

treatment + cell_per_organoid_count | Binimetinib_10uM

Features significant for exactly these variates, by the patients they occur in
(bars: number of features shared by exactly that patient combination)

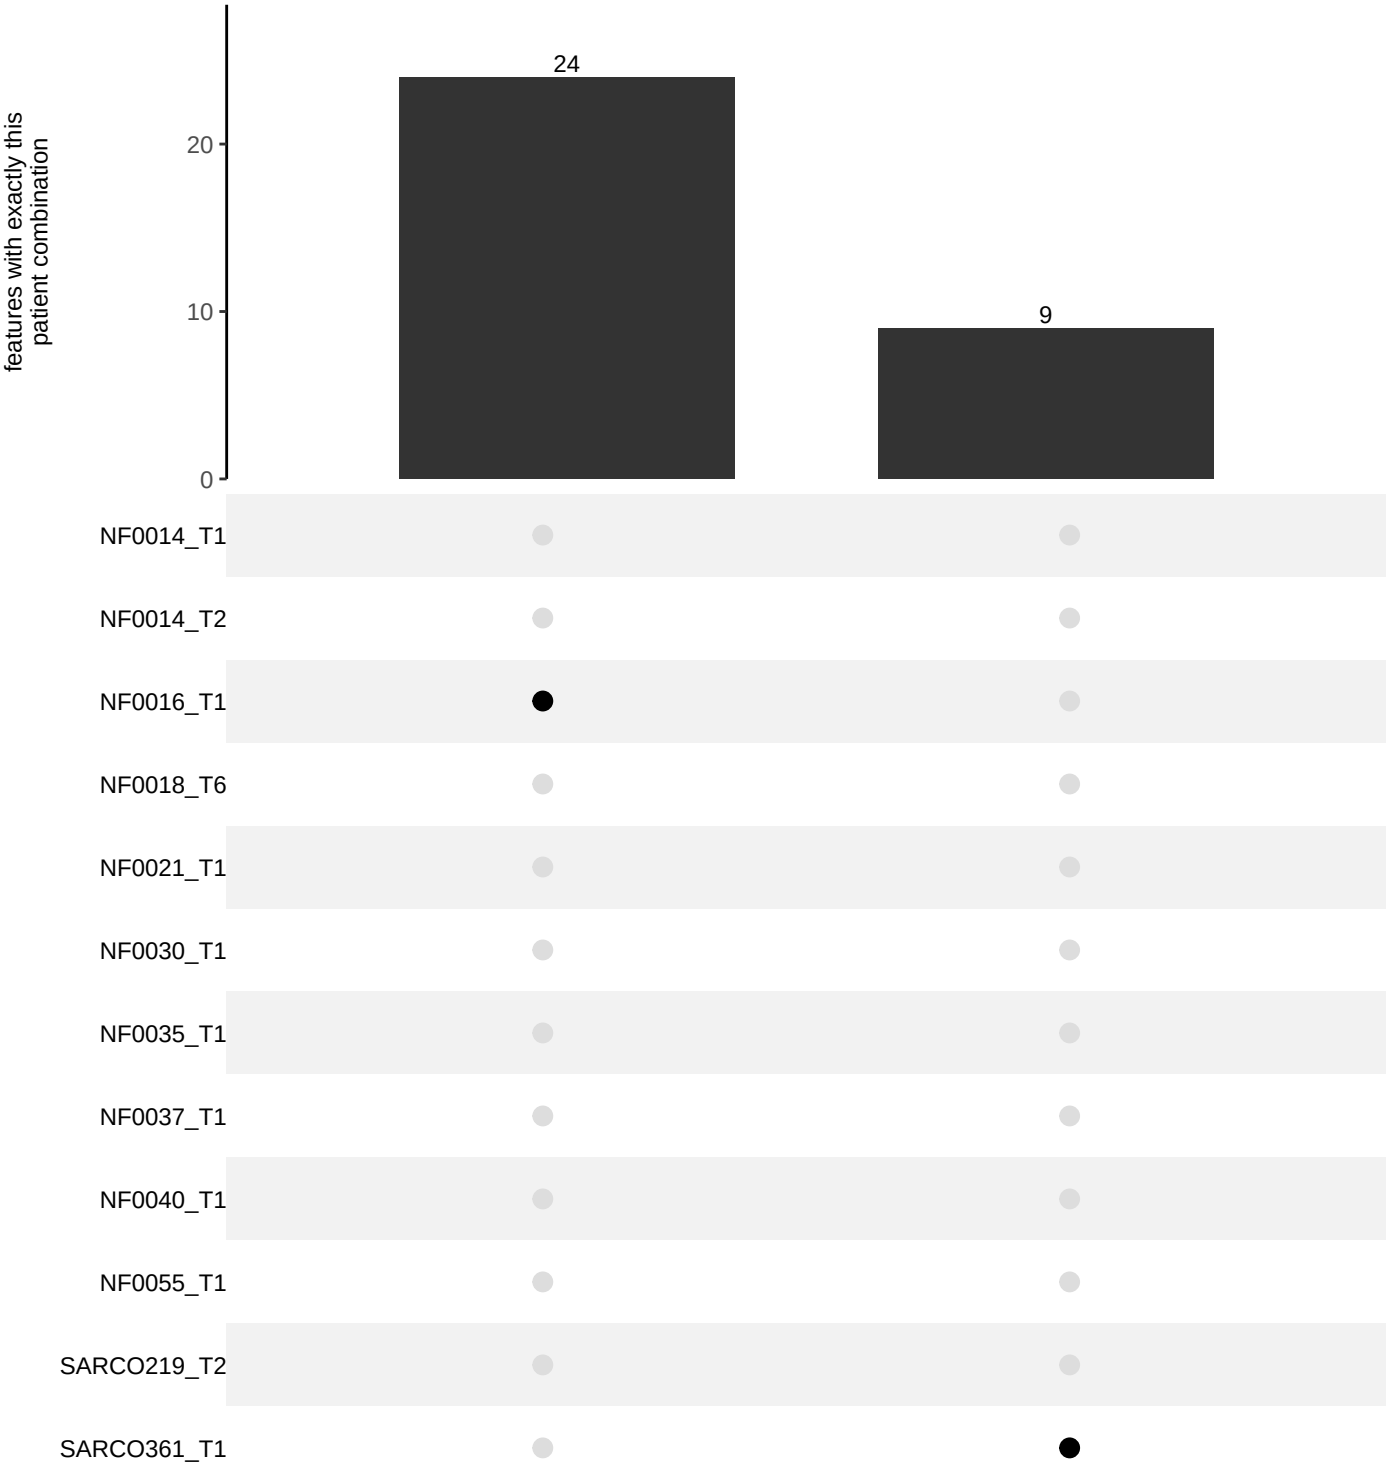

treatment + cell_per_organoid_count | Copanlisib_1uM

Features significant for exactly these variates, by the patients they occur in
(bars: number of features shared by exactly that patient combination)

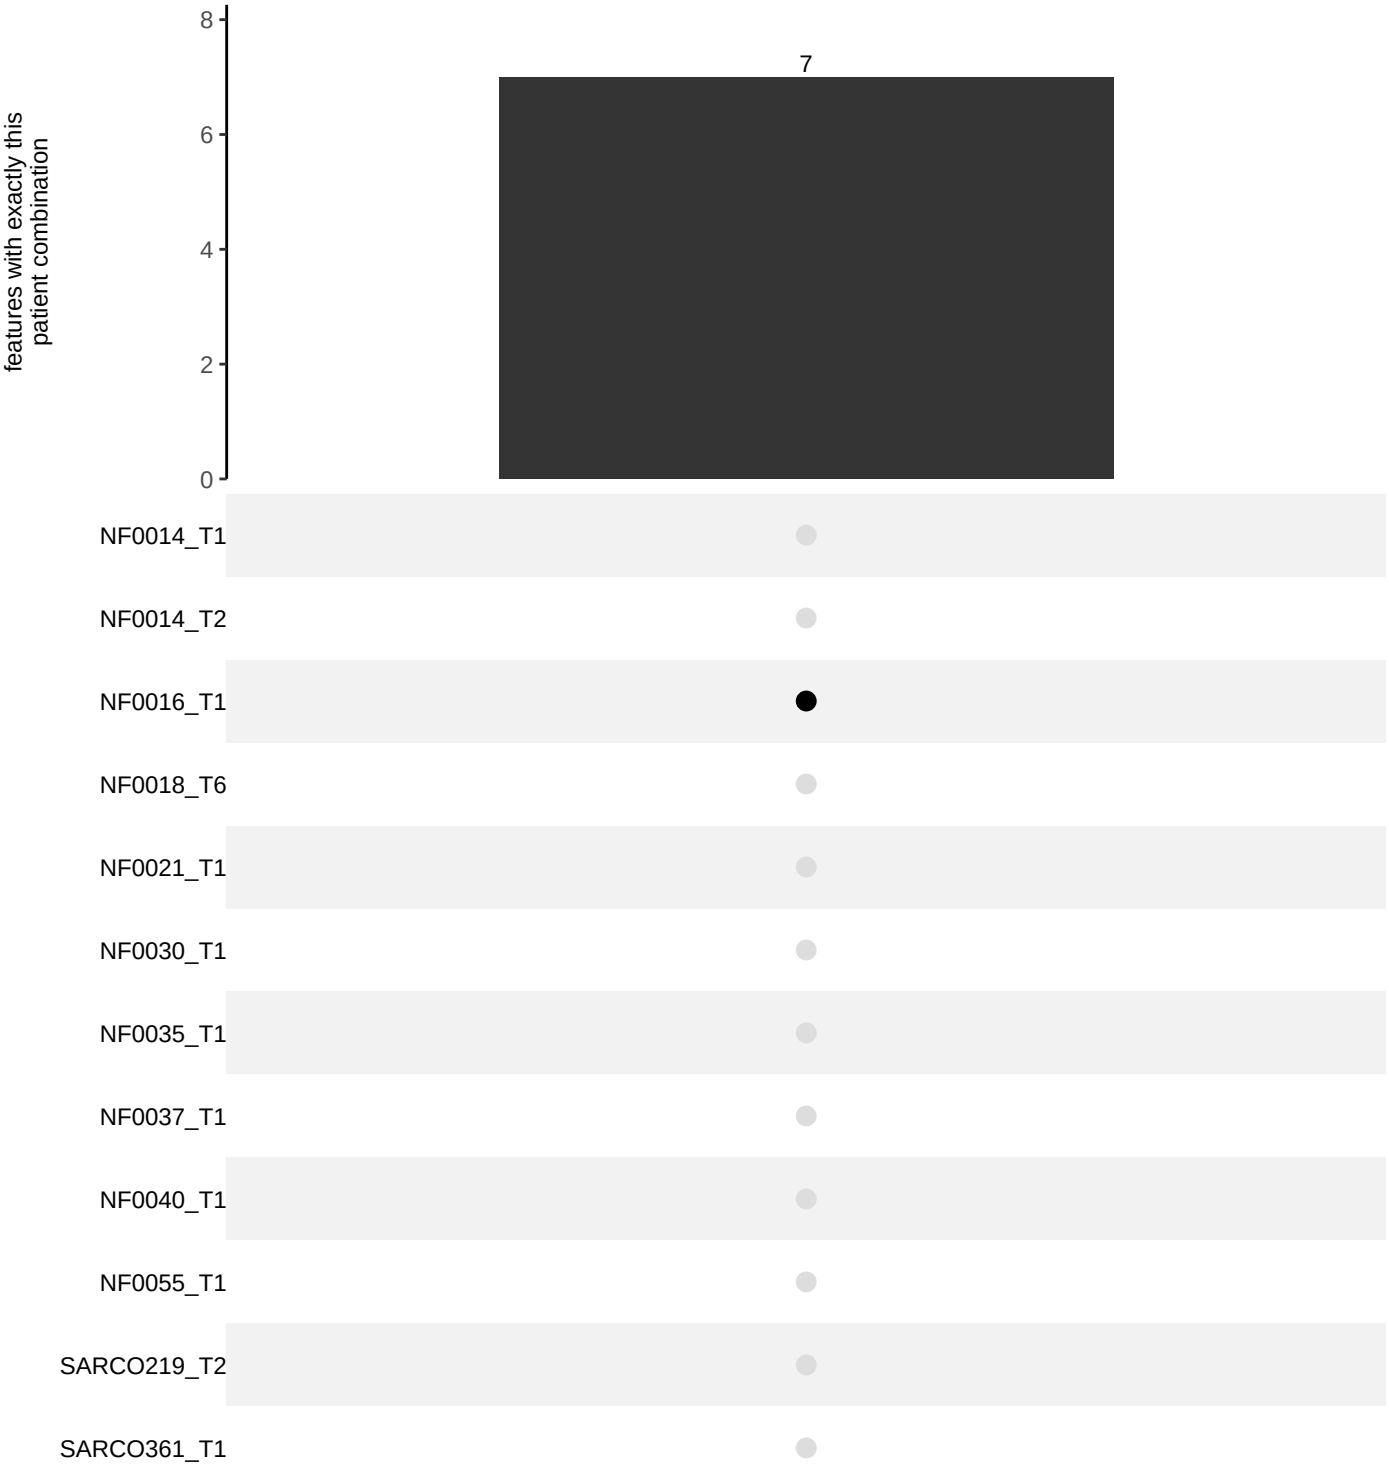

treatment + cell_per_organoid_count | Digoxin_1uM

Features significant for exactly these variates, by the patients they occur in
(bars: number of features shared by exactly that patient combination)

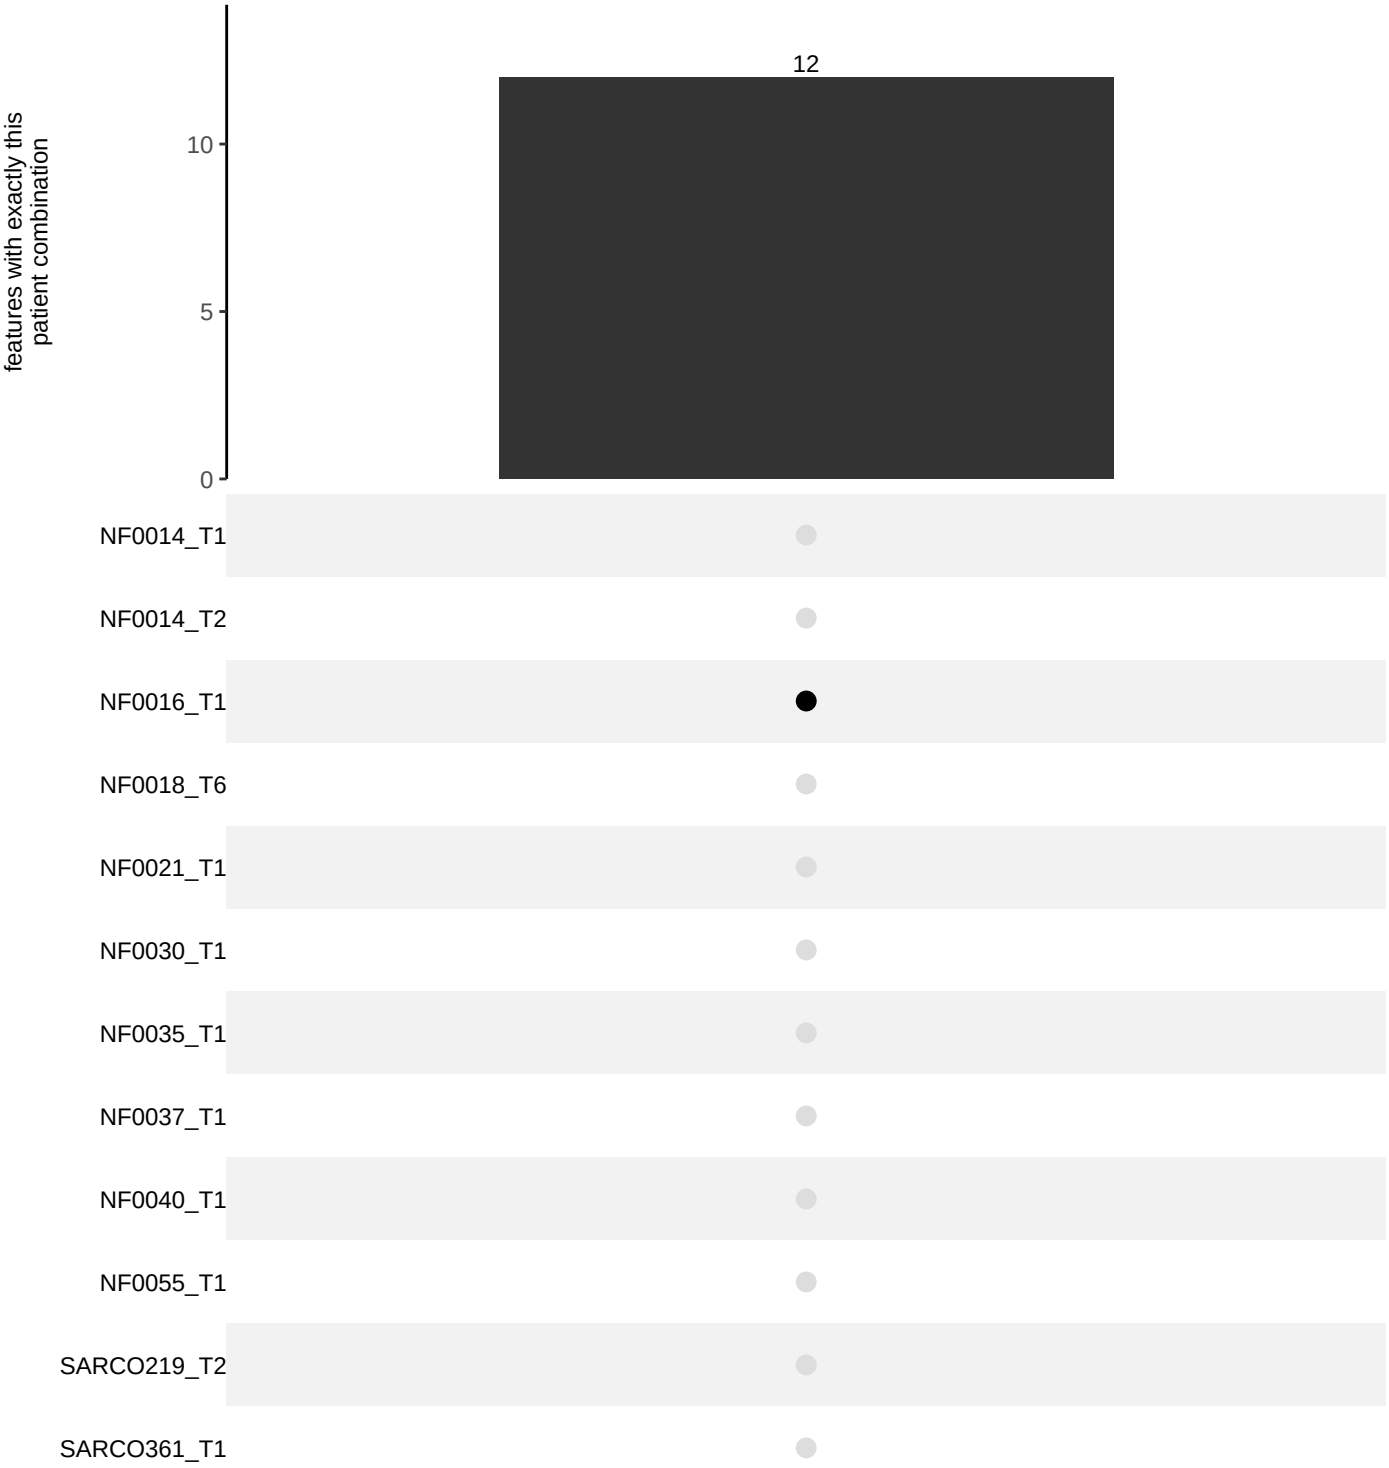

treatment + cell_per_organoid_count | Everolimus_1uM

Features significant for exactly these variates, by the patients they occur in
(bars: number of features shared by exactly that patient combination)

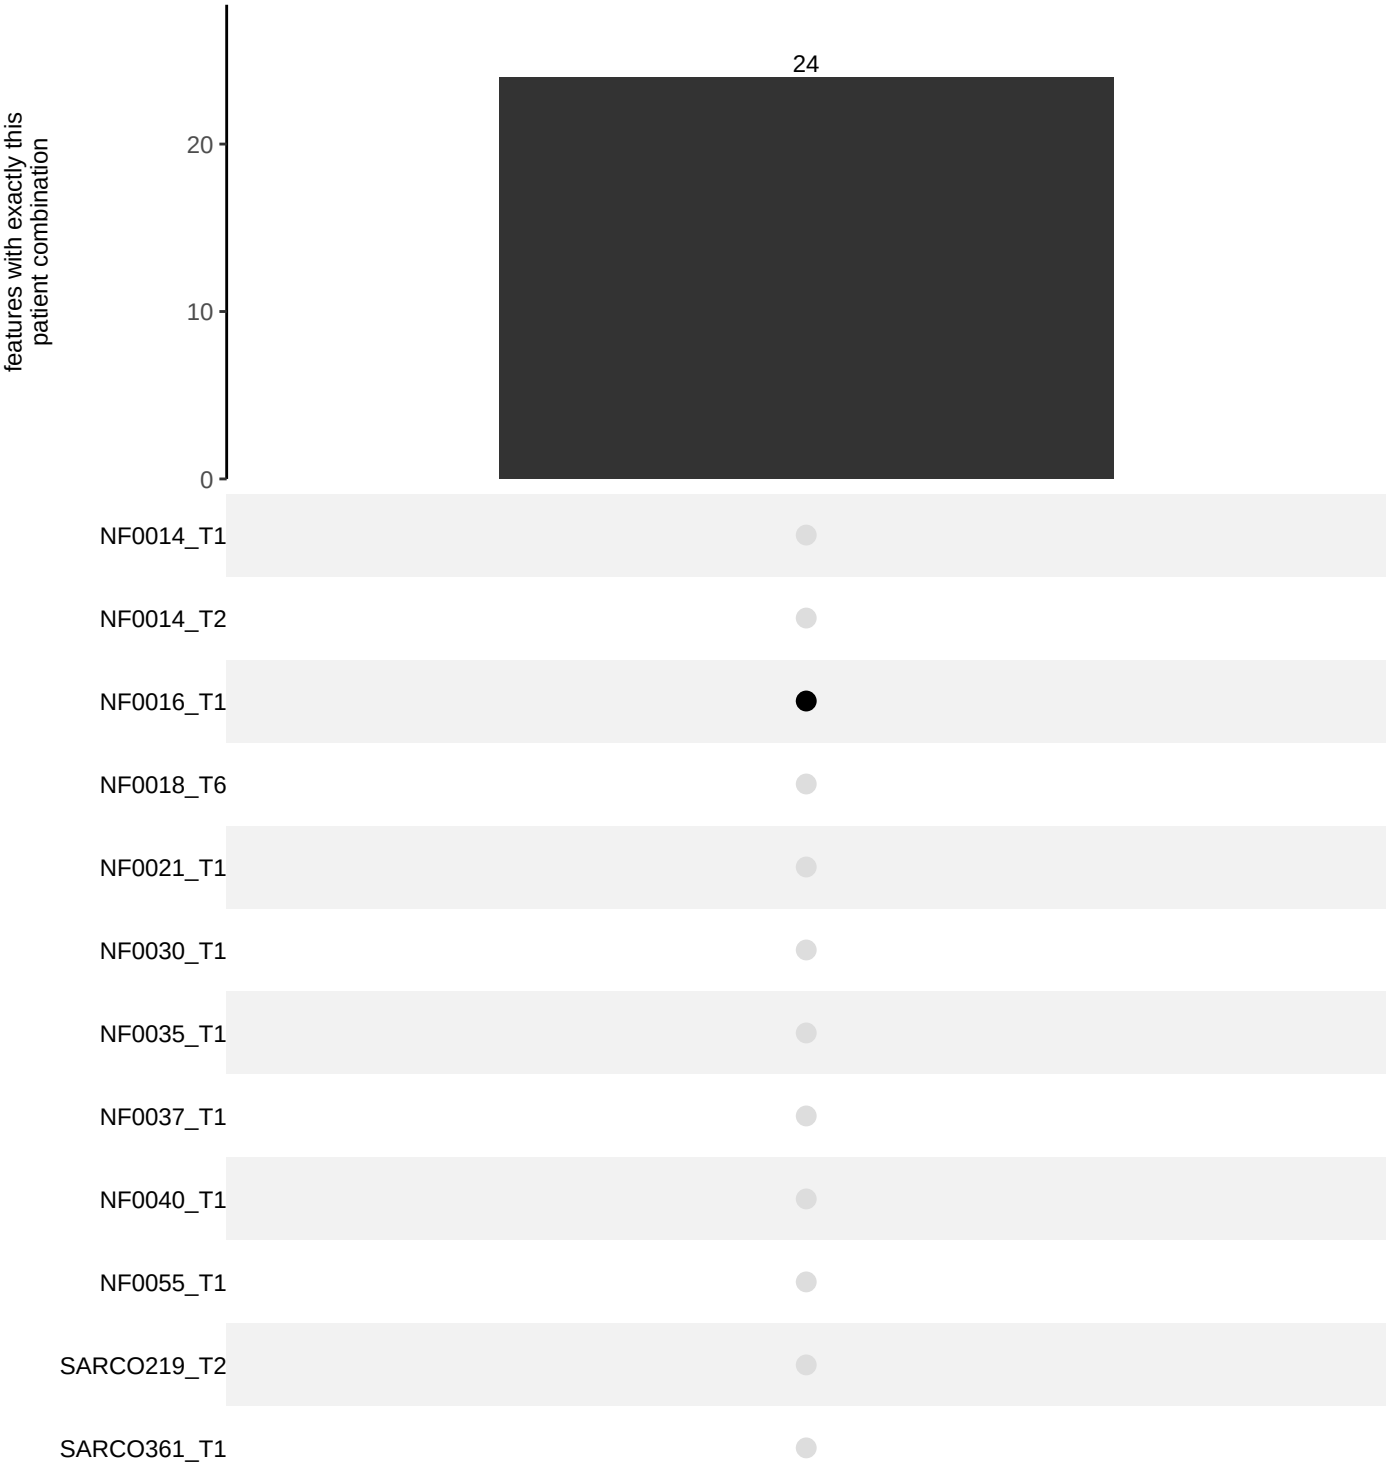

treatment + cell_per_organoid_count | Ketotifen_1uM

Features significant for exactly these variates, by the patients they occur in
(bars: number of features shared by exactly that patient combination)

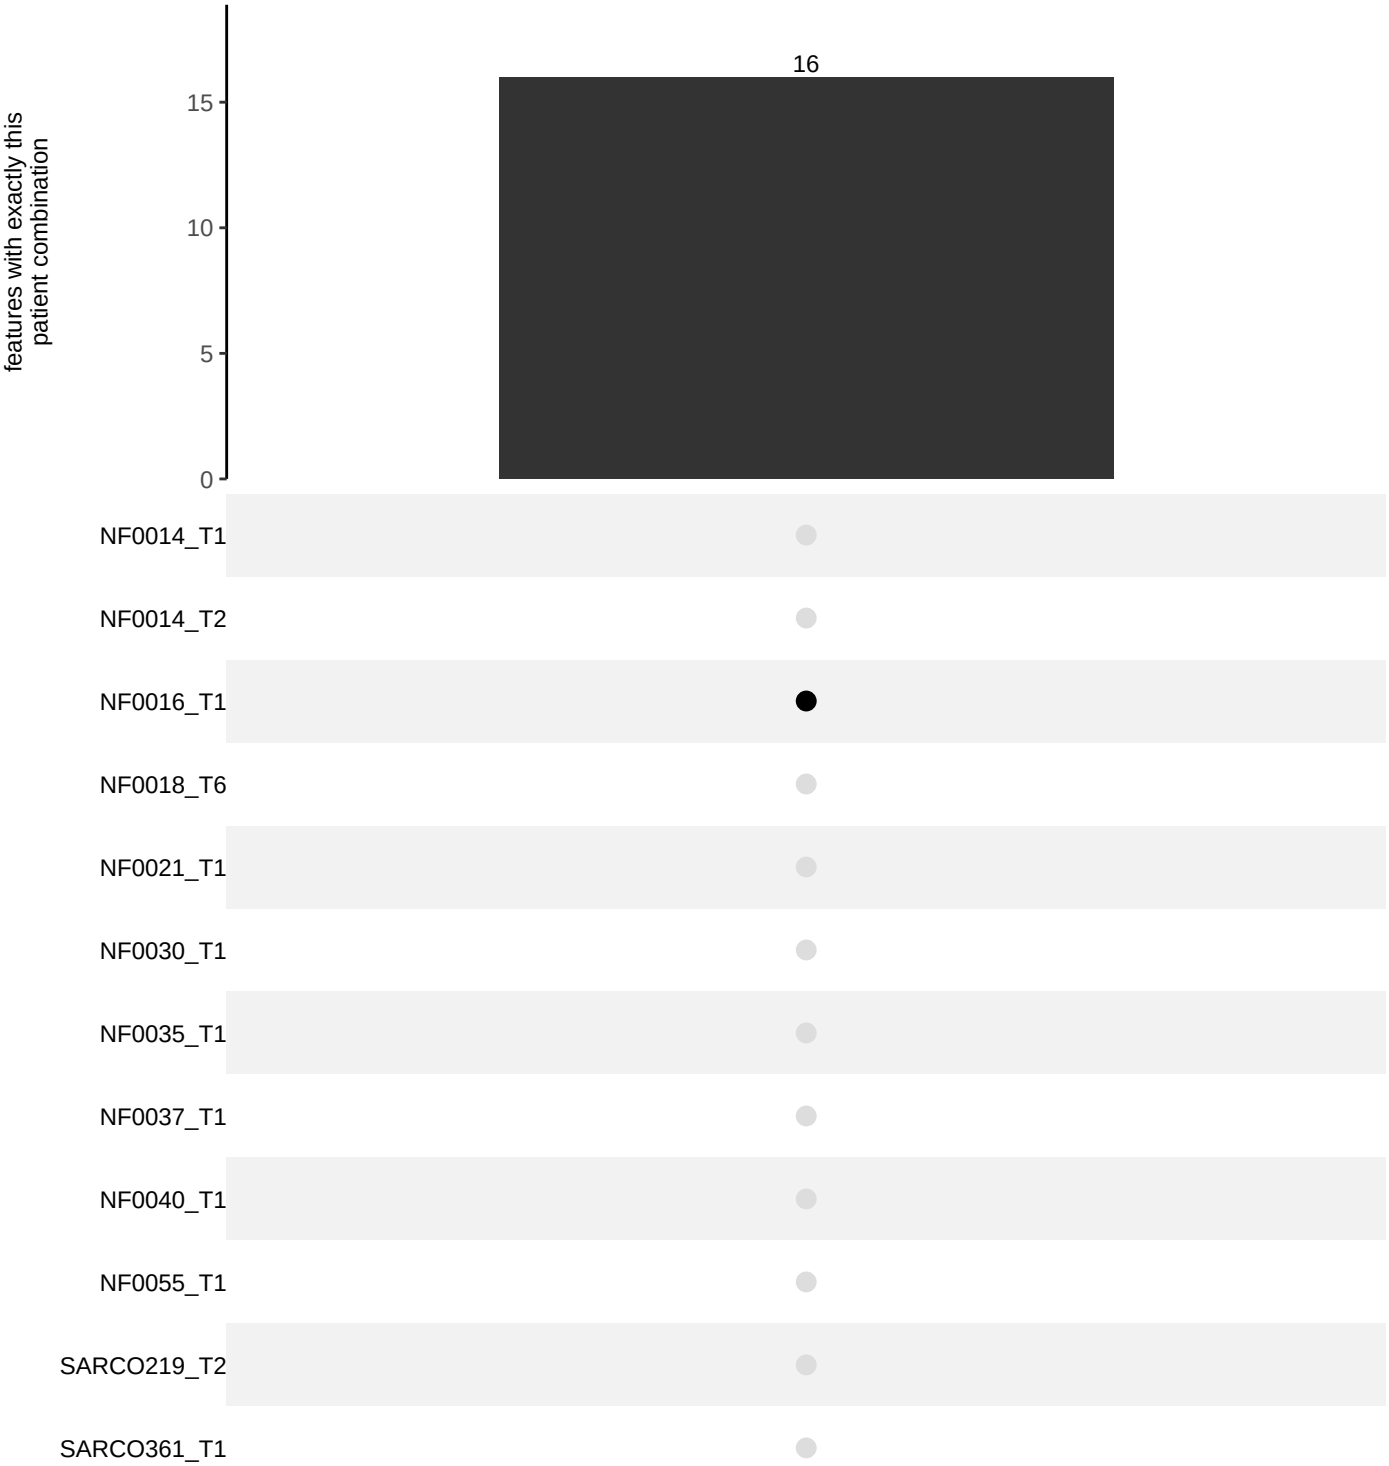

treatment + cell_per_organoid_count | Mirdametinib_10uM

Features significant for exactly these variates, by the patients they occur in
(bars: number of features shared by exactly that patient combination)

treatment + cell_per_organoid_count | Selumetinib_10uM

Features significant for exactly these variates, by the patients they occur in
(bars: number of features shared by exactly that patient combination)

treatment + cell_per_organoid_count | Trametinib_10uM

Features significant for exactly these variates, by the patients they occur in
(bars: number of features shared by exactly that patient combination)
