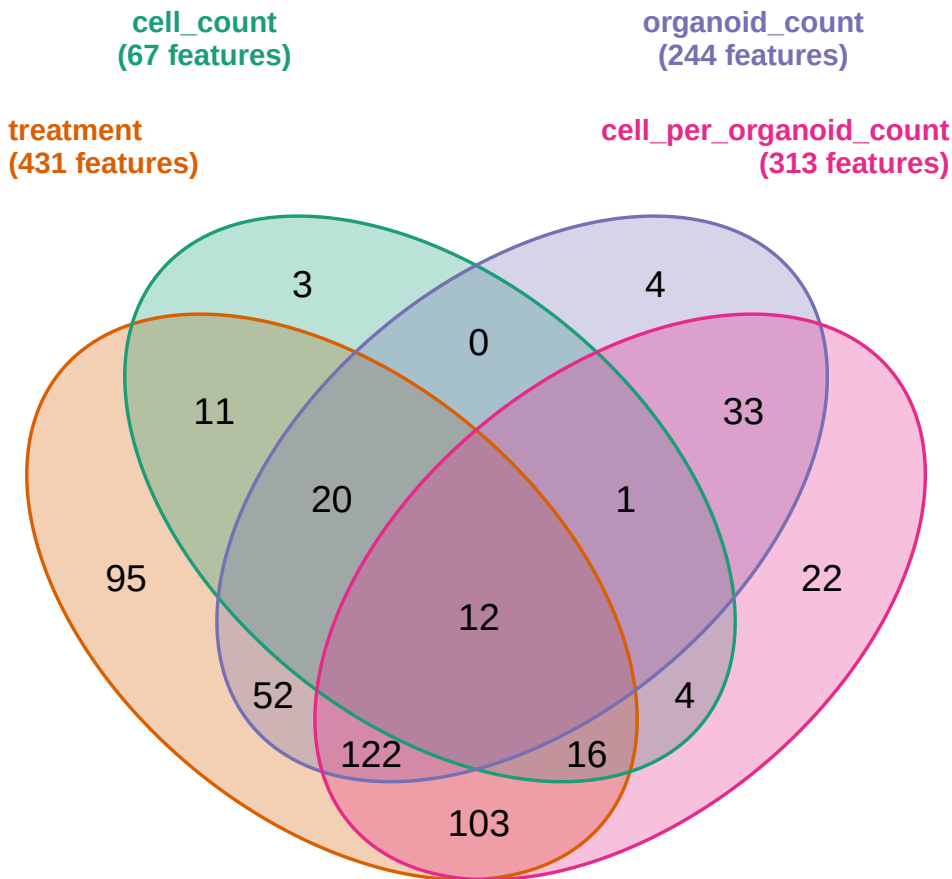

Features that are significant for each variate (treatment=Trametinib_1uM, tumor_type=Other)
175 of 534 features are significant for none of these 4 variates

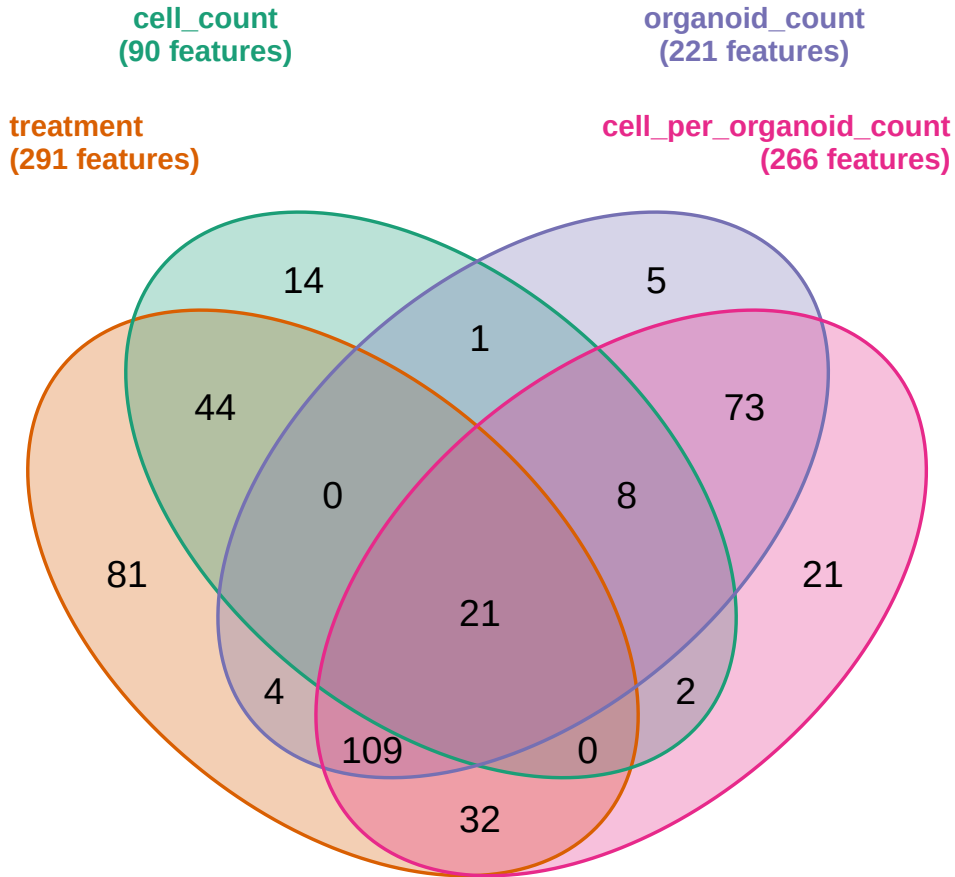

Feature membership across variate groups, treatment=Trametinib_1uM, tumor_type=Other (top 25 of 40 combinations; orange = treatment only)

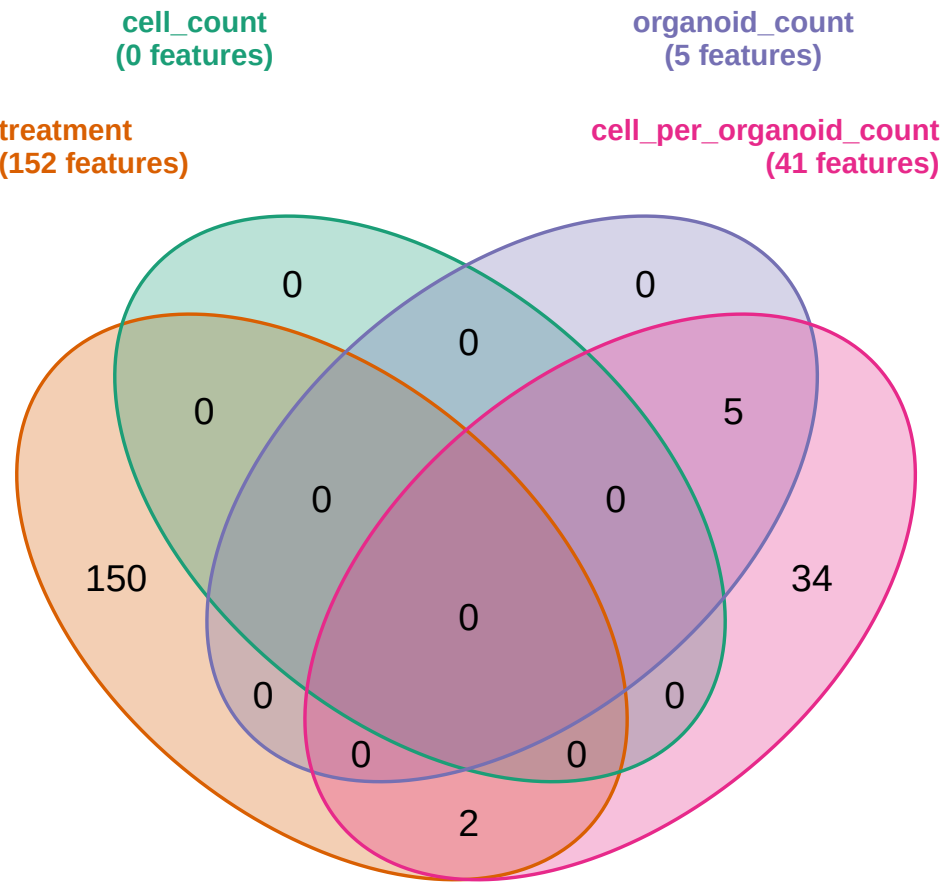

Features that are significant for each variate (treatment=Trametinib_1uM, tumor_type=cNF)
36 of 534 features are significant for none of these 4 variates

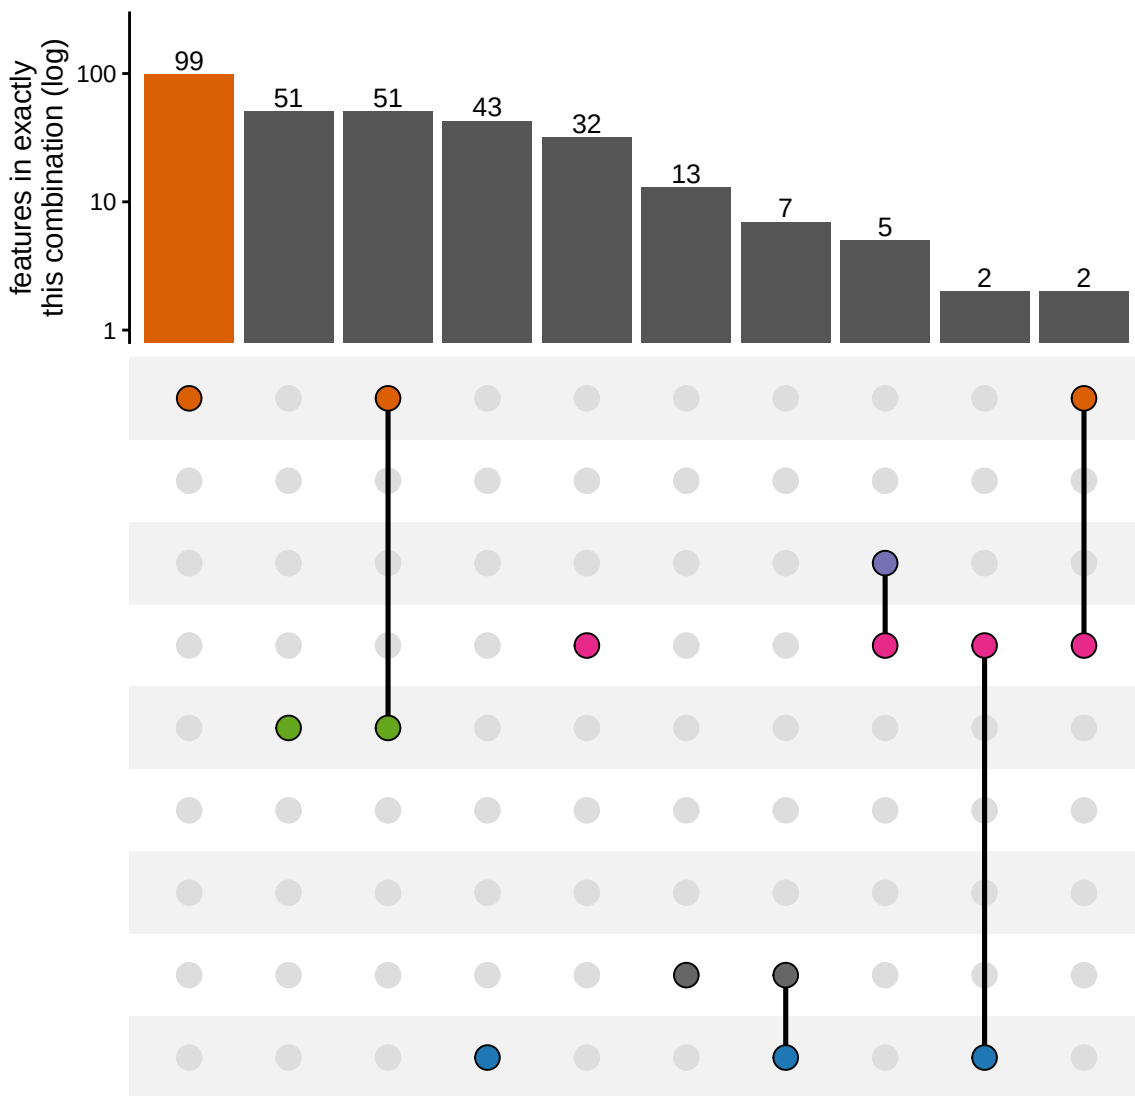

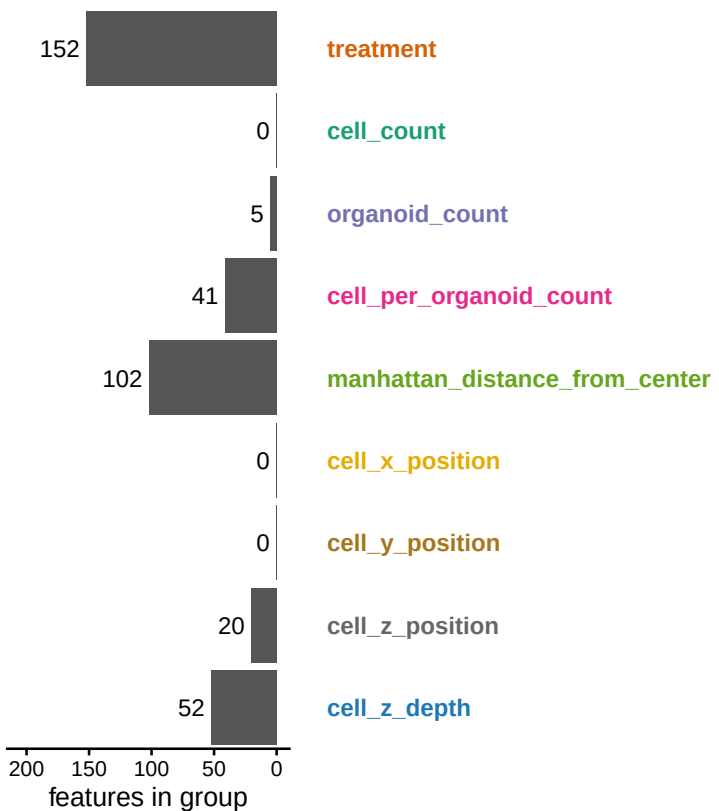

Features that are significant for each variate (treatment=Trametinib_1uM, tumor_type=pNF)
119 of 534 features are significant for none of these 4 variates

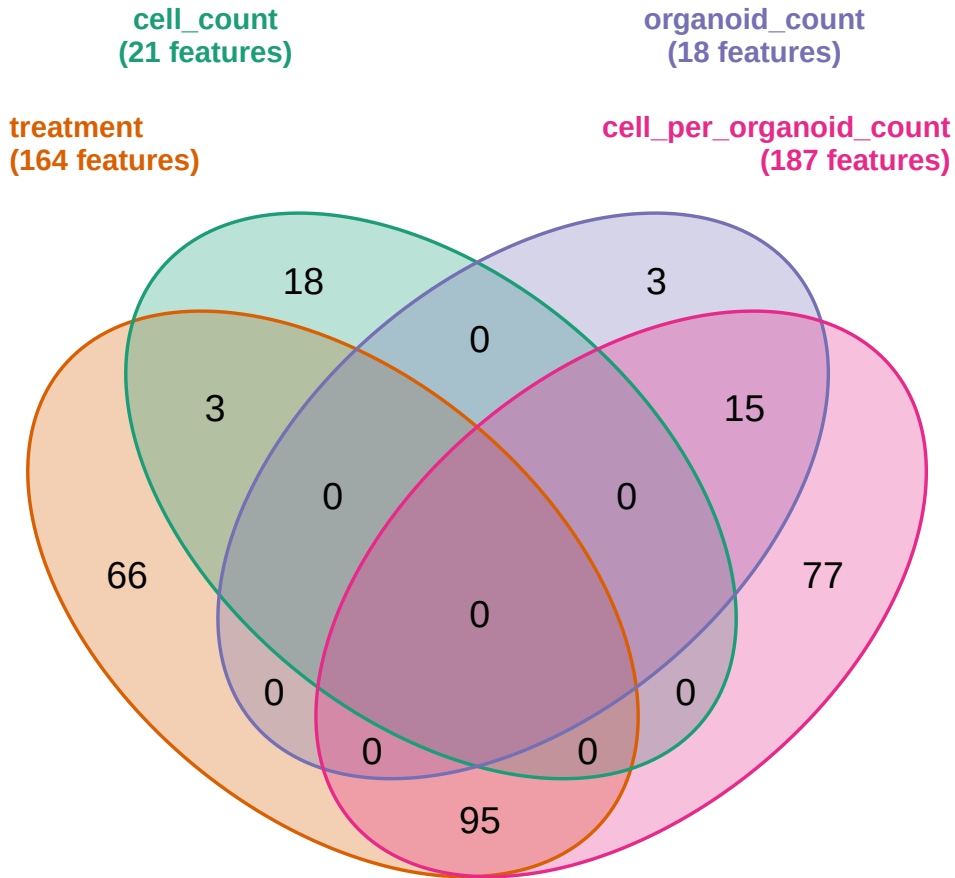

Features that are significant for each variate (treatment=Vistusertib_1uM, tumor_type=Other)
343 of 534 features are significant for none of these 4 variates

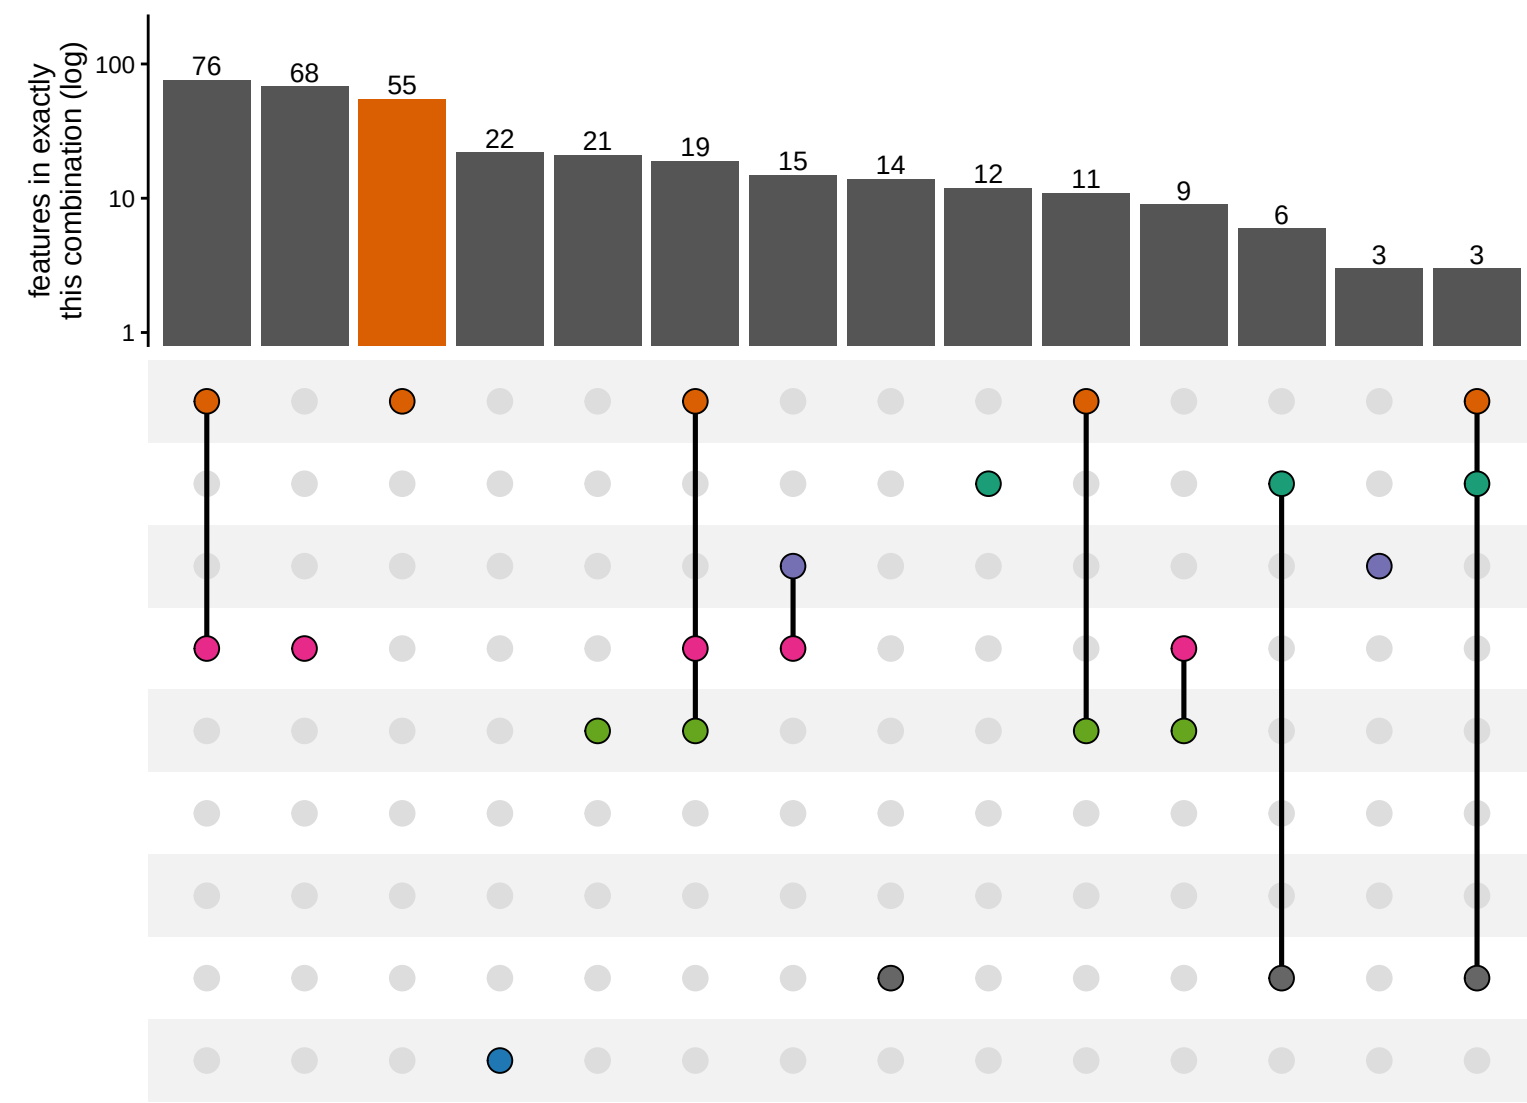

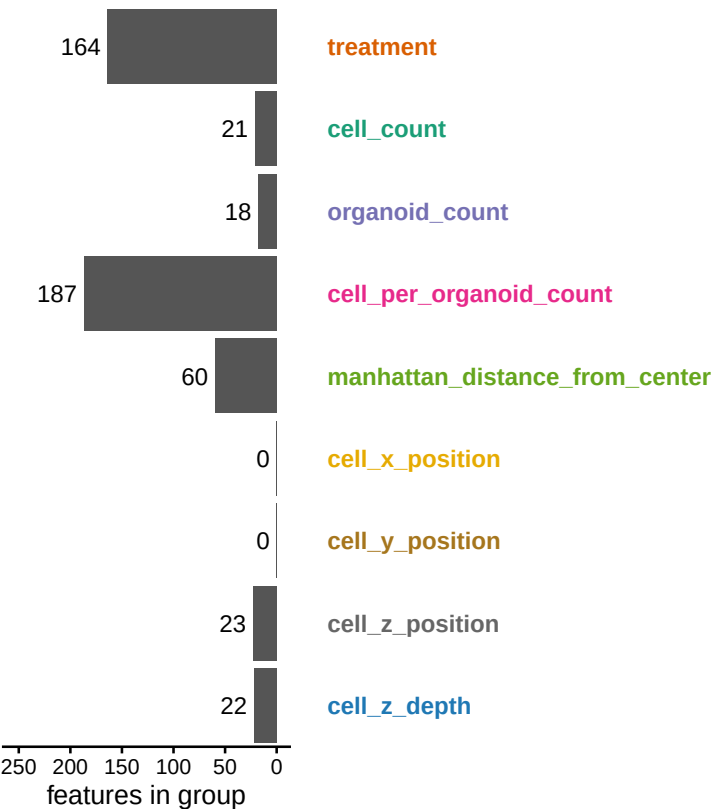

Feature membership across variate groups, treatment=Vistusertib_1uM, tumor_type=Other (orange = treatment only)

Features that are significant for each variate (treatment=Vistusertib_1uM, tumor_type=cNF)
257 of 534 features are significant for none of these 4 variates

Feature membership across variate groups, treatment=Vistusertib_1uM, tumor_type=cNF (orange = treatment only)

Features that are significant for each variate (treatment=Vistusertib_1uM, tumor_type=pNF)
284 of 534 features are significant for none of these 4 variates
