

3D: organoid volume vs. cells per organoid, by treatment -- patient NF0014_T1

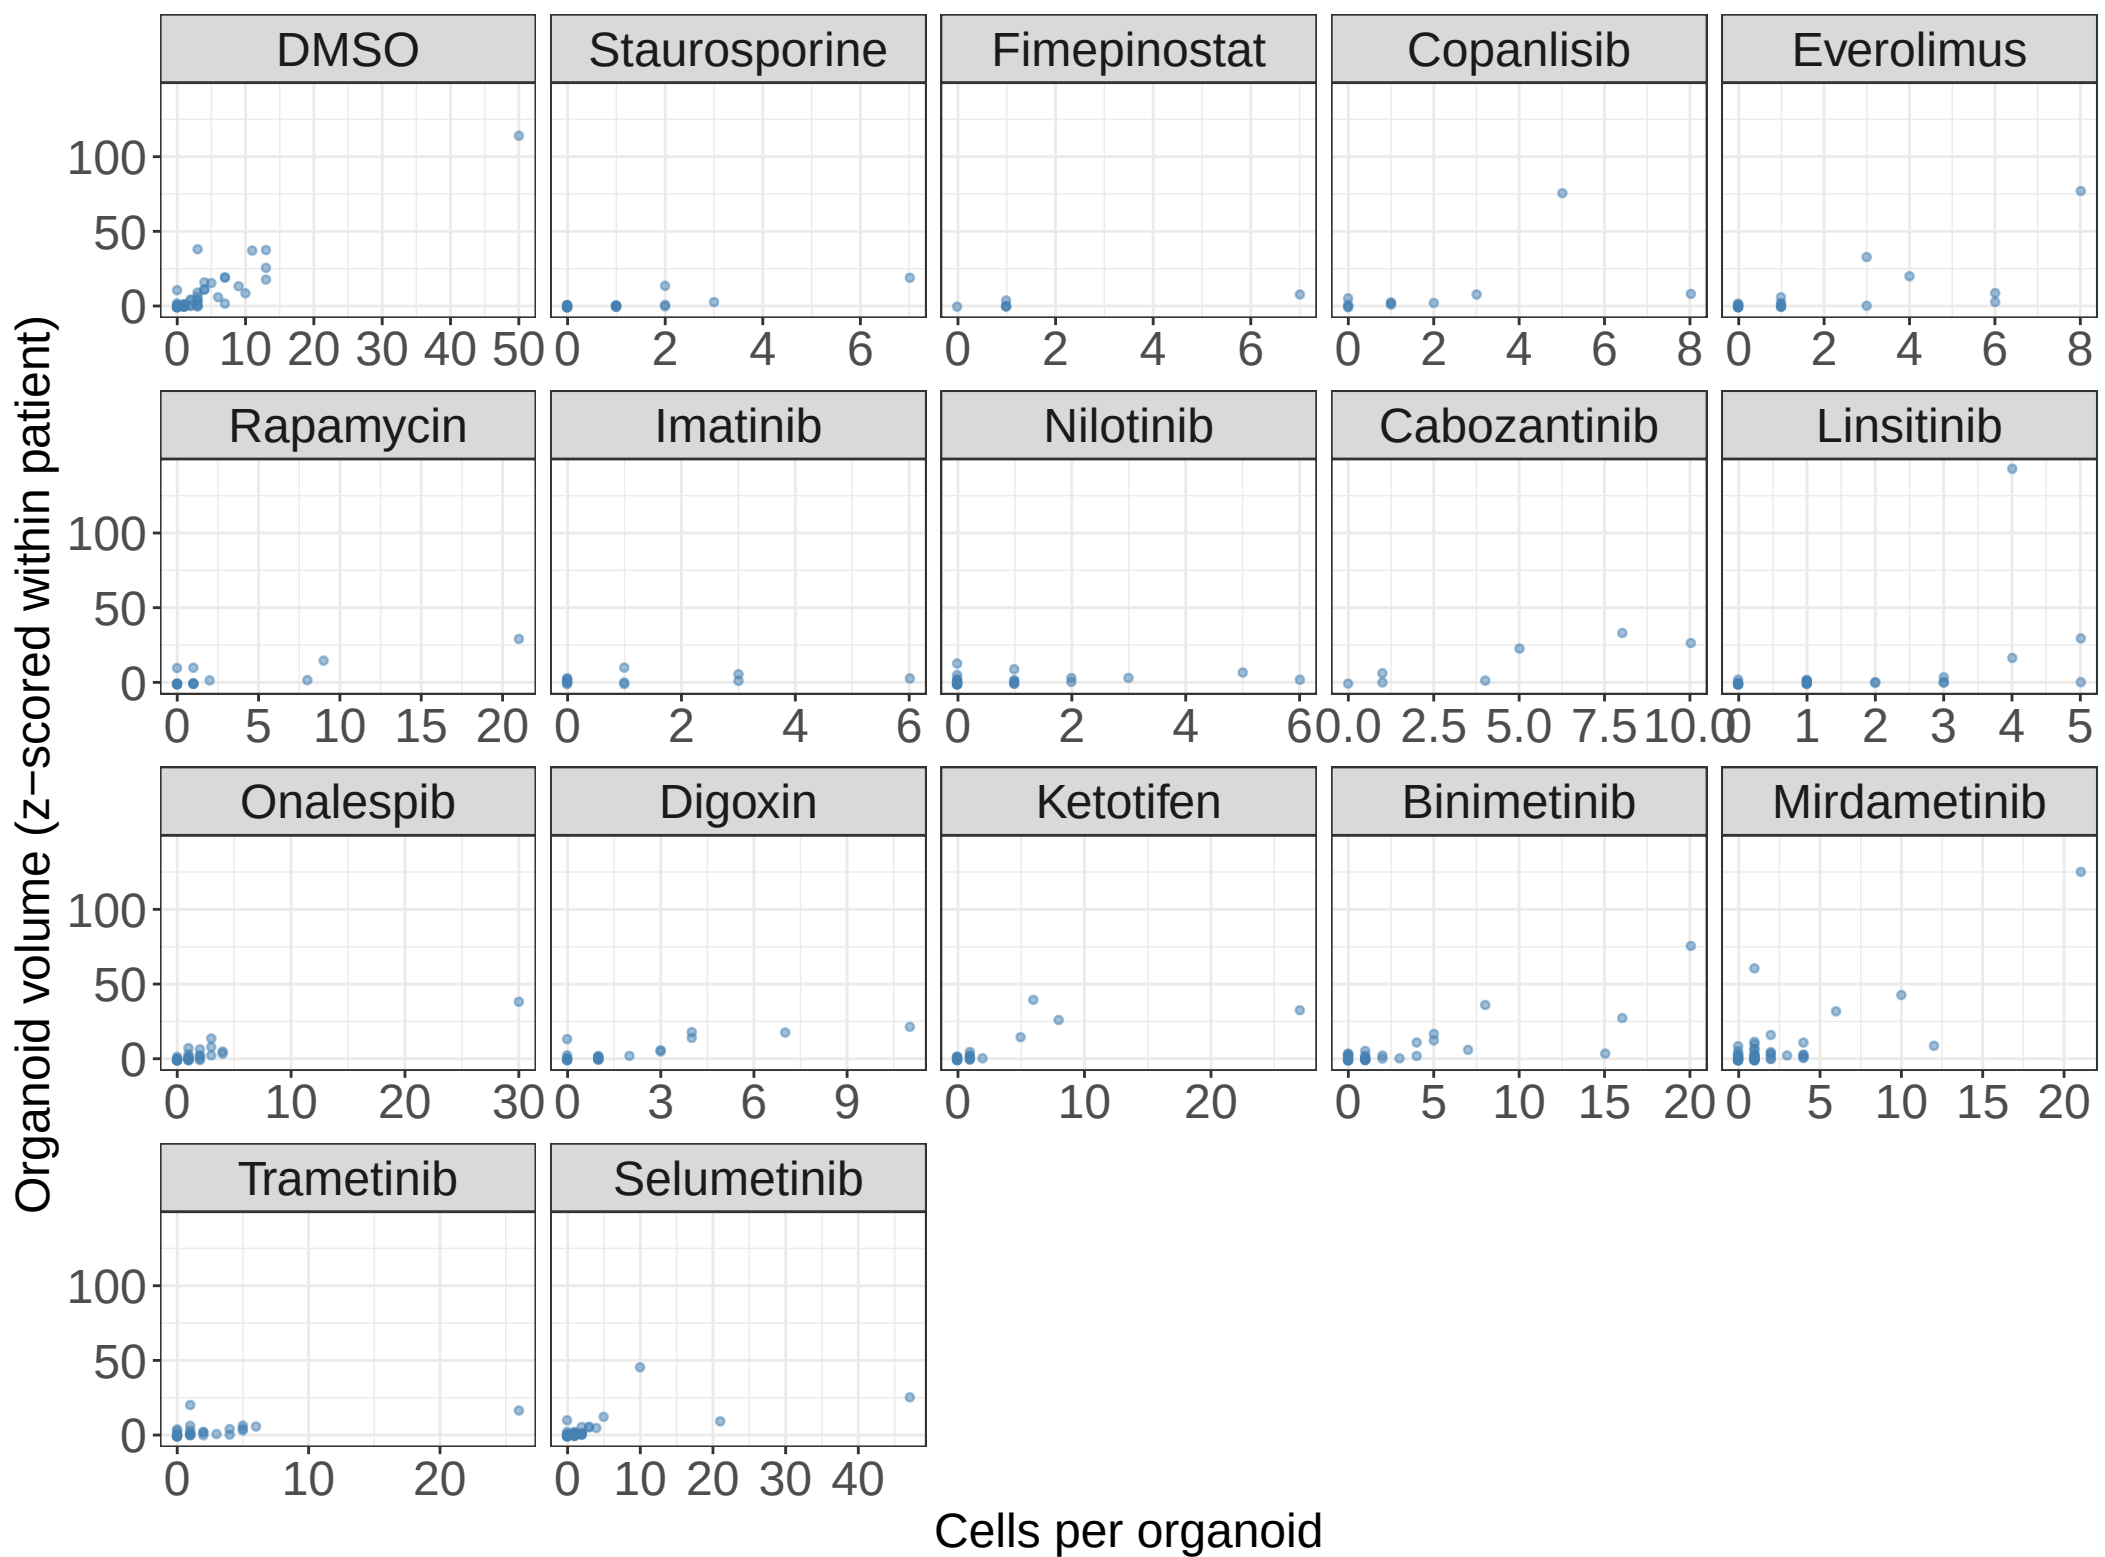

3D: organoid volume vs. cells per organoid, by treatment -- patient NF0014_T2

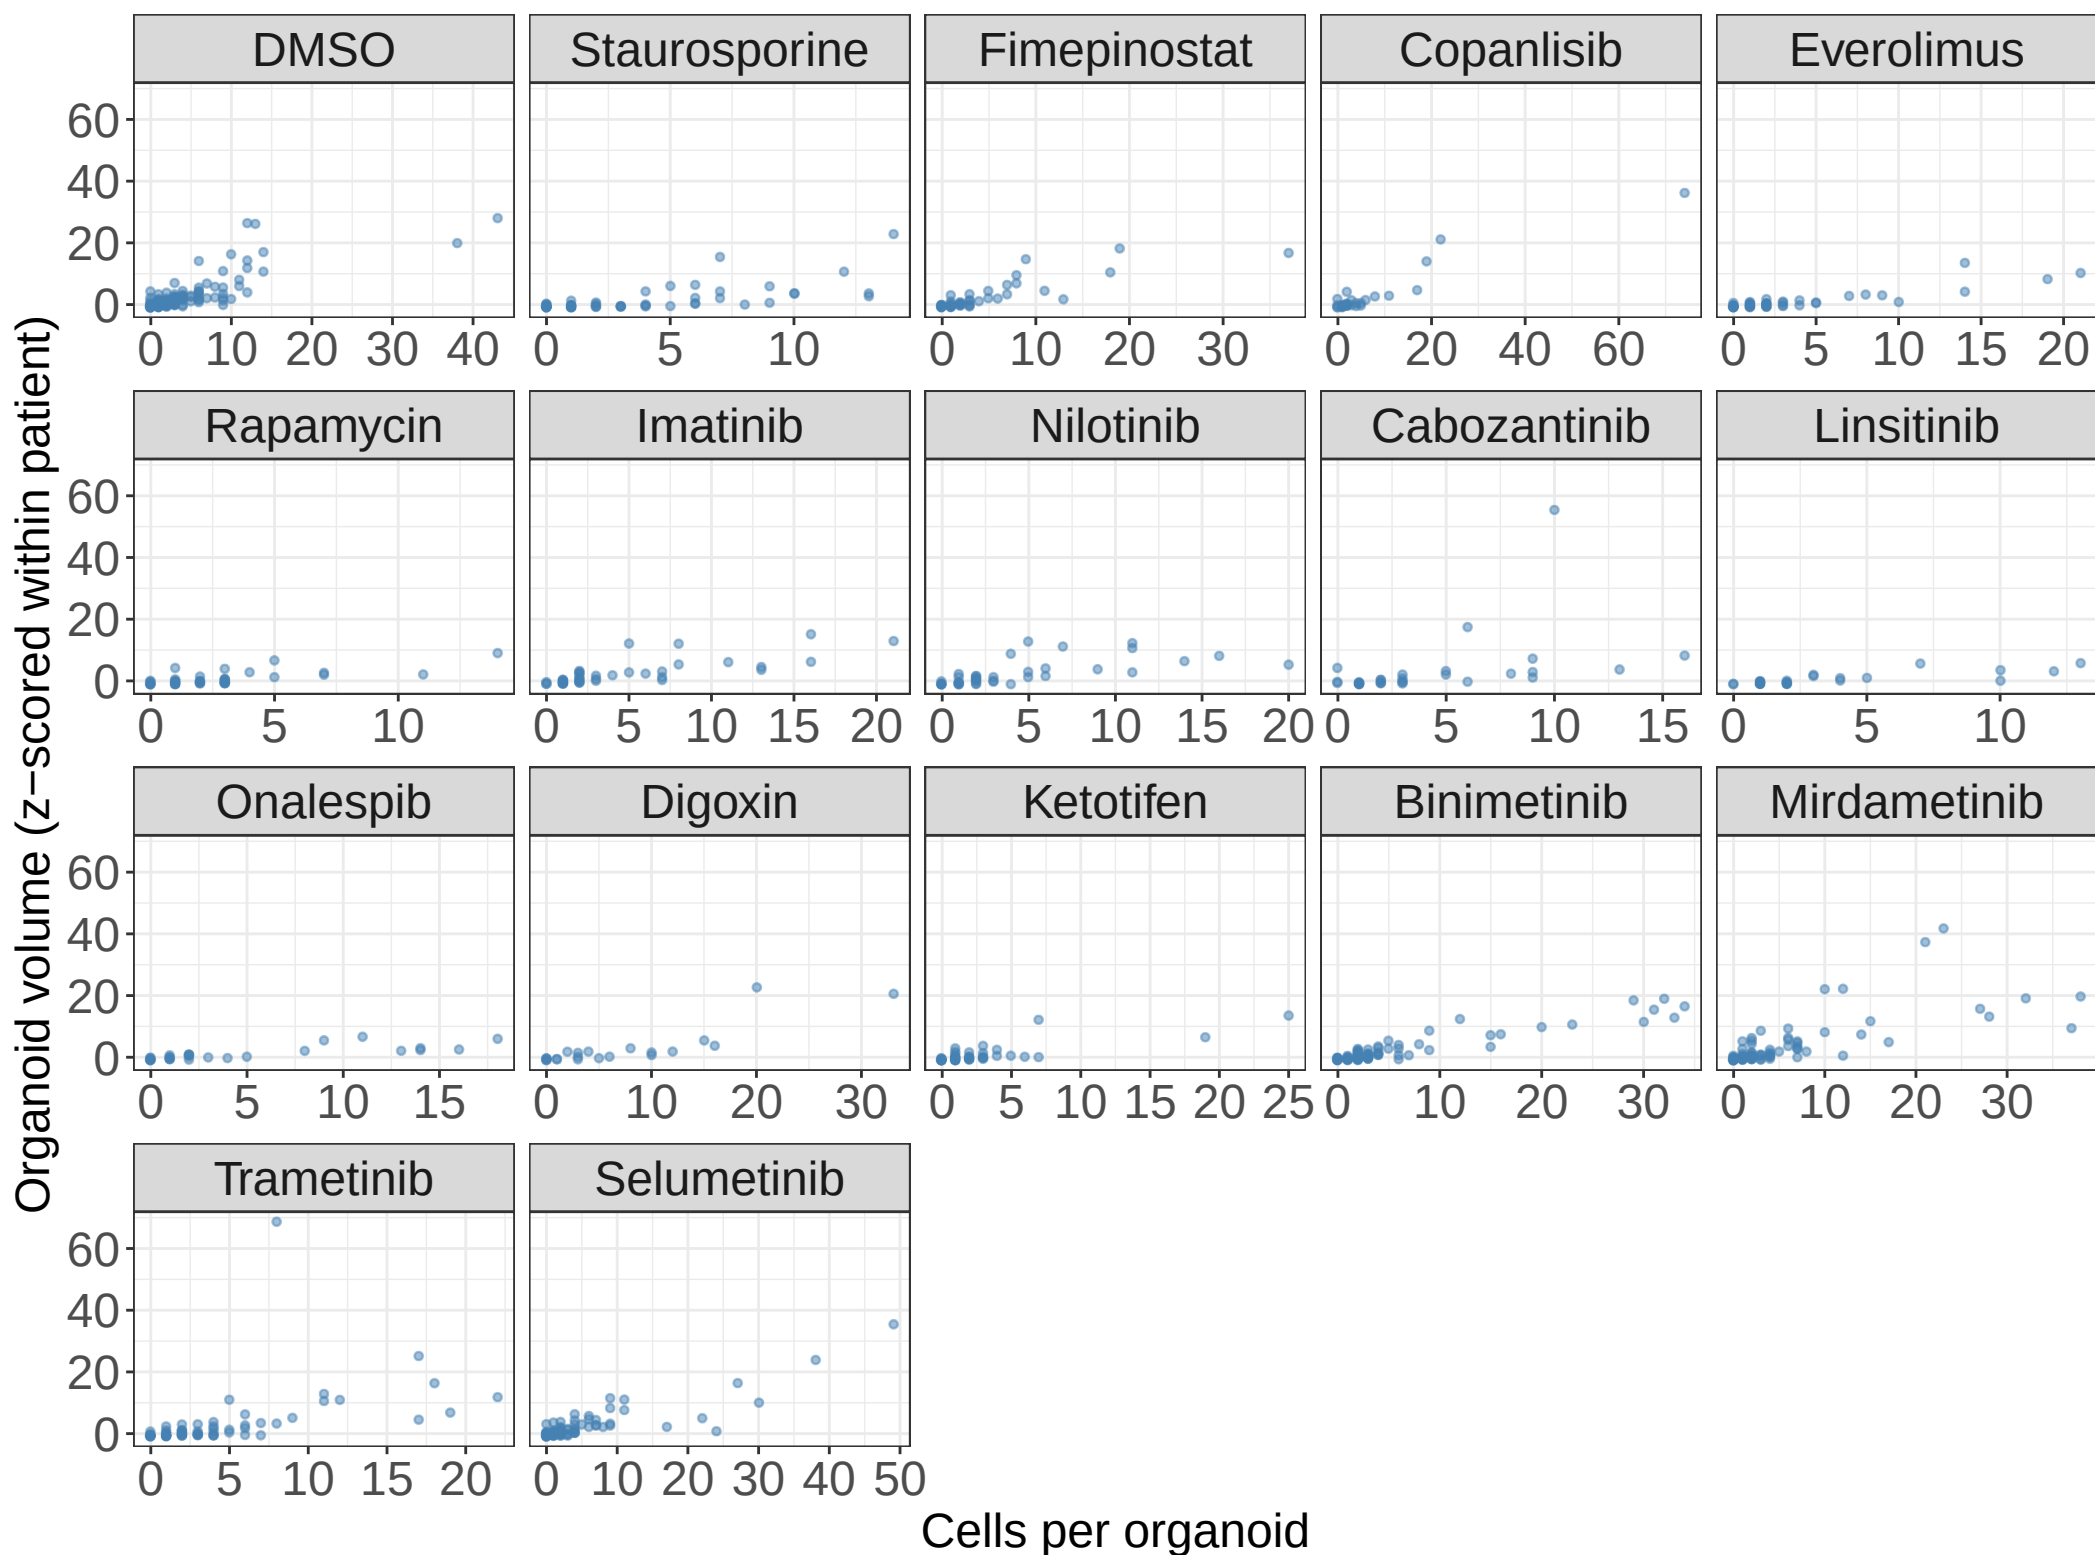

3D: organoid volume vs. cells per organoid, by treatment -- patient NF0016_T1

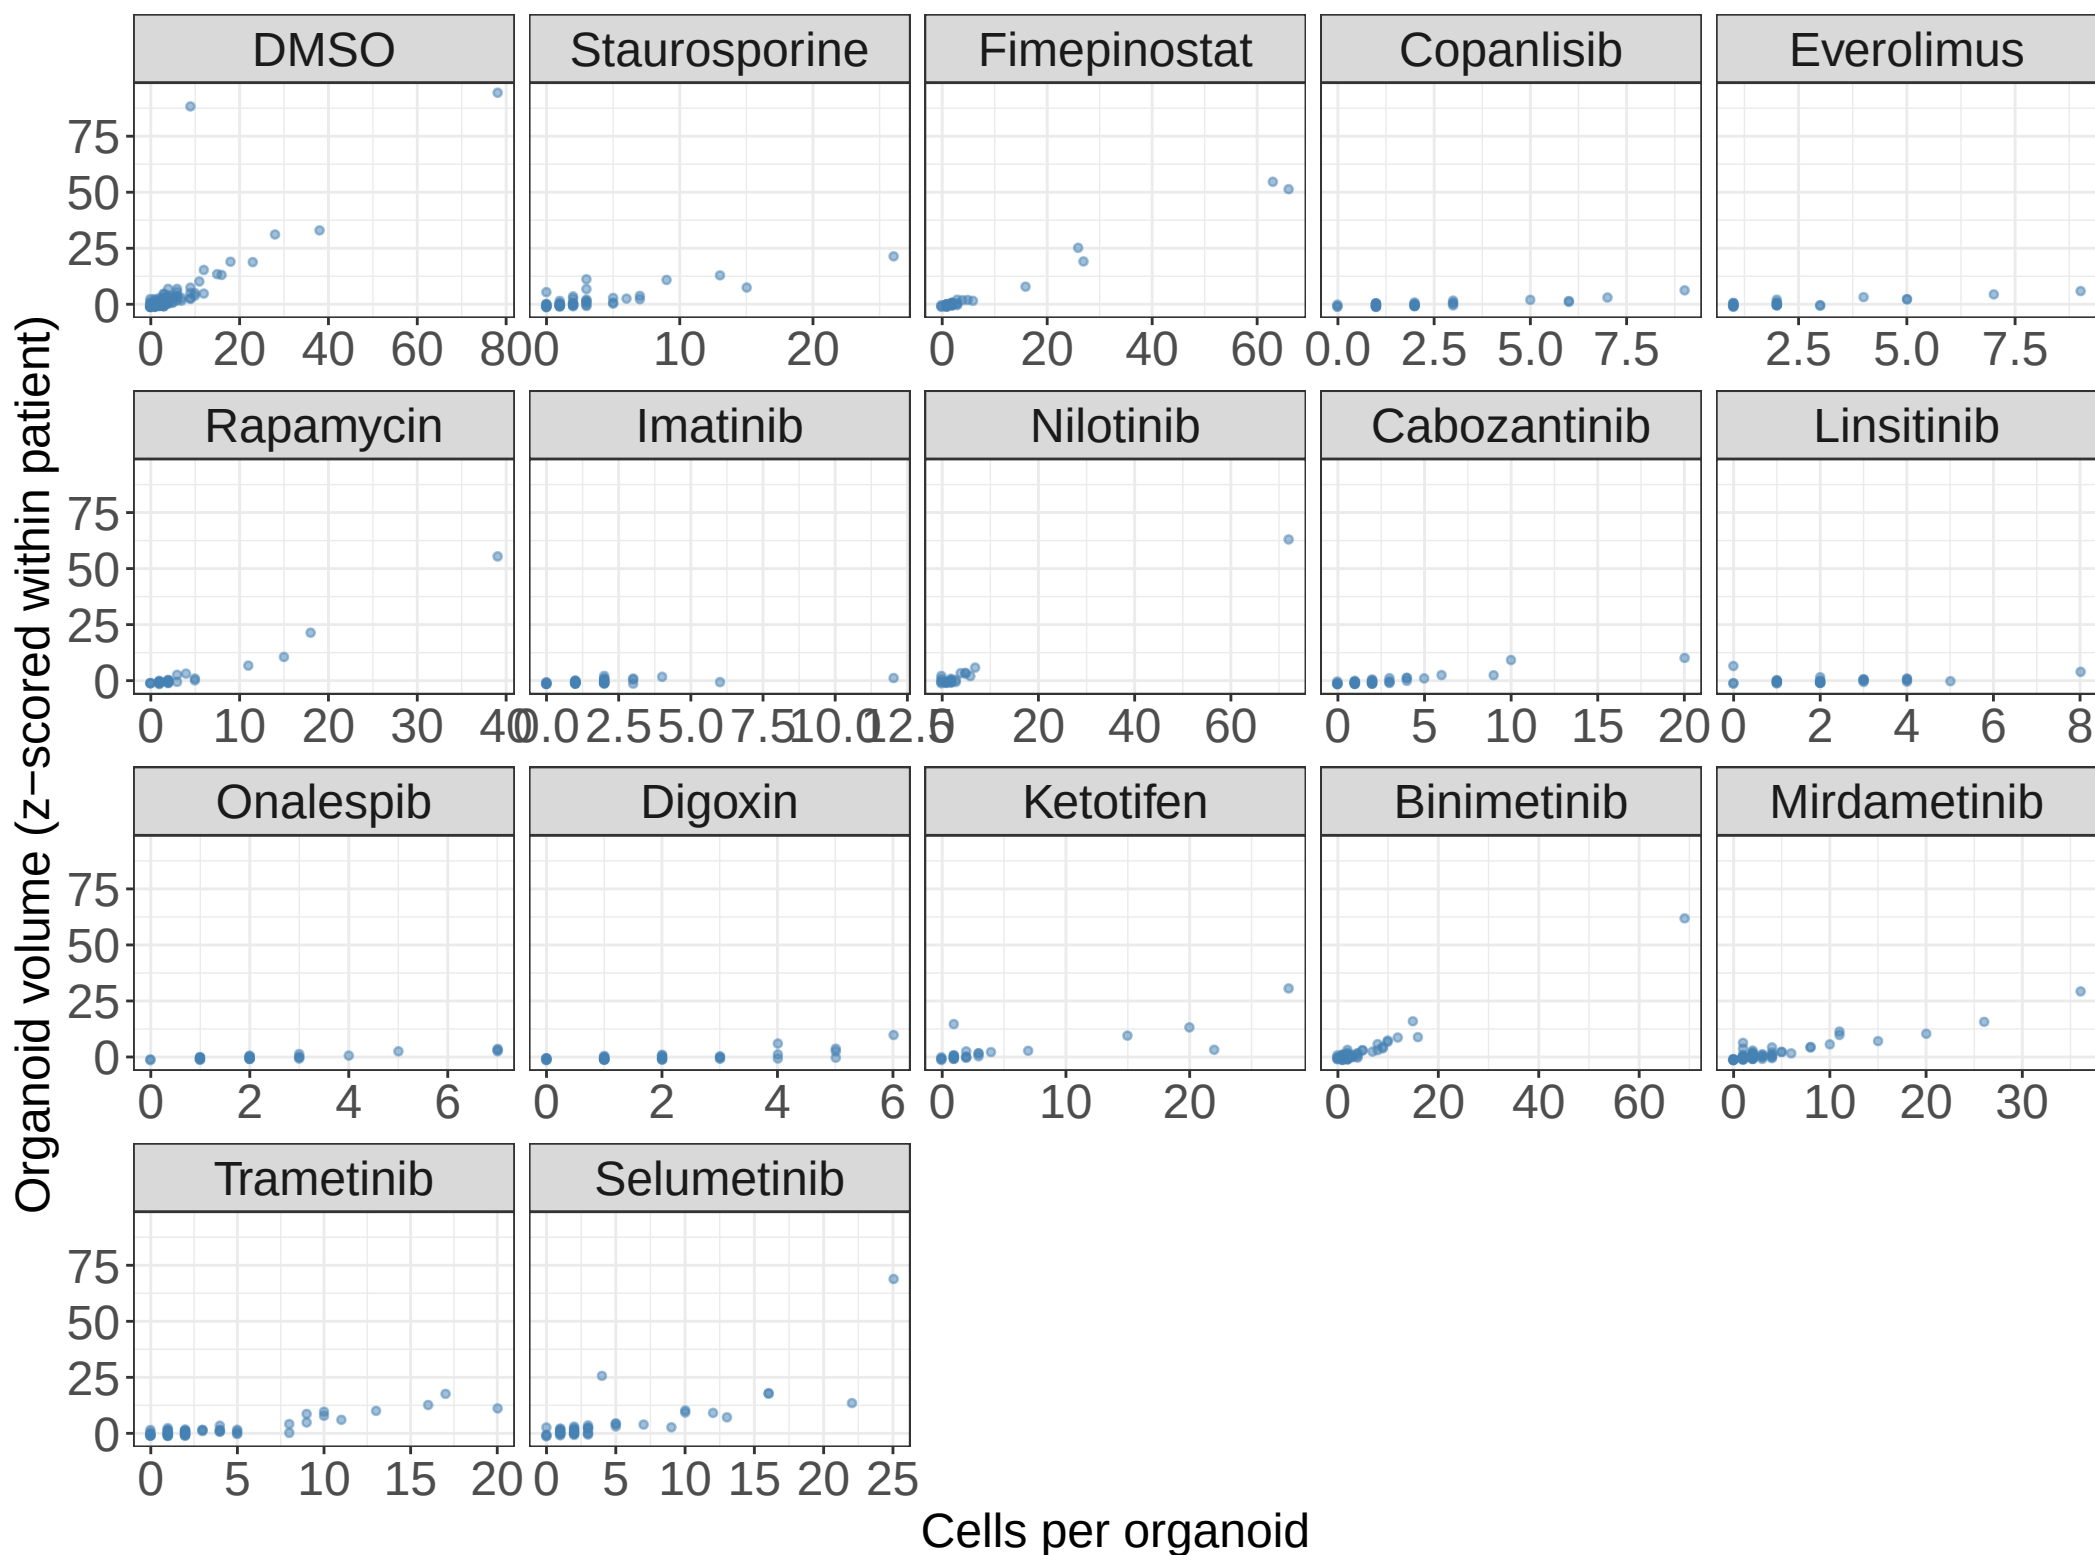

3D: organoid volume vs. cells per organoid, by treatment -- patient NF0018_T6

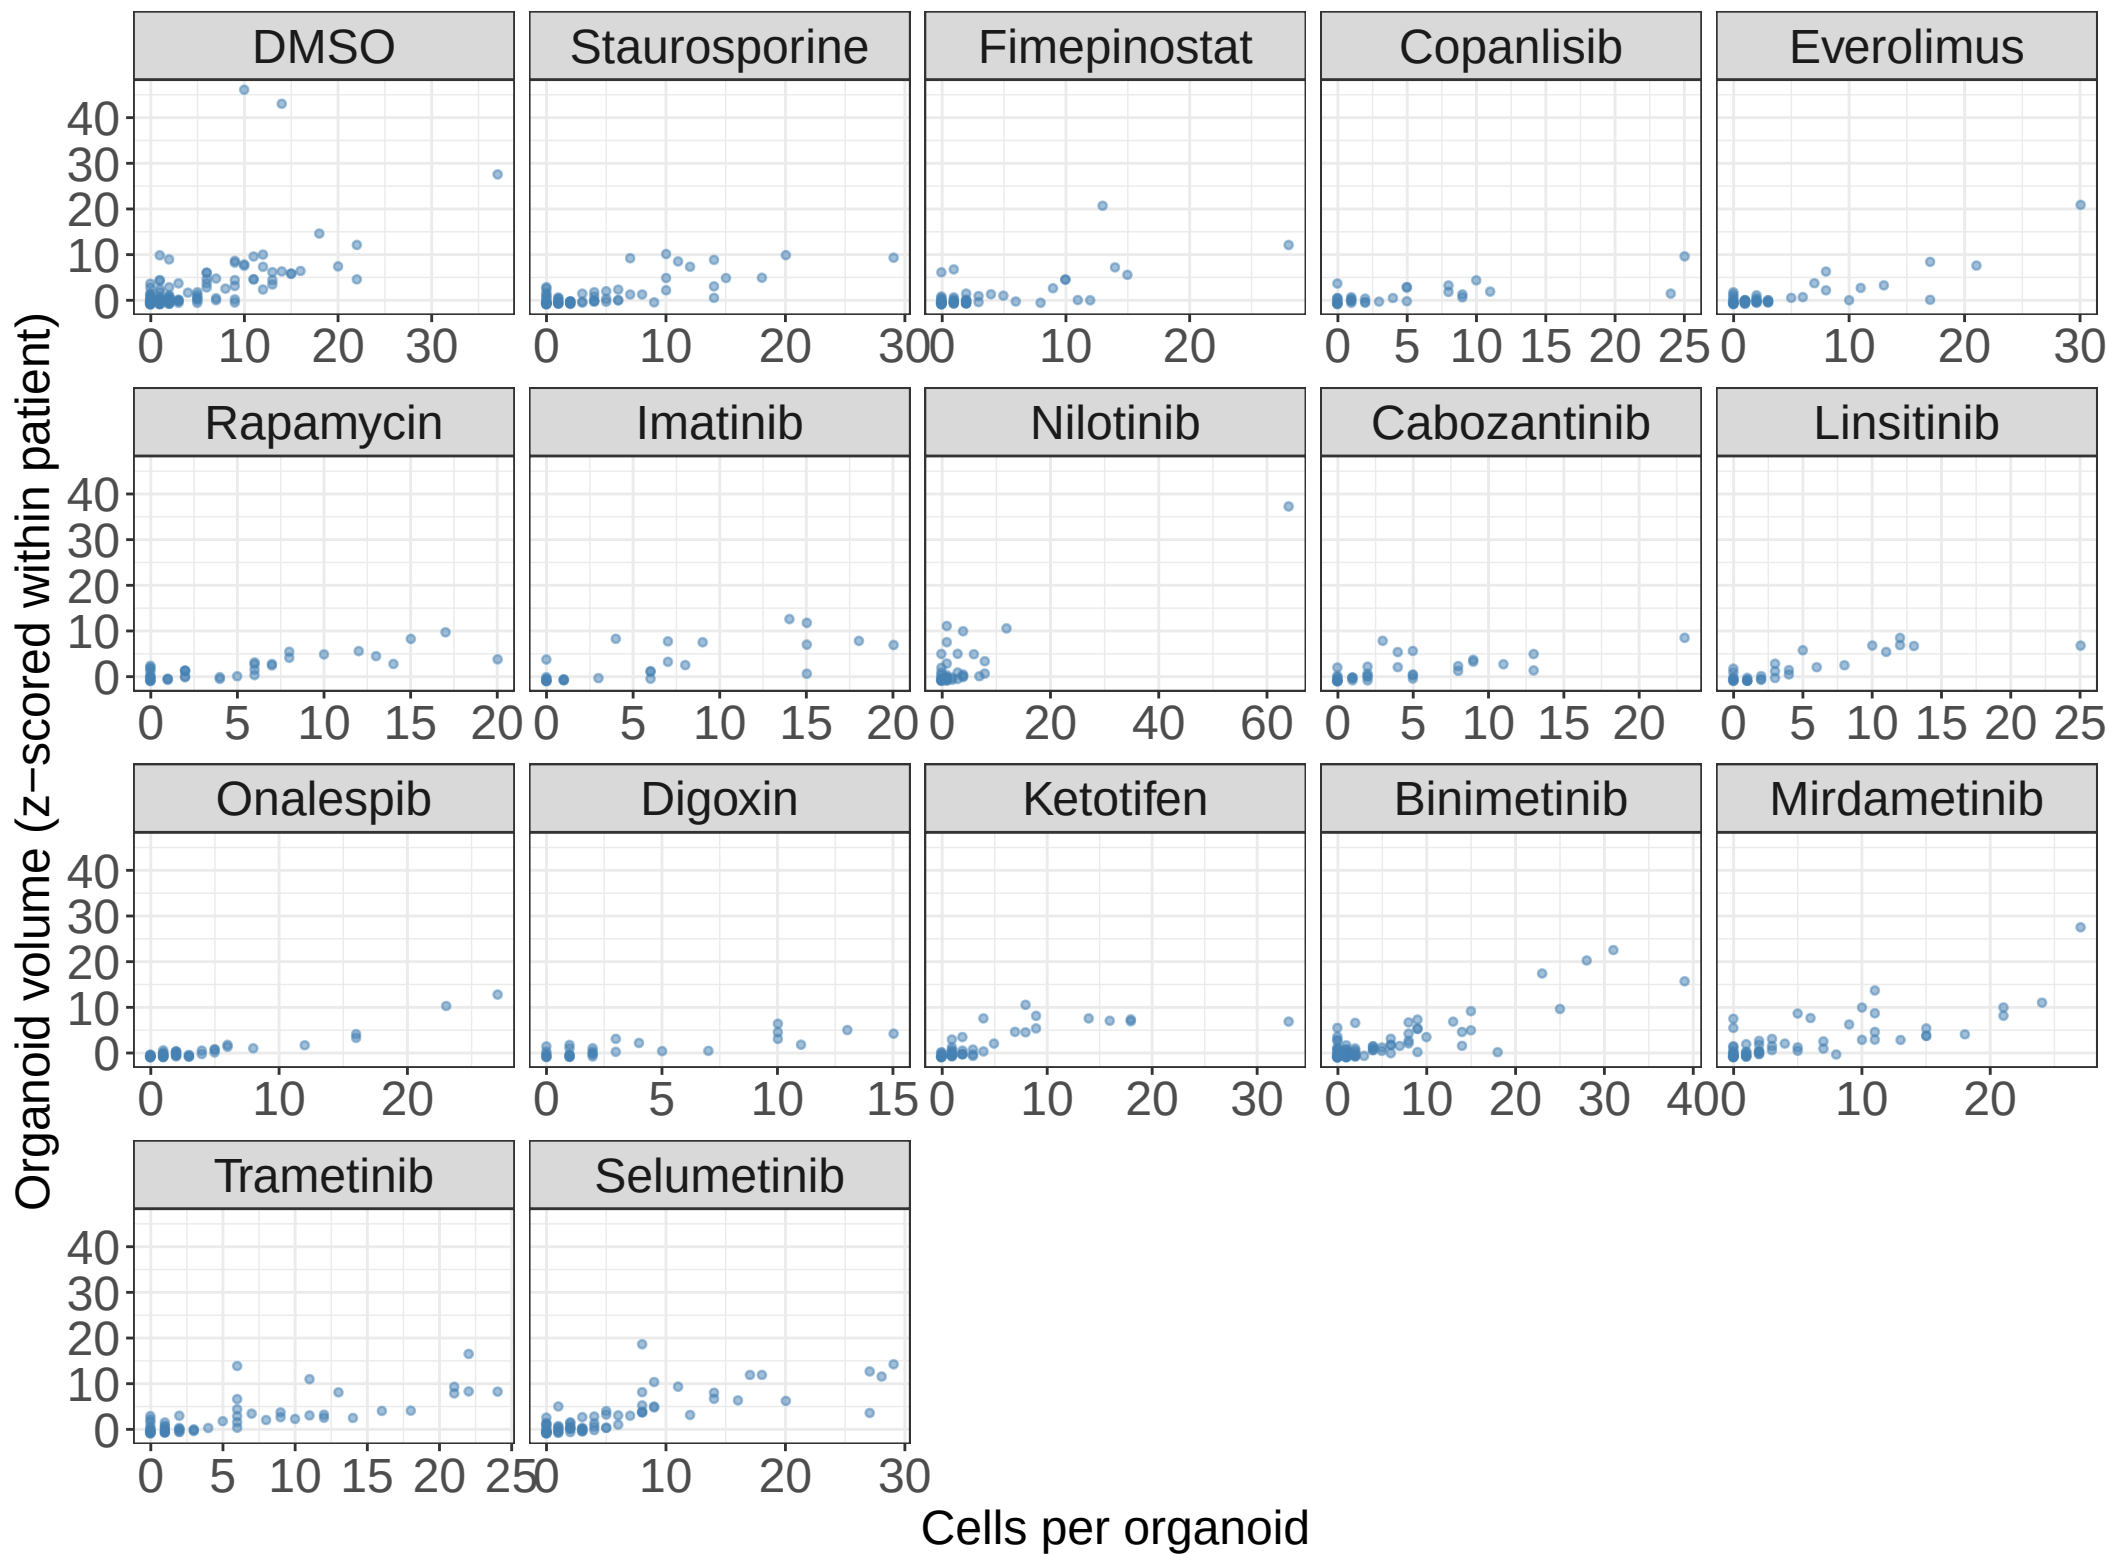

3D: organoid volume vs. cells per organoid, by treatment -- patient NF0021_T1

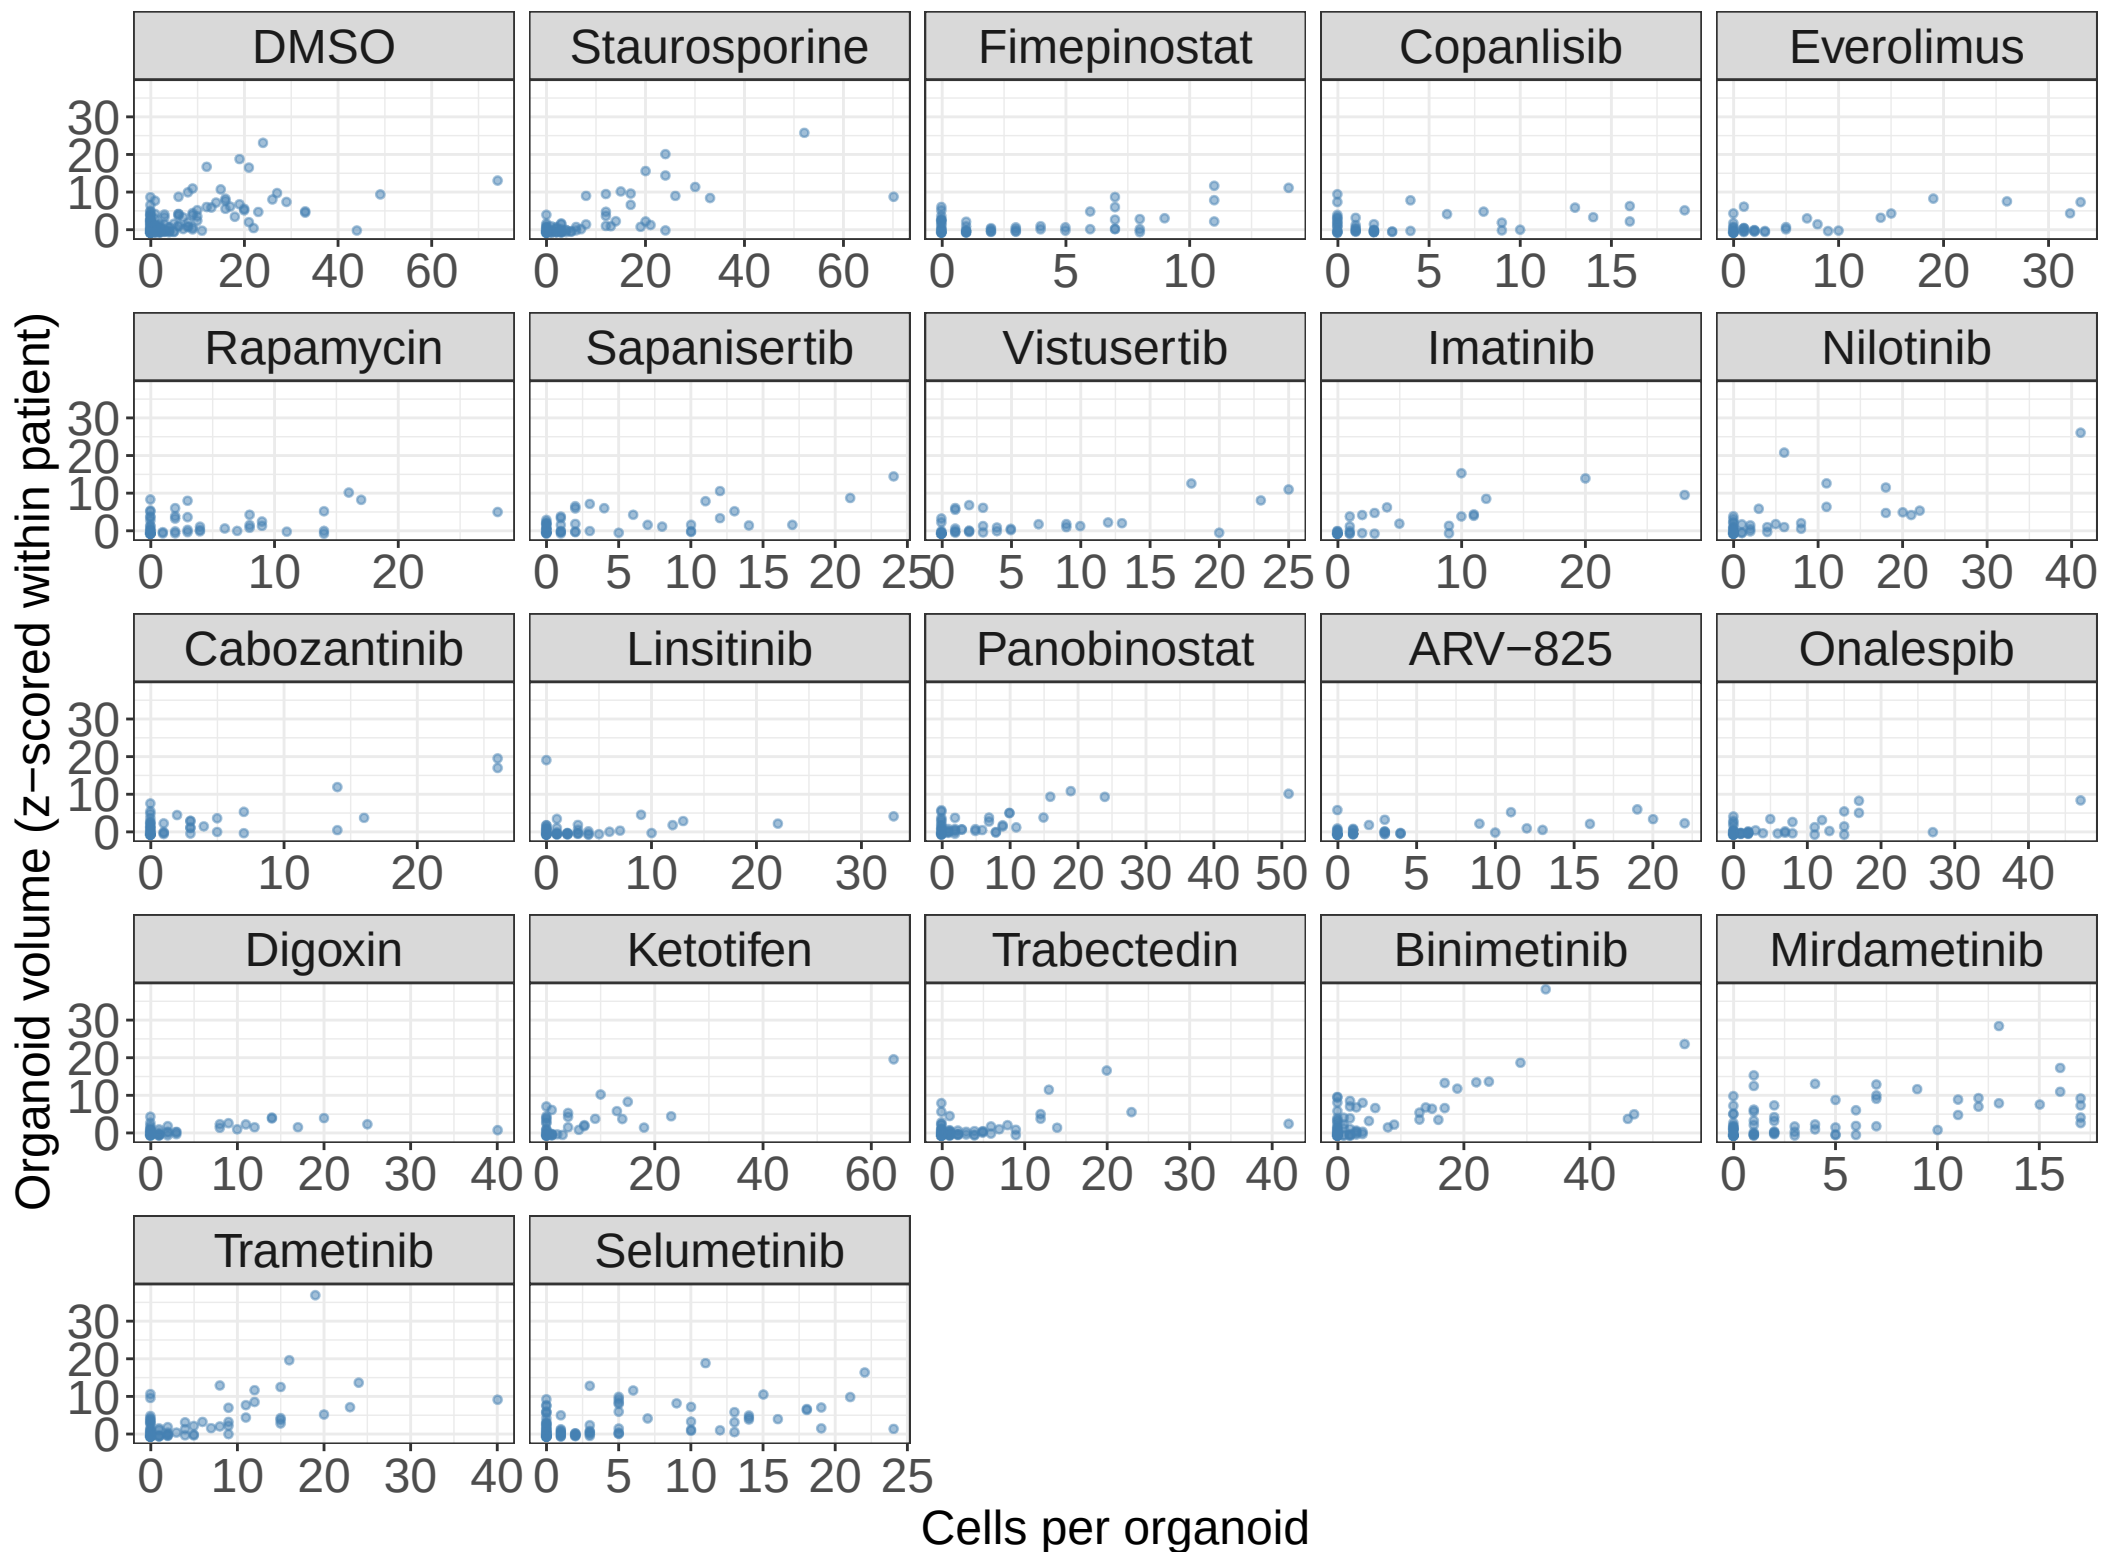

3D: organoid volume vs. cells per organoid, by treatment -- patient NF0030_T1

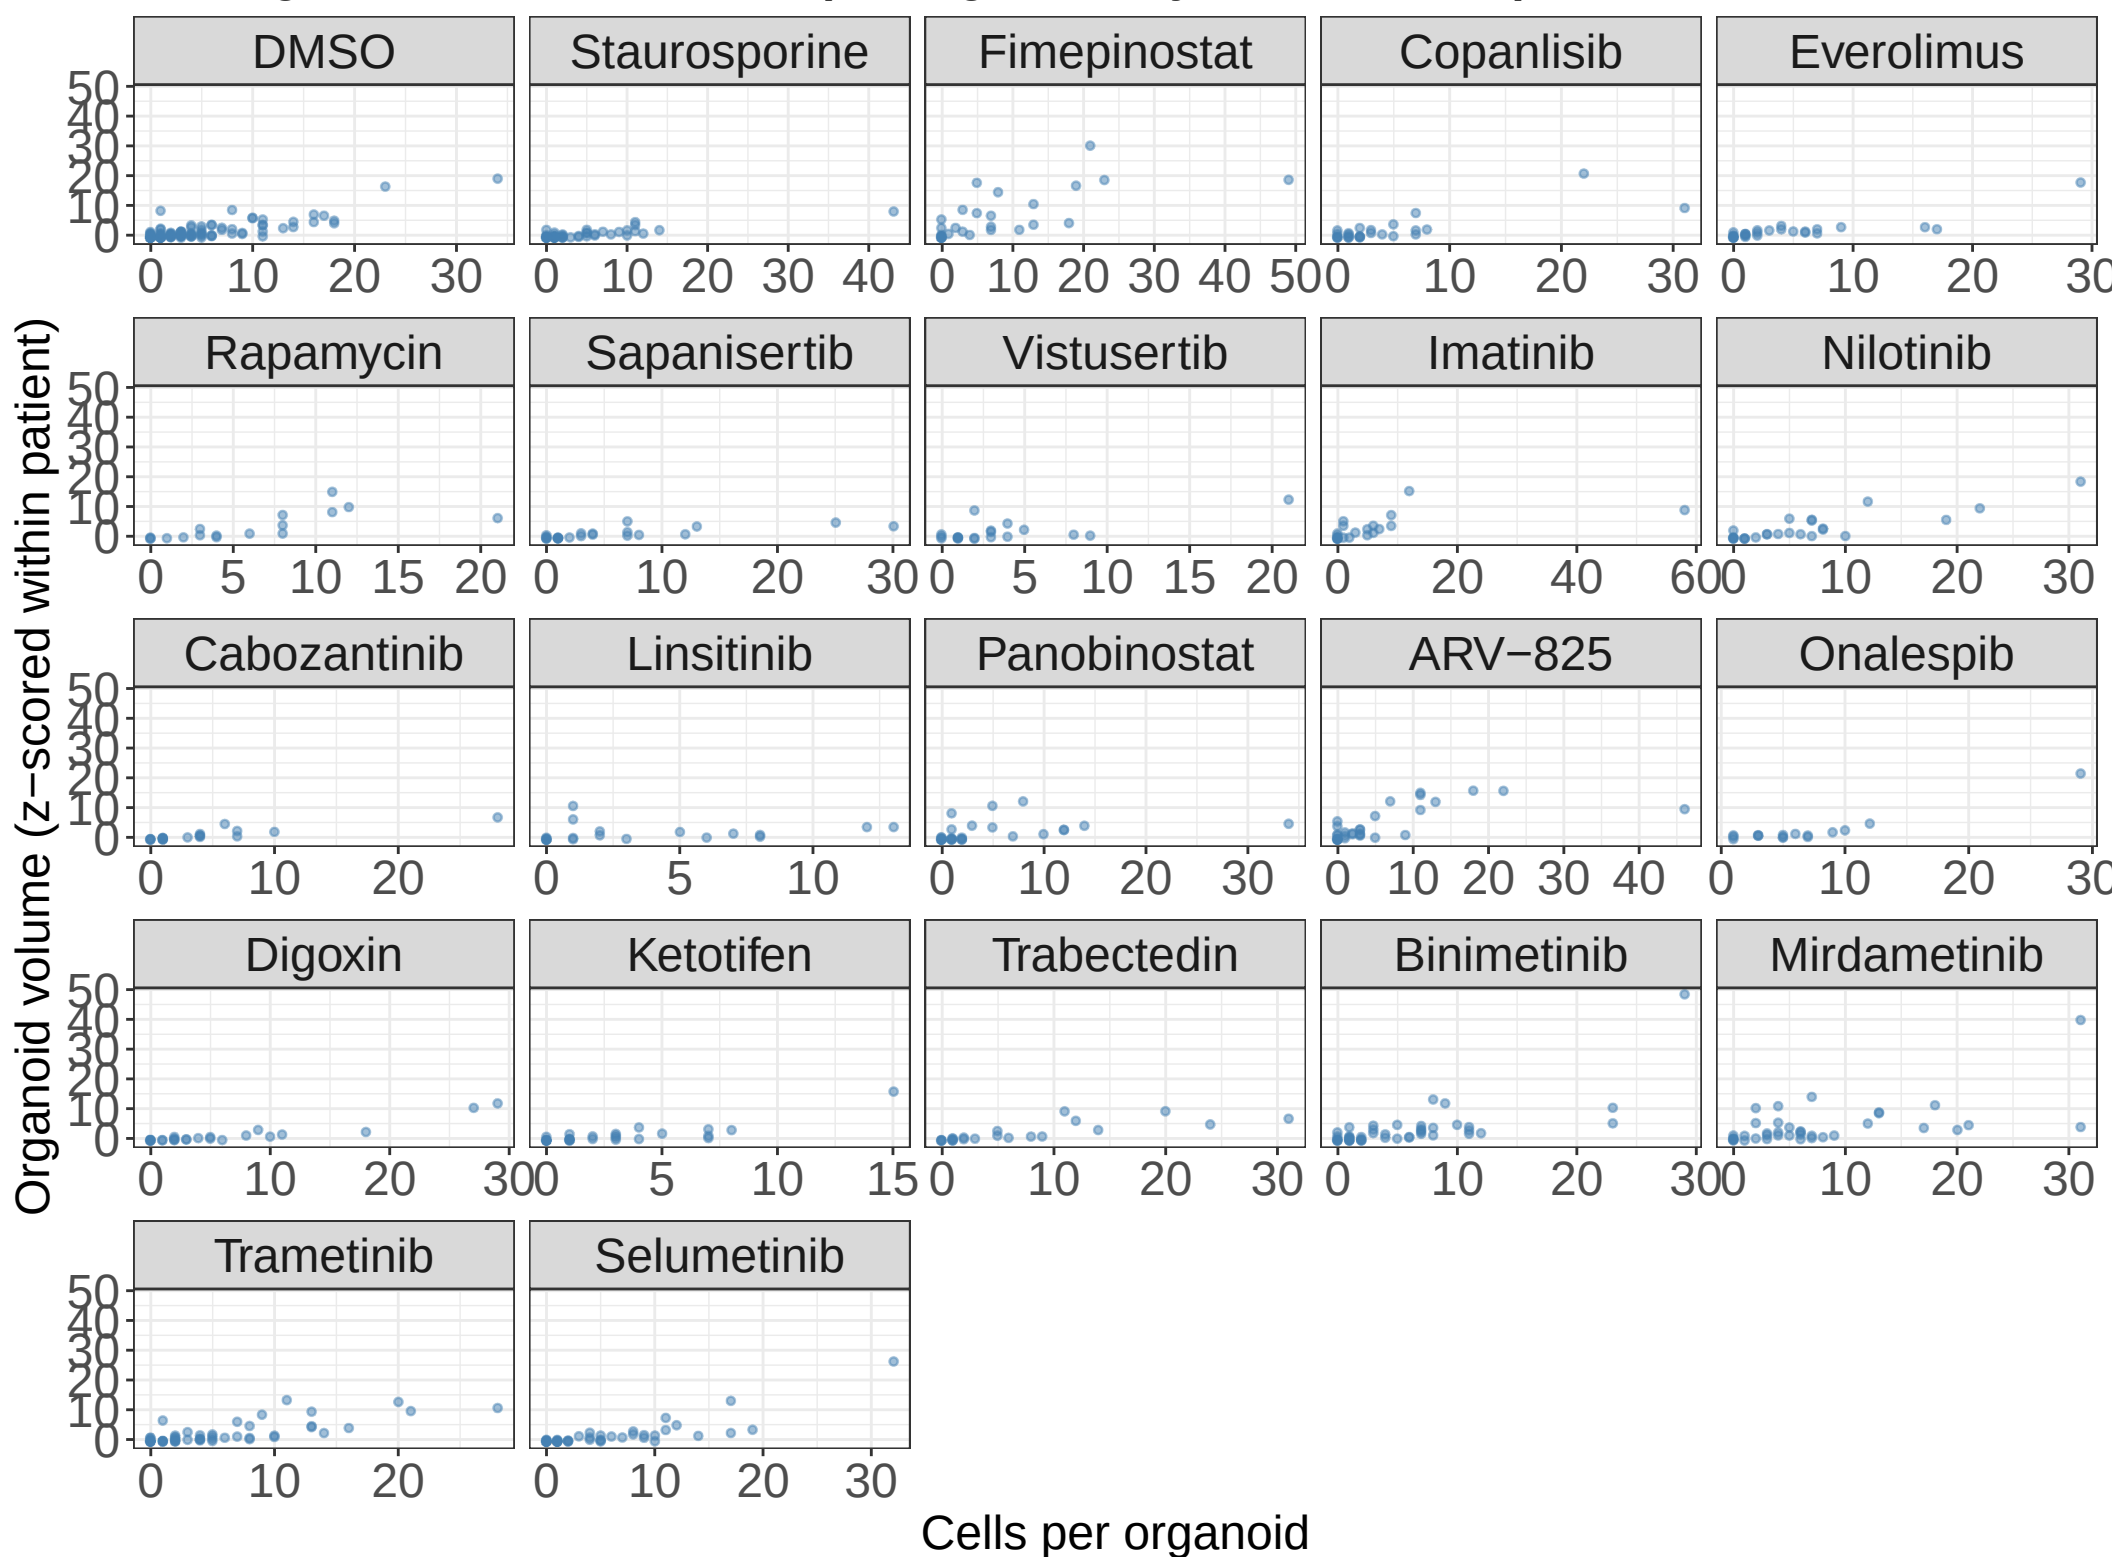

3D: organoid volume vs. cells per organoid, by treatment -- patient NF0035_T1

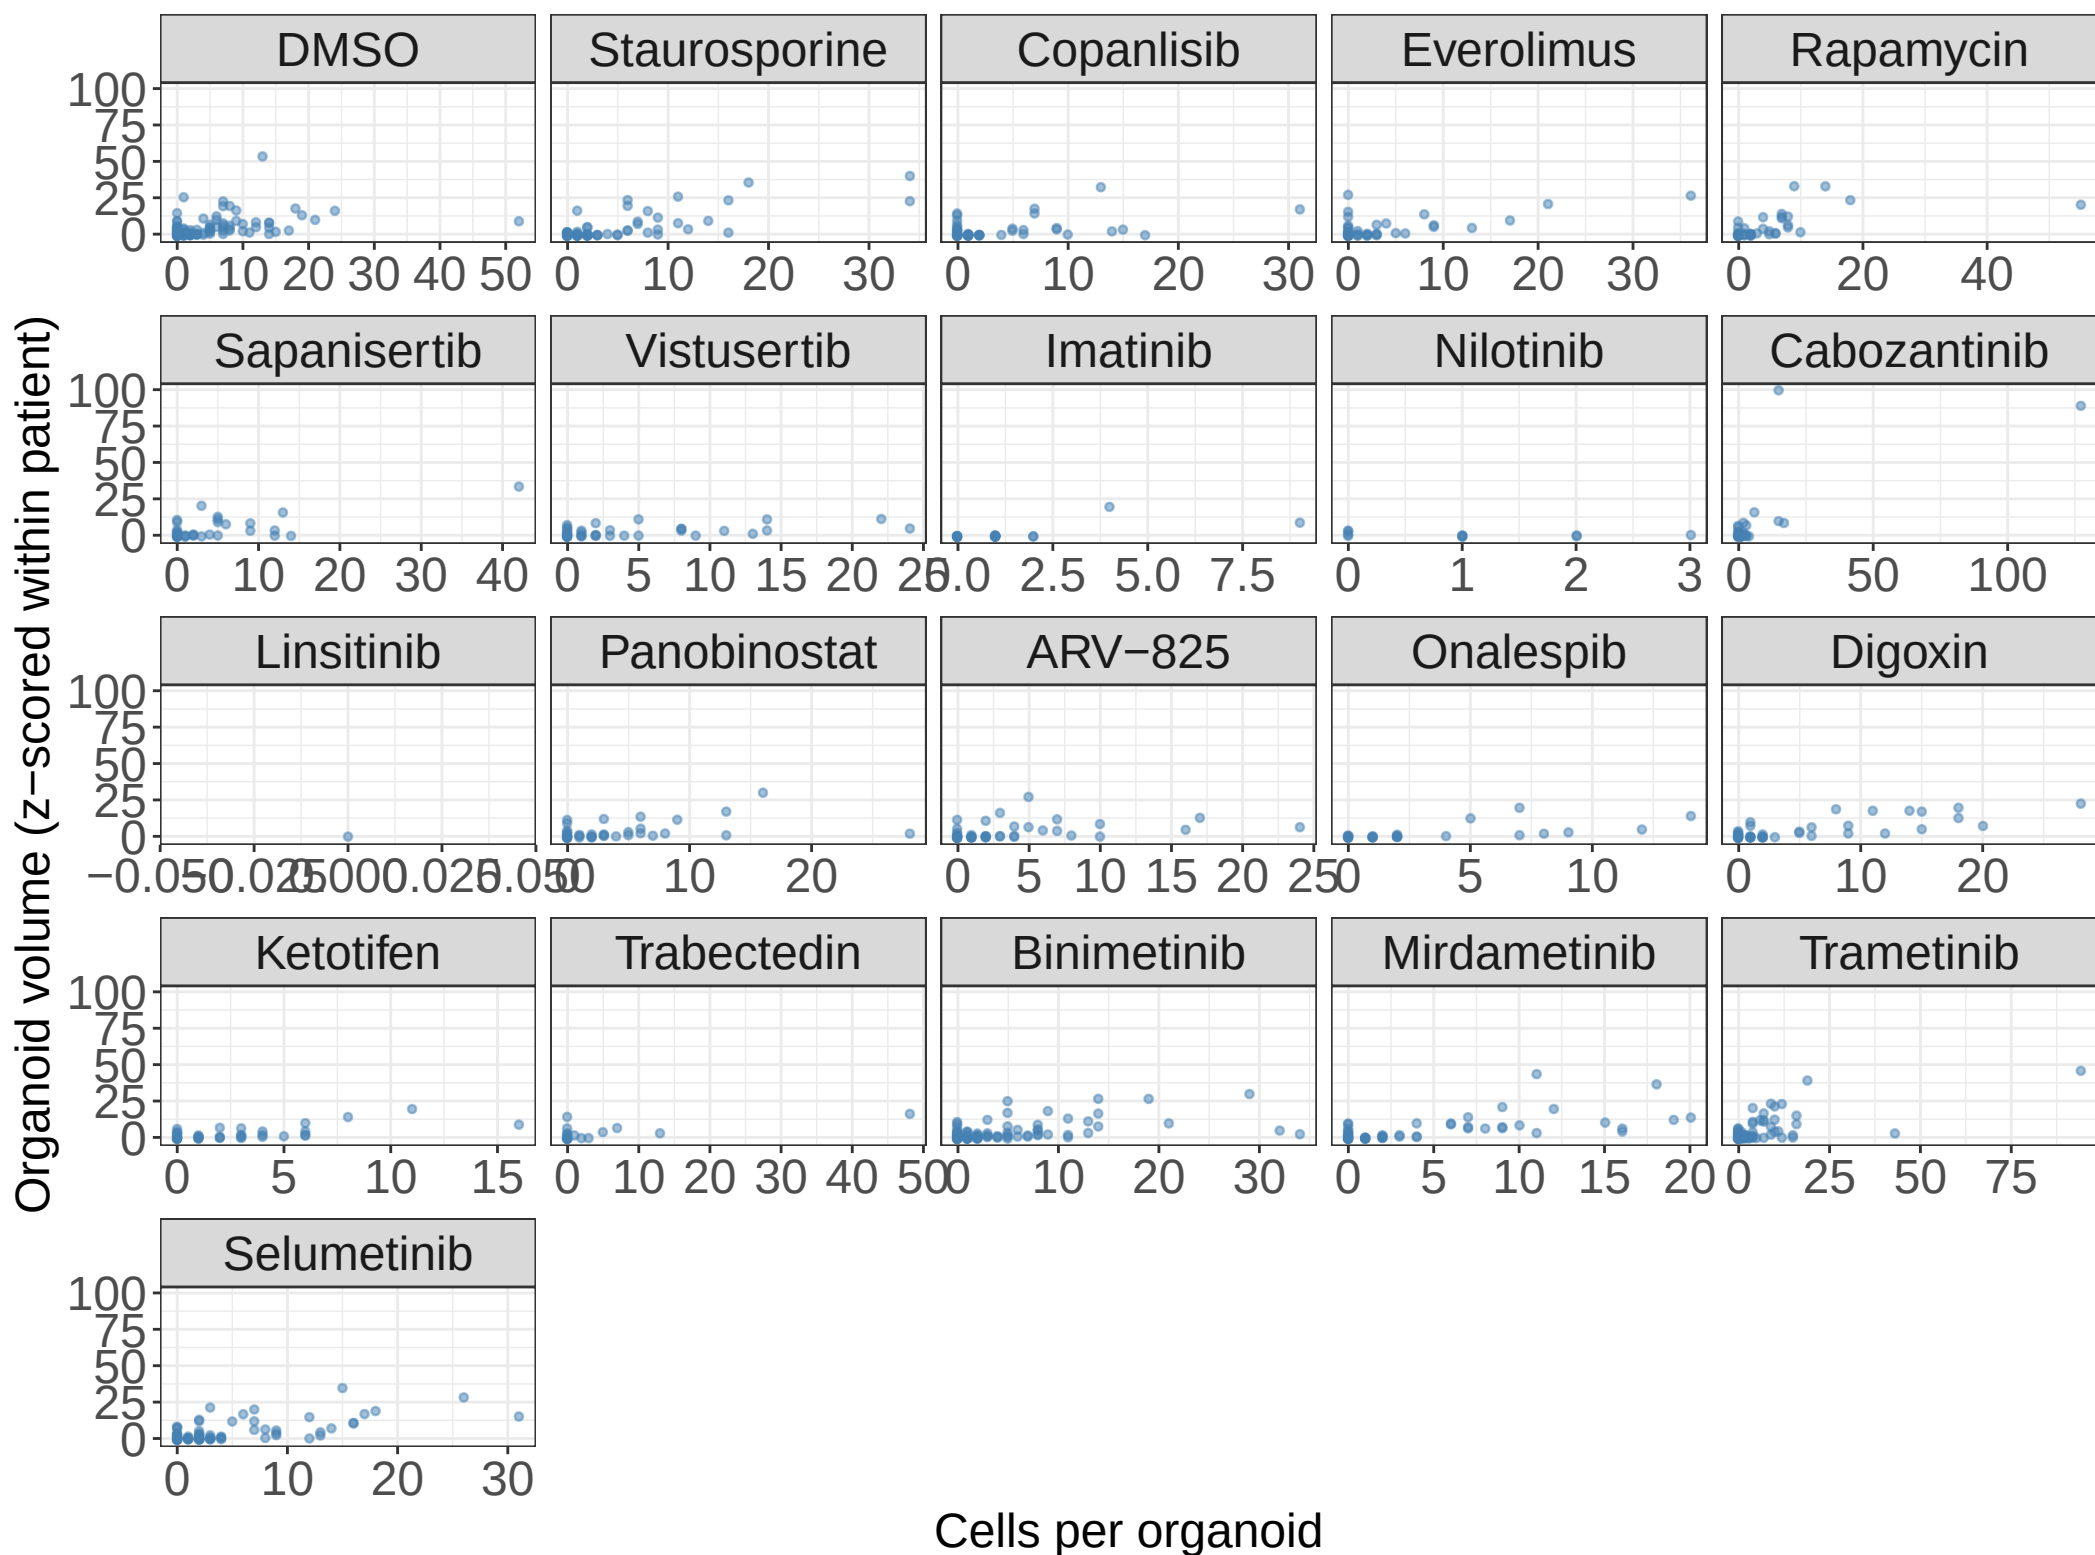

3D: organoid volume vs. cells per organoid, by treatment -- patient NF0037_T1

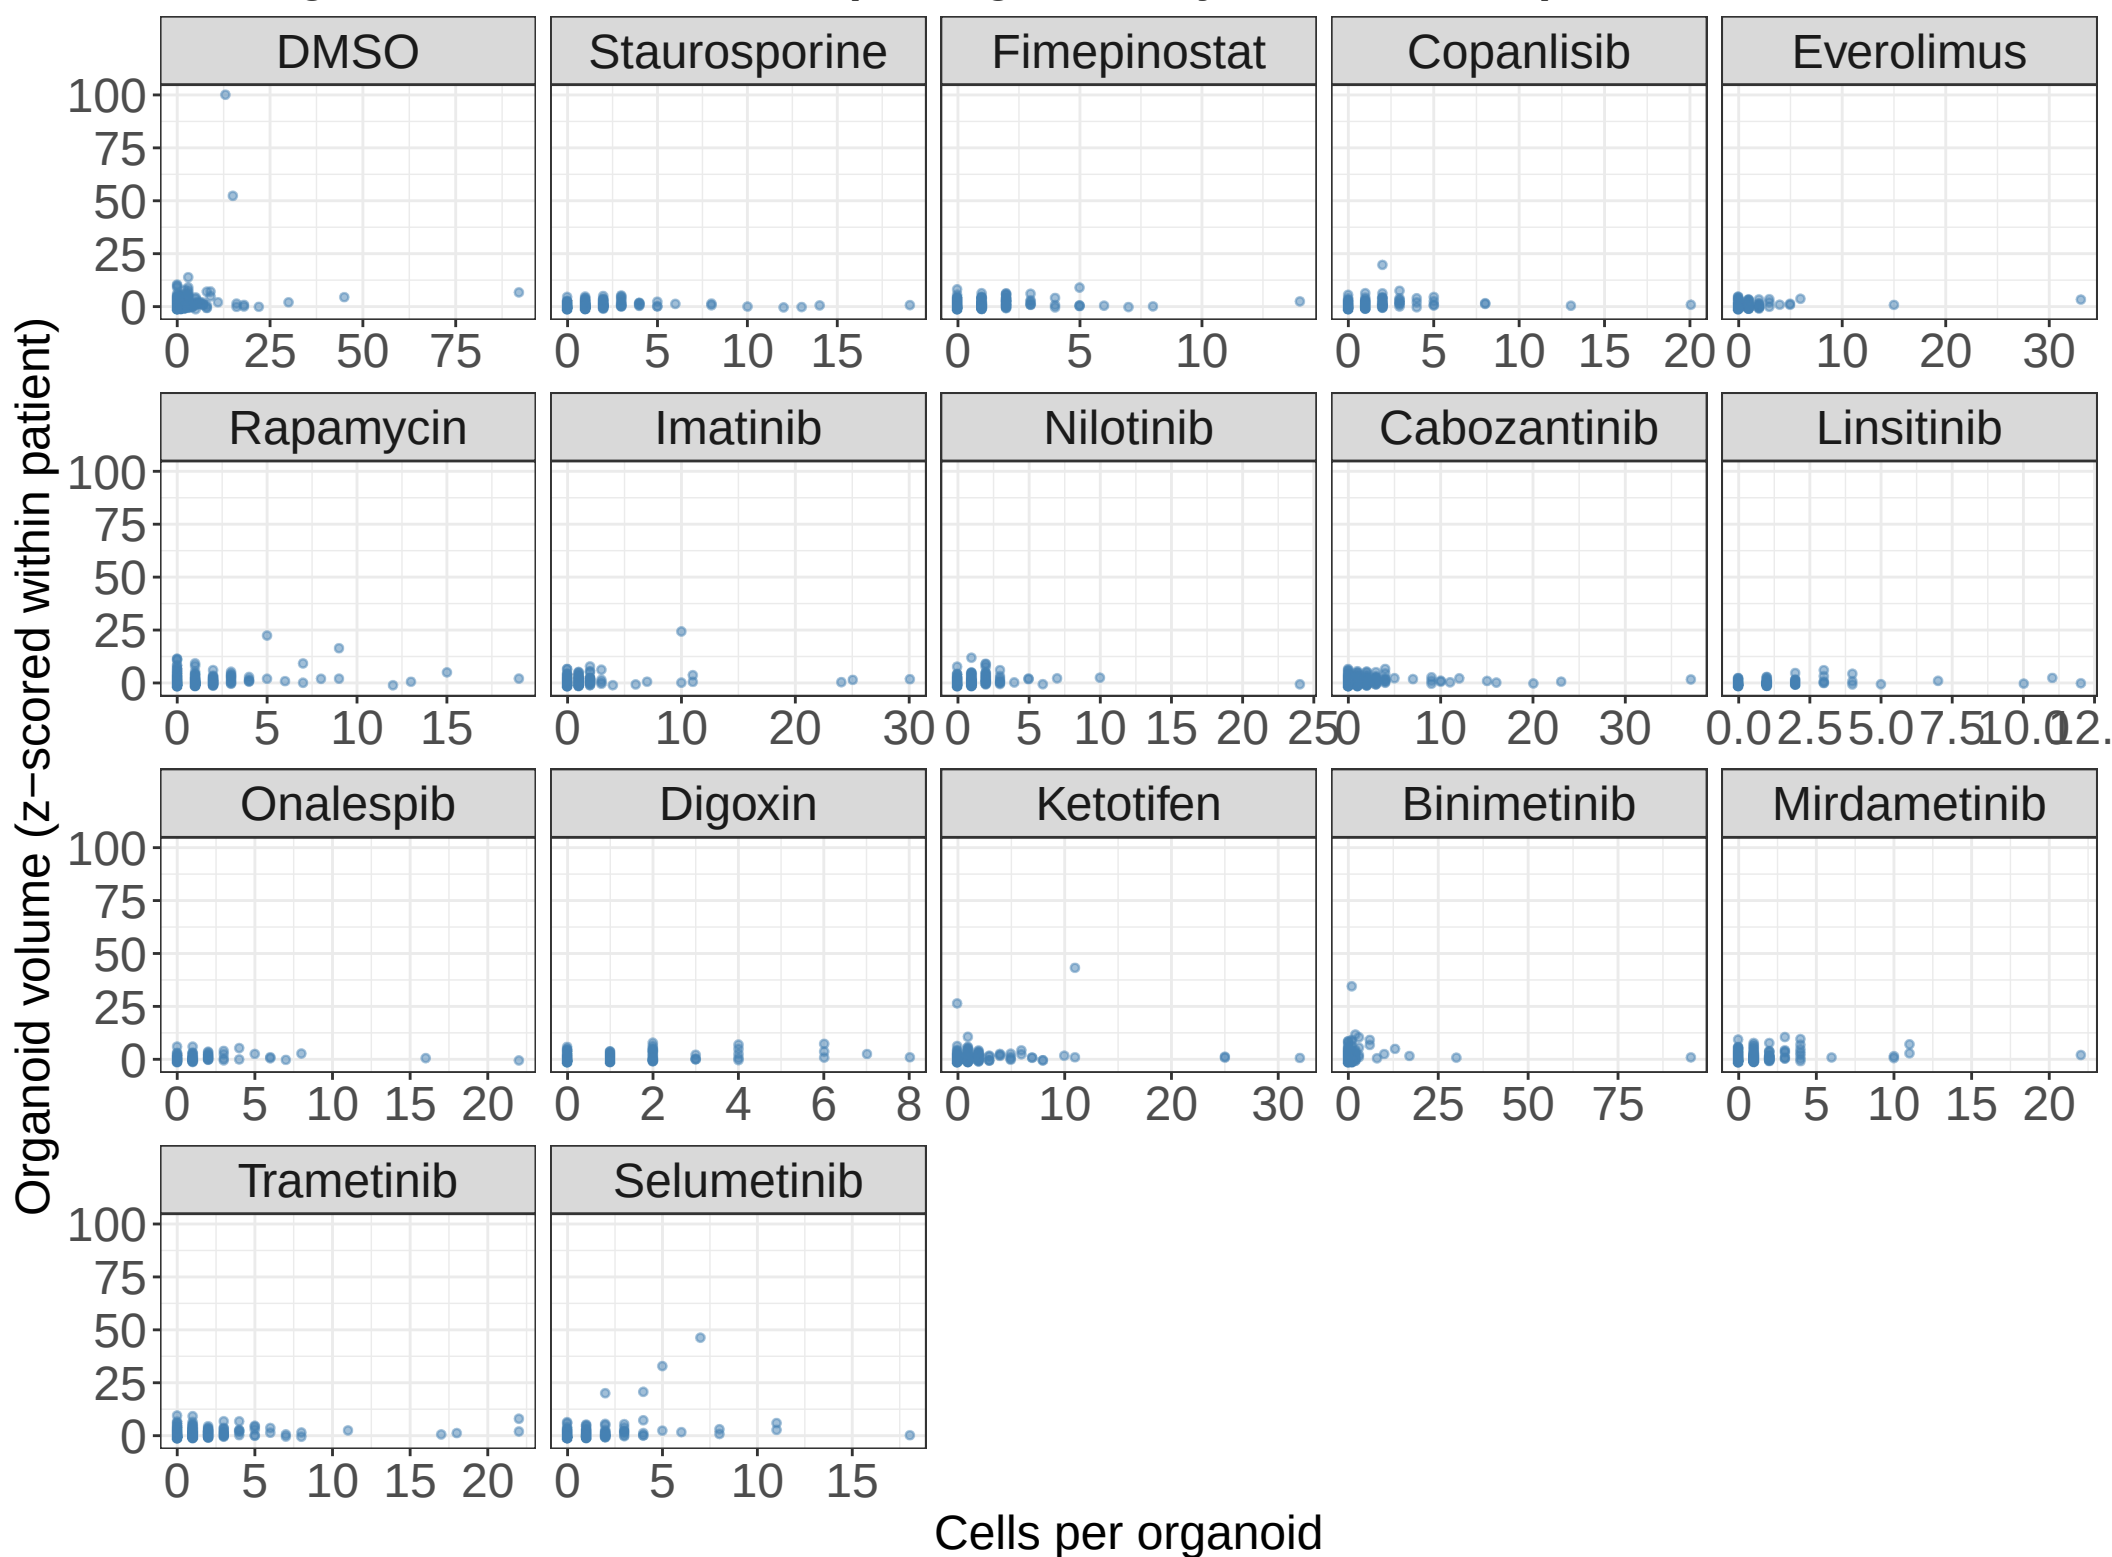

3D: organoid volume vs. cells per organoid, by treatment -- patient NF0040_T1

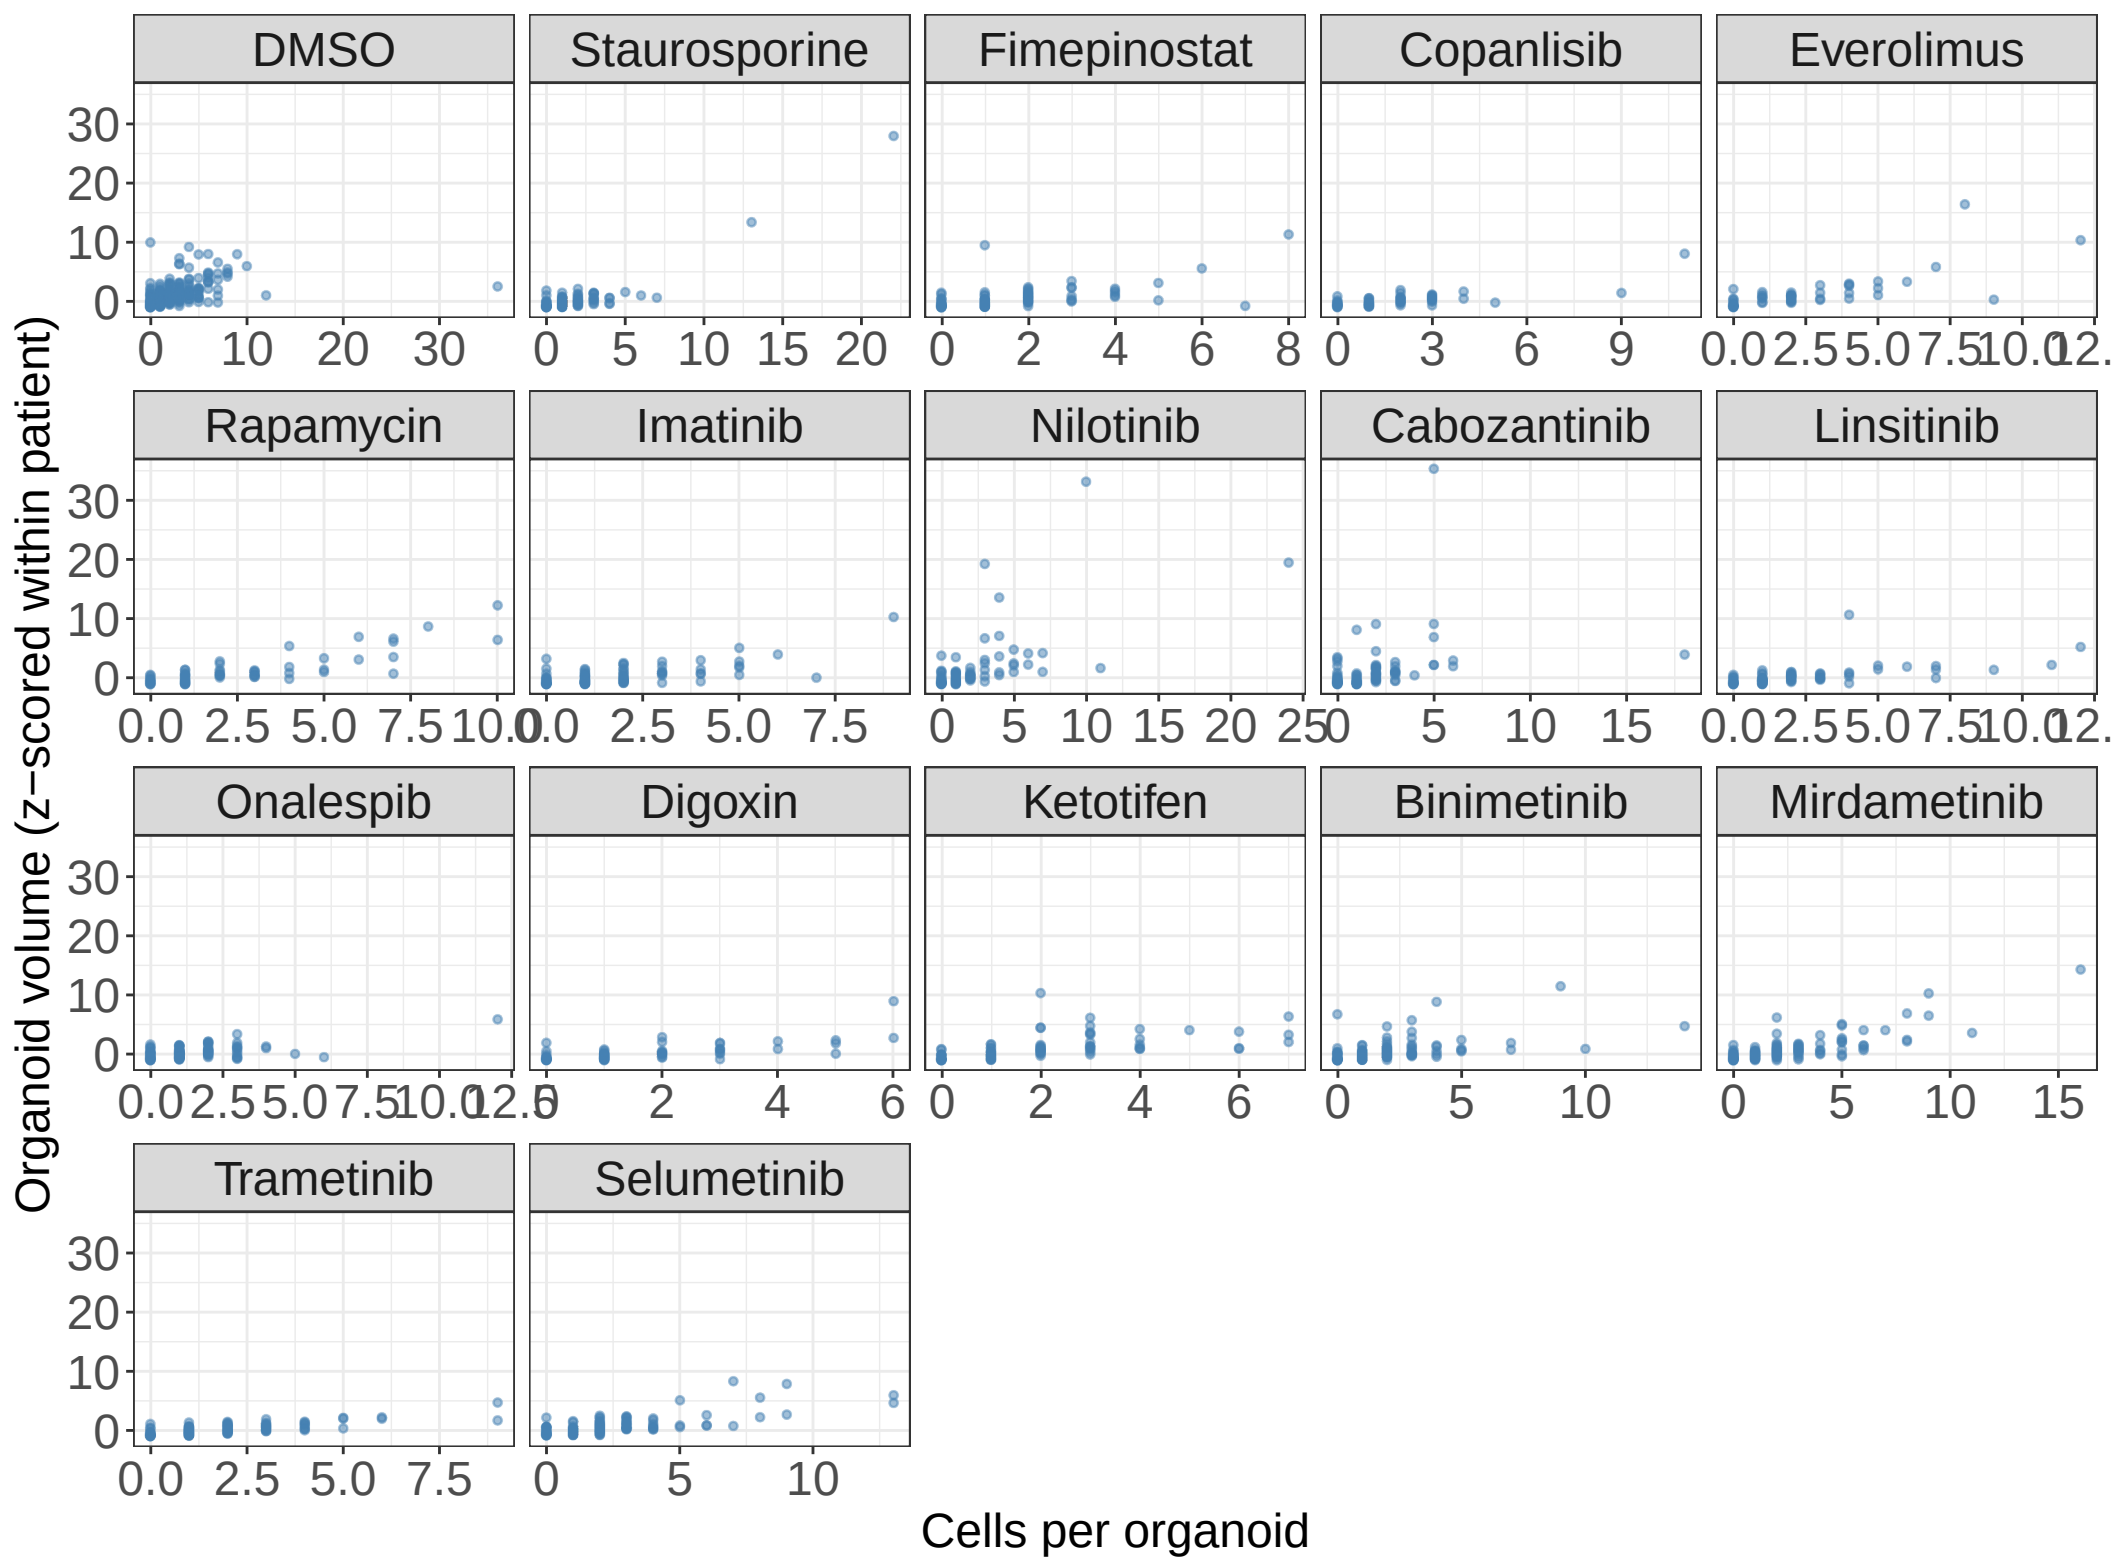

3D: organoid volume vs. cells per organoid, by treatment -- patient NF0055_T1

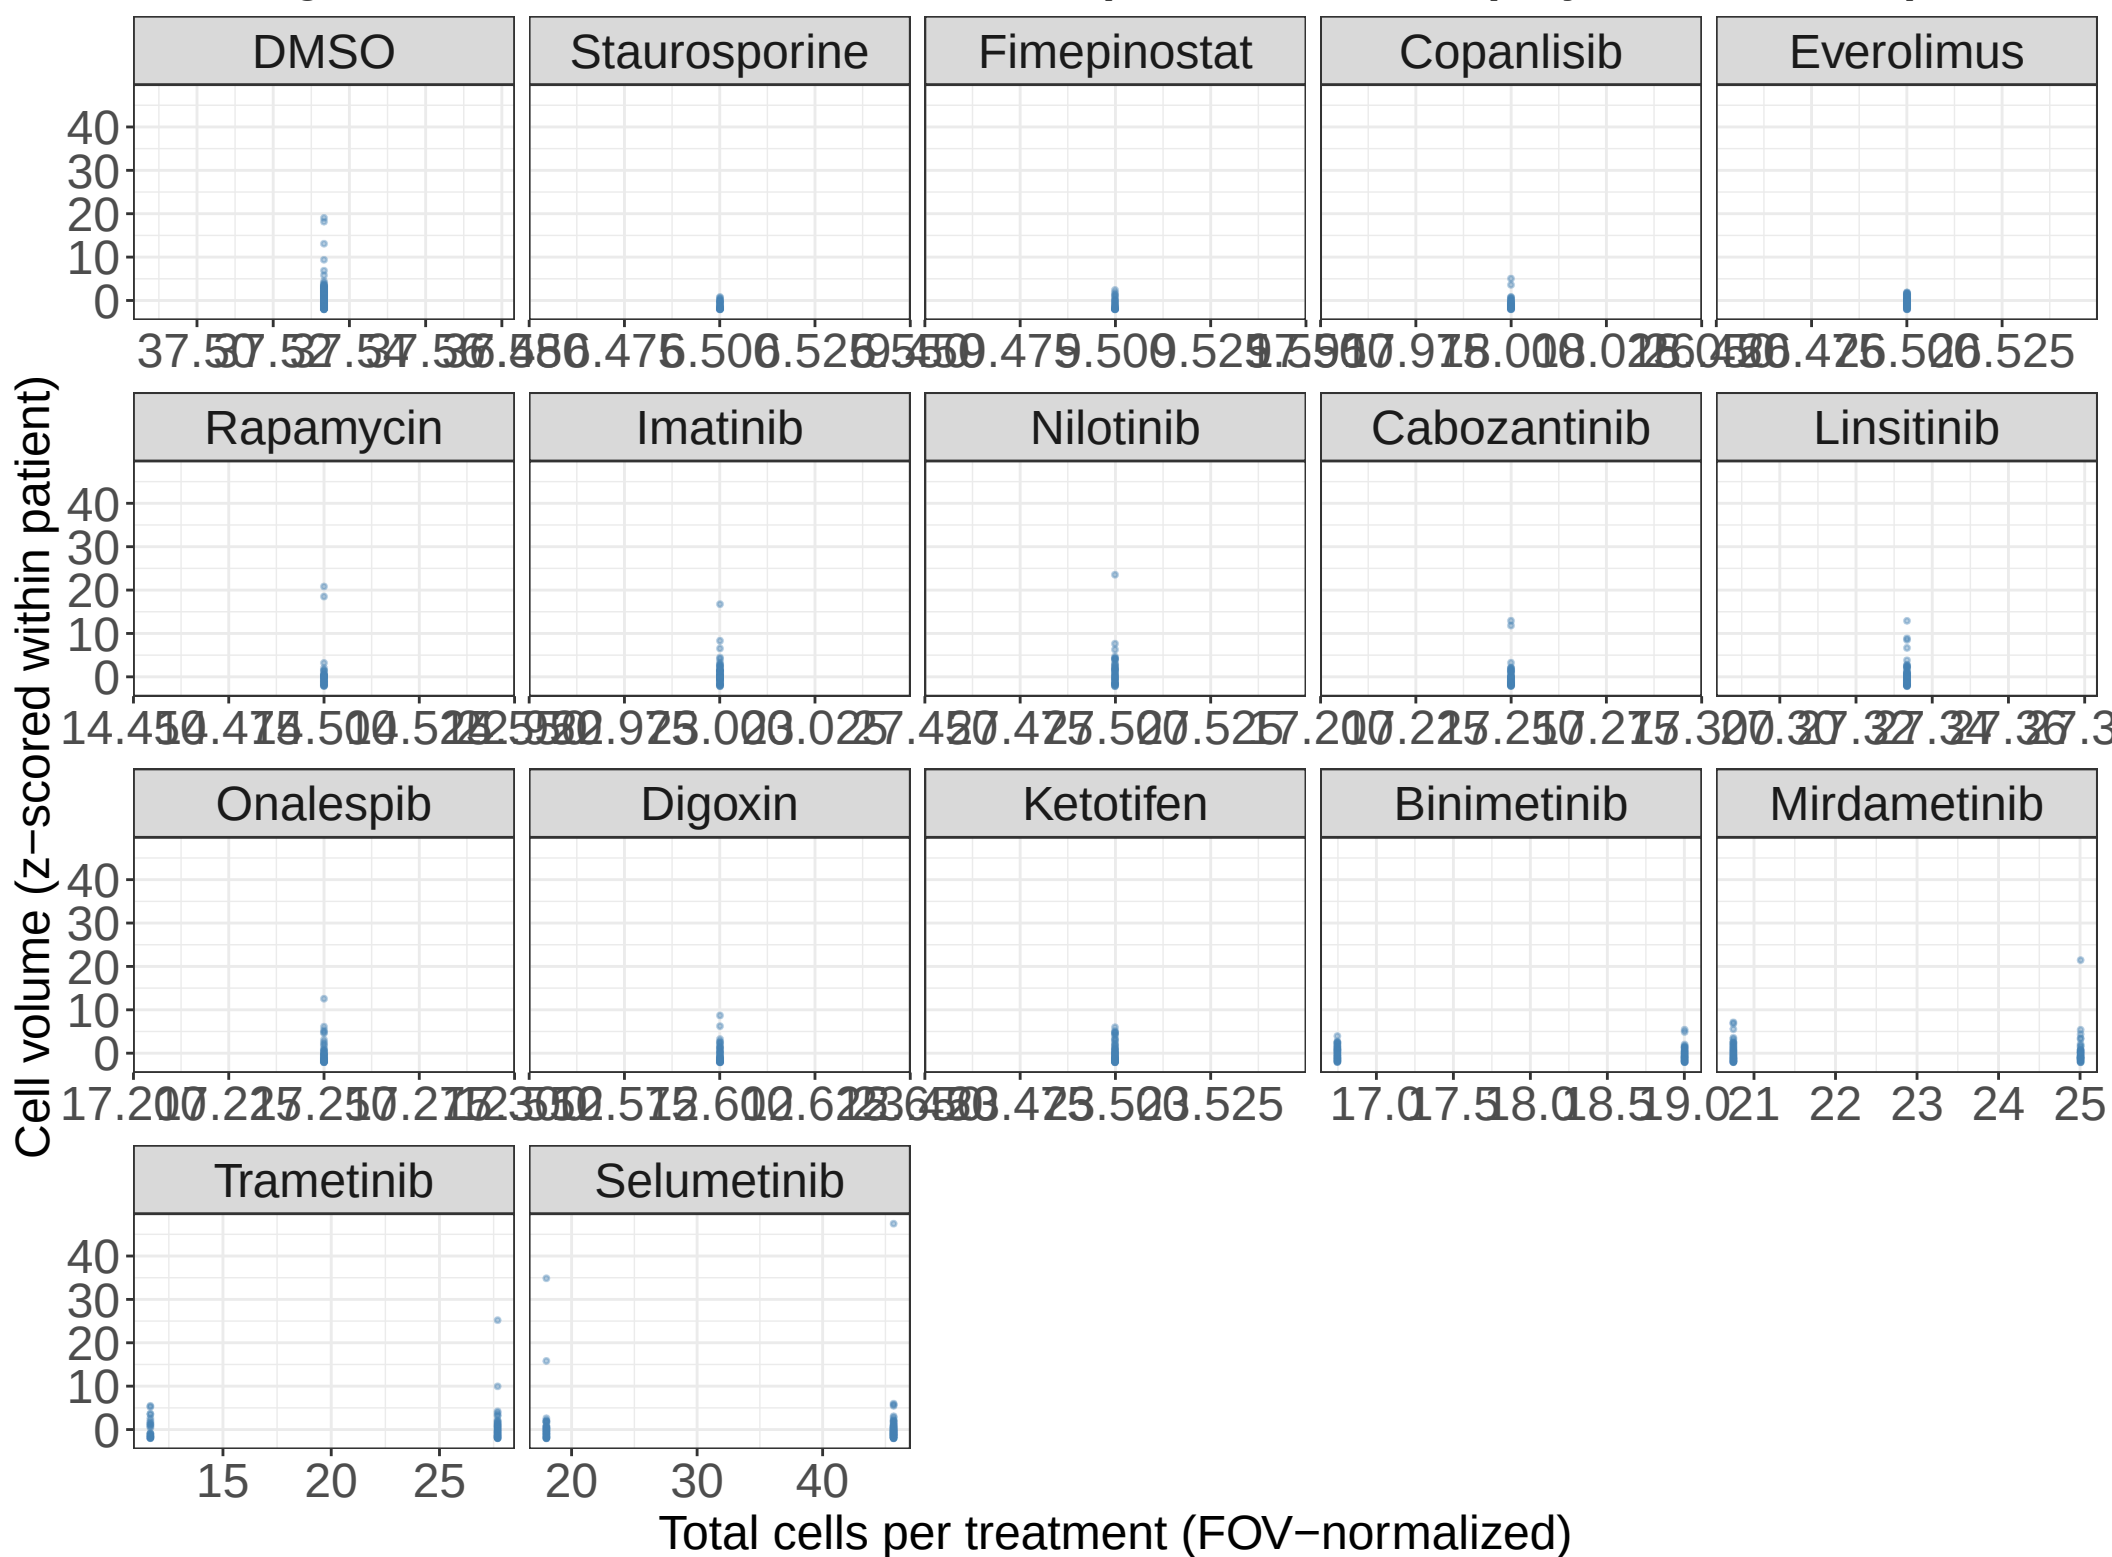

3D: organoid volume vs. cells per organoid, by treatment -- patient SARCO219_T2

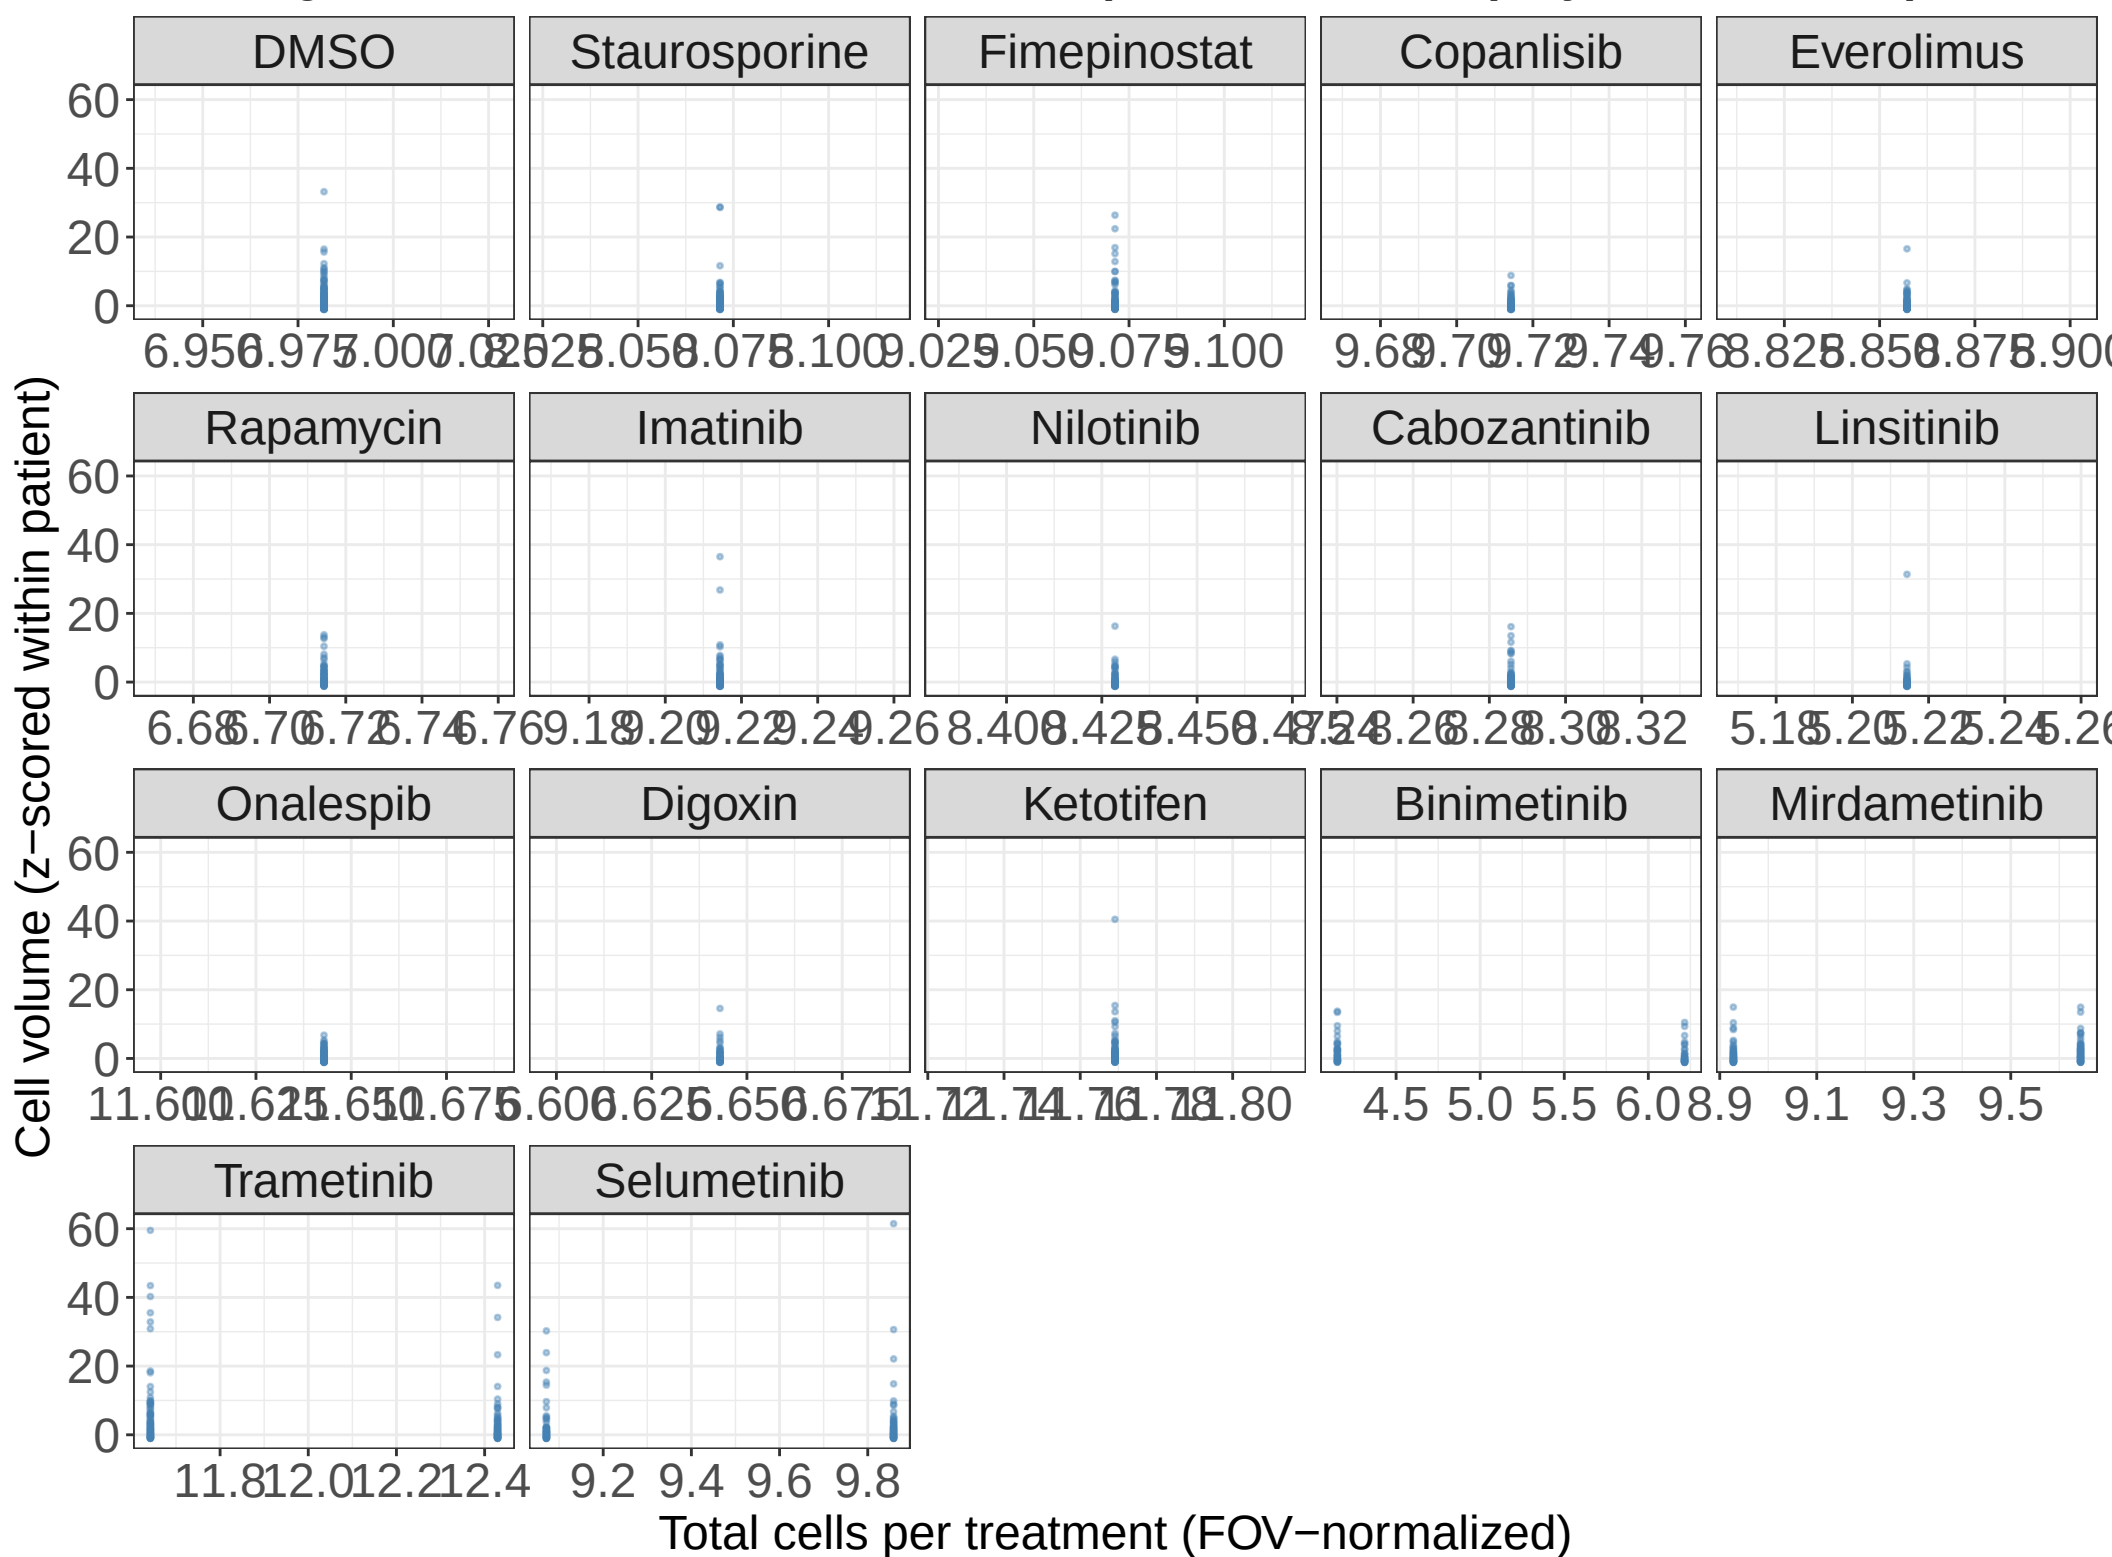

3D: organoid volume vs. cells per organoid, by treatment -- patient SARCO361_T1

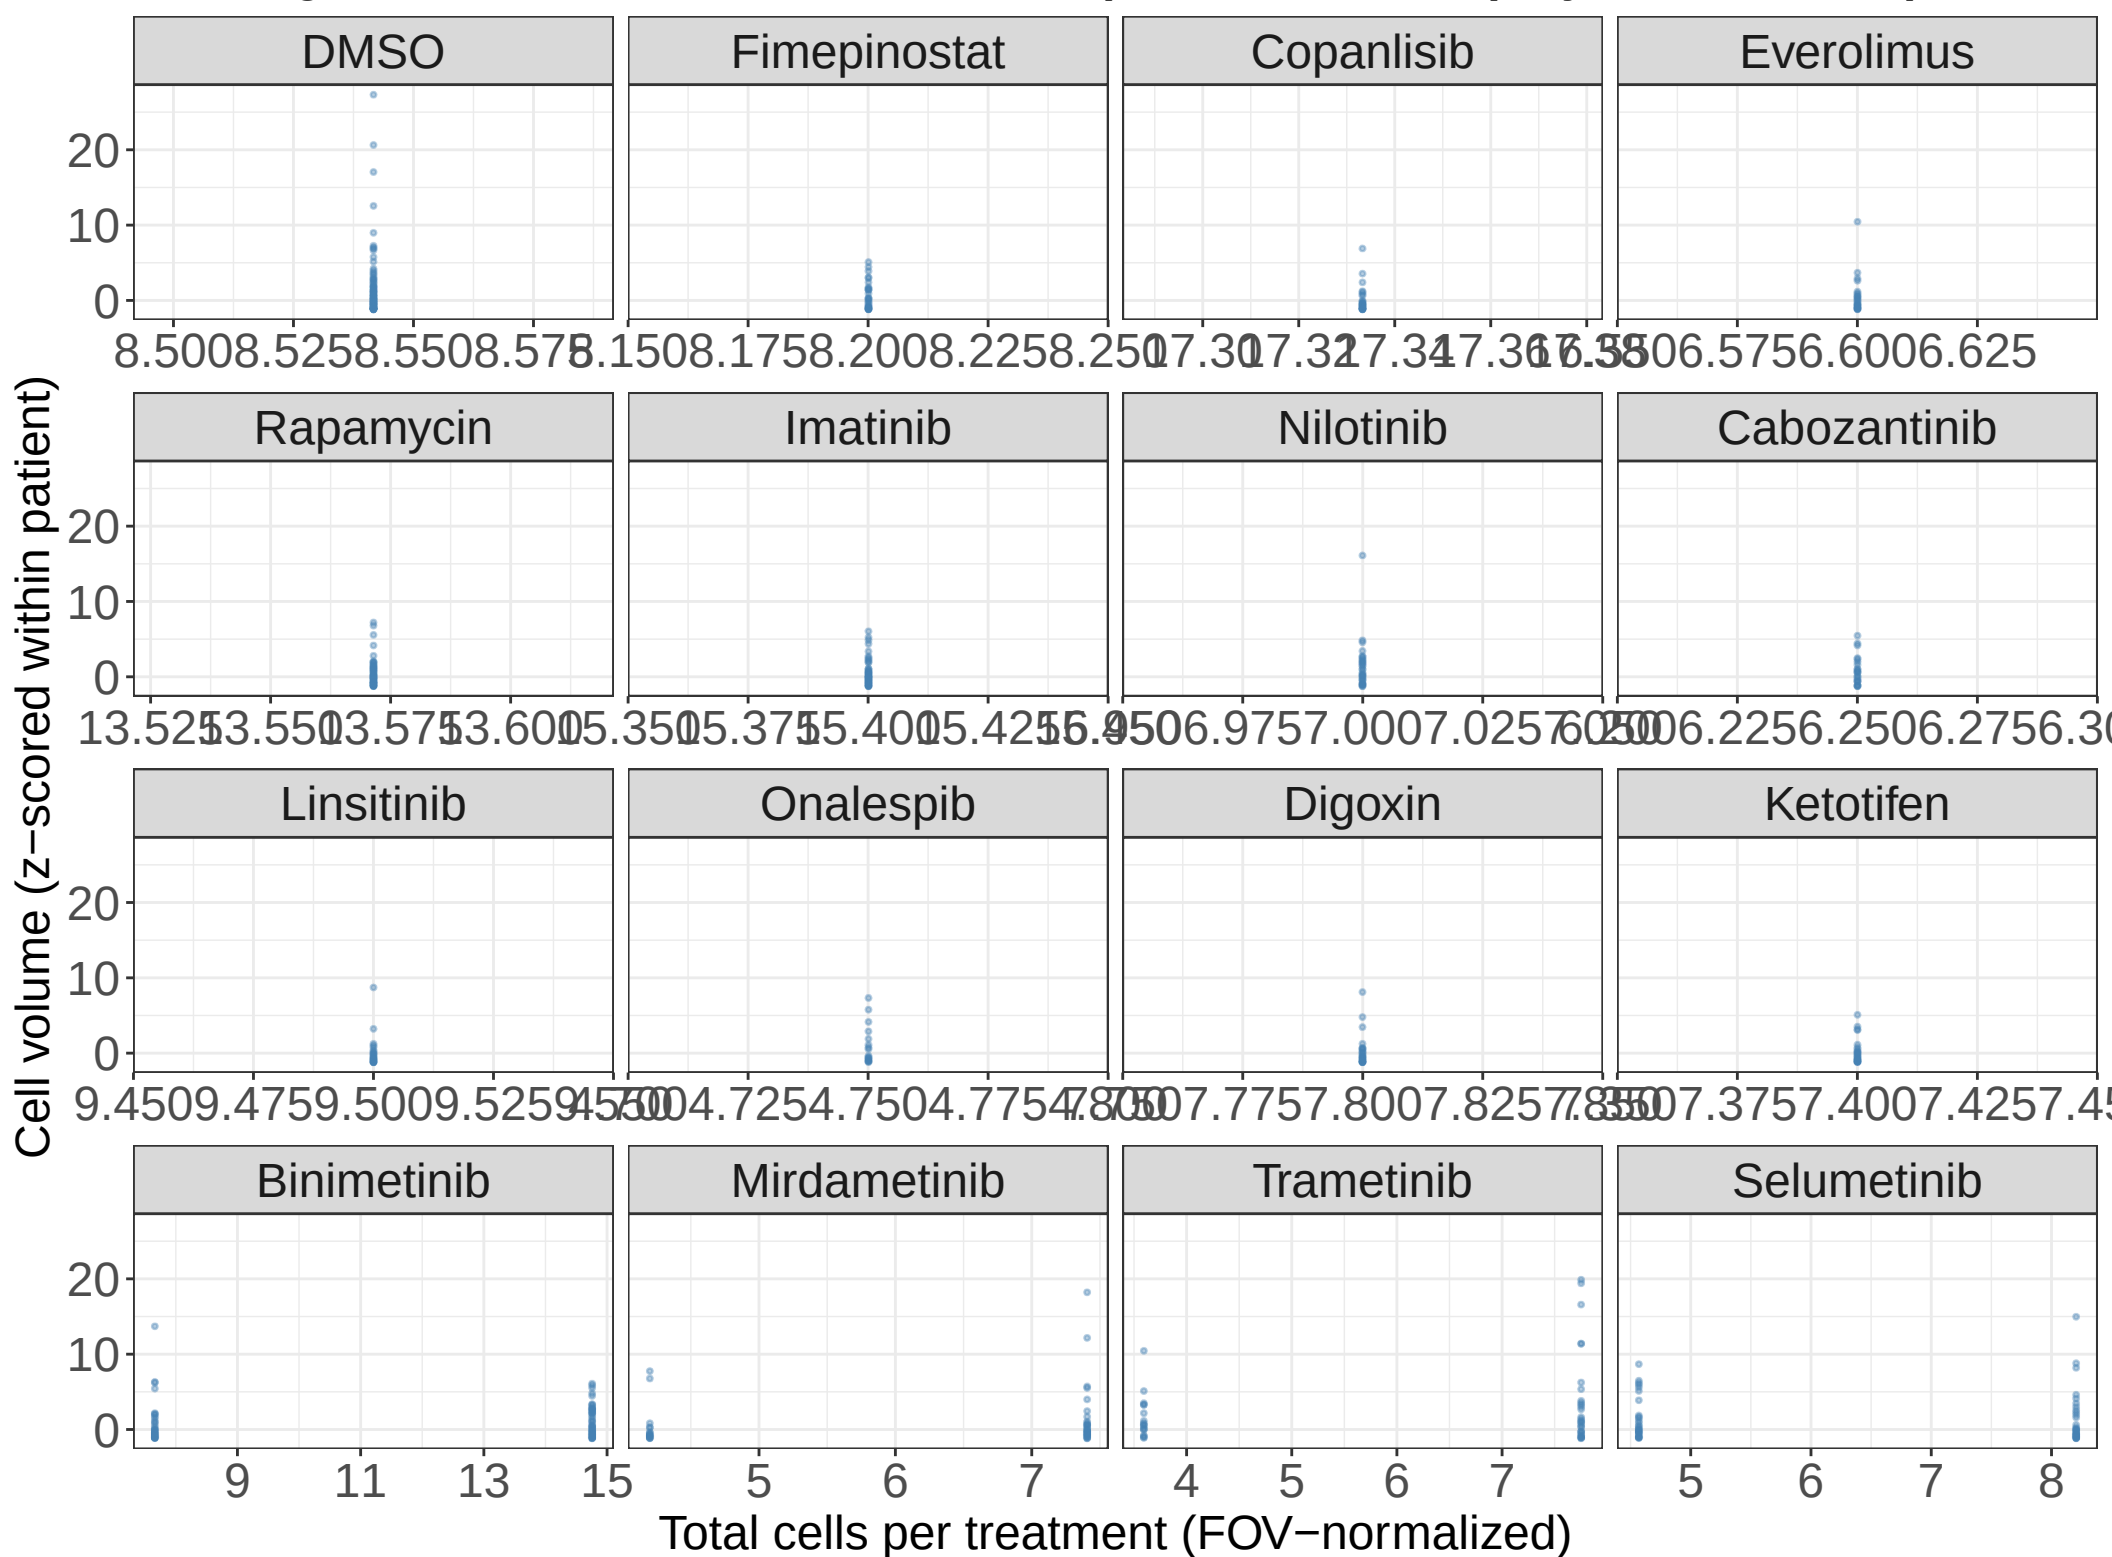

3D: single-cell volume vs. total cell count (FOV-normalized), by treatment -- patient N

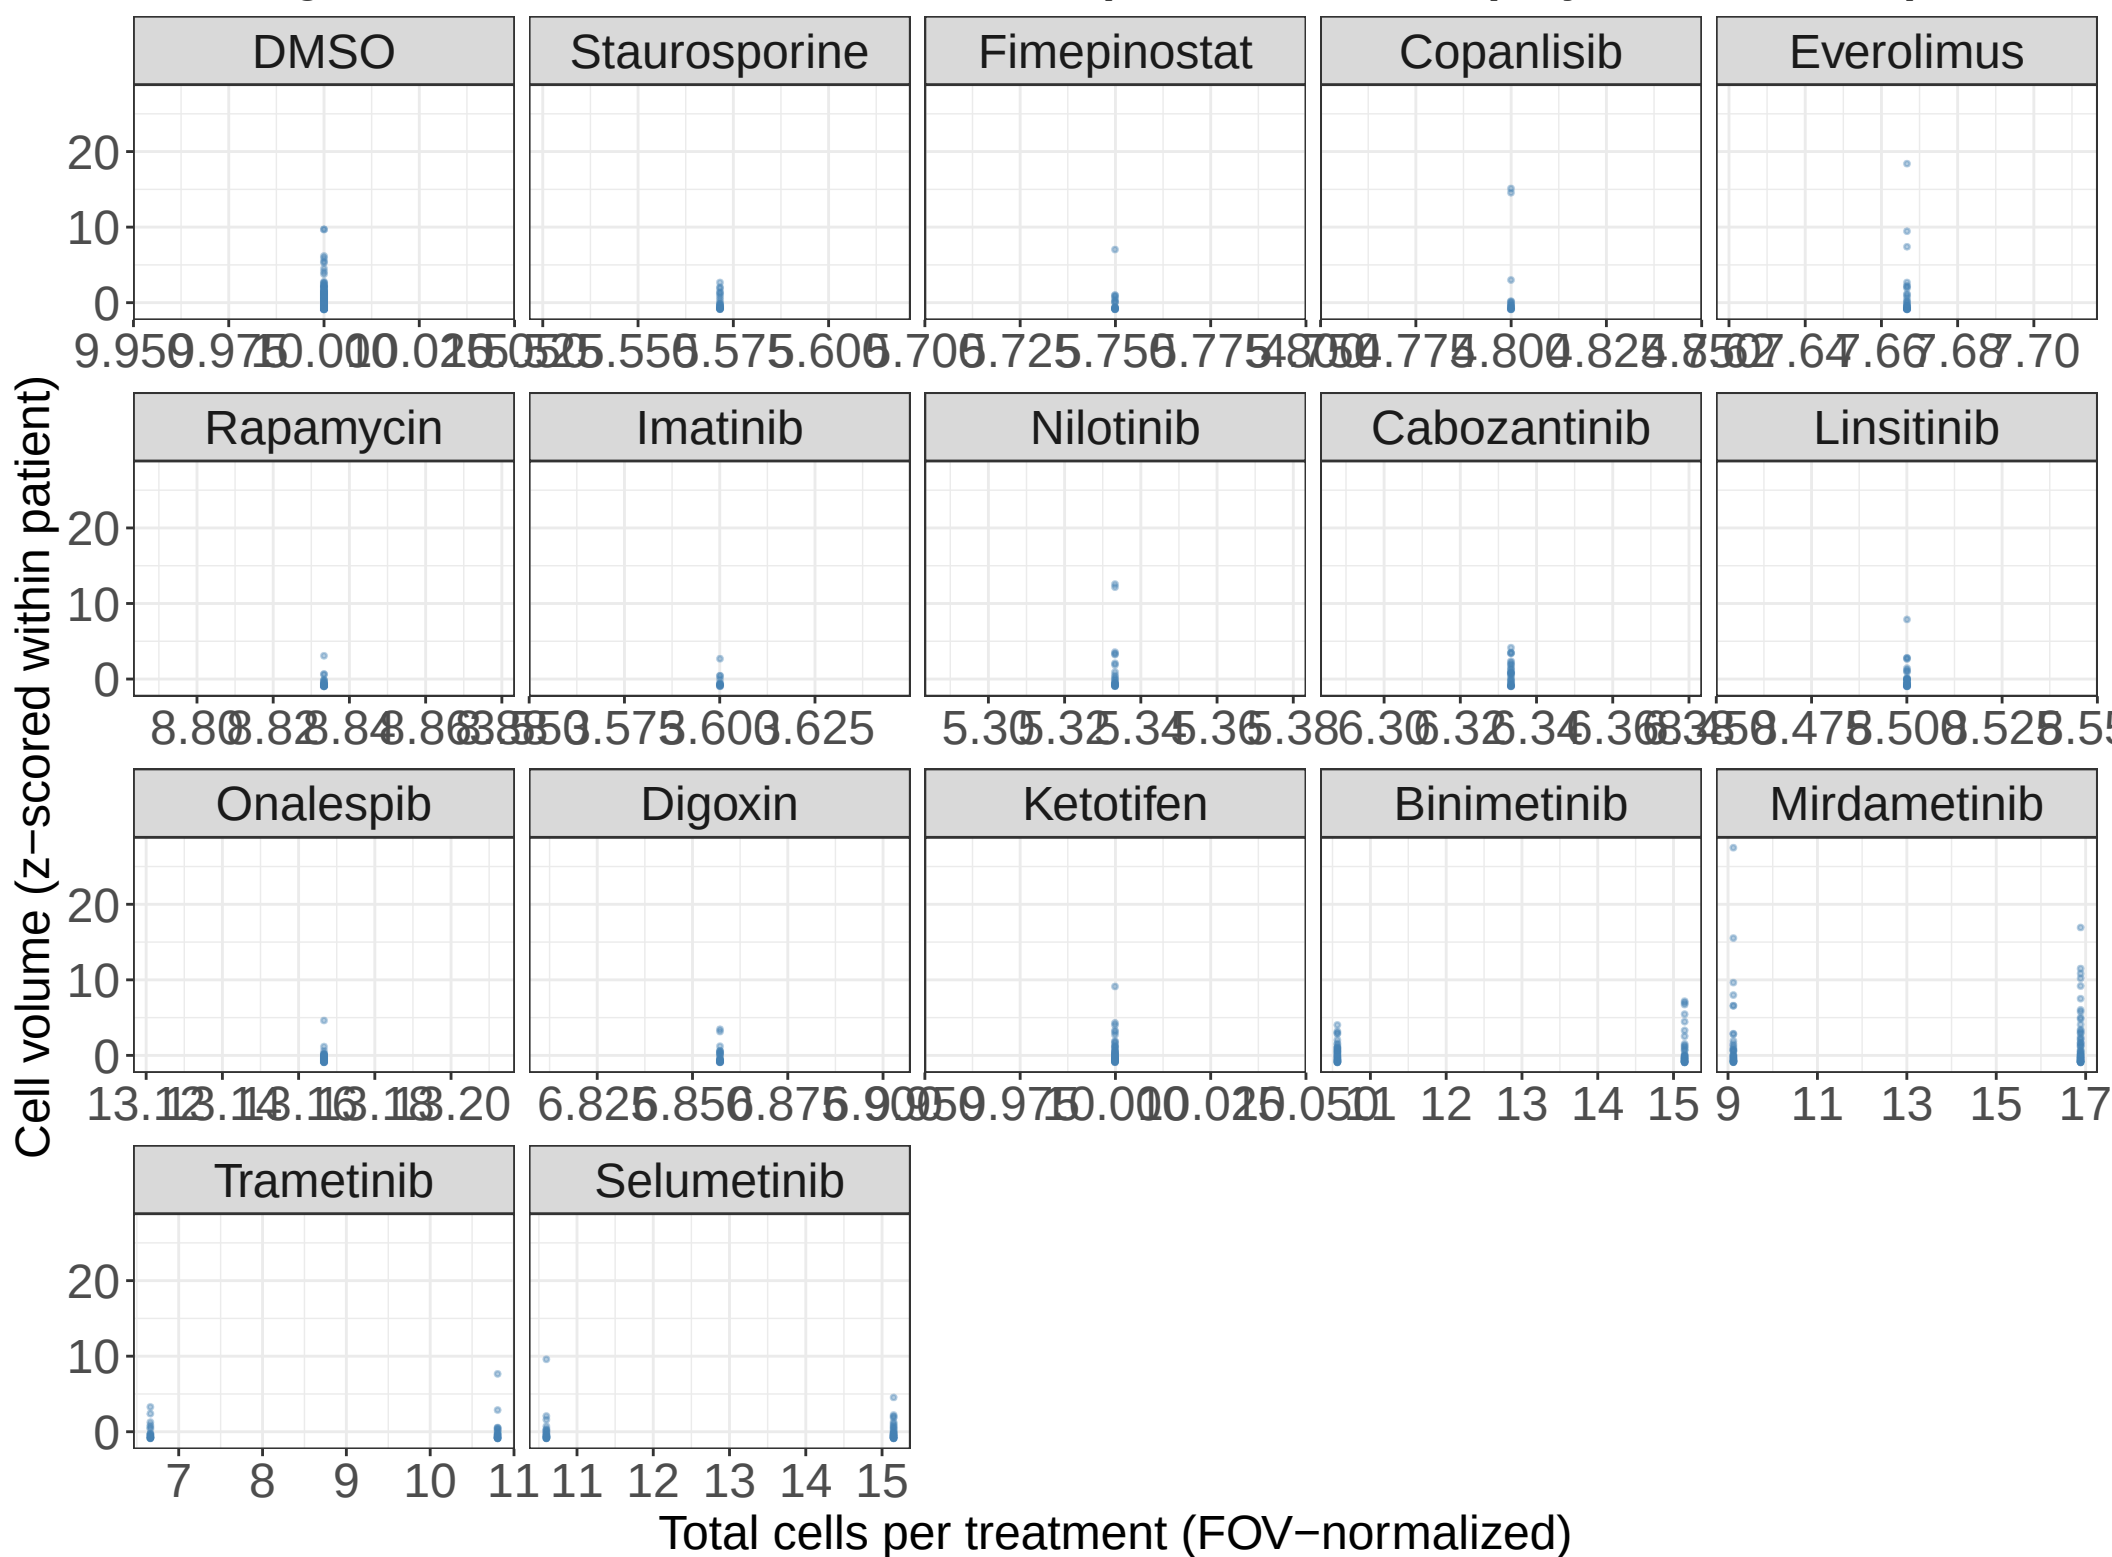

3D: single-cell volume vs. total cell count (FOV-normalized), by treatment -- patient N

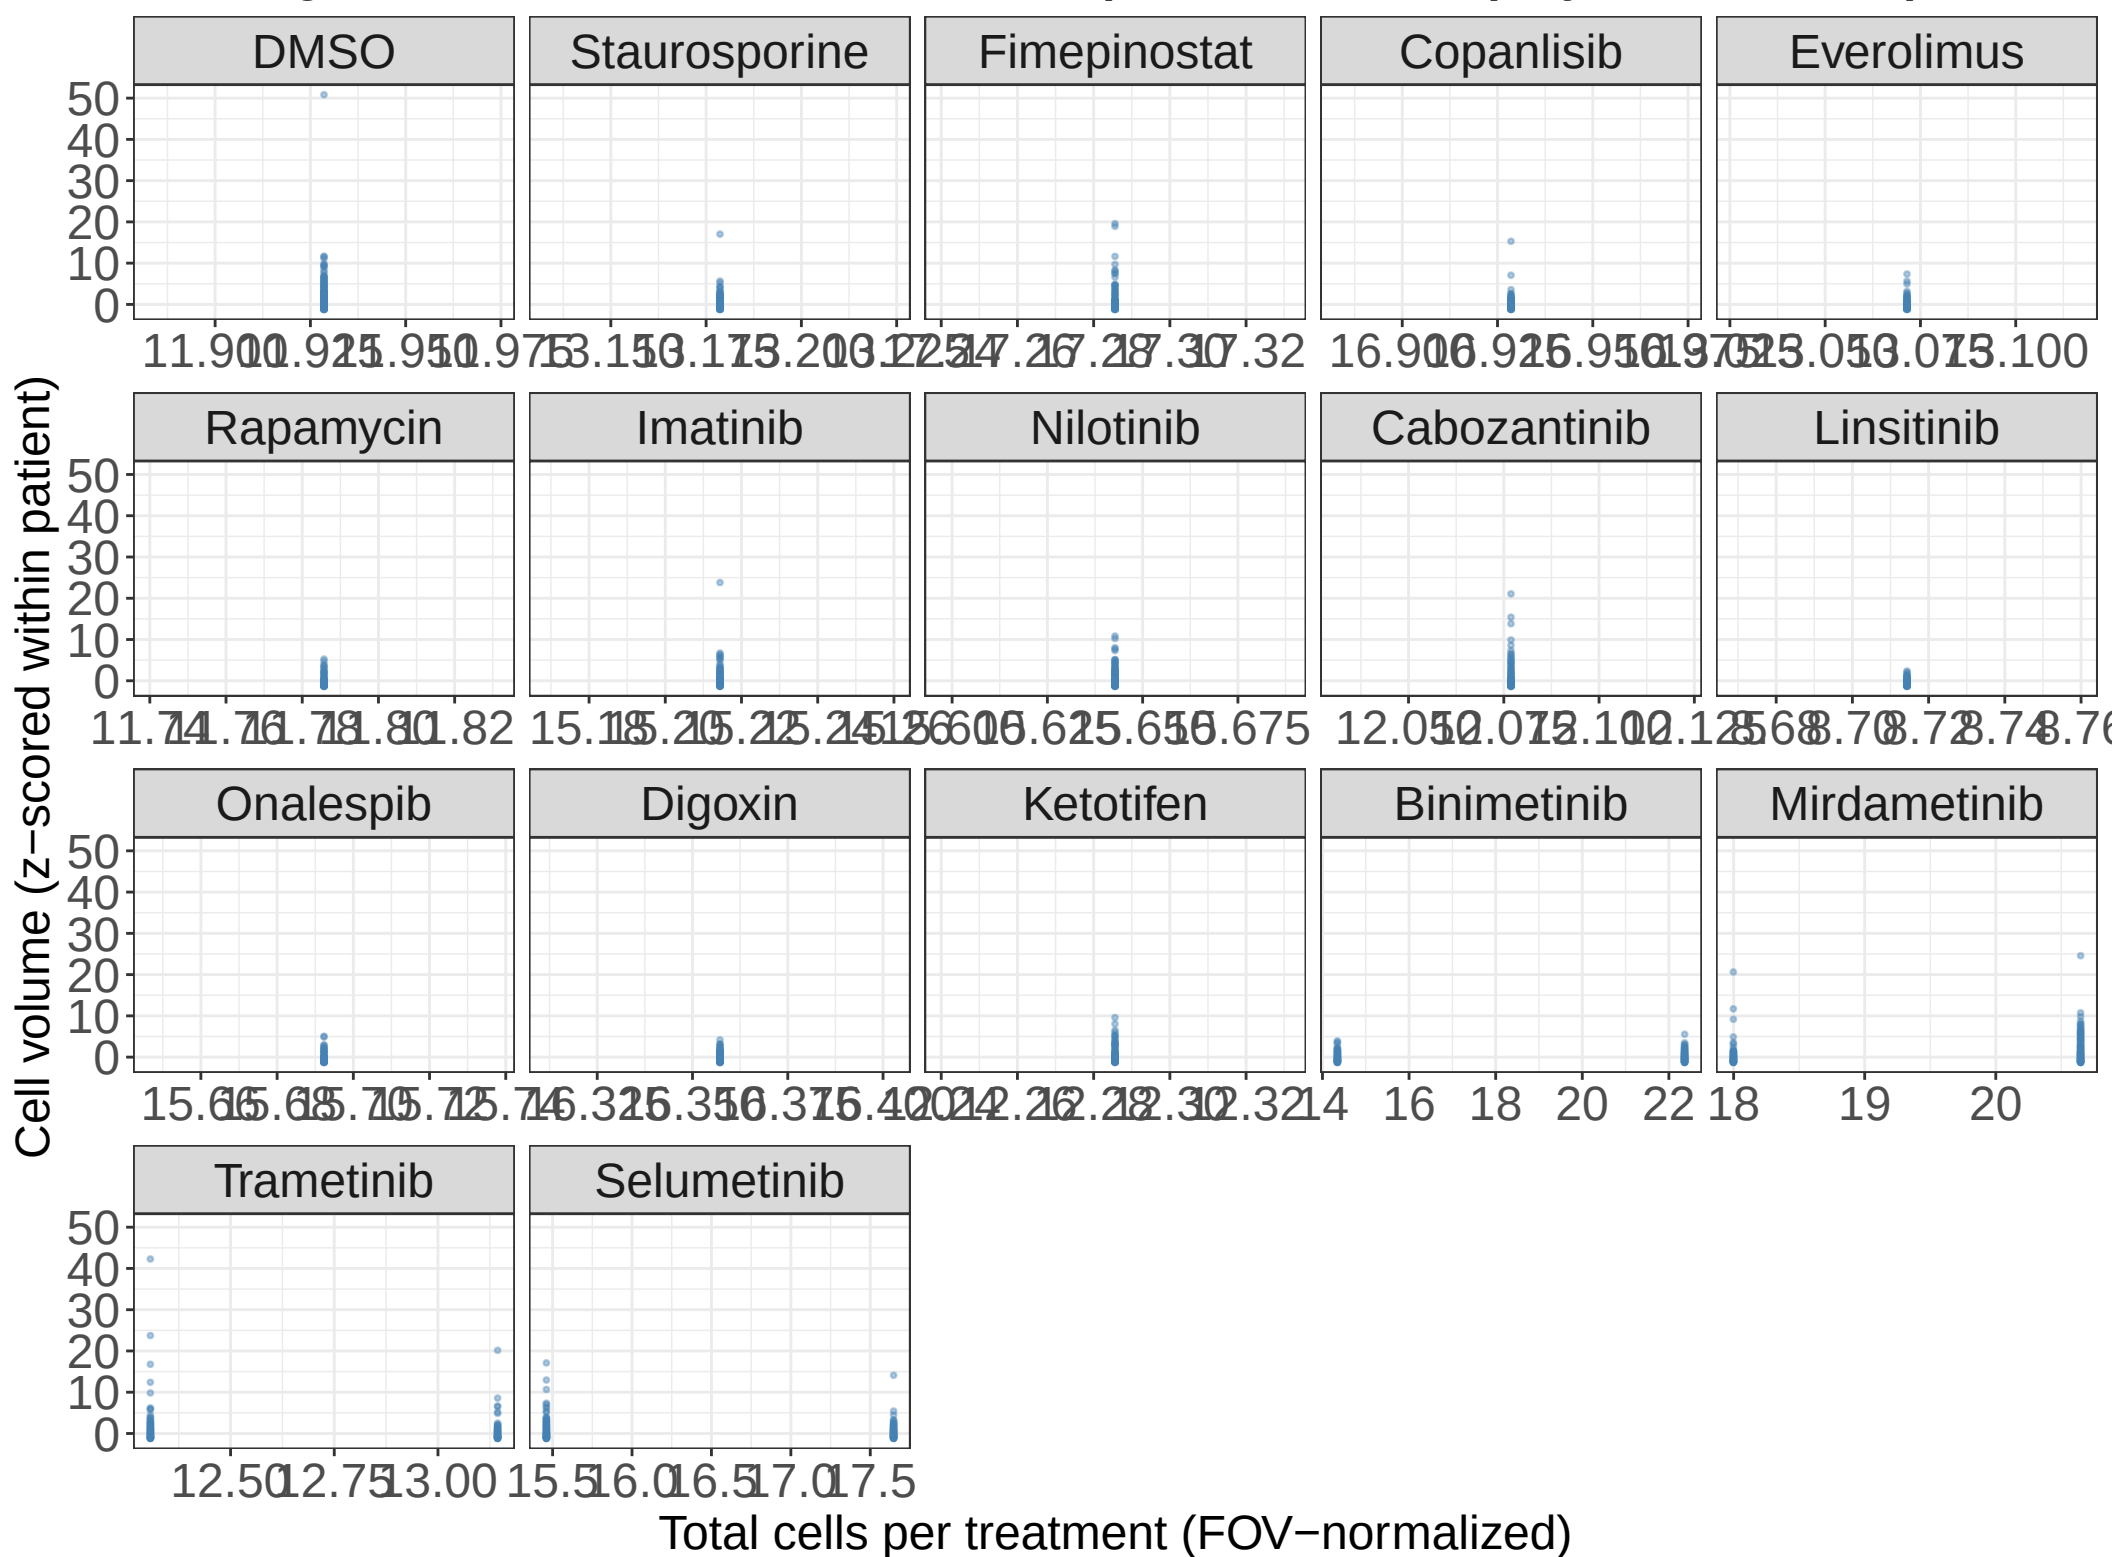

3D: single-cell volume vs. total cell count (FOV-normalized), by treatment -- patient N

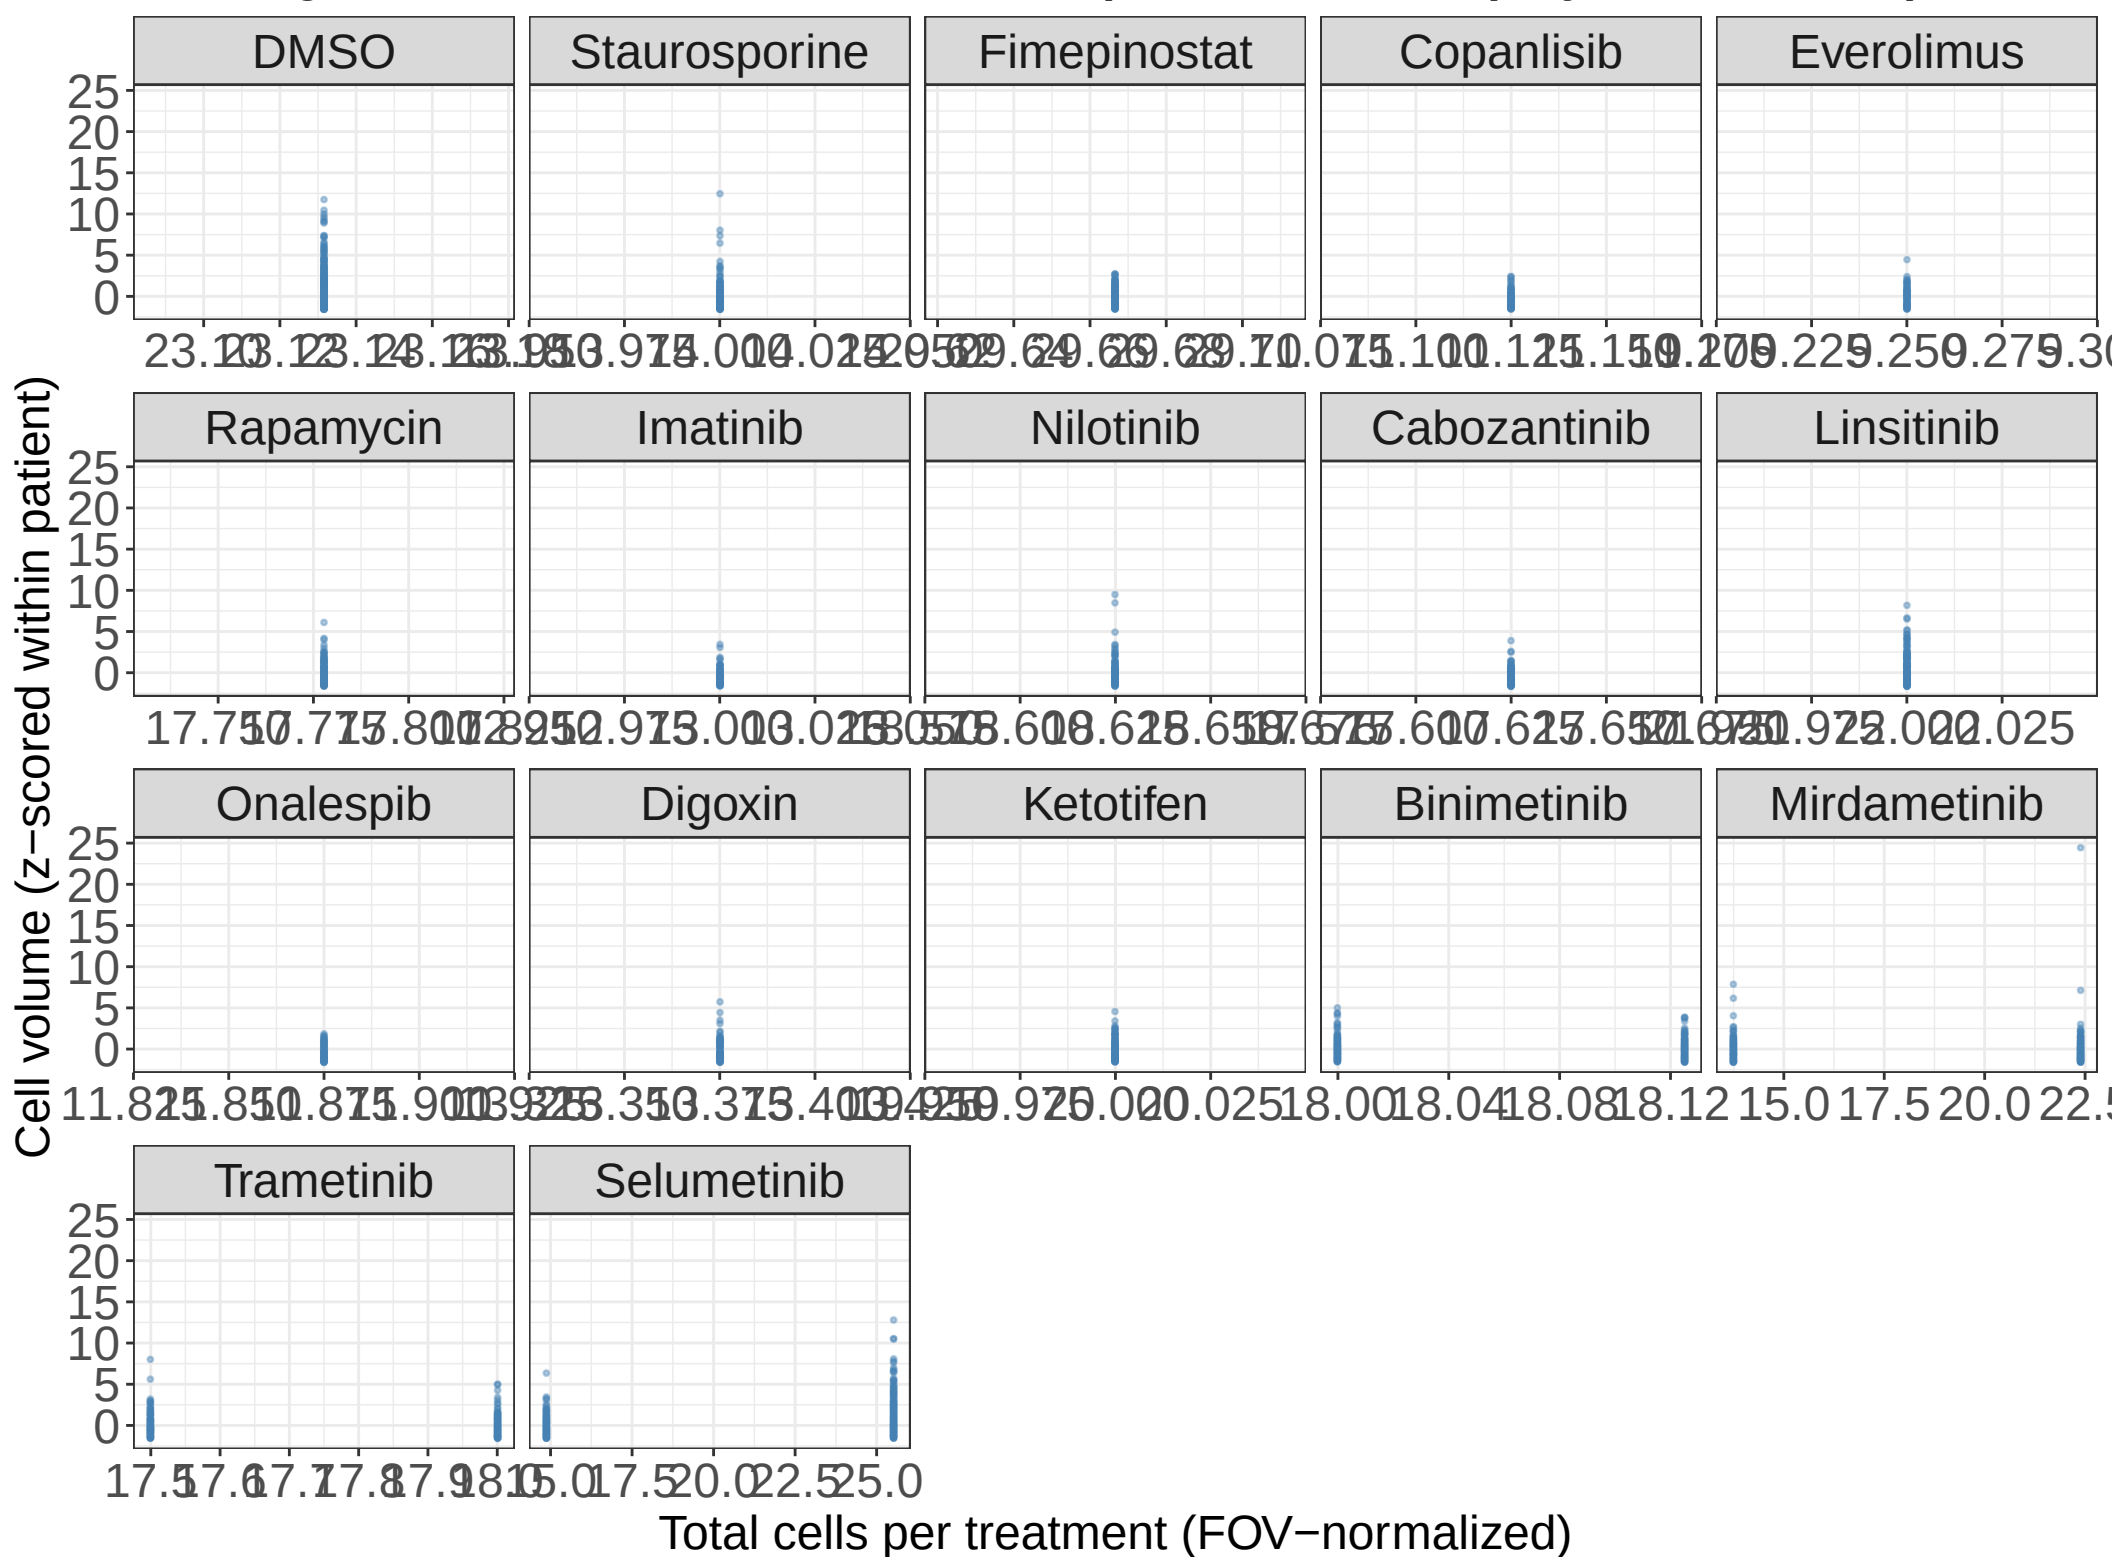

3D: single-cell volume vs. total cell count (FOV-normalized), by treatment -- patient N

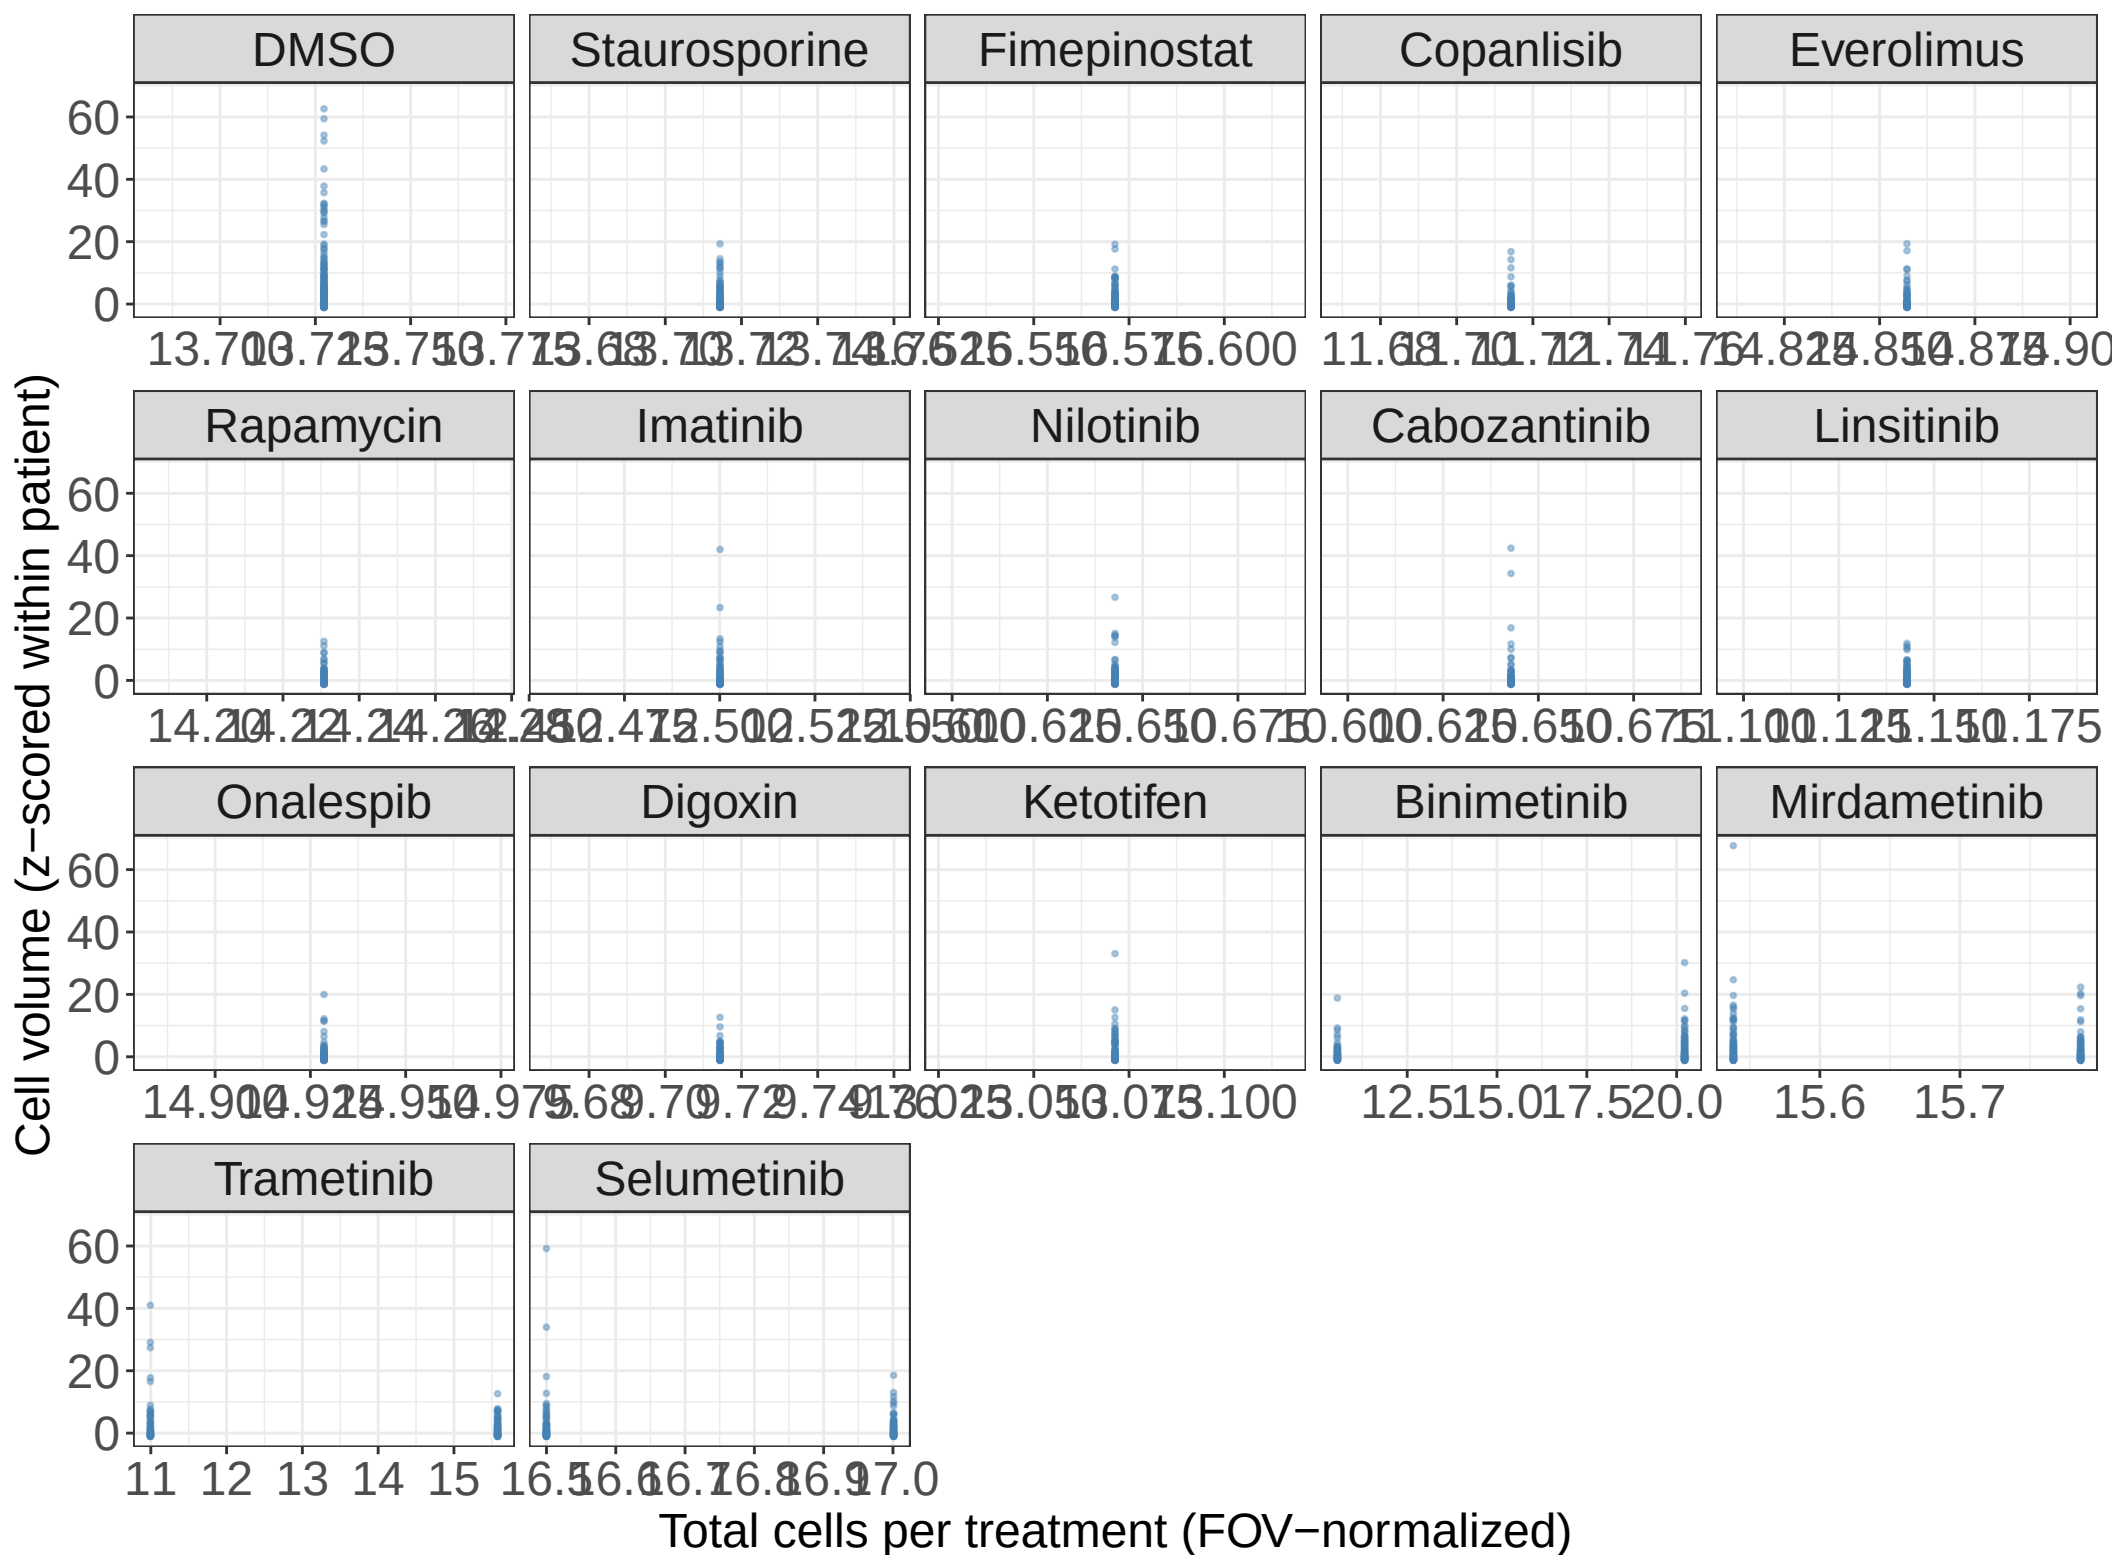

3D: single-cell volume vs. total cell count (FOV-normalized), by treatment -- patient N

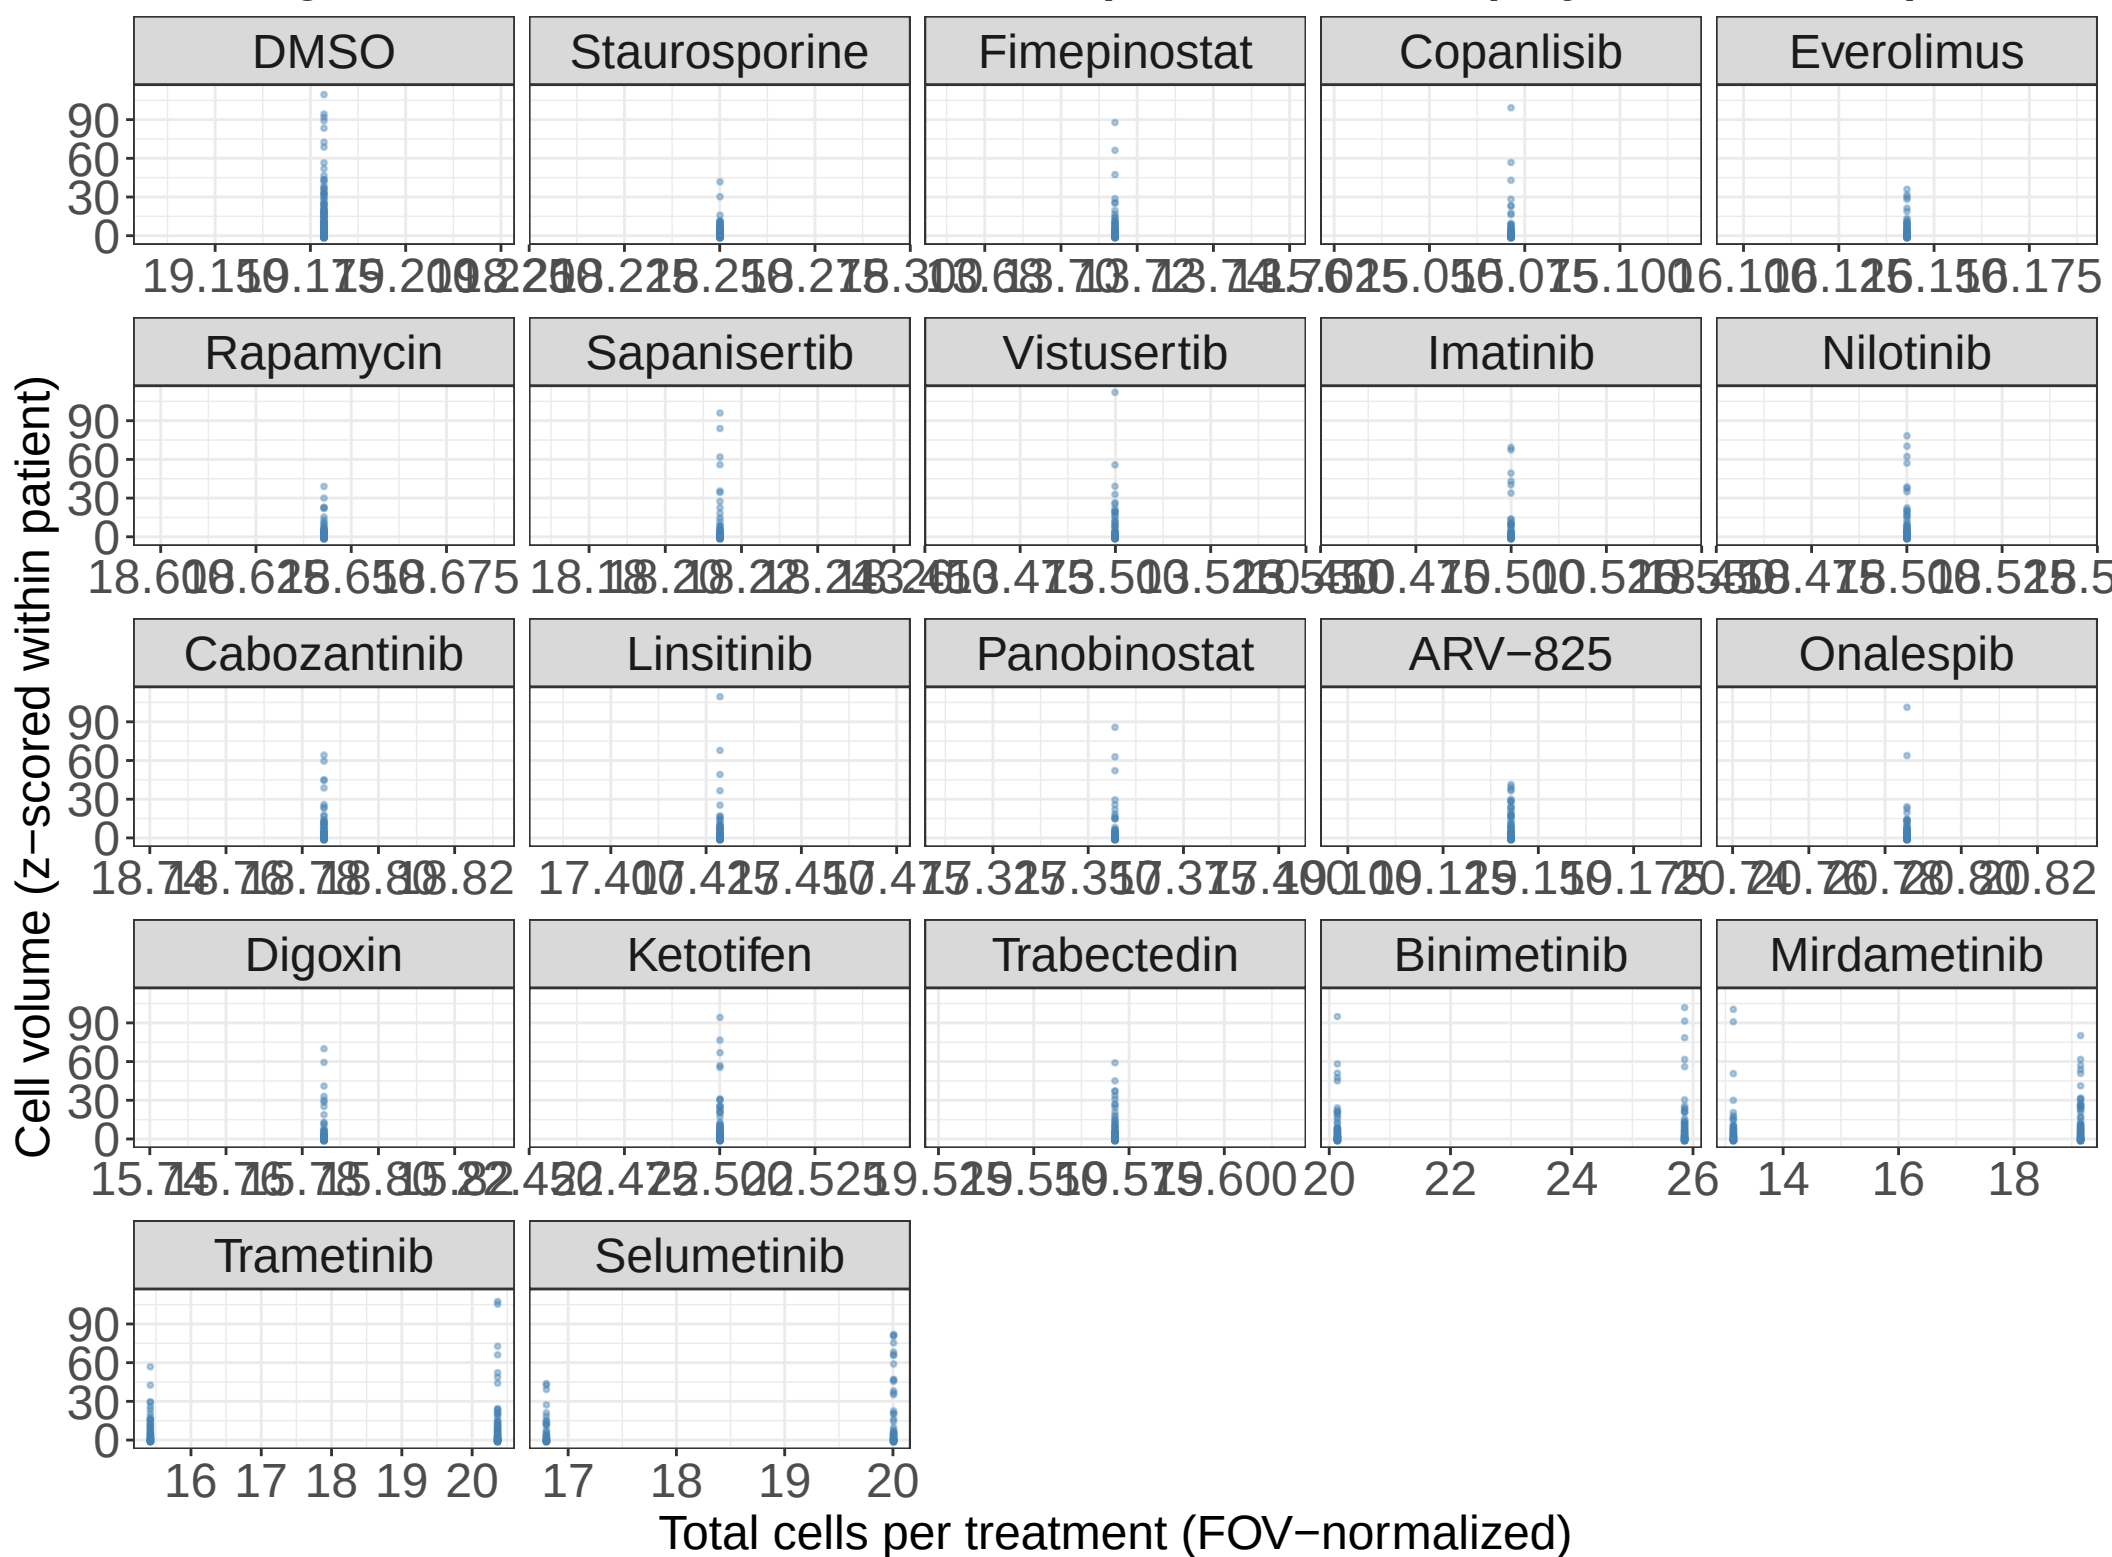

3D: single-cell volume vs. total cell count (FOV-normalized), by treatment -- patient N

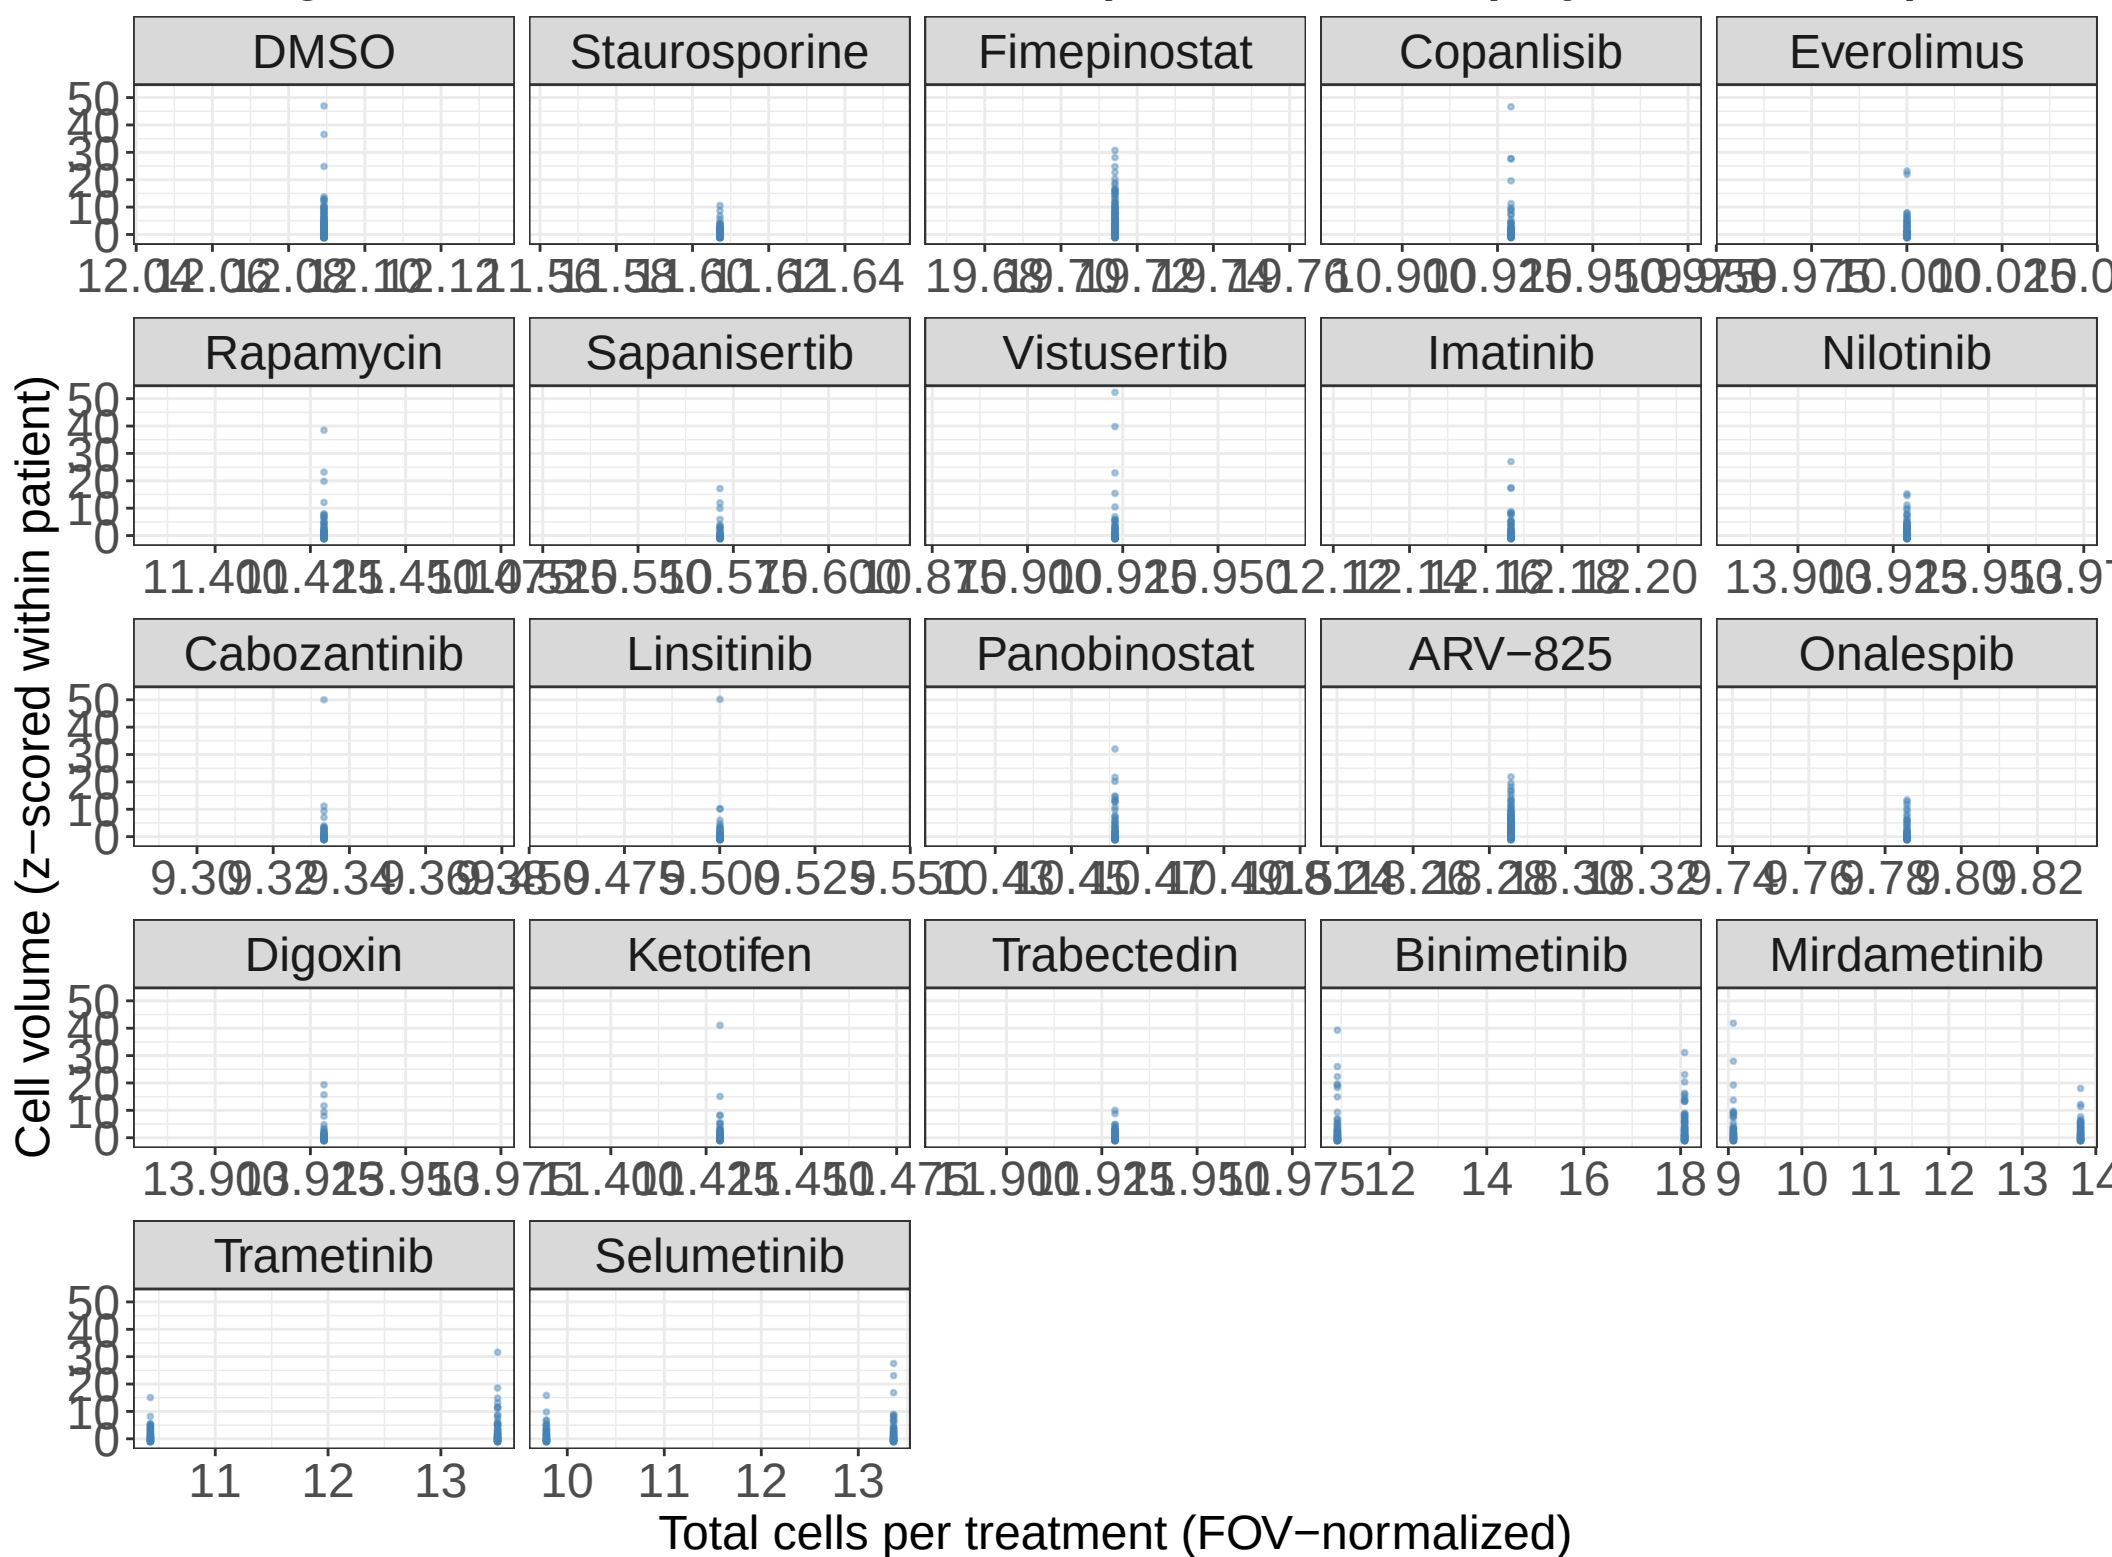

3D: single-cell volume vs. total cell count (FOV-normalized), by treatment -- patient N

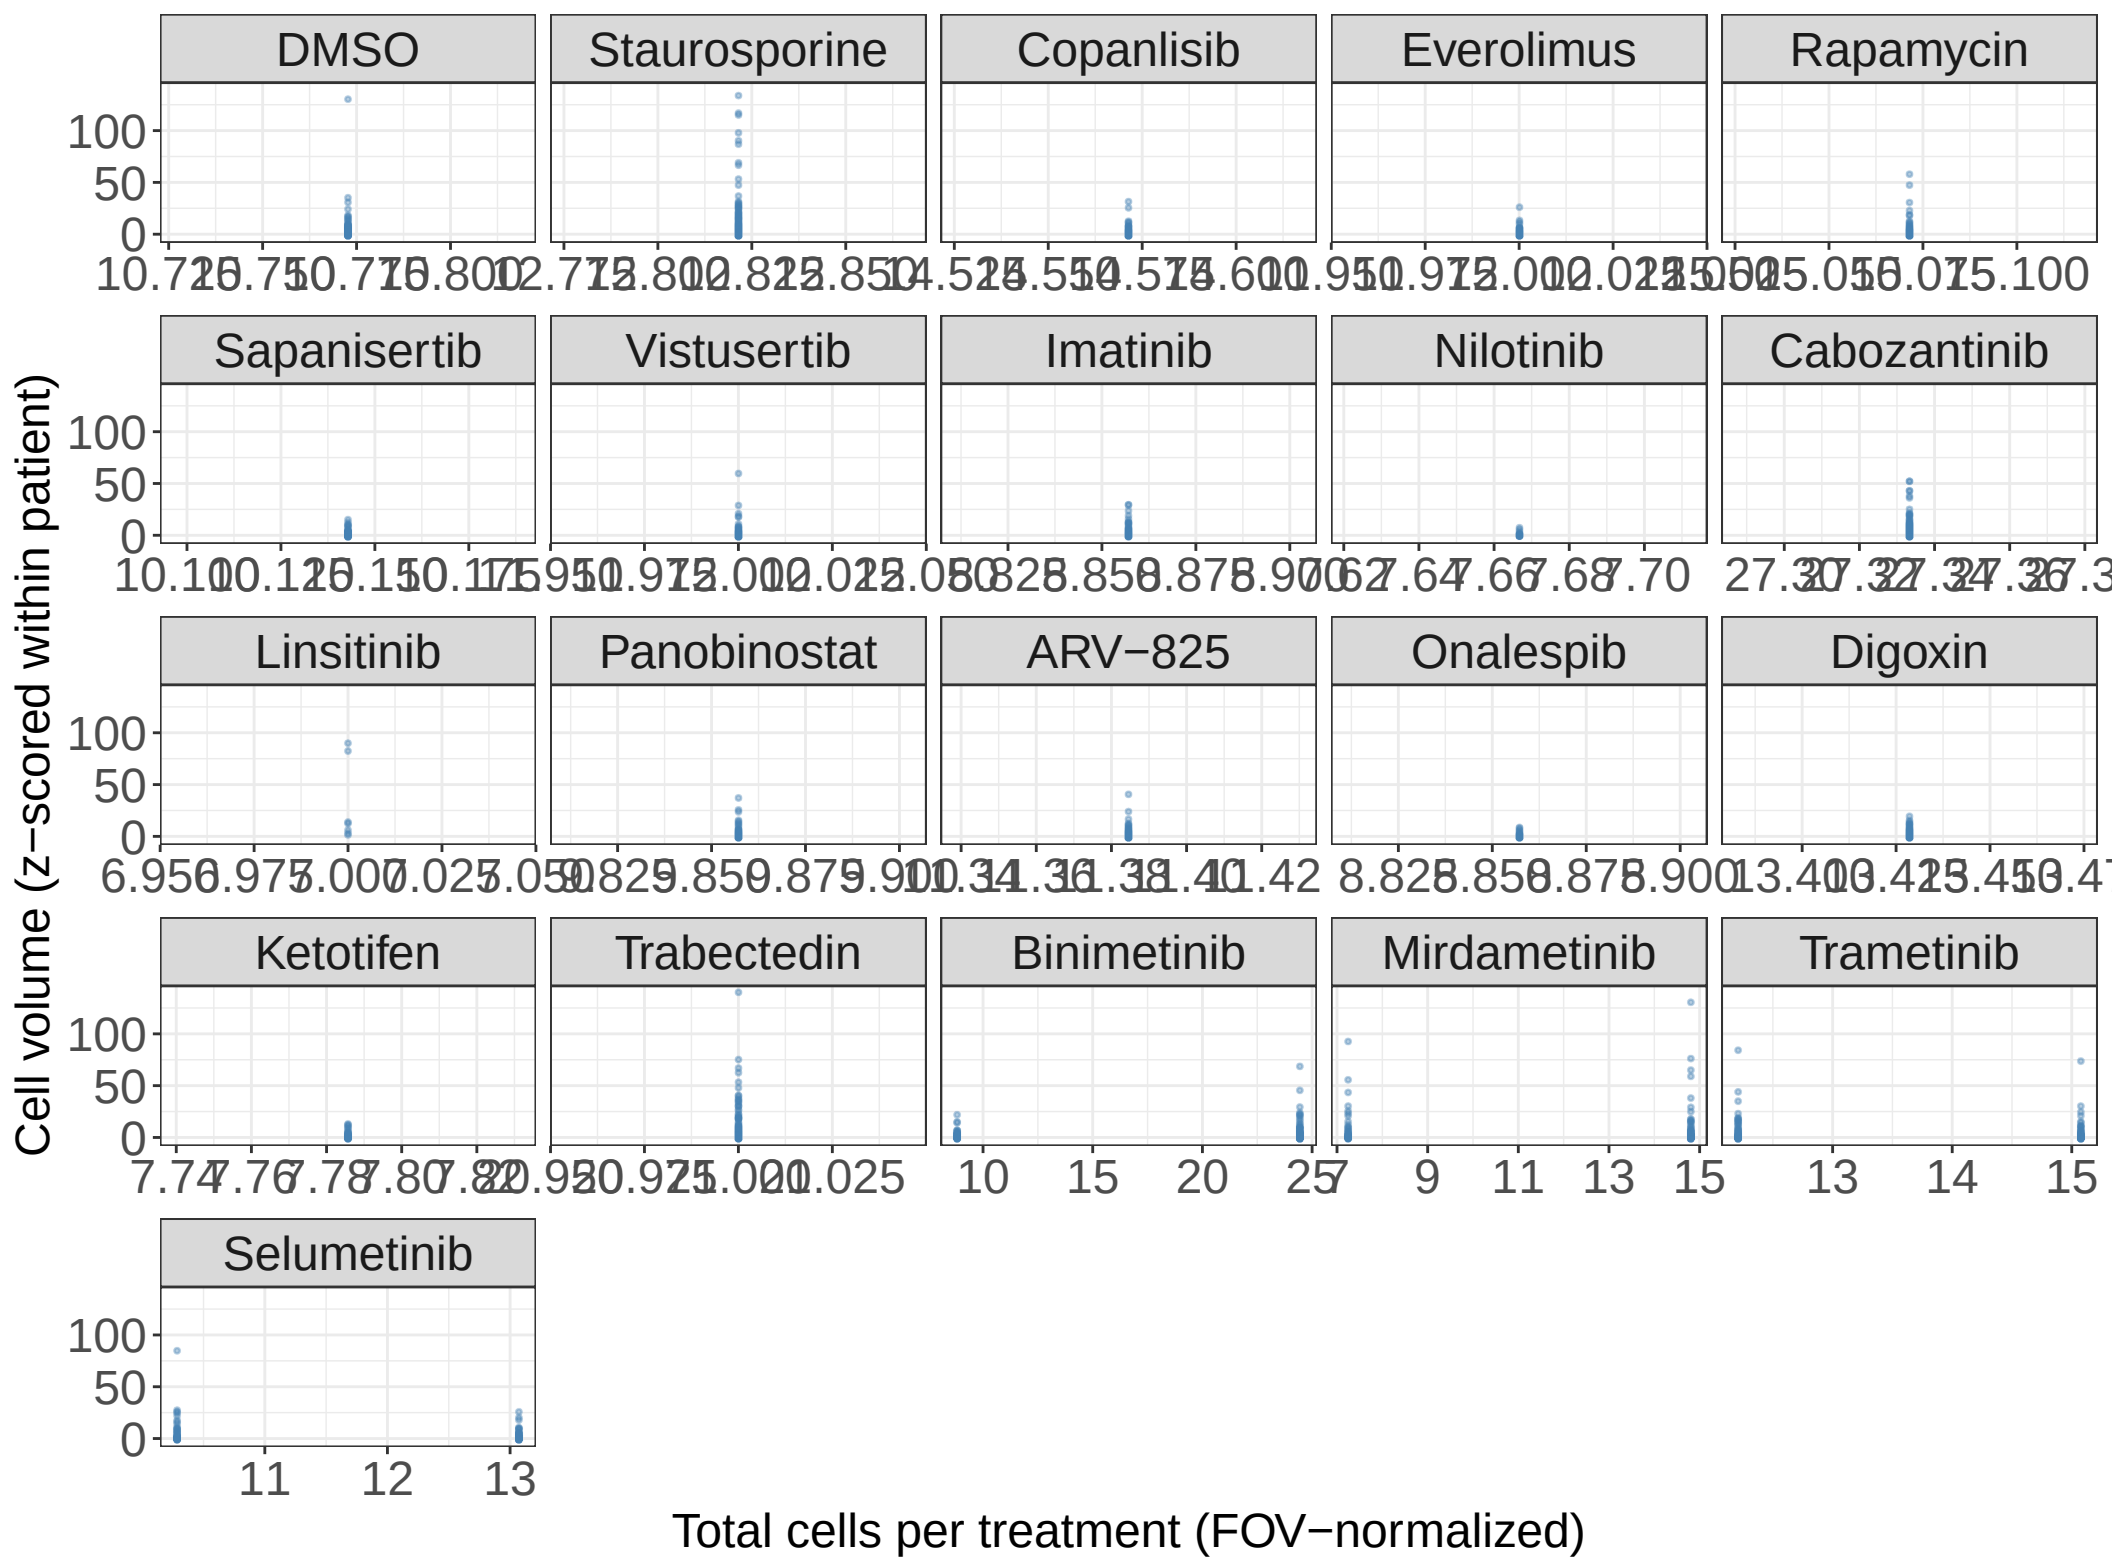

3D: single-cell volume vs. total cell count (FOV-normalized), by treatment -- patient N

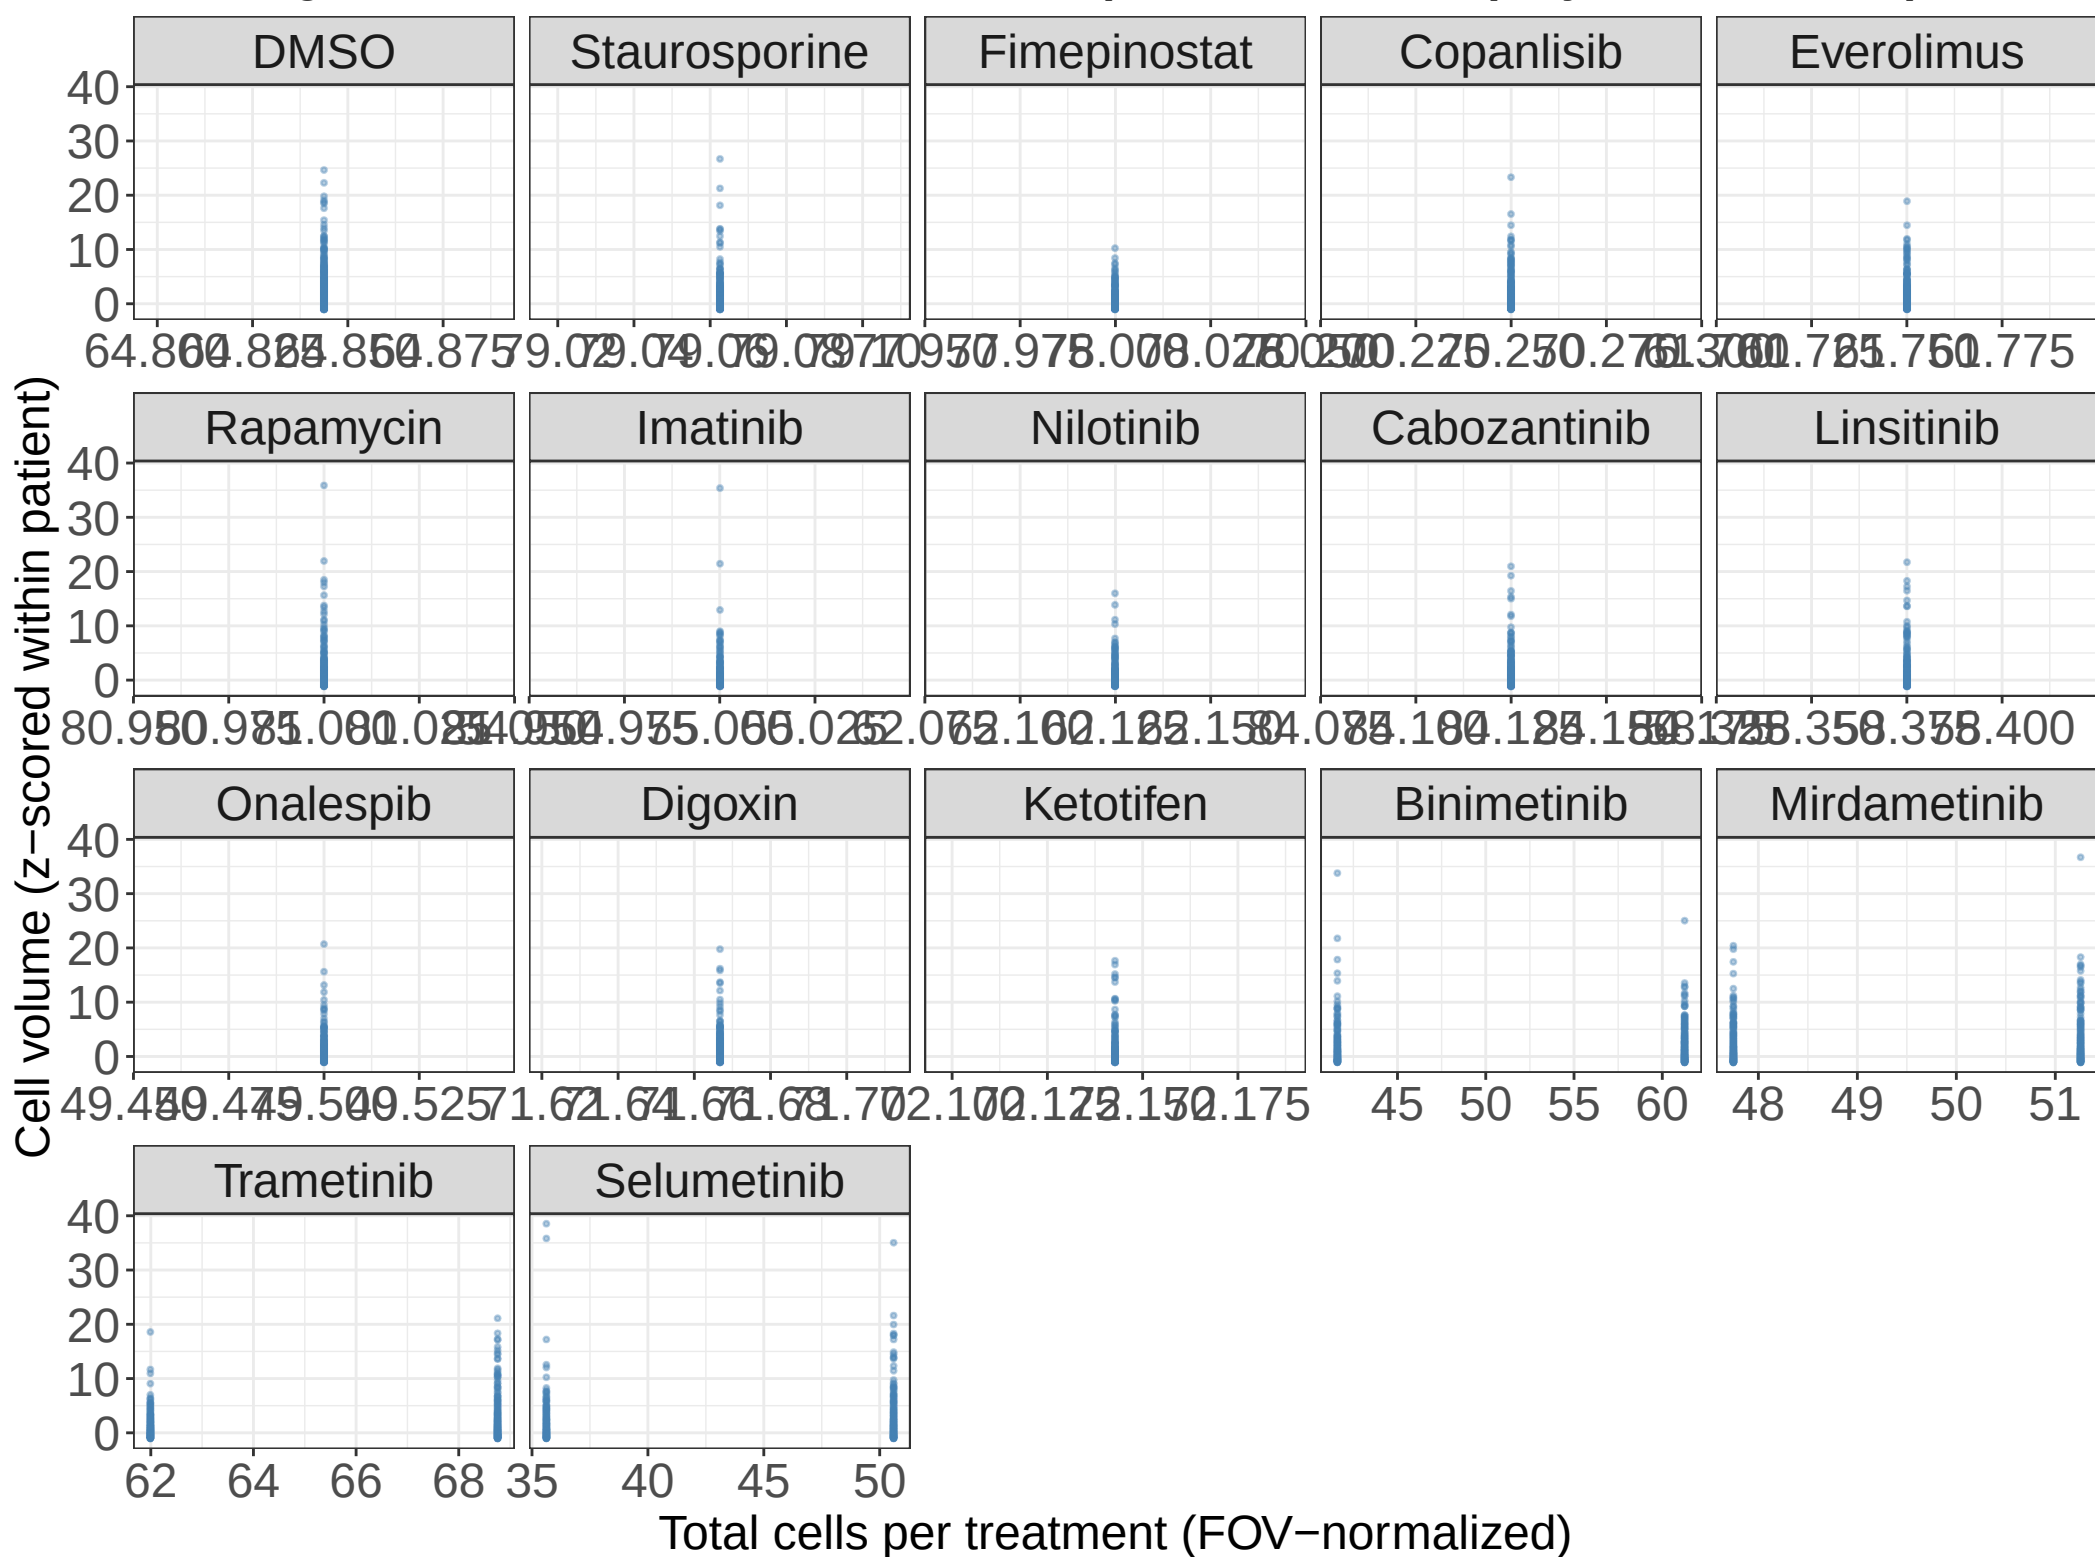

3D: single-cell volume vs. total cell count (FOV-normalized), by treatment -- patient N

3D: single-cell volume vs. total cell count (FOV-normalized), by treatment -- patient 1

3D: single-cell volume vs. total cell count (FOV-normalized), by treatment -- patient S

3D: single-cell volume vs. total cell count (FOV-normalized), by treatment -- patient S
