

Features significant for exactly these variates, by the patients they occur in (bars: number of features shared by exactly that patient combination)

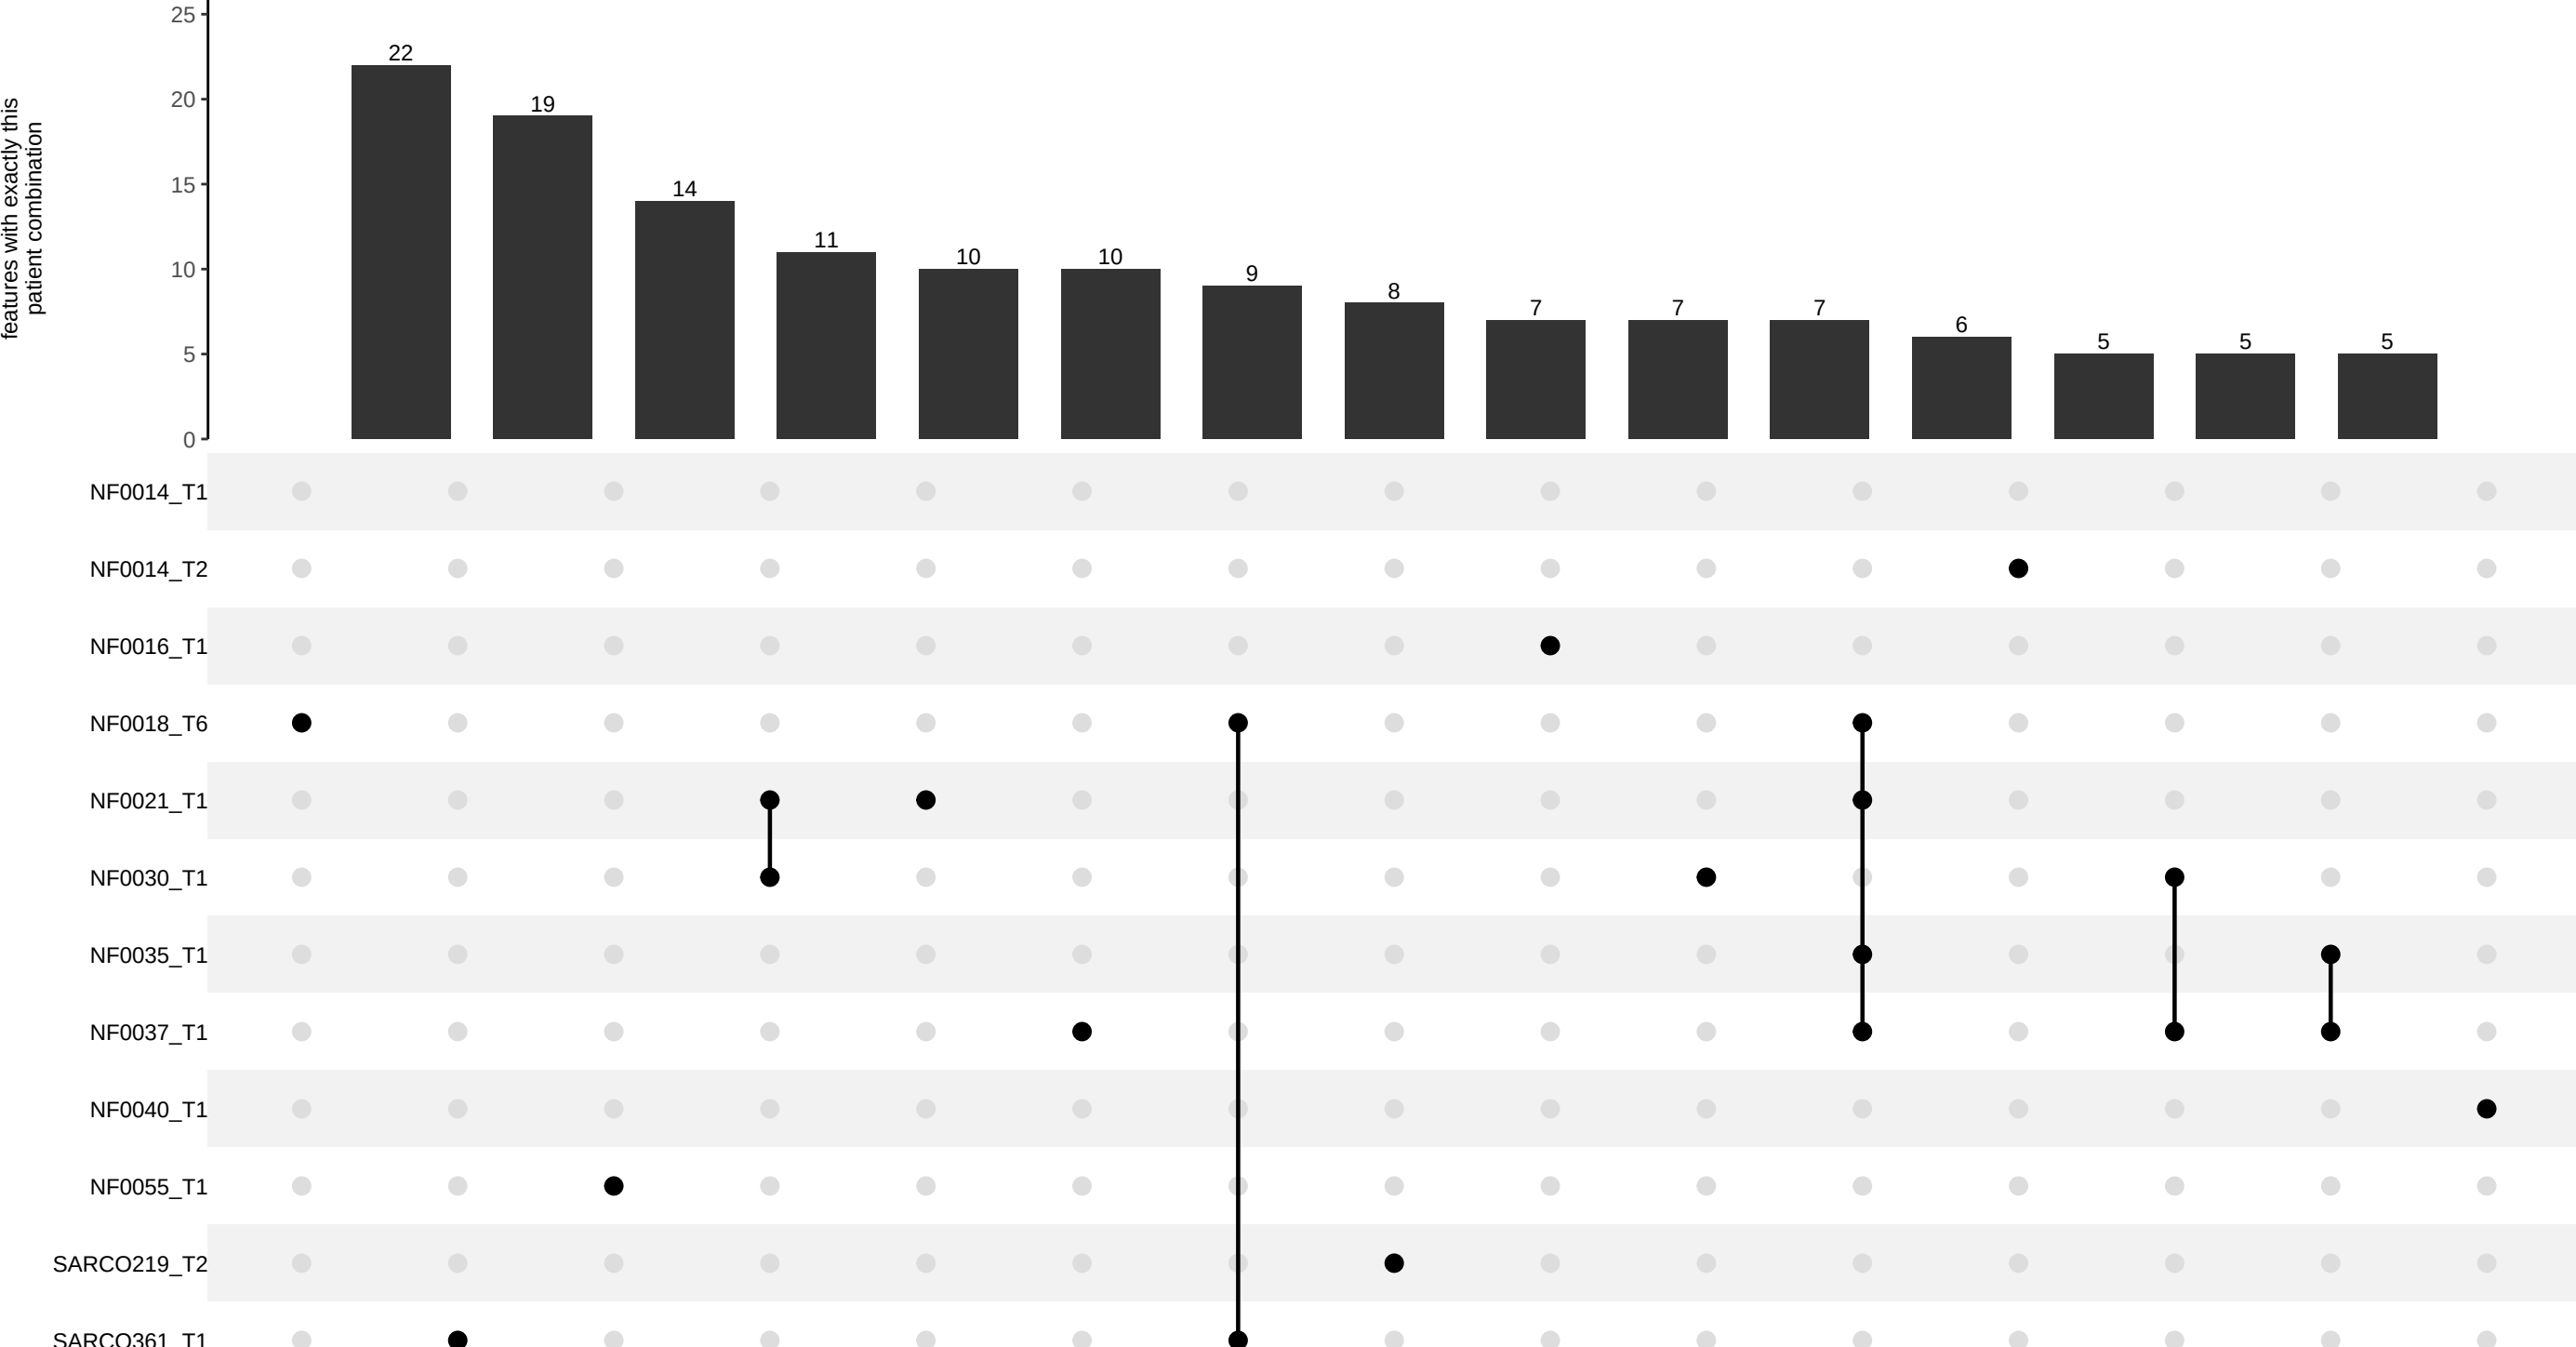

cell_count | Binimetinib_10uM

Features significant for exactly these variates, by the patients they occur in
(bars: number of features shared by exactly that patient combination)

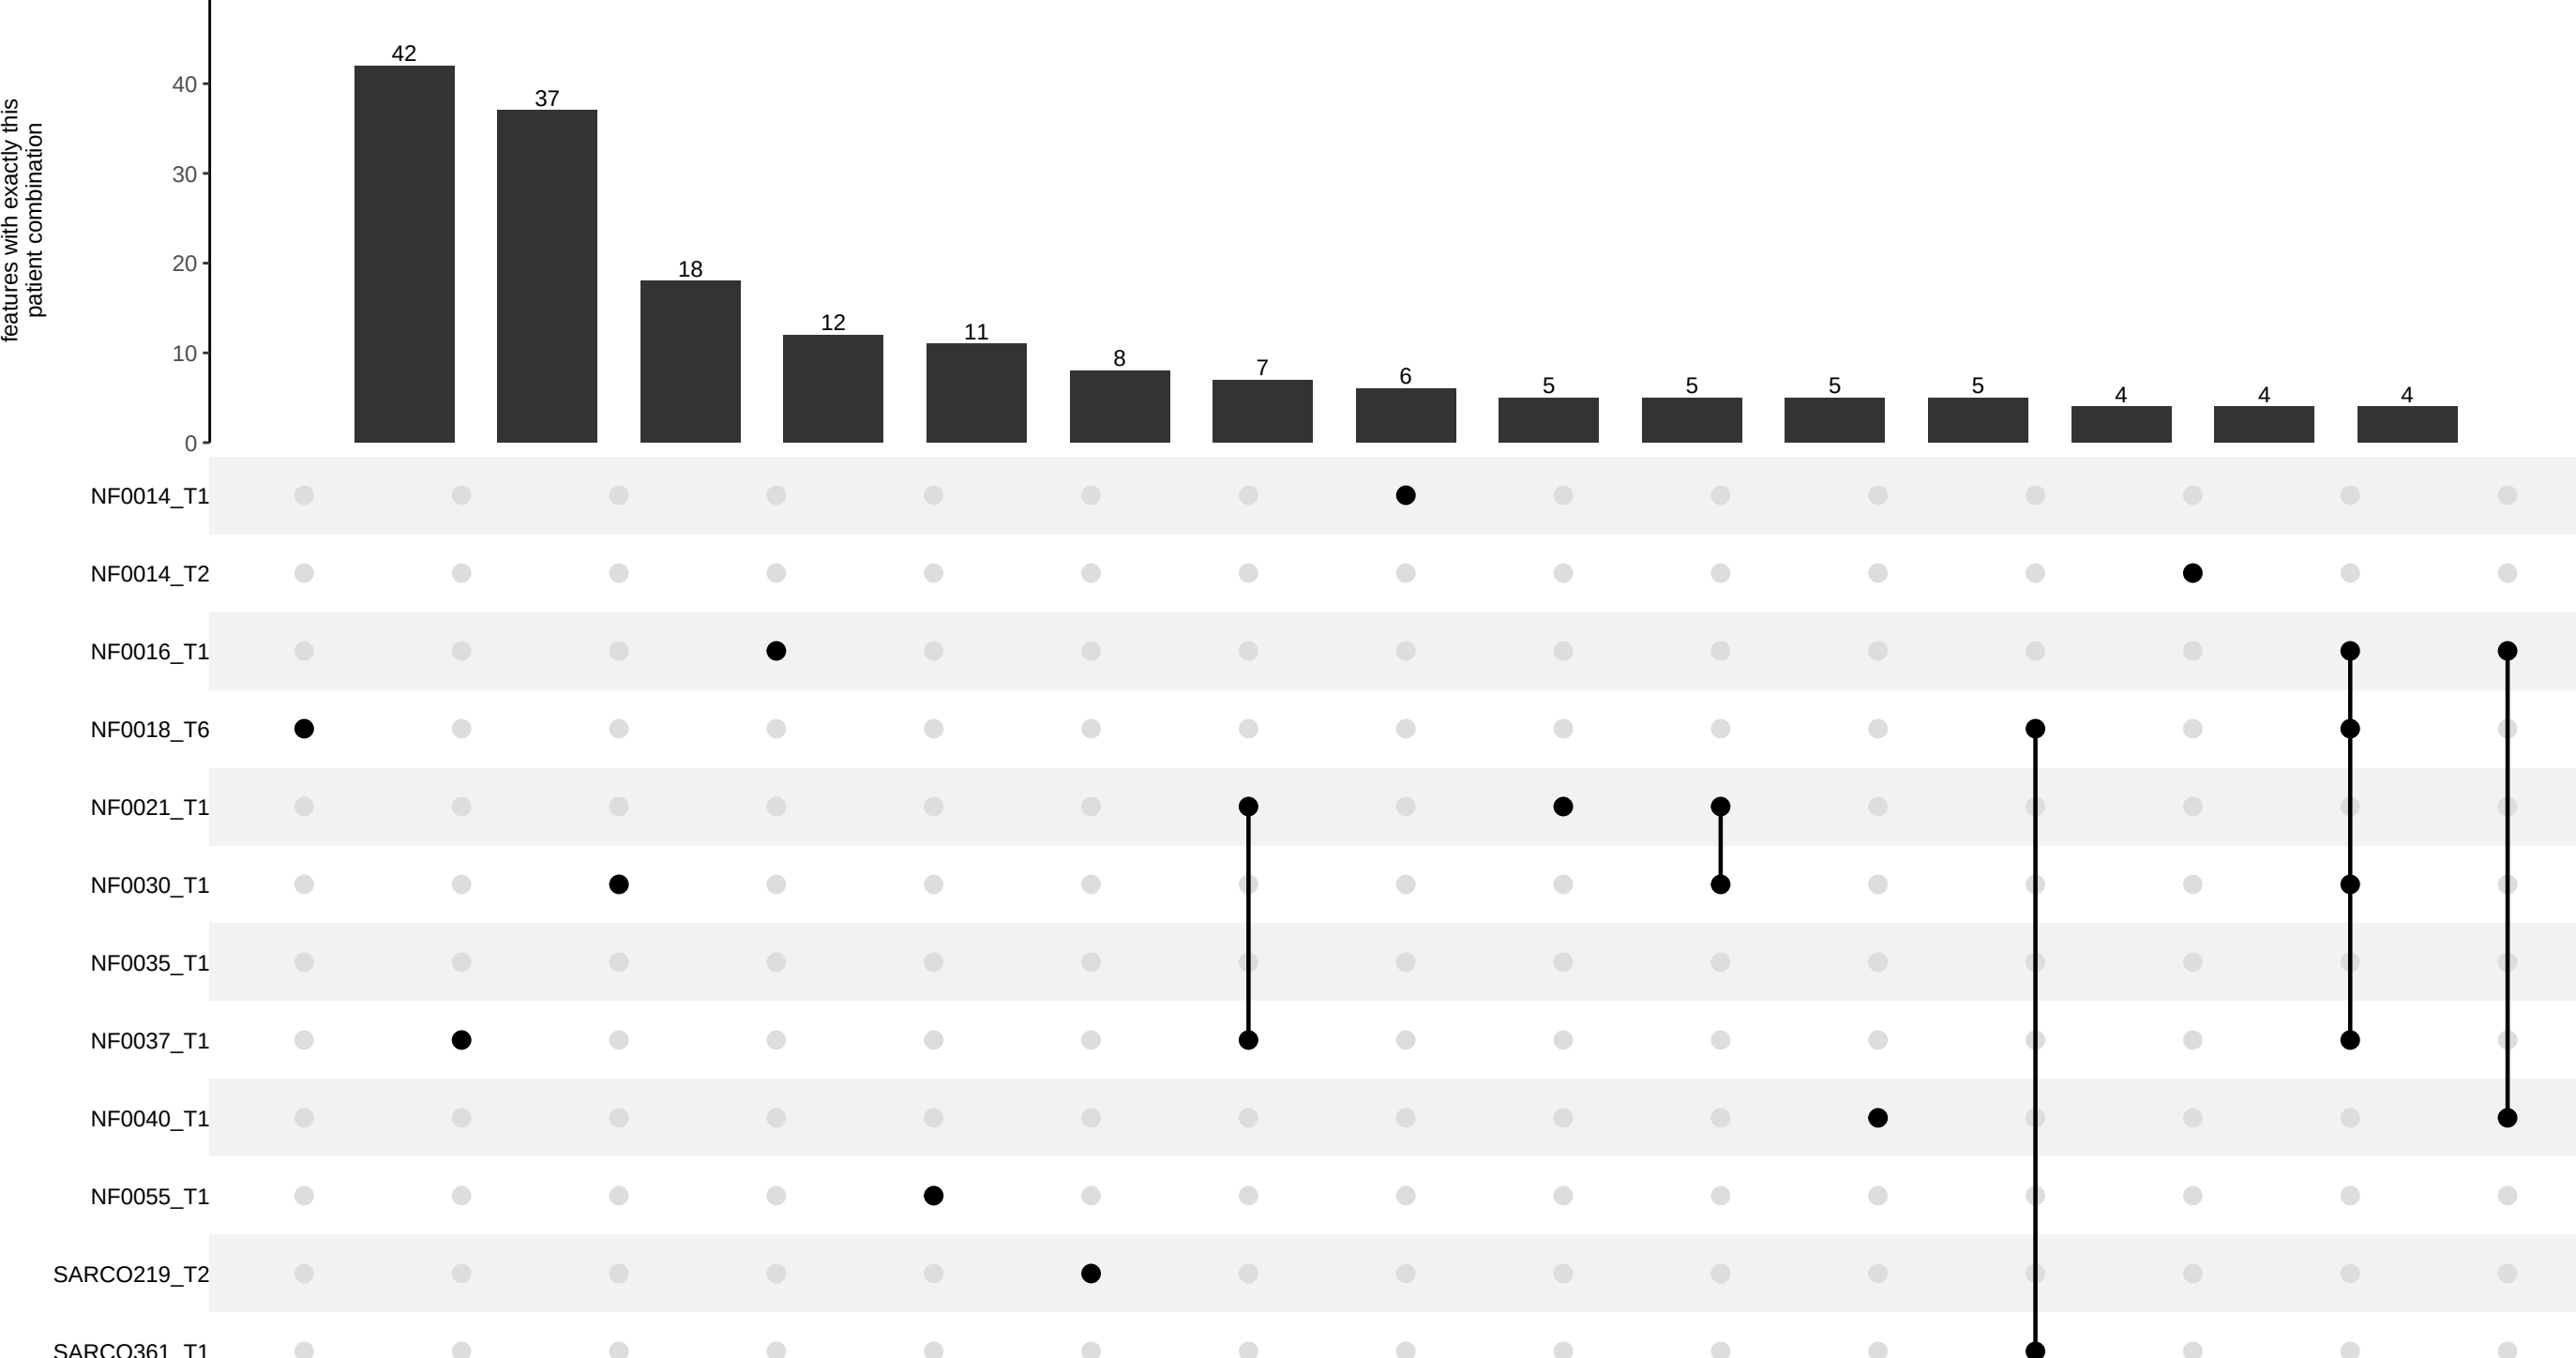

cell_count | Binimetinib_1uM

Features significant for exactly these variates, by the patients they occur in
(bars: number of features shared by exactly that patient combination)

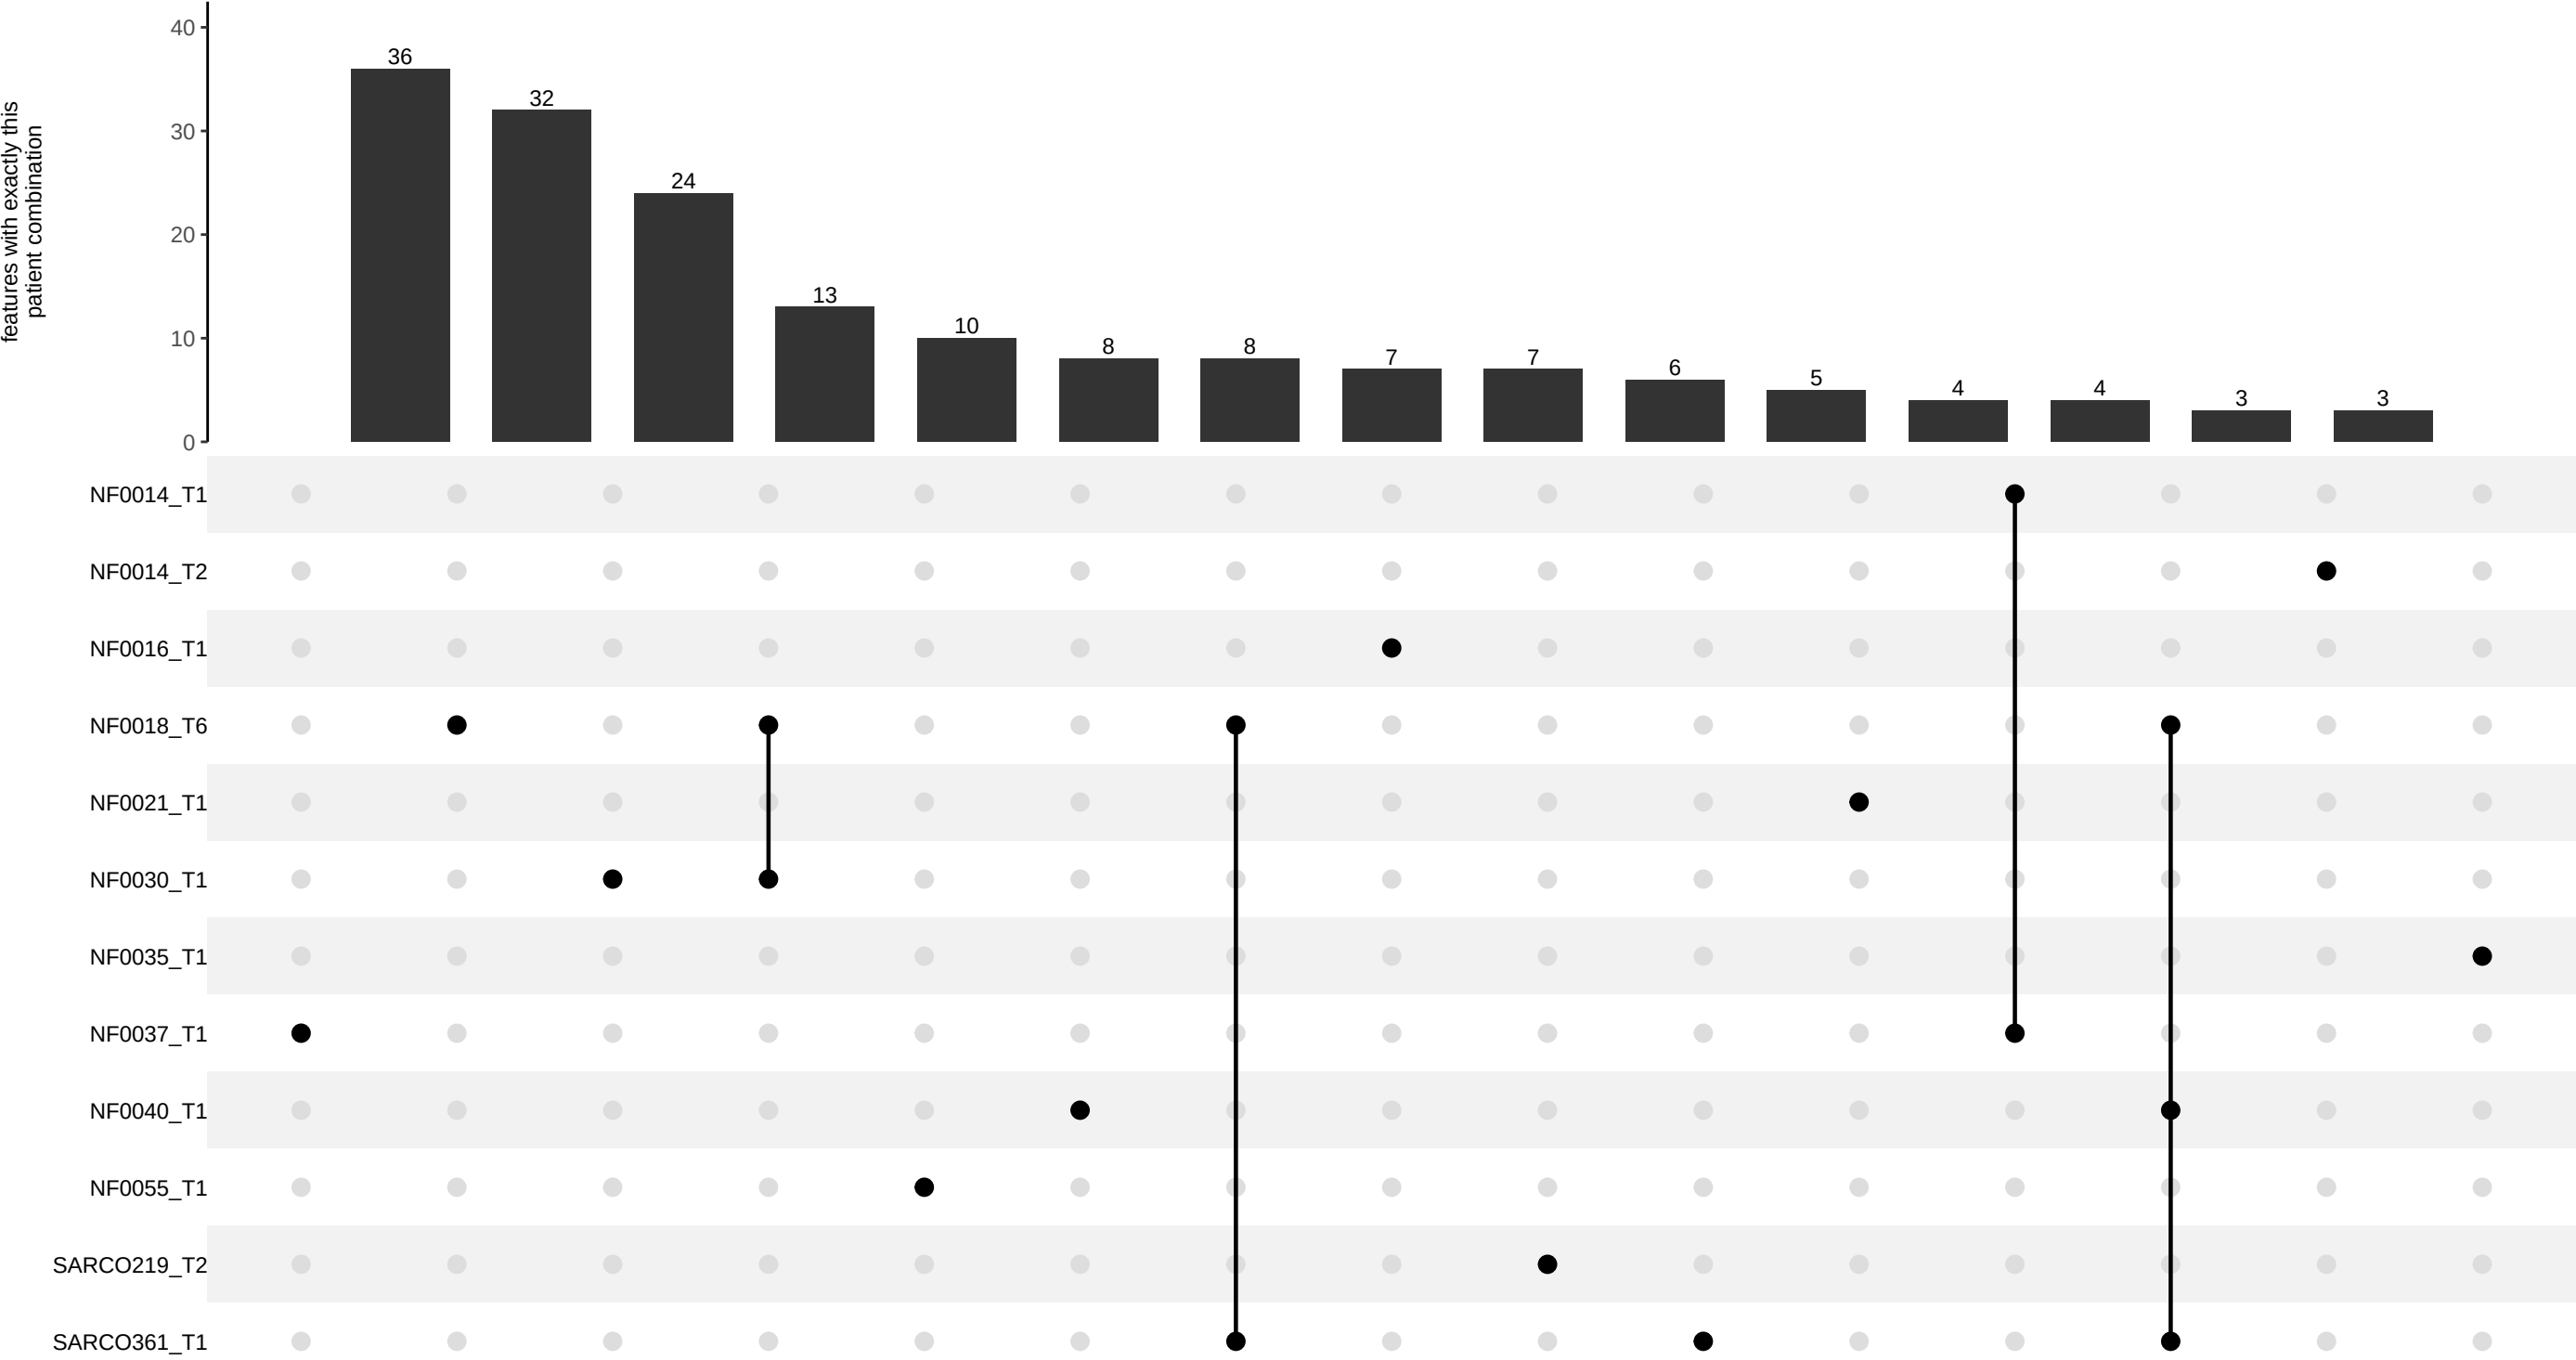

cell_count | Cabozantinib_1uM

Features significant for exactly these variates, by the patients they occur in
(bars: number of features shared by exactly that patient combination)

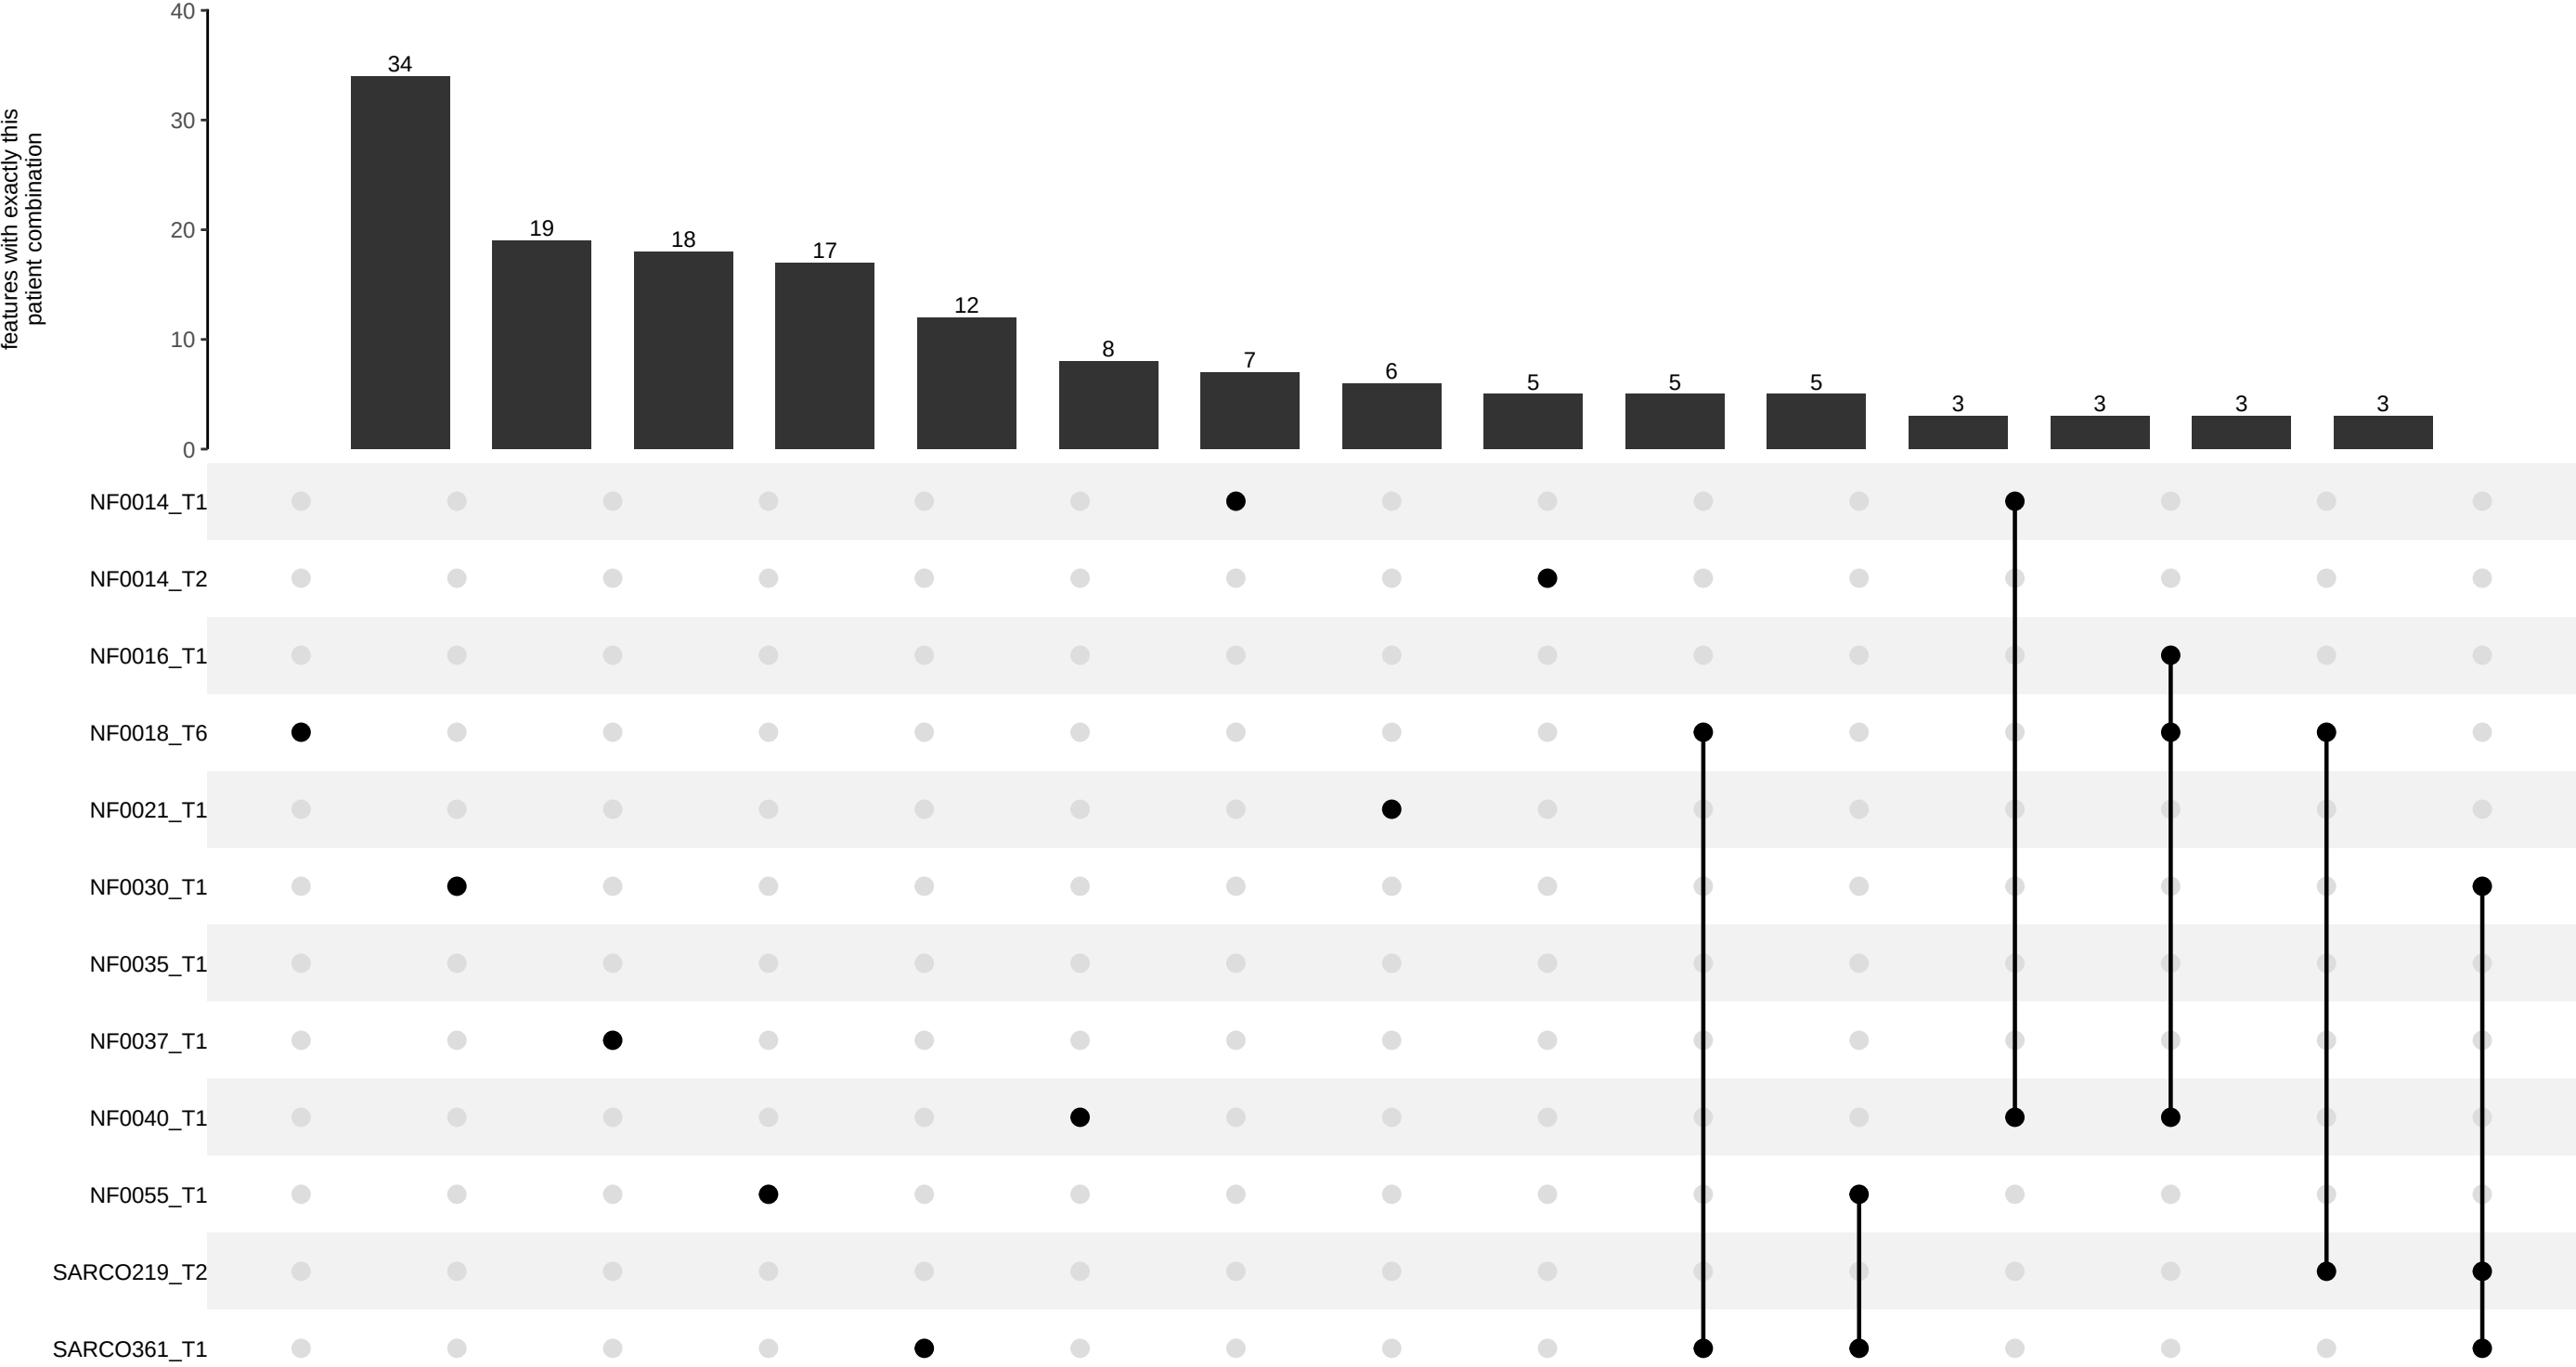

cell_count | Copanlisib_1uM

Features significant for exactly these variates, by the patients they occur in
(bars: number of features shared by exactly that patient combination)

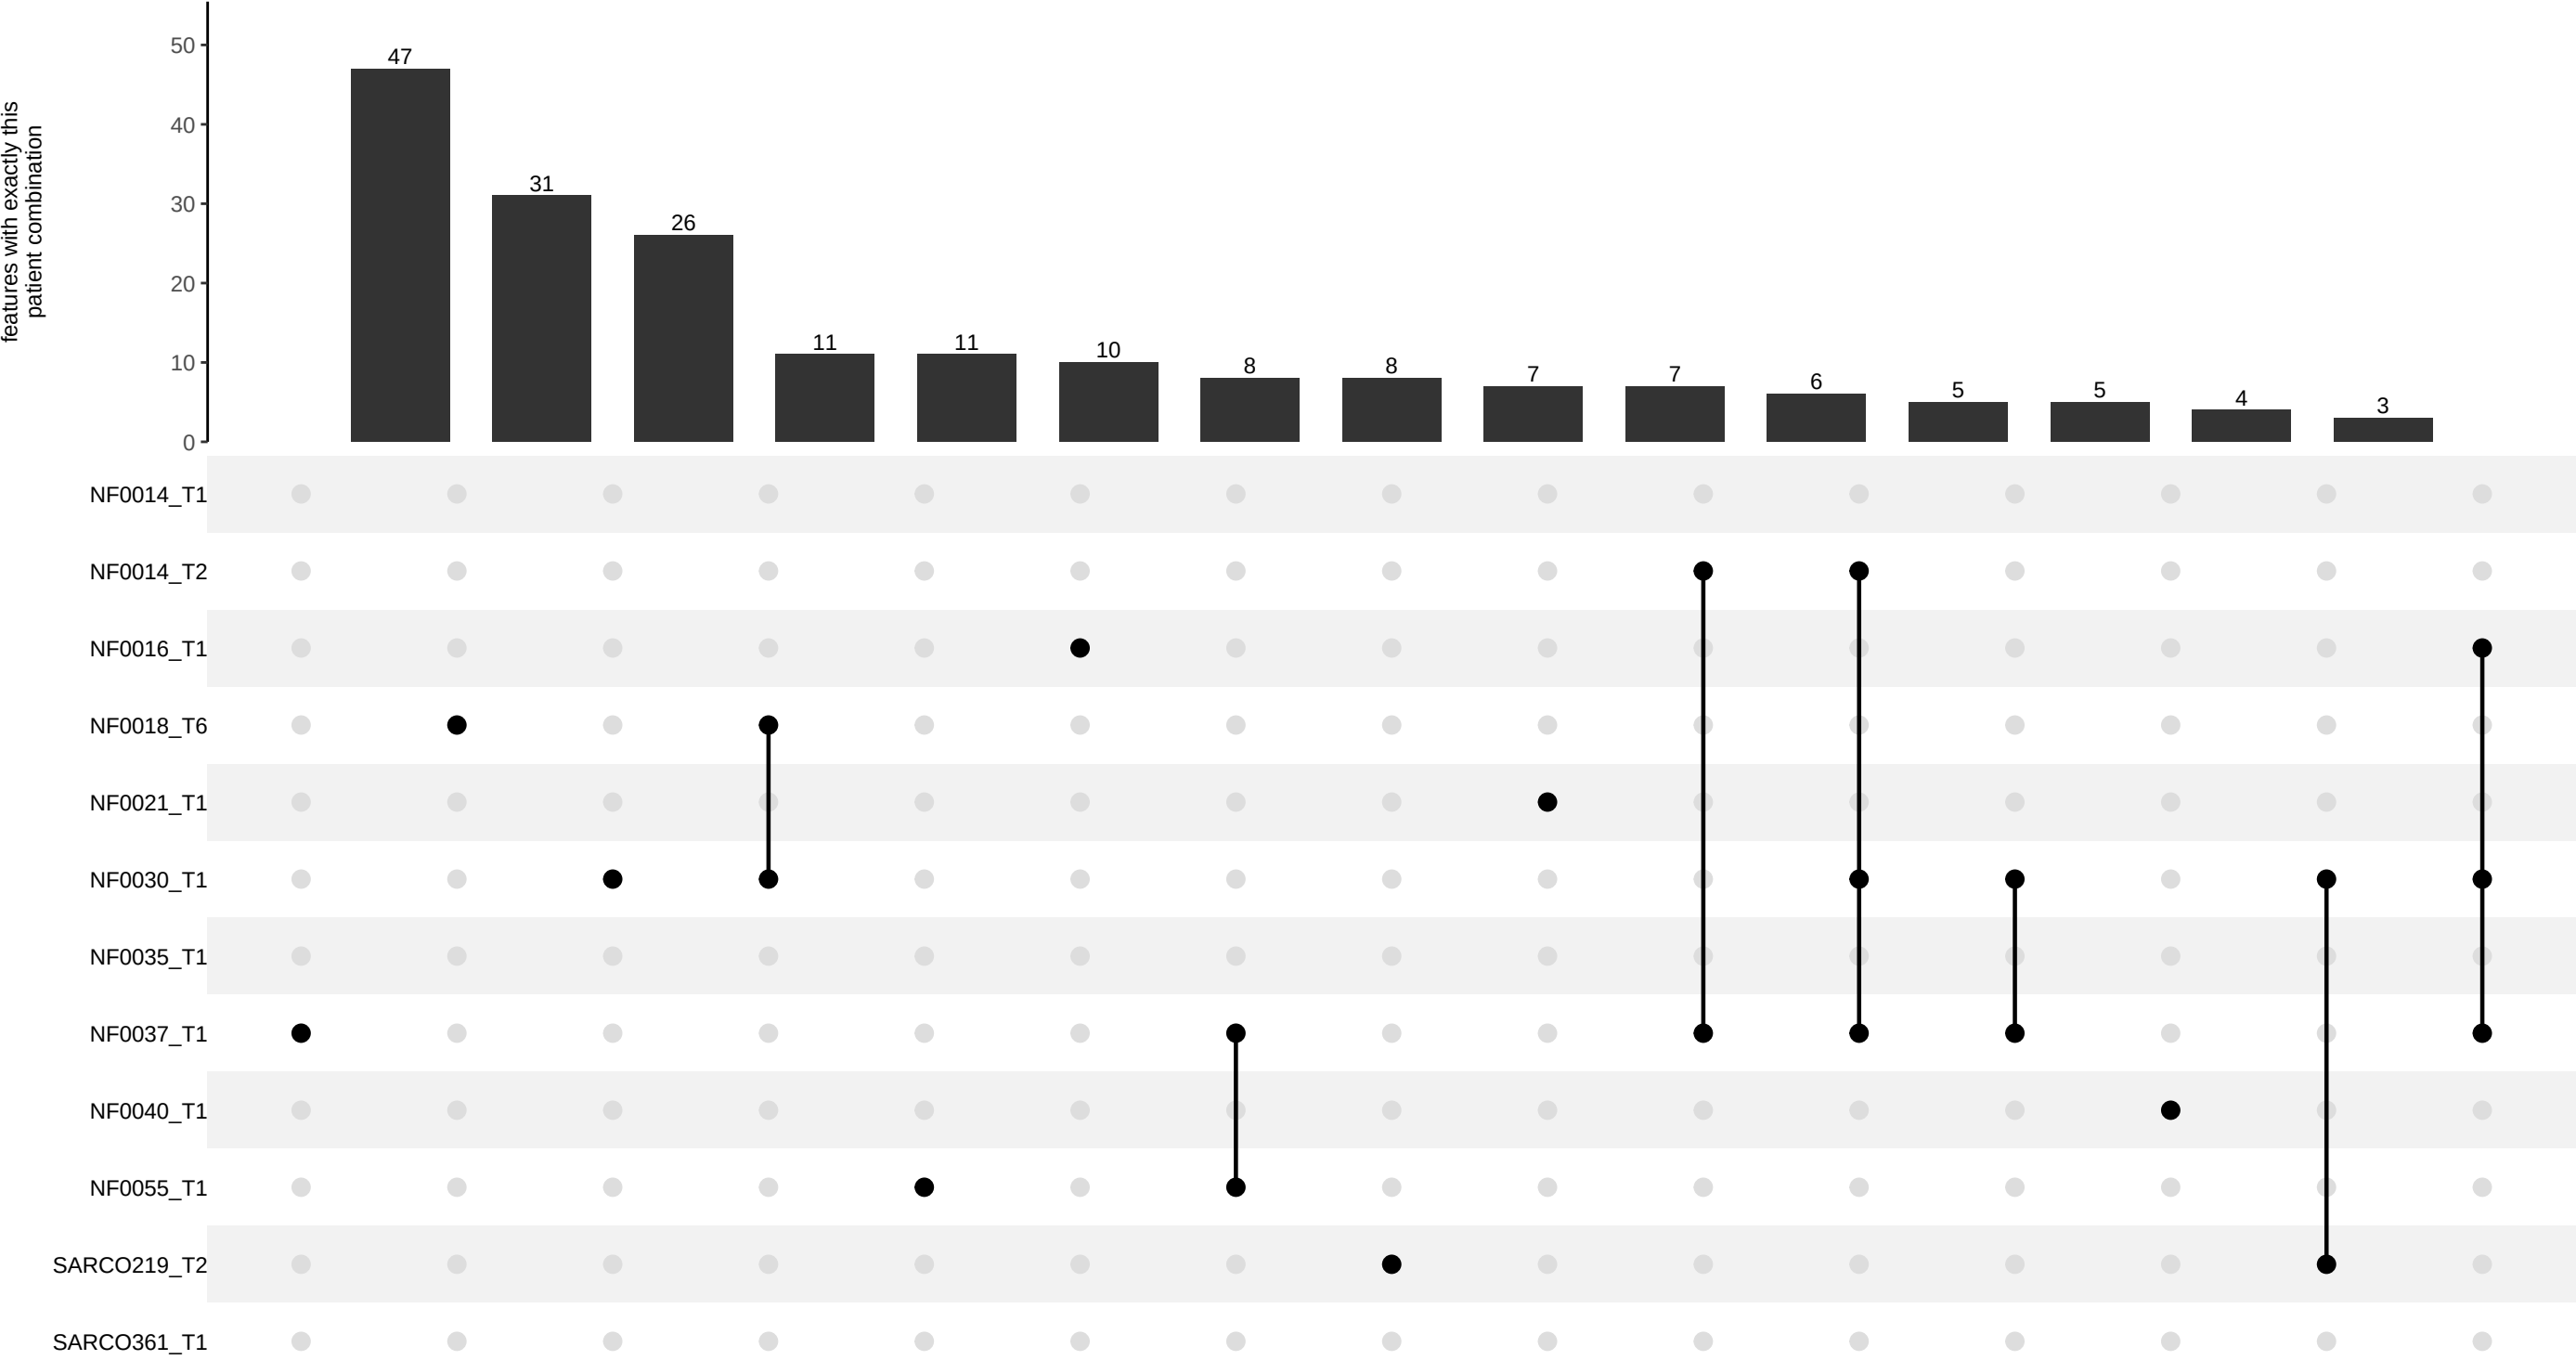

cell_count | Digoxin_1uM

Features significant for exactly these variates, by the patients they occur in
(bars: number of features shared by exactly that patient combination)

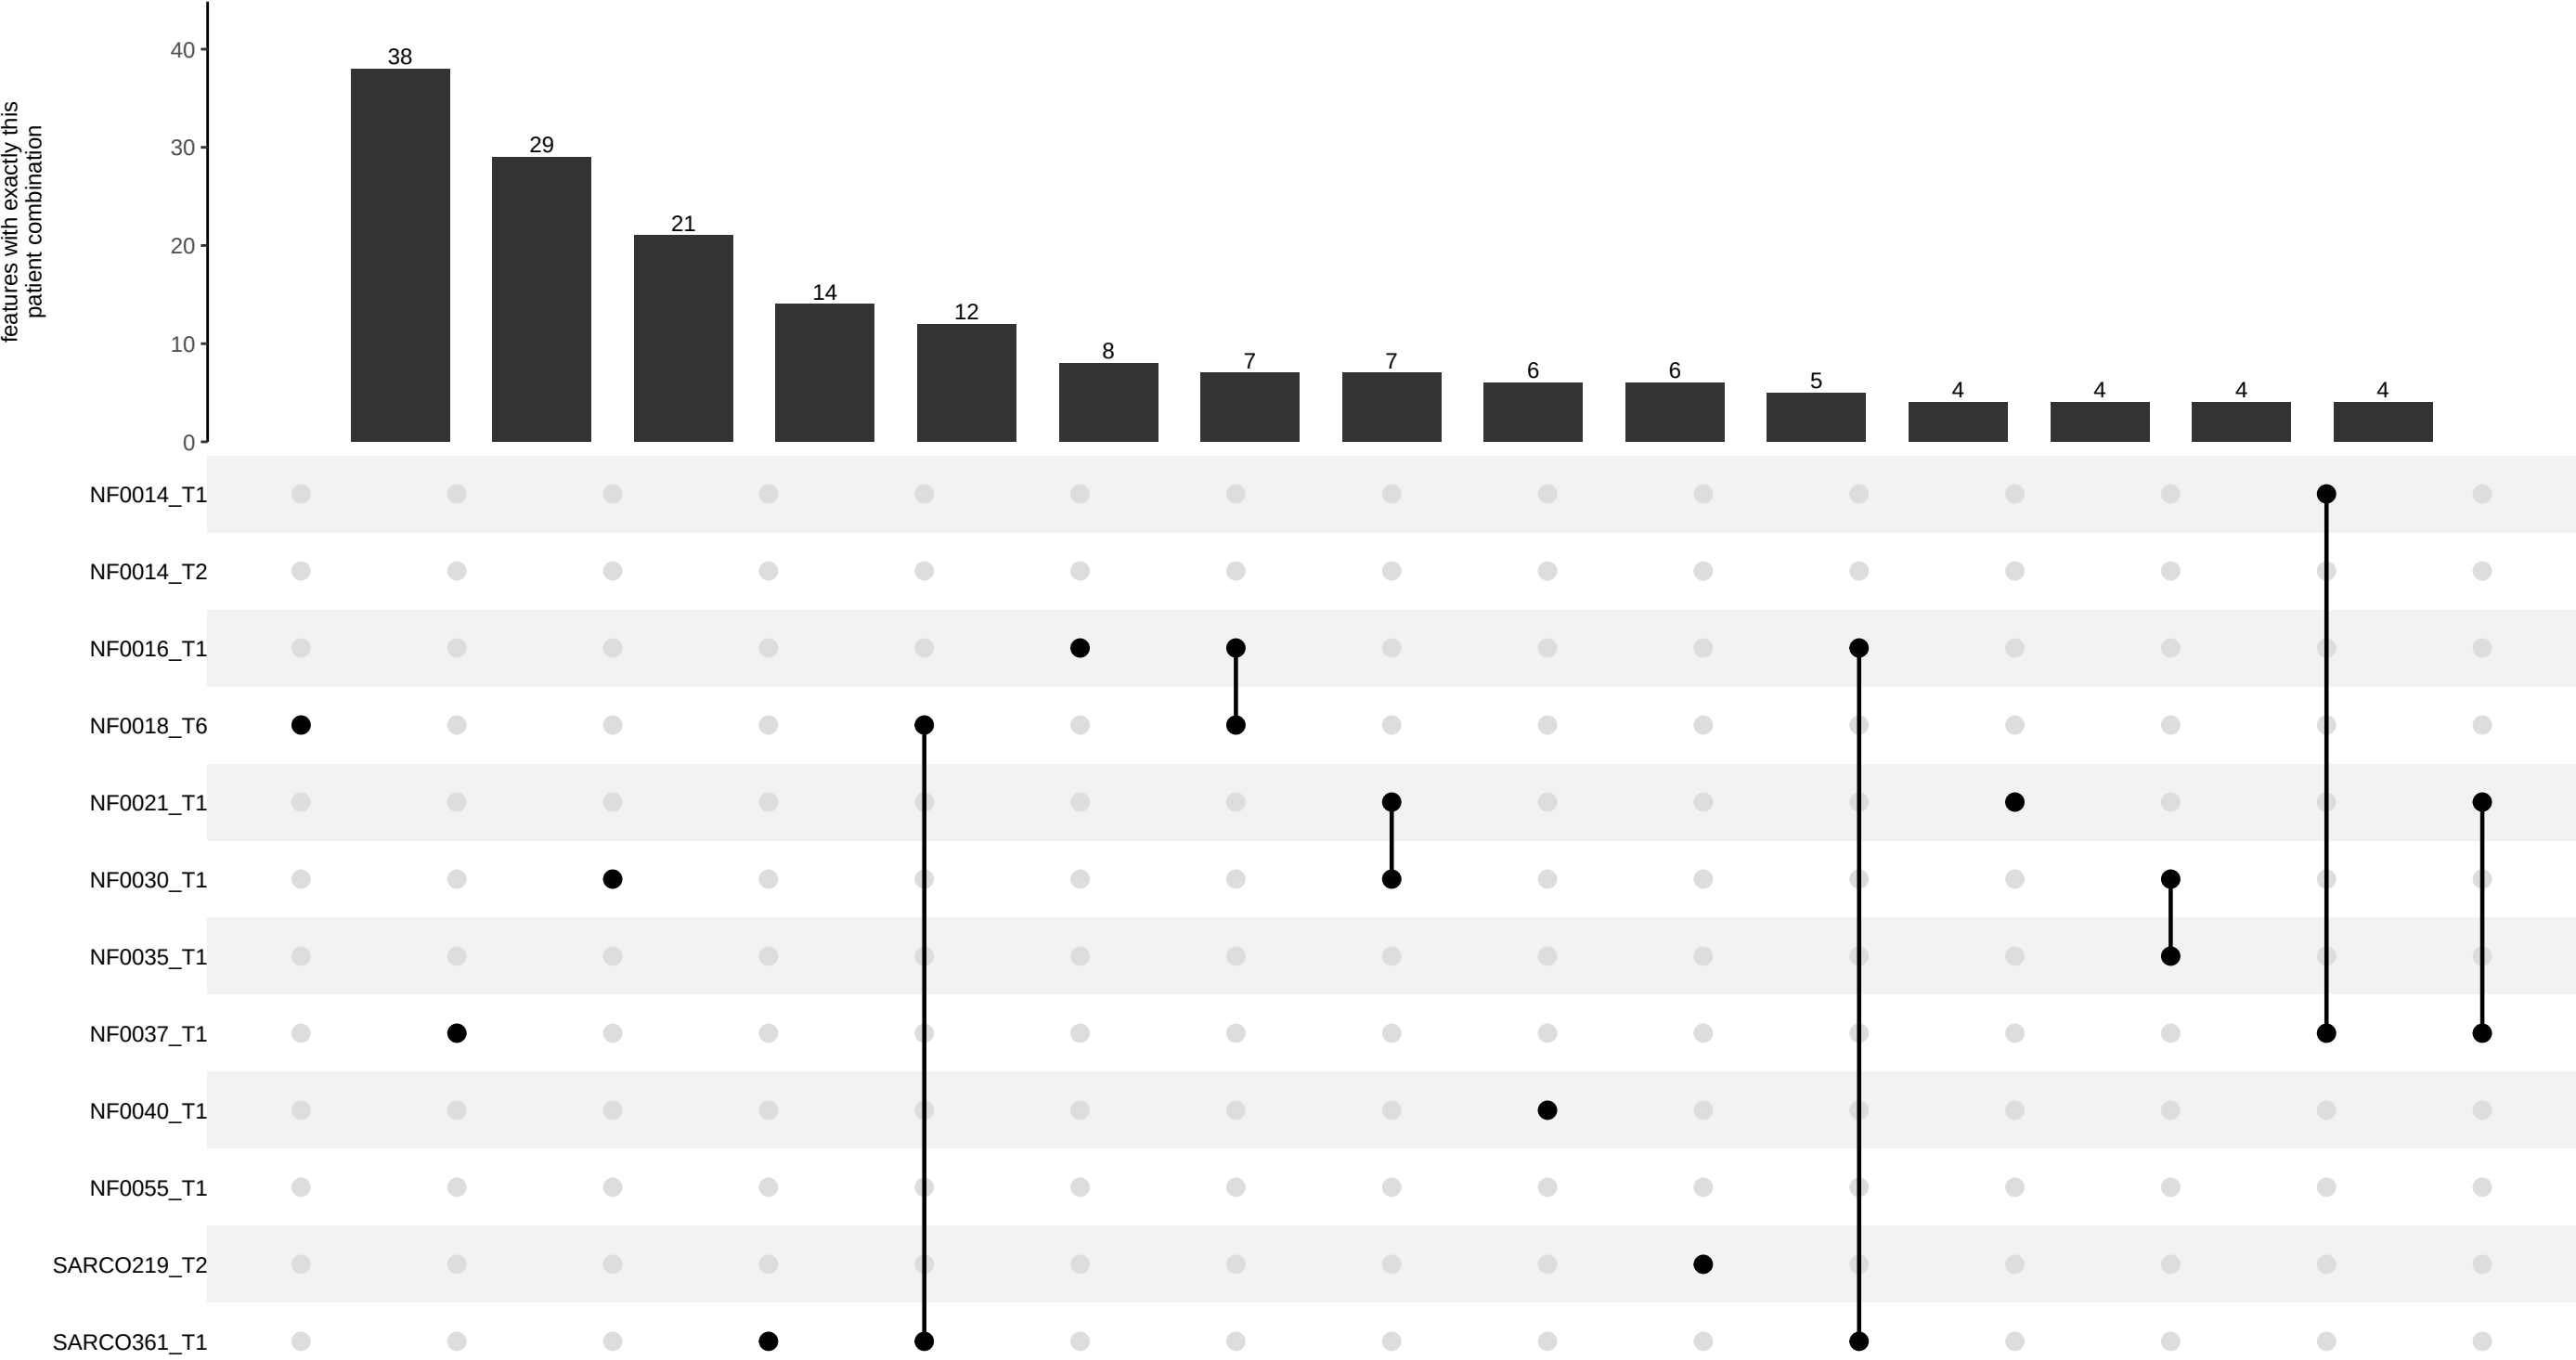

cell_count | Everolimus_1uM
Features significant for exactly these variates, by the patients they occur in
(bars: number of features shared by exactly that patient combination)

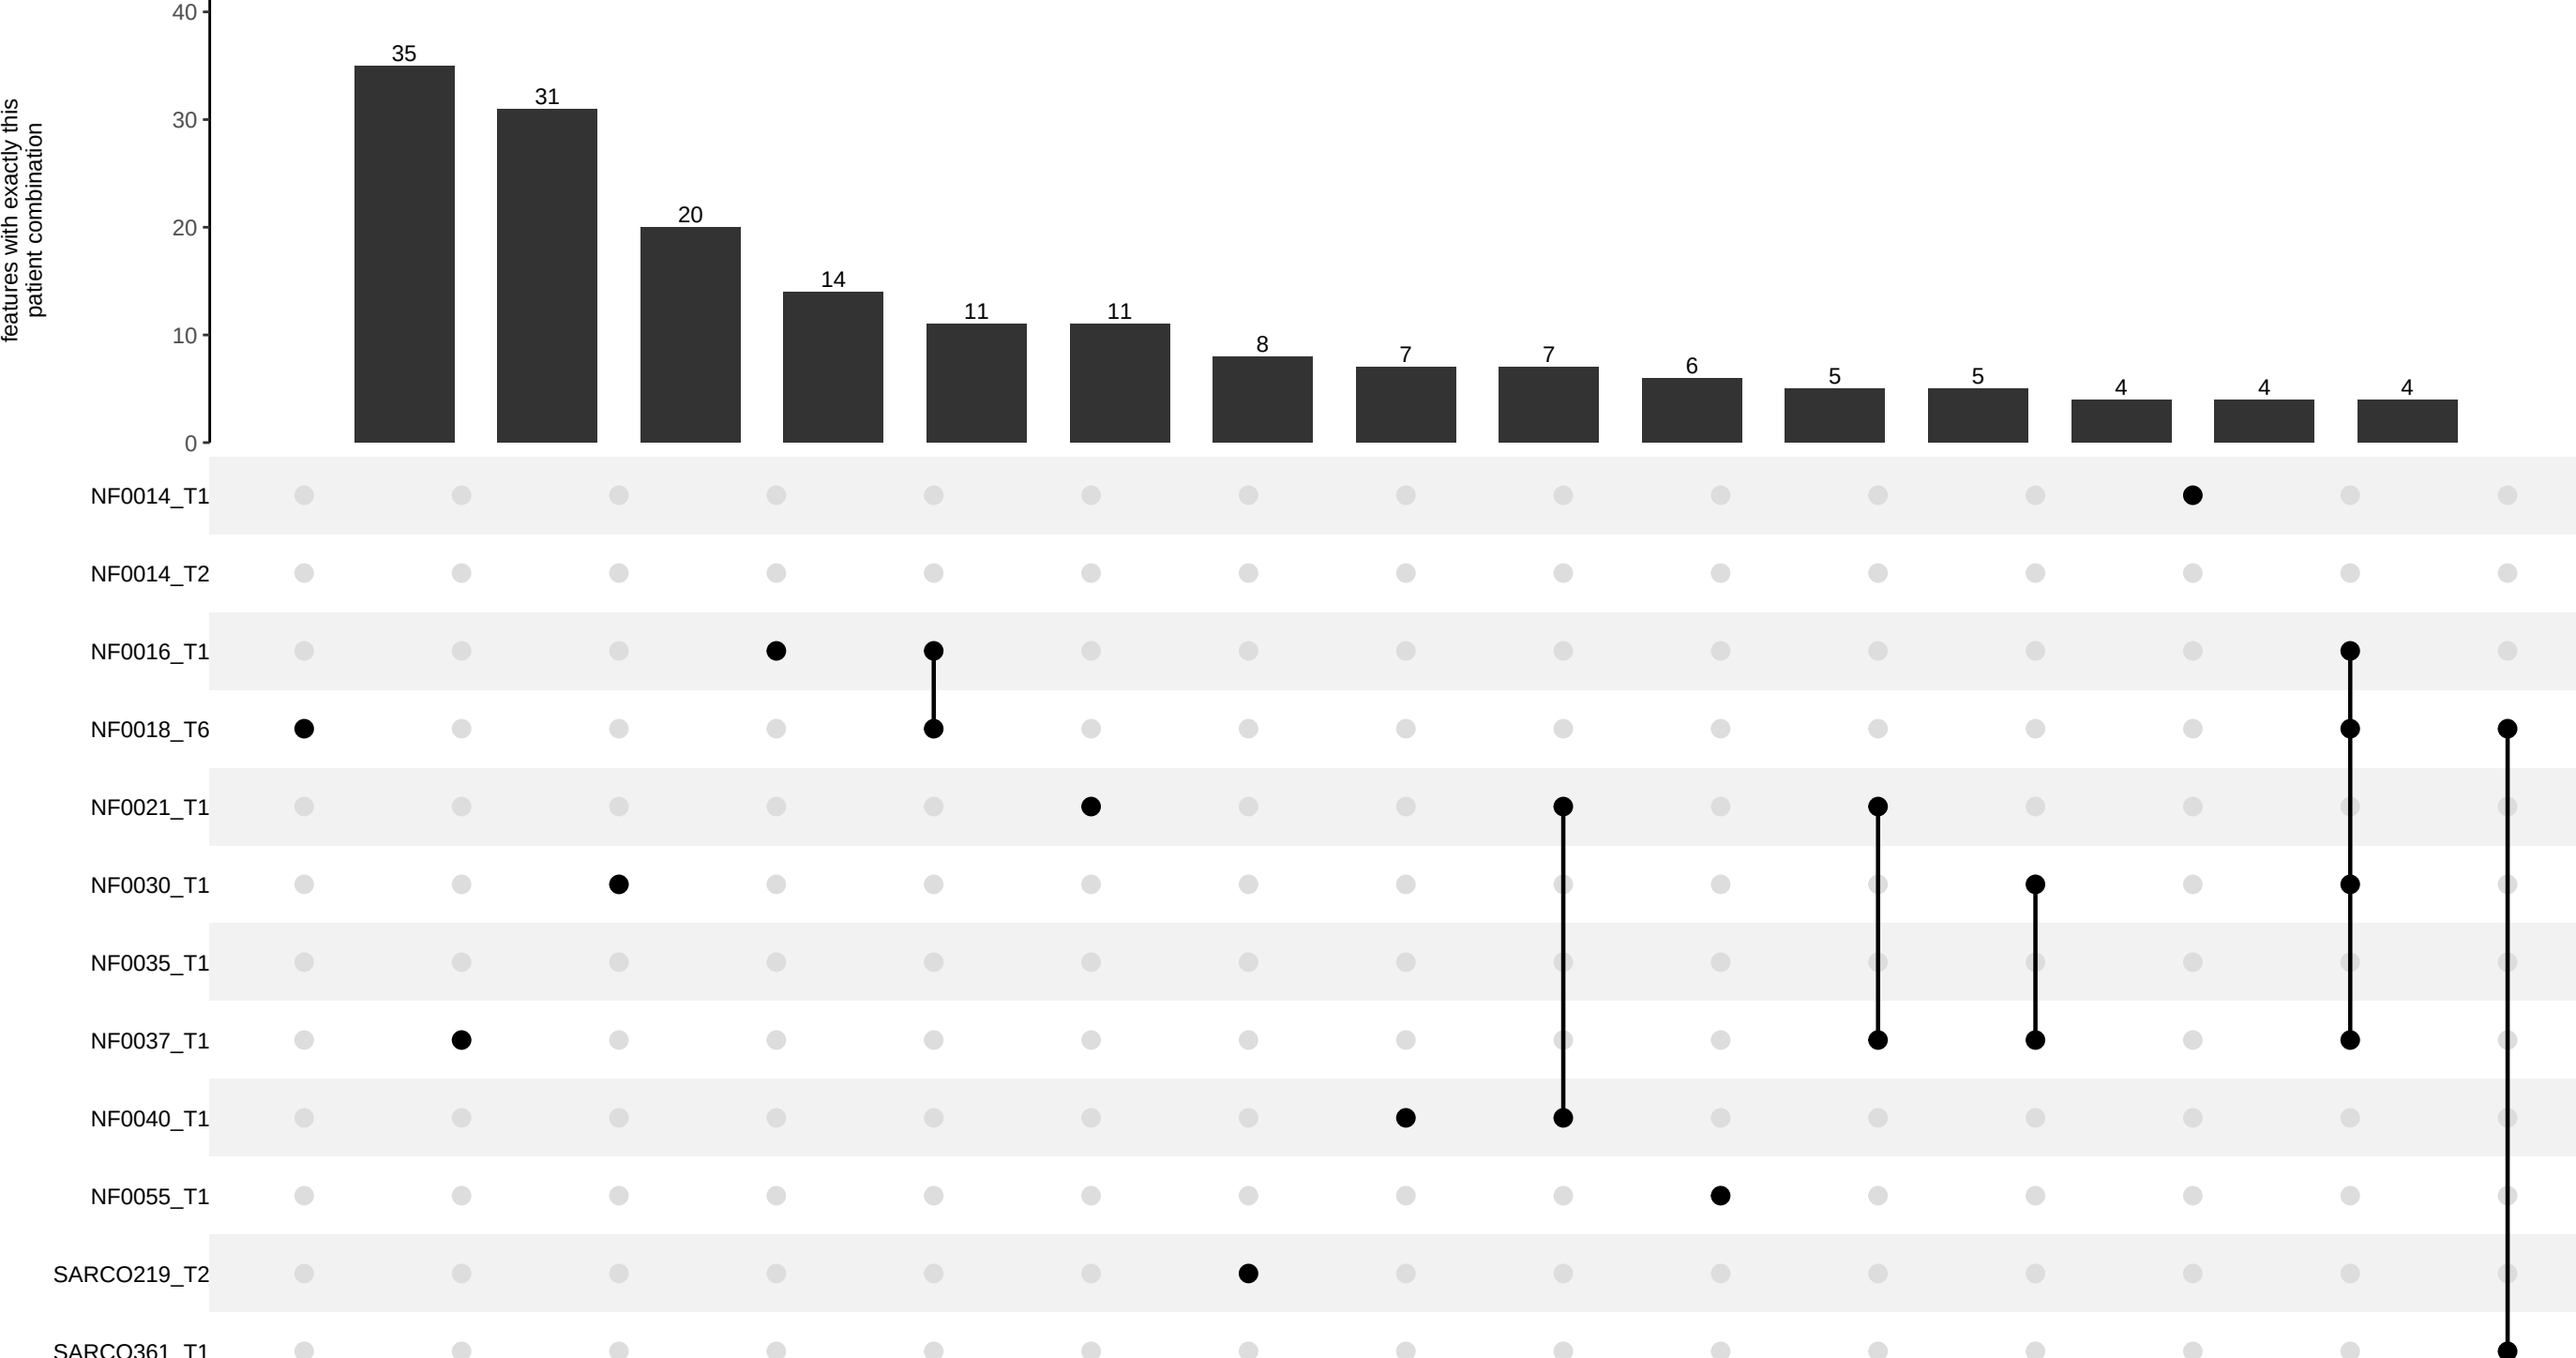

cell_count | Fimepinostat_1uM

Features significant for exactly these variates, by the patients they occur in
(bars: number of features shared by exactly that patient combination)

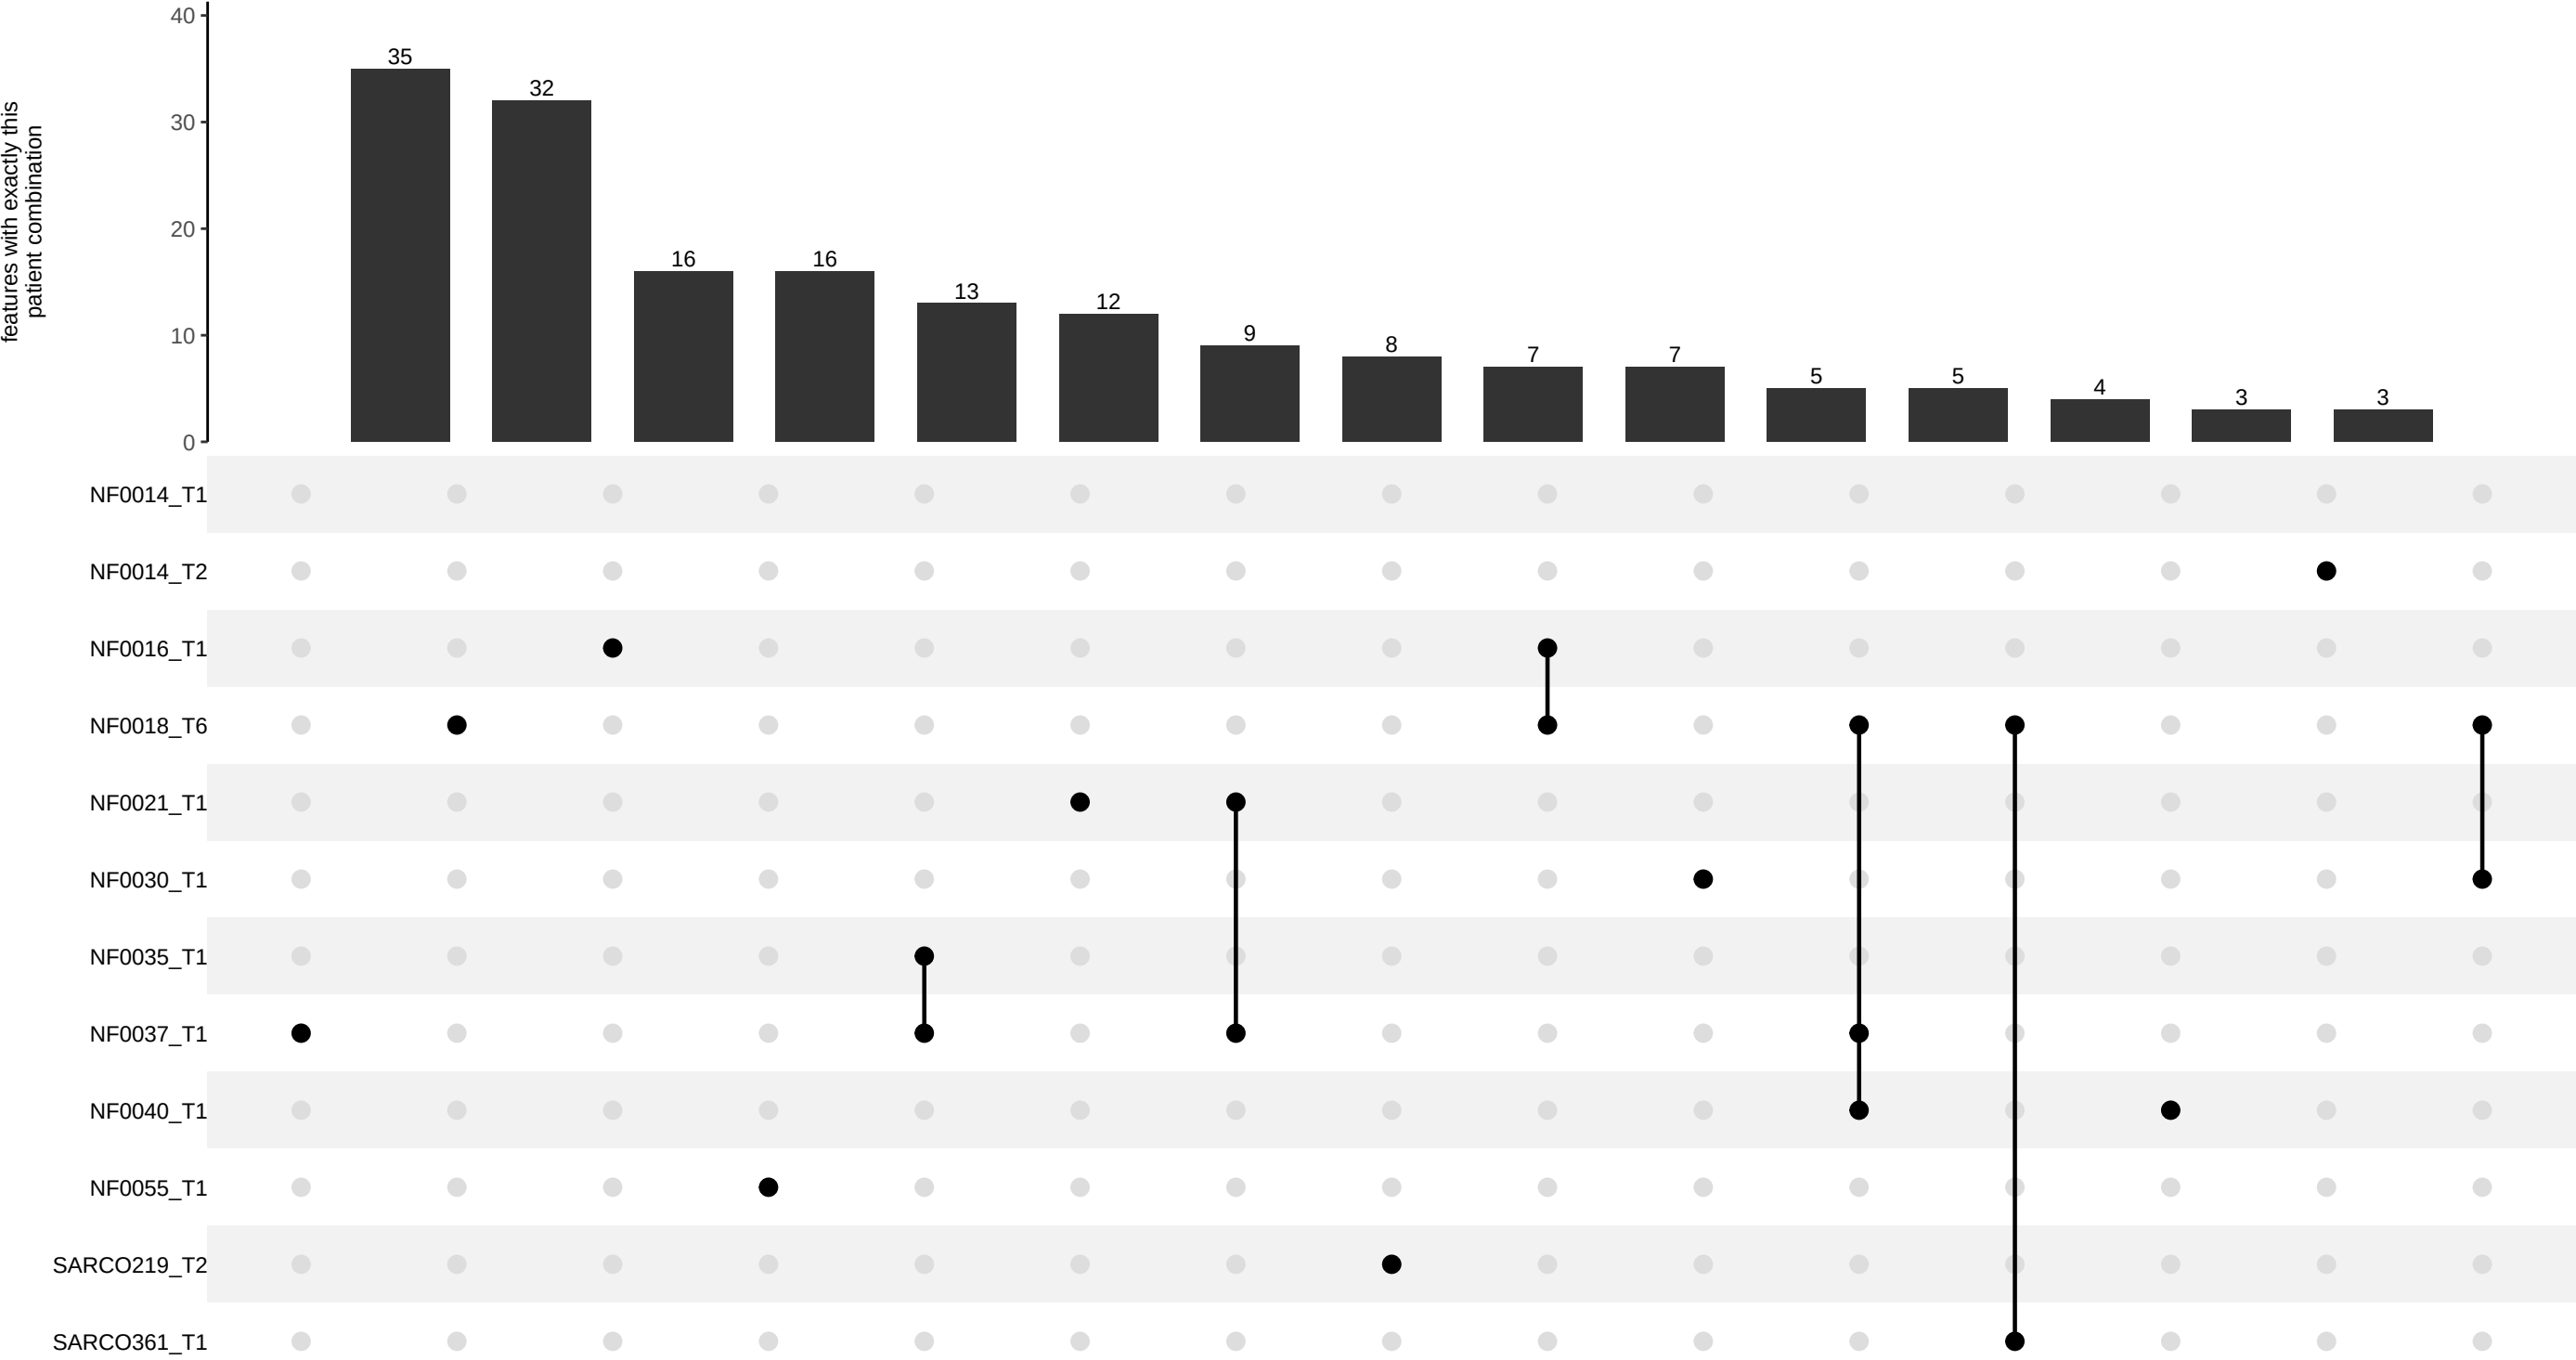

cell_count | Imatinib_1uM

Features significant for exactly these variates, by the patients they occur in
(bars: number of features shared by exactly that patient combination)

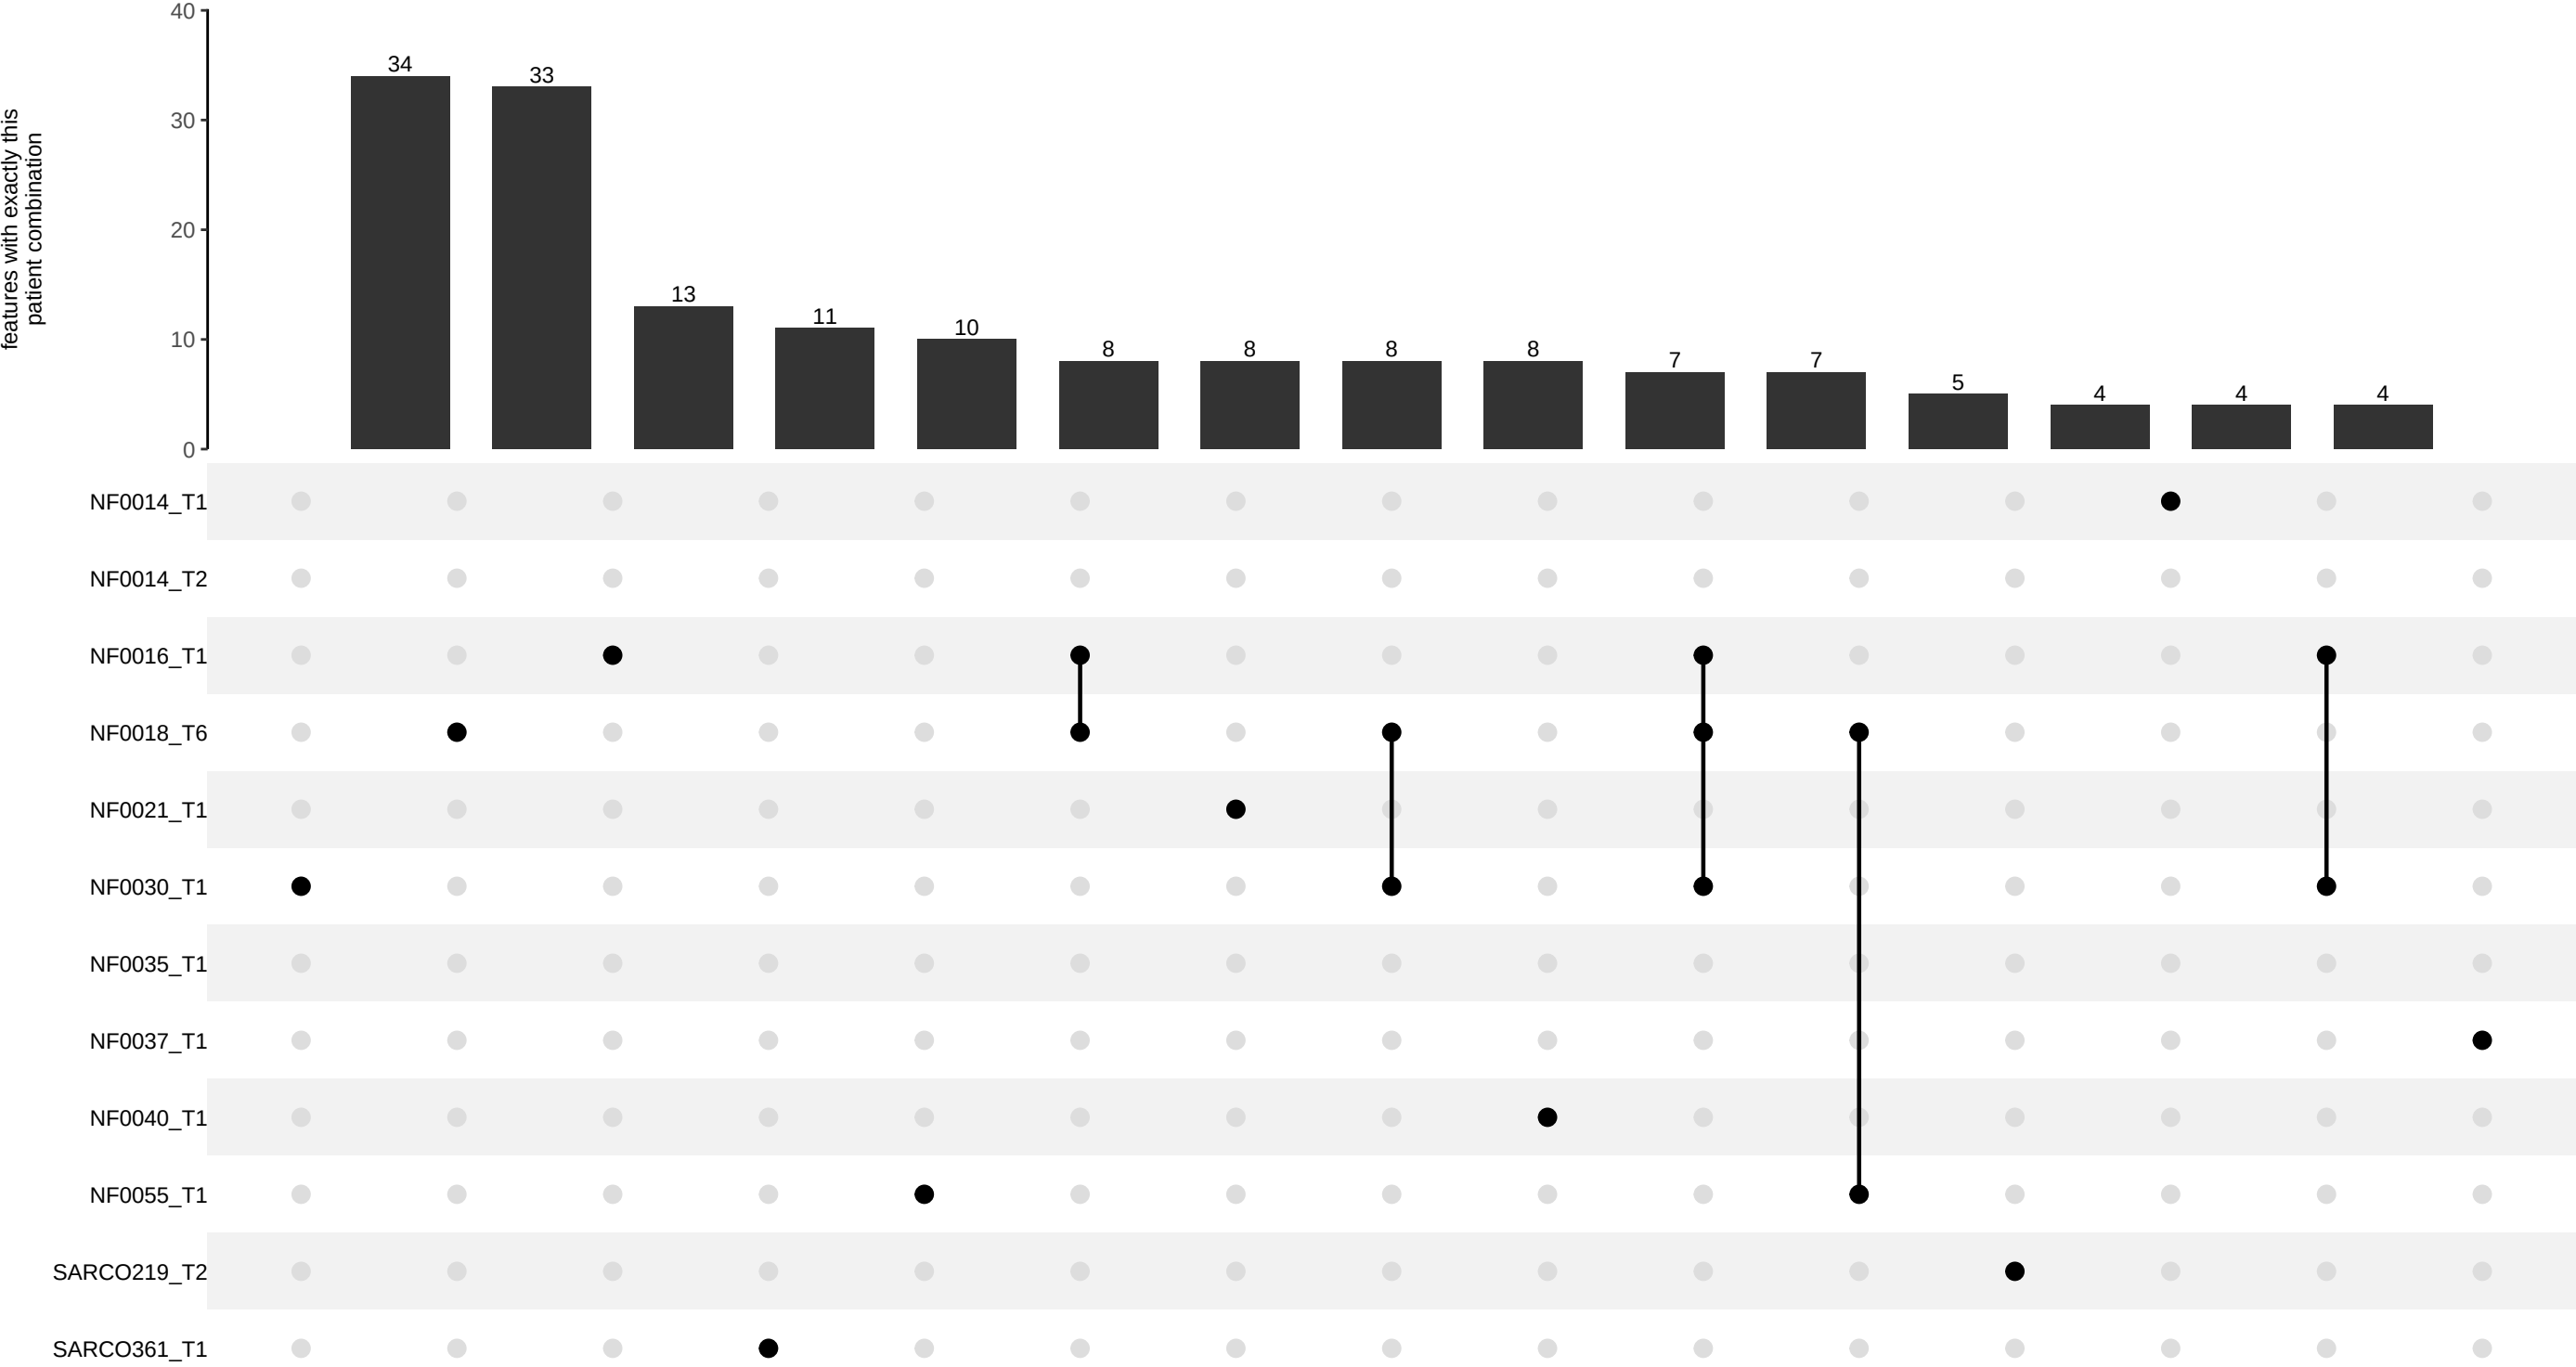

cell_count | Ketotifen_1uM

Features significant for exactly these variates, by the patients they occur in
(bars: number of features shared by exactly that patient combination)

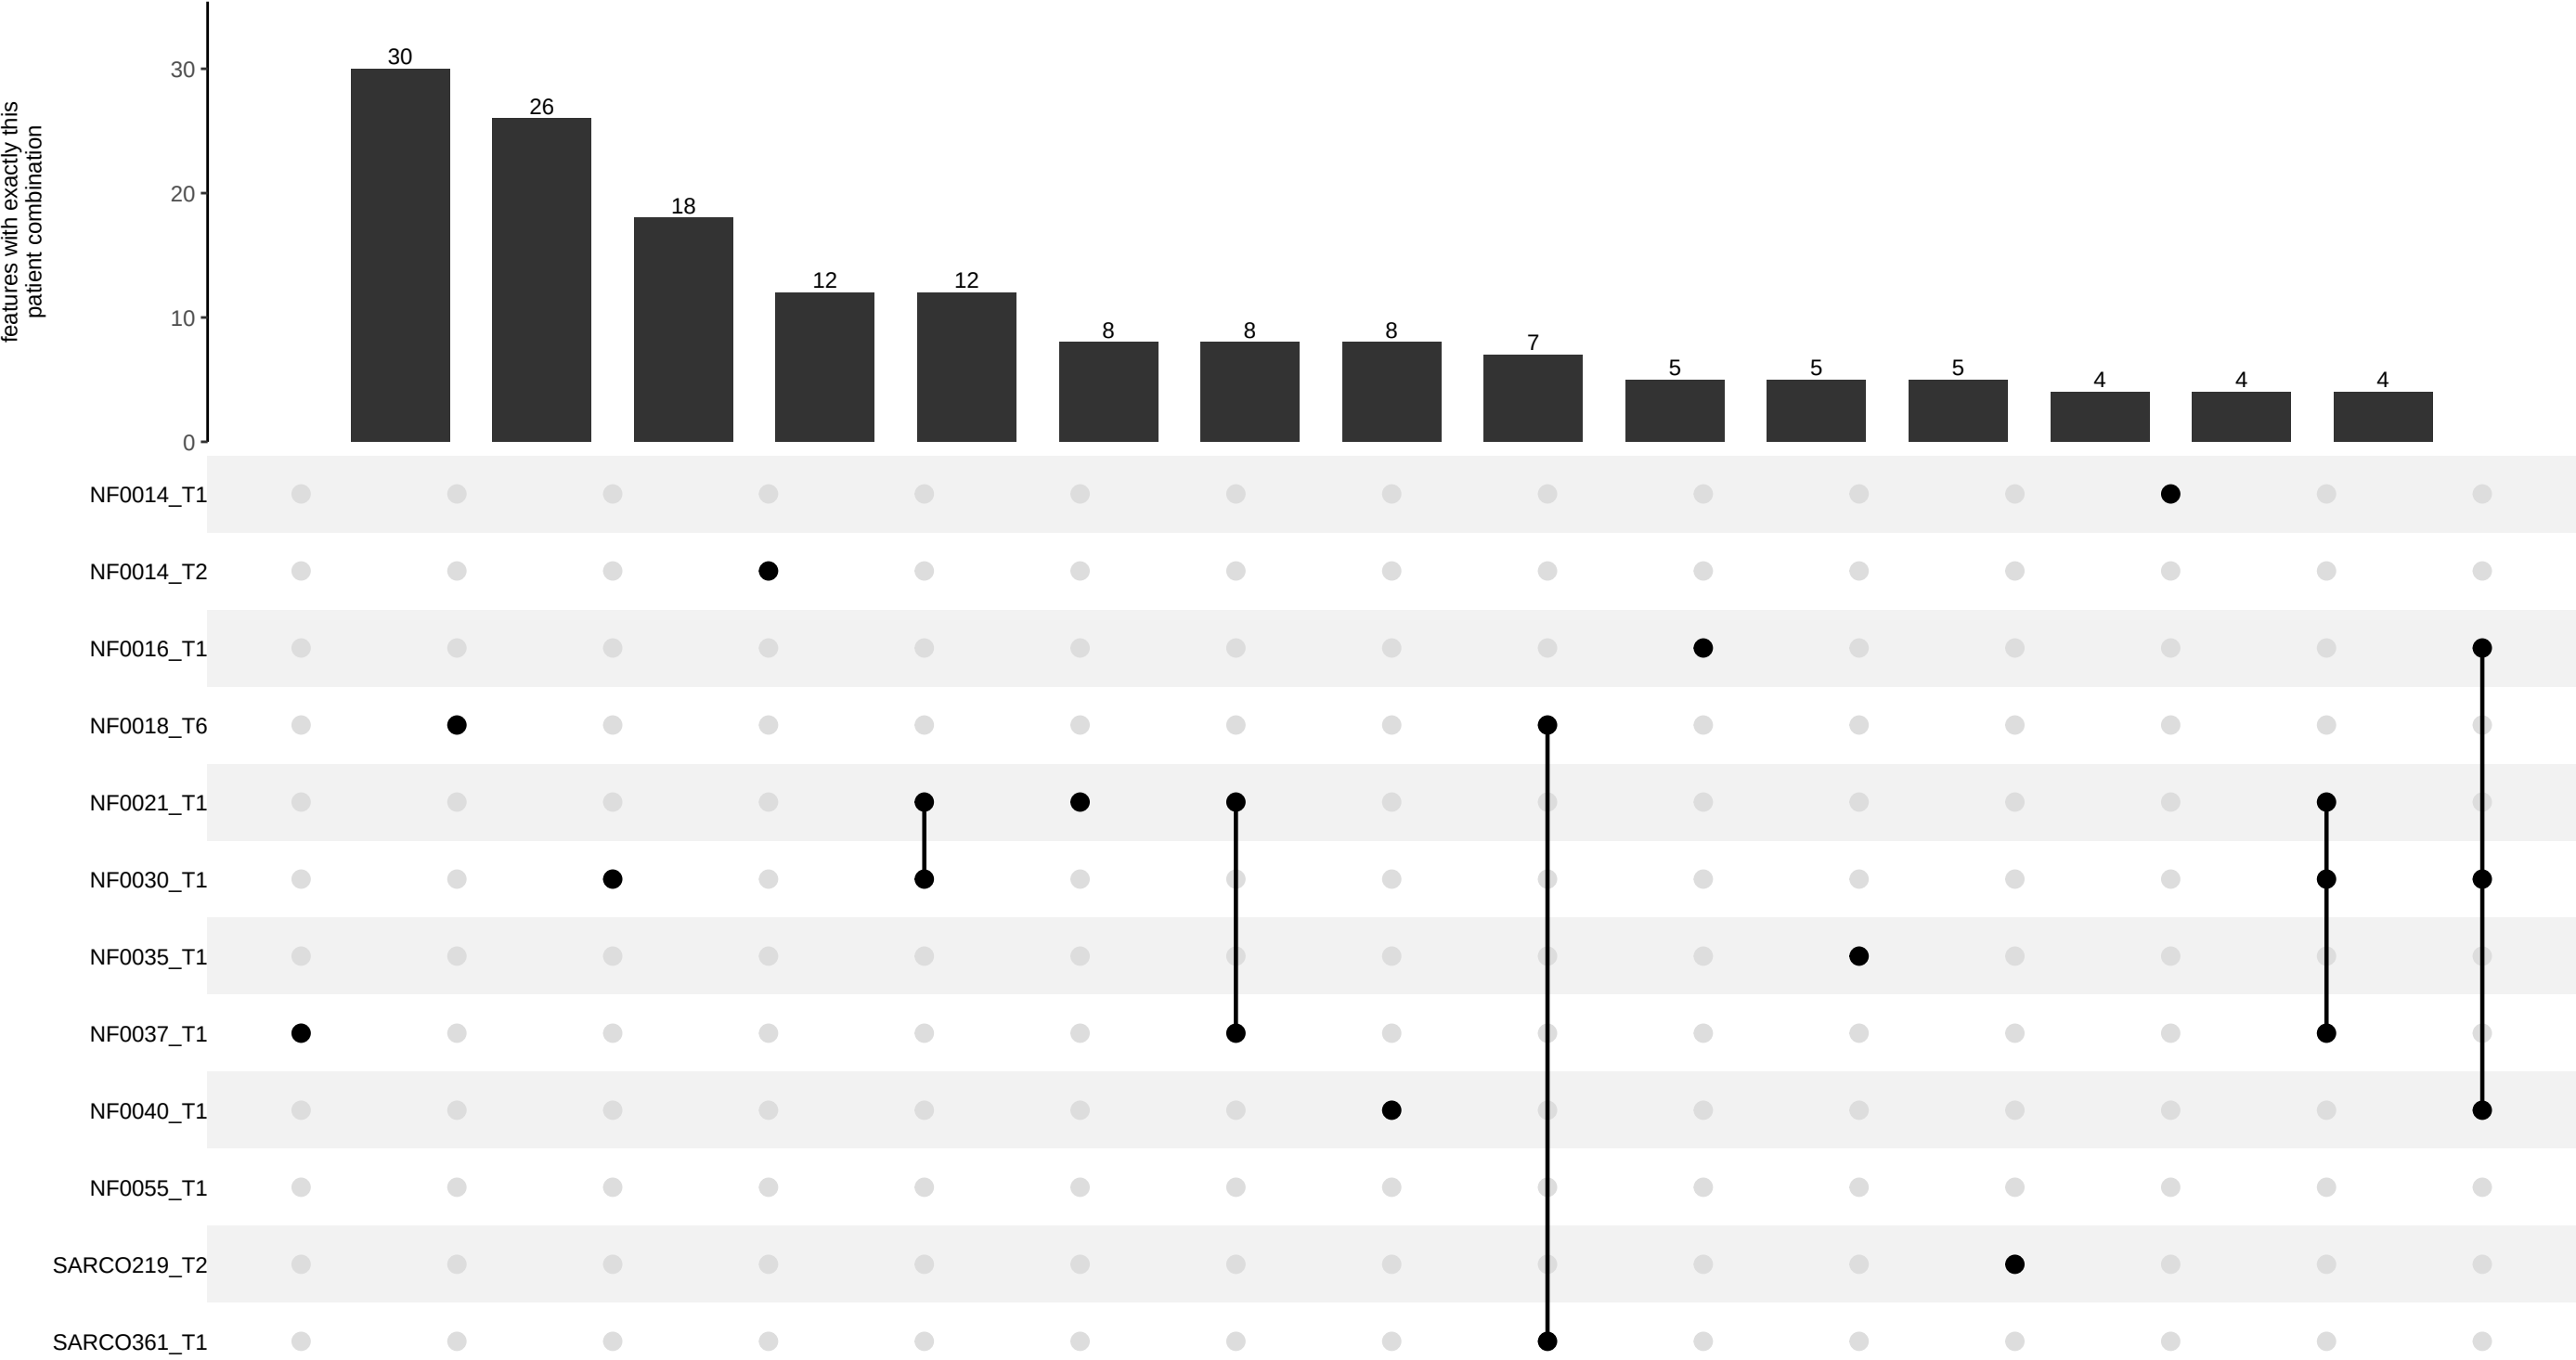

cell_count | Linsitinib_1uM

Features significant for exactly these variates, by the patients they occur in
(bars: number of features shared by exactly that patient combination)

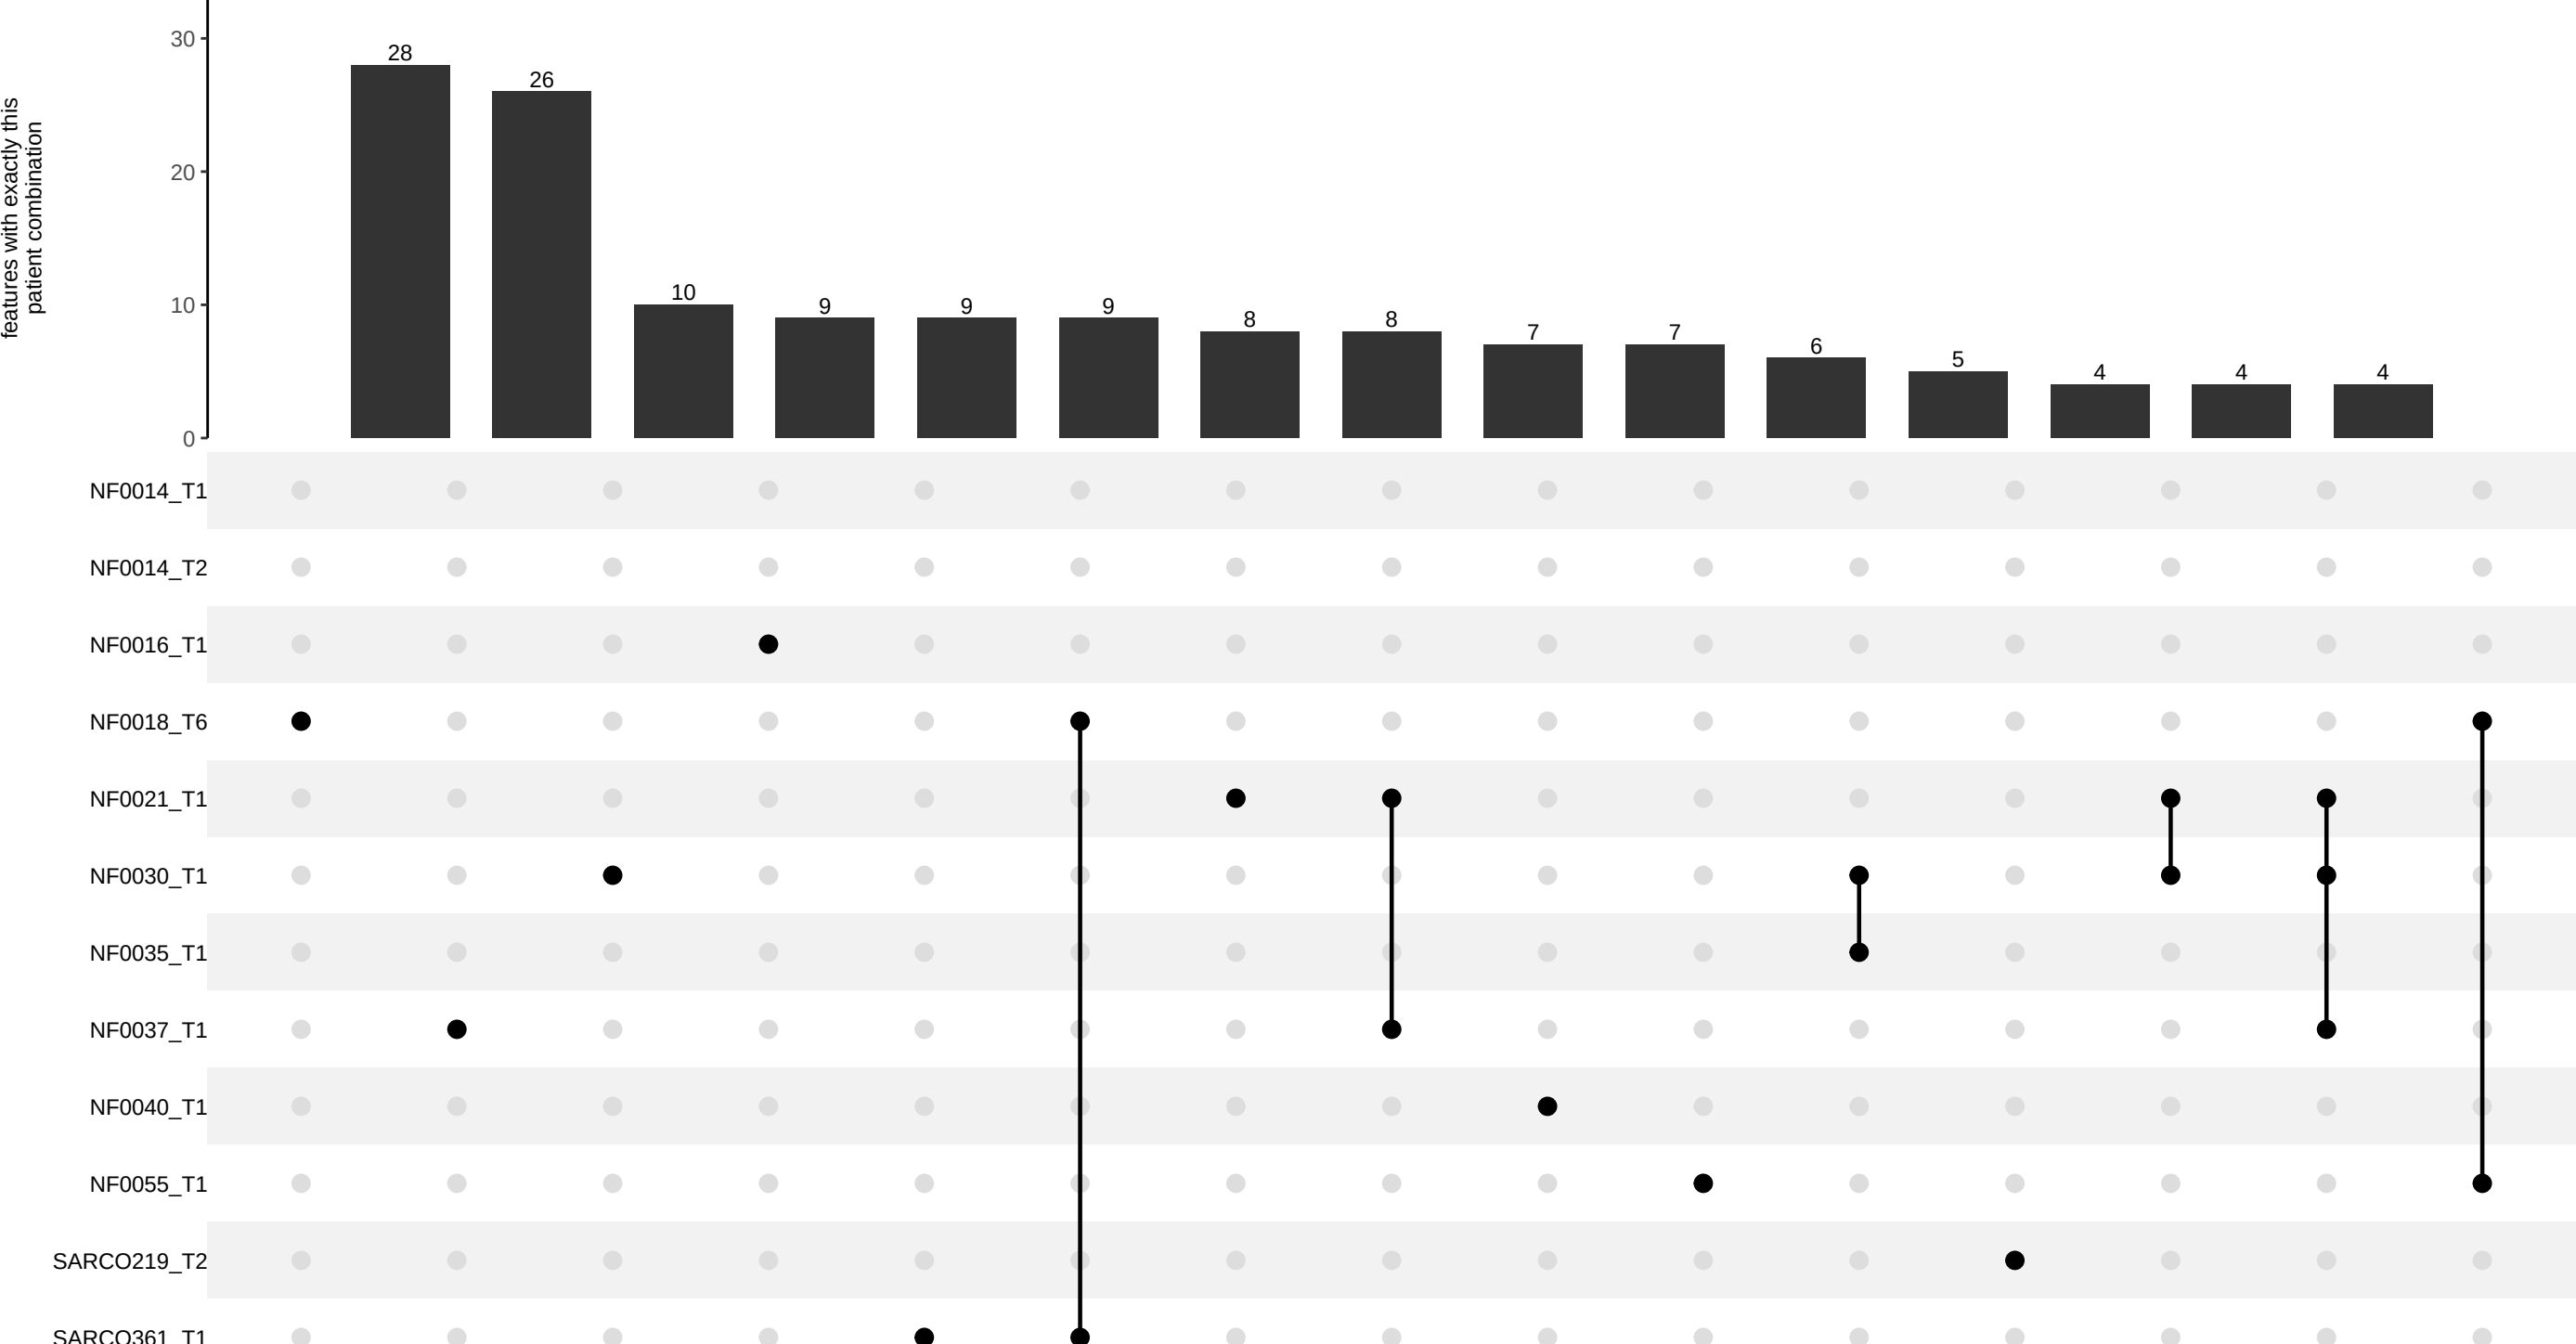

cell_count | Mirdametinib_10uM

Features significant for exactly these variates, by the patients they occur in
(bars: number of features shared by exactly that patient combination)

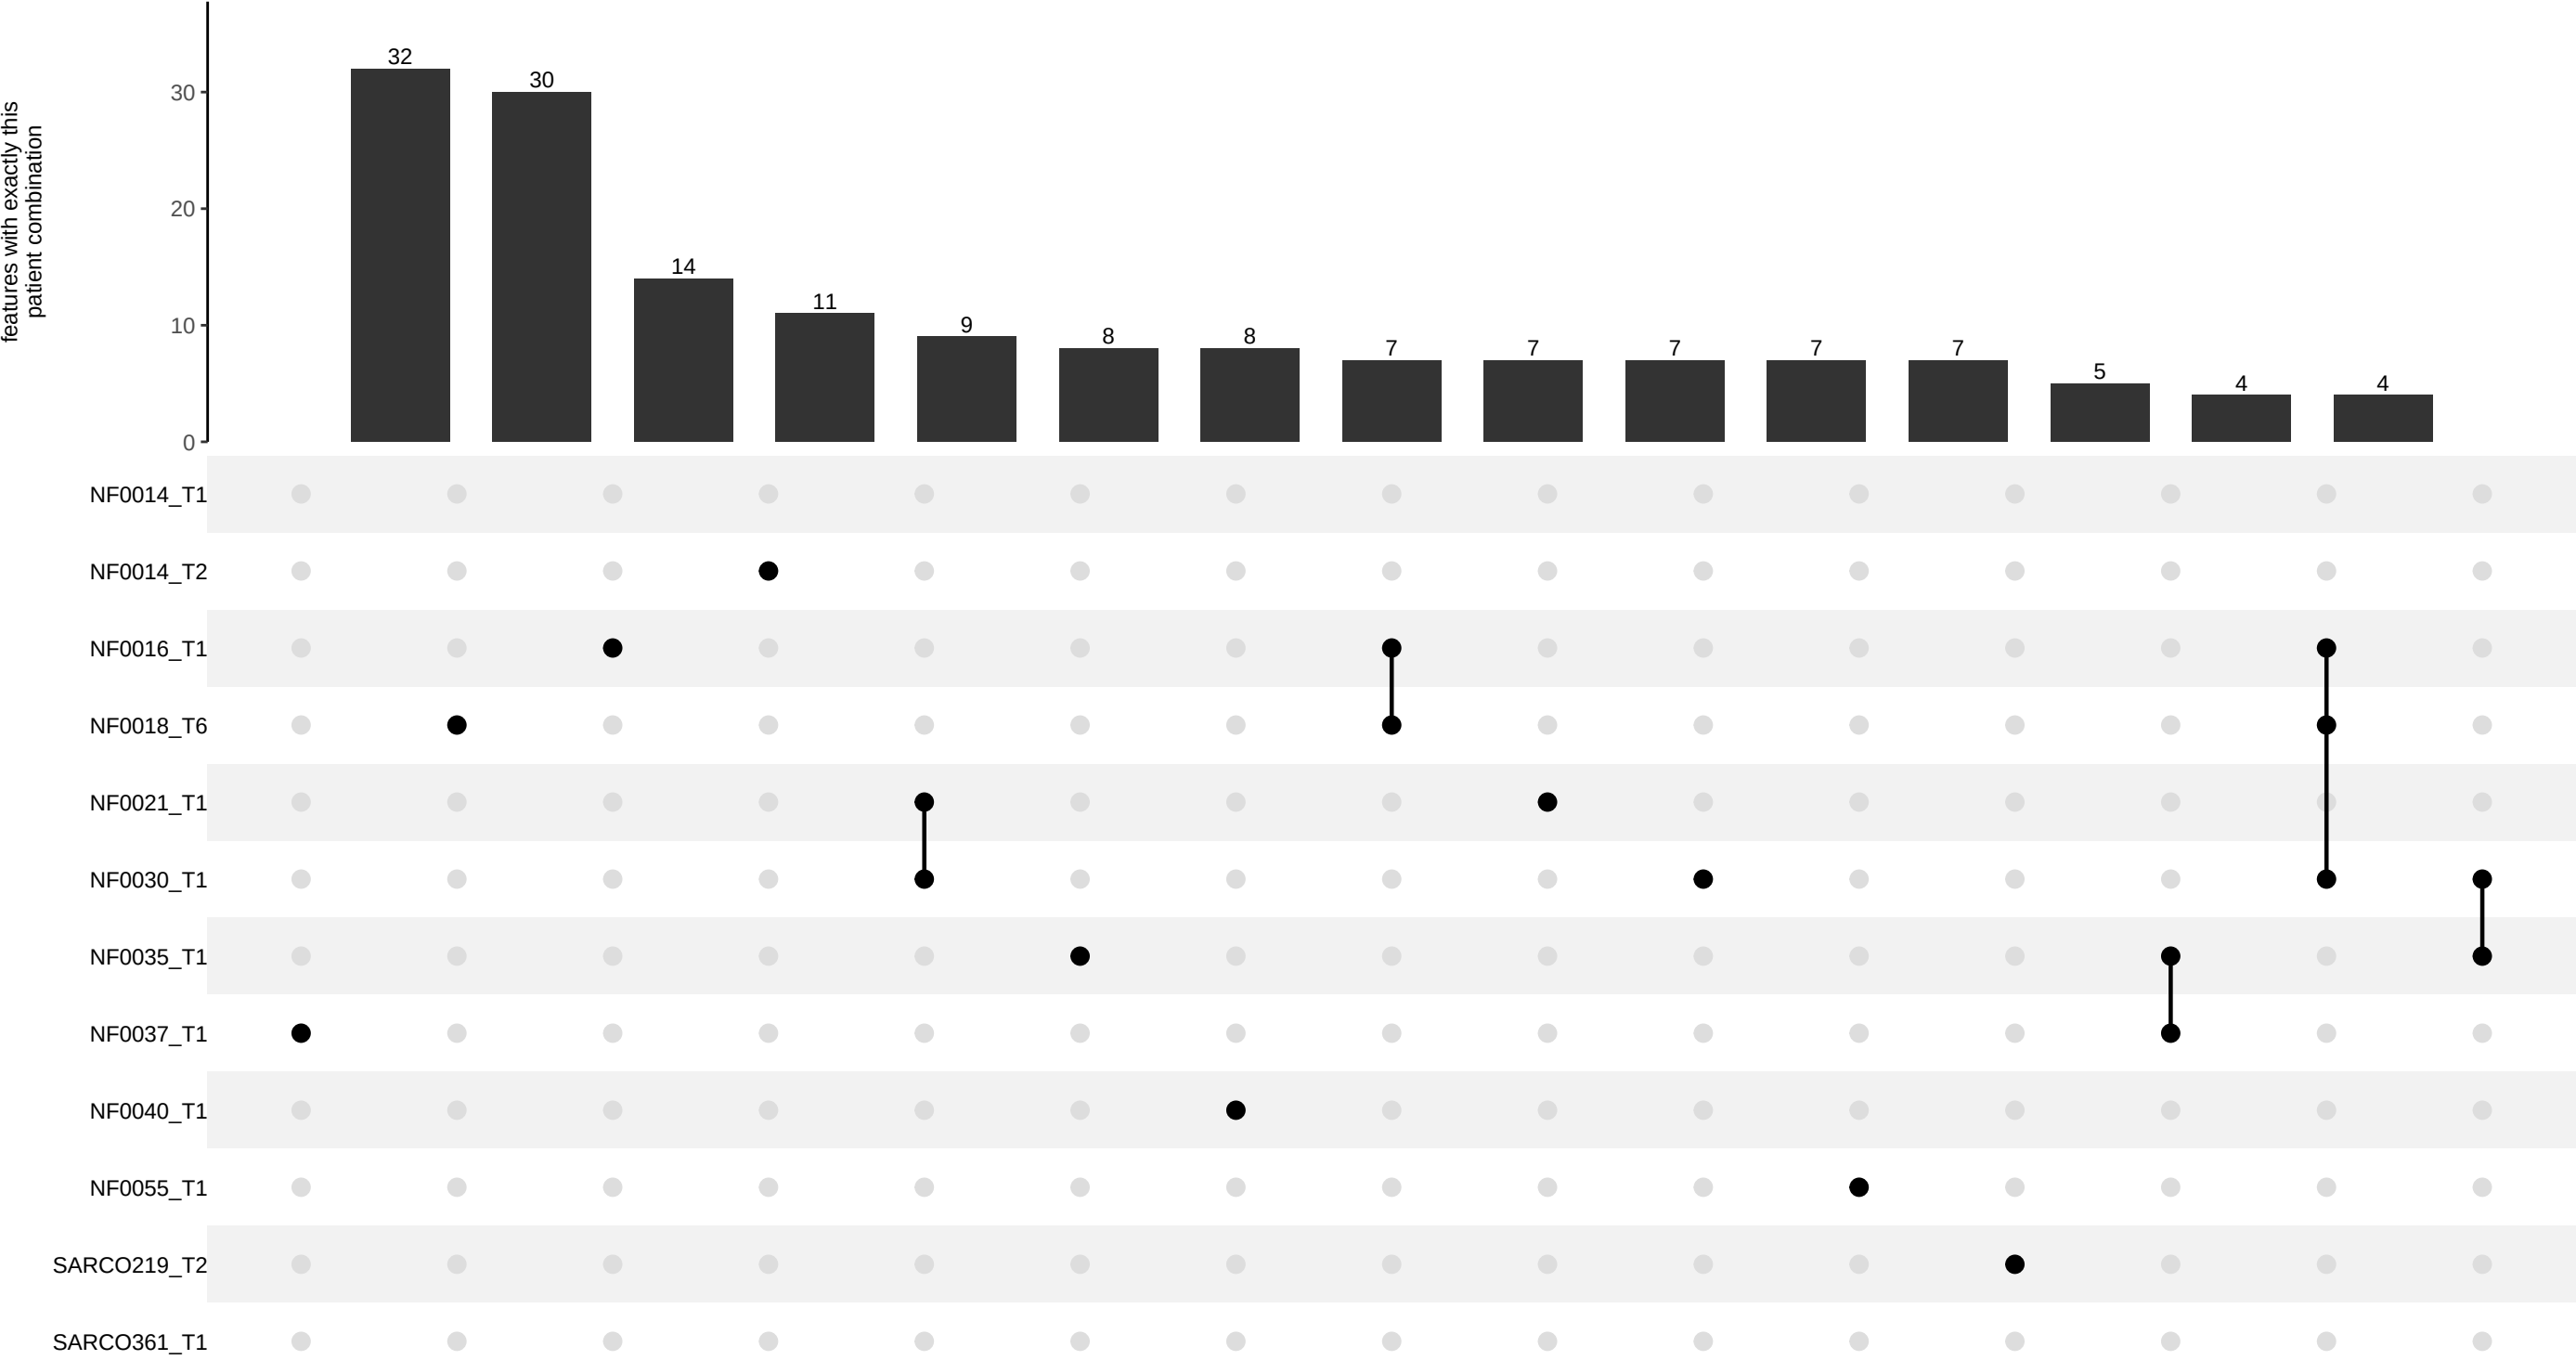

cell_count | Mirdametinib_1uM

Features significant for exactly these variates, by the patients they occur in
(bars: number of features shared by exactly that patient combination)

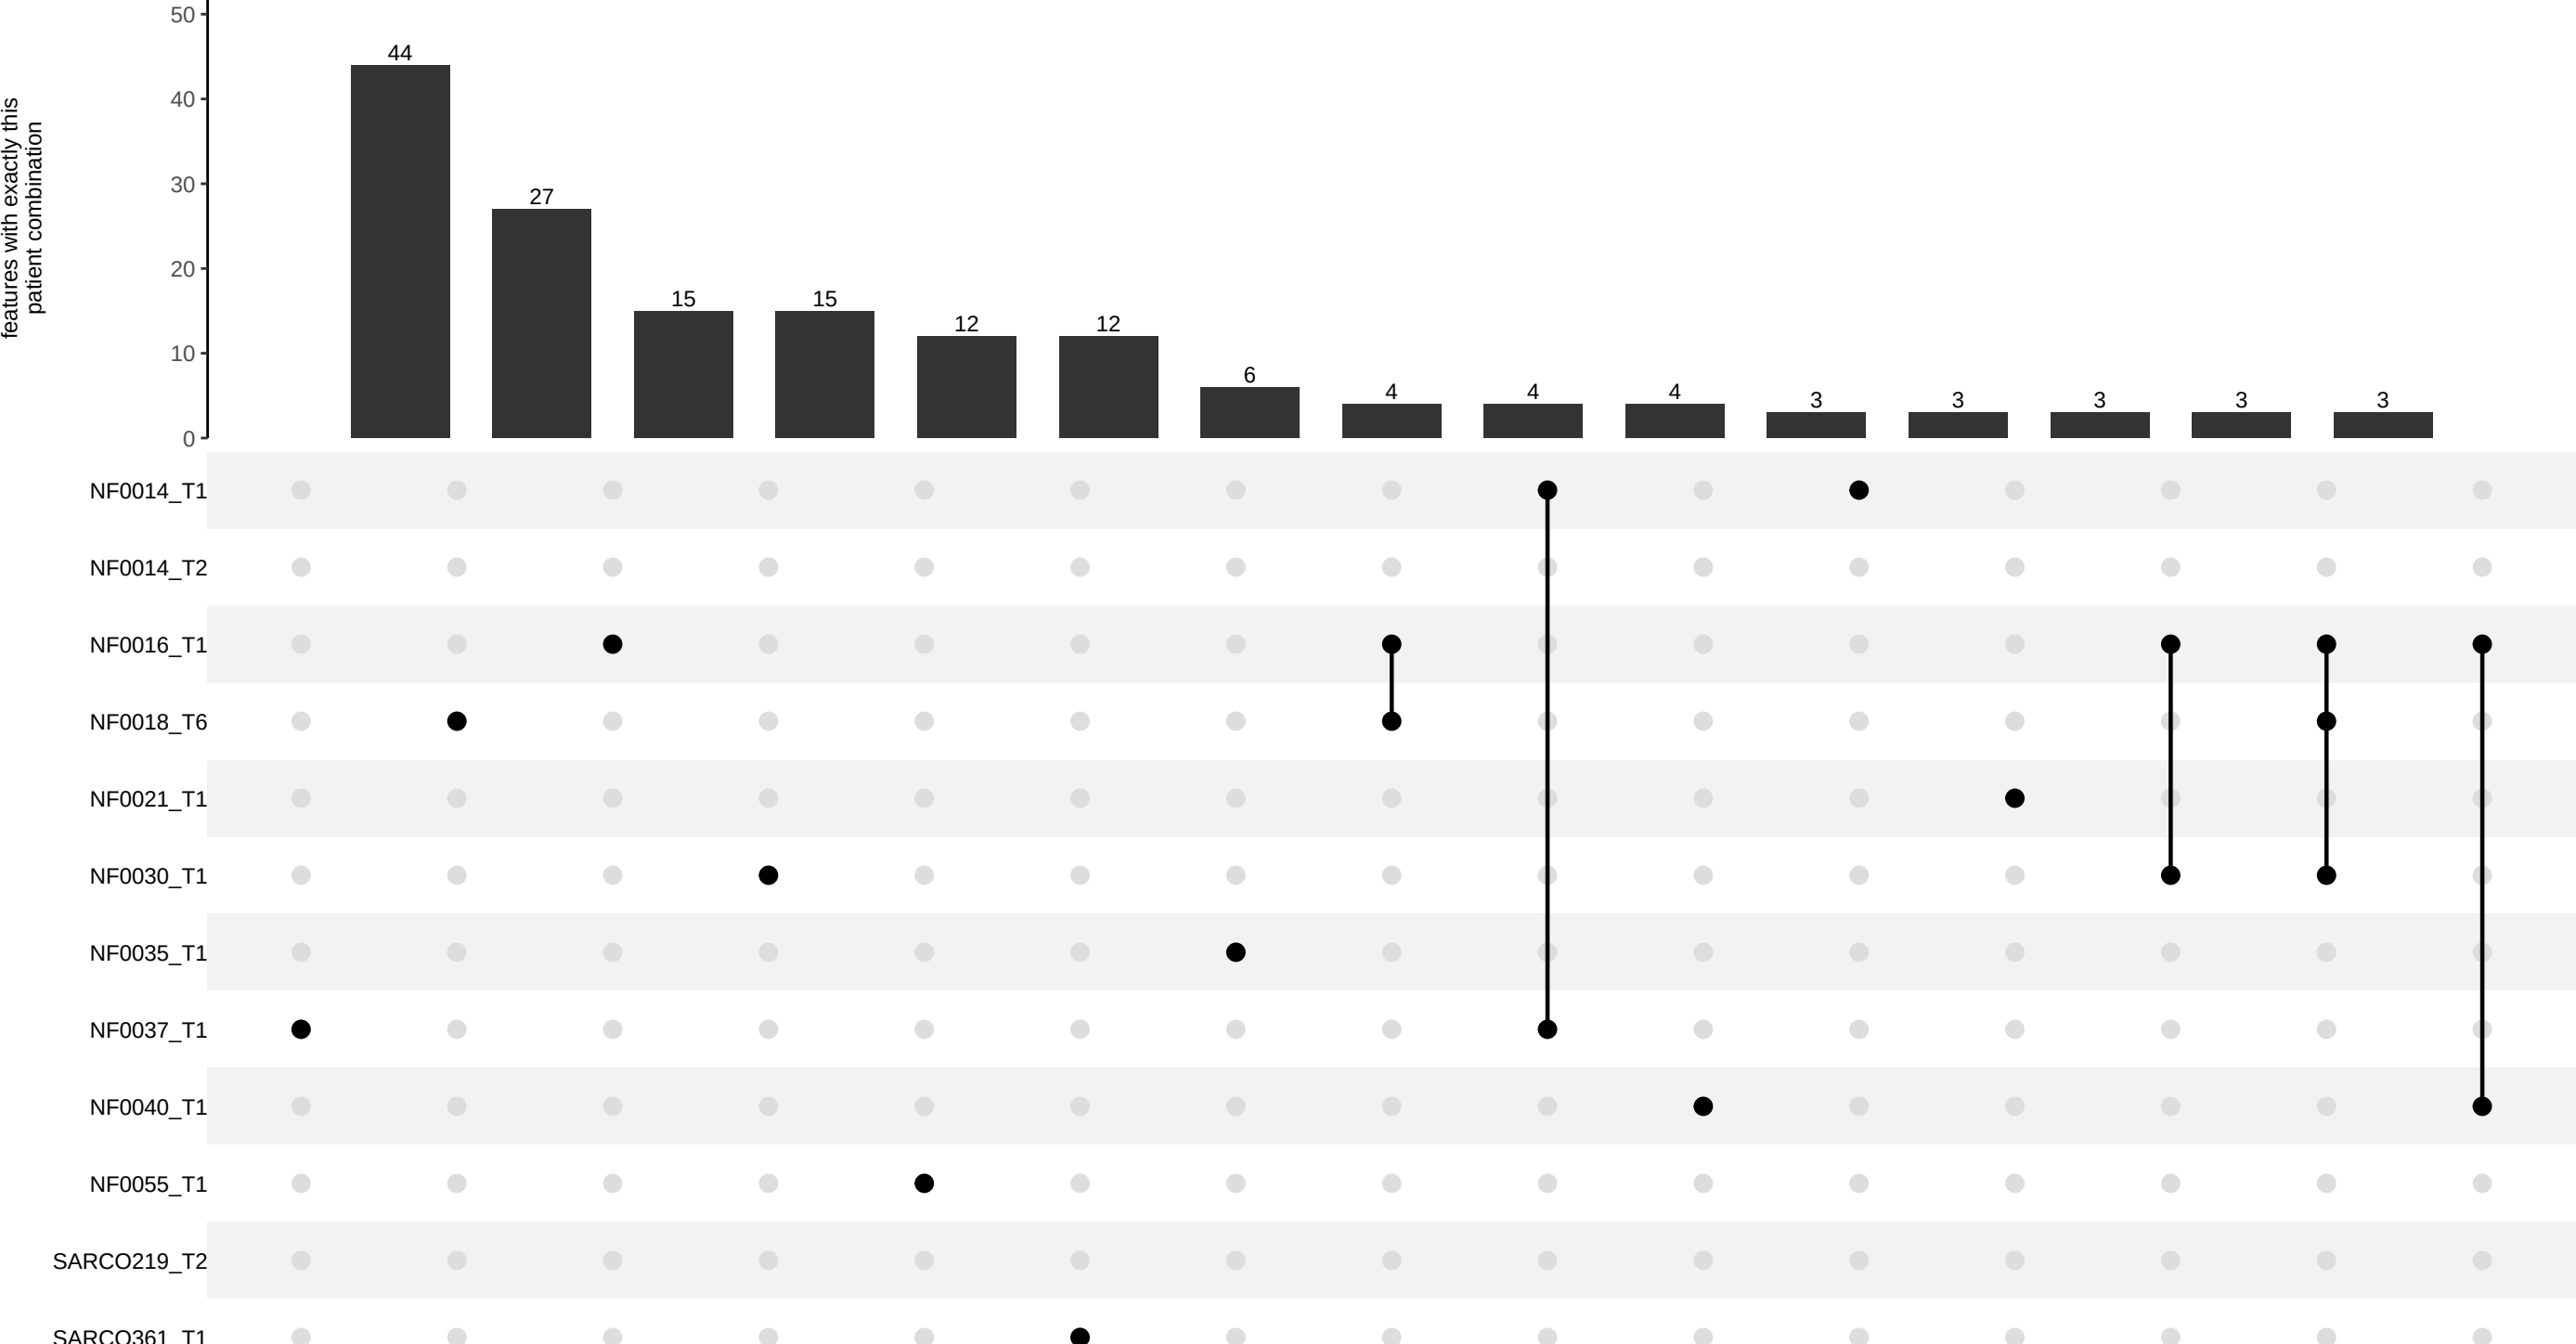

cell_count | Nilotinib_1uM
Features significant for exactly these variates, by the patients they occur in
(bars: number of features shared by exactly that patient combination)

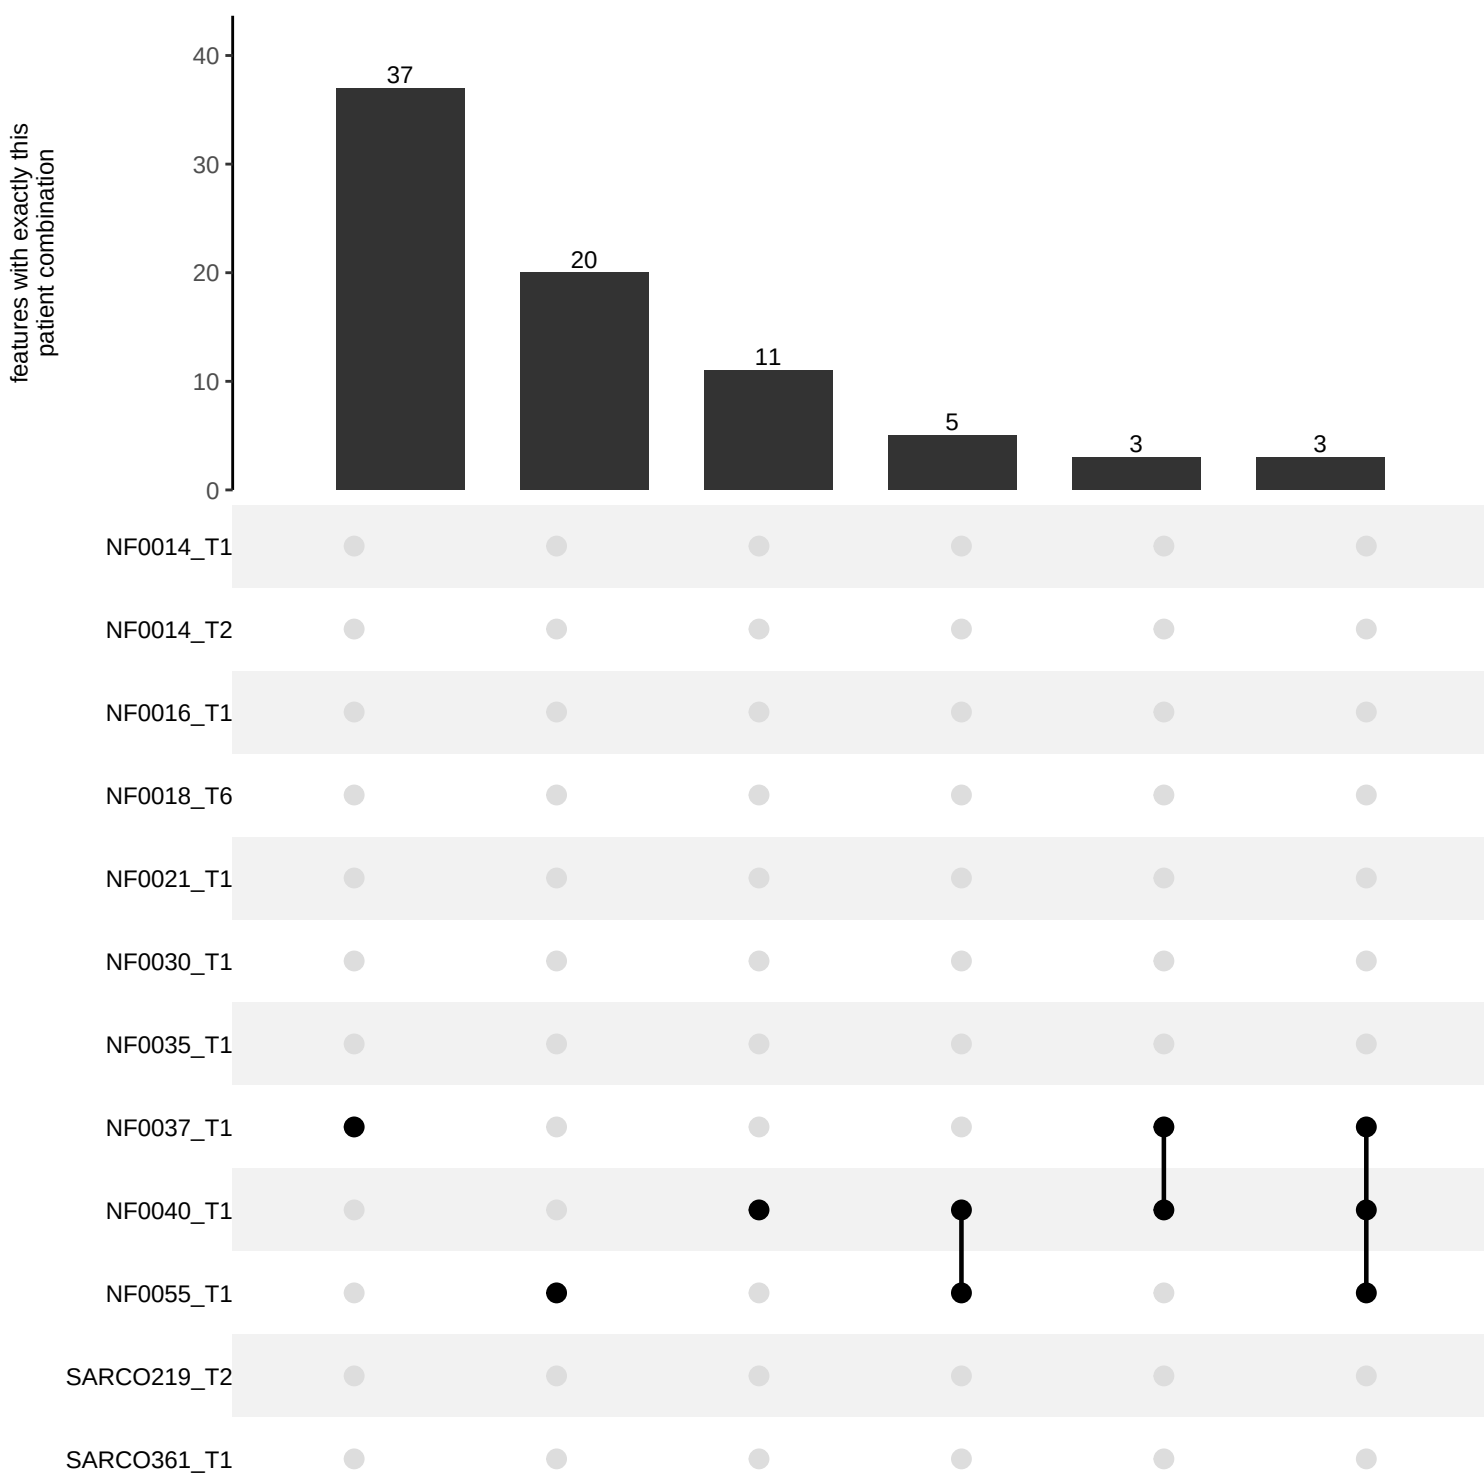

cell_count | Onalespib_1uM

Features significant for exactly these variates, by the patients they occur in (bars: number of features shared by exactly that patient combination)

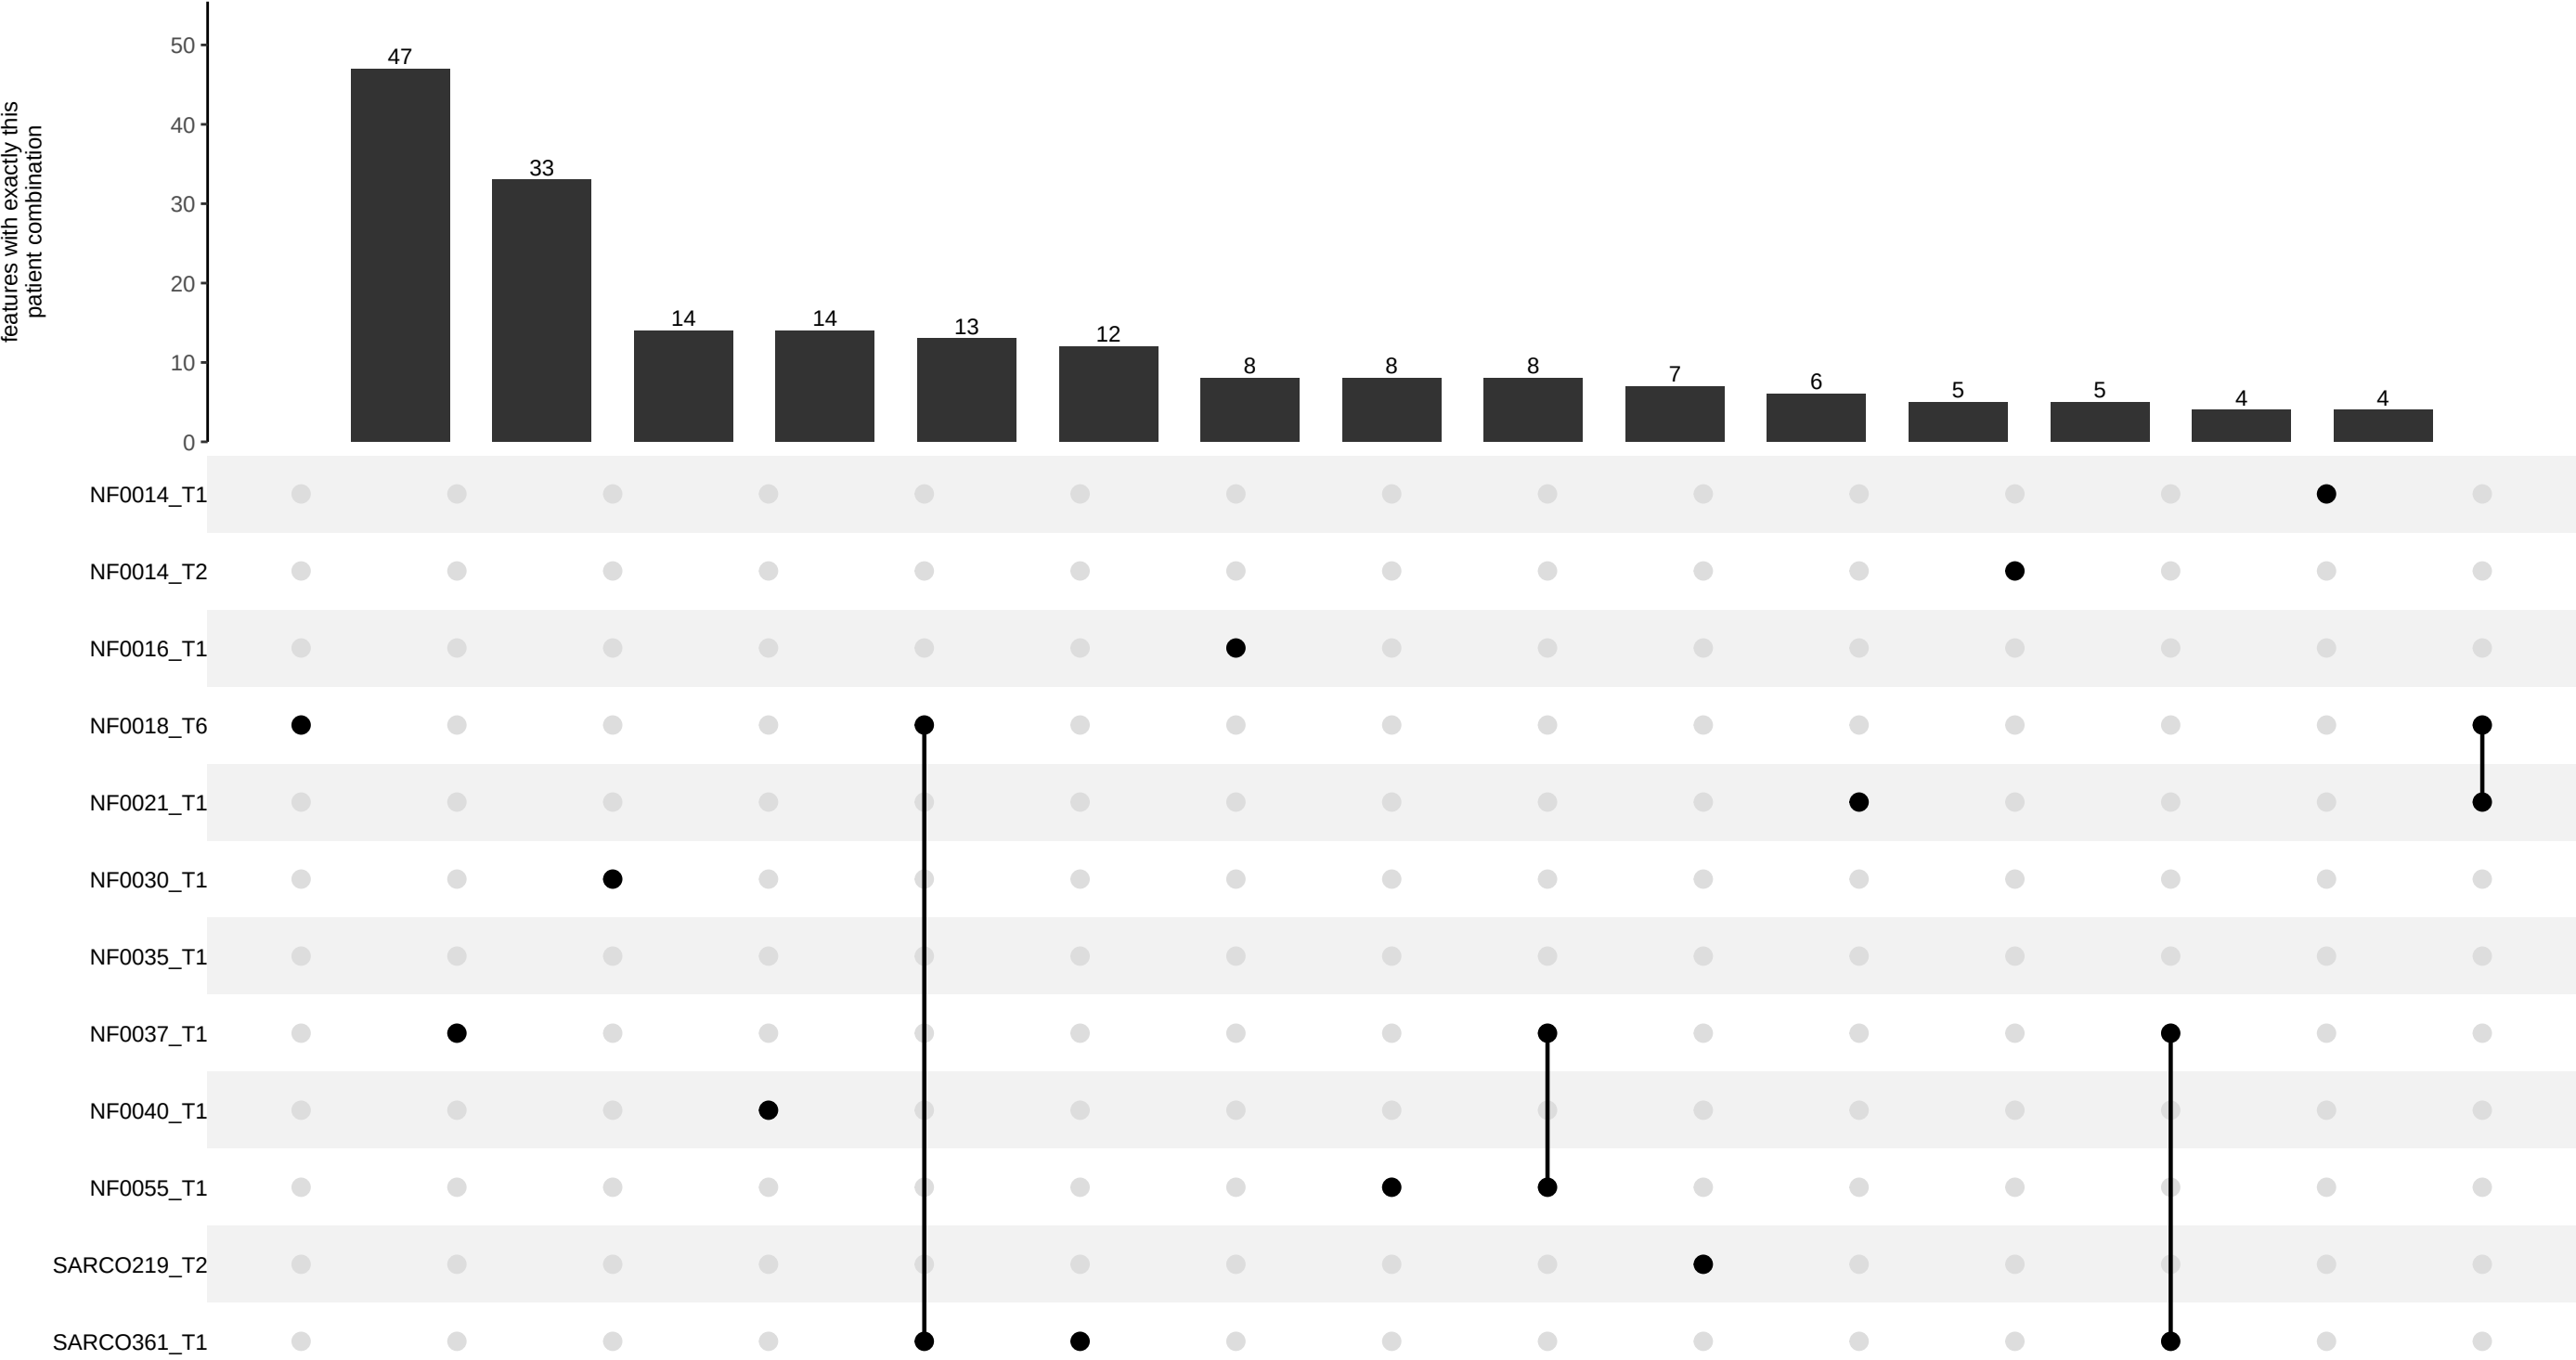

cell_count | Panobinostat_1uM

Features significant for exactly these variates, by the patients they occur in
(bars: number of features shared by exactly that patient combination)

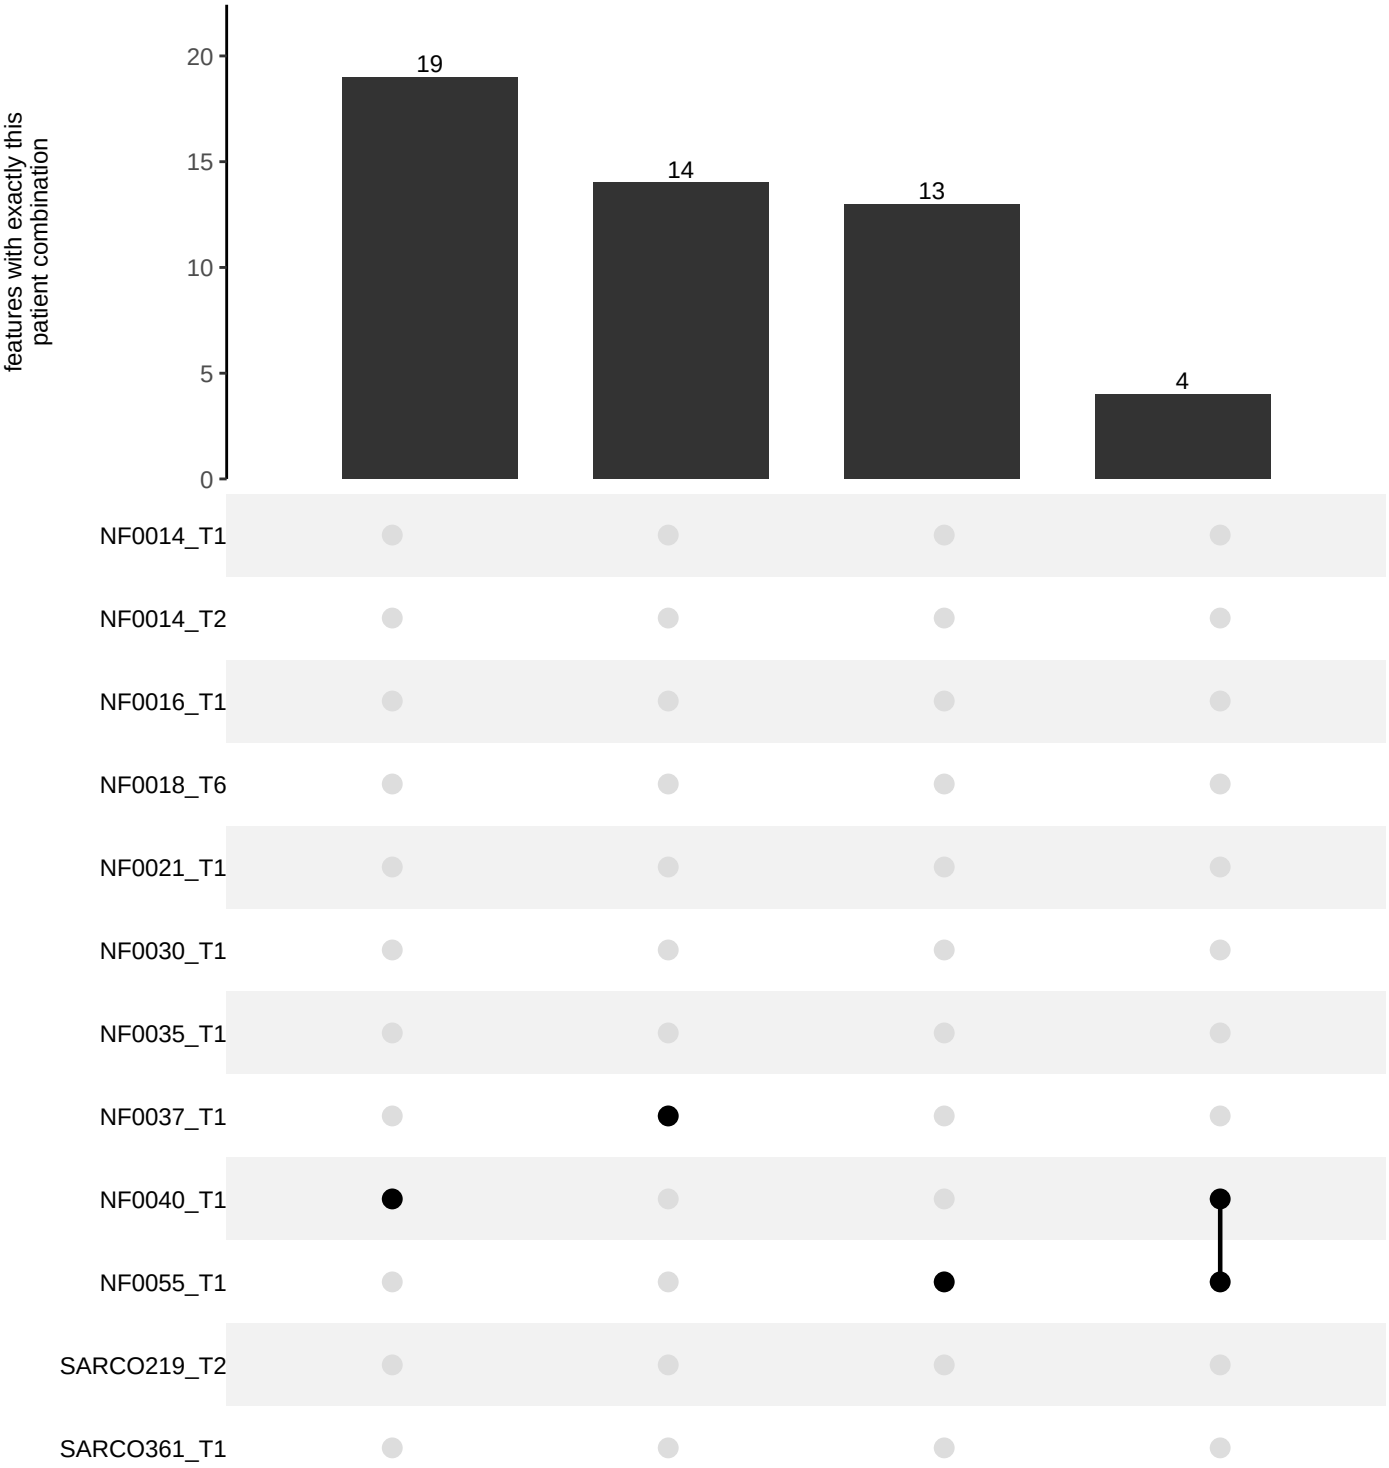

cell_count | Rapamycin_1uM

Features significant for exactly these variates, by the patients they occur in
(bars: number of features shared by exactly that patient combination)

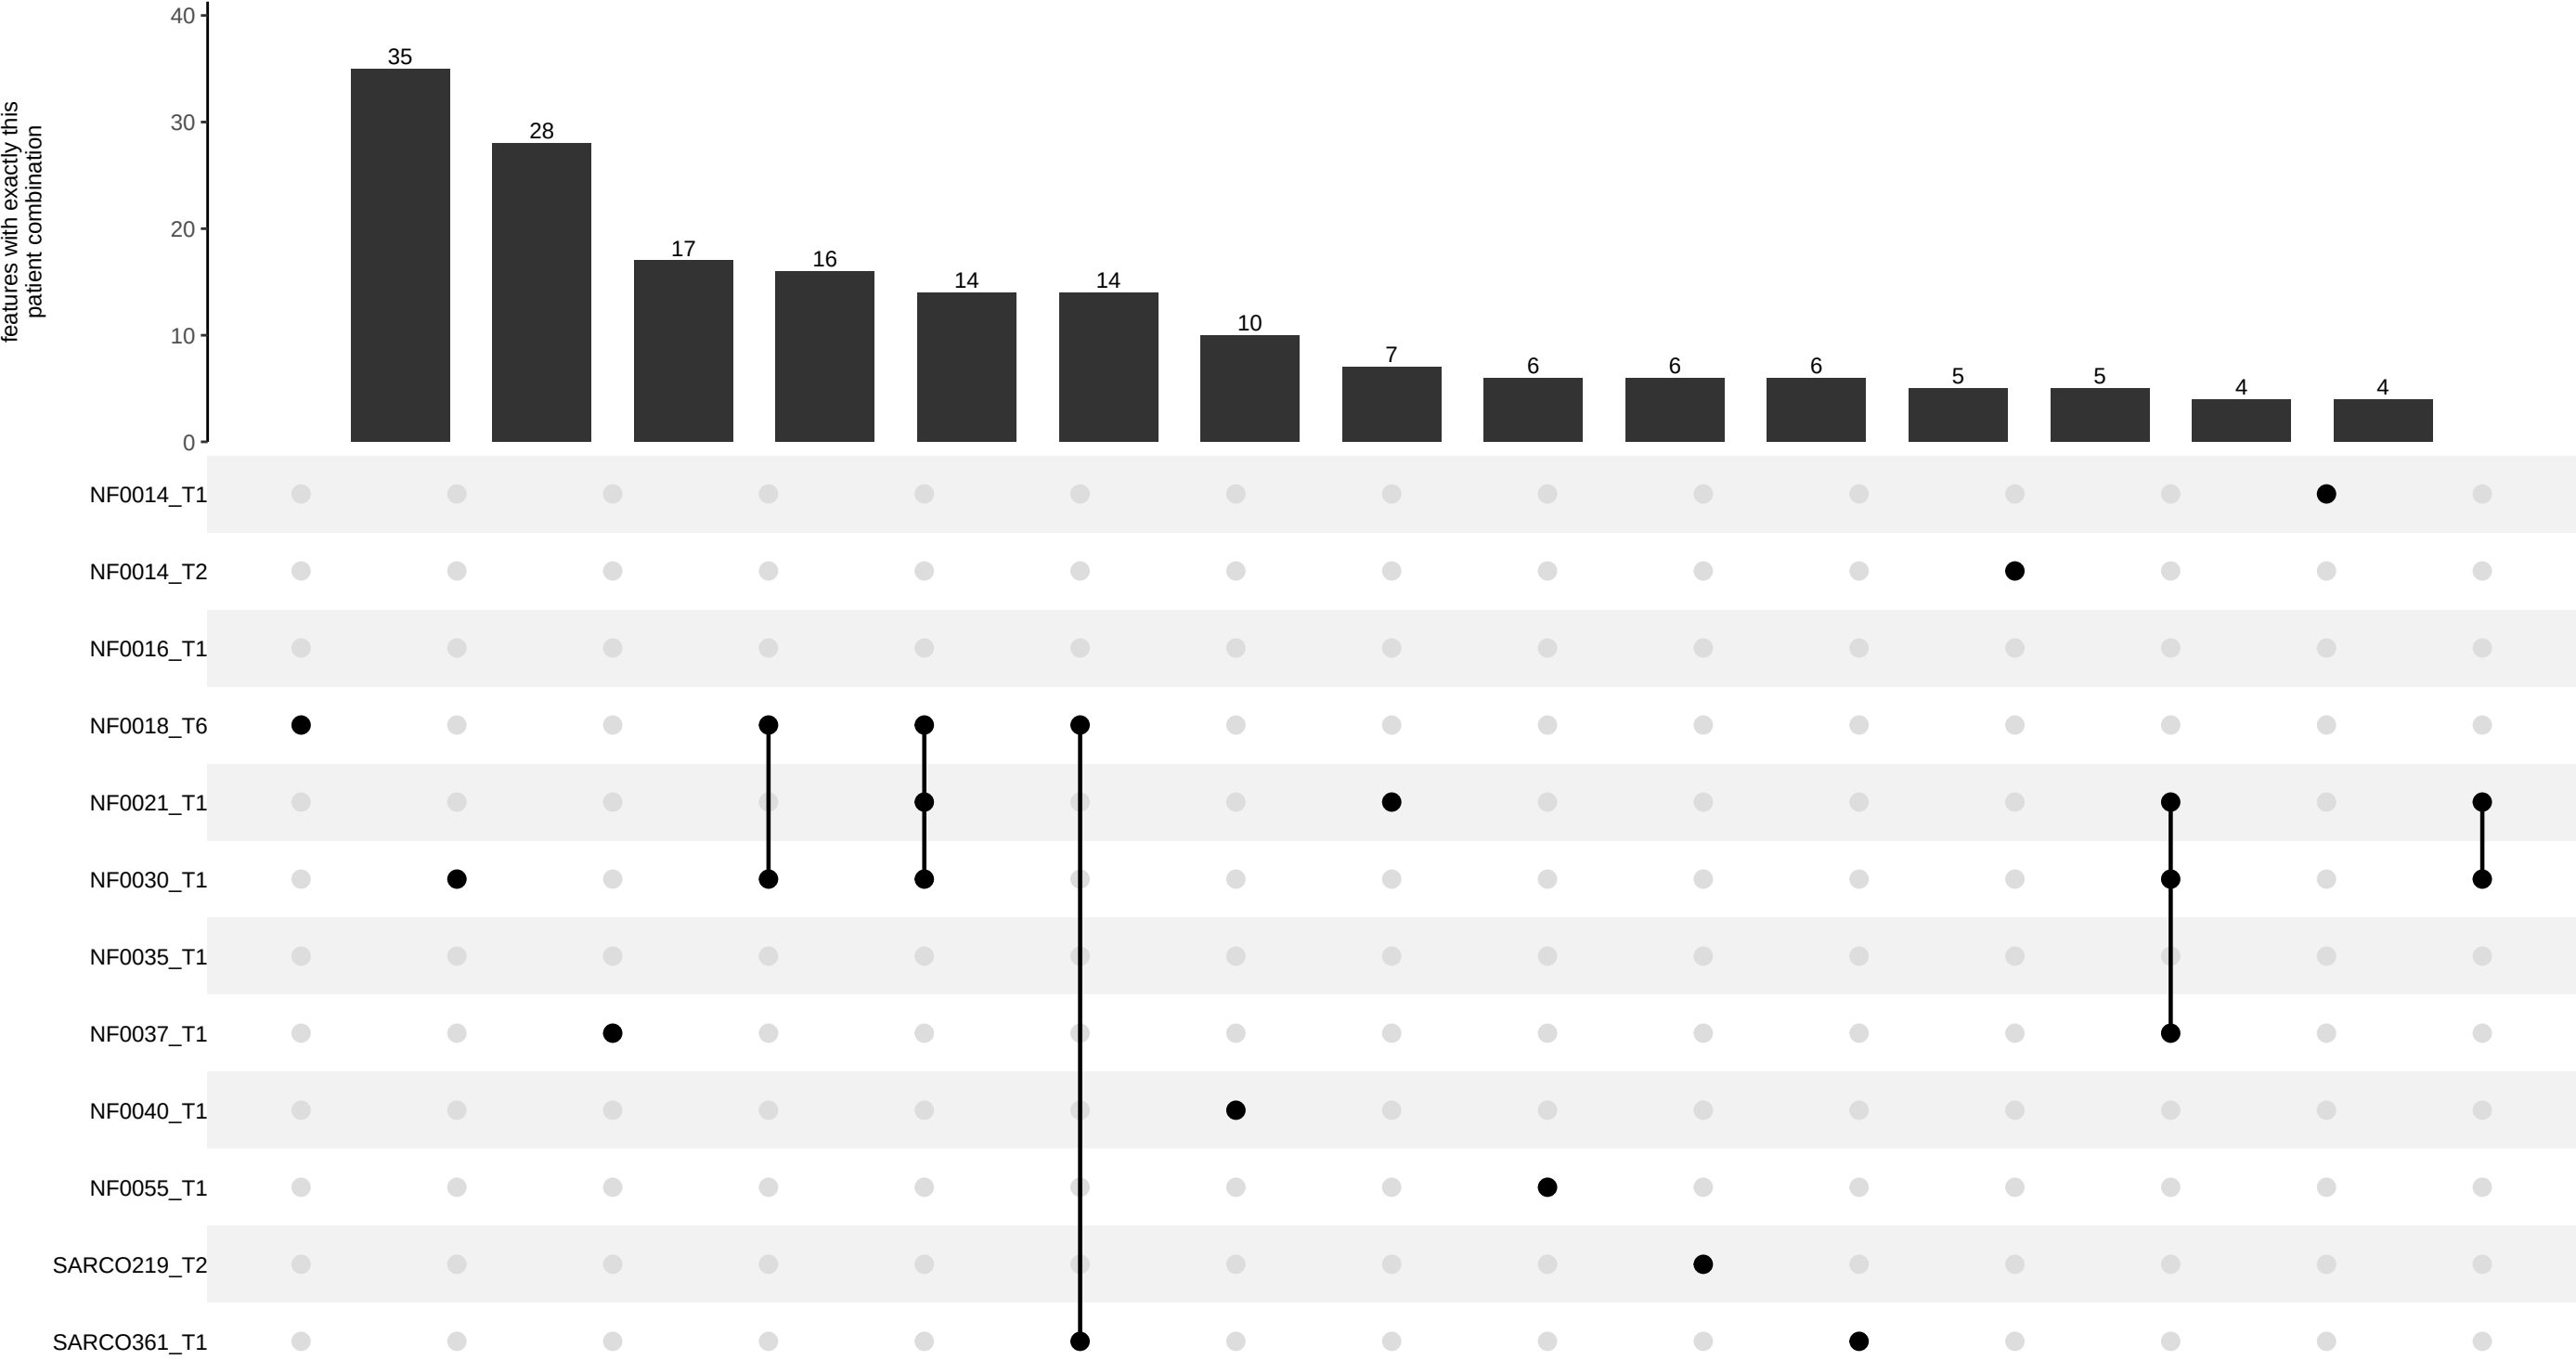

cell_count | Sapanisertib_1uM

Features significant for exactly these variates, by the patients they occur in
(bars: number of features shared by exactly that patient combination)

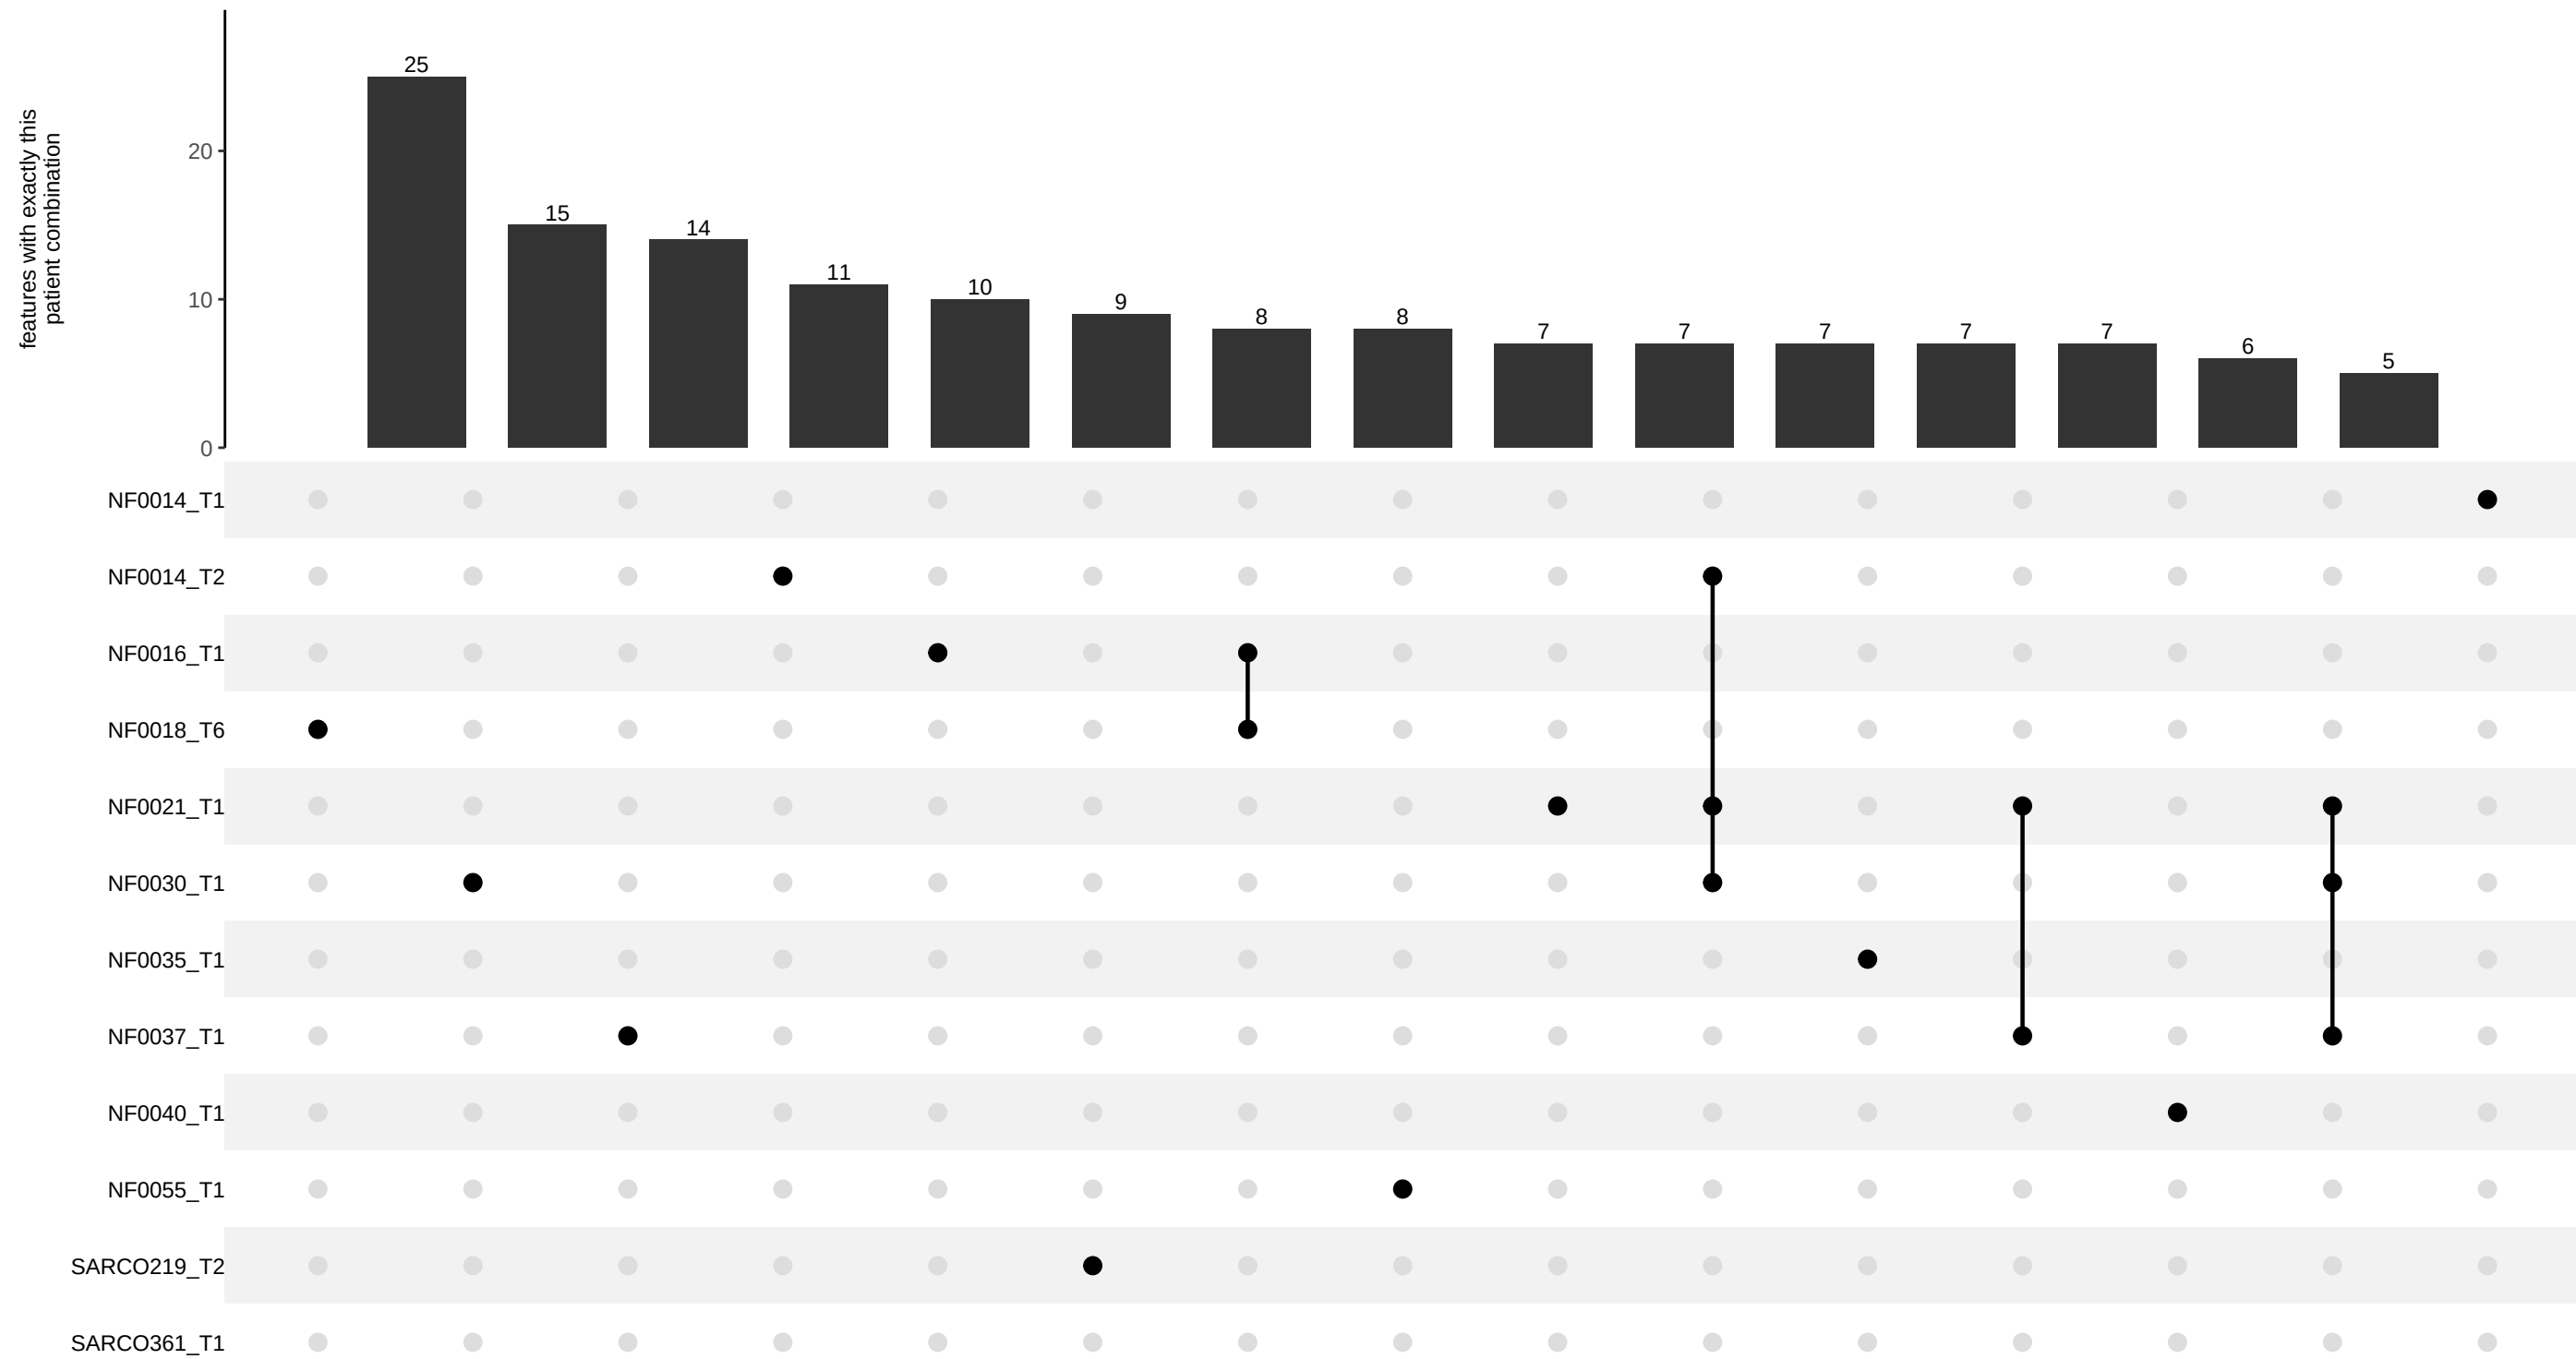

cell_count | Selumetinib_10uM

Features significant for exactly these variates, by the patients they occur in
(bars: number of features shared by exactly that patient combination)

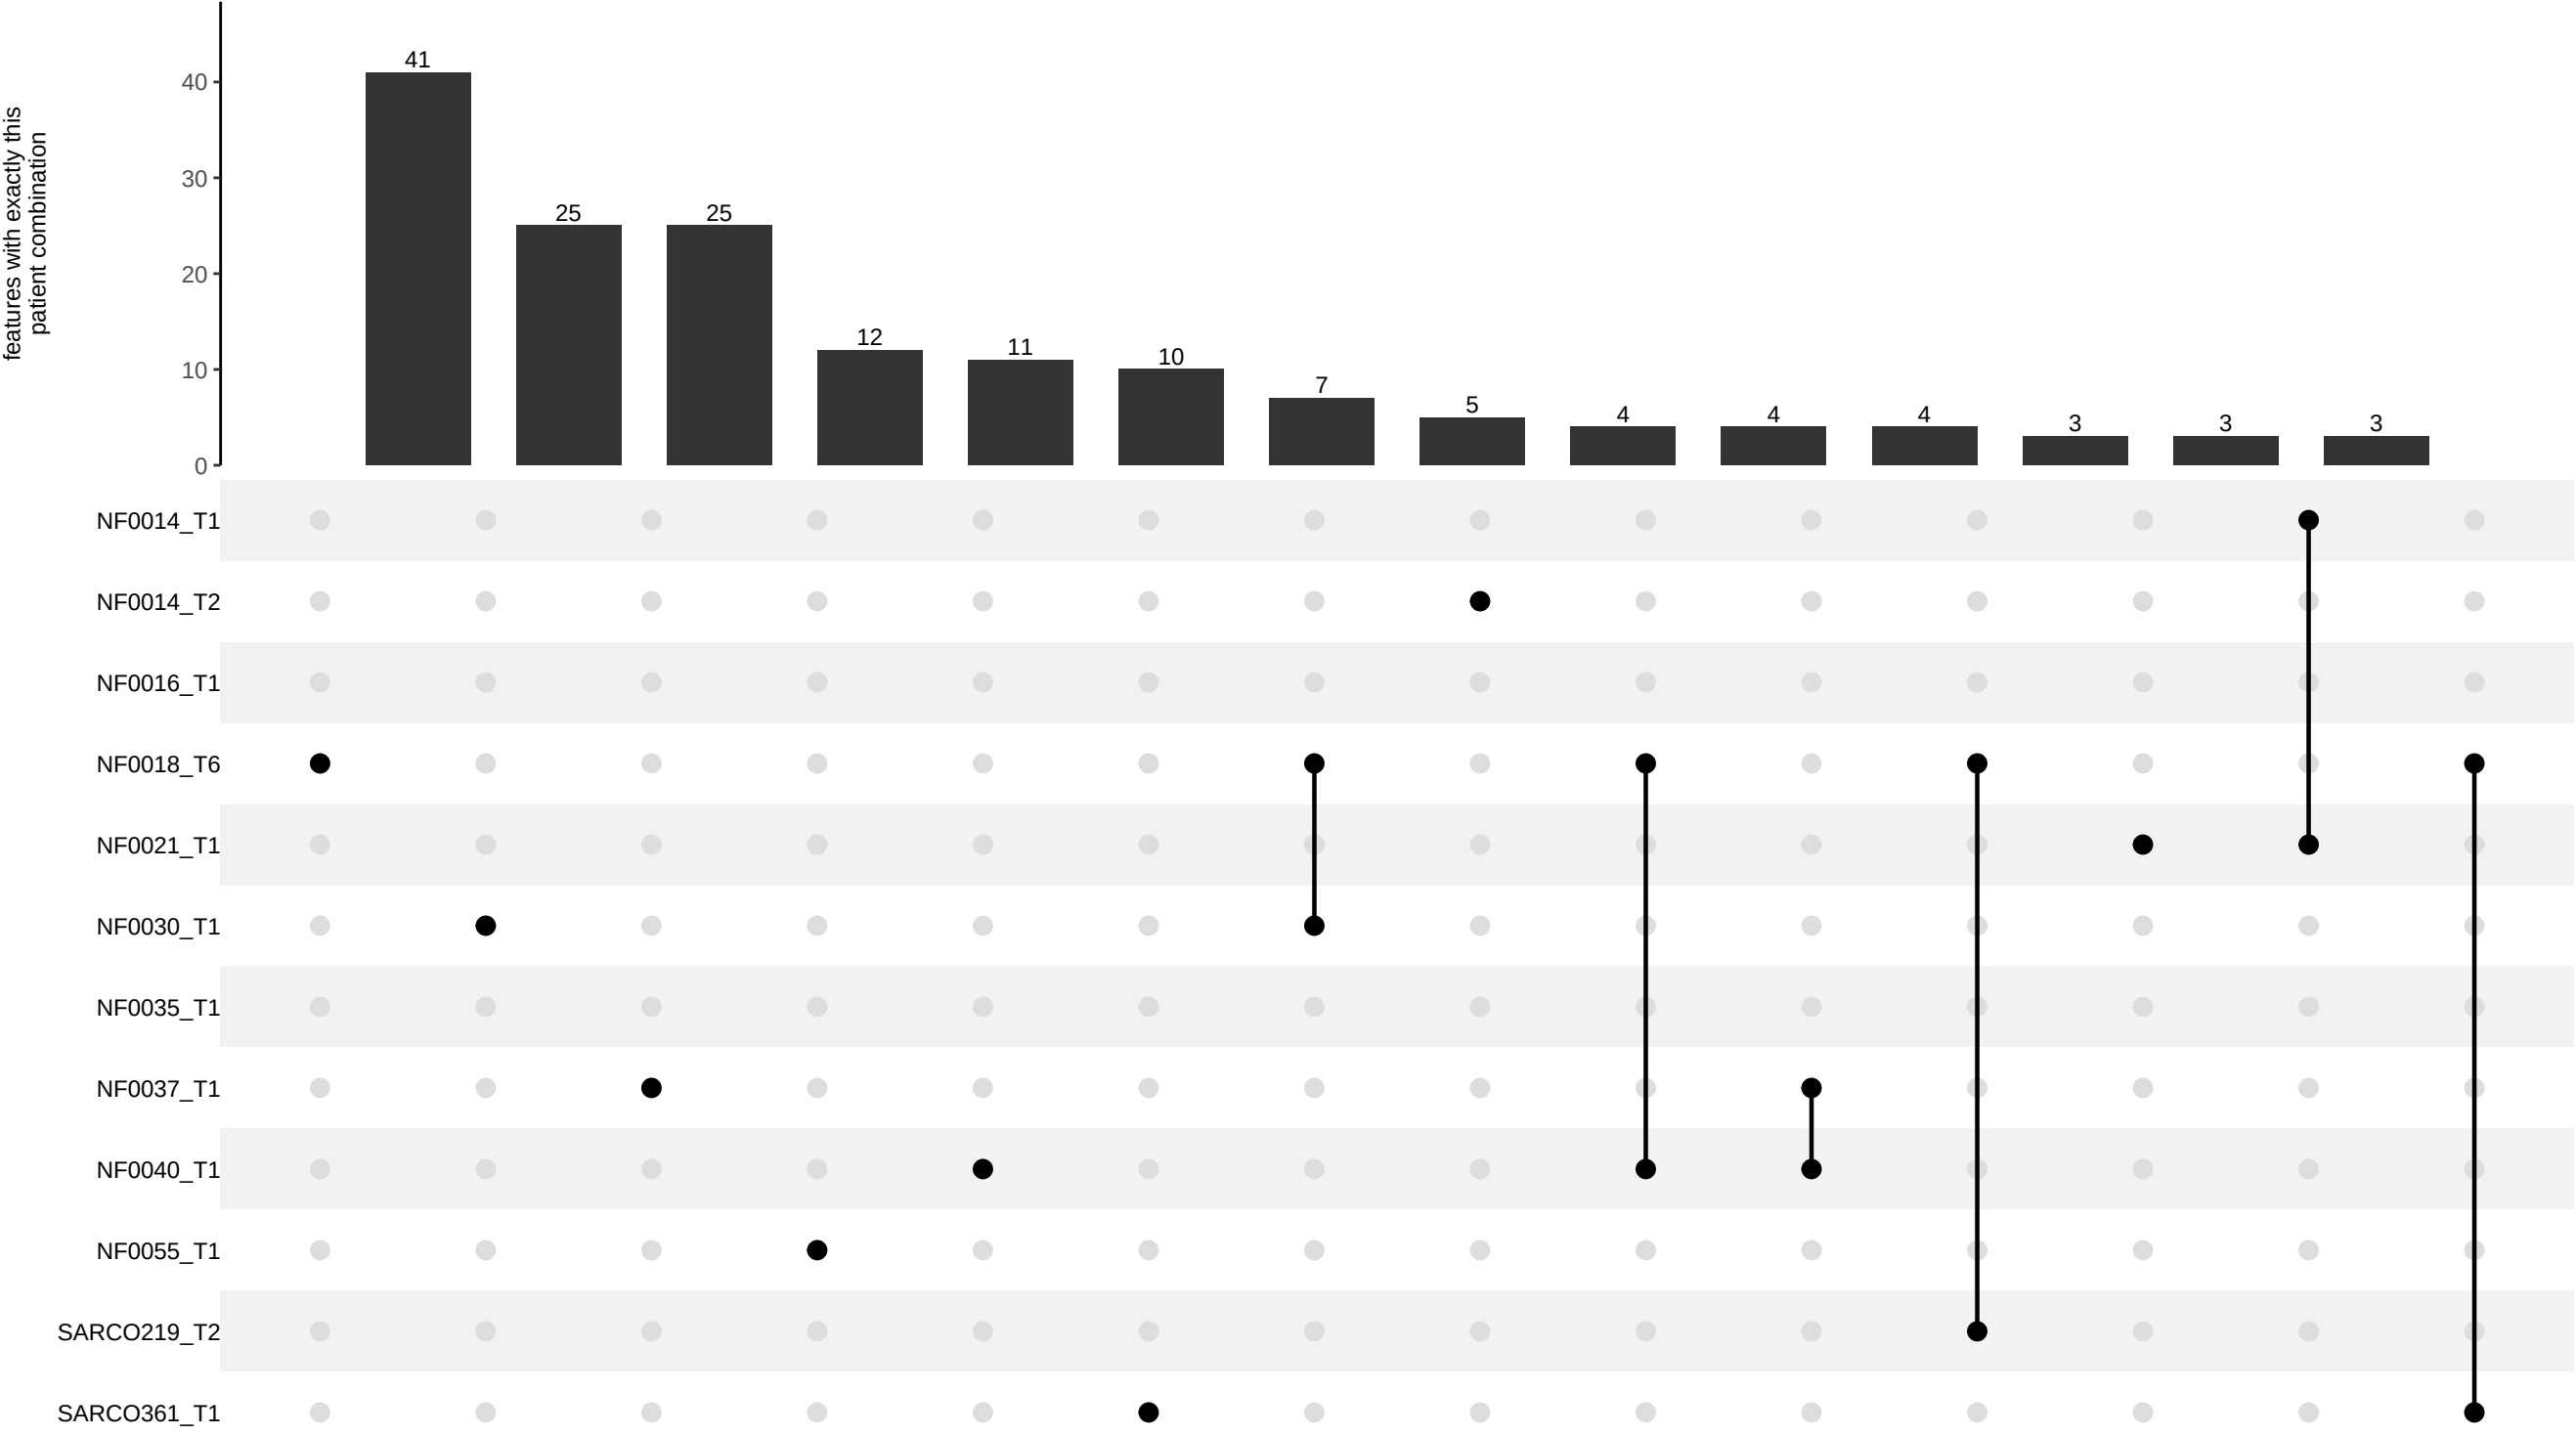

cell_count | Selumetinib_1uM

Features significant for exactly these variates, by the patients they occur in
(bars: number of features shared by exactly that patient combination)

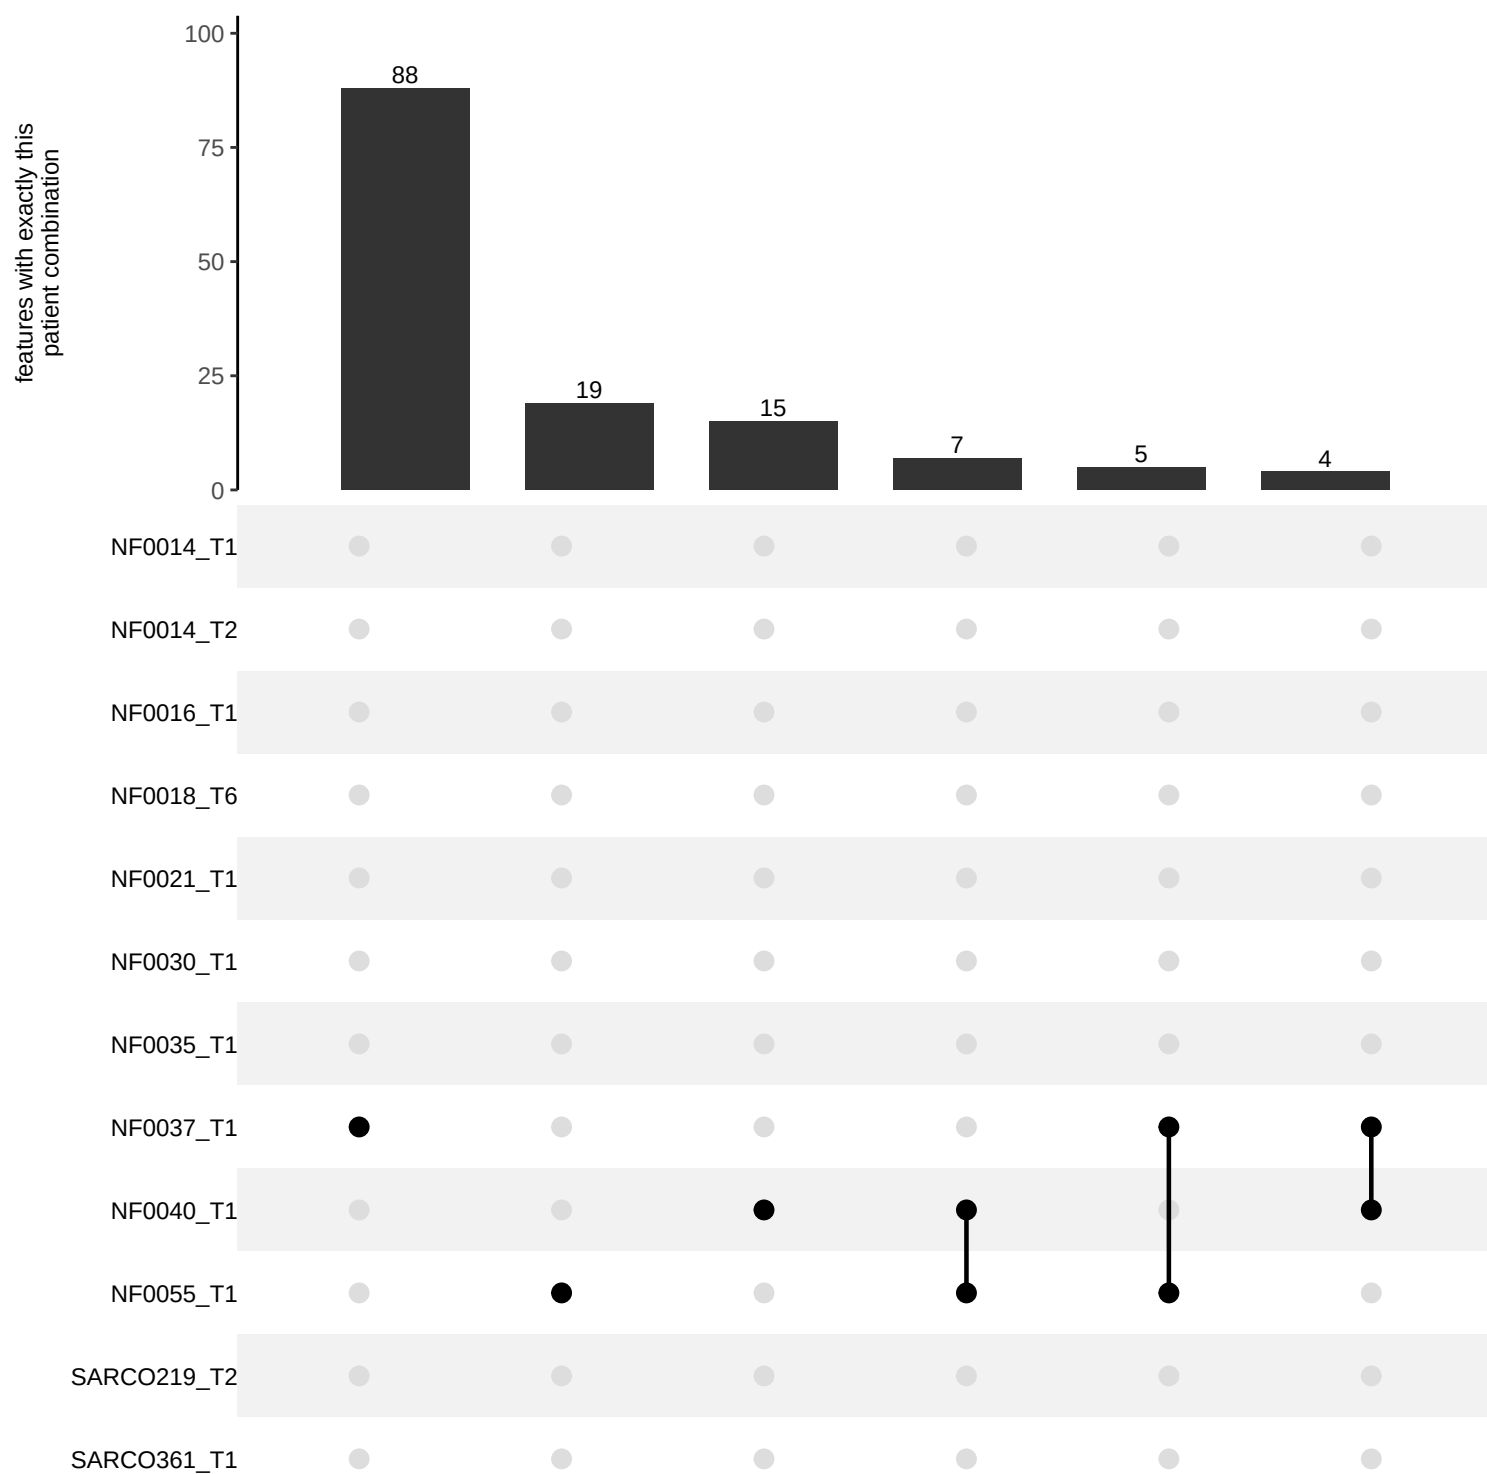

cell_count | Staurosporine_10nM
Features significant for exactly these variates, by the patients they occur in
(bars: number of features shared by exactly that patient combination)

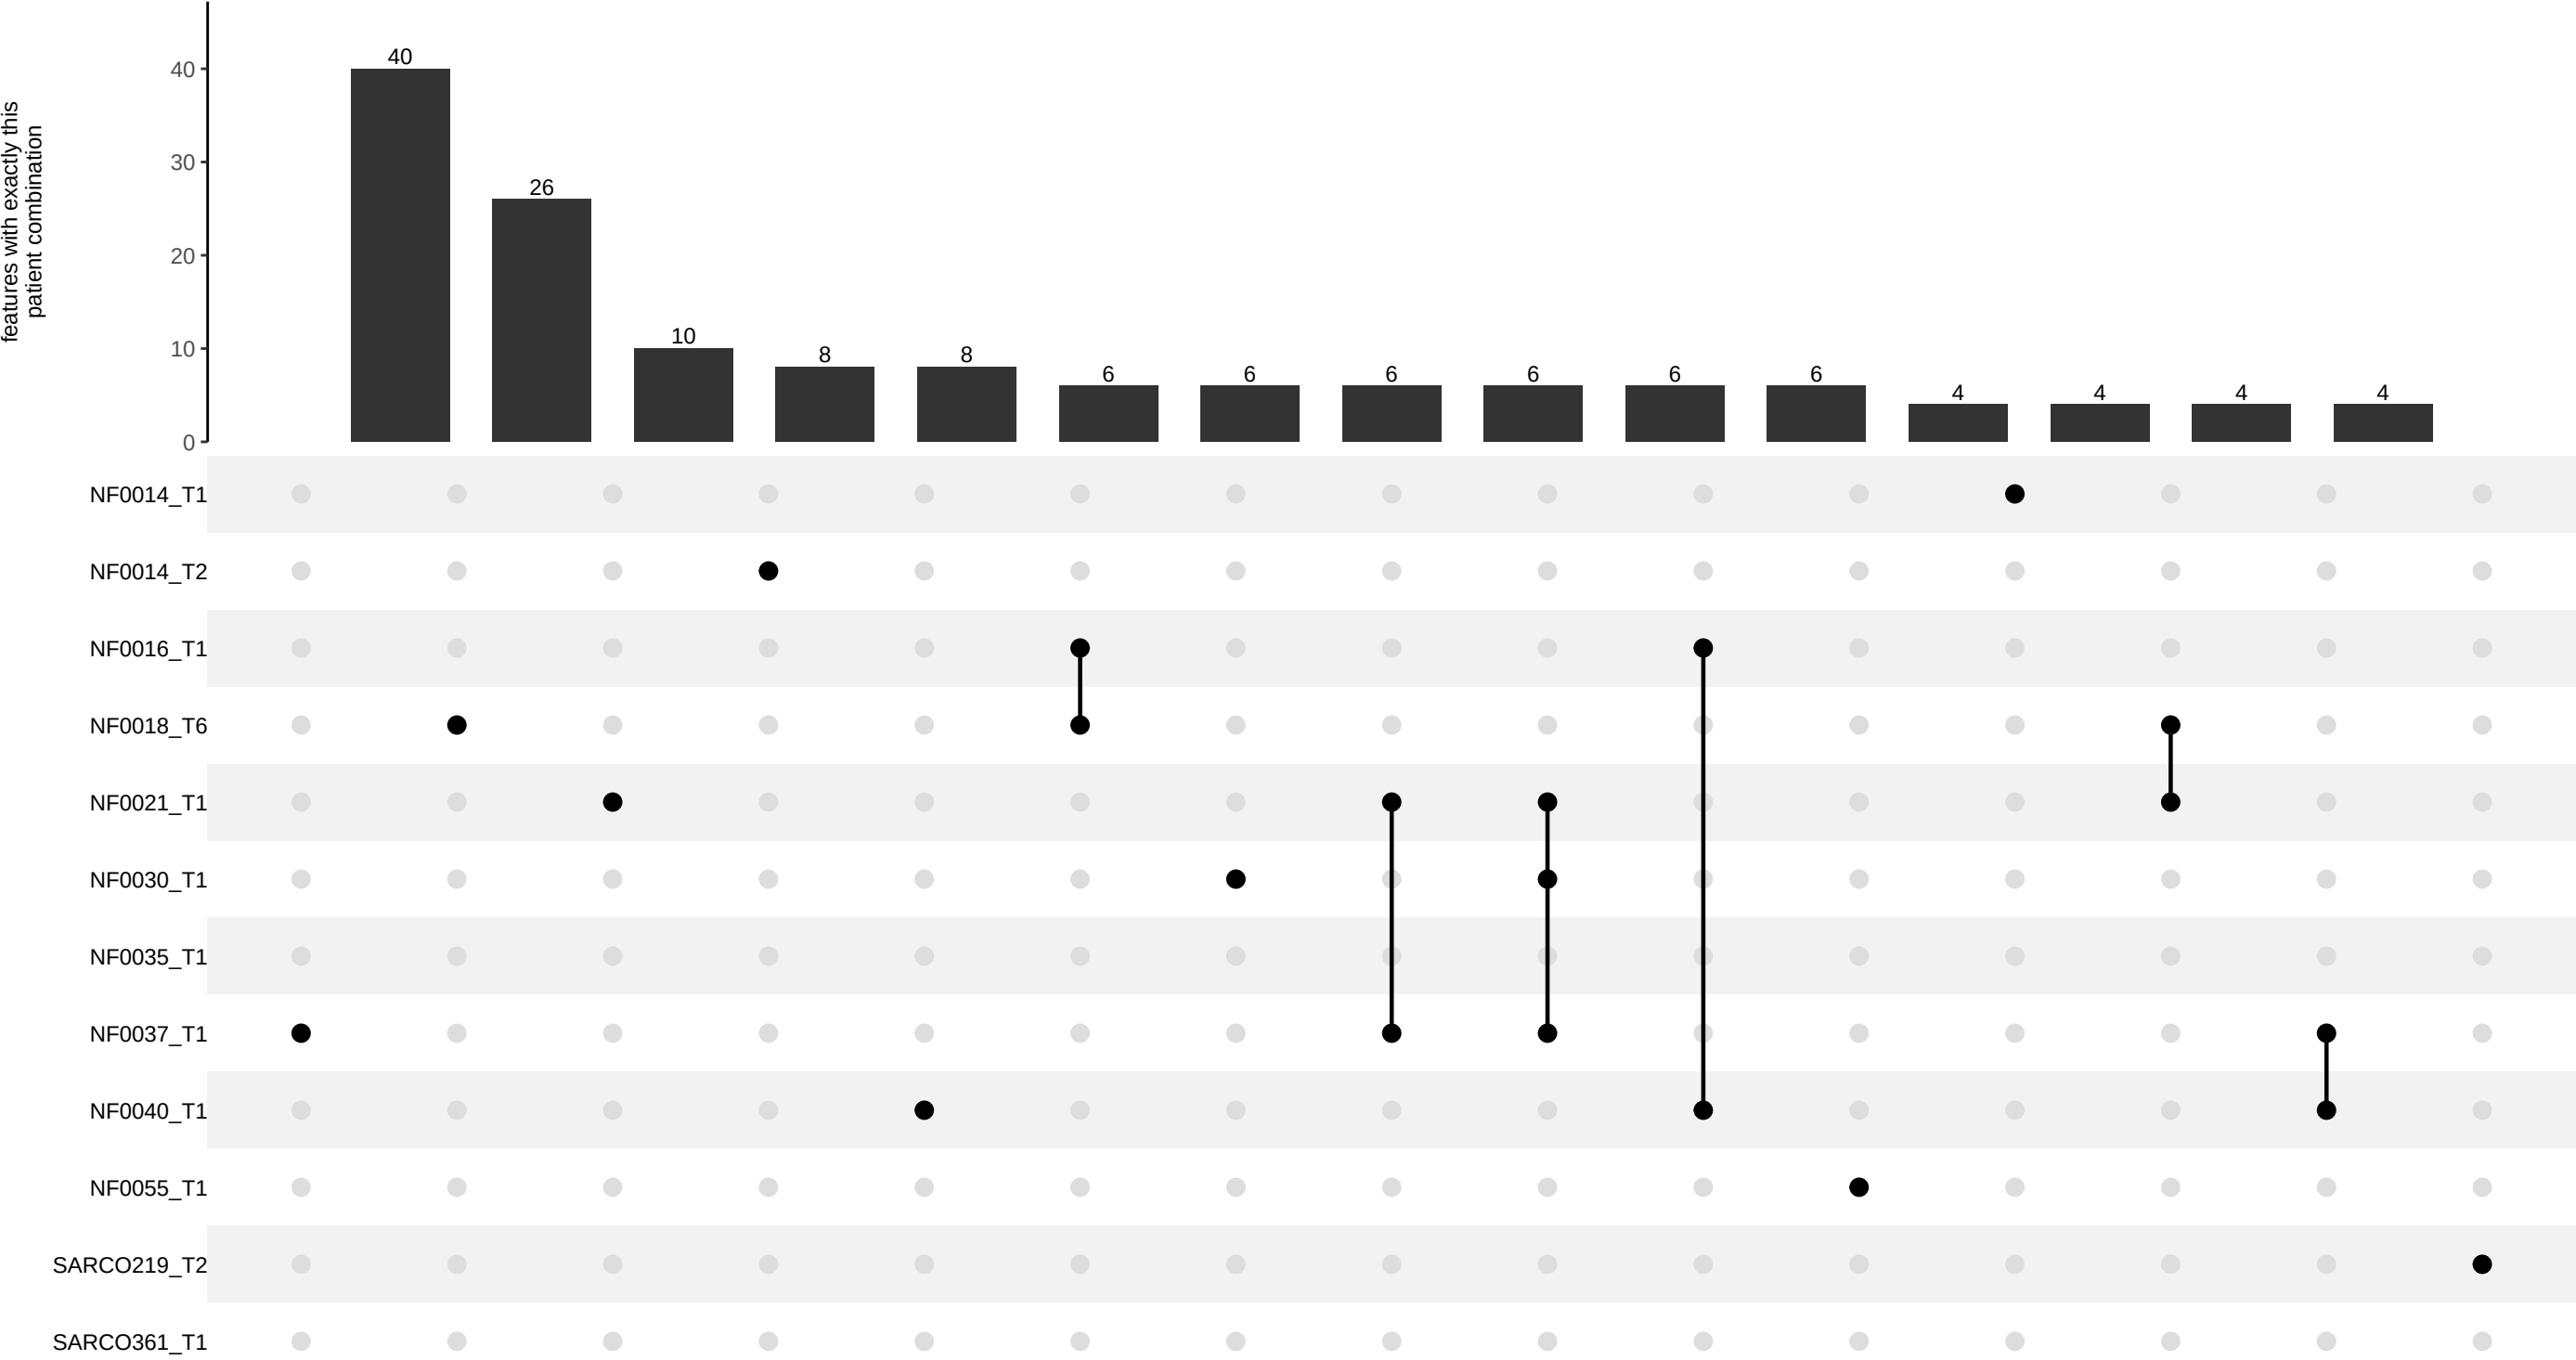

cell_count | Trabectedin_1uM

Features significant for exactly these variates, by the patients they occur in
(bars: number of features shared by exactly that patient combination)

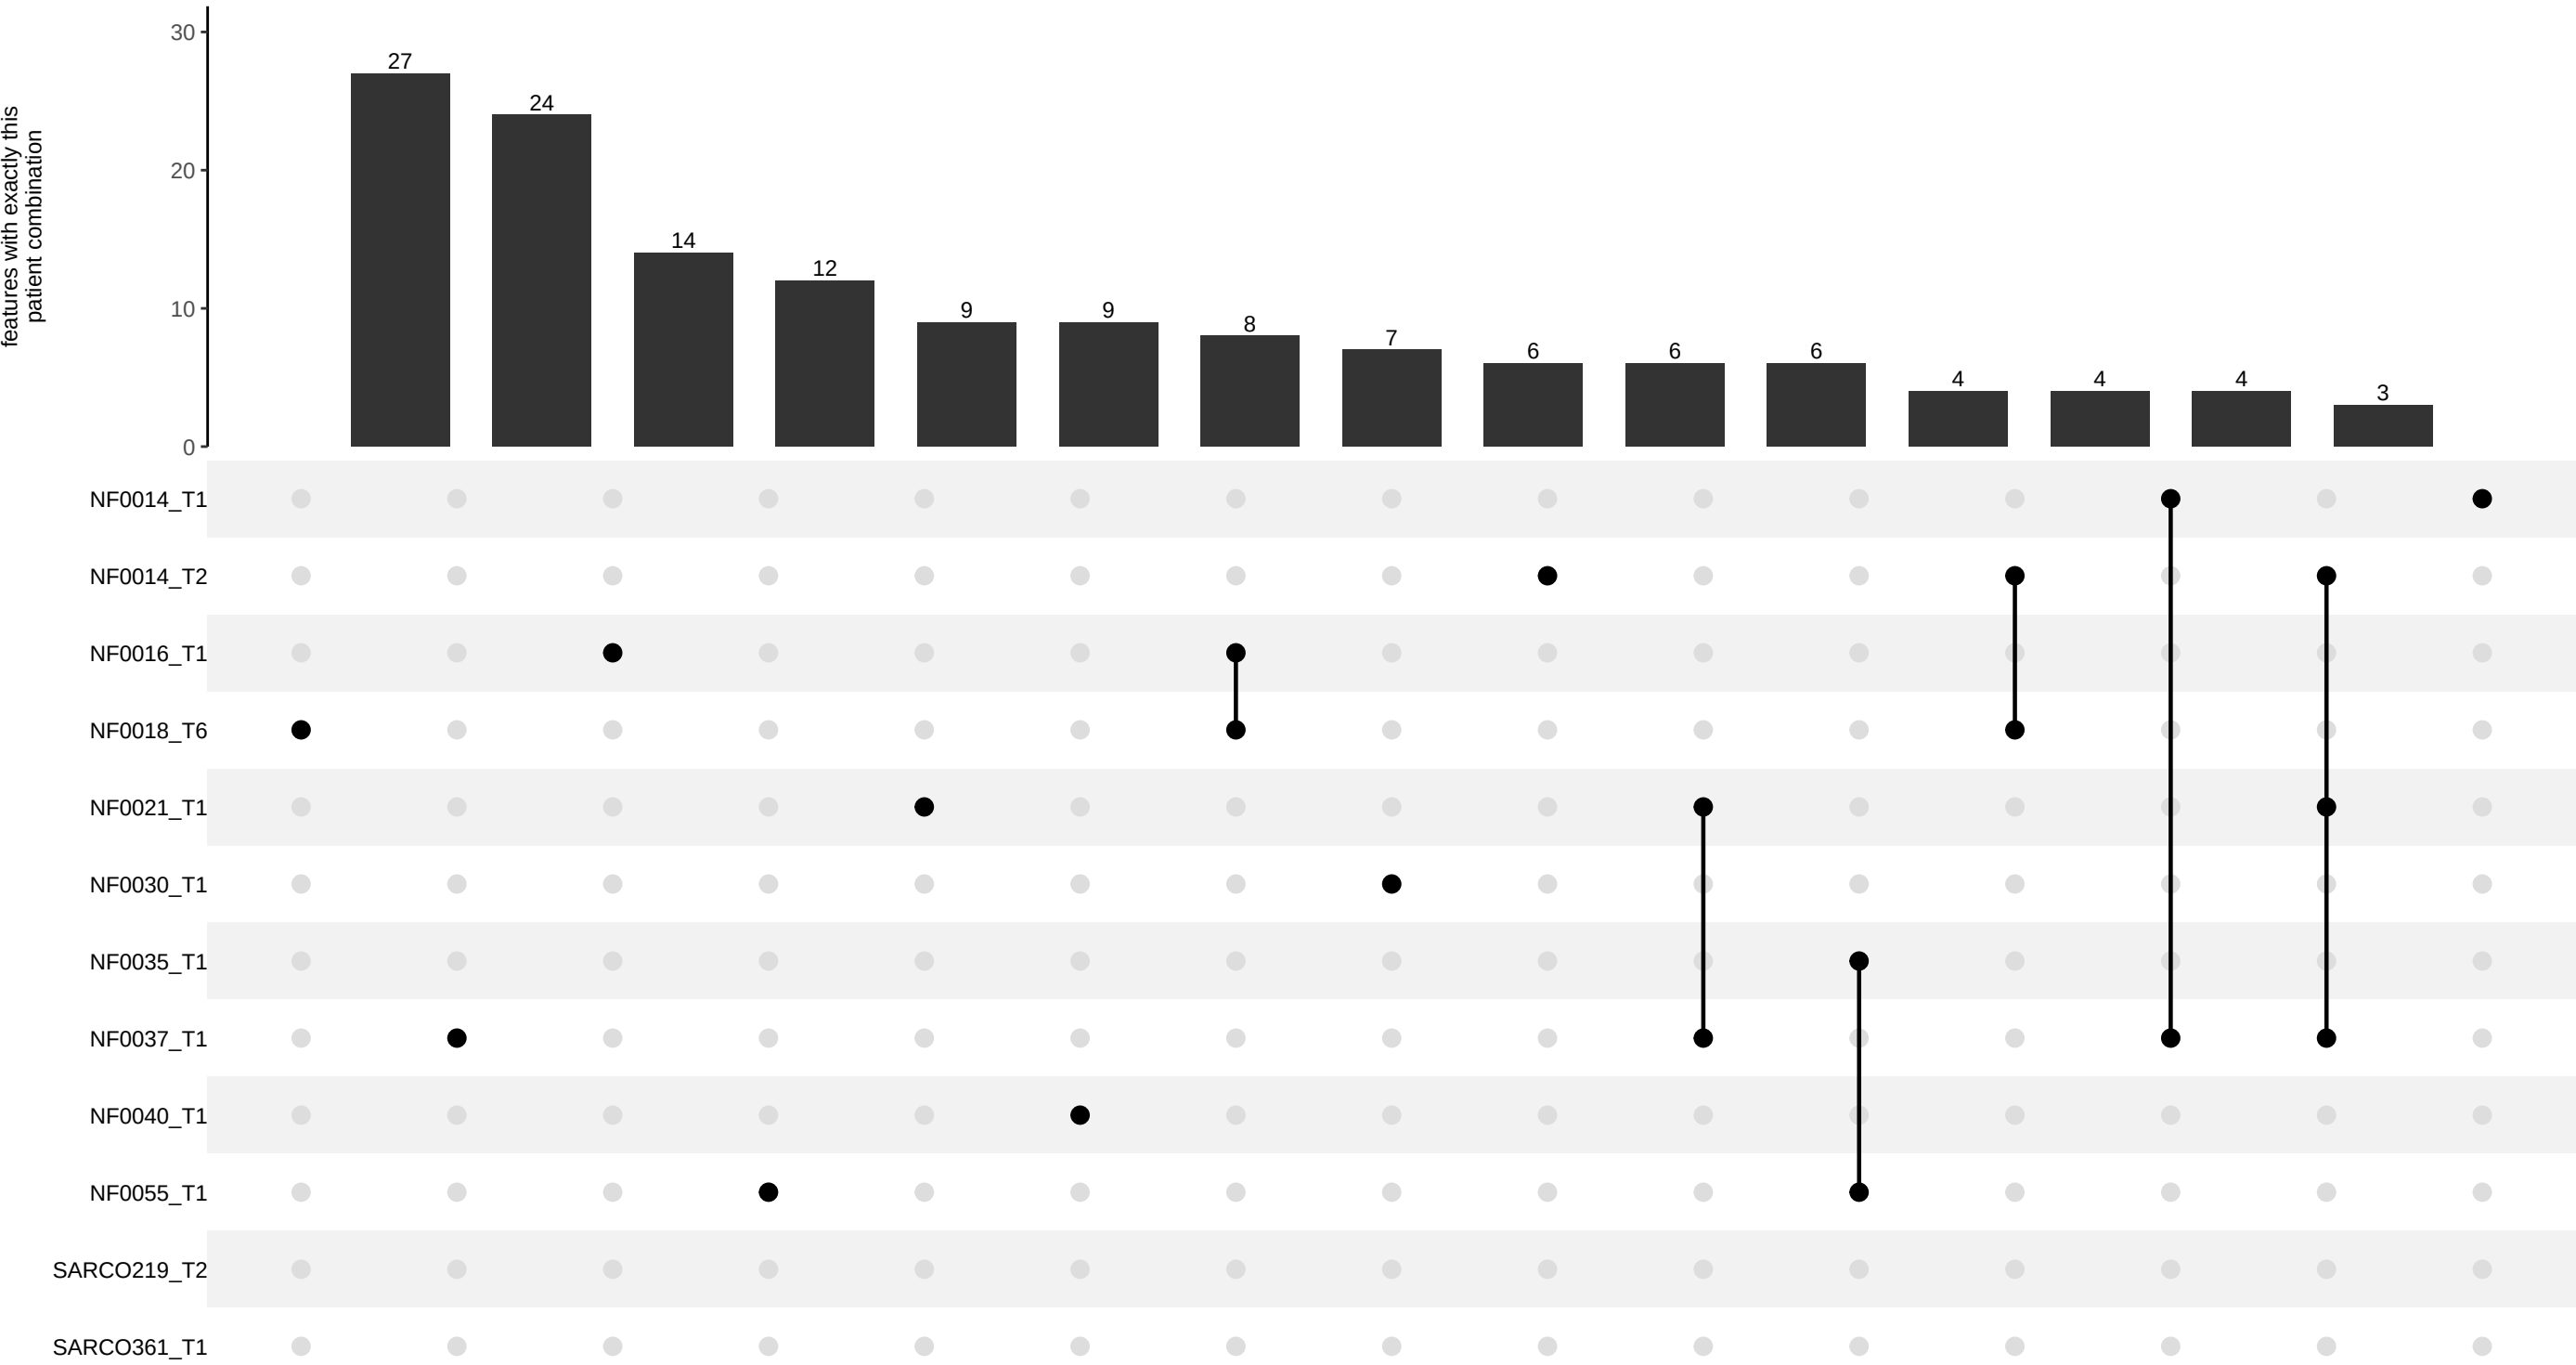

cell_count | Trametinib_10uM

Features significant for exactly these variates, by the patients they occur in
(bars: number of features shared by exactly that patient combination)

cell_count | Trametinib_1uM

Features significant for exactly these variates, by the patients they occur in
(bars: number of features shared by exactly that patient combination)

Features significant for exactly these variates, by the patients they occur in (bars: number of features shared by exactly that patient combination)
