

treatment | ARV-825_1uM

Features significant for exactly these variates, by the patients they occur in
(bars: number of features shared by exactly that patient combination)

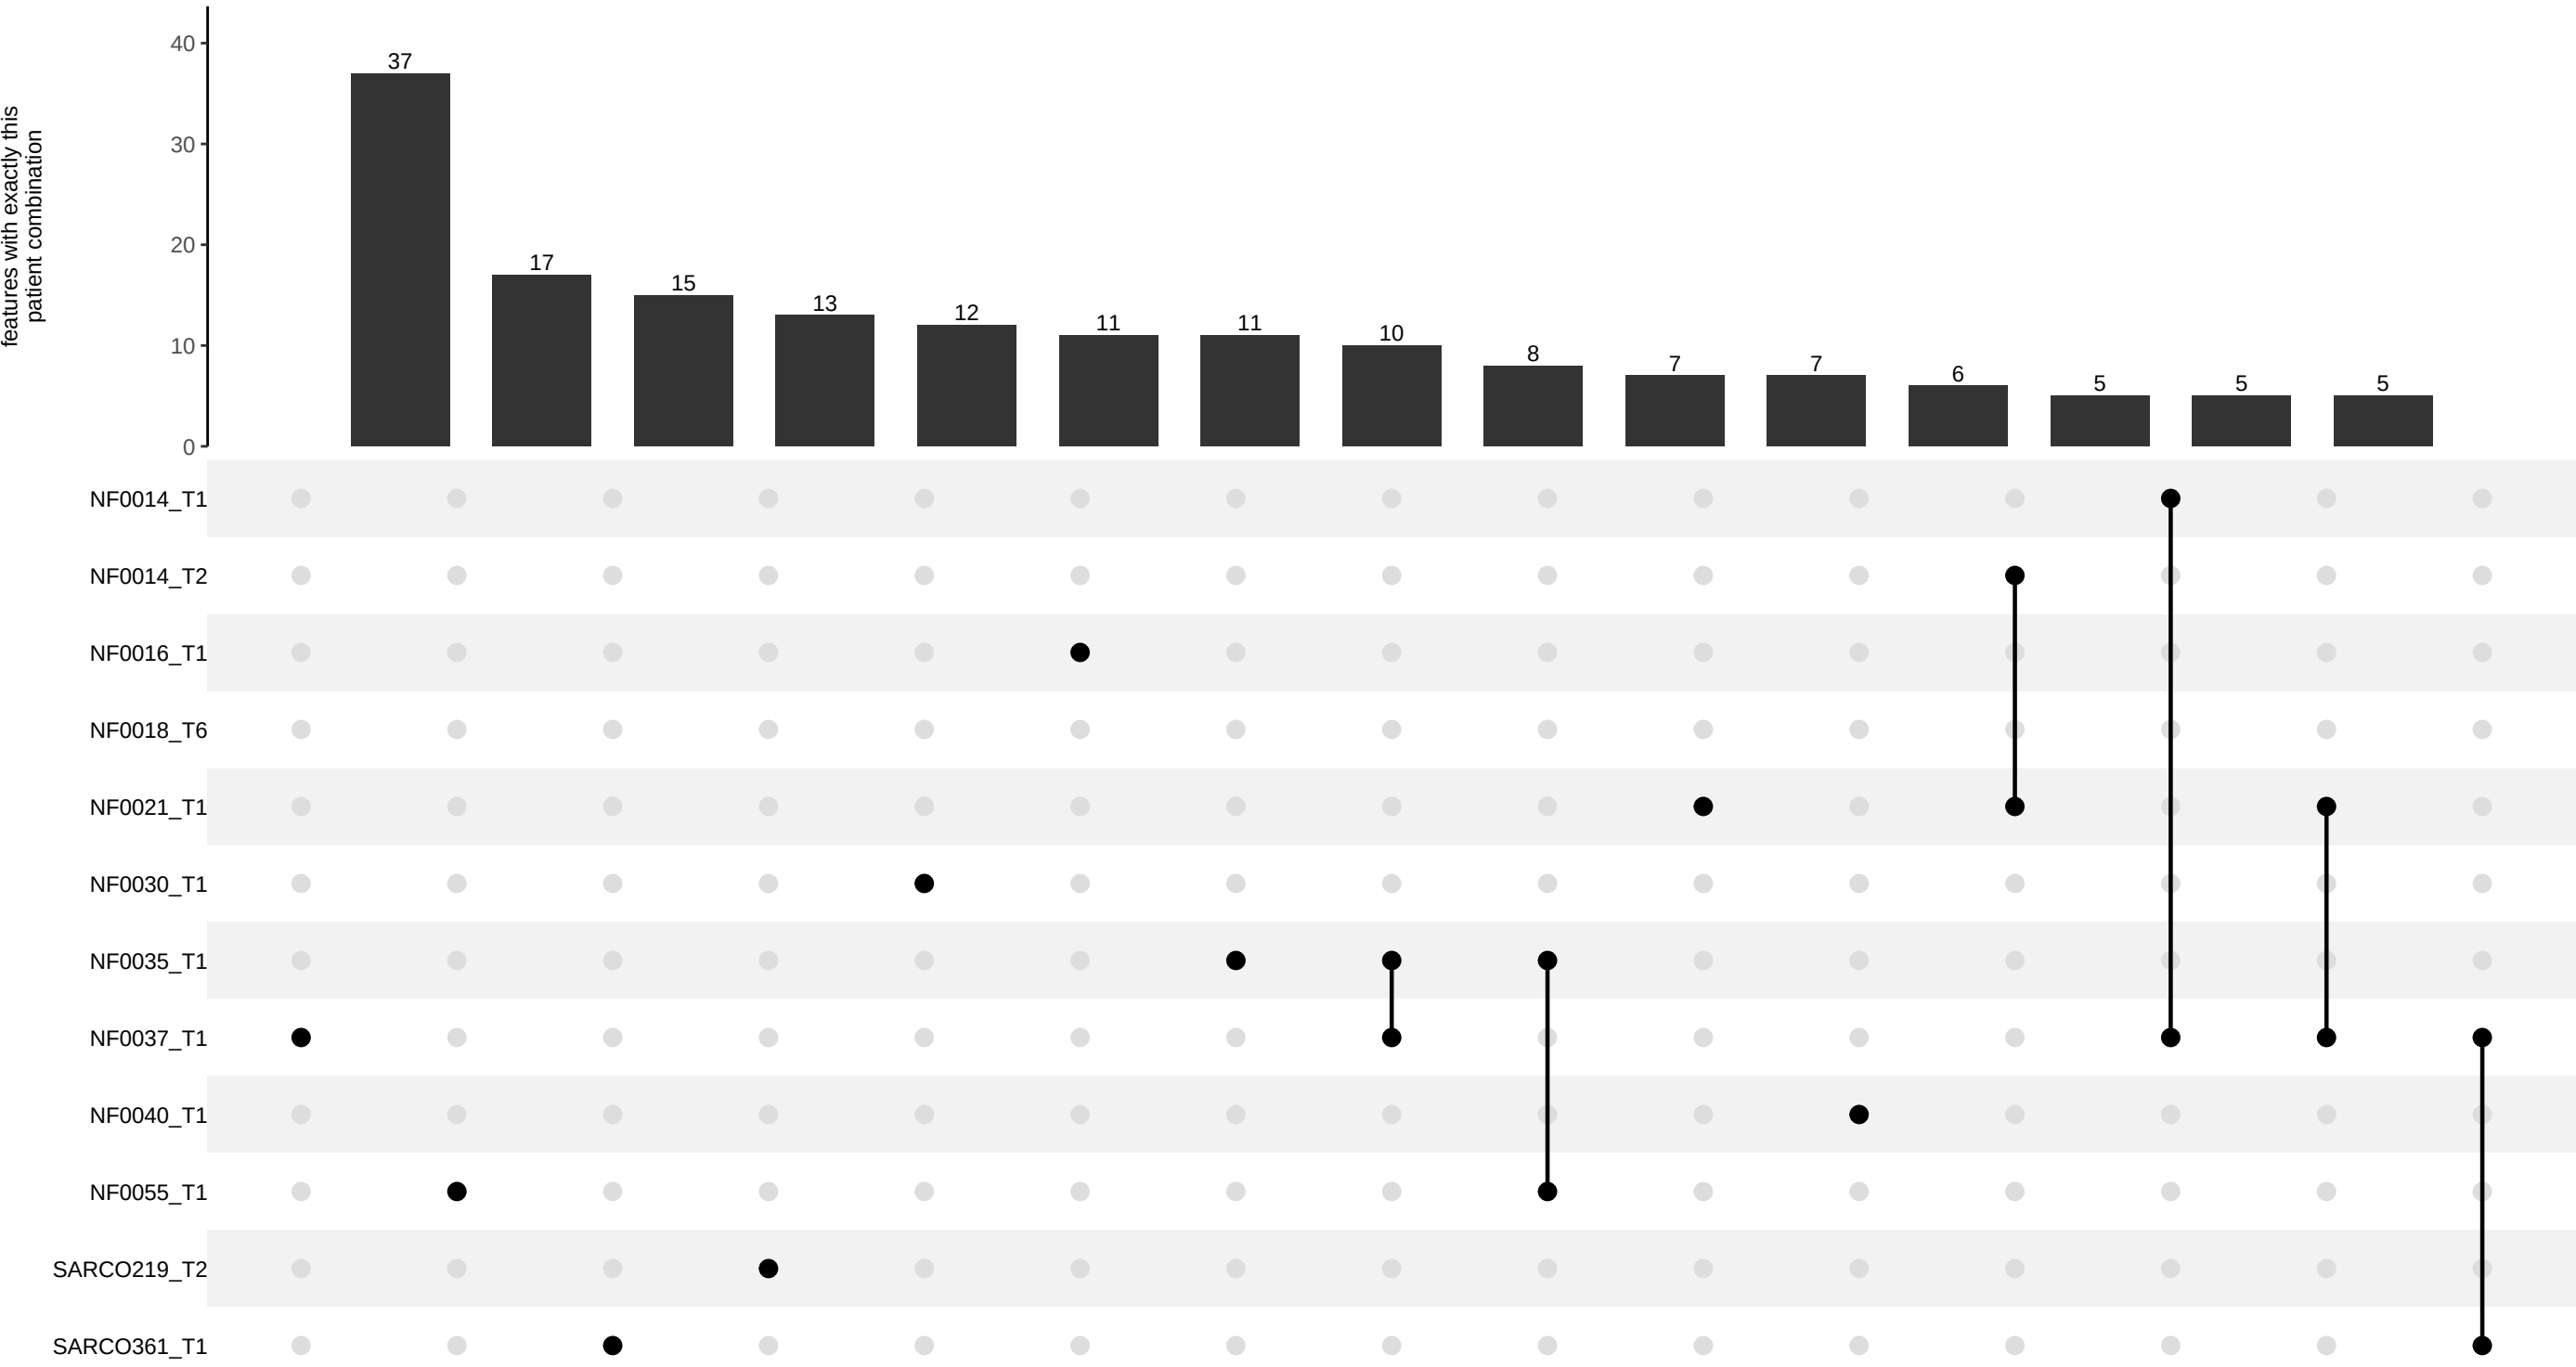

treatment | Binimetinib_10uM

Features significant for exactly these variates, by the patients they occur in
(bars: number of features shared by exactly that patient combination)

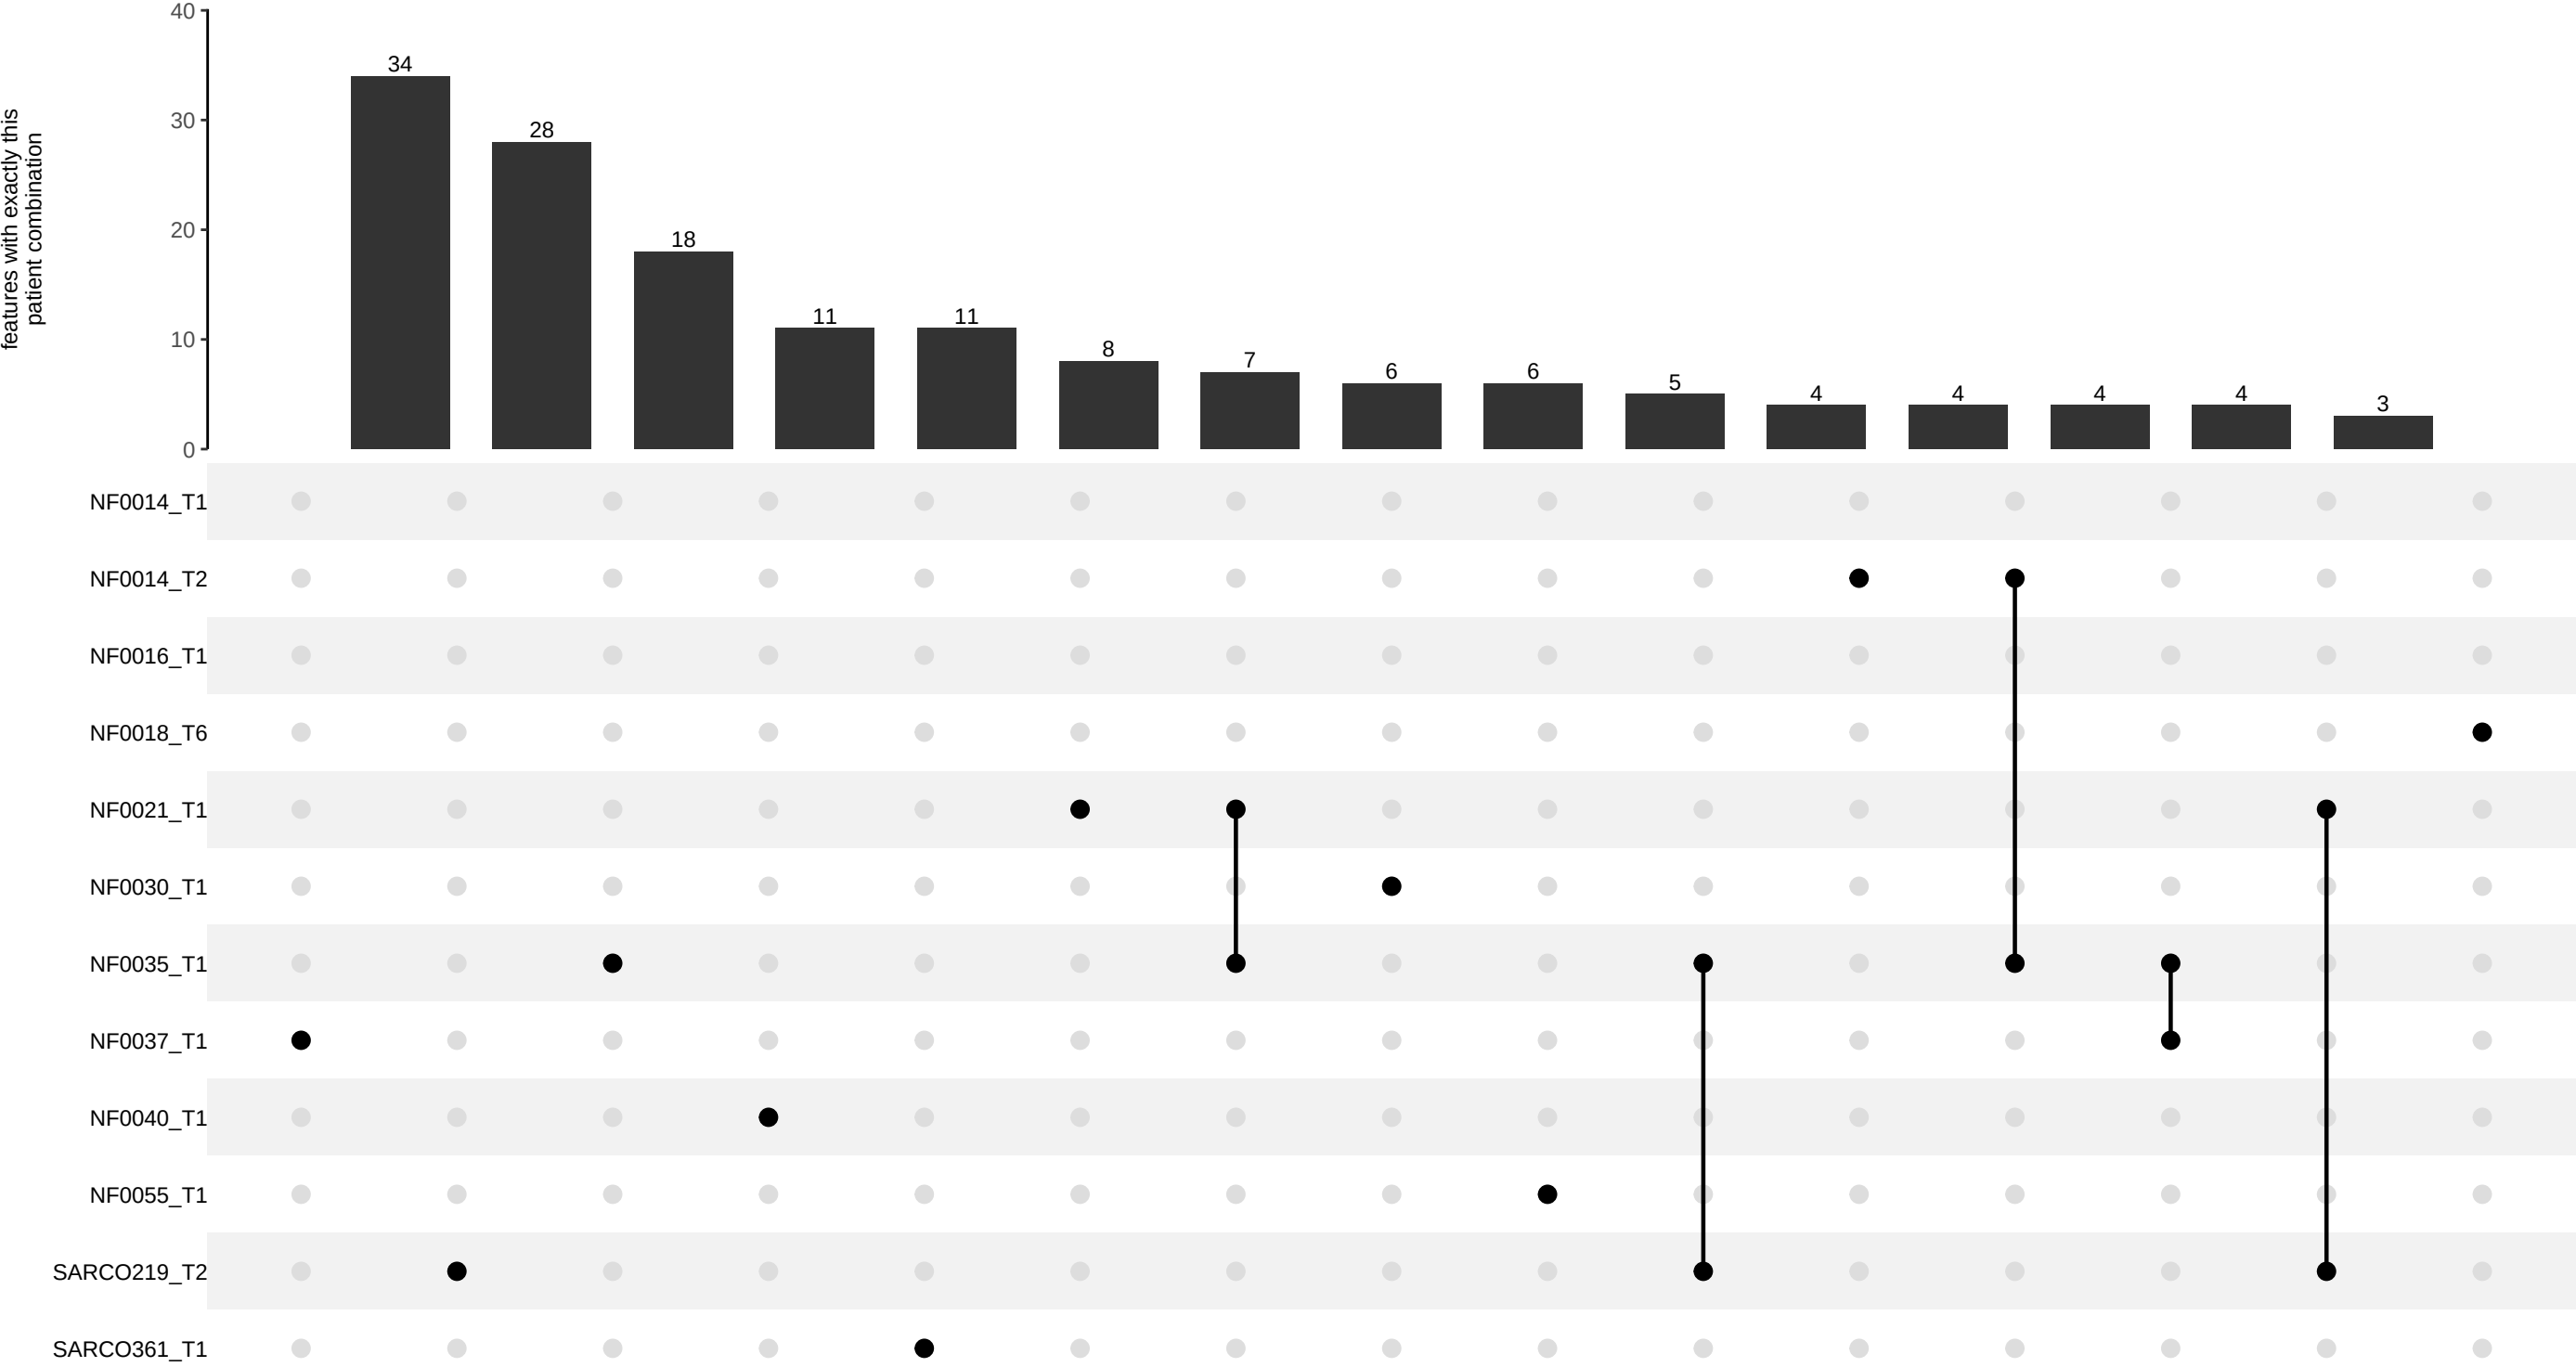

treatment | Binimetinib_1uM

Features significant for exactly these variates, by the patients they occur in
(bars: number of features shared by exactly that patient combination)

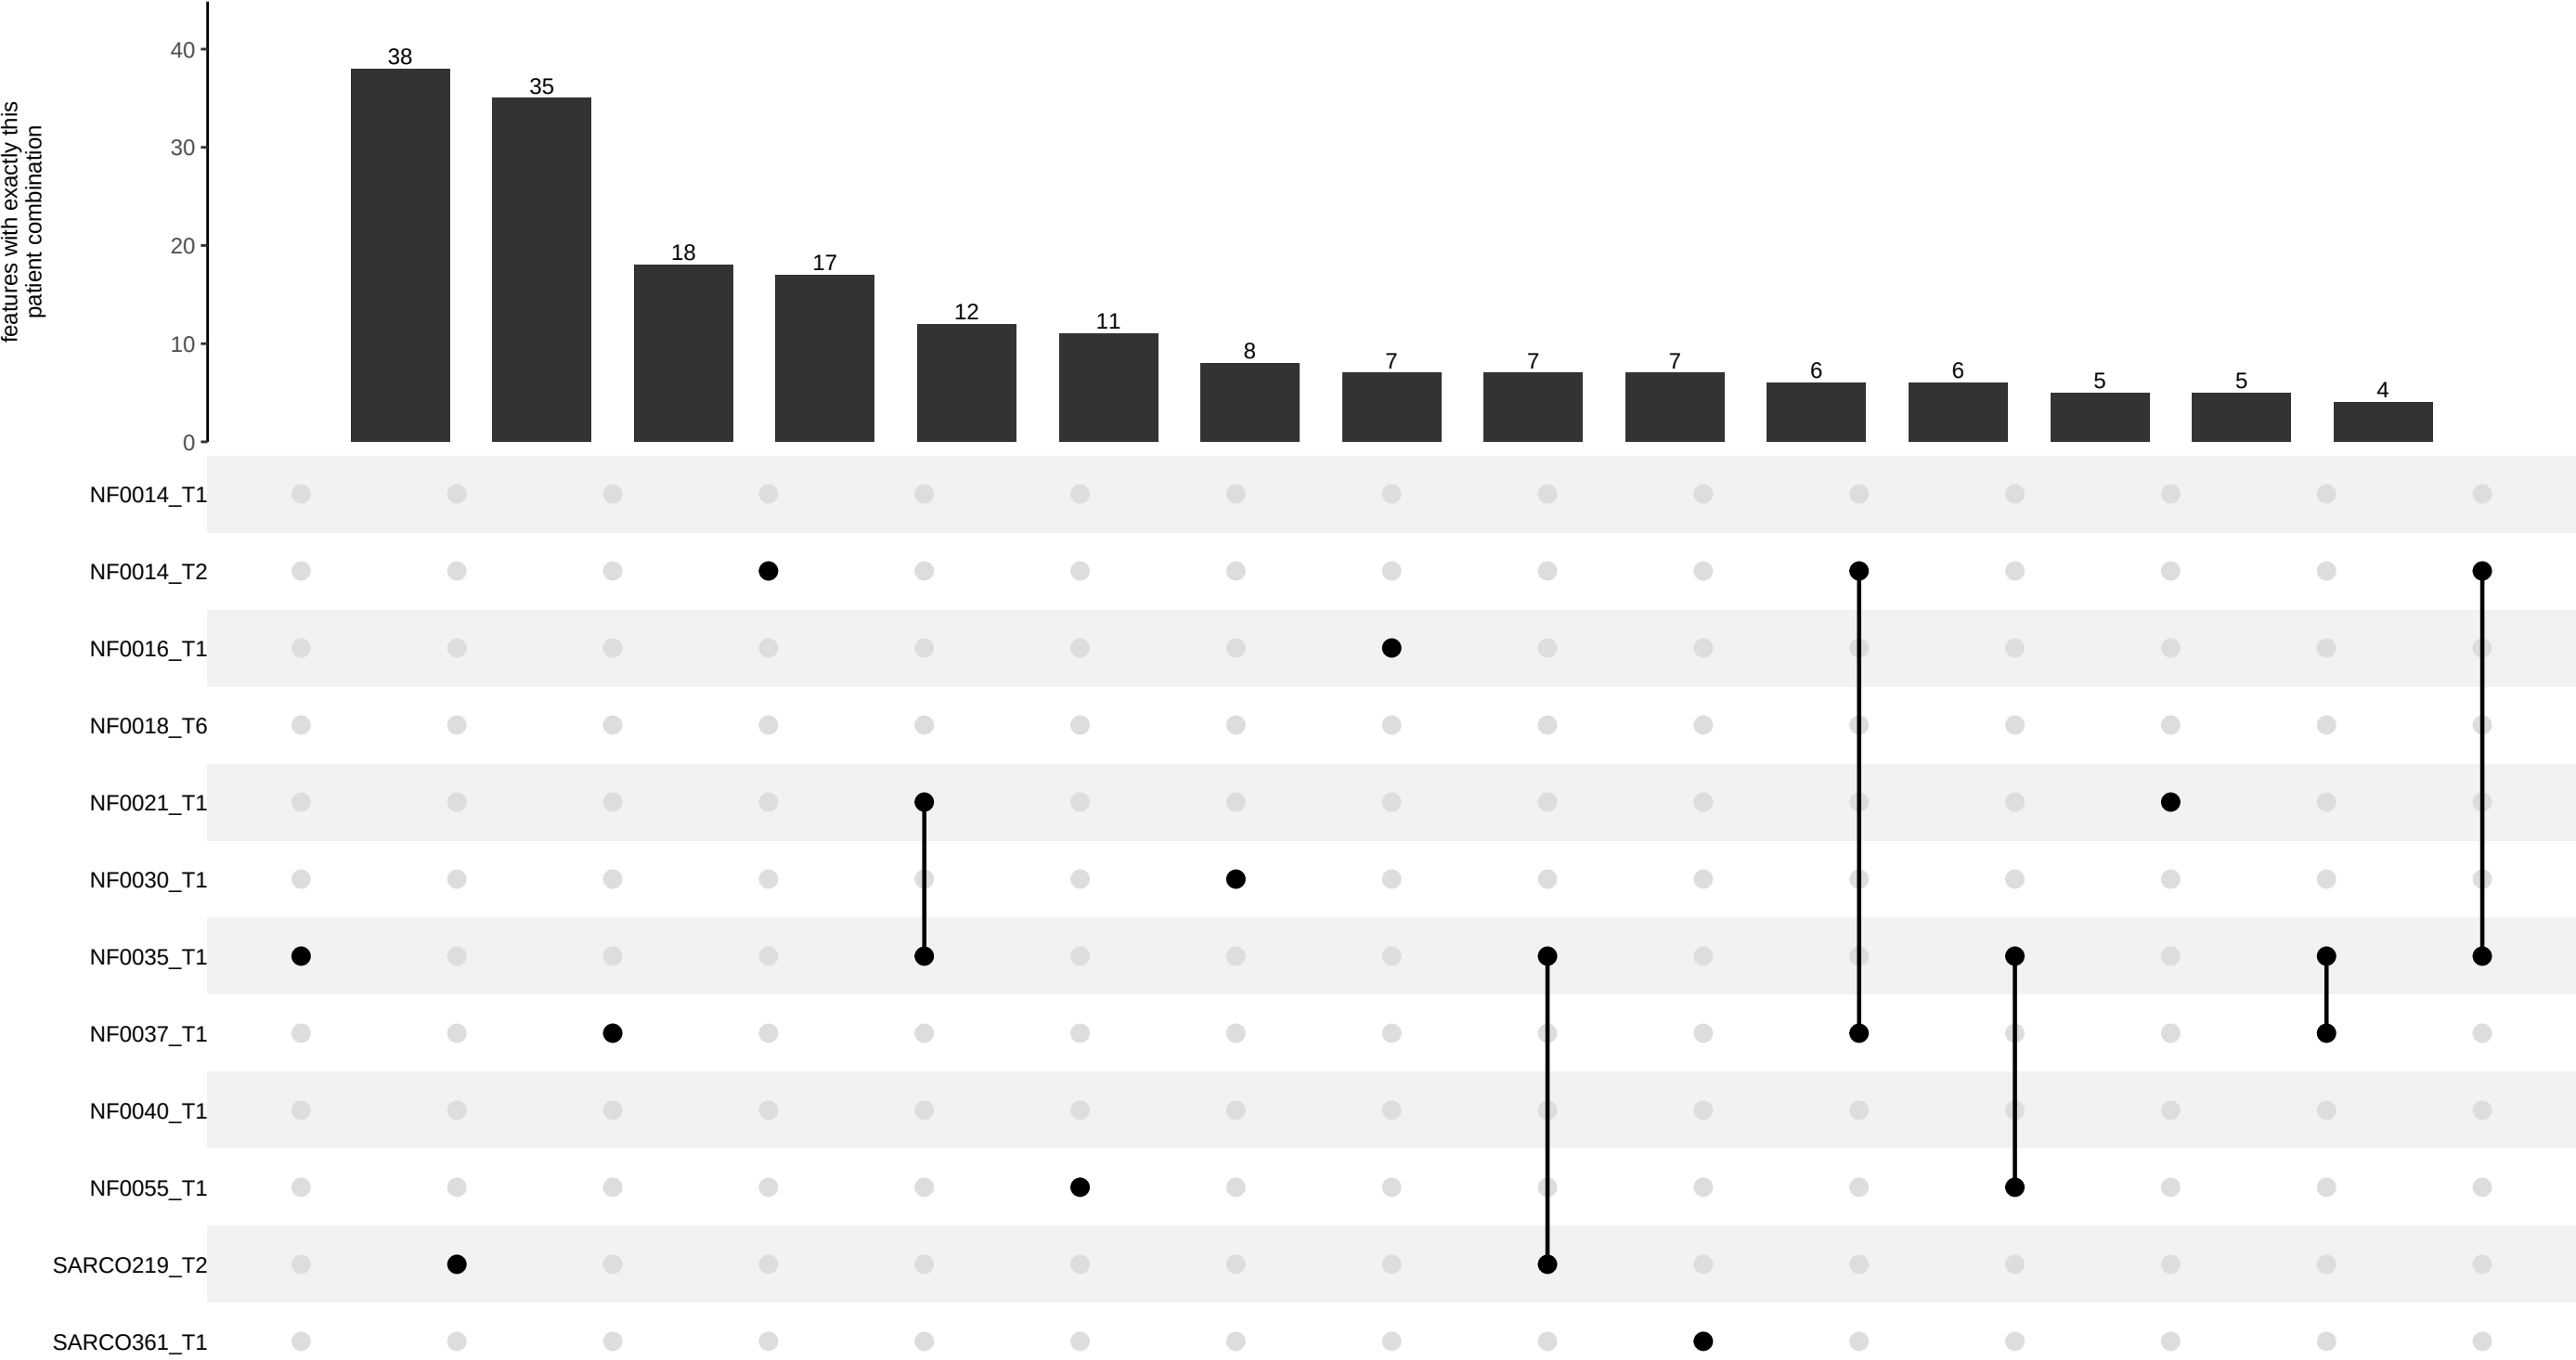

treatment | Cabozantinib_1uM

Features significant for exactly these variates, by the patients they occur in
(bars: number of features shared by exactly that patient combination)

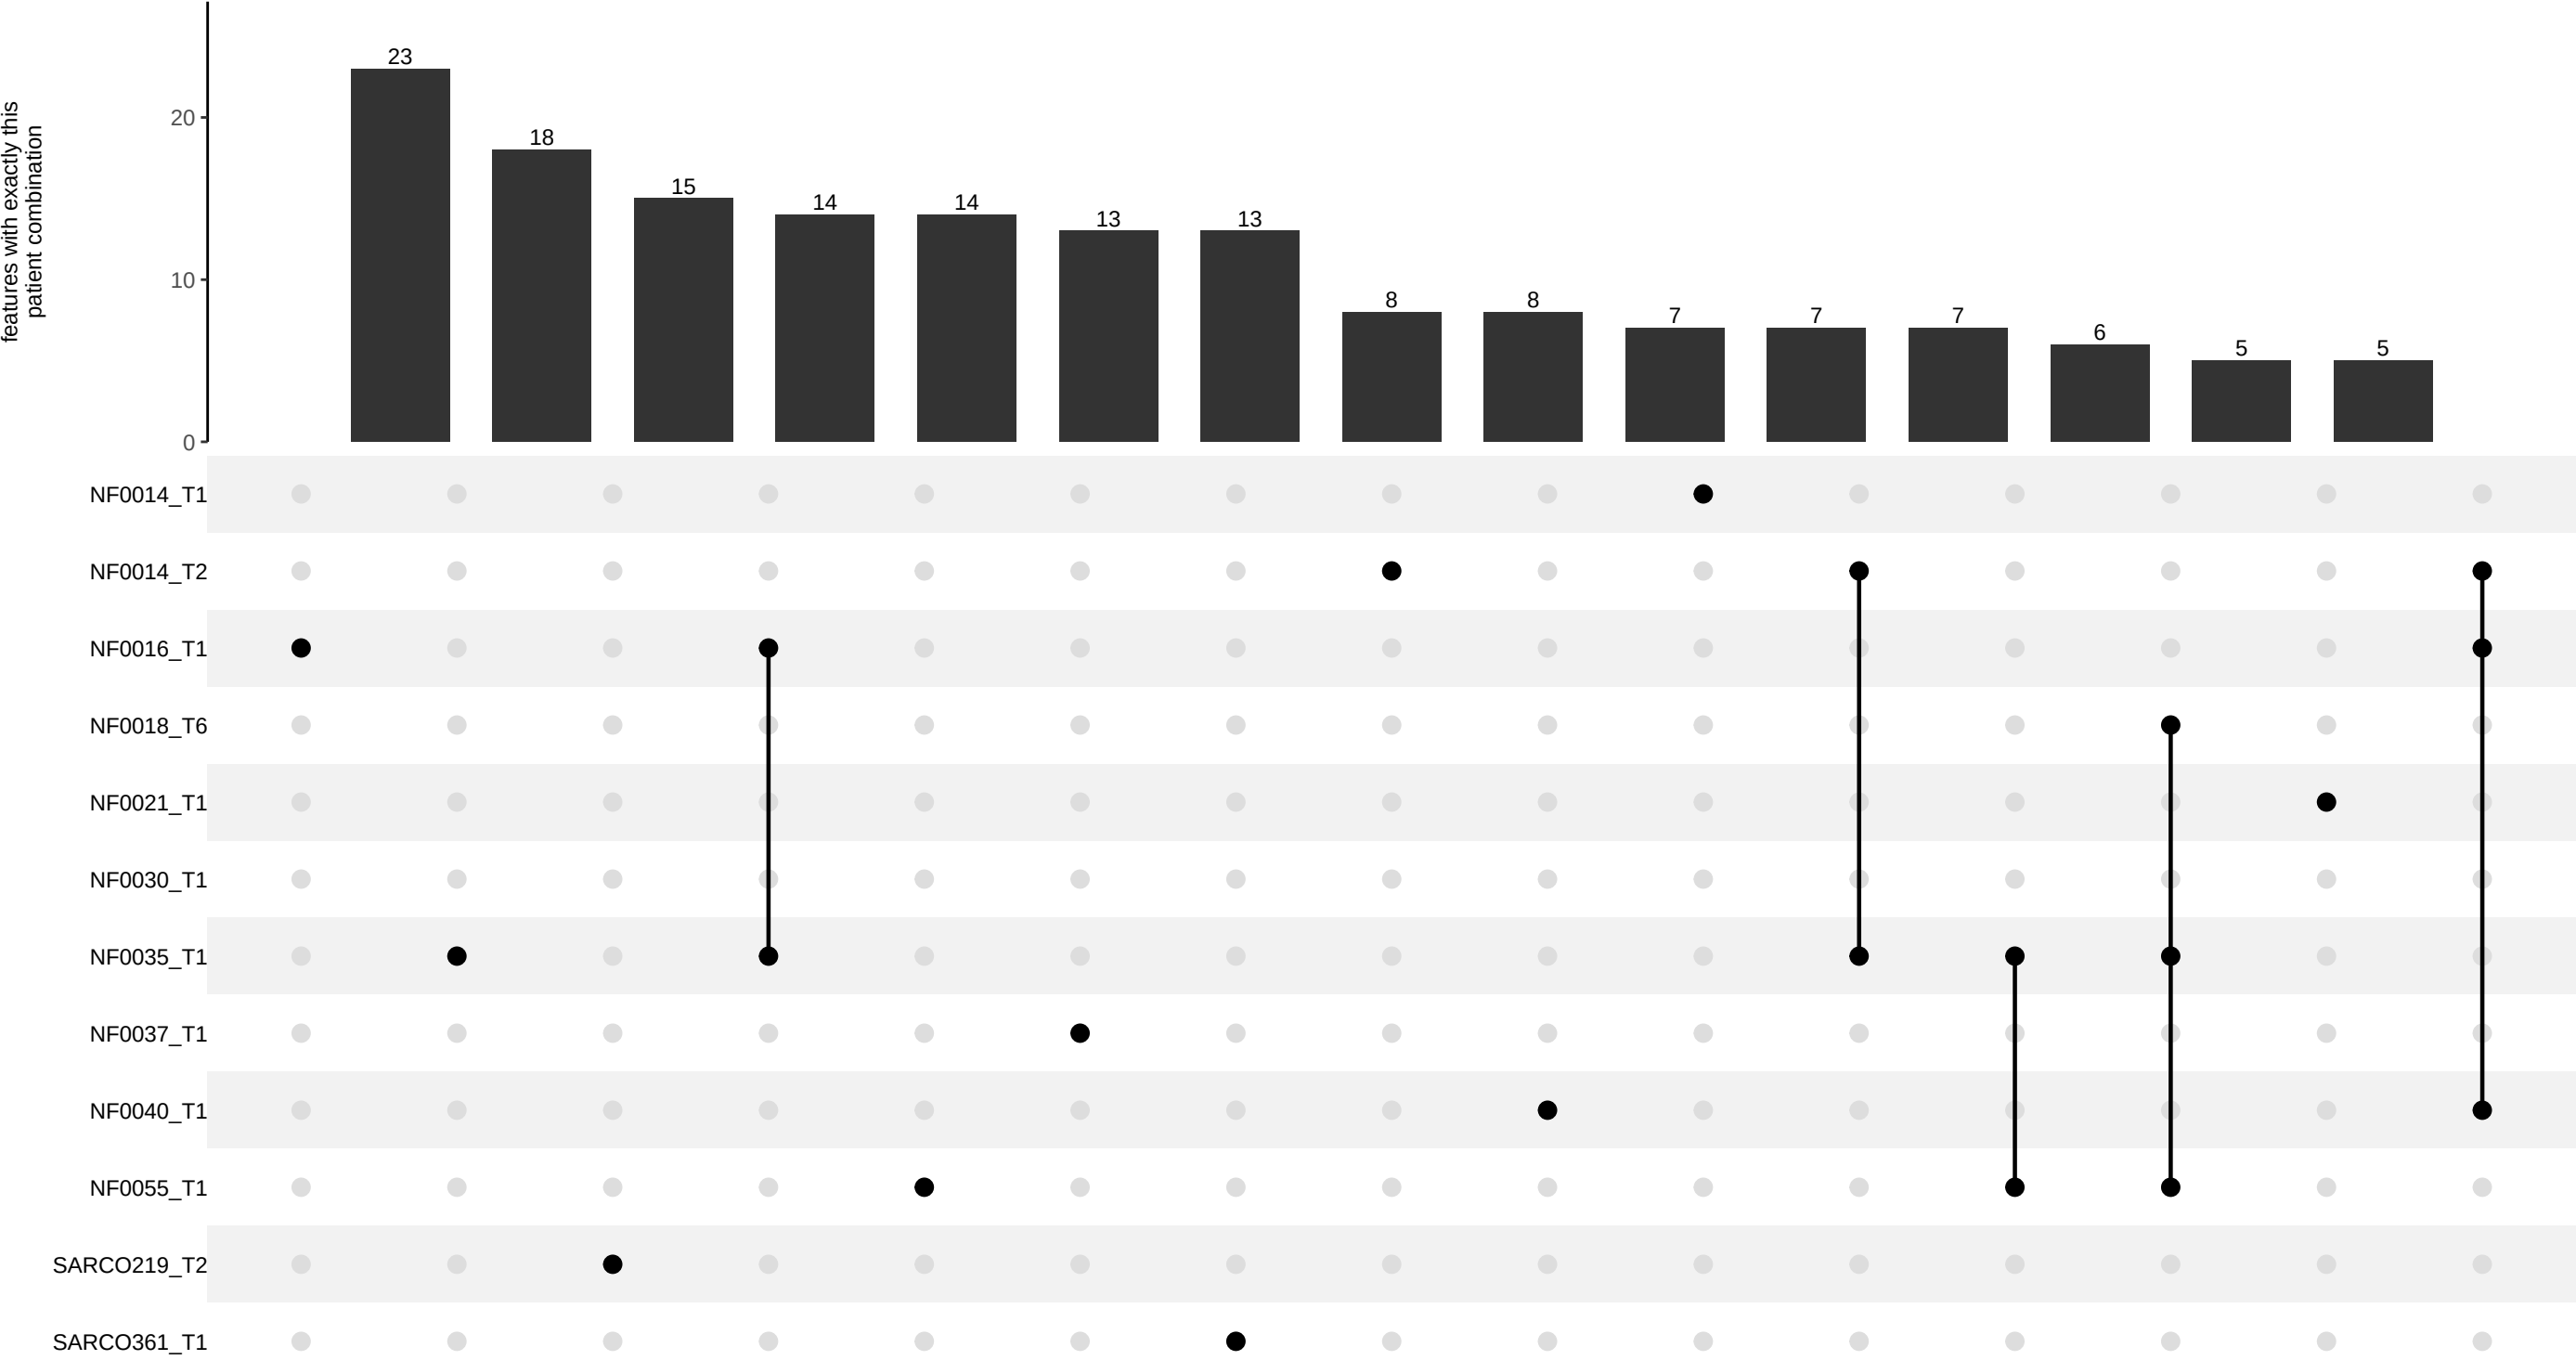

treatment | Copanlisib_1uM

Features significant for exactly these variates, by the patients they occur in
(bars: number of features shared by exactly that patient combination)

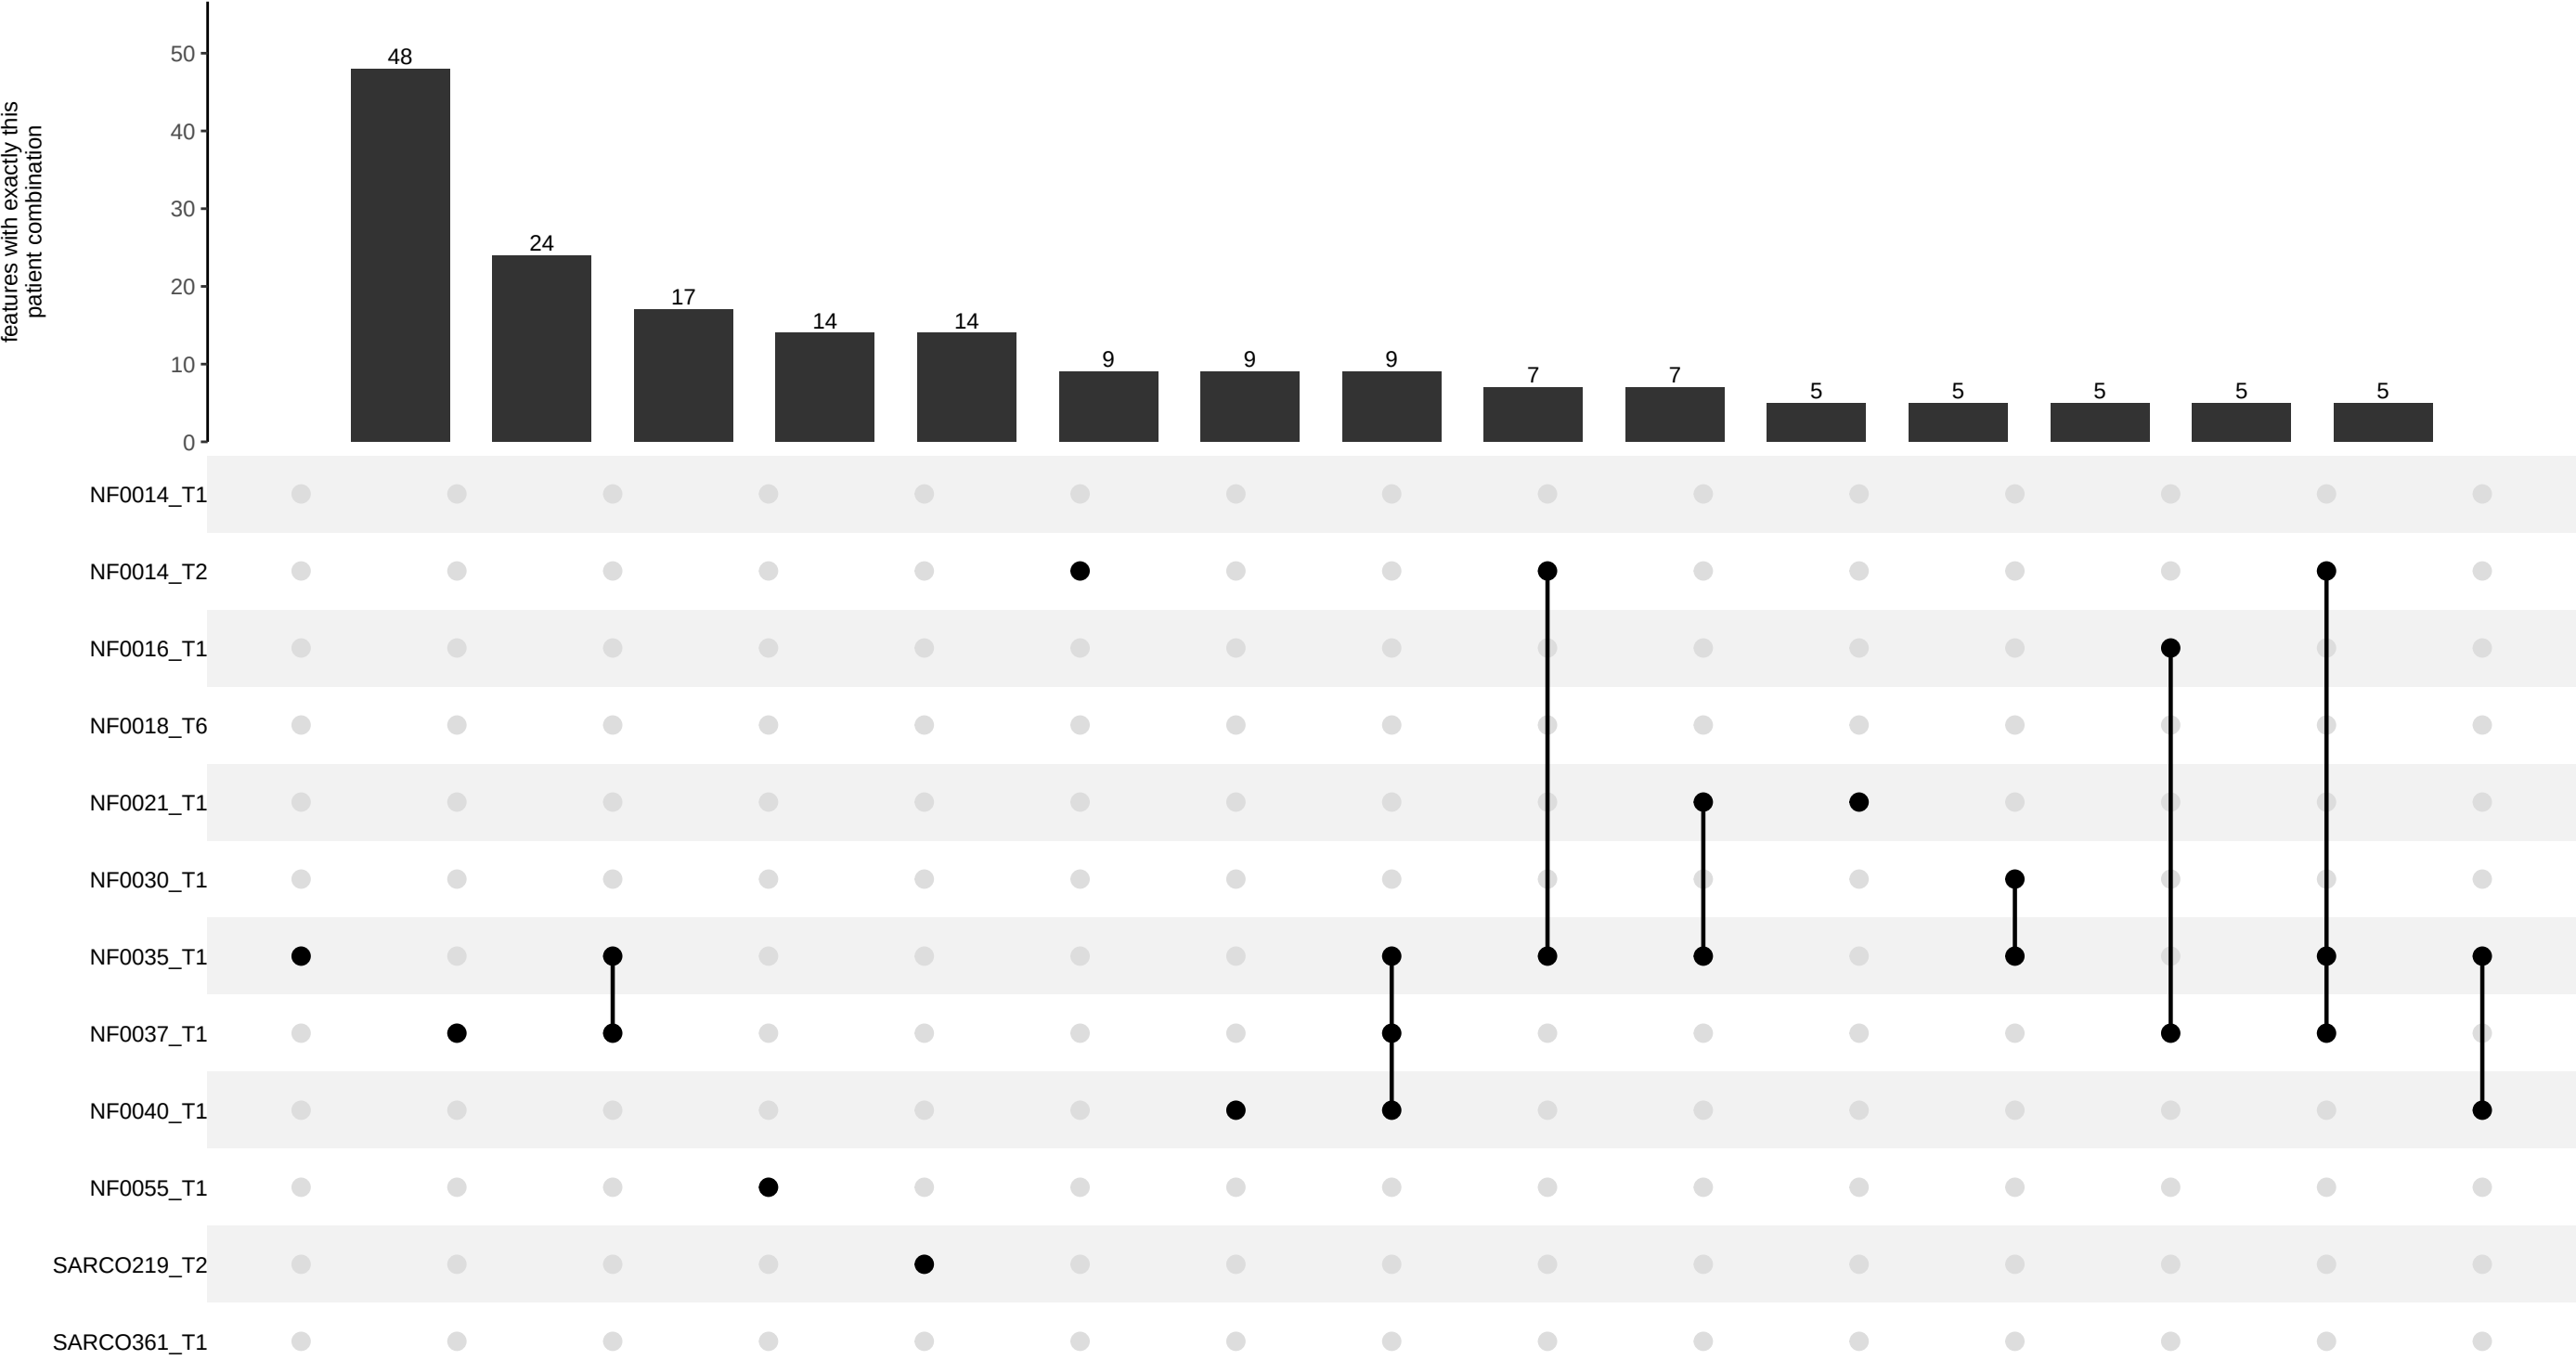

treatment | Digoxin_1uM

Features significant for exactly these variates, by the patients they occur in
(bars: number of features shared by exactly that patient combination)

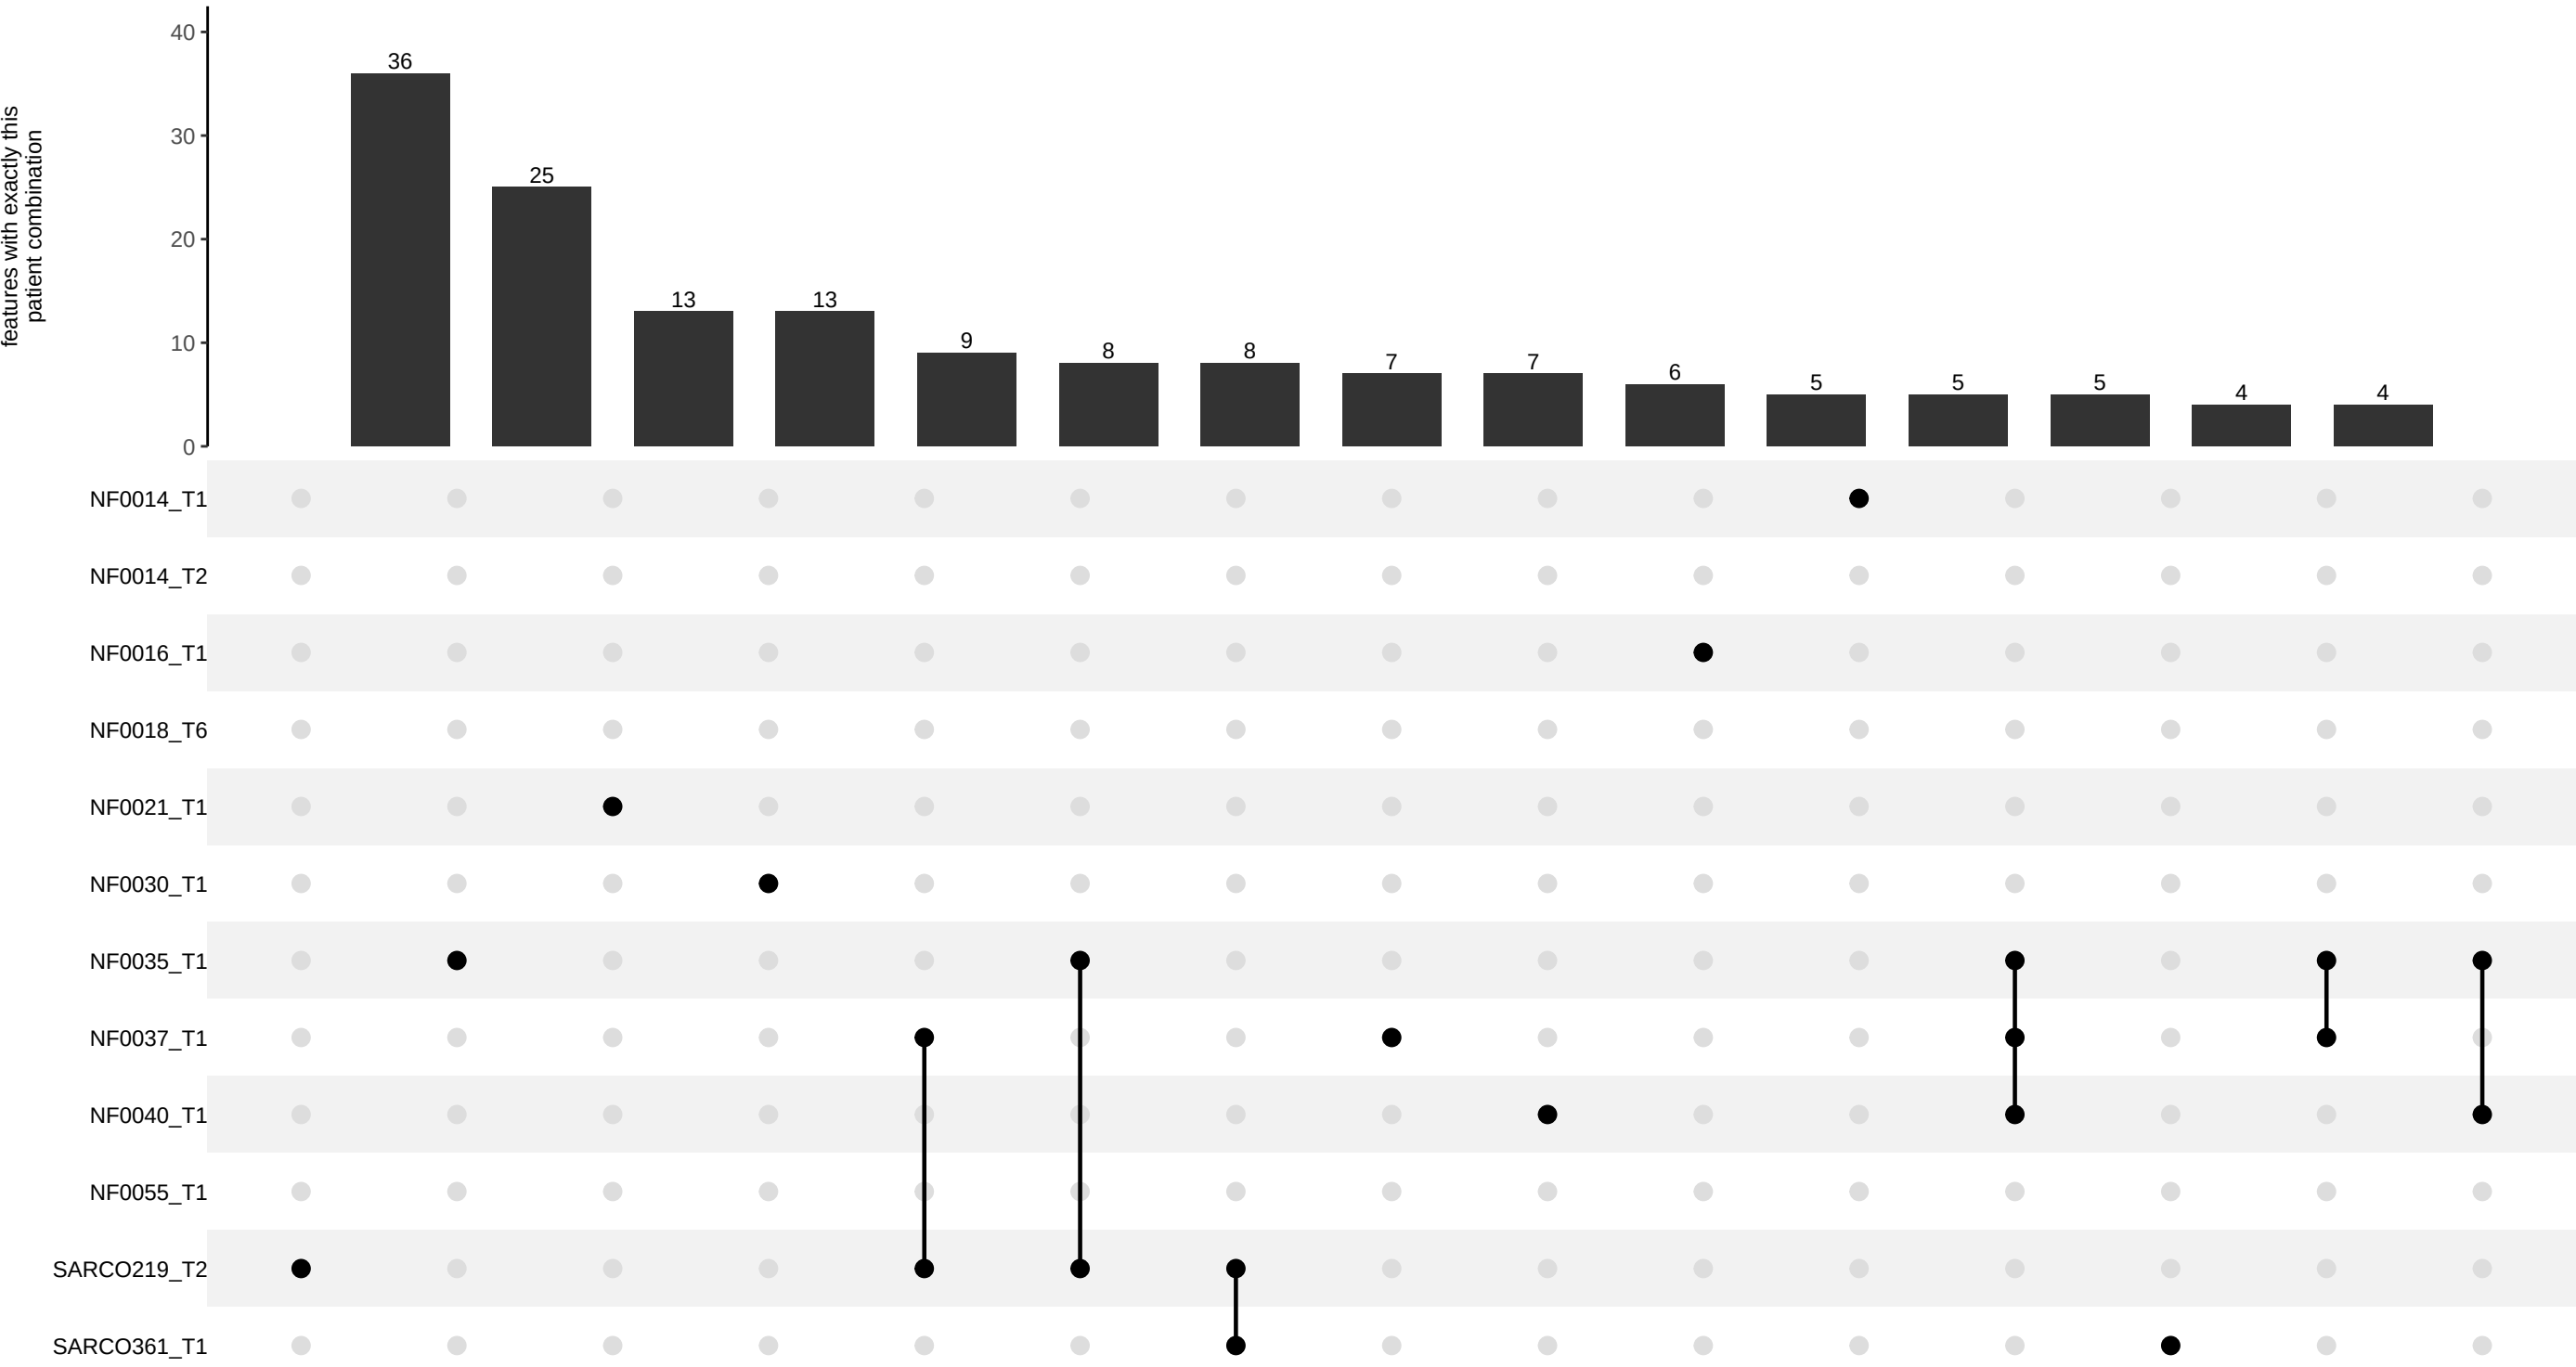

treatment | Everolimus_1uM

Features significant for exactly these variates, by the patients they occur in
(bars: number of features shared by exactly that patient combination)

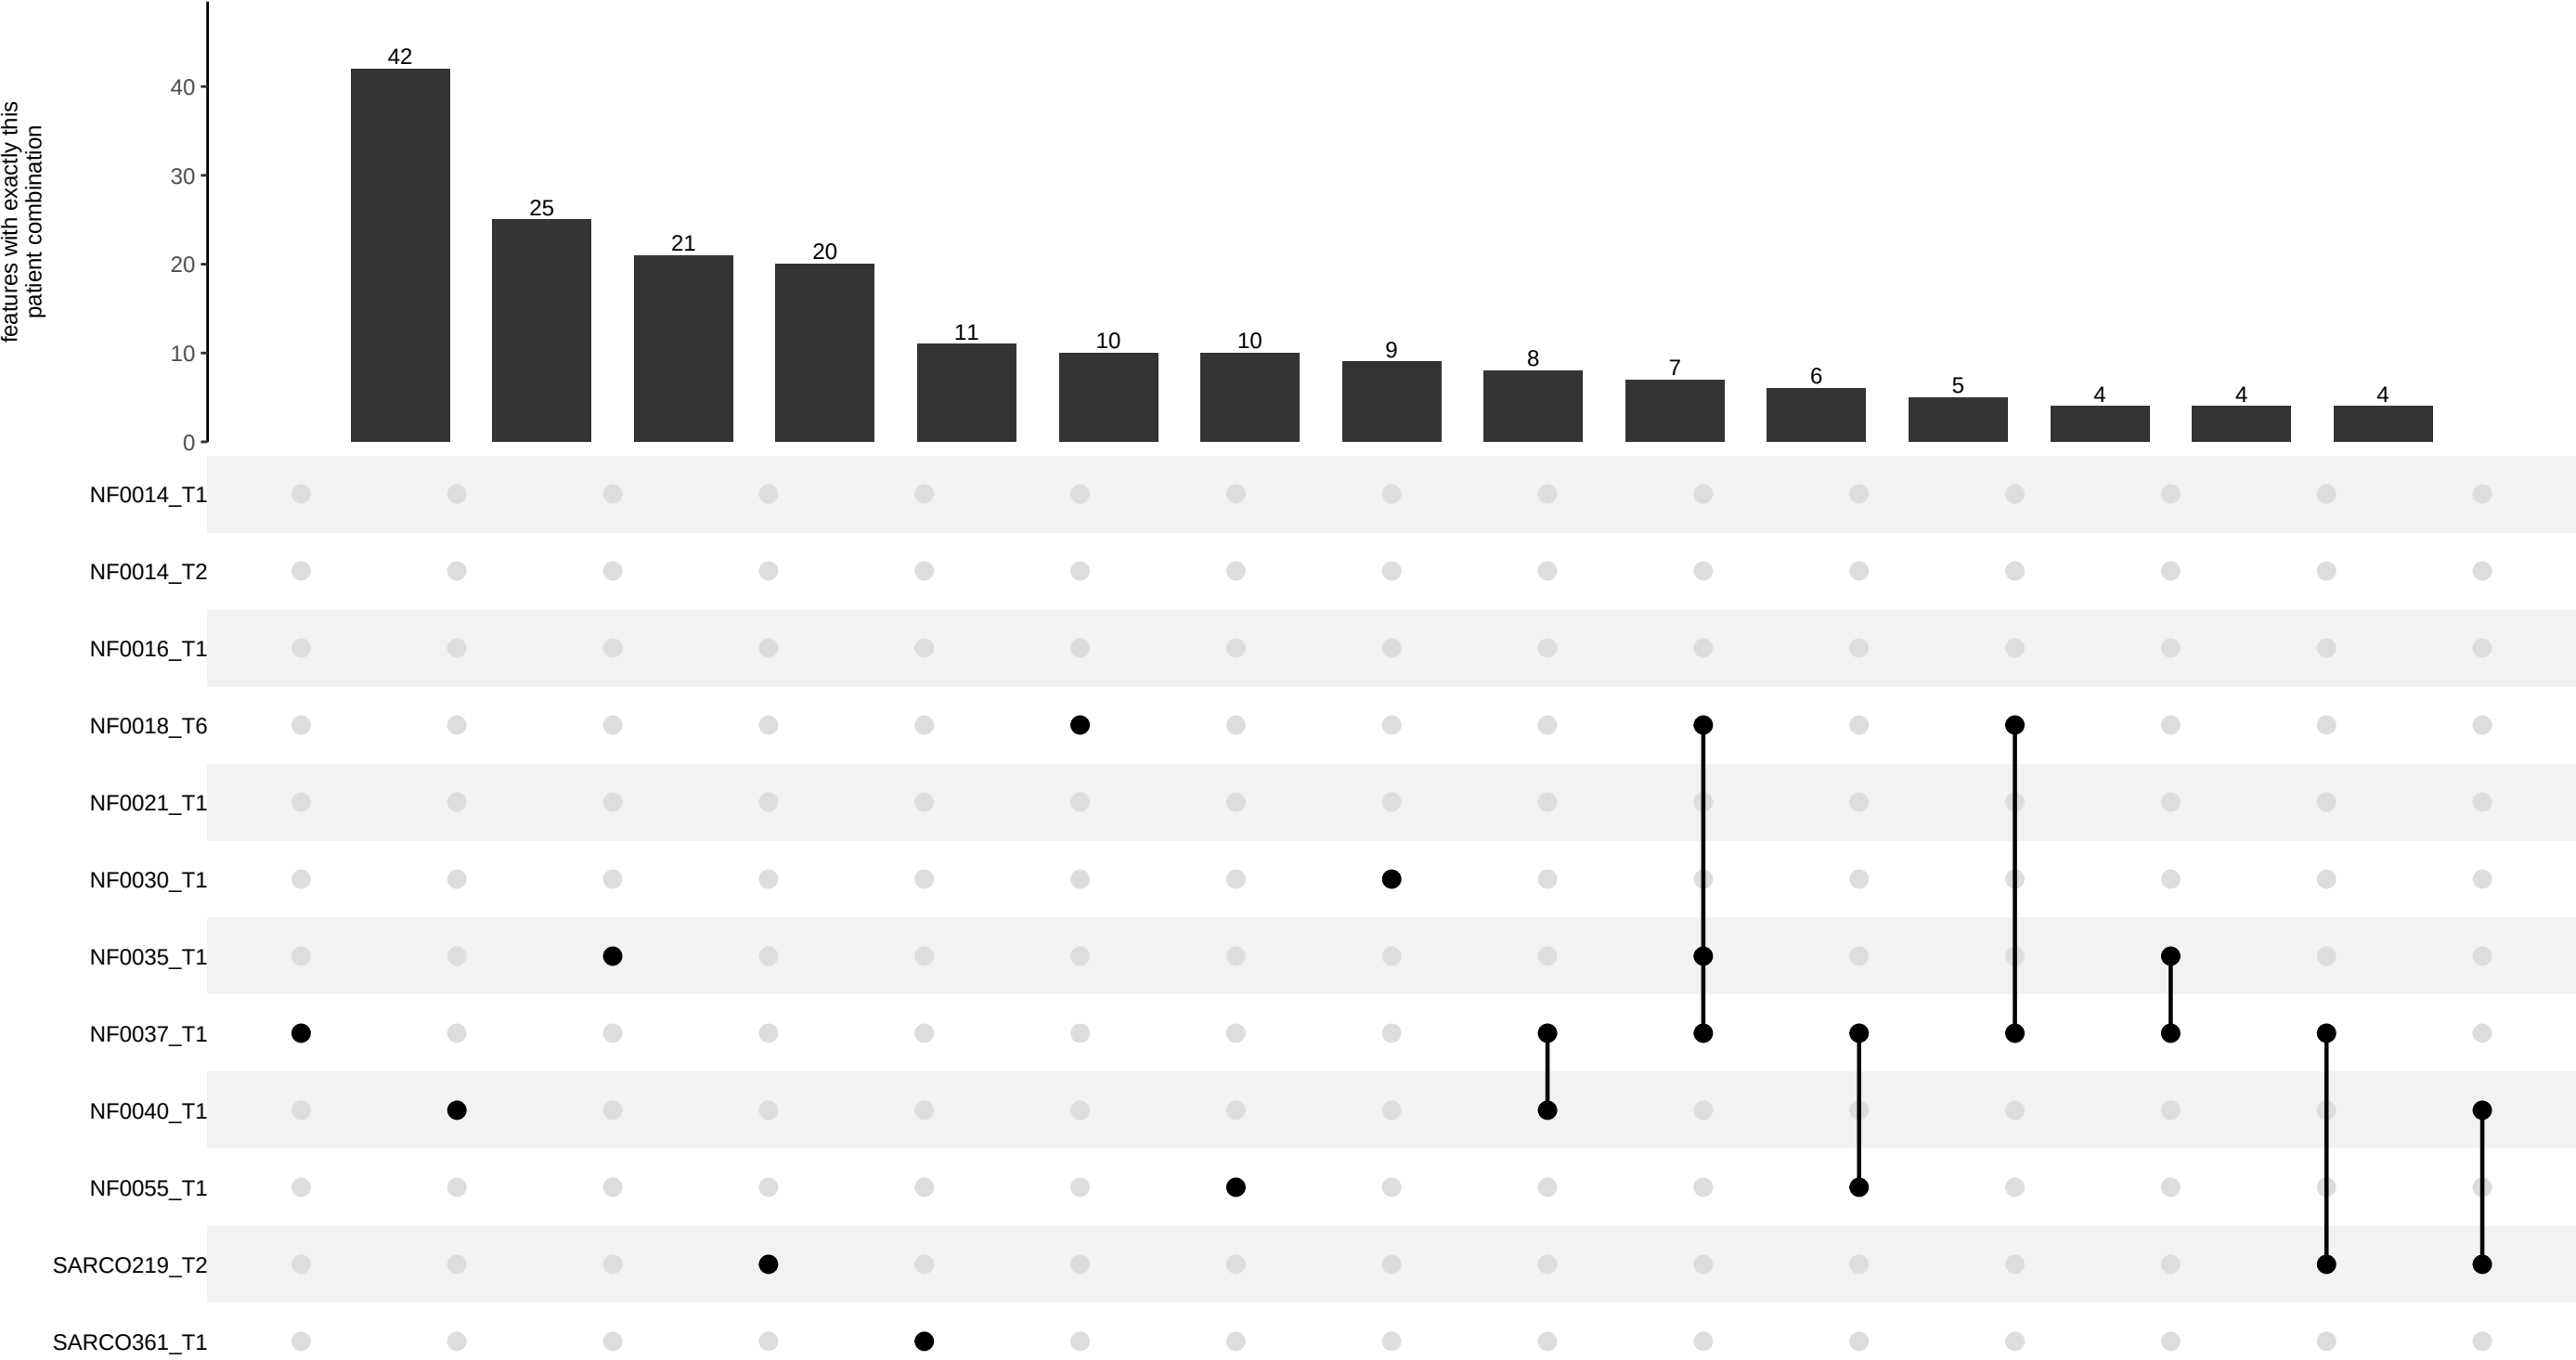

treatment | Fimepinostat_1uM

Features significant for exactly these variates, by the patients they occur in
(bars: number of features shared by exactly that patient combination)

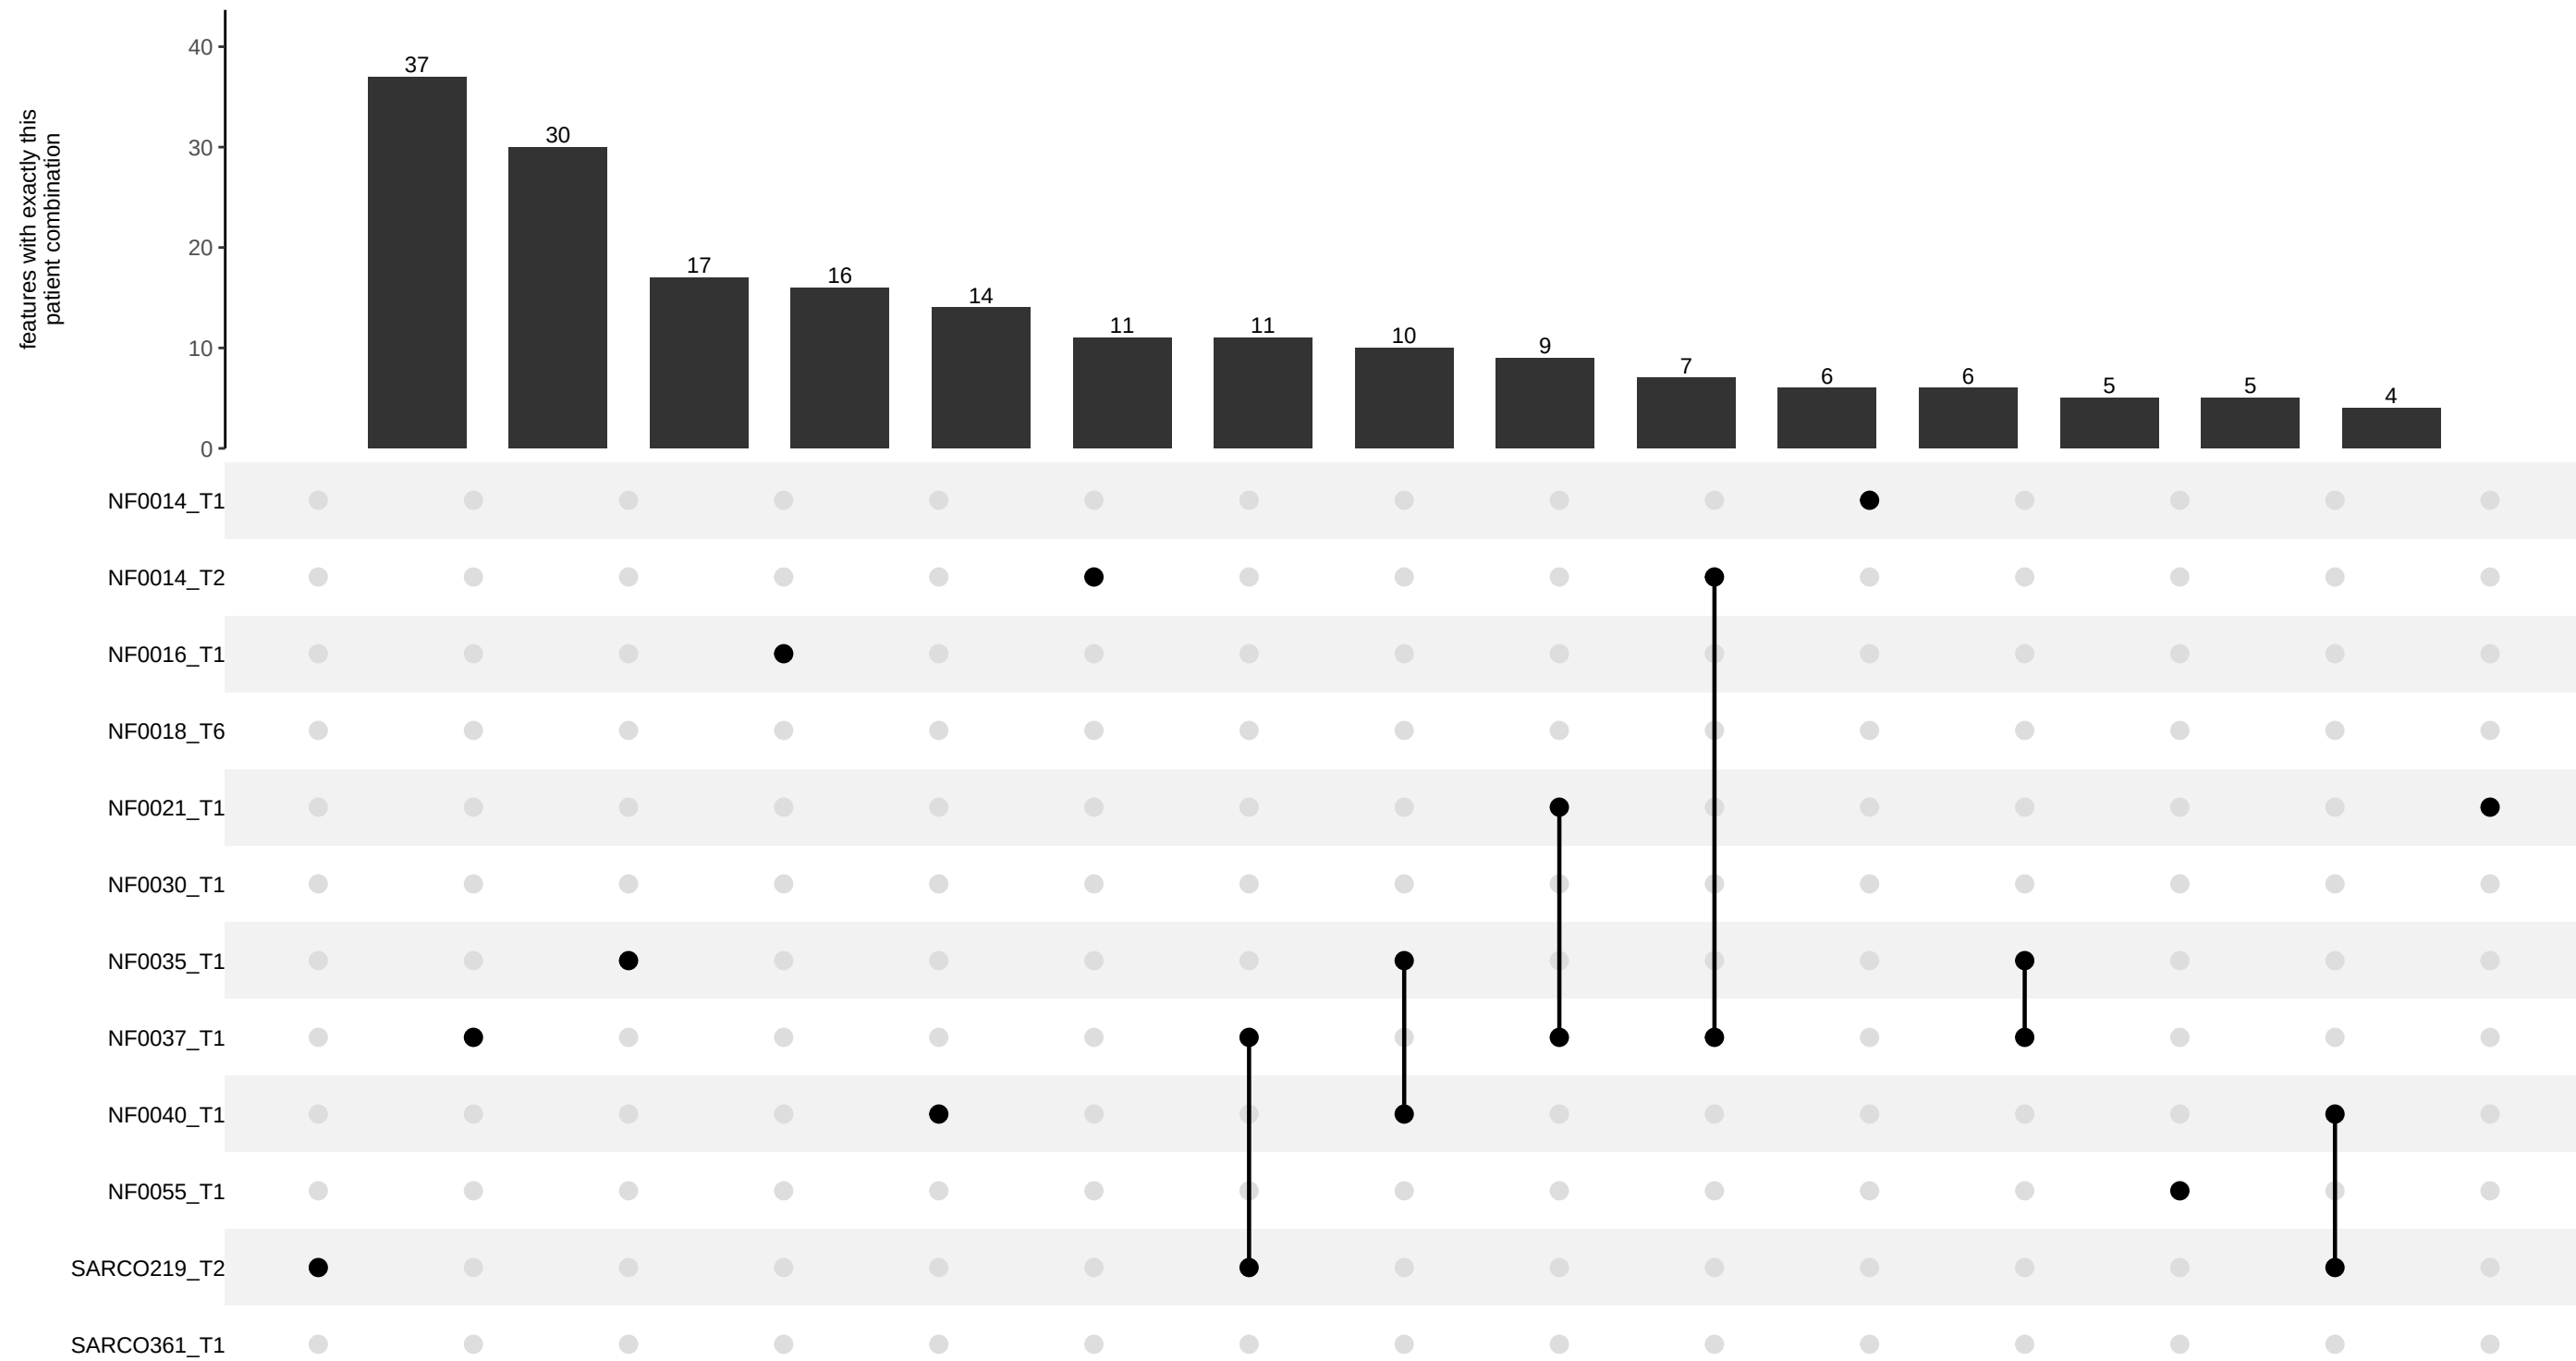

treatment | Imatinib_1uM

Features significant for exactly these variates, by the patients they occur in
(bars: number of features shared by exactly that patient combination)

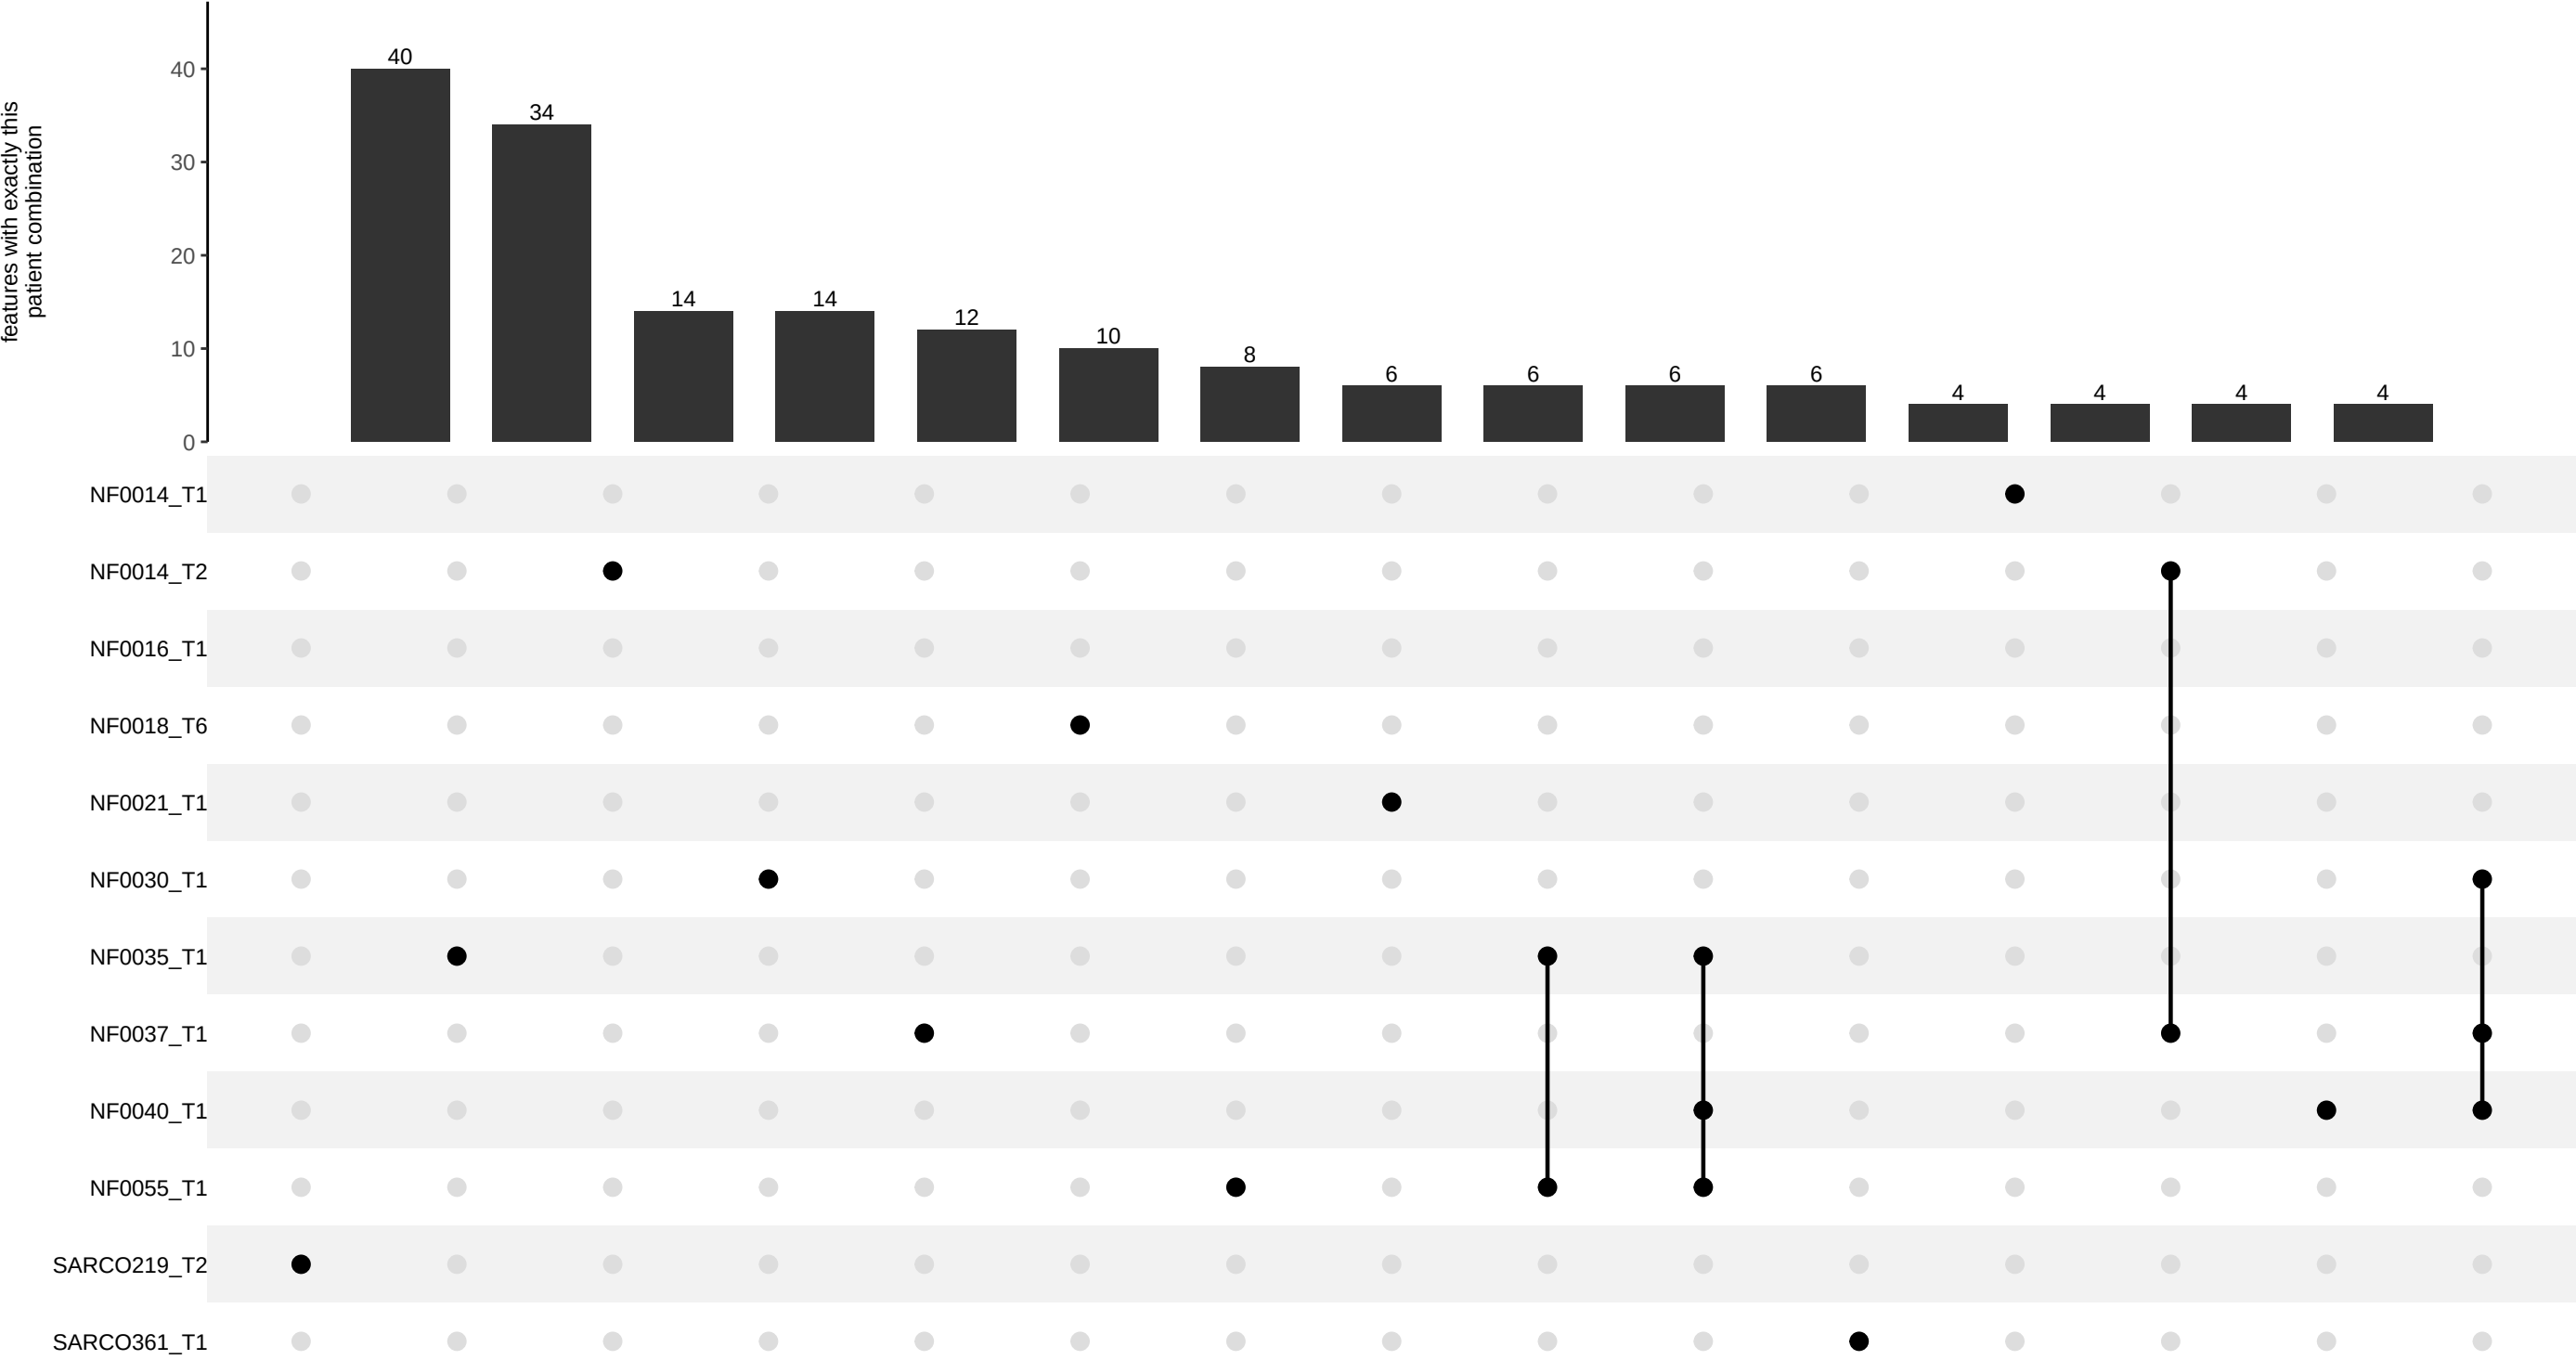

treatment | Ketotifen_1uM

Features significant for exactly these variates, by the patients they occur in (bars: number of features shared by exactly that patient combination)

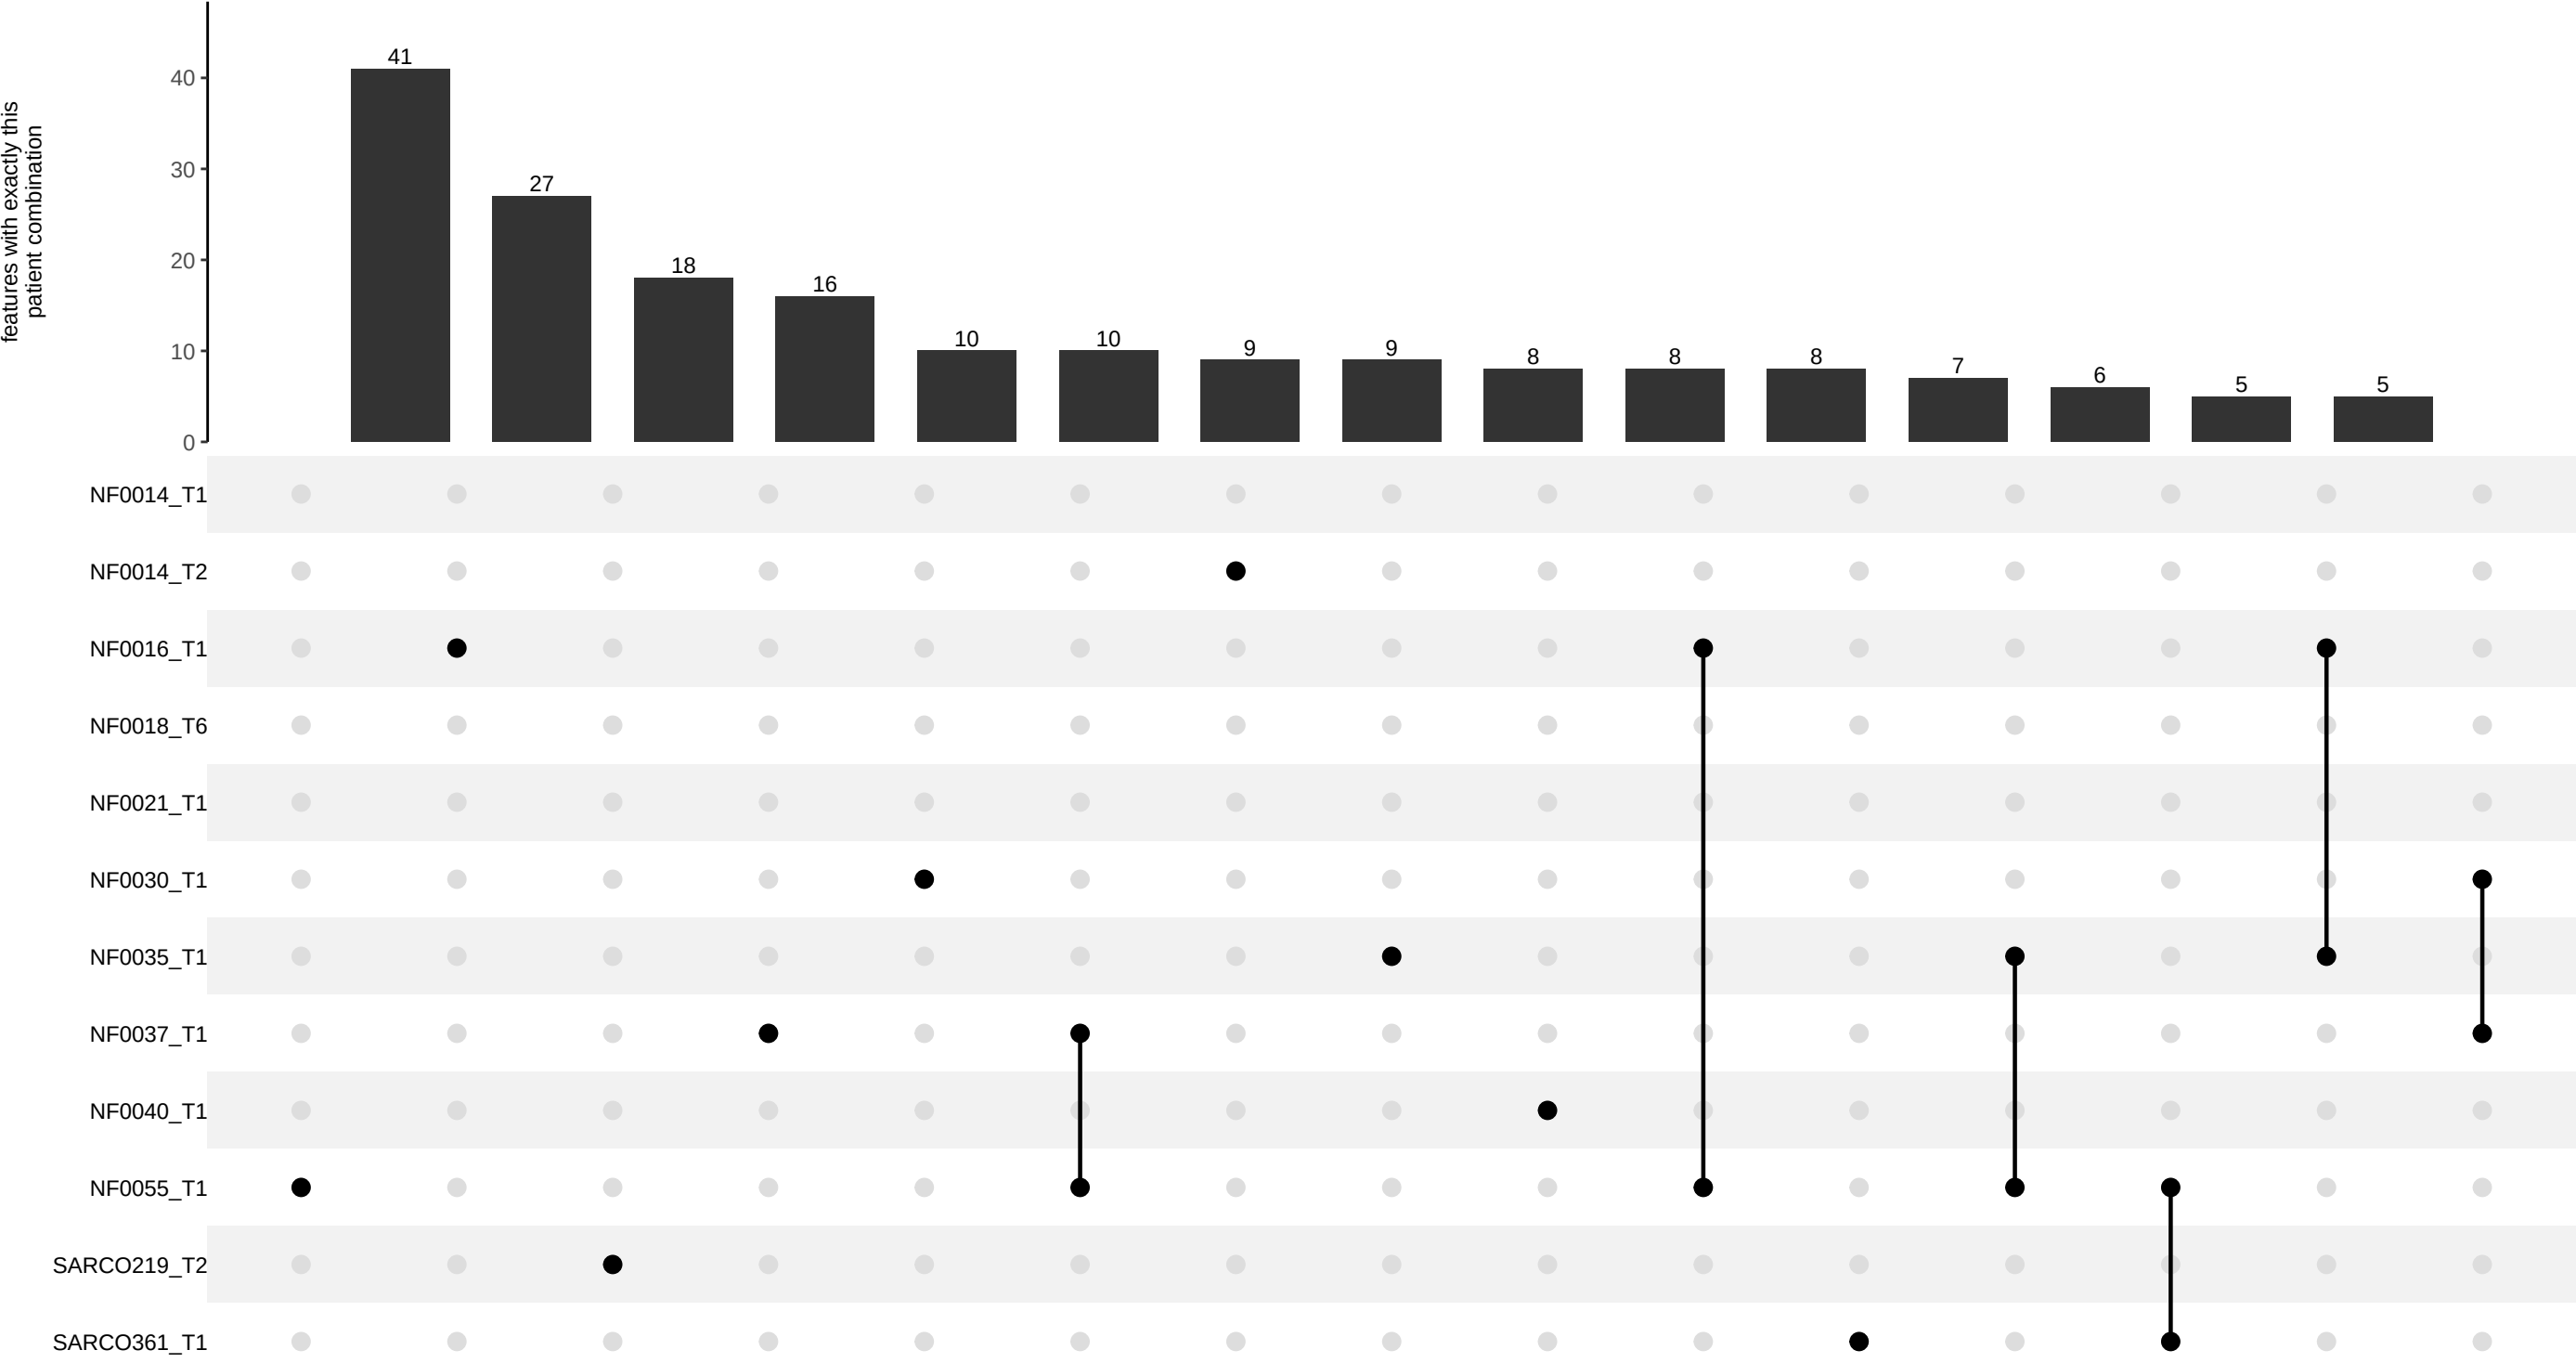

treatment | Linsitinib_1uM

Features significant for exactly these variates, by the patients they occur in
(bars: number of features shared by exactly that patient combination)

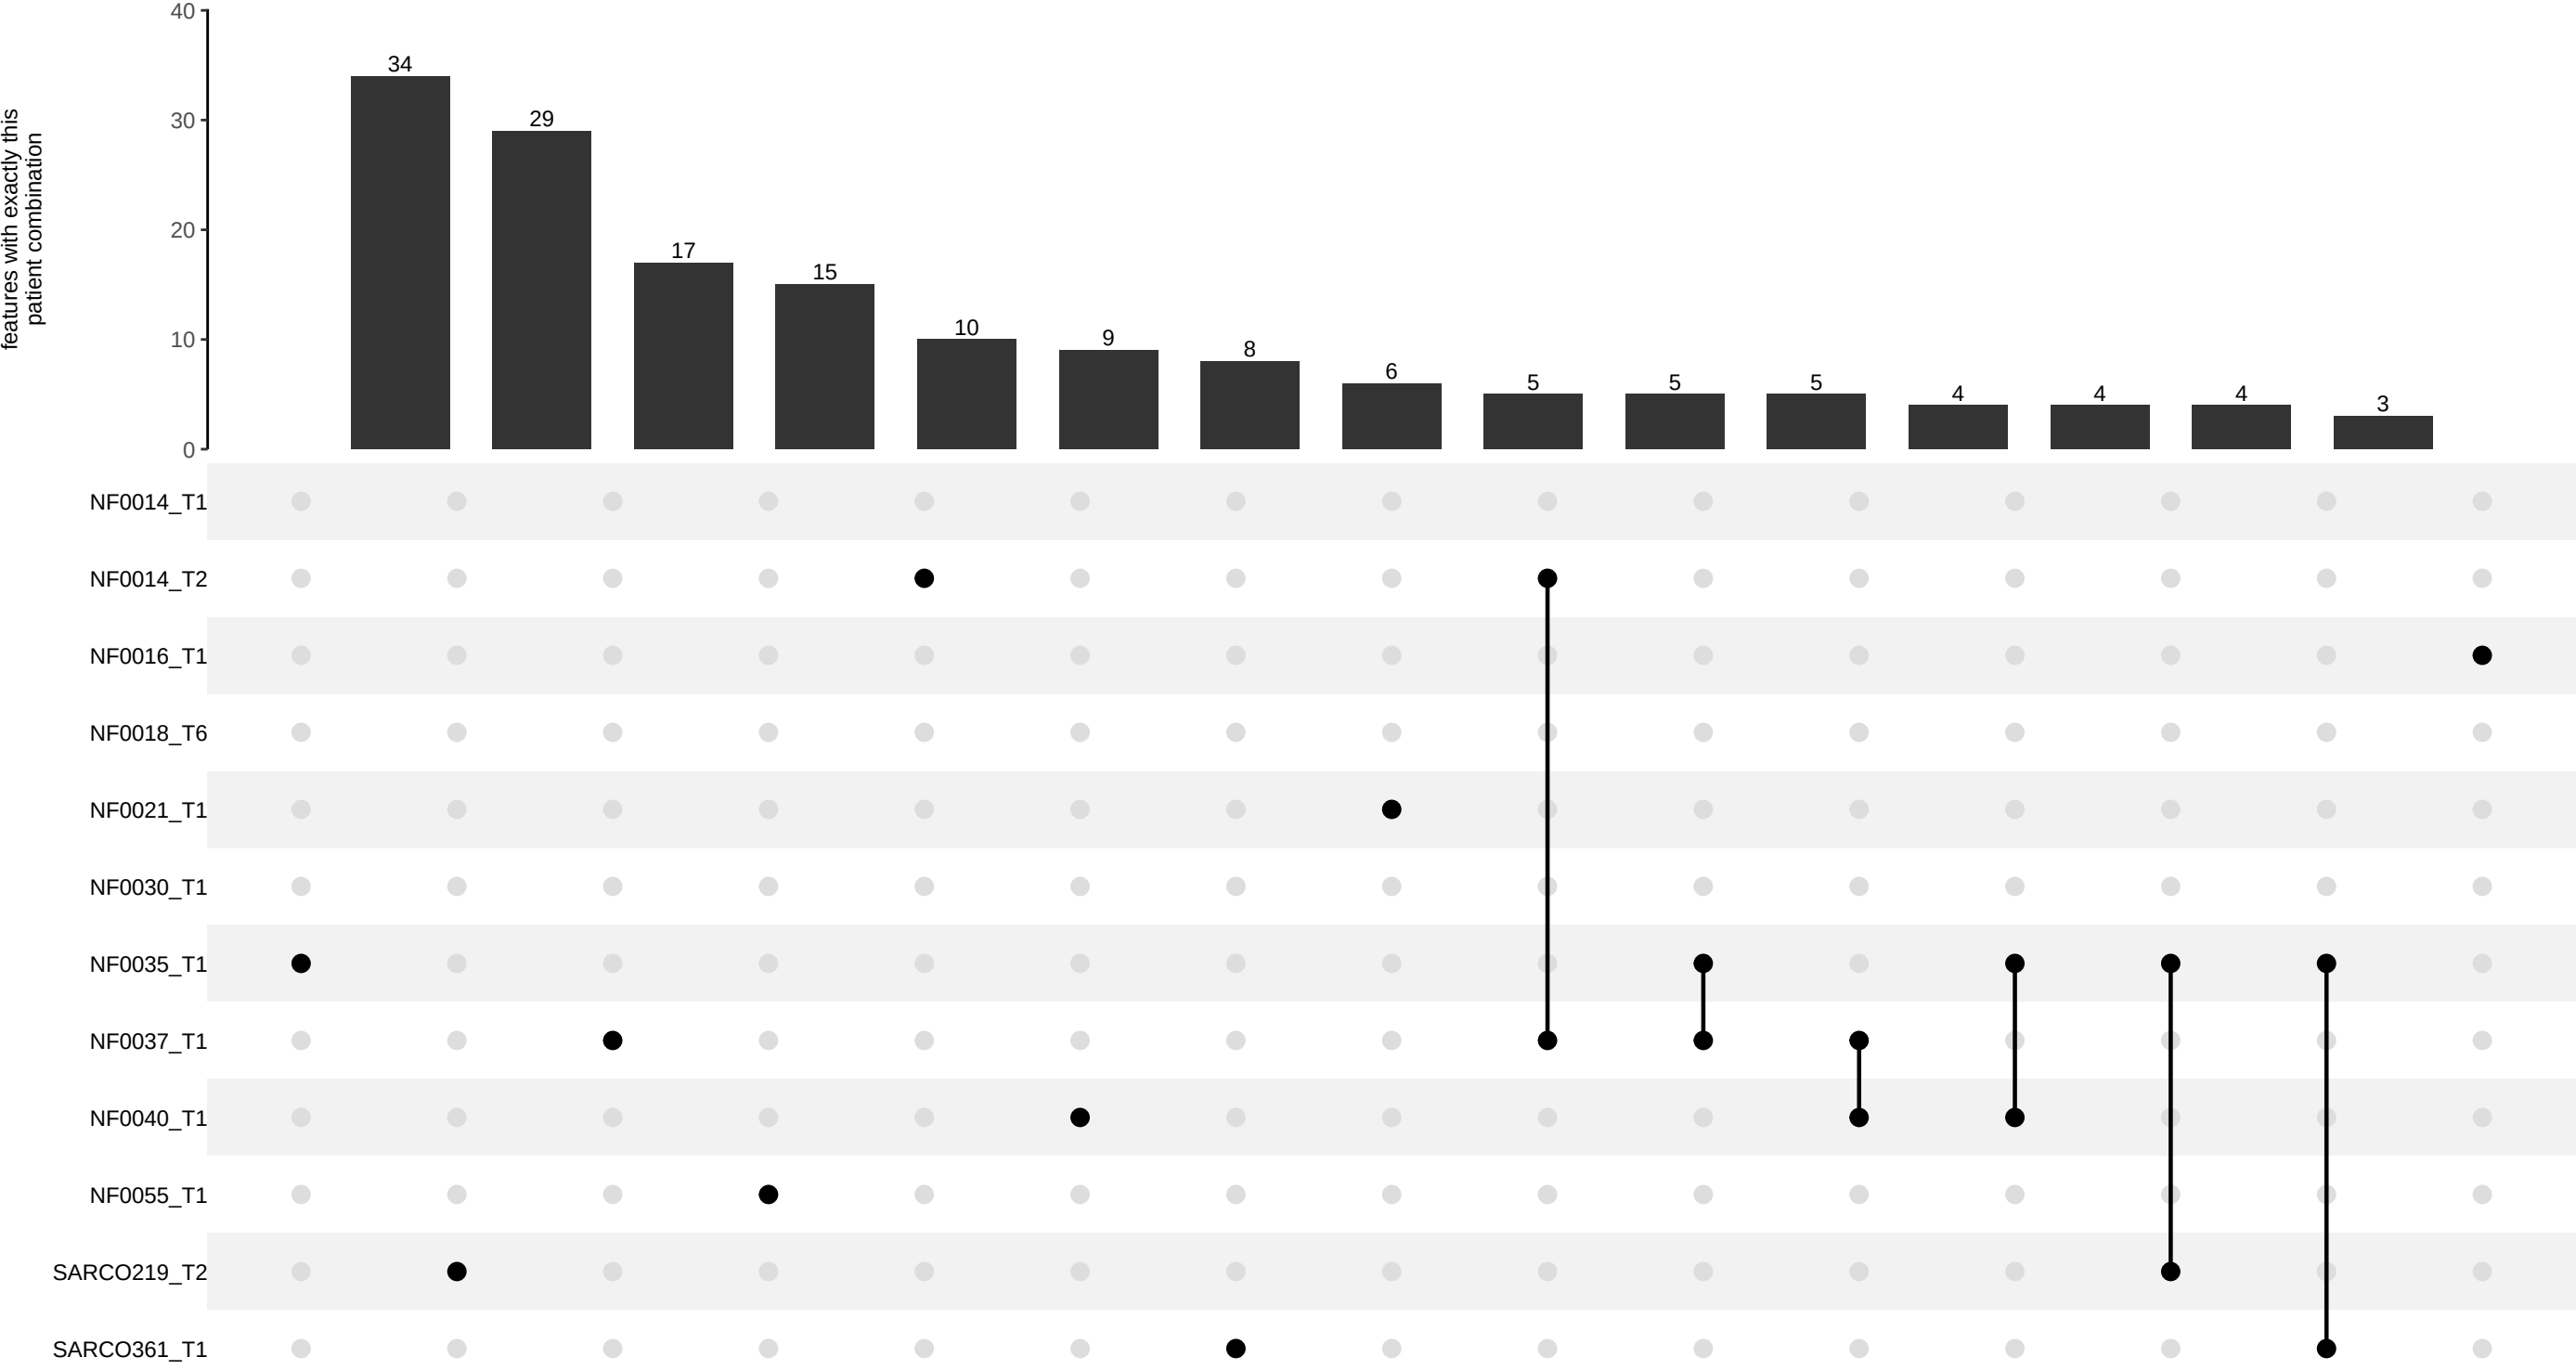

treatment | Mirdametinib_10uM

Features significant for exactly these variates, by the patients they occur in
(bars: number of features shared by exactly that patient combination)

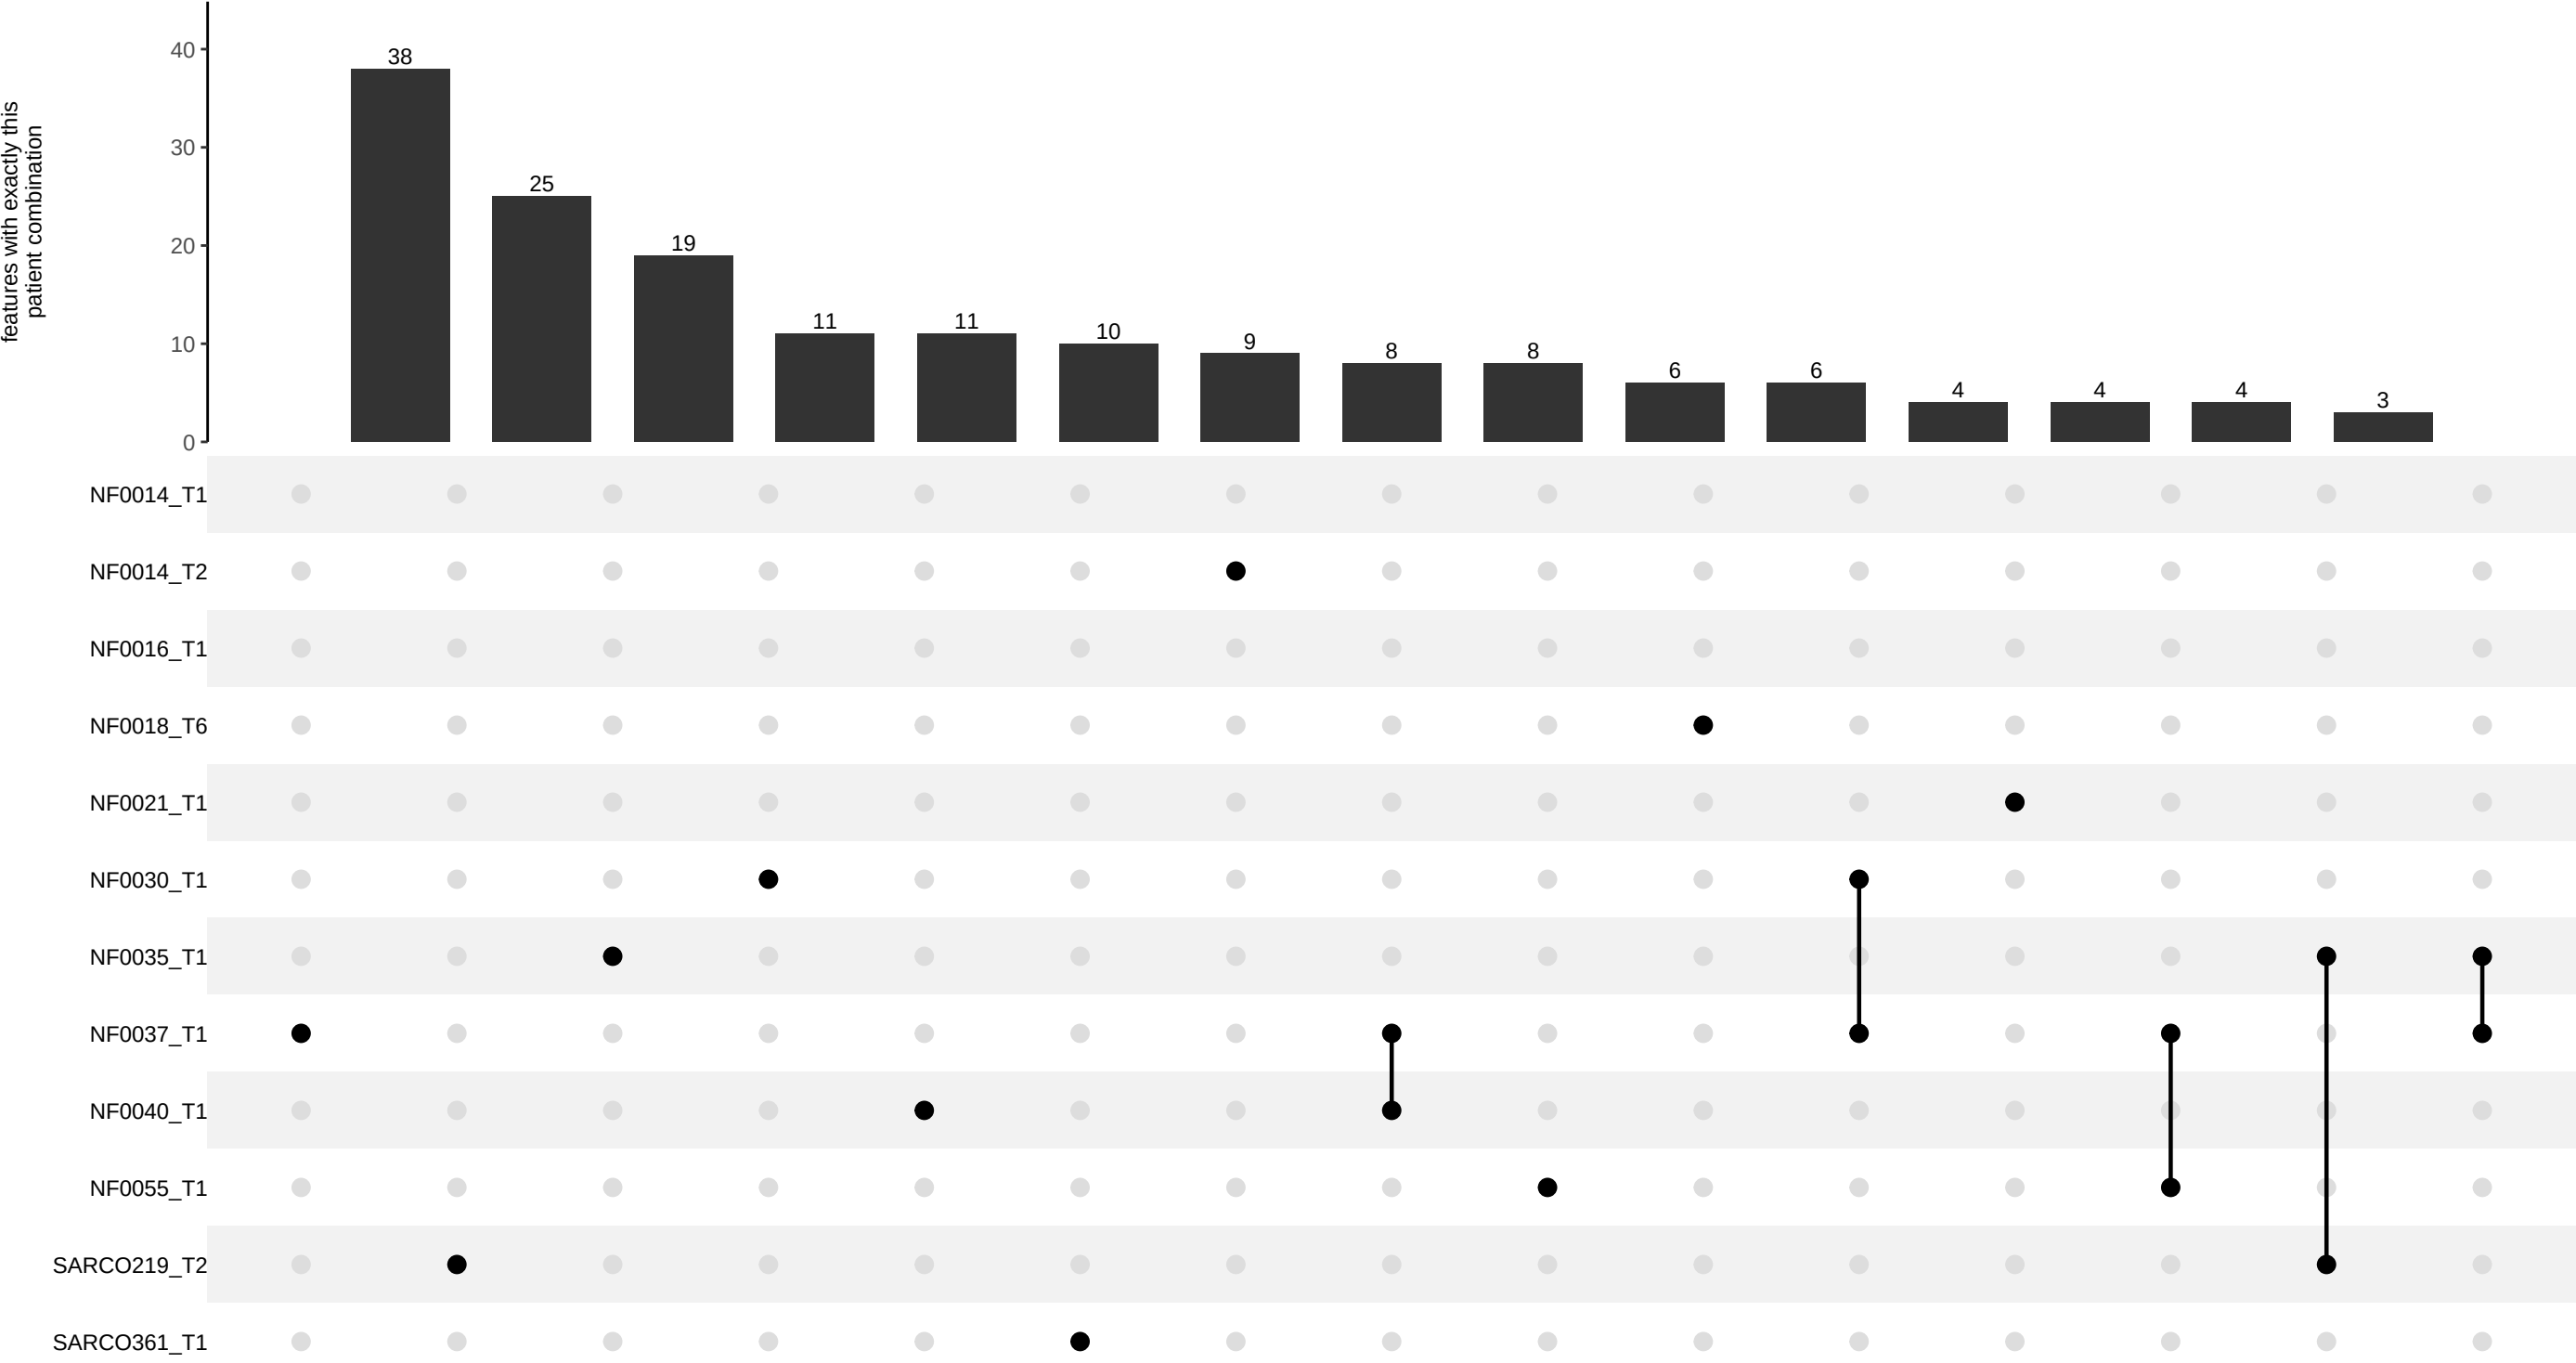

treatment | Mirdametinib_1uM

Features significant for exactly these variates, by the patients they occur in
(bars: number of features shared by exactly that patient combination)

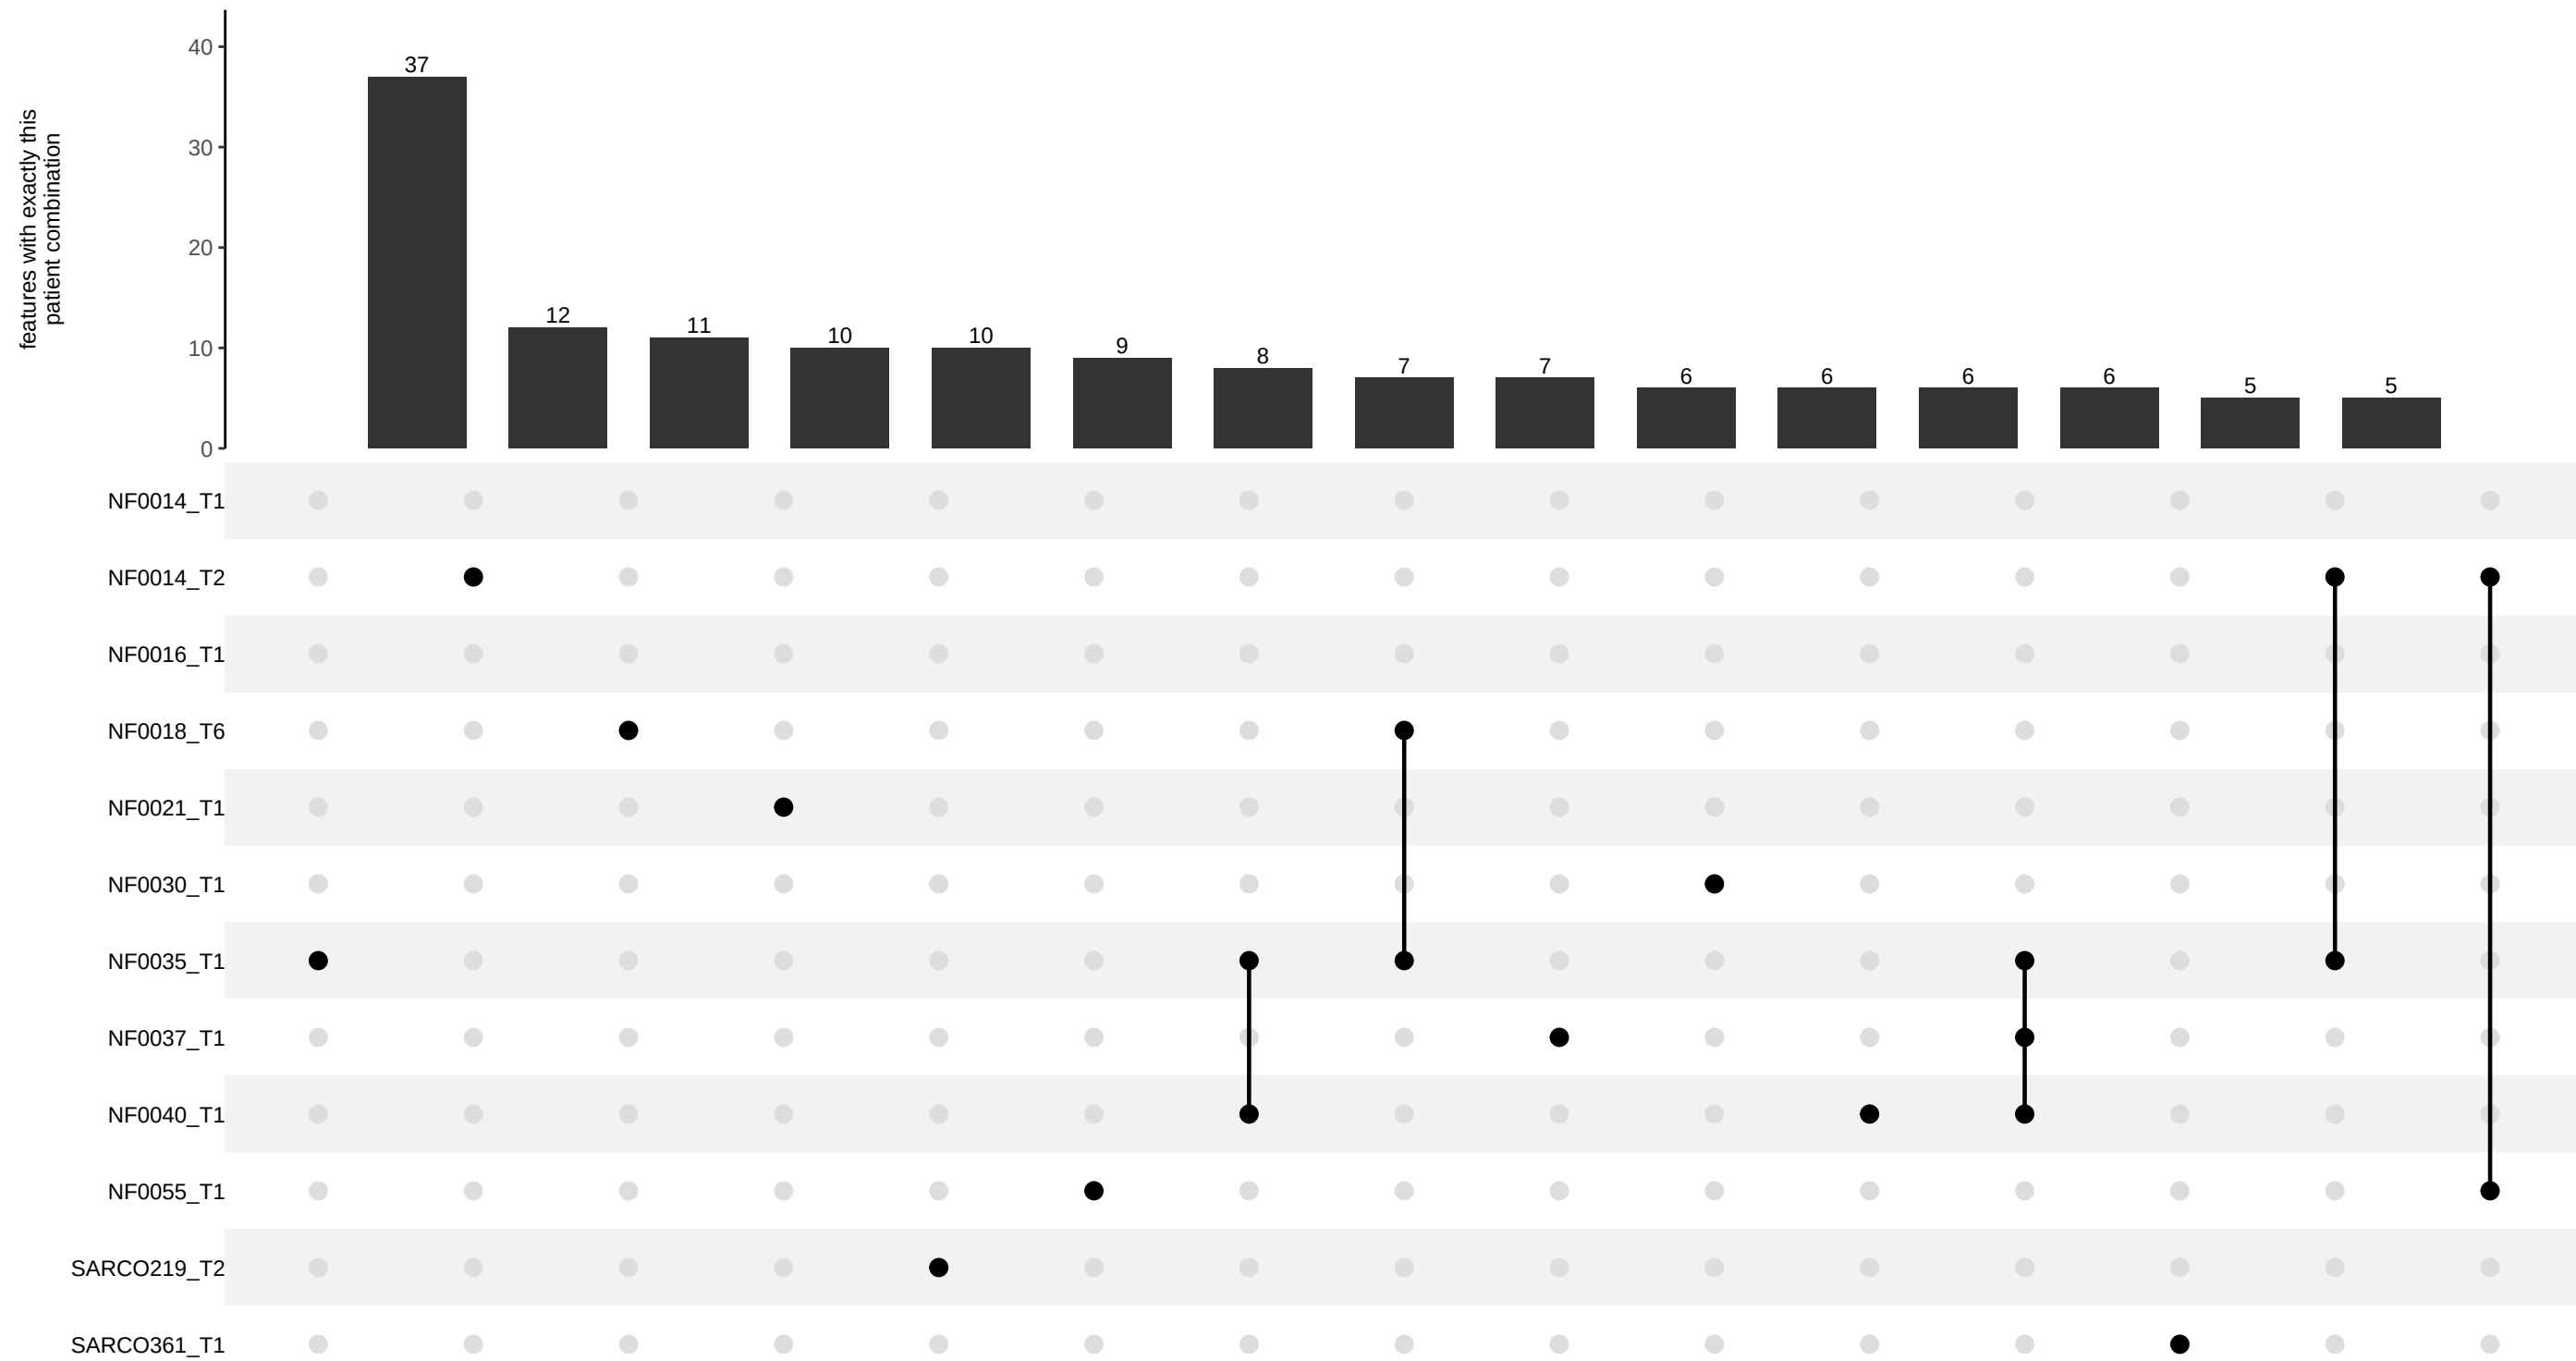

treatment | Nilotinib_1uM

Features significant for exactly these variates, by the patients they occur in
(bars: number of features shared by exactly that patient combination)

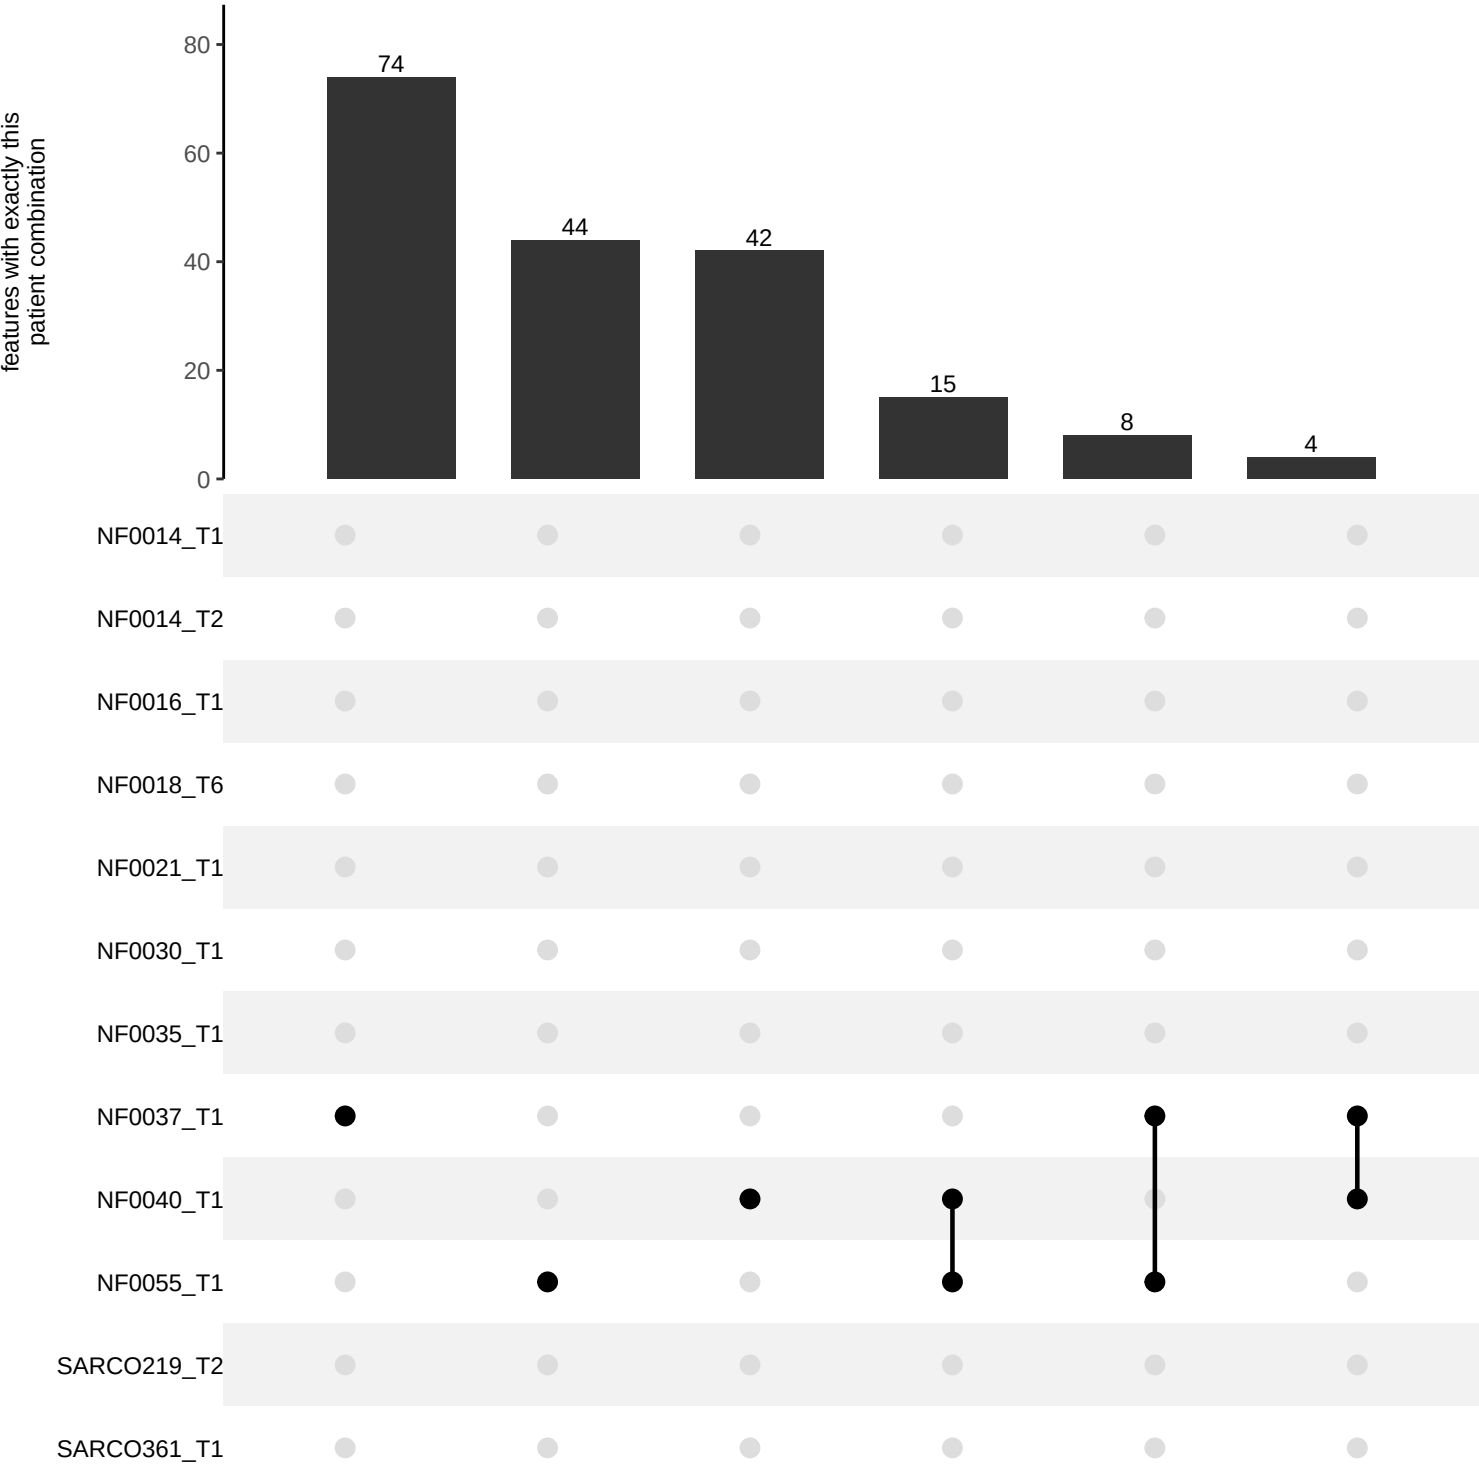

treatment | Onalespib_1uM

Features significant for exactly these variates, by the patients they occur in
(bars: number of features shared by exactly that patient combination)

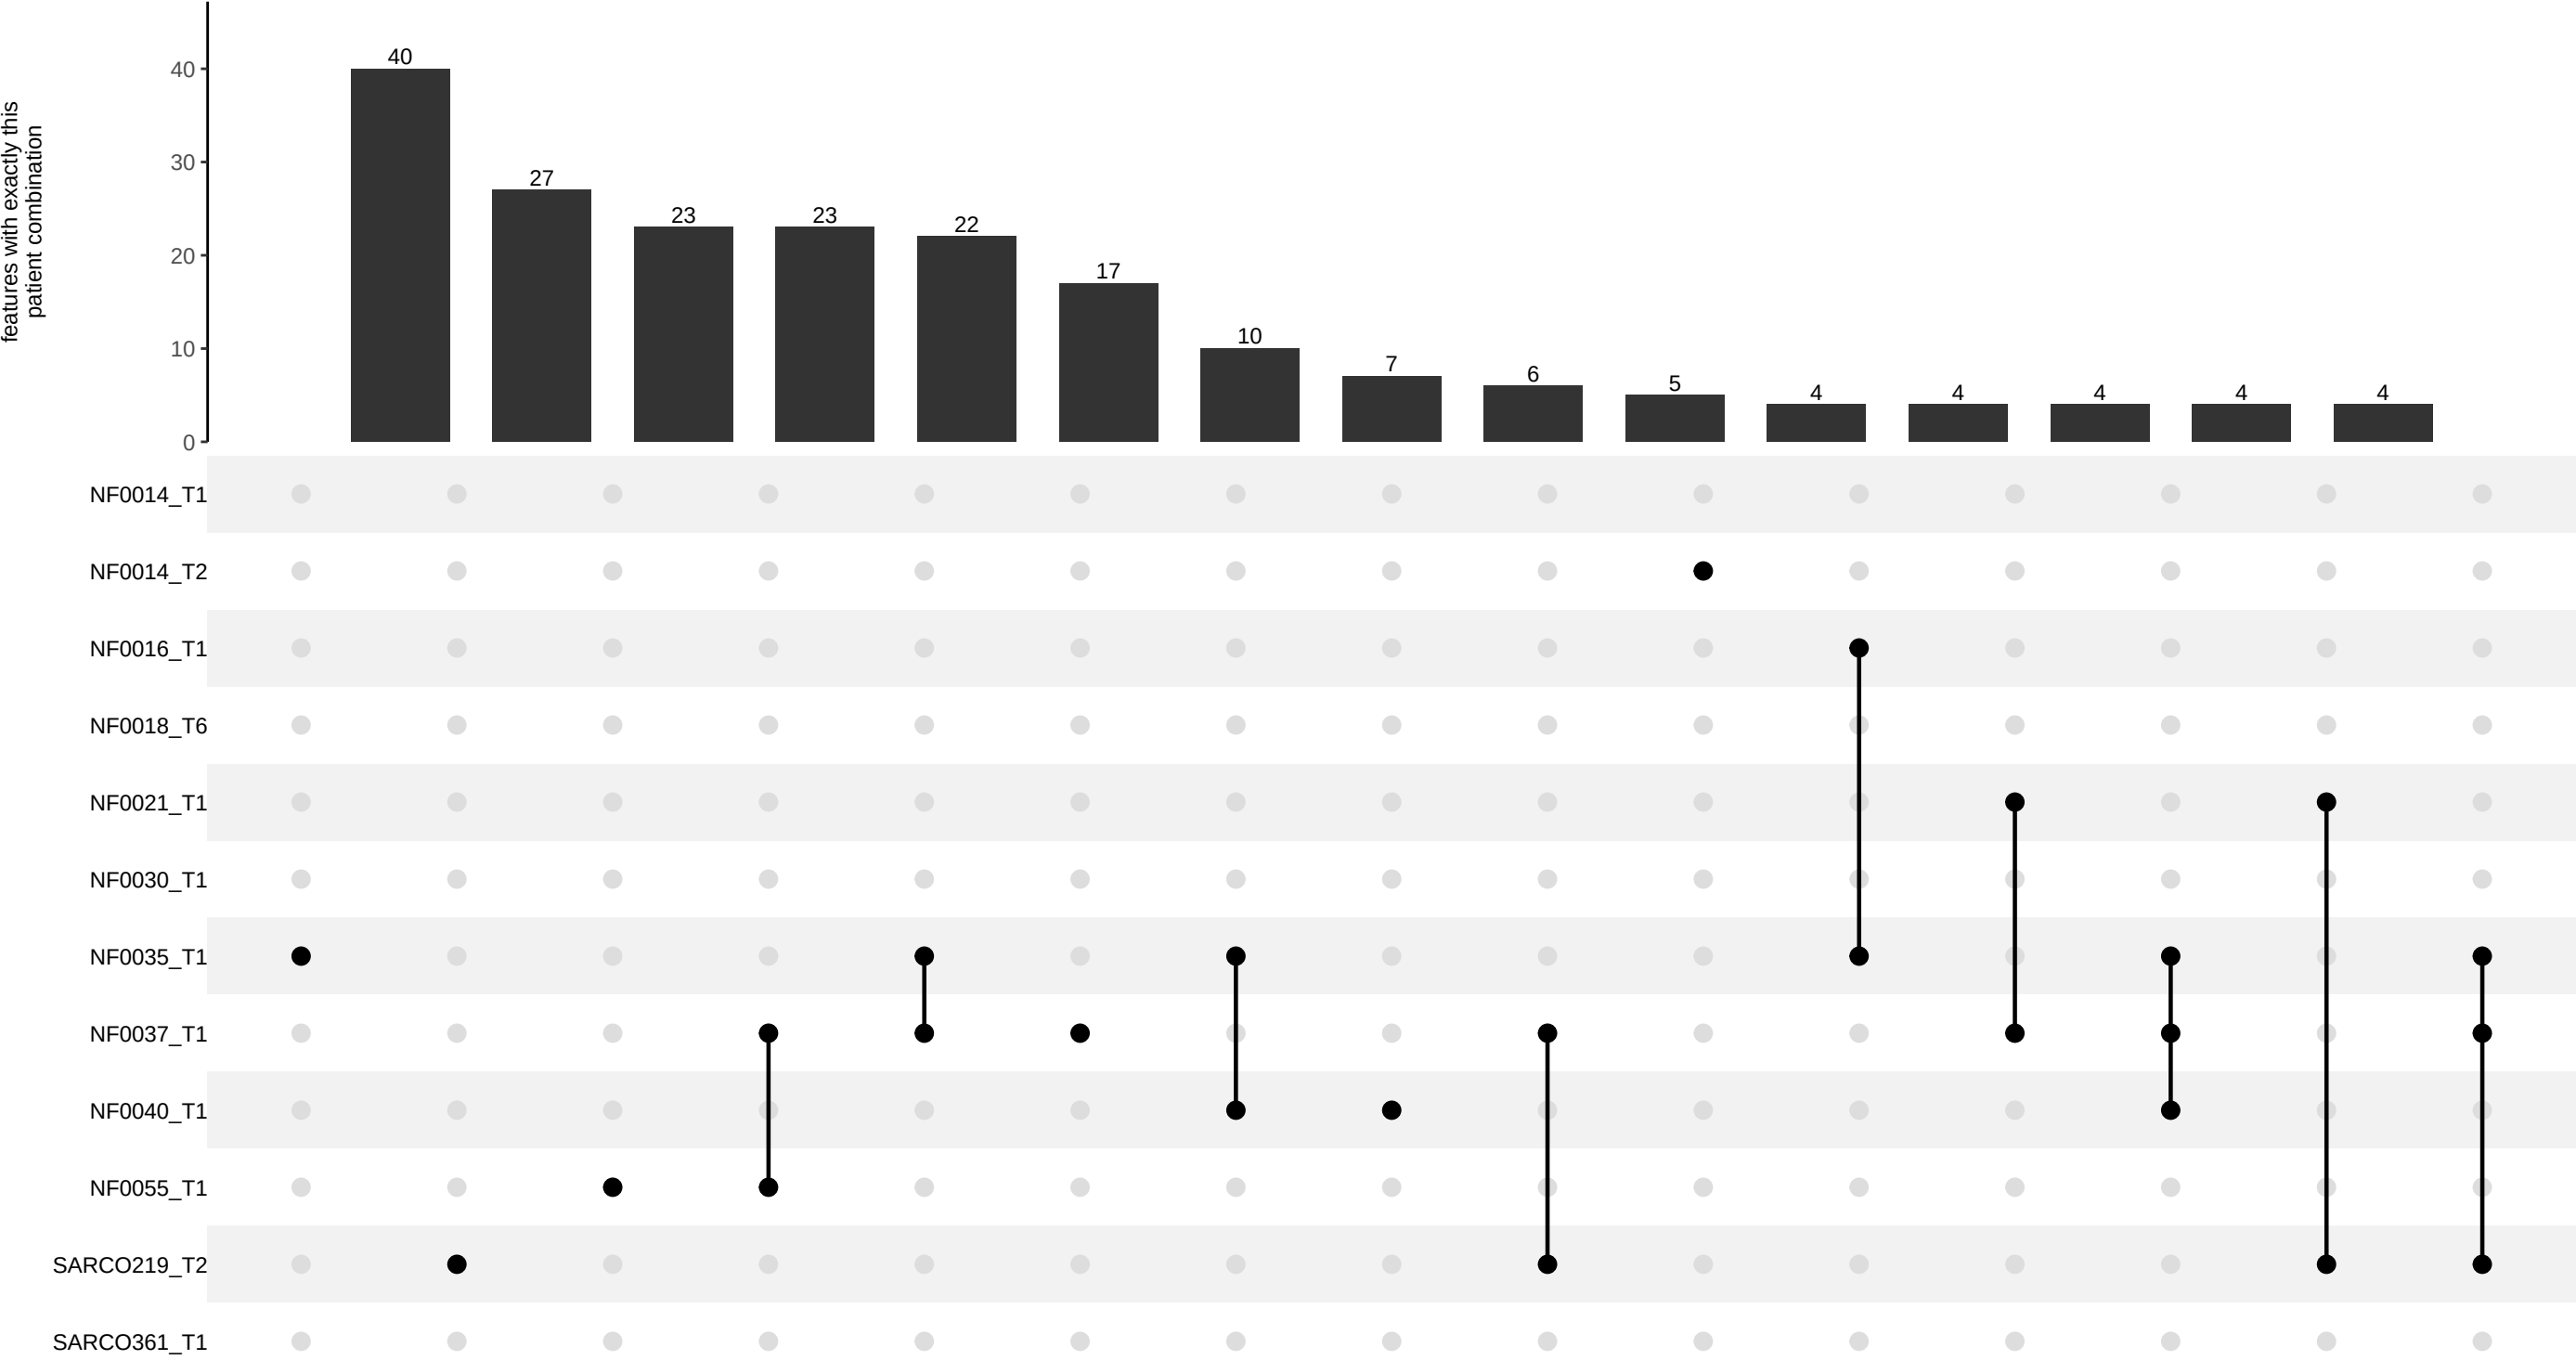

treatment | Panobinostat_1uM

Features significant for exactly these variates, by the patients they occur in
(bars: number of features shared by exactly that patient combination)

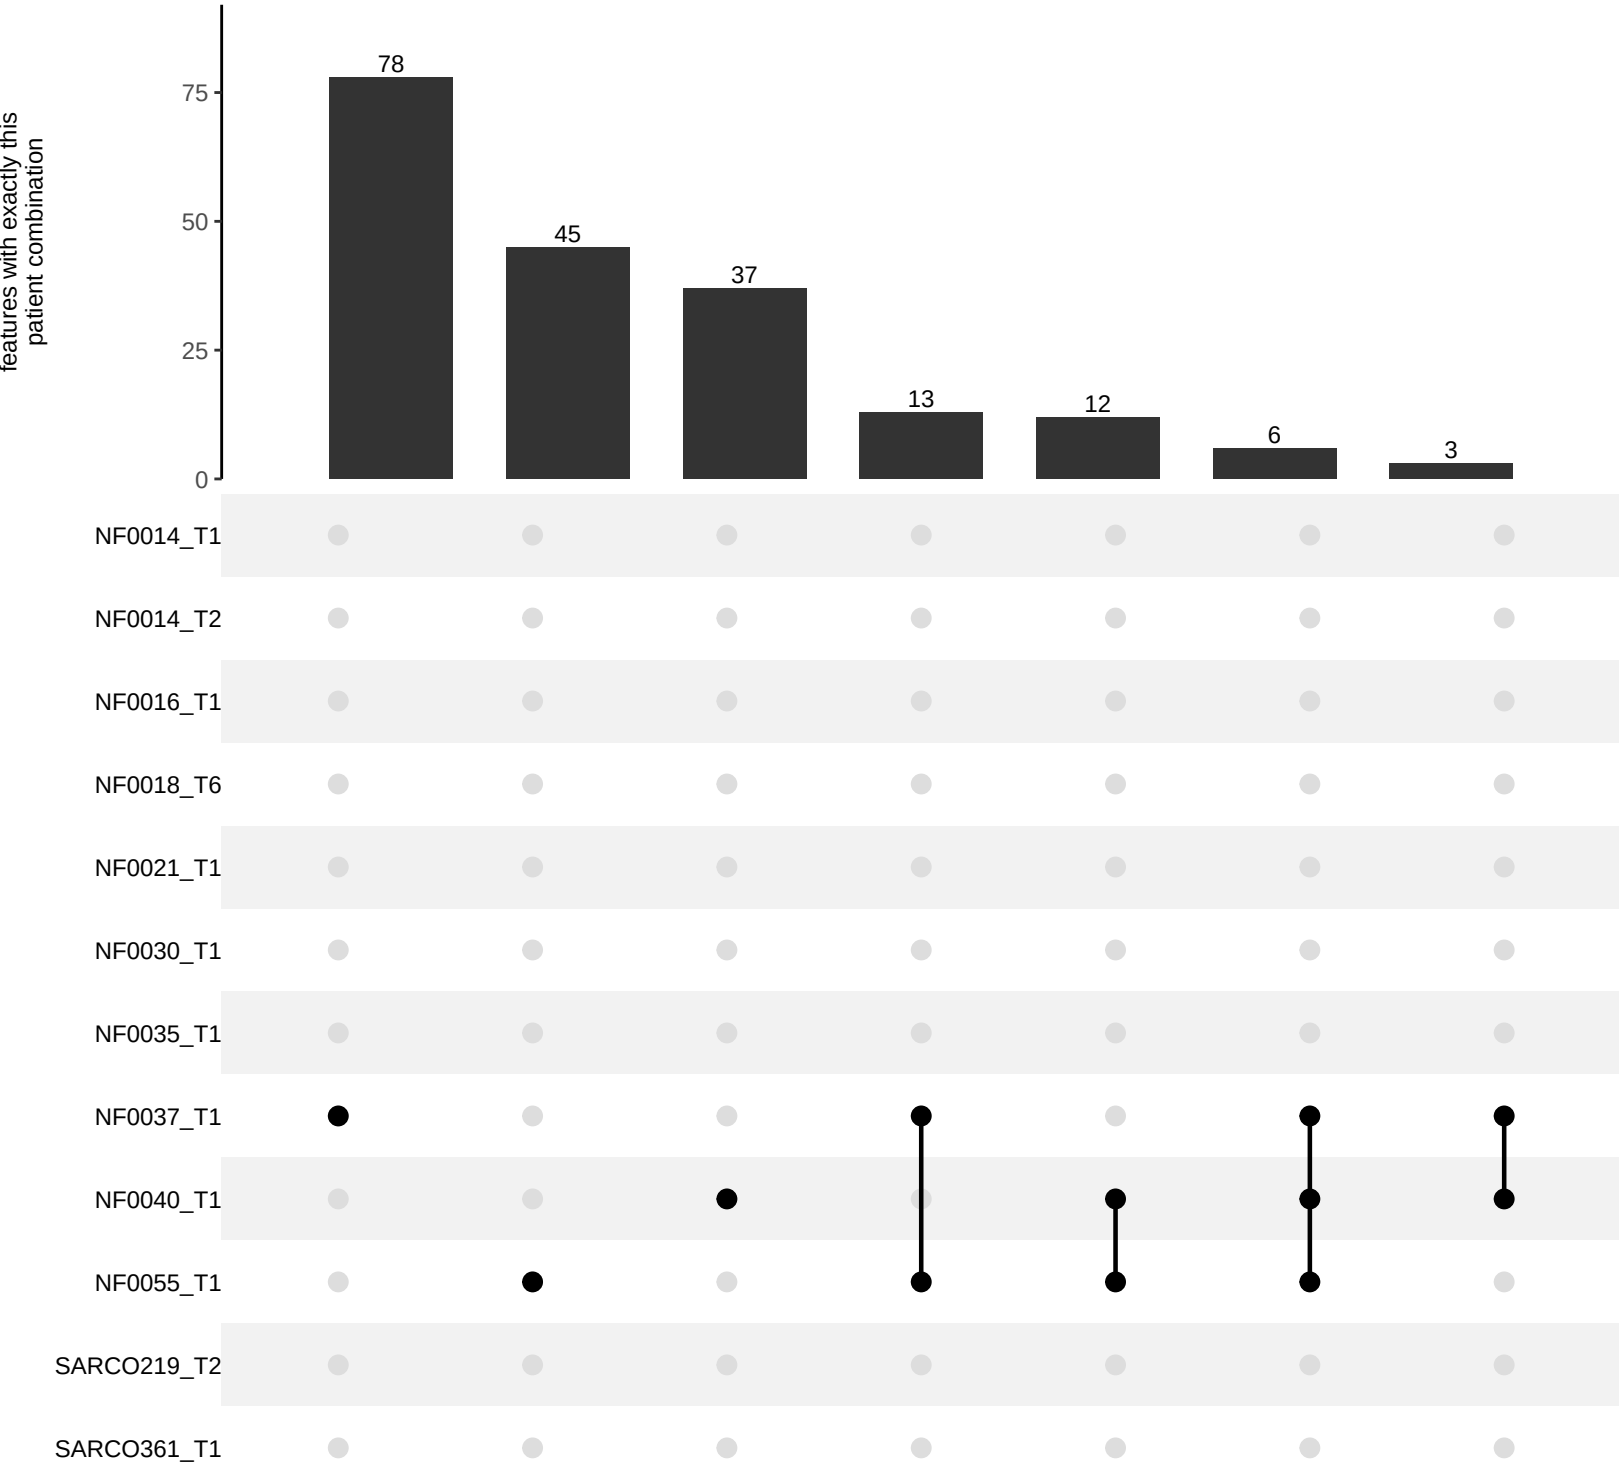

treatment | Rapamycin_1uM

Features significant for exactly these variates, by the patients they occur in
(bars: number of features shared by exactly that patient combination)

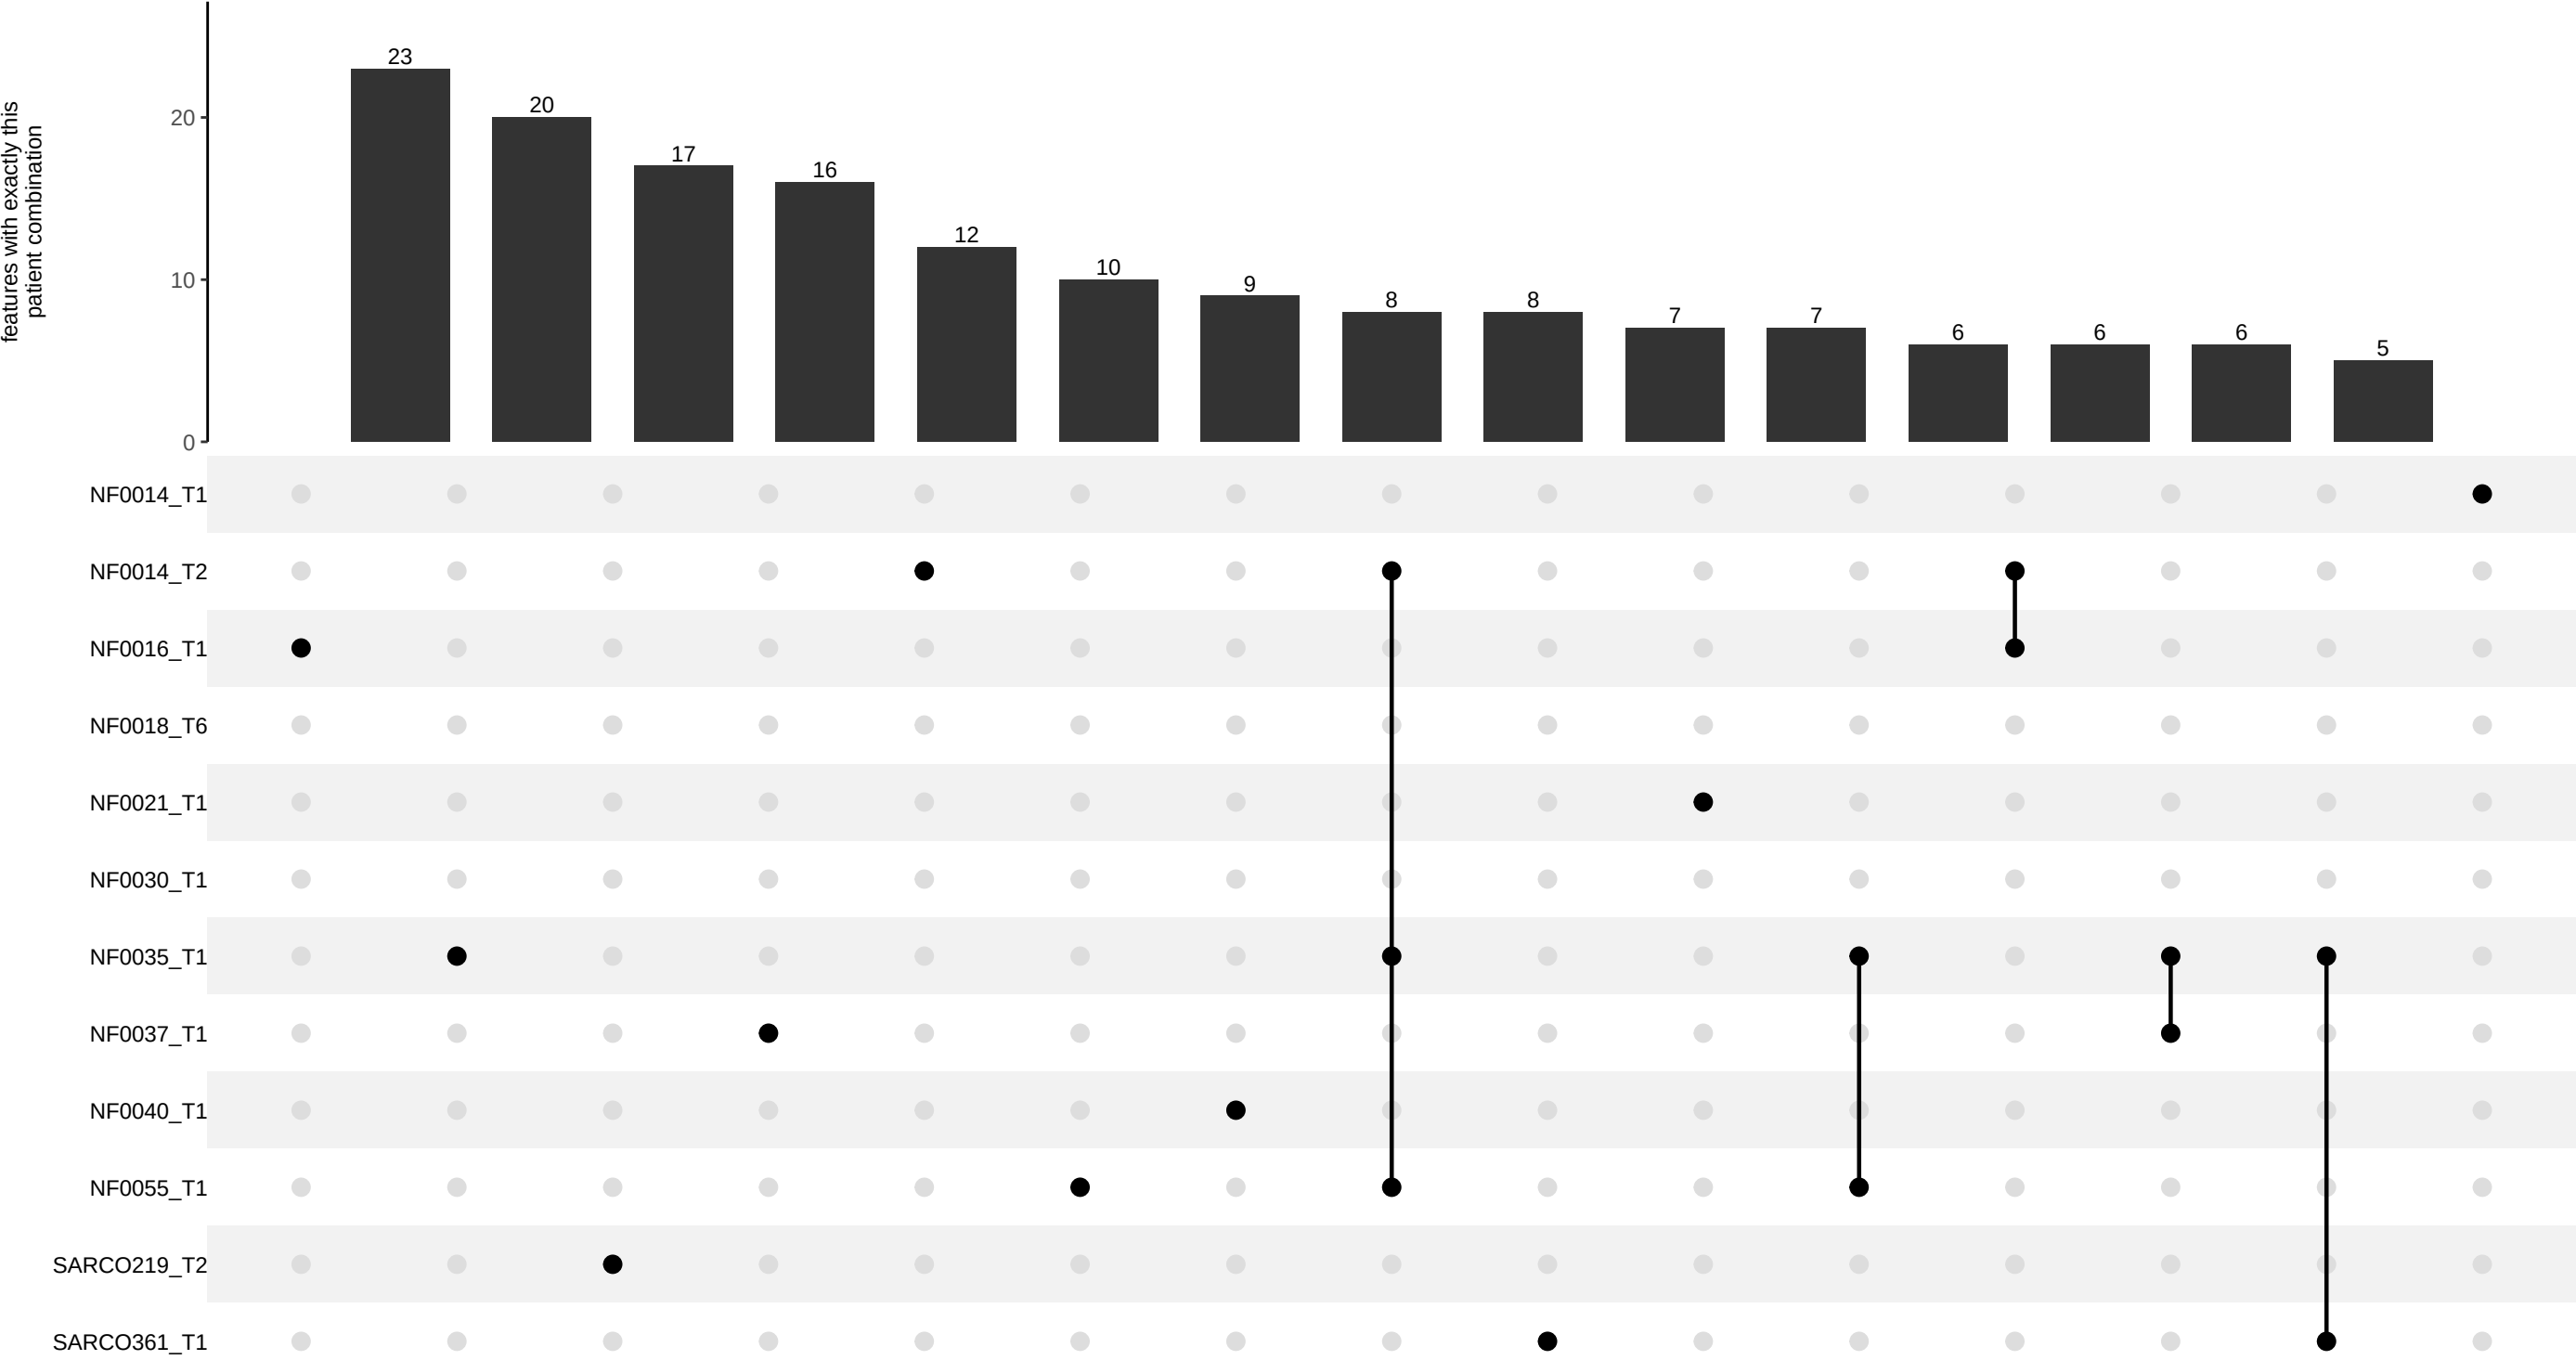

treatment | Sapanisertib_1uM

Features significant for exactly these variates, by the patients they occur in
(bars: number of features shared by exactly that patient combination)

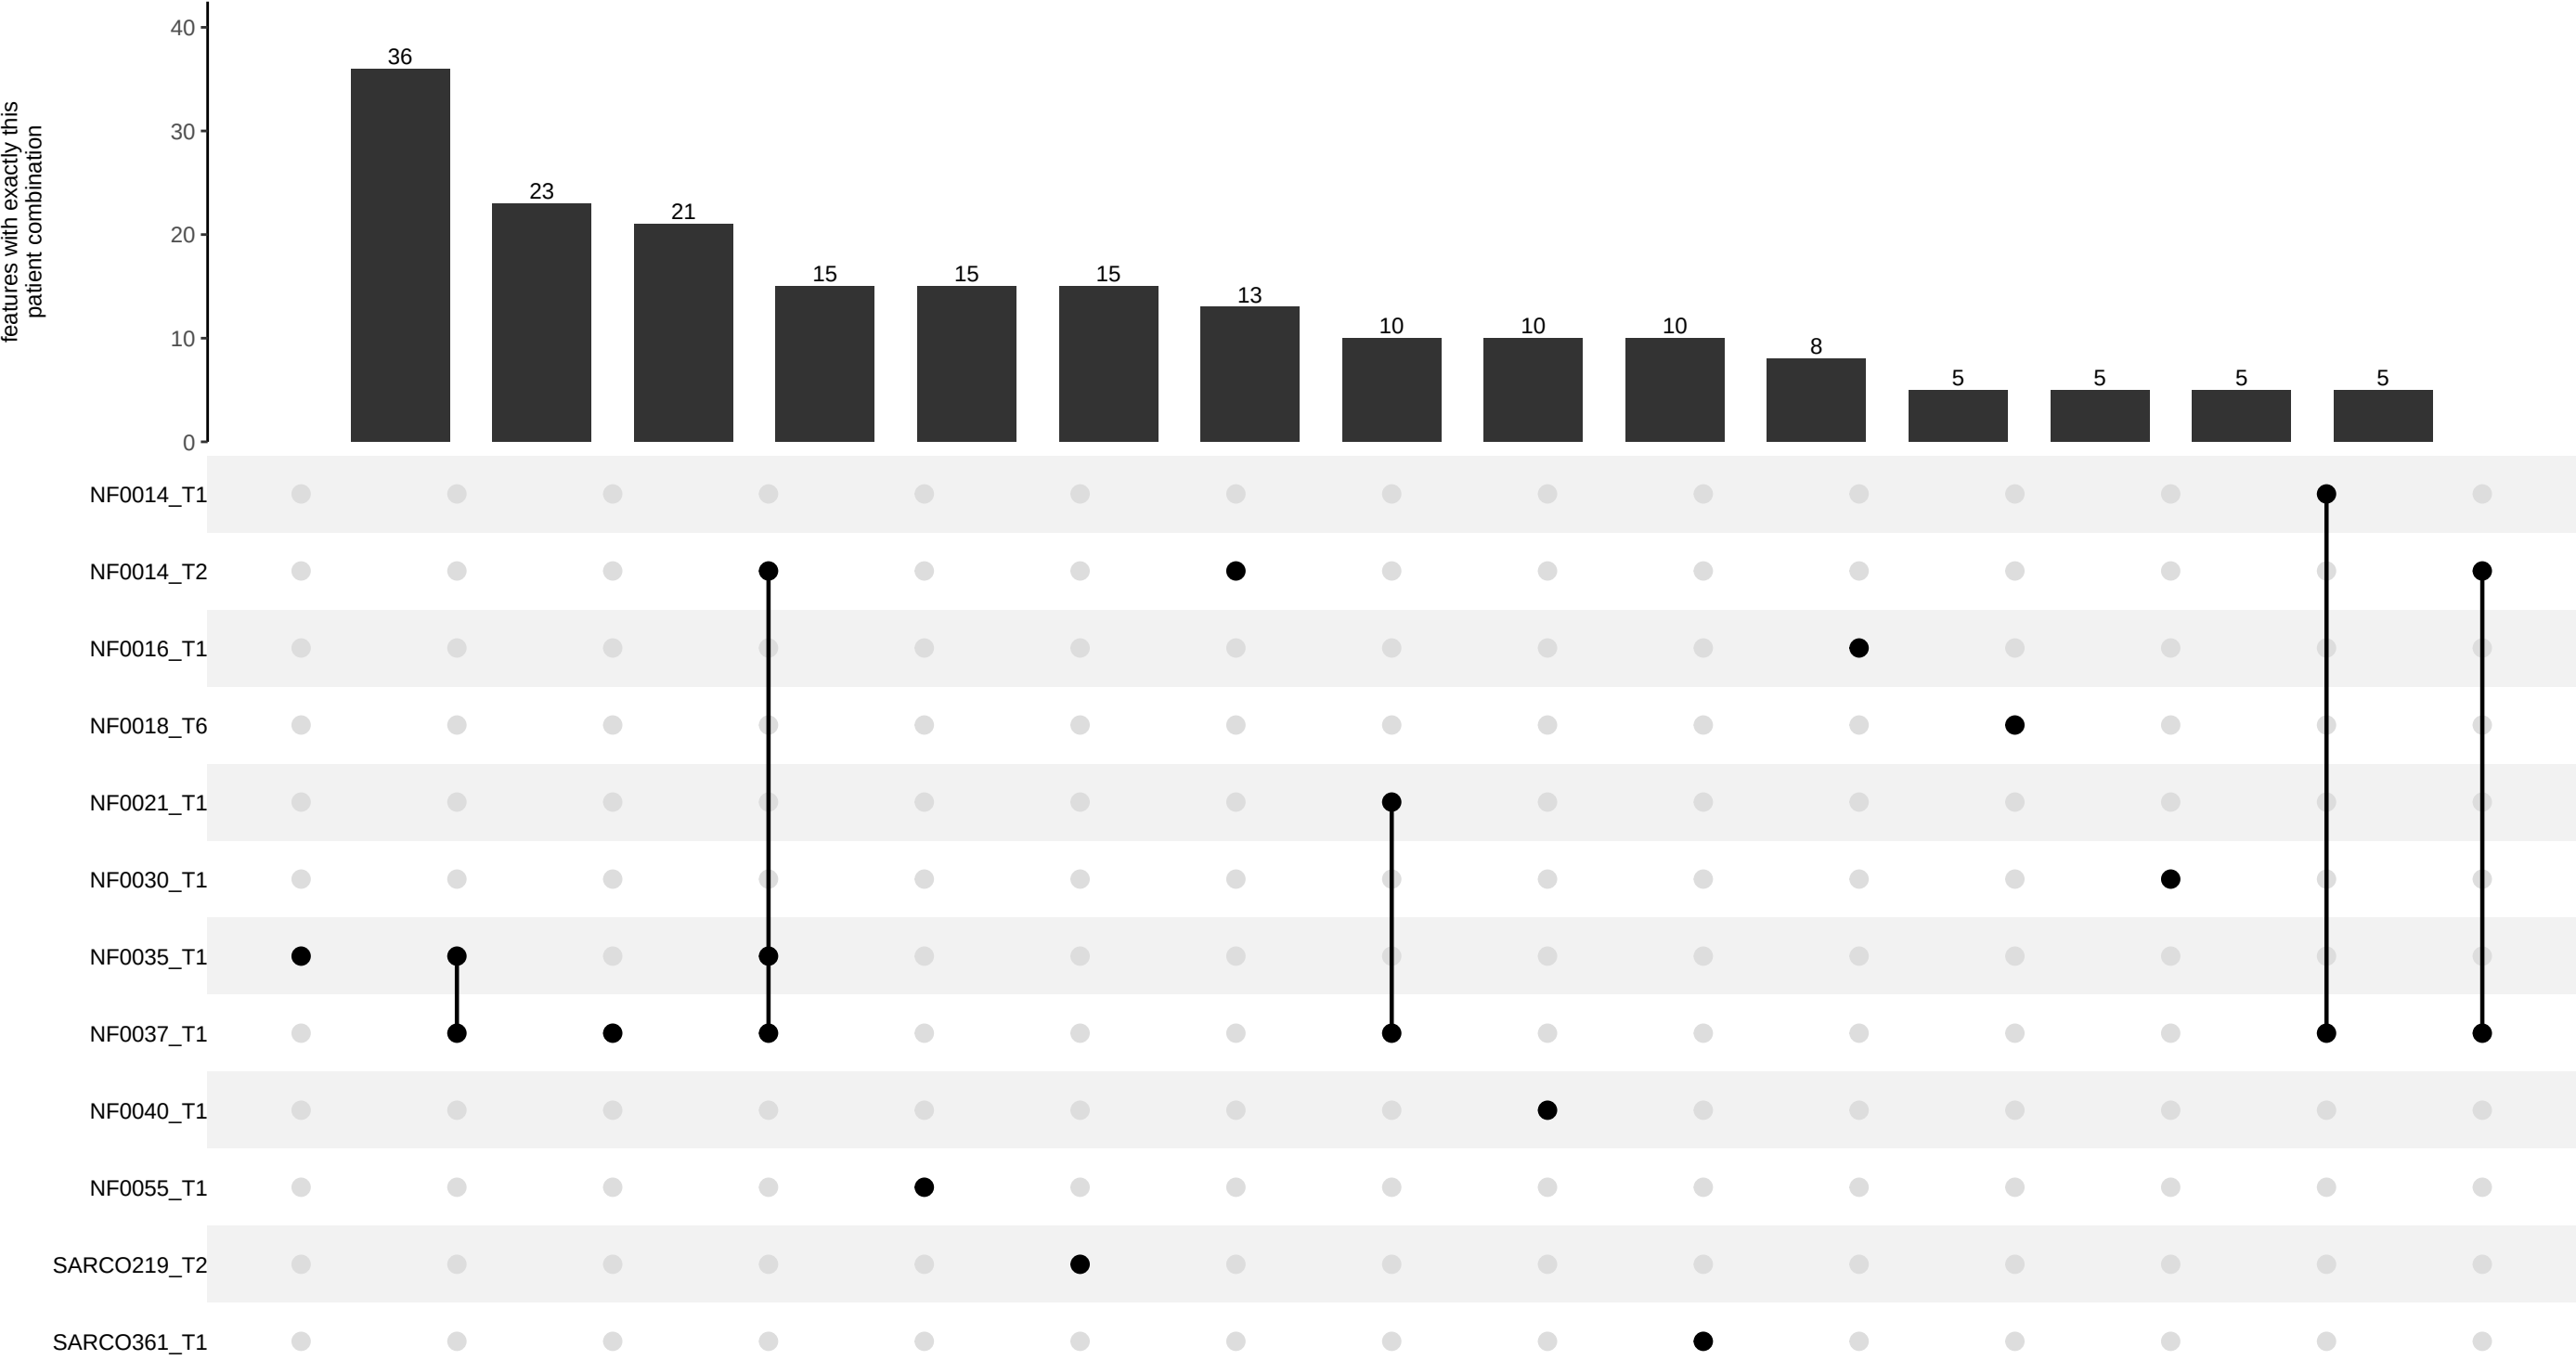

treatment | Selumetinib_10uM

Features significant for exactly these variates, by the patients they occur in
(bars: number of features shared by exactly that patient combination)

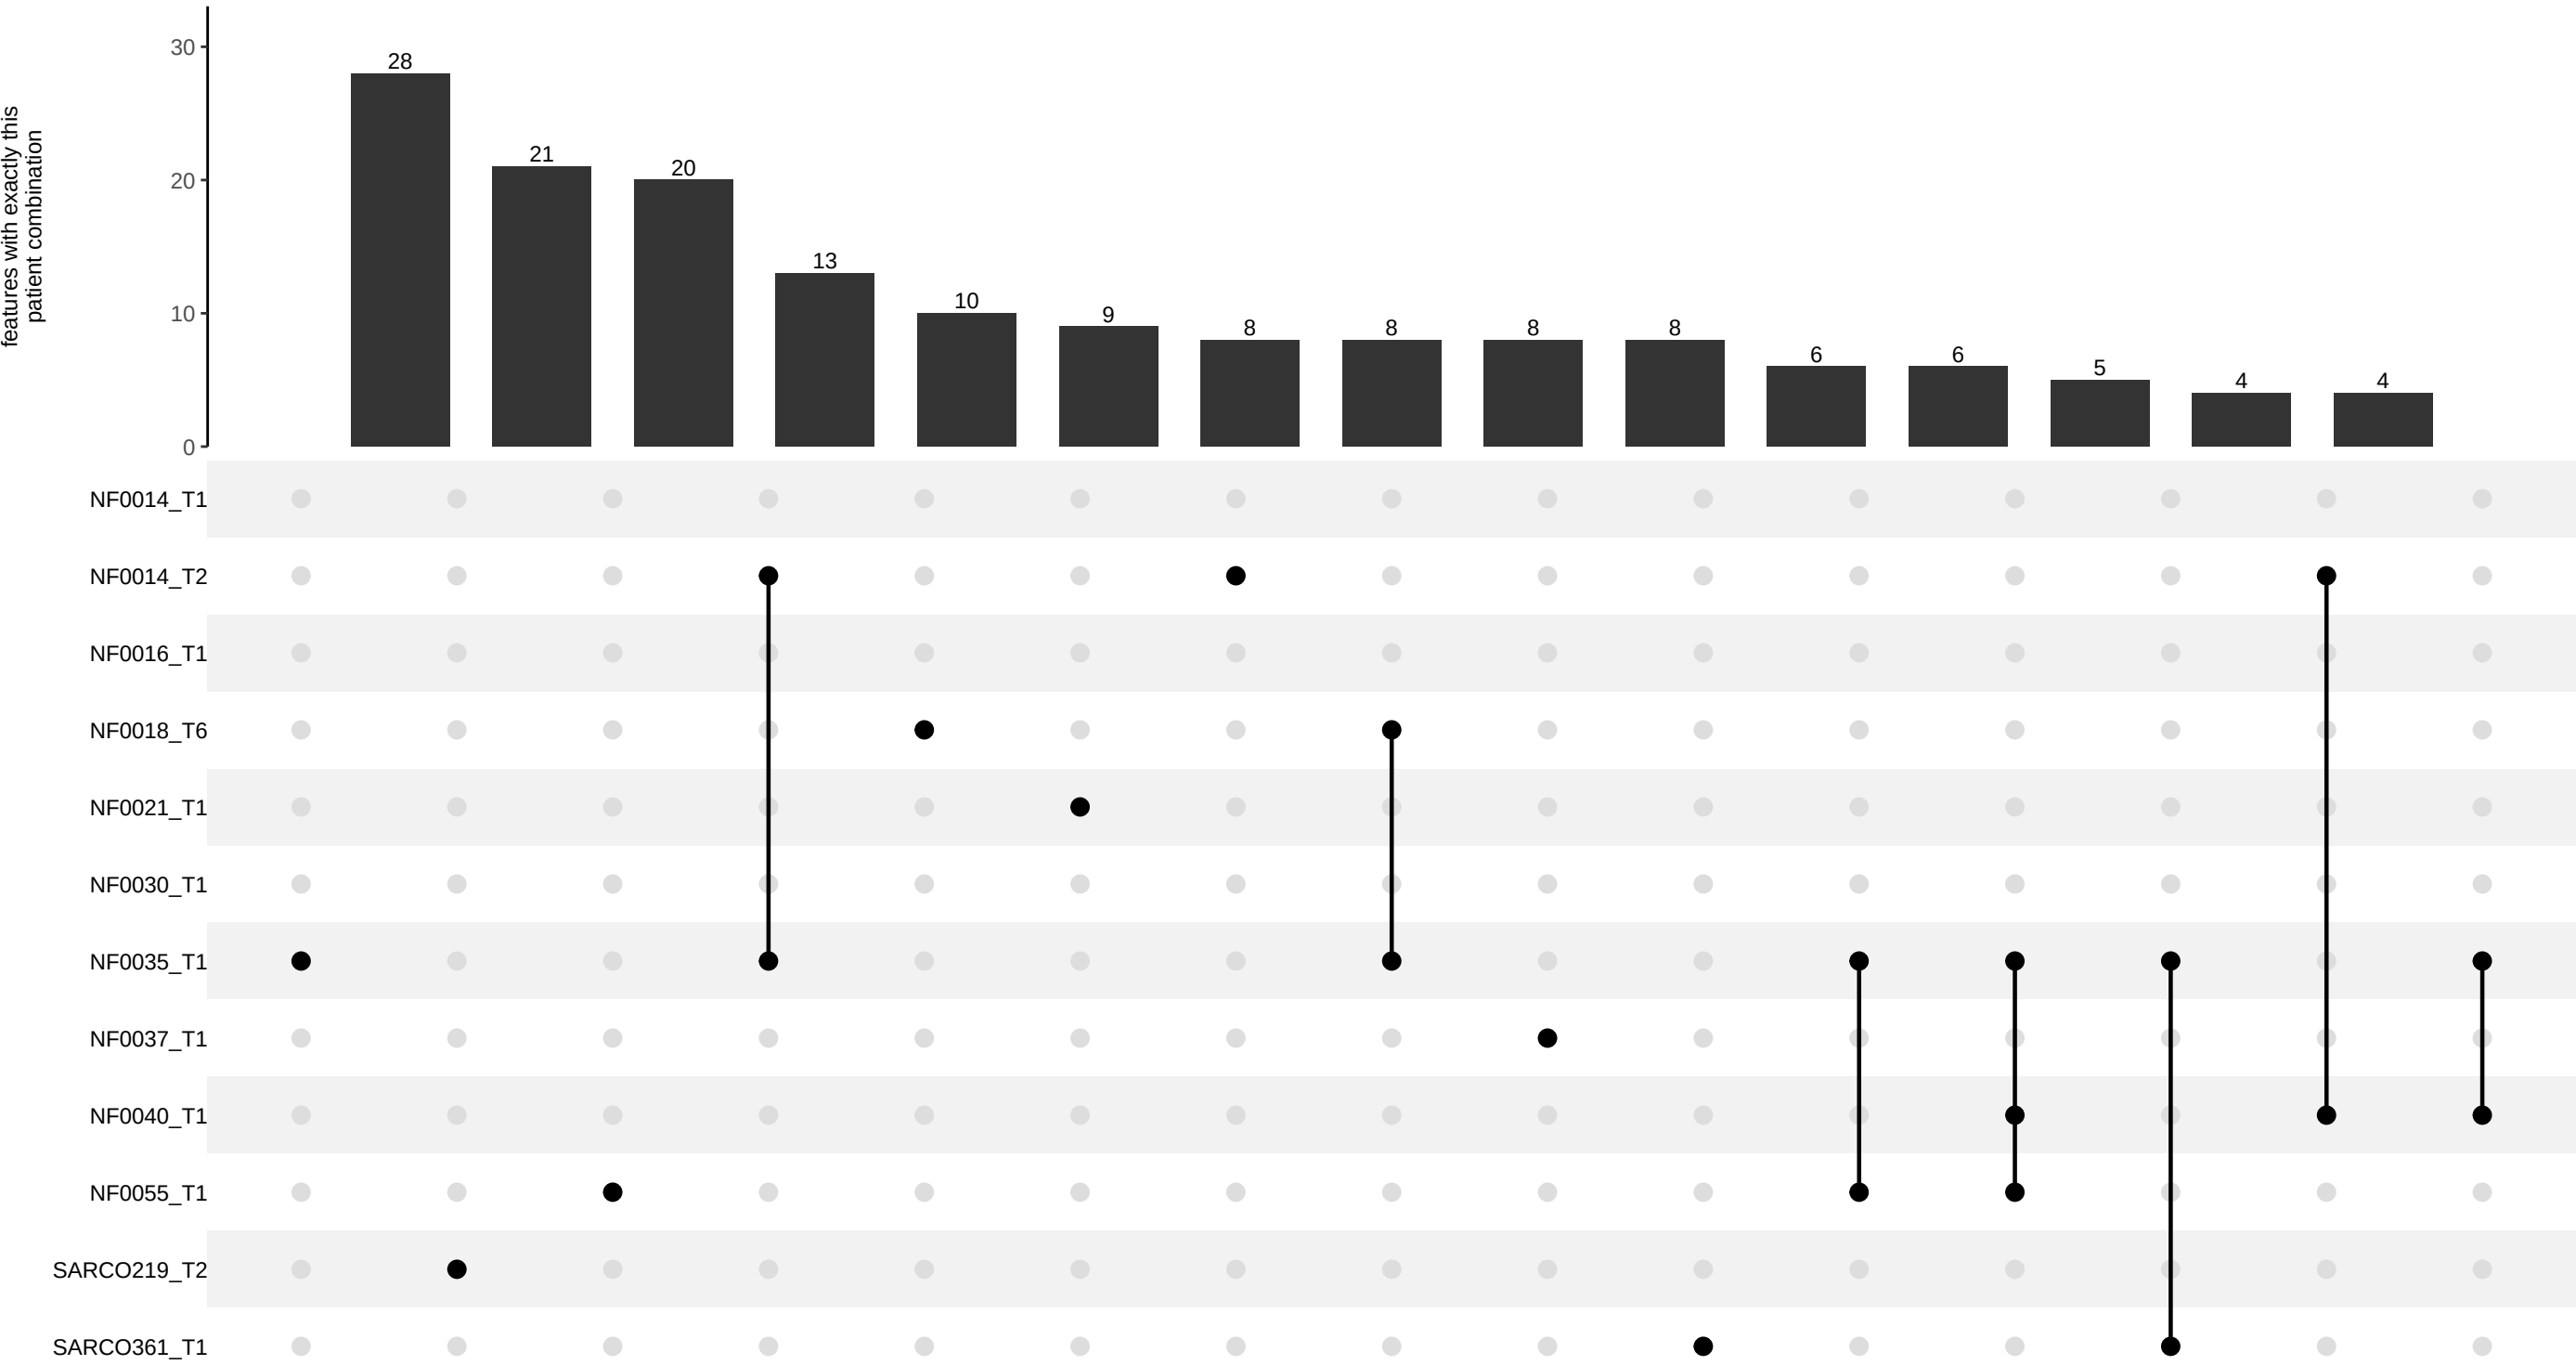

treatment | Selumetinib_1uM

Features significant for exactly these variates, by the patients they occur in
(bars: number of features shared by exactly that patient combination)

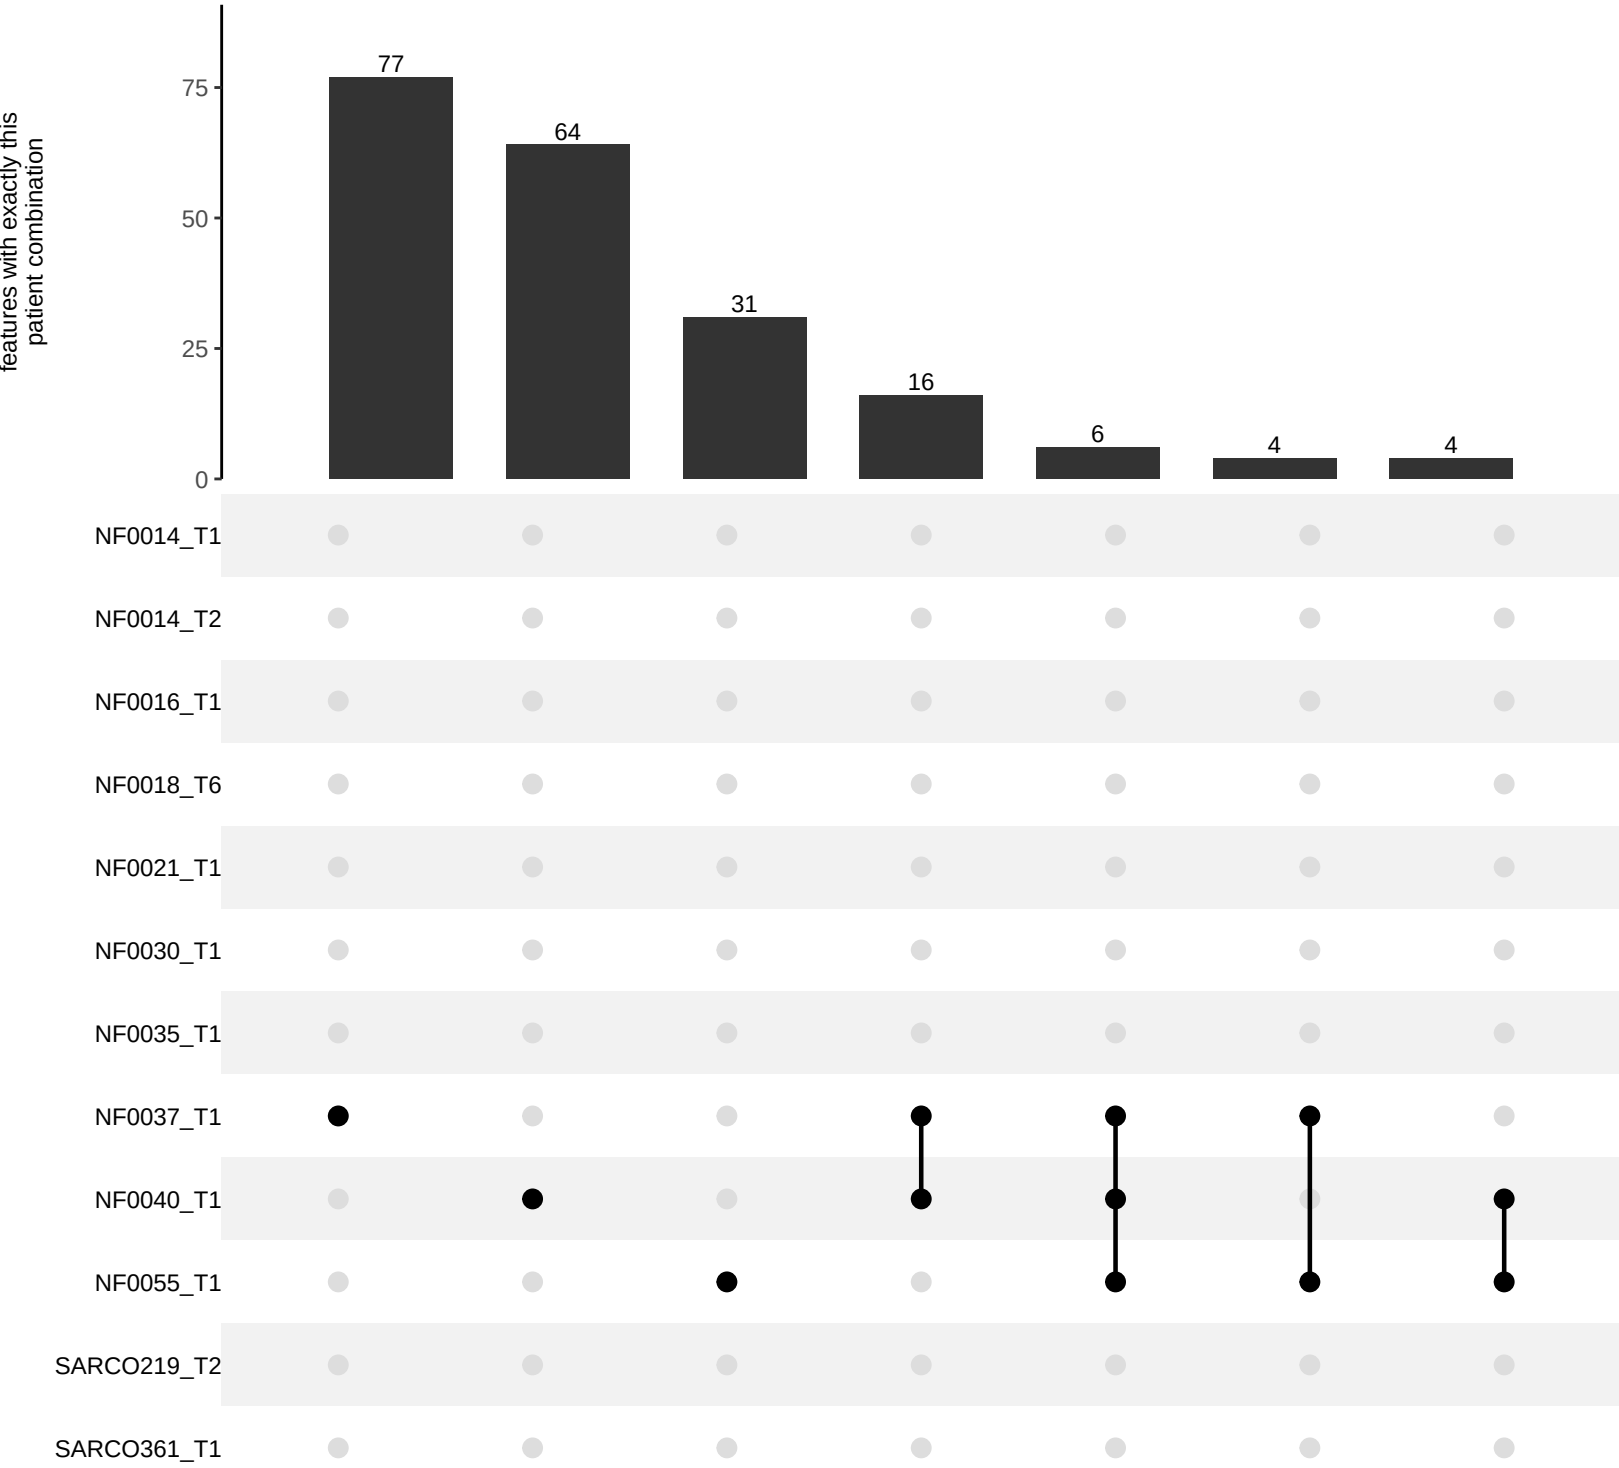

treatment | Staurosporine_10nM

Features significant for exactly these variates, by the patients they occur in
(bars: number of features shared by exactly that patient combination)

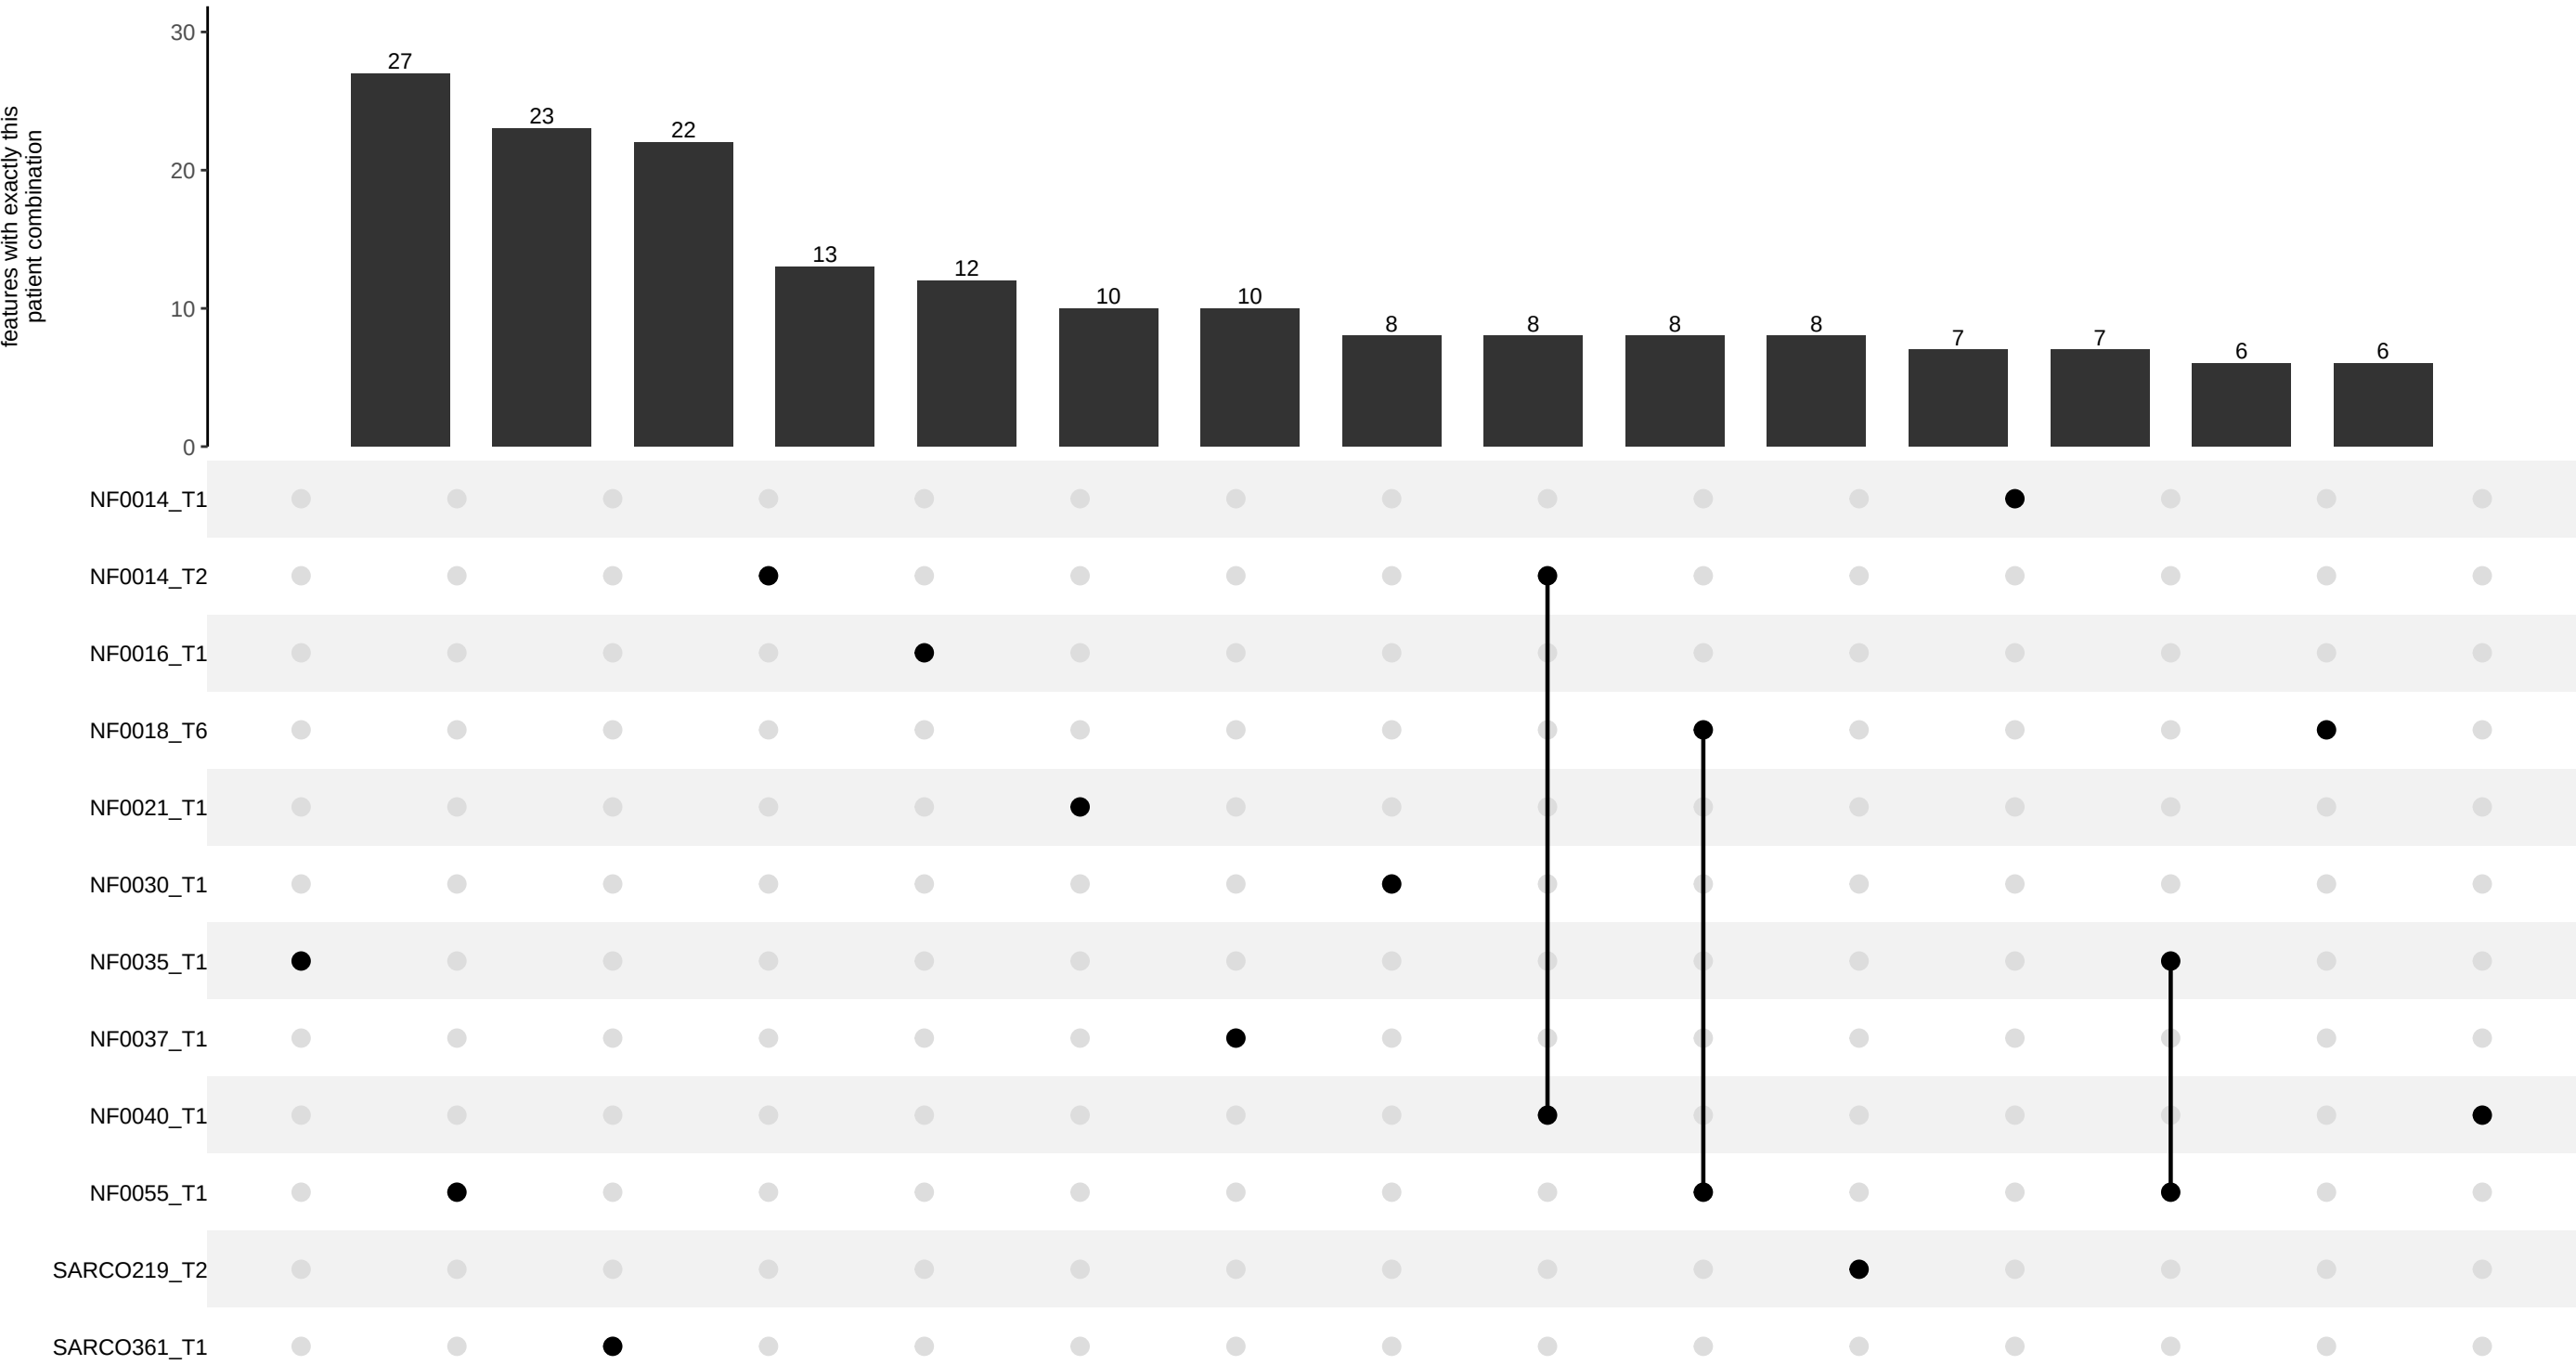

treatment | Trabectedin_1uM

Features significant for exactly these variates, by the patients they occur in
(bars: number of features shared by exactly that patient combination)

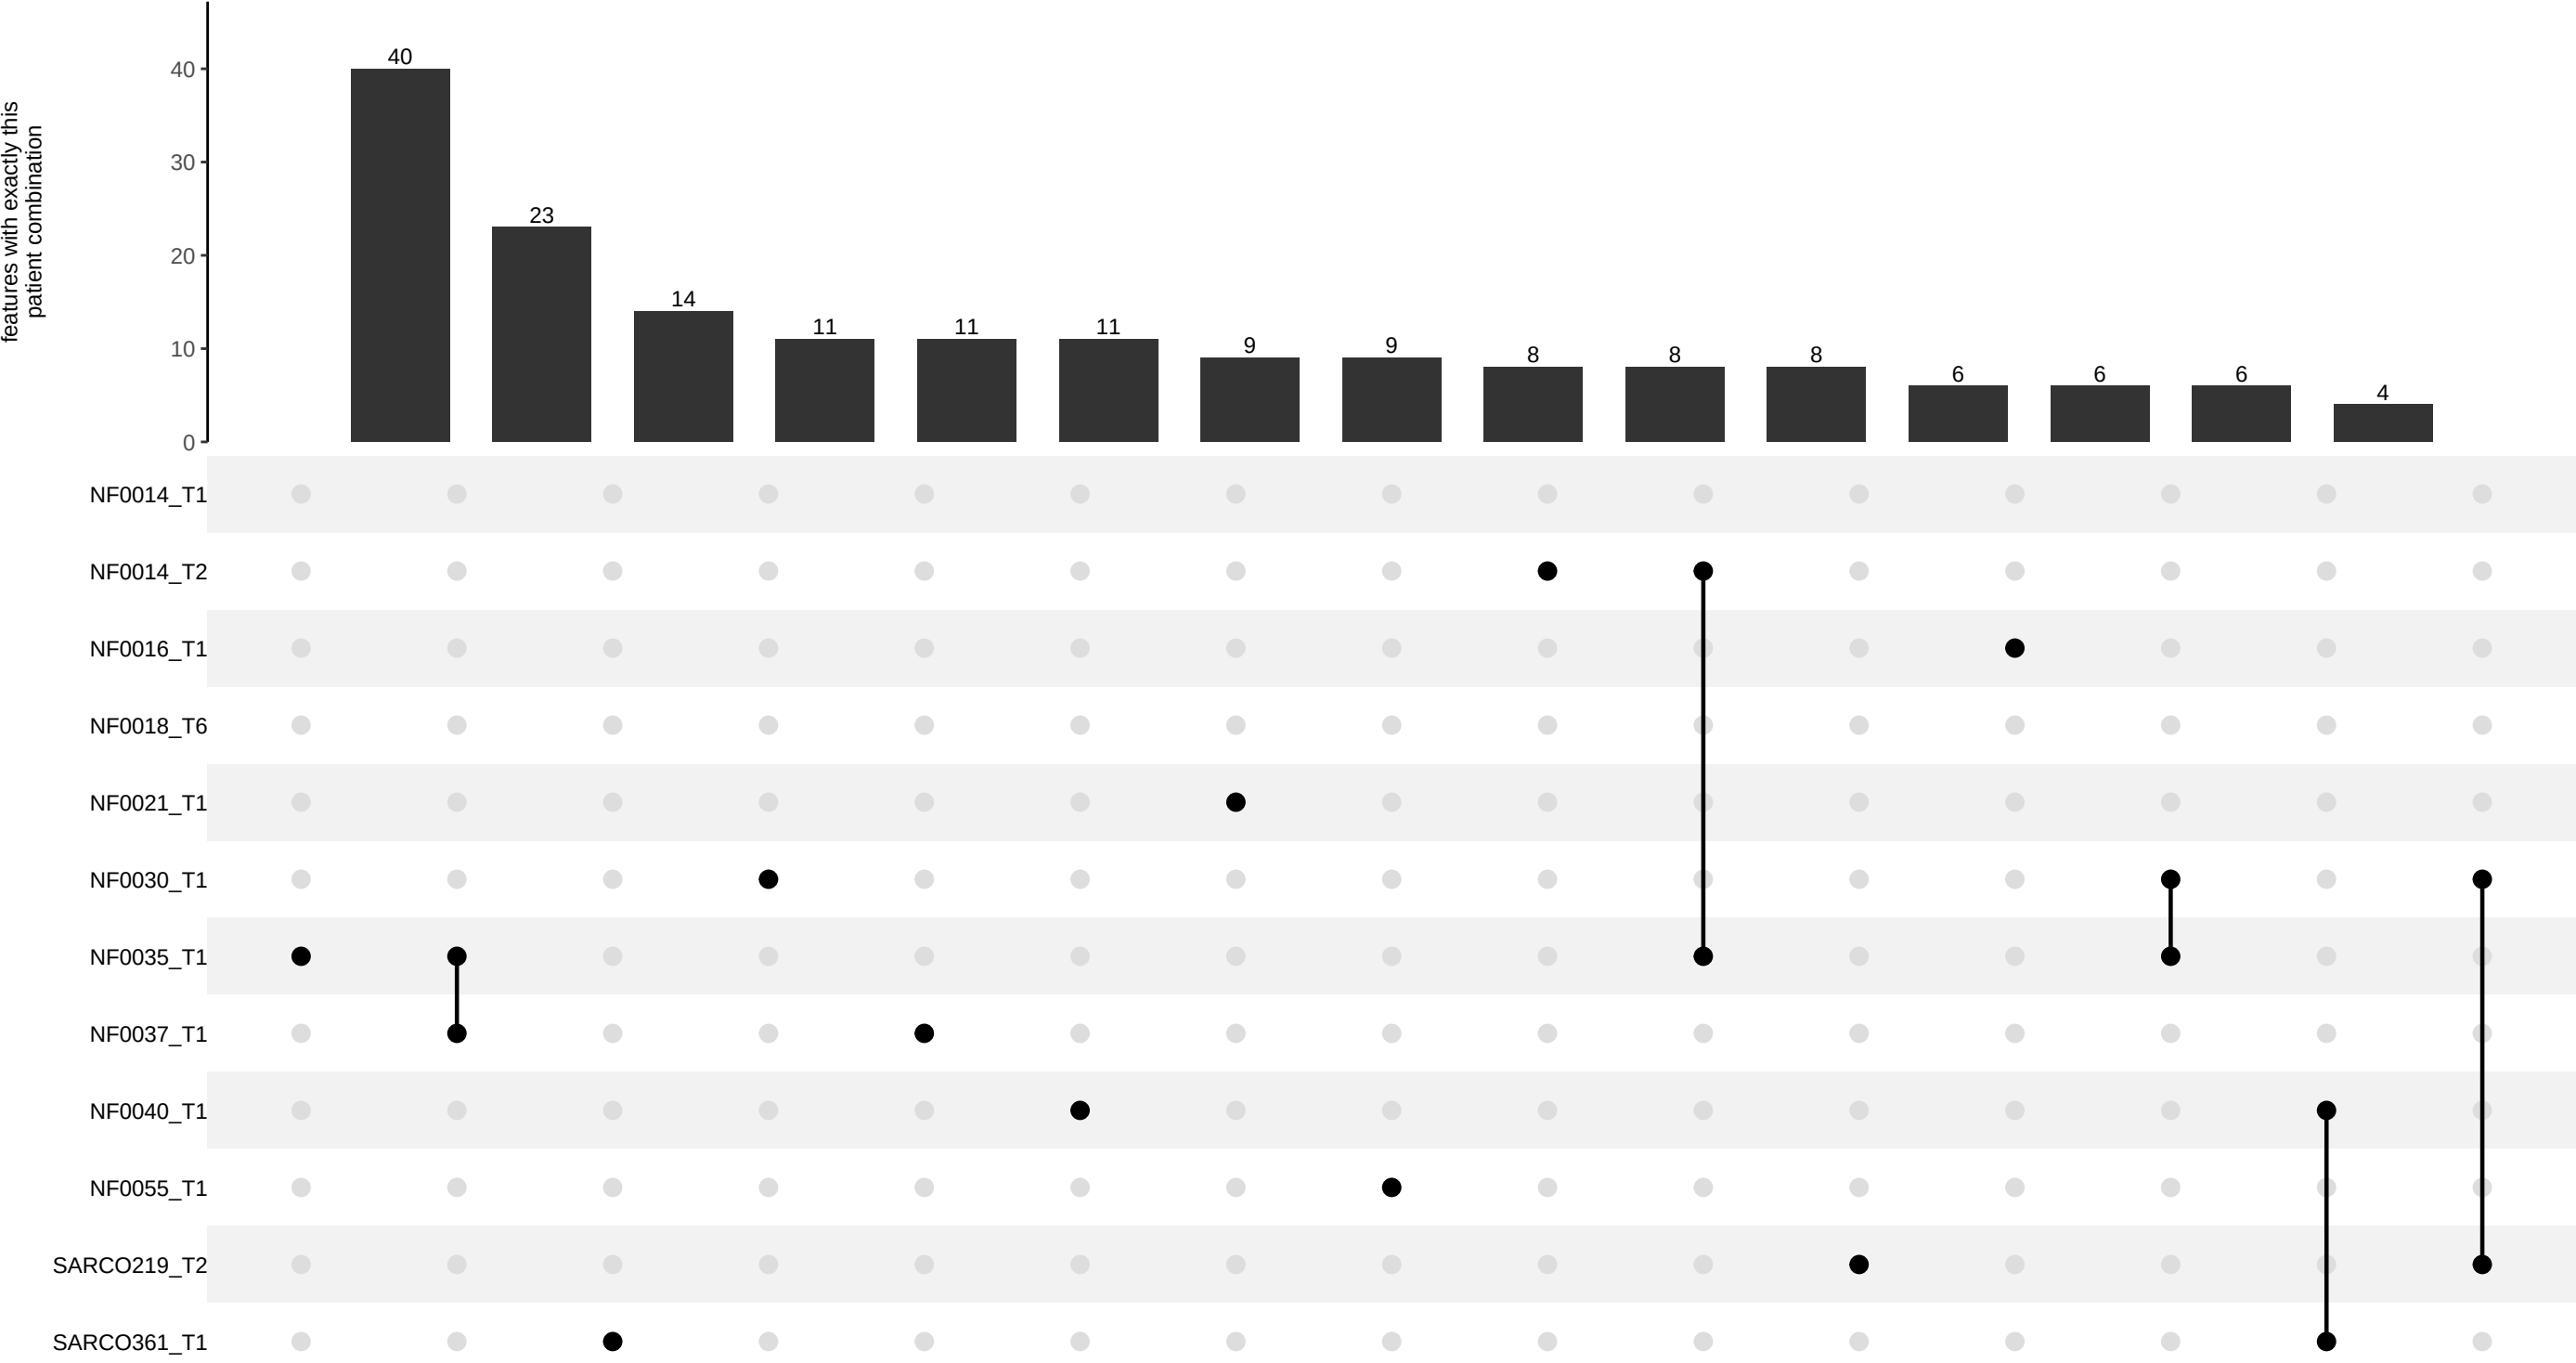

treatment | Trametinib_10uM

Features significant for exactly these variates, by the patients they occur in
(bars: number of features shared by exactly that patient combination)

treatment | Trametinib_1uM

Features significant for exactly these variates, by the patients they occur in
(bars: number of features shared by exactly that patient combination)

treatment | Vistusertib_1uM

Features significant for exactly these variates, by the patients they occur in
(bars: number of features shared by exactly that patient combination)
